10. Power of Magistrates to direct boys under sixteen sentenced to imprisonment to be sent to Reformatory Schools.
11. Preliminary enquiry and finding as to age of youthful offender.
12. Government to determine Reformatory School to which such offenders shall be sent.
13. Persons found to be over eighteen years not to be detained in Reformatory Schools.
14. Discharge or removal by order of Government.
15. Power to Governor General in Council to direct use of Reformatories in one province for reception of youthful offenders from another.
16. Certain orders not subject to appeal or revision.

III.—Management of Reformatory Schools.

17. Appointment of Superintendent and Committee of Visitors or Board of Management.
18. Superintendent may license youthful offenders to employers of labour.
19. Cancellation of license.
20. Determination of license.
21. Cancellation of license in case of ill-treatment.
22. Superintendent to be deemed guardian of youthful offenders.
    Power to apprentice youthful offender.
23. Duties of Committee of Visitors.
24. Powers of Board of Management.
25. Power to appoint Trustees or other Managers of a school to be a Board of Management.
26. Power of Board to make rules.

IV.—Offences in relation to Reformatory Schools.

27. Penalty for introduction or removal or supply of prohibited articles and communication with youthful offenders.
28. Penalty for abetting escape of youthful offender.
29. Arrest of escaped youthful offender.

V.—Miscellaneous.

30. Application of Act XV of 1869 to youthful offenders detained in Reformatory Schools.
31. Power to deal in other ways with youthful offenders including girls.
32. Procedure when youthful offender under detention in a Reformatory School is again convicted and sentenced.

No. II.

A Bill to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders.

WHEREAS it is expedient to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders; It is hereby enacted as follows :—

I.—Preliminary.

Title, commencement and extent.

1. (*1*) This Act may be called the Reformatory Schools Act, 1897, *and*

(*2*) It shall come into force *at once.*

(*3*) *This section and section 2 shall extend to the whole of British India. The other sections shall extend in the first instance to the whole of British India except the territories for the time being administered by the Lieutenant-Governor of the Punjab and the Chief Commissioner of Coorg, but either of the said Local Governments may at any time, by notification in the local official Gazette, extend these sections to their territories from such day as may be fixed in any such notification.*

Repeal of Act V of 1876.

2. (*1*) The Reformatory Schools Act, 1876, is hereby repealed.

(*2*) But all proceedings taken, orders passed, officers appointed or authorised and rules made under the said Act shall, as far as may be, be deemed to have been respectively passed, appointed or authorised and made under this Act.

(*3*) Any enactment or document referring to the said Act shall, as far as may be, be construed to refer to this Act, or to the corresponding portion thereof.

Section 390 of Act X of 1882 repealed on date fixed by a notification under section 1, sub-section (*3*).

3. *From the date fixed by any notification issued under section 1, sub-section* (*3*), section 390 of the Code of Criminal Procedure, 1882, *shall be* repealed *in the province to which the notification relates.*

Definitions.

4. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "youthful offender" means any boy who has been convicted of any offence punishable with transportation or imprisonment and who, at the time of such conviction, was under the age of *fifteen* years;

(*b*) "Inspector-General" includes any officer appointed by the Local Government to perform all or any of the duties imposed by this Act on *the Inspector-General; and*

(*c*) *"District Magistrate" shall include a Chief Presidency Magistrate.*

II.—Reformatory Schools.

Power to establish and discontinue Reformatory Schools. [Sec. 4]

5. With the previous sanction of the Governor General in Council, the Local Government may—

(*a*) establish *and maintain* Reformatory Schools at such places as it may think fit;

(*b*) use as Reformatory Schools schools kept by persons willing to act in conformity with such rules, consistent with this Act, as the Local Government may prescribe in this behalf;

(*c*) direct that any school so established or used shall cease to exist as a Reformatory School or to be used as such.

Requisites of schools. [Sec 5]

6. Every school so established or used must provide—

(*a*) sufficient means of separating the inmates at night;

(*b*) proper sanitary arrangements, water-supply, food, clothing and bedding for the youthful offenders detained therein;

(*c*) the means of giving such youthful offenders industrial training;

(*d*) an infirmary or proper place for the reception of such youthful offenders when sick.

Inspection of Reformatory School. [Sec. 6.]

7. (*1*) Every school intended to be established or used as a Reformatory School shall, before being used as such, be inspected by the Inspector-General, and if he finds that the requirements of section 6 have been complied with, and that, in his opinion, such school is fitted for the reception of such youthful offenders as may be sent there under this Act, he shall certify to that effect, and such certificate shall be published in the local official Gazette, together with an order of the Local Government establishing the school as a Reformatory School or directing that it shall be used as such, and the school shall thereupon be deemed to be a Reformatory School.

(*2*) Every such school shall, from time to time and at least once in every year, be visited by the said Inspector-General, who shall send to the Local Government a report on the condition of the school in such form as the Local Government may prescribe

Power of Courts to direct youthful offenders to be sent to Reformatory Schools. [Sec. 7]

8. (*1*) Whenever any youthful offender is sentenced to transportation or imprisonment, and is, in the judgment of the Court by which he is sentenced, a proper person to be an inmate of a Reformatory

School, the Court may, *subject to any rules made by the Local Government*, direct that, instead of undergoing his sentence, he shall be sent to such a school, and be there detained for a period which shall be *not* less than *three* or more than seven years.

(2) The powers so conferred on the Court by this section shall be exercised only by (*a*) the High Court, (*b*) a Court of Session, (*c*) a District Magistrate, and (*d*) *any* Magistrate specially empowered by the Local Government in this behalf, *and may be exercised by such Courts whether the case comes before them originally or on appeal.*

(3) *The Local Government may make rules for*—

(*a*) *defining what youthful offenders should be sent to Reformatory Schools, having regard to the nature or their offences or other considerations, and*

(*b*) *regulating the periods for which youthful offenders may be sent to such schools according to their ages or other considerations.*

[New] Procedure where Magistrate is not empowered to pass an order under section 8

9. (1) When any Magistrate not empowered to pass an order under the last foregoing section is of opinion that a youthful offender *convicted* by him is a proper person to be an inmate of a Reformatory School, he may, *without passing sentence*, record such opinion and submit his proceedings and forward the youthful offender to the District Magistrate to whom he is subordinate.

(2) The Magistrate to whom the proceedings are so submitted, may make such further inquiry (if any) as he may think fit and pass such *sentence and* order for the detention in a Reformatory School of the youthful offender, or otherwise, as he might have *passed* if such youthful offender had been originally tried by him

Power of Magistrates to direct boys under sixteen sentenced to imprisonment to be sent to Reformatory Schools.

10. The officer in charge of *a* prison in which *a* youthful offender is confined, *in execution of a sentence of imprisonment*, may bring him, *if he has not then attained the age of fifteen years*, before the District Magistrate within whose jurisdiction such prison is situate; and such Magistrate may, if such youthful offender appears to be a proper person to be an inmate of a Reformatory School, direct *that, instead of undergoing the residue of his sentence, he shall* be sent to a Reformatory School, and there detained for a period which shall be subject to the same limitations as are *prescribed by or under* section 8, with reference to the period of detention thereby authorised.

[New] Preliminary enquiry and finding as to age of youthful offender.

11. (1) Before directing any youthful offender to be sent to a Reformatory School under section 8, section 9 or section 10, the Court or Magistrate shall inquire into the question of his age and, after taking such evidence (if any) as may be deemed necessary, shall record a finding thereon, *stating his age as nearly as may be.*

(2) *A similar inquiry shall be made and finding recorded by every Magistrate not empowered to pass an order under section 8 before submitting his proceedings and forwarding the youthful offender to the District Magistrate as required by section 9, sub-section (1).*

[Sec 9] Government to determine Reformatory School to which such offenders shall be sent.

12. Every youthful offender directed by a Court or Magistrate to be sent to a Reformatory School shall be sent to such Reformatory School as the Local Government may *by general or special order* appoint for the reception of youthful offenders so dealt with by such Court or Magistrate:

Provided that, if accommodation in a Reformatory School is not immediately available for such youthful offender, he may be *detained* in the juvenile ward or such other suitable part of a prison as the Local Government may direct—

(*a*) *until he can be sent to a Reformatory School or*

(*b*) *until the term of his original sentence expires,*

whichever event may first happen. Should the term of his original sentence first expire, he shall thereupon be released, but, should he be sent to a Reformatory School, then the period of *detention previously* undergone shall be treated as detention in a Reformatory School.

[Sec 10.] Persons found to be over eighteen years not to be detained in Reformatory Schools.

13. (1) *If at any time after a youthful offender has been sent to a Reformatory School it appears to the Committee of Visitors or Board of Management, as the case may be, that the age of such youthful offender has been understated in the order for detention, and that he will attain the age of eighteen years before the expiration of the period for which he has been ordered to be detained, they shall report the case for the orders of the Local Government.*

(2) *No person shall be detained in a Reformatory School after he has been found by the Local Government to have attained the age of eighteen years.*

[Sec. 11.] Discharge or removal by order of Government

14. The Local Government may at any time order any youthful offender—

(*a*) to be discharged from a Reformatory School;

(*b*) to be removed from one Reformatory School to another such school situate within the territories subject to such Government: Provided that the whole period of his detention in a Reforma-

tory School shall not be increased by such removal.

15 (*1*) *The Governor General in Council may by general or special order direct that any Reformatory School situated in one province shall be available for the reception of youthful offenders directed to be sent to any Reformatory School by any Court or Magistrate in any other province*

Power to Governor General in Council to direct use of Reformatories in one province for reception of youthful offenders from another.

(*2*) *Any such order may also provide for the removal of the youthful offender and the cost of his maintenance, and may give any such further directions as may be necessary.*

16. Nothing contained in the Code of Criminal Procedure, 1882, shall be construed to authorise any Court or Magistrate to alter or reverse *in appeal or revision* any order passed *with respect to the age of a youthful offender or the substitution of an order for detention in a Reformatory School for transportation or imprisonment.*

Certain orders not subject to appeal or revision.

III—Management of Reformatory Schools

17. (*1*) For the control and management of every Reformatory School, the Local Government shall appoint either (*a*) a Superintendent and a Committee of Visitors, or (*b*) a Board of Management.

Appointment of Superintendent and Committee of Visitors or Board of Management.

(*2*) Every Committee and every Board so appointed must consist of not less than five persons, of whom two at least shall be Natives of India.

(*3*) The Local Government may suspend or remove any Superintendent or any Member of a Committee or Board so appointed.

18. (*1*) Every Superintendent so appointed may *with the sanction of the Committee* by license under his hand permit any youthful offender sent to a Reformatory School who has attained the age of fourteen years, to live under the charge of any trustworthy and respectable person named in the license, or any officer of Government or of a Municipality, being an employer of labour and willing to receive and take charge of him, on the condition that the employer shall keep such youthful offender employed at some trade, occupation or calling.

Superintendent may license youthful offenders to employers of labour.

(*2*) The license shall be in force for three months and no longer, but may, at any time and from time to time until the expiration of the period for which the youthful offender has been directed to be detained, be renewed for three months at a time.

19. The license shall be cancelled at the desire of the employer named in the license.

Cancellation of license.

[Sec. 15]

20. If during the term of the license the employer named therein dies, or ceases from business, *or to employ labour* or the period for which the youthful offender has been directed to be detained in the Reformatory School expires, the license shall thereupon cease and determine.

Determination of license

[Sec. 16]

21 If it appears to the Superintendent that the employer has ill-treated the youthful offender, or has not adequately provided for his lodging and maintenance, the Superintendent may cancel the license.

Cancellation of license in case of ill-treatment.

[Sec 17.]

22. (*1*) The Superintendent of a Reformatory School shall be deemed to be the guardian of every youthful offender detained in such school, within the meaning of Act No XIX of 1850 (*concerning the binding of apprentices*).

Superintendent to be deemed guardian of youthful offenders.

[Here the words in italics are not new.]

(*2*) If it appears to the Superintendent that any youthful offender licensed under section 18 has behaved well during one or more periods of his license, the Superintendent may *with the sanction of the Committee* apprentice him under the provisions of the said Act, and on such apprenticement the right to detain such youthful offender in a Reformatory School shall cease and the unexpired term (if any) of his sentence shall be cancelled.

Power to apprentice youthful offender.

[Sec. 18.]

23 (*1*) Every Committee of Visitors appointed under section 17 for a Reformatory School shall, at least once in every month,—

Duties of Committee of Visitors

(*a*) visit the school, to hear complaints and see that the requirements of section 6 have been complied with, and that the management of the school is proper in all respects;

(*b*) examine the punishment-book,

(*c*) bring any special cases to the notice of the Inspector-General, and

(*d*) see that no person is illegally detained in the school.

(*2*) If any member of a Committee of Visitors so appointed fails or neglects, during a period of six consecutive months, to visit the school and assist in the discharge of the duties aforesaid, he shall cease to be a member of such Committee.

[Sec. 19]

24. If, in exercise of the power conferred by section 17, the Local Government appoints a Board of Management for any Reformatory School, such Board shall have the powers and perform the functions of the Superintendent under sections 18 to 22, both inclusive; and the license mentioned in section 18 may be under

Powers of Board of Management.

the hand of their chairman; and they shall be deemed to be the guardians of the youthful offenders detained in such school.

[Sec. 20.] Power to appoint Trustees or other Managers of a school to be a Board of Management.

25. The Local Government may declare any body of Trustees or Managers of a School, who are willing to act in conformity with the rules referred to in section 5, clause (*b*), to be a Board of Management under this Act, and thereupon such body or Managers shall have all the powers and perform all the functions of such Board of Management.

[Sec. 21.] Power of Board to make rules.

26. (*1*) With the previous sanction of the Local Government, every Board of Management of a Reformatory School may from time to time make rules consistent with this Act—

(*i*) to prescribe the articles which are to be deemed to be "prohibited articles"; and

(*ii*) to regulate—

(*a*) the conduct of business of the Board;

(*b*) the management of the school;

(*c*) the education and industrial training of youthful offenders;

(*d*) visits to, and communication with, youthful offenders.

(*e*) the terms and conditions under which any articles declared by the Board to be "prohibited articles" may be introduced into *or removed out of* the school;

(*f*) the manner in which such articles are to be removed when introduced without due authority;

(*g*) the conditions and limitations under which such articles may be supplied outside the school to any youthful offender under order of detention therein

(*h*) the conditions on which the possession by any such youthful offender of such articles may be sanctioned;

(*i*) the penalties to be imposed for the supply or possession of such articles when supplied or possessed without due authority;

(*j*) the punishment of offences committed by youthful offenders, and

(*k*) the granting of licenses for the employment of youthful offenders.

(*2*) In the absence of a Board of Management the Local Government may make rules consistent with this Act to regulate for any Reformatory School the matters mentioned in any clause of sub-section (*1*), other than clause (*ii*) (*a*), and also the mode in which the Committee of Visitors shall conduct their business.

IV.—Offences in relation to Reformatory Schools.

Penalty for introduction or removal or supply of prohibited articles and communication with youthful offenders.

27. Whoever, contrary to any rule made under section 26, introduces or *removes or* attempts by any means whatever to introduce *or remove into or from* any Reformatory School, or supplies or attempts to supply outside the limits of any Reformatory School to any youthful offender under order of detention therein, any prohibited article,

and every officer or person in charge of a Reformatory School who, contrary to any such rule, knowingly suffers any such article to be introduced into *or removed from* any Reformatory School, to be possessed by any youthful offender detained therein, or to be supplied to any such youthful offender outside its limits,

and whoever, contrary to any such rule, communicates or attempts to communicate with any such youthful offender,

and whoever abets any offence made punishable under this section,

shall, on conviction before a Magistrate, be liable to imprisonment for a term not exceeding six months, or to fine not exceeding two hundred rupees, or to both.

[Penalty for abetting escape or youthful offender.

28. Whoever abets an escape, or an attempt to escape, on the part of a youthful offender from a Reformatory School, or from the employer of such youthful offender, shall be punishable with imprisonment for a term which may extend to six months, or with fine not exceeding *two* hundred rupees, or with both.

Arrest of escaped youthful offender.

29. A Police-officer may without orders from a Magistrate and without a warrant, arrest any youthful offender sent to a Reformatory School under this Act, who has escaped from such school or from his employer, and take him back to such school or to his employer.

V.—Miscellaneous.

Application of Act XV of 1869 to youthful offenders detained in Reformatory Schools.

30. The provisions of the Prisoners' Testimony Act, 1869, shall be applied, so far as they can be made applicable, to youthful offenders detained in Reformatory Schools as if they were persons confined in jail within the meaning of that Act.

Power to deal in other ways with youthful offenders including girls.

31. (*1*) Notwithstanding anything contained in this Act or in any other enactment for the time being in force, any Court may, if it shall think fit, instead of sentencing any youthful offender to transportation or imprisonment or directing him to be detained in a Reformatory School, order him to be—

(*a*) discharged after due admonition, or

(*b*) delivered to his parent or to his guardian or nearest adult relative, on such parent, guardian or relative executing a bond, with or without sureties, as the Court may require, to be responsible for the good behaviour of the youthful offender for any period not exceeding twelve months.

(2) *For the purposes of this section the term "youthful offender" shall include a girl.*

(3) *The powers conferred on the Court by this section shall be exercised only by Courts empowered by or under section 8.*

(4) *When any youthful offender is convicted by a Court not empowered to act under this section and the Court is of opinion that the powers conferred by this section should be exercised in respect of such youthful offender, it may record such opinion and submit the proceedings and forward the youthful offender to the District Magistrate to whom such Court is subordinate.*

(5) *The District Magistrate to whom the proceedings are so submitted may thereupon make such order or pass such sentence as he might have made or passed if the case had originally been tried by him.*

Procedure when youthful offender under detention in a Reformatory School is again convicted and sentenced.

32. *When a youthful offender during his period of detention in a Reformatory School is again convicted by a Criminal Court, the sentence of such Court shall commence at once, notwithstanding anything to the contrary in section 397 of the Code of Criminal Procedure, 1882, but the Court shall forthwith report the matter to the Local Government which shall have power to deal with the matter in any way in which it thinks fit.*

X of 1882.

J. M. MACPHERSON,

Secretary to the Government of India

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February, 1897 :—

No. 4 OF 1897.

A Bill to amend the Indian Emigration Act, 1883.

WHEREAS it is expedient to amend the Indian Emigration Act, 1883; It is hereby enacted as follows :— XXI of 1883.

Short title and commencement.

1. (*1*) This Act may be called the Indian Emigration Act Amendment Act, 1897; and

(*2*) It shall come into force at once.

Amendment of section 102, Act XXI, 1883.

2. In section 102 of the Indian Emigration Act, 1883, as amended by Act No. XVIII of 1890, section 7, for the words "British colony or possession", wherever they occur, the word "country", and for the words "State, colony or possession", wherever they occur, the words "State or country", shall be substituted. XXI of 1883.

STATEMENT OF OBJECTS AND REASONS.

A Native of India who departs by sea out of British India under an agreement to labour for hire in the Straits Settlements, does not "emigrate" within the meaning of the Indian Emigration Act, 1883, and, under section 102 of that Act, the system of comparative freedom under which emigration (in the ordinary sense of the term) from British India to the Straits Settlements is conducted, can be extended only to a protected Native State adjoining the Straits Settlements or to a British Colony or possession. This limitation makes it impossible to extend the same system, which has many advantages, to certain other countries, such as Sarawak, which obtain their supply of labour from British India through the agency and under the general control of the Straits Immigration Department, and regarding which the Government of India may from time to time be satisfied that their administration is such that the freedom from legislative restrictions enjoyed by the Straits may be safely extended. It is, therefore, proposed to amend section 102 of Act XXI of 1883, so as to make it possible for the Governor General in Council, by notification in the Gazette of India, to declare that the departure of a Native of India under an agreement to labour for hire in any country for labour in which such persons are recruited exclusively through the agency of the Government of the Straits Settlements, is not "emigration" within the meaning of that enactment.

J. WOODBURN.

The 9th February, 1897.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February, 1897:—

NO. 5 OF 1897.

A Bill to enable local authorities to borrow money for temporary emergencies.

WHEREAS it is expedient to enable local authorities to borrow money for temporary emergencies, It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Local Authorities (Emergency) Loans Act, 1897.

(*2*) It extends to the whole of British India; and

(*3*) It shall come into force at once.

Power to local authorities to borrow in cases of famine or epidemic disease.

2. Notwithstanding anything contained in the Local Authorities Loan Act, 1870, or in any other law for the time being in force, a local authority as defined in that Act may, with the previous sanction of the Governor General in Council, borrow money on the security of its funds for any of the following purposes, namely —

(*1*) the giving of relief and the establishment and maintenance of relief-works in time of famine or scarcity;

(*2*) the prevention of the outbreak or spread of any dangerous epidemic disease; and

(*3*) any measures which may be connected with, or ancillary to, any of the purposes aforesaid.

Power to Governor General in Council to impose conditions

3. (*1*) Every loan under the last foregoing section shall be made subject to such terms and conditions as the Governor General in Council may think fit to impose.

(*2*) In particular and without prejudice to the generality of the provisions of sub-section (*1*), the Governor General in Council may, by general or special order, prescribe—

(*a*) the terms on which the Governor General in Council or the Local Government may lend money under this Act;

(*b*) the manner of recording and enforcing the conditions on which such loans are to be made;

(*c*) the inspection of any works carried out or expenditure incurred by means of such loans;

(*d*) the instalments by which such loans are to be repaid, the interest to be charged thereon and the manner and time of repaying such loans and of paying the interest thereon; and

(*e*) the accounts to be kept in respect of such loans.

Application of section 6, Act XI, 1879.

4. The provisions of sections 6 and 7 of the Local Authorities Loan Act, 1879, shall apply to the borrowing of money under this Act. XI of 1879.

Application to loans made before commencement of Act.

5. The provisions of this Act shall apply to any loan made after the first day of January, 1897, and before the commencement of this Act by, or with the sanction of, the Governor General in Council to any local authority for any of the purposes hereinbefore mentioned, and every such loan shall be deemed to have been made under this Act.

STATEMENT OF OBJECTS AND REASONS.

The Local Authorities Loan Act (XI of 1879) enables a local authority to raise a loan "for the carrying out of any works which it is legally authorized to carry out," and section 8 of that Act declares that, except as provided by or under it, no local authority shall for any purpose borrow money upon or otherwise charge its funds, any contract made in defiance of that prohibition being expressly barred as void. Under these provisions, read with those of the special Acts regulating Local Boards and Municipal Committees, it is doubtful whether a loan could lawfully be raised by such a Board or Committee which is temporarily in want of funds, and requires to meet urgent expenditure for the purpose of affording relief in time of famine or scarcity or coping with a visitation of epidemic disease such as that of the bubonic plague. The object of this Bill is to remove all doubt in this connection. Clause 5 has been added in order to validate one loan in particular which the Government of India have recently felt themselves justified by grave emergency in making to a certain municipality.

J. WESTLAND.

The 22nd February, 1897.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 25th February, 1897 :—

No. 6 OF 1897.

A Bill to facilitate the introduction as legal tender in Bhopal of current silver coin of the Government of India.

WHEREAS Her Highness the Begam of Bhopal has, with the concurrence of the Governor General in Council, decided that the current silver coin of the Government of India shall, with effect from a date to be hereafter fixed, be the only silver coin legally current in Bhopal;

And whereas Her Highness the Begam of Bhopal has agreed to receive from the Governor General in Council current silver coin of the Government of India in exchange for Bhopali rupees at an agreed rate;

And whereas it is expedient to facilitate the carrying out of the arrangements aforesaid,

It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Bhopal Coinage Act, 1897; and

(*2*) It shall come into force at once.

Power to supply in exchange for Bhopali rupees rupees from the reserve retained under section 19, Act XX, 1882.

2. Notwithstanding anything contained in the Indian Paper Currency Act, 1882, the Head Commissioner of Paper Currency may, for the purpose of exchange for Bhopali rupees at the agreed rate, supply to Her Highness the Begam of Bhopal rupees of the Government of India, to an amount not exceeding fifteen millions, from the coin retained and secured as a reserve to pay currency notes under section 19 of the said Act : XX of 1882.

Provided that the Bhopali rupees received in exchange for the said rupees of the Government of India shall be remitted as soon as convenient to the custody of the said Head Commissioner, and that current silver coin of the Government of India shall, as soon as may be, be coined to the extent necessary to replace the amount of rupees supplied from the reserve as aforesaid, and that the amount so coined shall be retained and secured in the said reserve.

Duration of Act.

3. This Act shall continue in force for six months from the date of the first supply of rupees under the powers above conferred.

STATEMENT OF OBJECTS AND REASONS.

HER Highness the Begam of Bhopal is anxious to reform the currency of that State by calling in the present silver coinage and replacing it by current silver coin of the Government of India. The scheme is one which has the entire approval of the Governor General in Council, and it has been intimated to Her Highness that the Government of India will be prepared, on certain terms, to take over the Bhopali rupees called in by the Durbar and to give in exchange British Indian rupees. The object of this Bill is, as indicated in the preamble, to facilitate the carrying out of these arrangements with the least possible delay. The Government of India proposes to supply the Bhopal Durbar with the requisite number of rupees from the reserve retained and secured to cover the issue of currency notes under section 19 of the Indian Paper Currency Act (XX of 1882). This measure will, therefore, enable them to withdraw temporarily from that reserve whatever may be requisite, subject to a limit of one and a half crores of rupees, and will at the same time bind them to take the necessary steps to coin the bullion in the Bhopali rupees received in exchange and so to replace as soon as possible the deficit in the reserve. It is calculated that the whole transaction can be completed within six months from the first supply of rupees to the Begam, and the proposed Act is, therefore, expressed to endure for that period only.

The 25th February, 1897.

J. WESTLAND.

J. M. MACPHERSON,
Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 9.] CALCUTTA, SATURDAY, FEBRUARY 27, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the week ending at 8 a.m on Saturday, February 13th, 1897.

During the week under review two depressions of a somewhat unusual character formed or appeared over North-Western and Central India and determined the larger changes of weather in Northern India The first which was comparatively an unimportant disturbance appeared over North Bombay at the beginning of the week and marching rapidly eastwards passed into the Central Provinces on the 8th where it filled up to a large extent. It was but faintly indicated in the chart of the 9th and the chief evidence of its existence on that day was afforded by the abnormal variations of pressure over the Central Provinces. During the 9th however a brisk to rapid downward movement of the barometer took place over the whole of Baluchistan, North-Western India and the central parts of the country, and the feeble residual depression over the Central Provinces re-developed considerably. At the same time a fresh though slight depression formed over the Central Punjab. The barometric fall continued during the succeeding twenty-four hours and the depressions hence increased both in intensity and extent. The depression of the barometer at the centre of the Punjab depression at 8 A.M. of the 11th exceeded two-tenths of an inch in amount. The Central Provinces depression remained unchanged in position during the next 24 hours while that over the Punjab advanced eastwards and was central near Umballa at 8 A.M. of the 12th. The barometer rose rapidly during the 12th over the whole of Northern and Central India and there was no trace of either depression to be found in the chart of the 13th.

The Punjab depression occasioned light to moderate rain over the greater part of the Punjab and the adjacent districts of the North-Western Provinces chiefly on the 11th and 12th, and moderate to heavy snow and rain on the North-West Himalayas. The snowfall was especially heavy at Dharamsala and Chakrata, measuring from two to three feet in depth. The Central Provinces depression gave fair rain to Bihar, Chota Nagpur, the adjoining districts of the North-Western Provinces, North Bengal, and the eastern districts of the Central Provinces between the 11th and the 13th.

Daily Summary—*Sunday, 7th February.*—The barometric changes of the previous 24 hours were irregular in character and small in amount except locally in the North Konkan where pressure had given way briskly. Pressure was in slight to moderate defect in North Bombay and a very slight depression apparently existed over that region. The general distribution of pressure was of the usual cold weather type, pressure decreasing from a maximum in the North-West Punjab to a minimum in the south of the Indian region. Winds were anti-cyclonic in direction in North-Western India, easterly to south-easterly over the Central Provinces, and the centre and west of the Peninsula, south-westerly at the head of the Bay and irregular elsewhere. Calms were numerous in North-Eastern India, skies were more or less clouded in Baluchistan, North-Western India and parts of Bengal, and a few drops of rain had been received in Chota Nagpur and locally at Rawalpindi. Light snow had occurred in Kashmir. The temperature conditions were abnormal over a large part of the country. The mean temperature of the previous 24 hours was normal in the Punjab, and in moderate to large excess in the remainder of the country. The excess averaged nearly 9° in Rajputana, and 7½° in Berar and the Central Provinces, and was due chiefly to much higher night temperature than usual.

Monday, 8th February.—Pressure had decreased briskly to rapidly in the West and Central Punjab, and the area of maximum pressure over that region had been displaced southwards to Sind and the Thur Desert. A slight fall of the barometer had occurred also in the Central Provinces to which area the feeble depression over North Bombay on the 7th had been transferred. Elsewhere the pressure changes were of no significance, and did not affect the general distribution of pressure to any considerable extent. Winds were feebly cyclonic over the central parts of the country, but were practically unchanged in most other places. Skies were overcast in Baluchistan and light to moderate rain had fallen in that area. Skies were partially clouded in parts of North-East India and light to heavy rain had been received in Chota Nagpur. Local thundershowers had occurred at Barisal and Balasore, and at Colombo. Temperature had fallen rapidly in Sind and Rajputana, but was stationary over the remainder of India and Burma. The mean temperature exceeded the normal in all districts except Sind and the South Punjab. The excess was greatest in the Central Provinces where it equalled 8°.

Tuesday, 9th February.—Pressure had recovered briskly in the North-West Punjab, thus re-establishing high pressure conditions in that area. Pressure had increased slightly to briskly over the central and northern districts of the Central Provinces and the depression over that area had filled up considerably and was very faintly indicated in the chart. Pressure was in excess of the normal in North-West India and below the average over the remainder of the country. The deficiency was greatest in North Bihar, Orissa and Lower Bengal, where it slightly exceeded a twentieth of an inch in amount. North-westerly to westerly winds obtained down the Gangetic Plain, northerly winds over Rajputana and North Bombay, south-westerly winds at the head of the Bay and variable winds in other parts. Heavy rain had fallen locally at Murree which had recorded 2·26 inches. Light rain had again fallen in Chota-Nagpur and West Ceylon. Temperature had increased briskly in Sind and Rajputana and was above the normal over the whole Indian area. The excess ranged from 2½° in Madras and Bombay to 6° in Bengal and the North-Western Provinces and 7° in Berar and the Central Provinces. The excess was due to slightly higher day temperature and much higher night temperature than usual.

Wednesday, 10th February.—Pressure had given way over nearly the whole of the country—briskly to rapidly in North-Western and Central India and slightly to briskly elsewhere. With one or two unimportant exceptions pressure was below the average throughout India and Burma. The deficiency was moderate to considerable in amount over a large part of the country and was absolutely greatest at Dera Ismail Khan where it averaged a seventh of an inch. The residual depression over the Central Provinces had re developed and a fresh depression had formed over the Central Punjab. In general pressure was uniform over the Indian region though slightly higher in Upper Assam than elsewhere. Northerly to easterly winds had set in over Lower Bengal and the head of the Bay. Over the central parts of the country the winds were governed by the depression over that region. Winds were still variable over the Punjab. Skies were more or less heavily clouded in Baluchistan, the North-Western Provinces, Gujarat, Central India, Rajputana and Southern India. No rain had fallen anywhere in India beyond a few drops at Burdwan. Temperature had diminished briskly in the North Western Provinces and Central Provinces and had increased slightly in Burma. Elsewhere the temperature conditions were practically unchanged.

Thursday, 11th February—Pressure had decreased briskly to rapidly over Baluchistan, the greater part of North-Western India, Bundelkhand and Baghelkhand, and was in considerable to large defect in these districts. It had decreased slightly to briskly in the Peninsula and was in moderate to considerable defect. The barometer had on the other hand increased slightly to briskly in Bengal and Assam, thus emphasizing the high pressure conditions in that area. The Punjab depression had increased both in intensity and extent and was central near Mooltan where pressure was about two-tenths of an inch below the normal. The Central Provinces depression also covered a much larger area than on the preceding day. Winds were cyclonic over North-Western India, easterly and south-easterly up the Gangetic plain, northerly over Bengal and very variable elsewhere. Skies were more or less clouded over the whole of Northern and Central India, and light showers of rain had fallen in some parts of the Punjab, of the North-Western Provinces, Bihar, North Bengal and Chota Nagpur; and one or two showers in the Central Provinces and Rajputana. Light snow had occurred in the Kashmir and Kumaon Himalayas. Temperature continued above the average generally, but the amount of excess was less than hitherto.

Friday, 12th February.—The Punjab depression had marched eastwards during the previous 24 hours and at 8 A.M. lay over the East Punjab with its centre near Umballa. Pressure was unchanged at Umballa and Roorkee, had fallen slightly to briskly in the Simla and Chakrata Hills, and had increased briskly to rapidly over the greater part of Northern and Central India and Burma. In the Peninsula the changes of pressure were irregular and of no significance. Both depressions were filling up fast. Pressure was highest in Bihar and Chota Nagpur and lowest in the extreme south, and the general distribution was hence still somewhat abnormal. Easterly winds had set in over Lower Burma, but elsewhere the wind directions had hardly changed. Skies were clear in Baluchistan, Sind, Rajputana, Kathiawar and Central India, and were more or less heavily clouded in other districts. Light to moderate rain had fallen in the Punjab, the Western and Eastern districts of the North-Western Provinces, Chota Nagpur and Bihar. The principal falls were 1·12 inches at Ludhiana, 0·86 inch at Roorkee, and 0·62 inch at Gaya. Heavy snow had occurred on the north-west Himalayas. The fall was heaviest at Chakrata where it measured nearly two feet in depth. Temperature had increased briskly in Burma, was stationary in Madras, and had decreased briskly to rapidly in other districts.

Saturday, 13th February.—Pressure was stationary in Southern India, Bombay, and Lower Burma, had decreased slightly to briskly over Central and Upper Burma, Upper Assam, North and Central Bengal, Bihar and Chota Nagpur, and had increased briskly to rapidly in all other districts. Both depressions had filled up completely and the general distribution had again become normal. Pressure was now normal in the Central Provinces, Assam and Lower

Burma, in slight to considerable defect in the Peninsula and Arakan, and above the average elsewhere. The excess was most marked in the Punjab where it slightly exceeded a tenth of an inch. Winds blew from about their normal directions generally. Skies were densely clouded in Bengal and parts of Burma, moderately clouded in the Central Provinces and the greater part of the Peninsula, and free from cloud elsewhere. Sporadic showers had fallen in Northern India, Central Burma, and the Central Provinces, and moderate snow in the North Western Provinces Himalayas and the Simla Hills. Yamethin had obtained 1·55 inches of rain and Chakrata about ten inches of snow. Temperature had decreased briskly in Upper India and was now in considerable defect in that area. Temperature was normal in Bombay, but exceeded the normal in the remaining provinces. The excess was considerable in Madras and large in Burma.

Temperature.—The temperature conditions of the week were very abnormal in character. The mean temperature exceeded the normal all over the country throughout the week except in North-Western and Central India and Bombay, where it was reduced below the average on the last two days of the week. The area of greatest excess lay over the Central Provinces during the first three days, over Bengal and Assam on the 10th and 11th, and over Burma on the 12th and 13th. The increased temperature was due chiefly to the prevalence of much higher night temperature than usual. The mean temperature of the week was slightly above the average in the Punjab and Bombay, moderately above in Madras, Sind, Rajputana and Central India, and considerably above in the North-Western Provinces, Burma, Bengal and Assam. It was largely above the average in Berar and the Central Provinces. The following gives variation data for the week :—

Province.	February 1897.							Mean variation of week.
	7th.	8th.	9th.	10th.	11th.	12th.	13th.

Mean for whole of India	+4·2	+3·9	+4·7	+4·3	+4·0	+1·8	+1·1	+3·4

Rainfall.—The precipitation of the week under review occurred in almost the same areas as during the preceeding week, but was more widely-spread and larger in amount. The disturbance which occasioned rain in North-Eastern India appeared over North Bombay at the commencement of the week, and drifting eastwards passed into the Central Provinces, where it increased both in intensity and extent on the 10th and 11th. It broke up completely before the 13th without changing its position. North Bengal, Chota Nagpur, Bihar, the eastern districts of the North-Western Provinces and of the Central Provinces obtained light to moderate rain from the disturbance chiefly between the 11th and the 13th. A smart shower gave 1·66 inches of rain to Barisal on the 13th In the remainder of Bengal and Assam only local showers of little value were received. In the North-West the disturbance started as a very slight depression in the Central Punjab on the 10th. It intensified considerably on the 11th, and advancing eastwards during the day passed into the East Punjab where it broke up during the 12th. The Punjab (excluding the south-eastern districts) and the western and submontane districts of the North-Western Provinces received light to moderate rain chiefly on the 11th and 12th. Heavy snow fell in

the North-West Himalayas on the 12th and 13th. The fall was especially heavy at Dharamsala where it measured nearly three feet in depth. Light rain fell in Baluchistan on the 8th and 9th and a slight pressure irregularity gave one or two thundershowers to Burma on the 13th. Practically no rain fell over the remainder of the country.

A reference to the first column of the accompanying rainfall statement will show that more or less rain was received during the week in thirty-nine of the rainfall divisions, but in the case of eighteen of these thirty-nine divisions the actual fall of the week averaged less than a tenth of an inch in amount. In the remaining twenty-one divisions the average amounts received ranged from 0·11 inch in Deltaic Bengal to 1·87 inches in the North-Western Provinces Hills, and 1·98 in the Punjab Hills, and exceeded the normal to a slight extent in East and North Bengal, North Bihar, the sub-montane districts of the North-Western Provinces and the South, Central and West Punjab. The fall of the week was in moderate to considerable excess of the normal in Arakan, Chota-Nagpur, the Eastern districts of the North-Western Provinces, the Submontane and North Punjab and the eastern districts of the Central Provinces and in large excess in South Bihar, and the North-Western Himalayas. The deficiency over the rainless area was very slight in amount and of no significance.

A considerable improvement has occurred in the state of the seasonal rainfall in Chota Nagpur, South Bihar, the eastern districts of the North-Western Provinces, North Bengal and the North-West Himalayas.

The principal totals recorded during the week were 3·43 inches at Dharamsala, 3·03 inches at Khushalgarh (Kohat) 2·84 inches at Chakrata, 2·55 inches at Champawat (Almora), and 2·32 inches at Bironkhal (Garhwal).

HEM RAJ,
Asst. Meteorological Reporter to the Government of India.

SIMLA, *the 18th February 1897.*

DENZIL IBBETSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.— *For week ending 20th February.*—Rain has fallen almost throughout the presidency, but there were only a few light scattered showers in the affected parts of the Deccan. Elsewhere also the fall was very irregular, but on the whole it has been considerable in parts of Ganjam and in most parts of the Carnatic, Central and Southern districts and Malabar. Rain has most usefully replenished water-supplies in many places and should bring up some pasture in others. Some damage to the standing crops is reported. Water-supplies are generally fair, but in parts of the Deccan they are very deficient. Standing crops, except in Deccan, are generally in good condition, but there they are mostly bad. The harvest is yielding a fair outturn in the southern half of the presidency. Pasturage is scarce and fodder is generally dear, but cattle are only suffering as yet in parts of the Deccan. Prices are slightly easier in parts of the Circars and West Coast and almost stationary elsewhere except in parts of the Deccan where they are dearer. The numbers on relief works are :—Relief workers :—in the Deccan 46,916 ; gratuitously relieved, mostly dependants at kitchens :—Ganjam 909, Deccan 3,272. No poor-houses are open. The numbers otherwise relieved are :—7,000 weavers in the Deccan ; test workers in Ganjam 1,629. Total relieved :—workers 55,545, gratuitously 4,181. Total number in receipt of relief :—59,726. Increase is general except in Cuddapah, where there is a decrease. Particulars as to sex and age are not available. Prices by which wages are regulated are :—Ganjam 12½, Kurnool and Bellary 13½, Anantapur 14, Cuddapah 17 seers per rupee.

Bombay —*For week ending 24th February.*—Rain has fallen in Bijapur, Belgaum, Dharwar, and Kanara. The standing crops have been slightly damaged by drought and frost in four talukas of Karachi and by frost in one of Hyderabad ; otherwise they are thriving in Sind and Gujarat, but are indifferent elsewhere. The crops recently sown have withered or are withering in Nasik, Ratnagiri, Poona, Ahmednagar, Sholapur, Belgaum, and Dharwar. The autumn harvesting is completed except in Khandesh. Reaping of late crops is in progress in the Panch Mahals, Broach, Surat, Khandesh, Nasik, Thana, Ahmednagar, Sholapur, Satara, Bijapur, Rajkot and Baroda. Fodder is sufficient except in the Deccan, Karnatic, Shikarpur and parts of Karachi and Baroda. The grain supply is generally sufficient in affected districts. Cotton picking continues in Broach, Surat, Rajkot, and Baroda. The condition of the agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur, Bijapur, and Dharwar ; healthy elsewhere except in parts of Shikarpur, Hyderabad, Broach, Khandesh, Nasik, Thana, Ratnagiri, and Kanara. Prices are rising in parts of Poona, Sholapur, and Bijapur, falling in parts of Surat and Bijapur, stationary in the Panch Mahals, Kaira and parts of Surat, Poona, and Bijapur. The prices of staple food-grains in the affected districts are :—Dharwar 13¾ ; Belgaum 11½ ; Bijapur 10⅞ ; Sholapur 10½ ; Ahmednagar 10¼ ; Poona and Satara 9¾ ; Nasik 9⅜ ; Khandesh 9½ ; Kolaba 7½ seers per rupee. The average daily numbers on relief works including non-working children are :—Bijapur 80,496 ; Sholapur 100,800 ; Ahmednagar 89,382 ; Poona 22,109 ; Nasik 33,793 ; Satara 30,097 ; Khandesh 34,458 ; Belgaum 3,753. Total 395,788, of which 275,687 are relief workers and 120,101 non-working children. Of relief workers, excluding those in Satara and Ahmednagar, details for which are not reported, 58,716 are men, 83,417 women, 48,263 children. The numbers on gratuitous relief are :—Bijapur 5,408 including 46 persons in one poor-house, Sholapur 6,559, Ahmednagar 1,097 ; Poona 2,623 ; Nasik 105 ; Satara 14 ; Belgaum 487. Total 16,293, of which, excluding figures for Ahmednagar, 8,222 are men, 4,500 women, and 3,475 children. Total number in receipt of relief 412,081.

Bengal.—*For week ending the 22nd February.*—There was general rain in South-west and East Bengal, Orissa and Chota Nagpur during the week. The rain has to some extent benefited the spring crops, and has facilitated ploughing for the autumn crops. Spring rice is doing well. In Bihar the harvesting of spring crops and the gathering of opium have begun. The pressing of sugarcane is still going on. The fodder-supply is generally sufficient. The want of drinking water is beginning to be felt in some districts. In the distressed districts the prices of the food-grains on which the relief wages are based are:—Nadia (common rice) 9 seers, Khulna (common rice) 10 seers, Rajshahi (common rice) 10 seers, Patna (common rice) 11 seers, Shahabad 10½ seers, Saran (Indian-corn) 9 seers 14 chitaks, Champaran (Indian-corn) 10 seers, Muzaffarpur (Indian-corn) 10 seers, Darbhanga (Indian-corn) 10 seers, Bhagalpur (common rice) 10 seers. These figures show a slight fall in Rajshahi and Patna, and a slight rise in Champaran; elsewhere prices were stationary.

The numbers on relief works and in receipt of gratuitous relief on Saturday, the 20th February, were:—Relief Works—Nadia 6,499 (men 3,252, women 1,036, children 2,211), Khulna 351 (men 274, women nil, children 77), Rajshahi 580 (men 509, women nil, children 71), Shahabad 1,175 (men 456, women 414, children 305), Saran 15,343 (men 4,240, women 5,271, children 5,832), Champaran 107,502 (men 47,073, women 37,035, children 23,394), Muzaffarpur 21,355 (men 11,917, women 5,308, children 4,130), Darbhanga 139,064 (men 54,329, women 61,269, children 23,466), Bhagalpur 6,208 (men 3,203, women 2,120, children 885), Palamau 2,602. Total 300,679, against 300,763 in the previous week. Gratuitous relief—Nadia 1,456 (men 279, women 891, children 286), Khulna 727 (men 107, women 374, children 246), Patna 40 (men 17, women 19, children 4), Shahabad 5,782 (men 1,303, women 2,550, children 1,929), Saran 15,772 (men 3,020, women 9,838, children 2,914), Champaran 27,880 (men 5,244, women 10,354, children 12,282), Muzaffarpur 4,823 (men 1,193, women 1,065, children 1,665), Darbhanga 51,273 (men 9,717, women 26,548, children 15,008), Bhagalpur 286 (man 1, women nil, children 285), Palamau 409, Manbhum 2,403. Total 110,851, against 104,270 in the previous week. Grand total on Government relief 411,530, against 405,033 in the previous week. Private relief—Relief Works—Darbhanga Raj 21,097 (men 14,525, women 4,705, children 1,867); Hatwa 5,984. Gratuitous relief—Darbhanga Raj 12,221 (men 2,525, women 5,800, children 3 896); Hatwa 790. Rest of Saran District 1,177.

North-Western Provinces and Oudh.—*For week ending 24th February.*—Save for a light shower in Pilibhit, there was no rain during the week, but somewhat unfavourable westerly winds. The spring crops continue to promise well. Cane-pressing continues and the harvesting of arhar (*Cajanus indicus*) and the early crops has begun in several districts. The numbers in receipt of relief on Saturday, the 20th February 1897, in nineteen districts officially recognised as distressed were as follows:—Agra 33,505; Etawah 20,449; Cawnpore 106,010; Banda 192,981; Hamirpur 70,969; Allahabad 185,541; Jhansi 51,601 (incomplete); Jalaun 96,461; Mirzapur 45,543; Jaunpur 71,761; Gorakhpur 41,301; Azamgarh 19,932; Lucknow 97,154; Unao 57,300; Rae Bareli 90,390; Sitapur 68,824; Hardoi 150,243; Barabanki 33,294; Fatehpur 34,592; total 1,467,931. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—employed on relief works 969,921; relieved as dependants 234,473; relieved in poor-houses 41,448; relieved under other provisions of the Famine Code 222,089. The numbers relieved in eighteen districts which are under observation, but not yet officially recognised as distressed, were on the same date as follows:—relieved on test works 120,033; relieved in poor-houses 14,601; relieved under other provisions of the Code 18,877; total 153,511. The grand total in receipt of relief on the last day of the week was therefore 1,621,442. Supplies are generally sufficient. Fodder is somewhat scarce in places. Prices are fluctuating. The market is very sensitive owing to slightly abnormal weather. The prices of the staple grain on which the famine wage is based varied from 9⅛ to 11 seers per rupee in the districts officially recognised as distressed.

Punjab —*For week ending 23rd February.*—No rain fell during the week. Ploughing and sowing of the extra spring crops are in progress. The land is being prepared for the next autumn crops. The outturn of irrigated crops are generally reported in good condition except in parts of Rohtak, where well water is brackish. Prospects are said to be good to average. The crops on dry land are still suffering from want of more rain in certain districts. More rain is still wanted in the Delhi division as well as in the Shahpur and Dera Ismail Khan districts. The stock of grains has been exhausted in Hissar and Delhi, where imports are meeting requirements. The stock with the cultivators of Amritsar and Gujranwala is insufficient. Rape and gram crops are still being damaged by caterpillars in Ferozpore. Westerly winds are blowing in the Rohtak and Gurgaon districts and are likely to damage the crops. Cattle are generally reported in poor condition; they are said to be good to fair in Gurgaon, Umballa, Ferozpore, Amritsar and Sialkot; six cattle died of starvation in Rohtak. Fodder is sufficient in Umballa and scarce elsewhere. The average daily number of persons on relief works and dependants, etc., are as follows:—Relief workers—20,452 men, 18,028 women, 12,212 children; dependants—345, 416 and 9,426; relieved in poor-houses:—345, 349 and 247; otherwise relieved—2,037, 2,448 and 1,101; test workers—260, 152 and 120; respectively. In addition to the above, the number for which no detail is given by the District officers is as follows:—Relief workers 31,108, dependants 18,290 and otherwise relieved 1,292. The total number of workers, dependants, etc., in this province was therefore 118,617. Prices are generally high and are showing a tendency to rise again in most districts; they remained stationary in Mooltan, Lahore, Sialkot and Rawalpindi districts. Wheat is selling from 7½ to 10 seers, gram 8¼ to 10½; bulrush millet 8¾ to 11¼; great millet 9½ to 11; and maize 9 to 11¾ seers per rupee. Prices of staple food-grains on which the famine wage is reckoned are:—Rohtak gram 10 and great millet 11 seers; Gurgaon bulrush millet 8¾ and in Delhi 8¼; Karnal gram 8¾, maize 9; Umballa maize 10; Ferozpore great millet 12; Mooltan wheat 9½; Lahore wheat 10 and maize 10½; Gujrat maize flour 8 seers per rupee.

Central Provinces —*For week ending 23rd February.*—The weather is somewhat cloudy. There was 1·70 rain in Bilaspur and 5 cents in Sambalpur. The days are hot and nights cool. The harvesting of spring crops continue. Prospects are generally fair. They have been improved in Mandla by the recent clear cold weather, and a 16-anna outturn is now expected in that district. The wheat crop is poor in parts of the Nimar District. Cloudy weather has induced insects in gram and pulse in parts of Chanda, Bhandara and Balaghat and injured the mohwa (*Bassia latifolia*) flowers in Balaghat. The recent rain has also somewhat damaged crops which were cut but not stacked in Raipur. Prices are generally steady with a slight rise in Saugor and a slight fall in Jubbulpore and some other districts. Fodder is getting somewhat scarce in parts of Seoni, Hoshangabad, Nagpur, and Sambalpur. The numbers on relief works have increased in Jubbulpur, Mandla, Seoni, Betul, Nagpur, Chanda, Bhandara, Balaghat, Raipur and Bilaspur, and have decreased in Saugor, Damoh, Narsinghpur, Hoshangabad, Chhindwara, and Nimar. Fluctuations are occurring according as harvest operations are diminishing or expanding. The numbers on relief works are:—Saugor 24,677, Damoh 18,754, Jubbulpore 74,583, Mandla 19,665 Seoni 6,895, Narsinghpur 16,223, Hoshangabad 21,271, Nimar 416, Betul 13,385, Chhindwara 6,094, Nagpur 1,209, Chanda 2,729, Bhandara 11,849, Balaghat 10,474, Raipur 13,278, Bilaspur 9,395; total 250,897 and the numbers receiving gratuitous relief are:—Saugor 13,[illegible]9, Damoh 4,065, Jubbulpore 16,155, Mandla 3,07[illegible], Seoni 1,909, Narsinghpur 7,368, Hoshangabad 7,339, Nimar 403, Betul 1,454, Chhindwara 2,582, Nagpur 1,115, Chanda 363, Bhandara 3,042, Balaghat 4,198, Raipur 4,140, Bilaspur 3,074, total 73,679. Total number in receipt of relief 324,576. Complete details of dependants not yet available. There were also 69,556 on railway and private works in Saugor, Damoh, Jubbulpur, Chhindwara, Balaghat, and Bilaspur. Prices of staple food-grains on which the famine wages are based are:—Saugor and Bhandara 9¾; Damoh, Narsinghpur and Betul 10; Mandla 8¼; Seoni, Hoshangabad and Bilaspur 10⅛; Nimar 10⅓; Chhindwara 12; Nagpur 11⅛; Chanda 11¼; Balaghat 8 and Raipur 9⅛ seers per rupee.

Burma.—*For week ending 20th February.*—In Lower Burma threshing and winnowing continue. In Upper Burma cultivation of dry weather paddy and island crops continues. Prospects of dry weather paddy and miscellaneous and island crops are generally good, but in the Amarapura township, Mandalay, two-thirds of the miscellaneous crops are withering from drought and the tobacco crop is being injured by caterpillars. Rain is badly wanted for the dry weather paddy on high lands in Bhamo. The price of paddy has risen slightly in Thongwa and Myaungmya and fallen slightly in Pegu, Henzada and Amherst; elsewhere stationary. Numbers on relief works are:—Meiktila 13,379, Myingyan 9,111; on gratuitous relief, Meiktila 2,450, Myingyan 2,085, Yamethin 338. Total number on relief 27,363. Price of rice:—Meiktila 8 seers 12 chittacks, Myingyan 9 seers 5 chittacks per rupee.

Assam.—*For week ending 23rd February.*—Slight rainfall in all districts except Goalpara, Kamrup, Nowgong and the Garo Hills. Rain is wanted for early rice sowing in Kamrup and Nowgong. Ploughing for early rice, pressing of sugarcane and pruning of tea continue. Mustard is being gathered. Prices: common rice Silchar 9½, Sylhet 10½, Gauhati 10, Tezpur 10½, and Sibsagar 10 seers per rupee. Fodder is insufficient in Cachar, the Naga and Khasi Hills and in parts of the Kamrup district. Water is scanty in Nowgong and the Naga Hills.

Mysore and Coorg.—*For week ending 24th February.*—MYSORE:—27 cents rain in the civil and military station and slight rain in other parts. Prices have risen in four districts and have fallen slightly in Kolar and Chitaldrug. Paddy is being harvested in parts of Chitaldrug.

COORG:—Heavy rain in south Coorg. Coffee blossoming in parts. No crops on the ground. Prices of food-grains normal. Water and fodder for cattle sufficient.

Berar and Hyderabad.—*For week ending 23rd February.*—BERAR:—The weather is warm. Standing crops are in fair condition. The harvesting of wheat, gram and linseed is in progress. Breaking up of land for next monsoon crop continues. Scarcity of fodder and water prevails and prices for food-grains have risen in all districts. 10,318 persons were employed on relief works during the week. Prices:—Akola 10, Basim 10¼, Melghat 8½ seers per rupee.

HYDERABAD:—Rainfall during week 22 cents, total from 1st January 39 cents. The harvesting of the spring crop continues. Scarcity of fodder and pasture and of water-supply prevails. Relief measures continue in Gulburga, Raichur, and Naldroog. Aggregate number of persons employed 2 547. Prices:—Wheat 8; coarse rice 7; and jowari 11¾ seers per current sicca rupee.

Central India.—*For week ending 23rd February.*—No rain fell in Central India during the week. Agricultural operations completed in Bundelkhand and Baghelkhand and in progress in other agencies. The spring crops are in good condition in Baghelkhand, Malwa and in parts of Gwalior and Bundelkhand; fair in Bhopal and Bhopawar; indifferent and bad in other parts of Gwalior and Bundelkhand. Agricultural stock in good condition in Baghelkhand, Malwa and four districts of Gwalior; fair in Bhopal; indifferent in Bundelkhand and some districts of Gwalior. Pasturage is fair in Bhopal and Malwa; good in Baghelkhand and in two districts of Gwalior; sufficient in Bhopawar and indifferent in Bundelkhand and some districts of Gwalior. Prices are above normal in Malwa and Bhopawar; fallen slightly but still high in Baghelkhand; steady elsewhere. Opium crops are in fairly good condition in Gwalior, Bhopal, Malwa, and Bhopawar. The number of persons employed on famine relief works were:—In Gwalior 27,735; Bundelkhand 19,694; Baghelkhand 70,391; on gratuitous relief:—In Gwalior 7,459; in Bundelkhand 4,674; in Baghelkhand 3,937. Total number in receipt of relief 133,890. The prices of staple food-grains are:—10 to 10½ in Gwalior and 11 seers per rupee in Baghelkhand; not reported from Bundelkhand.

Rajputana.—*For week ending 24th February.*—Slight rain fell in Suratgurh. Agricultural operations are satisfactory in Jhallawar, Kotah, and Jeypore; thriving in Karauli; fairly satisfactory in Kherwara; and poor in Dholpur. The standing crops are generally in good condition except in Dholpur and Meywar. Harvests are good in Bhurtpore and Jhallawar; and favourable in Jeypore. Cattle are generally in good condition except in Bhurtpore. Pasturage or fodder failing in Dholpur and Bhurtpore; scarce in some tehsils of Jeypore and sufficient elsewhere. Prices are falling in Marwar, Pertabgurh, and Meywar; steady elsewhere. The number of persons on relief works was:—Marwar 5,319, Kotah 1,113, Dholpur 5,364, Bhurtpore 121, Bikanir 4,378, and Jaisulmere 845, and on gratuitous relief:—Marwar 1,168, Bhurtpore 651, Bikanir 581, Jaisulmere 13. Total numbers in receipt of relief 19,553. The prices of the staple food-grains on which the famine wages are based are:—Marwar 8¾; Kotah 14½; Dholpur 11 seers 4 chittacks; Bhurtpore 9 seers 6 chittacks; Bikanir 8 seers 14 chittacks; and Jaisulmere 8 seers 9 chittacks per rupee.

Kashmir.—*For week ending 23rd February.*—Weather cloudy. Prices continue below normal. Price 24 seers per rupee.

Nepal.—*For week ending 20th February.*—Nights frosty. Days dry with high winds. Spring crops promise well. Ground being broken up for early rice. Prices 7⅜ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:—

(*a*) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of this line has been taken in hand by the company from the 1st January 1897.

(*b*) Includes the Bhopal-Itarsi railway.

(*c*) Includes the Godhra-Ruttam-Nagda railway.

(*d*) Includes the Guntakal-Mysore frontier section.

(*e*) Includes the Tirhoot state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company.

(*f*) Includes the Jammu and Kashmir and the Hyderabad-Shadipalli railways.

(*g*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made for the line to be formally taken over, it will be worked by the state on behalf of the company.

(*h*) Includes the Wardha Coal, the Dhond-Manmad, the Khamgaon, and the Amraoti railways.

(*i*) Includes the Mysore-Nanjangud and the Yesvantpur-Mysore frontier sections.

(*j*) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
RAILWAY STATISTICS.

No. XLIII of 1896-97.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in column *Total Earnings from 1st April 1896*, audited figures have been used as far as possible.

Railway.	Average earnings per mile per week in 1895-96.	Week ending 15th February 1896. Mean mileage worked.	Earnings. Total.	Earnings. Per mile open per week.	Week ending 13th February 1897. Mean mileage worked.	Earnings. Total.	Earnings. Per mile open per week.	Earnings from 1st April 1895 to 15th February 1896.	Earnings from 1st April 1896 to 13th February 1897.	Increase.	Decrease.

(*h*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made to the line to be formally taken over, it will be worked by the state on behalf of the company.
(*i*) Includes the Wardha Coal, the Dhond-Manmad, the Khamgaon, and the Amraoti railways.
(*j*) Total earnings from 1st May 1895 to 15th February 1896.
(*k*) Total earnings from 11th November 1895 to 15th February 1896.
(*l*) Total earnings from 15th July 1896 to 13th February 1897.
(*m*) Includes the Mysore-Nanjangud, and the Yesvantpur-Mysore frontier sections.
(*n*) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Crop Weather Summary in the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns persons gratuitously relieved in poor-houses or at their homes.

T. W. HOLDERNESS,

Deputy Secretary to the Government of India.

Dated 26th February 1897.

GOVERNMENT OF INDIA.

FOREIGN DEPARTMENT.

STATISTICS OF THE TRADE OF INDIA WITH TURKISTAN AND CHANG THANG FOR THE YEAR ENDING THE 31st MARCH, 1896.

No. 455, dated Leh, the 12th August, 1896

From—CAPTAIN G. C. TRENCH, Assistant to the Resident in Kashmir for Leh, Ladakh,

To—The Resident in Kashmir, Gulmarg.

I have the honour to forward herewith, for transmission to the Government of India, the statistics of the trade of India with Chinese and Russian Turkistan and Tibet for the year ending 31st March 1896.

Note.—There has been a satisfactory increase in the trade during the part financial year.

The total value of the trade which passed through Leh during the year under report amounts to ₹62,16,177-12, and this exceeded in value by over two lakhs of rupees the total of last year, and is more than equal to the total revenue of Kashmir.

This steady expansion can be attributed to the increased interest in commercial matters on the part of the Government of India, and to the extra attention our traders receive in Kashgar, the mart of export trade, by the presence of Mr. Macartney, the Assistant to the Resident in Kashmir, and the gradual improvement to the road between Srinagar and the borders of China.

Much, however, remains to be done, towards improving a road which crosses four passes of between 17 and 18,000 feet high, besides barren deserts and rocky beds of rivers. If funds were available for the improvement of this road, more benefit could be given to a larger number of traders than at present through the three Assistants to the Resident in Kashmir, stationed as they are at Srinagar and Kashgar, the termini of the route, and at Leh which is the half-way halting-place and market of exchange.

There is no doubt that with increased interest and improved roads the steady expansion which the figures show might grow into a trade of much importance.

The subjoined table gives the figures for the past ten years, and it will be seen that the trade is more than double what it was five years ago

1895-96	33,20,751		10	0	28,95,426		2	0	62,16,177		12	0
TOTAL	1,98,49,206		14	0	1,77,33,406		14	0	3,75,82,613		12	0
Average	19,84,920		11	0	17,73,340		11	0	37,58,261		6	0

The schedule below gives the value and direction of the trade for the past two years between India, Chinese Turkistan and Tibet.

	Year.	India.			Chinese Turkistan.			Tibet.			Total.		
		₹	a.	p.	₹	a.	p.	₹	a.	p.	₹	a.	p.
Import from	1894-95	17,31,680	8	0	12,74,700	0	0	1,58,837	12	0	31,65,218	4	0
	1895-96	18,17,870	0	0	12,93,240	2	0	2,00,035	8	0	33,20,751	10	0
Export to	1894-95	13,14,143	12	0	14,40,599	0	0	95,860	0	0	28,50,102	12	0
	1895-96	12,95,006	2	0	15,08,074	0	0	1,22,346	0	0	28,95,426	2	0

Exports and Imports.—During the year under report the total value of imports amounted to ₹33,20,751-10, as against ₹31,65 218-4 in the previous year, and the exports amounted to ₹28 95,426-2, as against ₹28,50,102-12. Increase ₹2,00,850-12. The imports from India and Turkistan both show a satisfactory increase.

The exports to Turkistan and Chang Thang have also risen. From these figures the increase to the trade with Tibet calls for special remarks. Although only a small amount of this trade is between Leh and the capital Lhassa, and the majority with the nomad people inhabiting the western highlands of Tibet known as the Chang Thang plains, it is nevertheless an exchange of goods with a country where not counting the imports from China we should have an entire monopoly.

There is no doubt that trade between Lhassa, the unvisited capital of Tibet, and India might be considerably increased; reports state that Tibet contains gold, and its wool is already famous, while Lhassa itself might become the place of exchange for English, Indian and Chinese goods.

India commands the three routes to Lhassa available by a western power, *viz.*, *viâ* Leh, Nepal and Sikkim, and none of these routes are fully developed to the advantage of commerce.

To quote from a speech recently made by Lord Salisbury to a deputation of the associated Chambers of Commerce, he says: "What I value is the addition of so many free markets of the world to the commerce of the country: looking at the matter from that point of view, there is nothing that interests us more than this attempt to obtain access to the markets of China from behind where practically we are almost without a rival."

4. *Piece-goods.*—There was an advance of ₹53,560 in the value of the trade in European manufactured cotton as compared with last year.

The total exports to Turkistan of English goods amounted to ₹7,27,000, and that of Indian manufactured cotton to ₹48,060. The amount of English manufactured goods is nearly double that of five years ago, and three times as much as ten years ago; the following figures will show the steady increase under this head:—

Year.	₹
1886-87	1,75,897
1887-88	3,93,120
1888-89	4,39,760
1889-90	3,19,840
1890-91	3,01,280
1891-92	3,80,820
1892-93	3,88,620
1893-94	5,29,920
1894-95	6,73,440
1895-96	7,27,000

This year's total calculated at the rate of exchange would amount to between £30 to 40,000, and seeing the now fairly established markets in Turkistan, with its tendency to increase, I would call the special attention of all Chambers of Commerce, or perhaps more especially those more directly interested in cotton manufactured articles, to the Leh trade-route, and Turkistan, as an outlet for their goods. An interest on their part in this backway to China, and

direct communication between the Chambers of Commerce, through the British Joint Commissioner at Leh, and the Assistant to the Resident of Kashmir at Kashgar, and the traders engaged in carrying and selling these goods would be of inestimable advantage and give great encouragement to those whose interest it is to open new markets for England's manufactured articles.

A description of the existing road and its capabilities of future improvement will be found in the general remarks at the end of this trade report.

5. *Drugs and medicines.*—The higher prices of charas in India from R60 to R80 and R100 per maund is not the only cause of the increase of R1,17,203-10 over that of previous years, during which the price remained at R60 per maund, but it was known that the Government of India had determined at the same time to impose a tax on this intoxicating drug, and it was with a view to speculating in this commodity before the tax was imposed that many traders brought down larger quantities than usual.

The actual number of maunds imported was 6,106 maunds 5 seers and 12 chittacks, as against 4,151 maunds 30 seers.

The import figures of charas for the last five years in rupees are as follows :—

	R	a.	p.
1891-92	2,30,385	0	0
1892-93	1,91,568	0	0
1893-94	2,18,886	0	0
1894-95	2,49,105	0	0
1895-96	3,66,368	10	0

The Government of India have now decided to impose a tax of R20 a maund on this drug this year, and from January 1st, 1897, a tax of R80 per maund. What may be the result of this tax it is now hard to say. The Government of India in their notification to the merchants state that arrangements will be made under which they will be able without paying any duty to convey the charas to warehouses at certain convenient centres where it would be stored, as in a bonded warehouse; the duty will be paid when the charas is removed from the warehouse. The burden of the tax will not, it is expected, fall on the trader but the consumer.

If there is no diminution in the import, the Government of India will from the figures of last year's report get a revenue of R1,20,000 and at R80 a maund of R4,80,000.

6. *Dyeing material.*—The increased demand for this dye at Yarkand caused a very large increase in the import of indigo as compared with the previous year. The figures for the past four years are as follows :—

	R
1892-93	38,855
1893-94	41,850
1894-95	44,280
1895-96	88,275

The trade in indigo is fluctuating, and depends largely on prices ruling in Yarkand, which again depend on the amount that is taken from India. Last year the price in Yarkand for indigo being as high as R5 a seer, the merchants took large quantities, and a corresponding fall is expected this year.

The indigo is used by the hand weavers of Yarkand and Kashgar, who weave the blue stuffs which are worn by all Chinamen.

This trade is not capable of very large development, for indigo is more easily imported into China from India by the ports than by the back-way through Leh.

7. *Hides and skins.*—The trade in skins has, too, increased by R6,384-8 since last year, owing to increased demand and better prices in Yarkand. The past four years' figures are quoted below :—

	R	a.	p.
1892-93	61,710	0	0
1893-94	62,635	0	0
1894-95	64,208	0	0
1895-96	70,682	8	0

The increase of R6,000 in skins which consists of otter, fox, etc., and other kinds suitable for trimming coats, is due chiefly to the very high prices of Russian furs, which are now finding a better field for sale in the West than in the East.

The better class women in Yarkand, Kashgar, wear enormous hats lined and turned up with good fur ;—formerly beaver and otter from Russia. These hats are about 18 inches to 2 feet wide at the top, and cost with Russian fur R80 to R150.

Since the introduction of cheaper furs from India the demand for this class of hat has increased, and the price with Indian fur, such as fox, etc., is only about R15 to R30.

The men, too, all wear fur round a velvet cap, and this fur which was formerly Russian is now generally Indian.

The Pathan traders inform me that the same remarks would apply to Kabul, where fur is much u ed to trim the coats of the upper classes, and that there also, owing to the prohibitive price of Russian fur imported through Bokhara, the Indian furs are coming more into use.

8. *Leather.*—A satisfactory increase of R16,680 is shown in the value of unmanufactured leather this year. The following are the tables for the last two years :—

	R
1894-95	64,170
1895-96	80,850

This commodity is capable of large development. The fashion for wearing long Russian boots in Yarkand, etc., is on the increase ; the Yarkandis now have learnt that Indian tanned leather is much more durable than Russian tanned leather, and that by importing the ready tanned leather from India, they can make their own boots better and more durable than readymade Russian ones.

The leather does not go beyond Chinese Turkistan into Russia or China.

9. *Carpets and namdahs.*—The trade under the above head has slightly decreased as compared with last year's report. The following are the figures for the past five years :—

	Carpets.	Namdahs.
	R	R
1891-92	1,395	15,616
1892-93	4,815	24,088
1893-94	3,075	20,505
1894-95	5,070	29,748
1895-96	4,365	27,944

The decrease in this trade is likely to increase, for Russian Agents are busy buying up all the wool in Chinese Turkistan for their woollen manufactures, and so the price of namdahs increases each year to a sum that makes it less worth while bringing this rather bulky article to Kashmir and India.

The same remarks apply to carpets.

10. *Precious metals.*—The amount of gold imported in the year under report has also decreased slightly.

The figures for the above head for the past five years are as follows :—

	Gold.	Silver.
	R	R
1891-92	90,796	2,78,648
1892-93	2,49,114	2,96,420
1893-94	2,66,686	2,92,158
1894-95	3,56,702	6,78,331
1895-96	3,25,926	6,17,524

The import of gold has slightly decreased ; this is the effect partly of higher rates of exchange in India with consequent lowering of price of gold, and because of increased interest on the part of the Chinese in their mines and their preventing diggers from working same, and so raising the price there.

Yambus decreased also on account of increased value of the rupee, and consequent decrease in the value of the Yambu of pure silver.

11. Opium to the value of R772-8 only was imported by one Hindu merchant who went to Yarkand during the year under report.

12. *Silk, raw.*—Silk, raw, to the value of R14,332-8 was imported during the year.

13. *Spices.*—The trade under this head shows a satisfactory increase as compared with last year.

The figures for the last five years are as follows :—

	R
1891-92	40,810
1892-93	28,787
1893-94	26,005
1894-95	35,805
1895-96	36,225

14. *Precious stones, turquoises and coral*—Dealing under the head of turquoises show increase of R4,573 over those of the previous year. The trade in imported corals also exhibits a satisfactory increase.

The demand for coral is very largely on the increase, for the Chinese themselves have now taken to buying it in large quantities, and there is every chance of this increasing. A large quantity of this coral is now bought by the merchants in Bombay and Calcutta, and comes from Italy.

It seems a pity that this commodity should not be supplied from some British possession, and as I am not aware of what actual British possession coral could be imported from except Malta, I would be very glad to supply on application samples of the coral in demand, with price, to any Chamber of Commerce that would undertake to put British merchants into the way of supplying it.

The figures for the last ten years are attached :—

	R
1886-87	3,681
1887-88	6,802
1888 89	11,232
1889-90	35,176
1890 91	45,532
1891 92	56,286
1892-93	56,288
1893-94	1,47,030
1894 95	2,43,262
1895-96	2,48,045

15. *Indian tea*.—The trade in Indian tea imported this year has increased by R 15,065 over that shown in the last report.

The advance is normal, as the demand has been increasing for the past five years.

The figures for the last ten years are as subjoined :—

	R
1886-87	97,820
1887-88	1,04,600
1888-89	9,160
1889-90	51,762
1890-91	32,947
1891-92	37,220
1892-93	39,060
1893-94	45,700
1894-95	57,280
1895-96	72,345

16. *Chinese tea.*—This is green-leaf tea imported *viâ* Bombay or Calcutta. The value of the trade in the tea so imported during this year has increased, being R9,870 as against R7,070 in the year 1894-95.

The figures are as follows :—

	₹
1886-87	31,120
1887-88	*Nil.*
1888 89	609
1889-90	900
1890 91	1,840
1891-92	1 540
1892-93	4,865
1893-94	8,890
1894 95	7,070
1895 96	9,870

17. *Lhassa brick tea.*—The trade under this head shows a considerable decrease as compared with last year. This is due to the Lupchak Mission not having brought down this tea this year.

The figures for the last ten years a e as follows :—

	₹
1886-87	1,24,480
1887-88	89 280
1888-89	1 02,600
1889-90	62,580
1890-91	24,040
1891-92	46,980
1892-93	39,285
1893-94	18,447
1894-95	45,418
1895-96	22,320

Tea is a Government monopoly in China, and all the tea whether Indian, sea-borne, or Lhassa, is contraband, and therefore these figures show for the most part the amount smuggled into Chinese Turkistan, some of course being taken through Chinese Turkistan into Russian territory where it is subject to a duty.

18. *Wool unmanufactured.*—The trade under this head in the year under report has increased from ₹33,800 to ₹37,412-8.

The wool import from Thibet is capable of being largely increased, and the matter is now receiving attention with a view to increasing it.

The trade in manufactured woollen goods has decreased.

The value of the above goods imported during the year under report was ₹2,932-8 as against ₹4,150 in the preceding year.

19. *Miscellaneous.*—The trade under this head shows a very large increase this year. The total amount of the miscellaneous imports is ₹72,230 as against ₹39,740.

General Remarks.

Considering the yearly increase to the trade with Turkistan through Ladakh, it does not seem to me to be out of place to describe the actual road which now exists, and what is needed to make it more suitable to the purpose : some idea can then be formed of the troubles and difficulties which the very hardy lot of British subjects and others who travel on the road undergo to obtain a livelihood and at the same time thereby add to the commerce of England and India.

From India, or, in other words, the railway, merchants have a choice of two roads to Leh, *en route* to Yarkand, one through Kashmir and the other through Kulu. Part of both of these roads are in the charge of the British Joint Commissioner at Leh, and have now after about 15 years of patching been completed.

They are good tracks for mules and ponies with easy gradients, and are well bridged.

The reason that these roads have been so long before completion is that the British Joint Commissioner has only had the small sum of ₹2,000 annually from the Kashmir State for actual expenditure on these two roads.

The trade generally divides itself equally between them, during the five months when the high snow passes are practicable.

While on the Kulu Road the Baralacha pass, 16,000 feet, absolutely prevents any traffic during the winter months; the trader is no better off who attempts the Zojila pass on the Kashmir road in the winter; at that time of the year the pass which in summer is a succession of green slopes and wild flowers, is covered in deep snow, and the driving blizzards make his lot unenviable, yet many there are who have to face this stormy pass in the winter, *viz.*, those whose business transactions have not been completed in Leh, or whose caravans have been late in getting away from Yarkand and the north.

It is not an unheard of thing that whole caravans have been lost on this pass, and the snow on melting has given up dead bodies of animals, and even men buried by avalanches. During the last year—thanks to the efforts of Captain Godfrey, the late Joint Commissioner of Ladakh—rest-houses have been built at the expense of the Kashmir State, which has mitigated the dangers of the pass, and it is hoped that this year funds will be found to improve the whole alignment, so as to make the pass practicable even during the winter.

From the Zojila pass to Leh the road presents no difficulties now, though some very difficult bits of engineering work were undertaken with the small sum annually available.

The road however liable to occasional floods which sweep away all the bridges, and two years ago Captain Godfrey had to renew nearly every bridge on the road, this he managed to do in a very short time, and passed over a larger amount of trade than any previous year.

As far as Leh then the Indian traders during the summer months experience now no difficulty, and provided they don't cross the Zojila pass until the snow has melted their lot is not hard, and very different to the experiences of those who bring their goods down from Yarkand to Leh for exchange and sale.

Leh is the half-way house for caravans from India and from Yarkand; here merchants from Russian and Chinese territory, meet the Indian trader with his English and Indian goods, though many there are who make the whole journey from India to Turkistan and return the following year.

For four months of the year the Leh bazar is full of men of very varying nationality,—the long-coated Muhammadans from Central Asia, the Thibetan with his prayer-wheel, and the Hindu of India in his white clothes,—all bargaining and exchanging their wares; and while the Indian returns by the somewhat easy road to India with the produce of Turkistan, the trader from the north starts back on his rough and trying journey to Yarkand.

The first obstacle that meets him is the Khardong pass open as the Zojila for about five months in the year, though there is another pass by a longer and rougher road which is open during the winter, known as the Diggar pass.

The Khardong pass, the first march from Leh, is 17,800 feet high; the road as it nears the top from the Leh side is over huge granite rocks, which are brought down annually by the avalanches; ponies with burdens can only be taken over these rocks at the risk of breaking their legs, and of dying from the great altitude. Yarks or the mountain buffalo, a beast which revels in an altitude of 18,000 and deep snow, are hired at R2 for the march to carry the goods across this pass.

On the north side is a glacier over which many an animal loses its life, and from taking a fatal step joins the heap of skeletons at the foot of the slope.

From the glacier to the foot of the pass the road over the granite stones has been improved and is not difficult.

To make this pass easy for ponies for the five months it is open would cost about R3,000, and an annual outlay of R1,000 to mend the parts damaged by winter avalanches.

Twelve miles from the foot of the Khardong the Shyok river has to be crossed, ponies swim, and the baggage is put into a boat which is kept for the purpose. After the river, the road leads on through the Nubra valley, past fairly populated villages, and now and again across hot sandy wastes.

At the end of the Nubra valley the road rises by a series of zig zags 4,000 feet and descends 2,500 feet. This ascent is very steep and trying; the road is unmade and over boulders, and though there is no snow on the hill, its difficulty and strain on the baggage ponies speaks for itself, for hundreds of carcases littered along the road side show how many are the poor beasts who have succumbed when asked to make this climb.

For a some of about R8,000 a road could be blasted through granite rocks by a river-bed which flows by the side of this hill known as the Talambuti nala, which would shortern the distance by about 10 miles, and do away with the ascent and descent, and so save many of the lives of the transport ponies. A beginning is going to be made this year in making the road, but with the small funds available it will take several years before any road is opened.

From the top of this hill known as the Karawal Dewan the troubles to men and beasts increase, for grass is not obtainable, and before them for 250 miles is an uninhabited, stony country surrounded by high mountains and glaciers, and swept with bitter winds, while the sun blazes down from above with a force equalled only on the plains of India; nor is this unhabited region free from its high passes, for 20 miles after leaving the Karawal Dewan hill, the road crosses the Sassar pass 17,800 feet high, over alternate granite rocks, and slippery glaciers for about 10 miles; here the carcases of animals again show the terrors and dangers of this place, and many a caravan has been entirely lost in a snow-storm. Nothing could be done to the road over this pass except an annual outlay of about R2,00 in clearing the road in those parts which are free from glaciers, of the huge granite rocks brought down by the avalanches, but this would be a vast saving to life; for the ascent and descent are easy and gradual, and if the rocky part of the road were smoothed, the glacier, themselves, though inhospitable in appearance, are practicable, and an occasional fall is all that need be expected. This pass like the former ones, the Zojila and the Khardong, is only open for the five summer months of the year, and is a deathtrap from blizzards and snow during the remainder

From the Sasser pass the road leads down again to the Shyok river which is crossed by boats.

As far as this only have I personal experience, but from the description of others and the complaints of the traders, I know they have further troubles ahead.

The Morgo ravine confronts them after leaving the Shyok, and a further sum of, perhaps, R8,000 would make this into a practicable road; it has no glaciers and no snow.

From that onwards to Shahidulla the difficulty is want of food and grass, as the road crosses high plains. The Karakoram pass and the Kilian pass are not spoken of with such dread as the Sasser, the Morgo ravine and the steep ascent which could be avoided by a road through the Talambuti nala.

This route has frequently been described in books by travellers, but never previously that I am aware of in a trade report. And my only object in decribing it in this year's report is to attract the attention of those concerned, that such a road open for five months of the year for a great length of its distance uninhabited, and without grass, is capable of being the means of carrying lakhs of British Indian goods to Turkistan in exchange for lakhs of produce from that country, a country where competition with Russian merchants is strong.

It speaks wonders for the pluck and endurance of the men engaged in this commerce who face the sun, cold and high altitudes, even death, and if an increase of interest brings with it an increase to the funds which are wanting to making this route an easier one, it will be an enduring mark of the watchfulness over the interest of her subjects which the Indian Government is not backward in showing, and will help to establish British and Indian trade in a market which shows itself capable of responding to our commercial enterprise.

At Shahidulla supplies are procurable, and from that onwards the difficulties of the road have ceased.

Nor is the road above described the only means which British trade has of w e ting some of the competed-for markets of China from behind, for during the remainder of the months of this year the roads through these unpassable mountains to Leh, are the riverbeds, which in the winter are shingle with but little water, and what water existing frozen over and easily crossed. Merchants during January and February avoid the Sasser pass and the Karawal Dewan and follow the course of the Shyok river until near Leh when they cross the Diggar pass open generally all the winter. This route would no doubt be far more used, if the Zojila could be made practicable for winter, for they could then take their goods down to Srinagar, or even India except during very severe winters. Besides this winter route there is the direct route from Yarkand to Abbottabad *viâ* Sarikol, Hunza Nagar, Gilgit and the Khagan valley. This route atpresent is closed owing to the large garrison at Gilgit wanting all available supplies and because the Khagan valley route is still an unfrequented way. These disadvantages will eventually be removed. Gilgit cannot remain always a closed book to merchants. Grain resources are capable of increase, and the Government of India are already directing their attention to opening the Khagan route.

This route, however, would only be a winter one, as the large amount of water such as the Hunza river which would have to be crossed, would effectually stop ponies. With this route, however, open for the winter, the Leh route improved and open during the summer, while some traders would use the Shyok winter river route, we should practically have towards Turkistan a flow of trade all the year round; how much such a contingency is considered probable and the effect it would have in competing with Russian trade in Turkistan, I cannot do better than quote an extract from a translation of the Russian trade report by their Consul-General in Kashgar:

> One of the chief articles of export trade from Turkistan is Nasha or Hoshish, which is prepared in enormous quant ties in many places of Eastern Turkistan and represents one of the most profitable articles of commerce. Besides the above they export silk, silk combings, goat's-wool, Chinese silver, gold from Khotan mines, carpets, felts and a few other articles of local industry. With the exception of silk and wool, none of the above articles are in demand in our markets, and consequently this export trade has interest for us only in so far by means of it some English and Anglo-Indian goods enter Turkistan. Among these may be mentioned tea which passes through Kashgar into Russian territory, indigo, various spices, medicaments, etc., chief Kashmir shawls and silk clothes with gold embroidery, products of English or Anglo Indian manufacture, prints, handkerchiefs, other cotton goo ls, numerous kinds of muslin, cloth, velvet, kuna skins, tanned leather and a variety of cheap metal articles. Of the above articles, only products of factories in any way endanger the sale of our merchandise.
>
> At present, however, there is no danger, for the difficulties of transit, the length of time it takes to sell goods, the great expense of import and chiefly their interior quality as compared with ours (especially as regards colour and patterns, which are not in accordance with local taste) prevent any competition with our trade, and this has already been noticed by the English themselves.
>
> But at the present for us the very profitable state of commerce may undergo a material change, for, as I have already mentioned, the recently constructed road into Eastern Turkistan *viâ* Gilgit and Kunjat considerably decreases the unfavourable conditions of English trade.

As regards the remaining remarks, our merchants, especially if they can secure direct communication through the Joint Commissioner with the English Chambers of Commerce, will soon meet any demand in colour and quality asked for by the Yarkandis.

By the improvement of the road and the development of the resources of Ladakh and Gilgit in food-supplies and transport, the cost of transit would be cheapened. And with these advantages English and Indian enterprise would well hold their own against all commerce in Western China.

The cost of these improvements suggested is as nothing if compared with the vast projects of railway extension towards Yunnan. In order to obtain an outlet for commerce, and all that is asked for this trade-route is, to quote again from Lord Salisbury's speech, the goodwill and the assistance of the British and Indian Governments.

To put that required assistance into figures would mean about an expenditure, for one year, of ₹30,000 and an annual outlay of, at the most, ₹10,000 afterwards.

Ladakh Trade Return for the year ending 31st March 1896.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

REPORT ON AGRICULTURAL PROSPECTS IN THE CENTRAL PROVINCES.

The following paper is published for general information :—

From H. H. Priest, Esq., I.C.S., Chief Secretary to the Chief Commissioner, Central Provinces, to the Secretary to the Government of India, Revenue and Agricultural Department, No. 849, dated Nagpur, the 12th February 1897.

I am directed, with reference to my No. 4988, dated the 16th December 1896, to submit the following further report regarding the prevailing scarcity in these Provinces.

2. The Chief Commissioner has now satisfied himself, by personal inspection, of the condition of the districts where distress is most serious. He has also arranged, in greater detail than was possible when he last wrote, the scheme of relief operations to be adopted in each district. Moreover, the further information which has reached him, combined with his own observation in the affected areas, has led him to modify on one or two points the view of the situation in the several districts of the province which was given in paragraphs 4 to 9 of my former letter, No. 4988, dated the 16th December, 1896. For these reasons he deems it desirable to report on the situation in each district as it now presents itself to him ; to specify the areas affected and their general circumstances ; to indicate the scheme of relief which is in operation ; to show the number and classes of people who have been and are in receipt of relief ; to forecast, as far as the data now available permit, the probable future duration and extent of the distress, and to estimate the aggregate numbers who will be in need of relief.

The following statement shows, for the districts where distress exists, the numbers in receipt of relief on the 23rd January last, their classification, and the nature and number of relief works provided :—

Serial No.	District. Name.	Total area in square miles.	Population.	Affected area. Area.	Affected area. Population	Numbers in receipt of Government relief. On relief works.	Numbers in receipt of Government relief. Gratuitously relieved.	Total.	Percentage of persons relieved to total population of affected areas.	Number of relief works opened.	Number of relief centres.	Number of Government poor-houses.

In view of the great importance as regards the present distress of the outturn of the coming spring crops, a statement is also given, showing for each district the area under rabi crops for the last three years; the average area of these years; the area now under these crops according to the latest available data, and the anticipated outturn in each case.

It should be observed that these figures must not be accepted as final, as the patwaris' papers showing the areas in detail are not filed until the 1st April. They may, however, be regarded as the best provisional estimate now obtainable:—

District.	Area under Rabi crops during			Average of columns 2, 3 and 4.	Area under rabi during 1896-97.	Percentage by which column 6 exceeds (+) or is less than (—) area in column 5.	Estimated outturn of rabi crop, 1896-97, in annas.
	1893-94.	1894-95.	1895-96.

* Estimates only.

† Estimate for wheat.

The appended Table A also shows the way in which the numbers in receipt of relief have changed from week to week since the beginning of December.

3. I proceed to report in detail on the circumstances of each district, beginning with those of the Jubbulpore Division, where the distress is most serious. In the Jubbulpore District the parts most severely affected are the whole of the Murwara or northern tahsil and parts of the Sehora or central tahsil in the north and east, and the southern half of the Jubbulpore or southern tahsil in the west and south. The area of this tract is 2,459 square miles, and the population 368,000, or half the total population of the district. Even, however, in the remaining part of the district, including the rich plain of 1,111 miles (population 244,270) known as the Haveli, the bad rabi crops of the two years 1894 and 1895 have much reduced the circumstances of the people, and here as elsewhere general high prices must cause distress among the poor. The total affected area is thus identical with the whole area of the district and covers 3,909 square miles with a population of 748,000.

Turning next to the scheme of relief which has been adopted for this district, it may be observed that the failure of the kharif crop in the parts of the district where distress had previously been most severe made it necessary to anticipate the opening of large works by some more summary methods of relief, and, at the Conference held at Jubbulpore in the beginning of November last, the Commissioner was authorised to open relief-centres at the more important villages throughout the affected tracts. The object of these centres, as explained in Revenue Department letter No. 4950, dated the 11th

December 1896 (copy appended), was to relieve starving wanderers by the provision of food, and, by arranging for local labour of a not too arduous kind in the immediate neighbourhood of each centre, to enable such of them as had, owing to hunger and weakness, been rendered temporarily incapable of sustained work to regain their strength As soon as they were considered strong enough they were to be passed on to large works under the stricter supervision of the Public Works Department. In the special circumstances of the Jubbulpore Division, where, as has just been noted, the failure of the autumn crops fell with especial severity on a population previously reduced by two years of scanty harvests, this method of relief proved most useful. The simple mechanism of the relief centres allowed of their being opened promptly; while the starting of large relief-works and the organization of village relief would necessarily have taken some time. They were started during November; were at once largely resorted to, and are now in operation at 16 places throughout the affected tracts, *viz.*, at six places in ths Jubbulpore tahsil, five in Sehora and five in Muwara).

The Chief Commissioner took an early opportunity of pointing out that these relief-centres were essentially of a provisional nature, and that when once village relief had been effectively organised and sufficient works opened, the necessity for them would largely disappear. In a recent circular letter dealing generally with gratuitous relief (*vide* paragraph 3 of circular letter No. 214, dated the 15th January 1897, copy enclosed), he has again laid stress on this point, which he regards as one of much importance. In addition to the 16 relief-centres, there are poor-houses at the three tahsil head-quarters and at Katangi on the northern road to Damoh where the Chief Commissioner, on a recent visit, found a large number of people from the Native States of Bundelkhand and from the North-West Provinces—many of them in a very emaciated condition.

For those able to work, seven large works under the Public Works Department—all road works—have been started, and it was believed until recently that these would suffice to provide work for all who needed it at a not too great distance from their homes. The numbers on works, owing largely to extensive immigration from the Native States of the Baghelkhand Agency, have however during the last few weeks risen very rapidly, especially in the northern or Murwara tahsil. The district has now been divided into two Sub-divisional charges; it is intended shortly to form a third, and the number of large works will be increased to keep pace with the constant flow of applicants for labour which has to be dealt with. The Katni extension of the Indian Midland Railway also provides work for large numbers of the able-bodied. A scheme of subsidiary local works, to be partly carried out from Government funds and partly with the aid of the special famine loans recently sanctioned by the Government of India is now being elaborated, and numerous works of this kind at convenient centres will be started as soon as possible. Three tanks have already been begun. For the hill and forest tract in the south-west corner of the district arrangements have been made to construct three tanks and a forest road through the agency of the Forest Department.

The bulk of the people on the works are agricultural and other labourers and some of the smaller cultivators. On the large works recently opened some of the better class of cultivators are to be found, but the Chief Commissioner considers that unless a really adequate task is exacted and a bare subsistence wage given, there will, even in the absence of any acute distress, be numbers of agriculturists willing and ready, at a season when there is no field work, to add to their scanty means by coming on Government works. As the exaction of task work grows more systematic and when field work again begins, the numbers of workers drawn from these classes will in all probability rapidly fall off. Cases of emaciation are rare on the works, the main signs of poverty being inadequate and ragged clothing, but in the poor-houses and at relief-centres there are numerous very bad cases. Most of these are, however, beggars or pilgrims who only come on relief as the last resource when alms or food are no longer procurable.

For the relief of the agricultural classes the whole of the kharif instalment of land revenue has been suspended throughout the most severely affected area. In the rest of the district from half to two-thirds of that instalment has been suspended.

It may be added that for the effective supervision of famine relief-work in this district, a European officer has been placed in charge of each tahsil: a

covenanted Assistant in each of two tahsils and an Assistant District Superintendent of Police in the third. A special medical officer has also, with the sanction of the Government of India, been appointed to superintend the medical and sanitary arrangements on all famine works and in poor-houses. Arrangements have now been made for the deputation of three more European supervising officers to cope with the rapidly increasing work, especially in the northern tahsil.

Village house-to-house relief has also been organized, as well as similar relief in towns, which will be arranged for by the Municipal Committees with the help of Government officers. For the relief of the respectable poor in the town of Jubbulpore itself, who are averse from coming forward to ask for Government aid, a special committee has been formed, which is carrying on operations with the aid of private funds.

A special difficulty in arranging for famine relief in this district has arisen from the large number of frequently emaciated immigrants from Native States who swell the ranks of relief workers and crowd into poor-houses and relief-centres. At the end of December no less than 83 per cent. of the inmates of the Murwara Poor-house consisted of such immigrants, and there are similarly large numbers wherever measures of relief have been started. The Political Agent, Baghelkhand, has recently assured the Commissioner of the Division that adequate measures of relief have now been adopted in the Agency itself, and the Chief Commissioner trusts that the immigration may diminish. Of this however there is at present no symptom. Most of these wanderers arrive at the poor-houses and relief-centres in a very reduced state, and the frequent deaths among them have largely contributed to the high rates of mortality which have been such a serious feature of this district during the past months.

The reality and extent of the distress in Jubbulpore can best be gauged by a consideration of the aggregate numbers in receipt of relief since the beginning of December last. In the beginning of that month the total numbers were 12,829; by the middle of the month they had exceeded 20,000; and on the 26th stood at 42,000. Since then they have steadily and largely increased, the total numbers now in receipt of relief being over 90,000, or more than 12 per cent. of the total population of the district (=748,000). The stoppage of immigration from Native States and the harvest work which will be available in February and March in getting in the rabi harvest, should, however, diminish these numbers; while from April to June the free opening of the Government Forests will, if the mohwa crop be abundant, cause a still further fall. The bulk of the people who are in receipt of Government relief much prefer resorting to the jungle and living on mohwa and other edible forest produce to the sustained labour of a famine-work, and the Chief Commissioner anticipates that here—as indeed in all districts where mohwa is plentiful—this will result in a marked falling off in the numbers in receipt of relief during the hot weather months. Indeed, if the crop is a full one, many will lay up stocks to last them through the early monsoon months and will probably return to their homes until the autumn harvest can be reaped. In view of these considerations Mr. Lyall thinks that the numbers in receipt of relief will probably reach their maximum by the end of this month, and, including those in receipt of village house-to-house relief, he would estimate 70,000 as the average number who will need relief from the 1st February until the end of September, or say 17 million units.

With respect to rabi prospects, the outlook in the restricted area sown (now stated as two-thirds of the normal) was reported as good in my letter of December last. The further rain at the end of December and during the current month has still further improved matters, and an outturn of 11 annas is at present anticipated.

As regards prices, those of wheat and gram, the staple food-grains of the district, are slowly but steadily cheapening. At the beginning of December wheat stood at 8 and gram at 10. For the last three weeks wheat has stood at 9 and gram at 11. As the present prospects of the rabi become more assured a further fall is probable; but here as elsewhere in the Central Provinces, the governing factor in prices is the prospect of the rabi harvest in Upper India, to which export of food-grains is still going on from Jubbulpore. There is no cause for anxiety as to deficiency of food stocks in any part of this district.

4. In Saugor the most seriously affected tracts lie along the south-western and south-eastern borders of the district, in the north-west corner, and in the Shahgarh pargana in the extreme north-east.

The early cessation of the monsoon confined rabi sowings to a third of the area of the previous year, while the kharif outturn has nowhere exceeded four annas: past years have been very bad, and the Chief Commissioner considers that there is no part of the district in which distress will not be felt. The whole area of the district—4,007 square miles with a population of 592,000—should therefore be treated as affected for the purposes of famine relief. The general circumstances of this district are similar to those of Jubbulpore, though there is less immigration from Native States. Here also relief-centres have been established at 10 places in the tracts most seriously affected; while, to meet the demand for work, four large road-works have been opened, one in each tahsil. Here, as also in Jubbulpore and Damoh, the extension of the Indian Midland Railway to Katni supplies labour for the ablebodied. As regards local works, it may be remarked that in this district there is but little scope for these, but the construction of three large tanks is proposed; while for the Khurai Tahsil, where acute and general distress exists, special famine loans are to be granted for the embankment and submersion of fields for the purpose of eradicating *kâns* grass. Poor-houses have been established at each of the four tahsil head-quarters, and at Shahgarh in the extreme north-east of the district. Village house-to-house relief has also been arranged for in all tahsils, and is now regularly distributed. The condition of the people on the works is reported to be fair, there being but few cases of emaciation. Relief-workers are chiefly drawn from the labouring classes, but there are some tenants and a few petty landholders, co-sharers in small villages, on some of the works.

At the beginning of December there were 2,000 persons on relief-works, and over 1,000 in receipt of gratuitous relief. By the end of that month the number of workers had reached 15,000, those in receipt of gratuitous relief having increased but slightly. Early in January there was a marked increase under both heads, and according to the latest returns there are nearly 27,000 on relief-works and nearly 13,000 in receipt of gratuitous relief. Two additional covenanted Assistants and one Assistant Superintendent of Police have been appointed to supervise the famine charges into which the district is divided, and a special medical officer has, with the sanction of the Government of India, been placed in charge of all sanitary and medical arrangements connected with famine.

The forests in this district will not attract such large numbers as in Jubbulpore, nor will harvesting on the greatly restricted rabi area afford much labour. Moreover immigrants are not numerous. The Chief Commissioner considers that no perceptible decrease in distress can be hoped for until the early autumn crops are reaped, and that we may expect to have from 25 to 30,000 people needing relief until the end of September. This would give, say, six million units for that period.

The rain in December and January has somewhat improved rabi prospects, but, as has been stated, the outturn on the greatly restricted area must be so small that it cannot materially alter the situation.

The prices of the staples, wheat and gram, hardened in the latter part of December. They have now again fallen slightly, and are slightly cheaper than at the beginning of November, wheat being at 8½ and gram at 10 seers per rupee.

There is still considerable export of grain to Upper India from this district, which points to stocks still being available, but if there is a good rabi harvest in the North-Western Provinces and in the remaining wheat districts of these Provinces, this will, no doubt, later on, give place to extensive import. No insufficiency of food supplies is anticipated by the local officers.

5. The Chief Commissioner's personal observation in the Damoh District, and the further and fuller reports which have reached him since my letter of December 16th was written, have convinced him that the account of the situation in that District, at the end of paragraph 8 of that letter, gave an unduly favourable impression of the present condition and prospects of this part of the Province. The rabi crop of 1894 was an utter failure: that of 1895 was little

better, while the early cessation of the autumn rains of 1895 gave an equally scanty harvest in the spring of 1896. The kharif crop of 1895 was scarcely better than the rabi, and, while this crop in the present year was, in the southern tahsil, somewhat better than that of 1895, it was almost an utter failure in the north, where the people are very poor and are almost entirely dependent for food on rice, juari and the lesser millets. The proportion of the rabi area sown was also considerably over-estimated by the local officers in their report of December, and it is now certain that the sowings do not cover more than half of last year's area. The successive calamities of past years have exhausted the resources both of tenants and malguzars, and the district will need very careful treatment if it is to recover the prosperity which it formerly enjoyed.

For the period from the middle of August to the beginning of November, owing to casualties among officers in the Jubbulpore Division, the district was unavoidably placed in charge of a young and inexperienced officer who could not be expected fully to read and understand the signs of distress It is true that such distress as existed has certainly grown rapidly worse since the failure of the autumn crops declared itself, but even before that time it must have been considerable. The condition of this district previous to the failure of September has been set forth in paragraphs 14, 18 and 19 of the Chief Commissioner's Resolution No. 574, dated the 1st instant, dealing with the proceedings of 1895 and 1896 in regard to famine in the Jubbulpore Division, to which I am to refer the Government of India. The Deputy Commissioner now in charge of Damoh has had previous experience of the district as Settlement Officer, and the Chief Commissioner is confident that everything that is necessary is now being done.

It was formerly reported that the distressed area was confined to the south and south-west of the district and to the north of the Hatta Tahsil. No doubt these are the areas where the scarcity is most severe, but, for the purpose of famine relief, the Chief Commissioner considers that the whole district, which extends over 2,831 square miles, with a population of 326,000 persons, should be regarded as distressed. Here also, relief centres have been opened at seven places in the most distressed tracts; three large road works have been started, two in the north and the third in the south and nine local works are in progress. There are poor-houses at the two tahsil head-quarters and at two other places on main roads from the west and south which are much frequented by wanderers. A scheme of local works, to be undertaken partly from Government funds and partly with the aid of special famine loans, is being worked out for those tracts where no scope for large works exists, and house-to-house relief in villages has been organized. It may be added that for the able-bodied, abundant work is provided in the construction of the Saugor-Katni extension of the Indian Midland Railway. The general condition of the people on the works is reported as low, many of the able-bodied having gone to work on the railway. The bulk of those in receipt of relief are labourers, but there are a few petty land-holders, co-sharers in small villages, and a sprinkling of tenants. Relief has been given to the agricultural classes by the entire remission of the kharif instalment of Land Revenue throughout the district.

The numbers on relief-works and in receipt of gratuitous relief, which stood at under 6,000 in the middle of December, rose to over 12,000 by the end of that month and now considerably exceeds 20,000. In considering these numbers, it must be remembered that the population of this district is only half that of Jubbulpore, and that a large number of persons find employment on the railway. Even, however, after allowing for this, the Chief Commissioner does not consider that the maximum number has yet been reached, and thinks that, after making the necessary deductions for withdrawals owing to the possibilities of getting food in the forests, and to harvest and other field labour becoming available, provision should be made for about 20,000 people from February to the end of September or, say, 4½ million units in all. The prospects of the rabi on the area sown are at present fair to good, and an average crop is expected in most parts of the District.

The prices of the staple food-grains, wheat and gram, are much the same as in Saugor, and have shown only slight fluctuations since the beginning of November. They then stood at eight and ten seers per rupee respectively. Their present price is 7½ and 10. Owing to there being no railway to Damoh, import is diffi-

cult during the rains, and prices tend to rise towards and during the monsoon months. But with good rabi harvests in Upper India, general prices should fall considerably during March and April and a considerable import may be expected Scarcity of food-grains is not anticipated, but here, as also in Saugor and probably in Jubbulpore, large advances will be necessary for the purchase of seed-grain.

6. In Seoni there is no such general distress as in the three districts which have just been dealt with. The crops of 1893-94 yielded 71 per cent. of a full crop, those of 1894-95 63 per cent., while it was only in 1895-96 that both kharif and rabi were poor. In 1896, some 40 per cent. of the normal rabi area remained in the first instance unsown; but after the rains of November further sowings became possible, and the area now under spring crops is not, it is estimated, much short of the area sown in the previous year.

It is thus only in the Lakhnadon or northern tahsil and a comparatively small tract in the south-east of the Seoni or southern tahsil, where the people are almost entirely dependent on the outturn of the autumn crops, that any acute distress is anticipated. The affected area extends to 1,766 square miles, with a population of 200,000, or 54 per cent. of the total population of the district.

For purposes of relief there are three large road works under the supervision of the Public Works Department, two in the Lakhnadon or northern tahsil, the other traversing the distressed tract of the southern tahsil. There are also six relief centres, four in the northern and two in the southern tahsil. Smaller local works have also been started at ten places, nd there are two poor-houses at the two tahsil head-quarters. The question of house-to-house relief in villages nas been considered, but it was decided that no such measure is yet needed. Three forest roads are being constructed as relief-works—one in the southern tahsil and two in the north-east and north-west respectively of the northern tahsil.

Throughout the affected area the forests have been opened to the free extraction of mohwa, edible roots, fruits and head-loads of grass and fuel.

One of the large works was recently inspected by the Chief Commissioner, and he did not observe a single case of emaciation. Most of the workers were labourers and petty cultivators, not, as yet, in actual distress, but very glad, in this period of high prices and absence of demand for labour, to earn a regular daily wage. Even in the poor-houses cases of emaciation were not frequent, and with good harvests in the current year the Chief Commissioner does not think that this district will give cause for serious anxiety. It may be added that the kharif instalment of Land Revenue has been suspended throughout the affected area

The numbers in receipt of relief rose from 2,000 in the beginning of December to nearly 4,000 at the close of that month. In the beginning of January they reached 6,500; then decreased to something over 4,000, and have now again risen to over 7,000. Looking at the present excellent prospects of the rabi crop in the greater part of the southern or Seoni Tahsil, the Chief Commissioner does not think that a monthly average of more than 5,000 need be provided for, and he would fix the figure for this district for the period February 1st to September 30th at, say, one million units.

Rabi prospects are at present good. As already indicated, the greater part of the normal rabi area has been sown, and both the early and late sown crops are doing well. In his recent journey from Seoni to Chhindwara, the Chief Commissioner passed through village after village of splendid wheat land where the cultivators freely admitted that they looked forward to a full crop. Unfortunately, after he left the district on the 21st January, a destructive hail-storm visited a portion of this tract and did some, though local, damage to the nearly ripe wheat. The estimated rabi outturn for the whole district is not less than 12 annas.

The prices of food-grain reflect the state of the crops. Rice, of which the harvest was very poor, remained nearly steady since the beginning of November at 10 seers per rupee and has only recently fallen to 9 seers, while wheat has gone down from just over eight to ten seers per rupee. As the prospects of the rabi become more assured, the price of wheat will probably show a still further fall and no anxiety need be felt as to the sufficiency of food stocks in this district.

K

7. As regards Mandla, it was pointed out in paragraph 6 of my previous letter that the situation here was serious. The autumn crops of 1896 were practically an utter failure, and both the kharif and rabi of the previous year were poor. More than half of the population are aborigines who are altogether without recources, and the number of mohwa trees is not sufficiently large in Mandla to warrant our anticipating from that source so much relief as in the three northern districts of the Division. Moreover, it is generally believed that the aboriginal population are especially averse to leaving their homes for Government works.

The whole district may be considered as distressed in a greater or less degree, and, except in a small tract in the north and west, in and around Mandla itself, the distress is acute. The distressed area thus extends to 5,056 square miles, with a population of 339,000 persons. To meet the peculiar circumstances of the district, and with regard to the large extent of the distressed area, it has been thought advisable to have more numerous relief centres than were found necessary elsewhere, and the number at present open is 17. There are also four large road works under the Public Works Department and two local works under Civil Officers, as well as three forest roads in those tracts where other modes of relief are not possible. There are poor-houses at both the tahsil head-quarters, and house-to-house relief in villages is now being rapidly organized.

It is further expected that a large number of local works of improvement will be carried out with the aid of special famine loans, and the construction of ten tanks as Local Famine Works from Government Funds has already been sanctioned.

The whole district has now been divided into four famine charges, two for each tahsil, a responsible officer of the rank of Tahsildar being placed in charge of each. A European Assistant Superintendent of Police has also been posted to Mandla to assist in the supervision of famine works.

The Chief Commissioner inspected one of the large Public Works Department works, and also visited a relief centre and the Mandla poor-house. The average condition of the aboriginal population of Mandla is at no time good, their food being scanty and frequently unwholesome. The recent bad times have made matters worse, and the condition of the people generally is poor. Starving wanderers are not, however, often met with, nor are cases of actual emaciation at all frequent, except in poor-houses. Meanwhile, all is being done that can be done, and the adequacy of the arrangements made was gratefully acknowledged by the people during the Chief Commissioner's recent visit to Mandla.

The numbers on relief-works and in receipt of gratuitous relief, which were just over 5,000 at the beginning of December, had reached nearly 8,000 by the end of that month. Numbers are still steadily rising and have now reached 15,000. Harvest labour may give employment to some, but the rabi area in the affected tracts is so small that this will not perceptibly diminish numbers. On the other hand, the local officers believe that many more will flock on to the works as soon as they become fully known, and they consider that numbers will go on rising, with possibly some slight fluctuations at harvest time, until the early monsoon crops are reaped. The Chief Commissioner thinks, therefore, that 30,000 should be taken as the daily average from 1st February to 30th September, giving a total for that period of 7¼ million units.

The present prospects of the rabi crops are excellent, and have been much improved by the showers of December and January. But, as already remarked, the outturn of these crops cannot materially affect the general situation.

Prices here are rising. At the beginning of November the prices of the staple grains (wheat and rice) were 10 and 11 seers per rupee respectively. They now stand at 9 and 8 seers, and food stocks are reported to be very scanty. The attention of the Commissioner has been already drawn to the correspondence regarding the import of grain into Bengal which was forwarded with your letter No. 4-F., dated the 6th January 1897, and he has been asked to consider whether any special arrangements may be needed later on for the supply of food-grains in Mandla. The inaccessible character of a great part of this district; the absence of local traders; the poverty of the people; and the fact that there are no local food stocks, make it not improbable that Government help in some shape

will be needed to secure a due supply of food-grains during the rains. At present there is no reason to fear failure of supply so long as the people are put in funds by the opening of a sufficient number of relief-works. The measures necessary for supply during the monsoon months will, no doubt, need anxious and careful consideration, but for this there is ample time.

8. Summarizing the situation in the Jubbulpore Division, it may be said that the whole Division, with the exception of the southern half of Seoni, is affected by distress, and that the affected area extends over 17,569 square miles with a population of 2,205,000. On the 23rd January 154,580 persons or 7 per cent. of this population were in receipt of Government relief, and up to the 30th September, up to which date a continuance of Government relief measures will be necessary in all parts of the affected area, it may be estimated that 31 million units will need relief.

9. In the Nagpur Division it is only in three districts that distress now exists otherwise than quite locally, and in only one of these, Balaghat, is the distress general or acute. From Chanda no distress is reported except in the remote Zamindari of Ambagarh Chauki in the north-west of the district and bordering on the Nandgaon Feudatory State. In Wardha, where a poor-house was opened and a test work started, it was found that only a few immigrants from other districts came to the poor-house and that the demand for work at the famine wage was very small. The poor-house has accordingly been closed, and the work will be continued as an ordinary work. In view of the good outturn of juari which, in this district, covers nearly half the kharif area, and with a favourable rabi of which there now seems every hope, there will probably be but little need for further direct famine relief here.

In Nagpur the greater part of the district gives no cause for anxiety, but there is a demand for labour and some degree of scarcity among the poorer classes in two small tracts in the north-west, two similar small tracts in the south-east, and a somewhat larger area in the north-east corner of the district. There is further some distress, owing to high prices and absence of demand for labour, among the poorer classes of the town population of Nagpur and Kamptee, especially among the labourers and weavers. The affected area, as so defined, may be estimated at 524 square miles, with a population, taking only 10 per cent. of the population of Nagpur city as affected, of 95,500 people.

As regards measures of relief, there are poor-houses at Nagpur and Kamptee, with an average population, during December, of nearly 1,800 persons, more than three-fourths of whom were women and children. Works (stone-breaking and earthwork), one under Municipal supervision and the rest under Public Works Department supervision, were started during December at six places, five in the Nagpur Tahsil and one near Umrer in the south-east. At first sufficient strictness in the exaction of a task was not shown, and numbers rapidly rose to over 5,000. Under more systematic management numbers have steadily gone down, and there are at present only a little over 2,000 on the works. R25,000 were granted last December for land improvement loans. A certain amount of labour is thus provided. Neither relief centres nor village house-to-house relief have been found necessary, and a recent careful report by the Deputy Commissioner, based on personal observation of the distressed tracts in the north-west and north-east, shows that there is, as yet, no wandering and no cases of emaciation. All that he considers to be needed is sufficient work for those who are fit for labour, and, in the more remote parts, the opening of the forests to the extraction of edible products. Rabi prospects in this district are at present good; the price of the staple food (juar), which in the beginning of November stood at 11 seers per rupee, went down in the first-half of January to 15 seers and it is now selling at $13\frac{3}{4}$ seers per rupee. After allowing for harvest labour and relief in the wilder tracts by the opening of the forests, the Chief Commissioner doubts whether, after February, there will be any necessity for relief-works, except on a limited scale, and in those parts of the district where the people are mainly dependent on the outturn of the autumn crops. Even however if a high estimate be taken, he does not think that provision need be made for more than an average of 2,000 a day or, say, half a million units between February 1st and the end of September.

12. Summing up the situation in the Nagpur Division, it may be said that the area affected by scarcity is 5,413 square miles with a population of 868,000 persons. The numbers in receipt of Government relief on the 23rd January amounted to 15,884 persons or nearly 2 per cent of the population of the distressed area. It is only however in Balaghat-and, though certainly to a less degree, in the north-east of Bhandara, an area of 3,639 square miles with a population of 548,000 persons, that distress is severe. The numbers for whom relief will have to be provided up to the end of September may be estimated at 4½ million units.

13. In the Nerbudda Division it may be said generally that there is a keen demand for labour but no severe local distress, except among the aboriginal tribes of Hoshangabad (Gonds and Korkus), in the Chhindwara Jagirs—a tract of 1,600 square miles to the north of the district of that name, and in the west and north of Betul. There is also, as must be expected, considerable distress everywhere among the infirm and aged poor whom the hard times deprive of their usual alms.

In Hoshangabad the affected area consists practically of the whole of the two eastern tahsils, Hoshangabad and Sohagpur, the southern and northern borders of the two western tahsils and the Charwa pargana in the extreme west. In all these areas kharif predominates over rabi, and this crop was, in the current year, generally very poor. Acute local distress is not yet reported except in the hill and forest areas in the south and south-west, but there is a keen demand for labour at the famine wage, and cases of emaciated wanderers are to be found among the inmates of poor-houses, and among the aboriginal Gonds and Korkus who only come on Government works when forced by absolute destitution to do so. The affected area, as described above, extends over 3,794 square miles with a population of 375,000, amounting to 70 per cent. of the total population of the district.

The shape of the district is long and narrow, and the demand for labour has been met by opening work under the supervision of the Public Works Department on five lengths of road running, roughly speaking, north and south, four being in the two eastern tahsils and one in the north of the western tahsil. The only part not yet provided for is the south-west corner, but this is a tract of hill and forest sparsely inhabited by Gonds and Korkus. A proposal is however under consideration for opening a forest road through this tract and also for opening work under the supervision of the Public Works Department on the road joining the head-quarters of the Betul District with the western tahsil of Hoshangabad.

Here, and indeed throughout the distressed areas of the Province, the Police have received stringent orders to diet and forward distressed wanderers to the nearest poor-house or relief-work, and similar instructions have been issued under section 33 of the Central Provinces Famine Code to village mukaddams. Special concessions with regard to the rate on bamboos and articles made from bamboos have been made to relieve the forest tribes, and free grazing has been allowed to agriculturists. The realization of the kharif instalment of Land Revenue has been suspended throughout the two eastern tahsils, discretion being given to the Deputy Commissioner to suspend elsewhere in cases where he thinks this necessary. Poor-houses have been opened at Hoshangabad and Sohagpur. On the occasion of its inspection by the Chief Commissioner in December nearly half the inmates of the Hoshangabad poor-house were found to be immigrants from Bhopal, and the condition of the remainder did not strike him as indicating any widespread or acute distress in the district. The general condition of the labourers on one of the large works also inspected by Mr. Lyall in December was distinctly good, and the same observation has been made by local officers who have inspected other works. The observation in the Government of India, Revenue and Agricultural Department, Circular No. 3-F., dated the 24th January 1896, that "at any time when work is slack thousands of labourers will be attracted by a Government work on which remunerative employment is offered" appears to the Chief Commissioner to be applicable to a great part of Hoshangabad. Many of the labourers come for a few days, earn a rupee or two, and then return to their homes, and it is probable that a considerable number of those who come on to the works are not actually in need of famine relief and would no suffer perceptibly if the relief were to be withdrawn. In other cases, more especially

where work is provided near the homes of the aborigines, who even when pressed by hunger are most reluctant to leave their villages, the urgent need of relief is very clearly apparent from the low condition of the workers, and any contraction of work would at once result in a great increase of suffering and probable mortality. The question of relief centres and village relief has been carefully considered for this district, but it has been decided that neither of these measures is as yet necessary. Here as elsewhere, however, village relief will be started in all localities where the circumstances of the bulk of the people are so reduced as to make it impossible for them to support the helpless resident poor.

The prospects of the rabi crop, which covers three-fourths of the whole cropped area, have been improved by the rain of December, but are still far from good. In the rich wheat tract of the western (Harda) tahsil the outturn is not estimated by the Deputy Commissioner, who has recently inspected the crops, at more than 6 annas, and the prospects elsewhere, except in the central portion of one tahsil (Seoni), are similar. It is noticed indeed generally that the rain of December and January has done most good to the later sown crops, while those which were sown early in the hardened soil of October have been much less benefited.

The numbers in receipt of relief which, at the beginning of December, were under 8,000, had exceeded 23,000 by the end of that month and have now reached 36,000. These numbers will doubtless be reduced when the rabi comes to be reaped and when the mohwa crop gives food to the aboriginal population. A stricter insistence on the performance of an adequate task ought also in the special circumstances of parts of the district to tend materially to diminish numbers on some of the works. On the other hand, the Deputy Commissioner anticipates that there will be the usual immigration of labourers from the Satpura districts for the rabi harvest, and that in consequence of the restricted sowings and scanty crops of this year they will find but little employment and will consequently swell the numbers on Government works. In view of all these considerations, it will be advisable, Mr. Lyall thinks, to make provision for a daily average of, say 25,000 people for the period ending 30th September, giving an aggregate of, say, six million units for these eight months.

The prices of juar and wheat, which are the staple food-grains of this district, have shown frequent though slight fluctuations, but both grains are now a seer per rupee cheaper than they were in the first half of December. The good crop of juari in the Nagpur Division, if it is, later on, combined with a good rabi harvest in the North-Western Provinces and the Punjab, should, moreover, materially cheapen both these food grains, and with the facilities of communication which this district possesses there is no reason to fear either insufficiency of food-stocks or unduly high prices.

14. The situation and circumstances of the Narsinghpur District are in the main similar to those of Hoshangabad. Here also a scanty autumn crop has followed on three previous poor years, and the poorer classes, who depend largely on the kharif and who for the last three years have been deprived to a considerable extent of their usual harvest earnings in the spring, are in want of food and work.

The affected area consists of a belt of hill and jungle skirting the northern and southern borders of the district, with a narrow strip on the western border running from north to south. The inhabitants of the villages on the banks of the Nerbudda towards the centre of the district are also said to be feeling the effects of a series of bad years. Even however in the richer central plain there is some degree of distress among the labourers and poorer cultivators, and a keen demand for work. The Deputy Commissioner now considers that the whole district should be regarded as more or less affected by scarcity. The extent of the affected area is thus 1,916 square miles with a population of 367,000 persons.

A careful and interesting report on the situation and prospects of this district has recently been submitted by the Deputy Commissioner (Mr. Younghusband), and I am to submit it, together with the forwarding letter of the Commissioner of the Division, for the information of the Government of India.

The scheme of relief here is similar to that adopted in Hoshangabad, and consists of five road works under the supervision of the Public Works Department, chiefly feeder lines running north and south to the railway. Two of these

are in the western and three in the eastern tahsil. Neither in this district nor in Hoshangabad is there any scope for local works. There are three poor-houses, two at the tahsil head-quarters and the other at Chhota-Chhindwara (or Ghotigaon) on the railway line to the east of the district.

The Deputy Commissioner reports that he is now organizing village house-to-house relief, but he has not yet submitted his detailed proposals. It seems unlikely that relief of this kind will be needed except in isolated localities where the circumstances of the inhabitants have been especially reduced. So far, the dieting of starving wanderers by the police and village mukaddams has been found sufficient. The forest concessions made in Hoshangabad with regard to bamboos, articles manufactured from bamboos and free grazing have been extended to this district also The condition of the people on the works and in the affected area generally is reported to be normal. Wandering has not begun and cases of emaciation are, except among the inmates of the poor-houses, rare. From the notes of Inspecting Officers which have reached him, the Chief Commissioner is inclined to think that the remarks which he has made with regard to a certain proportion of the classes in receipt of relief in Hoshangabad apply here also. Of the large numbers who come on to the works a good many are not yet in actual distress, and a careful localization of works in areas actually distressed and a steady insistence on an adequate task are no less necessary here than in that district.

The Chief Commissioner has recently visited the Narsinghpur District. His experience is that there is considerably less distress here than in Hoshangabad. He inspected two large works, but did not observe, except in a few cases, any symptoms of previous privation. There are, however, numerous small cultivators on the works both here and in Hoshangabad who, if labour were not provided, would speedily sink into utter destitution. The same remark applies with even greater force to the large bodies of agricultural and other labourers who throng to the works.

The rabi prospects on the restricted area sown, which is now estimated at about half of the normal, have been somewhat improved by the rain of December and January and are now reported to be fairly good, though recent hailstorms have caused considerable damage locally.

The numbers in receipt of relief have, in this district, risen very rapidly. At the beginning of December the total just reached 1,000; by the end of that month it exceeded 8,000; and the latest returns show over 20,000 in receipt of Government relief.

The Chief Commissioner does not consider that these numbers will be very materially exceeded Harvest labour may lessen them for a time, and the lower range of prices which a good rabi crop in the North-Western Provinces and Punjab may be expected to bring with it will also tend to relieve distress. There must, however, be a good deal of suffering among the poorer classes, who live in tracts mainly cropped with kharif, until the kodo, kutki and makka are once more reaped in August and September, while even on the rabi area the poor harvests of past years, combined with restricted sowings and a scanty crop in the current year, must continue to cause considerable distress. The Chief Commissioner would therefore be inclined to estimate for a daily average of about 20,000 persons until the end of September, and thinks that provision should be made for say five million units for that period.

Prices here have been steadier than in Hoshangabad: juar now sells at 11 seers per rupee against 9 seers in the beginning of November, while wheat and gram have remained steady at 9 and 10 seers per rupee for the last six weeks.

15. In the Nimar district there has so far been even less distress than was anticipated. A number of the weavers in the town of Burhanpur have been thrown out of work by the absence of demand for cloth, but this is probably as much due to the fact that the current year is a "*singhast*" year, when no marriages are celebrated, as to any effect of a scarcity. Juar, it is true, which is the staple crop of the district, yielded only half of a full outturn, but the crops of the three previous years were above the average, and no distress is reported among the agricultural classes in either the central (Khandwa) or western

(Burhanpur) tahsil. In the Harsud or eastern tahsil (till October last a portion of Hoshangabad), where the crops of previous years had been bad, distress was anticipated among the aboriginal tribes of whom the population largely consists, but a test work which has now been open for some time has failed to attract more than a small number of workers.

It will probably suffice for the present to provide a local relief work at Burhanpur and to relieve out-of-work weavers (if they can be induced to accept such relief) under section 105 of the Central Provinces Famine Code: to have a poor-house at Khandwa and to keep open the test work in the Harsud or eastern tahsil. The Police have also been provided with funds for the relief of starving wanderers. The Chief Commissioner visited the Khandwa poor-house on the 1st instant. The persons contained in it, some 60 in number, were almost without exception foreigners from Bhopal, Indore, the North-Western Provinces and Oudh, and a few from other districts of the Central Provinces; many of them had come as pilgrims to Nasik and Onkar Mandhata, and had spent their funds on the way. He has also seen Burhanpore, where the poor-house was practically empty. So far, no part of this district can be regarded as affected by scarcity, and it will merely be treated as under observation.

16. It was stated in paragraph 4 of my previous letter of December that the Chhindwara district as a whole gave but little cause for serious anxiety, though special measures of relief would be needed for the 1,600 square miles of rugged country on the north known as the jagirs. Since then, prospects in the southern or Sausar tahsil, as well as in all the level portion of the northern tahsil, have been still further improved by the rain of December and January, and the present prospects of the spring crops are said by the people—and Mr. Lyall's personal observation confirms this view—to be excellent. After considering the full and careful reports of the Officiating Deputy Commissioner (Mr. Ryves), a copy of which, with the Chief Commissioner's remarks and orders thereon, is submitted for the information of the Government of India, and after a visit to the district, the Chief Commissioner thinks that the only tracts where Government relief will be necessary are the jagirs to the north, the Amarwara Pargana immediately bordering on the jagirs to the east, and a tract of hilly country also bordering on the jagirs to the west. The extent of the affected area, as thus defined, is some 2,000 miles with a population of 135,000, or one-third of the total population of the district.

The measures of relief proposed for this district fell under two heads: (*a*) relief-works proper and (*b*) the special measures of relief which have been found necessary to meet the peculiar circumstances of the jagirs. The main relief-works for the jagirs are two roads, running north-west and north-east from Chhindwara respectively, and two large tanks, one paid for from estate funds and carried out as an ordinary work for able-bodied people and a second which is to be carried out as a famine work on the principles adopted for works executed with the aid of famine loans. All these works are now in progress. Other similar tanks are being arranged for by the jagirdars themselves. For the tracts south of the jagirs, local works with the aid of famine loans are to be at once arranged for in the east, while to the west an existing road to Betul is to be improved from District Council Funds, the work being carried out on Famine Code principles.

The partial failure of the mohwa crop of 1896, coupled with the scanty out-turn of kodo and kutki last autumn, has already reduced numbers of the resourceless aborigines who inhabit the jagirs to so great an extent as to make them incapable of work until they have, for a time, been fed and looked after. To provide for such cases the jagirs have been divided into four relief circles with 15 relief centres in charge of patwaris and other local officials, where gratuitous relief in kind will be given to those who are unfit for work. The necessity for these arrangements will diminish as those who have been incapacitated by hunger regain their strength, and will probably altogether cease with the ripening of the mohwa crop in March and April, provided, that is, that this crop is a good one. Apart from these special measures for the jagirs, poor-houses have been established at the head-quarters of the district and at the chief village of the Amarwara tract to the east and immediately under the jagirs where distress has declared itself. The Chhindwara poor-house was inspected by Mr. Lyall. Cases of great

emaciation were few, and neither the number nor the appearance of the inmates gave reasons for thinking that distress was either acute or widespread. The Government forests in this district had not previously been opened for the extraction of mohwa, edible roots and fruits, but this has now been arranged for. The jagirs, however, which are mainly forest tracts in the private possession of the jagirdars, have long been free to the aboriginal races which inhabit them. The relief which the forests afford is chiefly confined, it may be observed, to the hot weather months.

The numbers in receipt of relief in this district have until recently, when relief measures on the jagirs have been fully organized, risen steadily, but not very rapidly. In the middle of December the total stood at about 1,000; by the 9th of January it was nearly 4,500, while recent returns show a total of more than 11,000. If, however, the mohwa crop yields well, and if the rabi harvests are as good as they now promise to be, they will give food, labour and considerably cheaper prices. In these circumstances the Chief Commissioner doubts whether provision need be made for more than an average of say 5,000 a day for the next eight months: this, indeed, is an outside estimate, and is equivalent to about one and a quarter million units until the end of September.

The price of juar, the staple food of this district, shows curious fluctuations. Early in November it was selling at 12 seers for the rupee, after the rain of November it sank to 16½ seers, and since then it has been slowly rising, owing chiefly to exportations to the Nerbudda valley. At present it is selling at 13 seers per rupee. With the fairly good juar crop of the Nagpur Division and Berar, and with cheaper wheat, it is unlikely that prices will go much higher than this. Indeed a somewhat lower price may be fairly anticipated from March or April. In the Southern Tahsil and in that part of the Northern Tahsil which lies below the hills there is thus no cause for anxiety as to insufficiency of food supply. In the jagirs, however, import is well-nigh impracticable during the rains, and if the mohwa crop even partially fails, it may be necessary to adopt special measures for the import of food into these tracts to meet the demand in the monsoon months. The attention of the Commissioner of the Division has already been drawn to this matter, and he has been asked to consider it with special reference to the recent instructions of the Government of India on this subject.

17. The circumstances of the Betul District generally resemble those of Chhindwara. In the level country in the east, centre and part of the north of the district, where rabi crops predominate, there is no perceptible distress, nor with the present good prospects of the spring crops is any scarcity anticipated. In the wide belt of hill and forest country which surrounds the district on all sides except the east, where the population is largely aboriginal and where the people are mainly dependent on kharif crops, which proved in 1896 an almost entire failure, there is already considerable distress. This tract covers an area of 2,389 square miles with a population of 128,000, or 40 per cent. of the total population of the district. Here, as in Chhindwara, a good mohwa crop will no doubt do much in the way of relief, and good spring crops will give a certain amount of labour both here and in the Nerbudda Valley Districts and in Berar, where numbers of people from Betul are in the habit of going at harvest time. Even allowing for this, however, considerable measures of relief are needed, and here, as in the jagirs of Chhindwara, a special organization will be required to provide for those members of the aboriginal population of the hill and jungle country on the northern, western and southern borders of the district whom a bad mohwa crop and a deficient autumn harvest in 1896 have made incapable even of the lightest labour. The relief measures so far adopted are three large roads, each under the supervision of the Public Works Department and radiating from the head-quarters town to the north-west, north-east and south respectively. These roads pass through the heart of the affected tracts in each direction, and will, it is believed, furnish work for all who need it. An officer with previous famine experience has recently been deputed to arrange the special measures of gratuitous relief which are required for remote tracts. His report is now under consideration, and no time will be lost in organizing relief centres on similar lines to those which are being followed in the Chhindwara jagirs. In some specially circumstanced tracts of the distressed area it will further be advisable to organize village house-to-house relief. There is but slight scope in this district for local works affording suitable employment

for famine labour, but it is hoped that an allotment from the amount sanctioned for famine loans may be usefully applied here in the construction of tanks, and perhaps for kacha wells also.

Except in the more remote hill and forest villages, where, as in Chhindwara, the failure of the kharif accentuated the distress resulting from a previous scanty yield of mohwa, the condition of the people is at present fairly normal. Some four thousand workers were recently examined by the Civil Surgeon, and he reported them with only two exceptions to be well nourished. No wandering has yet been reported among residents of the district, and cases of emaciation are rare. In the more remote tracts, however, the general condition is low, and it is necessary that relief centres and village relief should be organized without delay. The Deputy Commissioner is now doing his utmost to effect this. The numbers in receipt of relief increased very slowly during December, when it is probable that the poorer classes were still subsisting on the produce of their scanty autumn crops, and even at the end of that month were still below 2,000. Since that time, however, the total has been going up more rapidly, and at present exceeds 12,000. With a good mohwa crop and with harvest labour in the district itself, the Nerbudda Valley Districts, and in Berar, there should be some decrease in numbers, but on the other hand distress among those who are without resources and who have no food supplies must grow and add to the numbers in need of relief until another autumn crop can be reaped. Provision should therefore be made, the Chief Commissioner thinks, for an average of about 7,000 people, or say for 1½ million units, up to the end of September.

The price of juar, the staple food grain, has slowly but steadily risen since the end of November, and now stands at ten seers per rupee. The juar crop of the past autumn was, in this district, poor, varying from 6 to 8 annas. Moreover, importation has not yet begun. The Deputy Commissioner anticipates, however, that a good rabi crop will affect the price of this grain also, and that it is not probable that it will rise much higher.

18. Summarizing the situation in the Nerbudda Division, it may be said that it is only in Hoshangabad and Narsinghpur that distress is at all general, and even in these districts the chief form in which it shows itself is in a keen demand for remunerative labour. In Chhindwara there is some acute distress in the jagirs to the north and the tracts immediately bordering on them, while in Betul some two-fifths of the population of the large hill and forest area are affected by scarcity, which, however, except in the more remote forest villages, is certainly not acute. In Nimar there is at present no distress except among a few score of weavers in the town of Burhanpur and among the aboriginal population of the eastern tahsil. The total affected area covers 10,100 square miles with a population of 1,005,000. On the 23rd January there were 62,276 persons in receipt of Government relief, or 6 per cent. of the population of the distressed area. It is estimated that for the period from 1st February to end of September provision should be made for the relief of 13¾ million units.

19. In the Chhattisgarh Division distress is confined, as was shown in my previous letter, to the Raipur and Bilaspur districts. No distress is at present reported from Sambalpur, and it is not probable that any special measures of famine relief will be found necessary there, except perhaps in a small tract in the north-west corner of the district bordering on Bilaspur.

In the Raipur district such distress as exists has resulted from a failure, except in the Dhamtari or southeren tahsil, of the rice crop, which occupies more than two-thirds of the total cropped area of the district, following on a similar failure in the previous year. Prior to 1895-96 the harvests in the district had, however, been for a series of years uniformly good, so that with a good harvest in the present year the distress should disappear.

The affected area comprises the whole of the Khalsa portion of the district north of the great eastern road, a small tract to the west of the district and south of that road in the southern tahsil, and the nine zamindaries forming the western boundary of the district from north to south. In no part of this area was the outturn of the recent rice crop more than four annas, while in many parts it did not exceed two annas. The parts where distress is said to be acute are the north-east corner of the district and a small tract of country to the west of the

district in the north of the Drug or eastern tahsil. The affected area as thus stated covers an area of 4,000 miles with a population of 710,000, nearly half the total population of the district.

As regards relief measures, the arrangements are still not so complete as the Chief Commissioner would desire to see them, and he has reason to fear that neither the Deputy Commissioner nor the Commissioner has yet acquired that grasp of the situation which is essential to the organization of a complete and practical scheme of relief. This is the more disappointing as the Chief Commissioner had, at the conference of November, laid down all the necessary points for their guidance, leaving it to them to work out the arrangements in detail. Some allowance must no doubt be made for the large areas and population involved, the difficulty of communications and the fact that any scarcity on a large scale is a novel feature in the economic history of the district. It must also be remembered that a series of previous good years have left behind them large surplus stocks, and that, though the rice crop of 1896 was scanty, it, in most cases, yielded a sufficient outturn to supply the people with food for two or three months at least. In these circumstances the question of relief has not the same urgency here as it has in the northern parts of the Province or in Balaghat, where bad harvests fell on a people already suffering from a succession of unfavourable seasons. Mr. Lyall has, however, now furnished the Deputy Commissioner, in a letter copy of which I am to forward, with detailed instructions as to what he is to do, and it is hoped that arrangements will shortly be completed there on the same precise and practical footing as in other parts of the Province.

Meanwhile the tracts of greatest distress in the north-east and north-west have been provided for by three roads under the supervision of the Public Works Department, and a fourth road is being started for the distressed tract in the southern tahsil. The Deputy Commissioner has also arranged in personal consultation with the zamindars for relief measures in those areas on the western border. Moreover, extensive arrangements have been made for the grant of land improvement and famine loans, R80,000 having been recently sanctioned for this purpose in addition to R20 000 previously allotted for ordinary land improvement loans. Finally, registers for those entitled under section 34 of the Code to gratuitous relief in their homes have been prepared throughout the most distressed area, and five poor-houses have been opened, two at tahsil head-quarters in the two northern tahsils, and the three others at large villages in the heart of the most severely distressed tracts.

It is clear, however, that this is not enough. It is probable that relief centres are needed in localities where the conditions have been specially unfavourable, while house-to-house relief in villages which is now being organized will have to be put into operation in all cases where the circumstances of the villages have been so much reduced that they are unable to support their local poor.

The forests in the north-eastern and eastern portions of the district have been opened for the free extraction of mohwa, edible roots and fruits, and rates on grass, firewood and building wood have been materially lowered for the poorer classes. Similar concessions will be made elsewhere as soon as they are reported to be necessary.

The Deputy Commissioner has also been given discretion to suspend the kharif instalment of land revenue up to a limit of 2 lakhs of rupees within the affected area.

So far, the numbers that have resorted to the relief-works show no indication of widespread distress, nor do they even show that there is a keen demand for labour at a famine wage. During December they did not exceed 3,000, and according to the latest returns the total number falls short of 11,000. The scanty crops of last autumn are now, however, being rapidly consumed, and in the greater part of the district there are no forests to give relief nor is harvest labour available except to a very moderate extent. On the other hand, however, until a year ago harvests have been unusually good, the settlement is a very light one, falling at about 6 annas per acre, and the profits of rice cultivation must in past years have been very considerable. There are numbers of malguzars, and even of tenants, who will be ready and willing to use the cheap

labour now available in carrying out works of improvement, especially irrigation tanks, and there are numbers more who will gladly carry out such works with the aid of famine loans. The Chief Commissioner has on several previous occasions pointed out that this is the most useful form that famine relief-work can take in Chhattisgarh, and it is on these works that he wishes the Deputy Commissioner chiefly to rely. This fact, however, and the absence of detailed or reliable information as to stocks in distressed areas, make it peculiarly difficult to form an estimate of the numbers who are likely to stand in need of direct Government relief during the next eight months in Raipur, and any such estimate must be almost entirely largely conjectural. From such information as is before him, the Chief Commissioner considers a daily average of 20,000 to be a probably not unduly low estimate. This would necessitate provision being made for say 4½ million units up to the end of September.

So far, the classes who frequent the works are labourers and petty agriculturists Throughout Chhattisgarh, where the smaller cultivators depend entirely on rice, it is their regular custom to leave their villages in search of work as soon as their rice crop has been reaped, and to return again to their homes in June. The presence of men of this class on the works is therefore no symptom of special distress. The general condition of the people is reported to be fairly normal, and cases of wandering owing to want have not yet been reported.

The course of prices also gives no apparent ground for anxiety. The price of wheat and rice has remained almost steadily at 10 seers per rupee since the beginning of November, and a good rabi harvest will no doubt tend to cheapen both grains. Stocks, with certain local exceptions, are believed to be sufficient, and communications throughout the affected area are good. There is thus no reason to fear any insufficiency of food supply.

As regards the prospects of the rabi, it is stated that not more than one-fourth to one-third of the normal rabi area has been sown, the loss being chiefly in *utera* or spring corps sown broadcast in rice fields after the rice has been cut. What was sown has germinated well, and prospects are at present favourable. The outturn of the rabi cannot, however, except by contributing to lower prices, perceptibly affect the general situation, and distress must continue until a good autumn corp brings general relief.

20. In Bilaspur more than four-fifths of the total kharif area and about half the total cropped area of the district is under rice. The outturn of this crop has been tested by a large number of crop experiments made in all parts of the districts. These give an average of about 4 annas for the whole district, the western or Mungeli Tahsil showing the most unfavourable results with an average of little more than three annas. In the central or Bilaspur Tahsil the outturn averaged over four annas, while in the eastern or Janjgir Tahsil it was above five annas. It may be mentioned that the rice crop varied in the same way in 1895-96, it being worst in the western tahsil and best in the eastern, the Bilaspur Tahsil holding a place midway between the two. Previous to 1895-96, harvests throughout the district had for some years, as has been noticed in Raipur also, been exceptionally good. The part now chiefly affected by scarcity is, as might be expected from the above facts, the western or Mungeli Tahsil, especially in its northern and western half. In the zamindaris bordering on it the situation is similar. There is also distress in the north-west of the Bilaspur or central tahsil and in the part of that tahsil south of the Sheonath river and bordering on the Raipur District. The eastern tahsil is not as a whole severely affected, though there are villages in it where some distress is reported. The Deputy Commissioner accordingly thinks that the whole district with an area of 8,34[illegible] square miles and a population of 1,164,000 persons should be regarded as affected by scarcity.

In the full and interesting report on the situation which the Deputy Commissioner (Mr. Cooke) has submitted, and a copy of which, with Chief Commissioner's orders on it, is forwarded for the information of the Government of India, he points out that rice cultivation, in good years, is particularly profitable, that large stocks have been laid up in previous prosperous times, and that the people have, so far, by no means exhausted their resources. In his recent tour through the affected tracts he observed no cases of wandering as a consequence of distress,

nor did he come across any cases of emaciation in villages. Here, as in Raipur, migration in search of work in the spring and summer months is a regular custom of the smaller cultivators. The Deputy Commissioner met many such groups of migrants, but in no case did they wish to go on relief works or show the slightest sign of distress. Test works opened in November failed to attract labourers. It is only in the present month that two large road works under the Public Works Department have been opened in the distressed tahsils, and that poor-houses, supported by Government funds, have been found necessary.

For the relief of the cultivating classes the Deputy Commissioner has been authorised to suspend up to one-third of the current kharif instalment of land revenue throughout the affected area.

In the large zamindari estate of Pandaria in the north-west, which is under Government management, relief works were started in November, but the numbers who have hitherto availed themselves of them have been small, though they are now growing larger. It is probable that when the scanty rice crop has been consumed and now that field labour in rice harvesting is no longer available, distress in this district may increase, but there is no reason to suppose that it will at any time be acute except in detached localities where the agricultural conditions have been specially unfavourable. It is to ascertaining and arranging for such localities that the chief attention of the Deputy Commissioner, and the Convenanted Assistant who has, since the beginning of December, been placed on special duty in this district in connection with the scarcity, must be directed, and the Chief Commissioner believes that the local officers fully understand what is needed in this matter.

As was pointed out in my former letter, our main reliance in Bilaspur as in Raipur must be placed on small works, chiefly irrigation tanks, carried out by malguzars and the better class of tenants, either with their own funds or, in the more distressed tracts, with the aid of famine loans. The Deputy Commissioner reports that numerous such works are now in progress, and that both he and the Assistant Commissioner on special duty are arranging for many more. He adds that the cultivating classes have taken to heart the lesson which the premature cessation of the monsoon rains in the past two years might have been expected to teach them, and that they are now eager to carry out these irrigation works the value of which has been so fully proved by recent experience. There can in the Chief Commissioner's opinion be no more useful form of famine labour than such works afford, and if they can be made sufficiently numerous to provide labour for all who need it, they would be much preferable to road works These latter can be much more cheaply and effectively done in ordinary times. they take the people away from their homes and do not effect that insurance against future scarcity which the construction of irrigation tanks secures. The local officers will therefore be instructed, as has, indeed, already been done, to do all they can to encourage malguzars and tenants to execute such works. A grant of Rs. 70,000 from famine loans, in addition to Rs. 20,000 for land improvement loans granted in November last, has recently been made in Bilaspur, and it is believed that this can be usefully distributed before the end of the year.

As regards the numbers who will need Government relief, it is hoped, in view of the circumstances which have just been stated, that the need for large works will not be great. For an estimate of numbers to be made with any approach to accuracy more experience is necessary than is yet available in Bilaspur, but the Chief Commissioner considers that, to take a high limit, more than a daily average of 10,000 will not need Government relief, and that if provision be made for two million units up to the end of September it will be sufficient. Such an estimate, however, is obviously almost entirely conjectural, and the actual number on large work must chiefly depend on the number of local works which can be arranged for.

The price of rice—the staple food in this district—which stood at 9 seers for the rupee in the beginning of November, fell to 11 seers at the end of December and remained at that price until the middle of January. These prices led to considerable exports, which have recently had the effect of hardening prices: the most recent returns again showing only 9 seers for the rupee. Exports will

thus be checked and the Deputy Commissioner does not anticipate any further rise. Indeed, it is not improbable that a good wheat crop in the North-Western Provinces and the Punjab may cause a slight fall.

21. The situation in the division may be summarized by saying that there is some measure of distress in the nothern half of Raipur and in the western zamindaris of that district; also in the greater portion of Bilaspur, specially in the west and north and in a small tract to the south. The affected area covers 12,341 square miles, and has a population of 1,874,000, of which 6½ million units may be estimated as likely to need Government relief to the end of September On the 23rd January there were 13,162 persons in receipt of Government relief or only ·7 per cent. of tho population of the affected area.

In consequence of previous good years and large food stocks, there is as yet, so far as is known, no very acute distress in these two districts, and it is hoped that by giving timely work in sufficiently numerous places, the occurrence of any such distress may be entirely avoided. In both these districts our chief relianc must, as has alredy been stated, be placed on local works—chiefly irrigation tanks.

22. Reviewing the situation in the province as a whole, it may be stated that the affected area covers 45,000 square miles with a population of six million persons. There were on the 23rd January in this area 246,000 persons, or 4 per cent. of the population of the affected tracts, in receipt of Government relief, and it is estimated that from the beginning of the current month until the end of September relief will be required for 61 million units.

There is acute and general distress in the districts of the Jubbulpore Division with the exception of the southren half of Seoni, and also in Balaghat in the Nagpur Division. Here distress must continue until well on in the autumn. In the wild forest and hill country of Hoshangabad, Chhindwara and Betul there is also severe distress among the aboriginal tribes. This will, however, diminish with a good mohwa crop and will certainly not become more severe. Next to these, a regards the degree of general distress, may be placed the level portions of the Nerbudda valley districts of Hoshangabad and Narsinghpur and the northern half of Bhandara in the Nagpur Division. Throughout this area scarcity is certainly being felt, but, so far, this chiefly shows itself in a keen demand for labour and in some suffering among the infirm and the aged who cannot, as in ordinary times, depend upon the charity of those who are better off. Here large relief-works combined with poor-houses and some measure of village relief will however, it is hoped, do all that is needed until October to prevent further suffering and to relieve such as now exists.

Further, in Raipur and Bilaspur—and circumstances are similar in a small part of Nagpur—there is a certain degree of scarcity, but, so far, the people have been chiefly living on their autumn crops or on the wages of local labour, and Government relief has scarcely been called for. The necessity for some measure of Government relief has now however begun, but it is hoped that the large number of local works of improvement which are to be carried out either from private funds or with the aid of famine loans will in nearly all parts meet such distress as exists and prevent it from increasing.

The Province may thus be divided into:—

(*a*) Tracts where distress is general and severe (Jubbulpore Division, except the Seoni tahsil in the district of the same name, Balaghat, and parts of Hoshangabad, Chhindwara and Betul). Area 25,891 square miles with a population of, say, 2,951,000.

(*b*) Tracts considerably affected by scarcity with a general demand for labour at a famine wage, but where there is little or no distress except among the aged or infirm who are at all times unable to work (the greater part of Hoshangabad, Narsinghpur and the north of Bhandara). Area 7,621 square miles with a population of 1,187,000.

(*c*) Tracts where the staple crop has failed and where, now that present stocks are exhausted, scarcity is beginning to be felt (Raipur and Bilaspur, a small detached area on the east of Chanda and part of Nagpur). Area 20,797 square miles with a population of 2,876,000.

(*d*) Tracts at present unaffected by scarcity (Wardha, the east of Chanda, the south of Bhandara, the greater part of Nagpur, the south of Chhindwara and Seoni, part of Betul, Nimar and Sambalpur). Area 32,297 square miles with a population of 3,770,000.

23. As regards the duration of the distress in these Provinces, the Chief Commissioner is unable to add anything to what was said in paragraph 9 of my letter No. 4988, dated the 16th December 1896. The most important immediate factor in determining the future development and extent of distress is the outturn of the spring crops not only in the Central Provinces, but throughout India. As regards these Provinces, it will be observed that the tabular statement embodied in paragraph 2 of this letter gives the rabi area of the current year as 40 per cent. below the normal, while in some of the richest rabi districts, notably in Hoshangabad and Narsinghpur, the prospects of the crop are far from good. There has, the Chief Commissioner understands, been a similar, though, owing to irrigation, a less marked curtailment of the rabi area in the North-Western Provinces and the Punjab, and however good the crops on the areas sown may be, they cannot, looking at the great depletion of stocks which has been caused by a series of bad years and by the recent scanty autumn harvest, suffice to lower prices to the normal level or to give even that ordinary measure of relief to the poorer classes which is afforded by harvest labour and by the savings which are possible from liberal harvest wages. There will doubtless, as has already been indicated in detail, be some decrease at harvest time in the numbers of relief workers, while the mohwa crop, provided it is a good one, will attract large numbers to the forests until the monsoon breaks. But such diminished harvest wages as are earned will soon be exhausted, while the advent of the rains will drive the people back from the jungles into poor-houses or on to works. While, therefore, some measure of decrease in numbers may be estimated from March to the end of May, Mr. Lyall anticipates that in the beginning of June numbers will again rise at least to their present figure if not above it, and that these numbers will, even after making all due allowance for the demand for agricultural labour during the monsoon months, remain at about that figure until the early autumn crops can be reaped in late August and September. He is therefore arranging to provide relief for at least a daily average of 200,000 persons up to the end of September. The development of events after September depends on the character of the monsoon rains, and it would be useless to attempt any prediction on this point until the character of the rains is known.

24. In paragraph 13 of my letter of the 16th December, the Chief Commissioner indicated the general lines on which he proposed to organize famine relief in the affected tracts. In my present letter the actual arrangements which have so far been made in each district have been shown in some detail. The experience which has now been gained tends to show that the organization of famine relief must, if it is to be effective, be made with strict reference to local conditions, and to the previous agricultural history of each distressed tract. Where distress is acute and where previous bad years have exhausted resources, numerous large works under the Public Works Department, combined with poor-houses and rural relief centres for wanderers and those temporarily unfit for labour and with village house-to-house relief for those who are chronically helpless, have proved necessary. In less distressed tracts the provision of work for all who need it, combined with orders to the Police and mukaddams to forward wanderers to the nearest work or poor-house, has been found sufficient, while in remote parts of the Province, consisting of inaccessible hill and forest and largely inhabited by aborigines whom only absolute want will induce to leave their homes, it has been found advisable to provide gratuitous relief and light labour at convenient and fairly numerous centres close to their homes. Finally, in tracts like Chhattisgarh, where distress is more or less localized to villages or groups of villages, a system of local works with a few larger works, combined with village relief in the more distressed areas, is found to be most suitable.

In paragraph 3 of your letter No. 111-F., dated the 4th January 1897, it was observed that the Chief Commissioner did not consider that the distress, when he wrote on the 16th December, was as yet sufficiently acute to necessitate the organization of relief circles and village-to-village inspection; and it was pointed

out that the great rise in price of food-grains, combined with the exhaustion of resources in several districts owing to a succession of bad seasons, might make this form of relief necessary at an earlier stage than would otherwise have been the case. In this connection the Chief Commissioner desires, however, to point out that the question of arranging for village relief had by no means been overlooked by him, and that in Revenue Department Circular letter No. 4526-4528, dated the 20th November 1896, a set of detailed rules directing the preparation of village registers under section 34 of the Central Provinces Famine Code, and ordering the opening of relief centres wherever such method of relief might seem to be necessary, was circulated to all Deputy Commissioners. Under section 35 of the Central Provinces Famine Code, however, it rests with Commissioners of Divisions to decide when it may be needful to start village relief, and the Chief Commissioner did not think it advisable at that early stage to interfere with this discretion. The question was, however, fully considered during November and December for all districts, and registers under section 34 were prepared during these months for all distressed parts of the Province. It is only, however, in the Jubbulpore Division, where distress is far more acute and general than elsewhere, that it has been found necessary to organize this form of relief throughout the affected areas.

The largely increasing numbers of famine-stricken people in poor-houses and the consideration of the difficulty there must be in returning them to their homes when the famine is over have, however, recently led the Chief Commissioner to give special attention to the proper place of village and poor-house relief respectively in a comprehensive famine scheme. His views on the subject coincide to a large extent with those expressed by Sir A. MacDonnell in a circular which was forwarded to the Chief Commissioner with your letter No. 7—32-2, dated the 18th January 1897. Mr. Lyall thinks, however, that some provision for dependents on all famine works is essential to effective relief, and that it is neither humane nor economical to take such people away from relatives or friends on the works and return them to their villages. He further thinks that those who have no real homes to go to, such as the beggars who infest bazars and railway centres, can best be provided for in the poor-house, which is also the only place where emaciated wanderers from Native States or from distant parts of India can find a home until they are strong enough for work. For these reasons he is unable to accept in its entirety Sir A. MacDonnell's conclusion that famine relief can be reduced to two branches,—relief-works and village relief. Mr. Lyall's views on the subject are given in the following extract from my letter No. C-229, dated the 2nd February 1897, to the address of the Commissioner, Chhattisgarh :—

The high death rates in some parts of the district which are given in paragraph 12 of Deputy Commissioner's letter appear to indicate with some certainty that, though the general condition of the people may be fairly normal, there are in some parts numerous cases of real distress and destitution which call for special measures of relief. The form of relief which best meets these conditions is village relief, as prescribed by section 34 of the Famine Code. Timely help, if given to the classes of people referred to in that section, *in their homes*, prevents wandering and consequent death ; assures the recipients of such comfort as their homes afford, and, above all, brings home to the residents in a way that no other methods of relief can, the responsibility of each village for the maintenance of its own poor. If such people are allowed to wander off to poor-houses, it will be extremely difficult, when distress ceases and good times return, to send them back to their villages and to enforce on the residents the duty of supporting them. On the other hand if they are, from the commencement retained and relieved in their villages, the better off residents will, when Government relief is withdrawn, be in nearly every case ready and willing to support these poor people as they had done previous to distress setting in. The duty of supporting their poorer neighbours so long as they have the means is one which is fully admitted by all natives of India, and it is the greatest mistake for Government to do anything, except under the compulsion of circumstances, to weaken this idea. It will not, however, probably be necessary to organize village relief throughout the whole of the Bilaspur District. Judging from the Deputy Commissioner's account of the present circumstances of his district, there must be many parts where the duty of relieving the village poor can be safely left, as it has hitherto been, in the hands of the residents. But in all localities where the death-rate during the last few months has been high, or where local officers report any cases of wandering from village to village or of emaciation observable in villages, house-to-house relief under section 34 of the Code should at once be organized. The aim of a complete system of famine relief is to provide for all able to labour sufficient work at a wage large enough to keep them in health. On these works provision

is also made for such helpless people as are dependent on the workers and cannot be properly looked after except by members of the family to which they belong. As regards all other people whom age or illness has rendered permanently helpless, arrangements are to be made for relieving them in their homes. "Poor-houses should be reserved for starving immigrants and wanderers. Even these should, unless age or blindness or physical infirmity has made them permanently incapable of work, be sent to relief-works as soon as a proper and adequate diet has given them sufficient strength. The permanent population of a poor-house should be limited to chronically helpless people who have no home to go to."

25. The question of the funds required for expenditure on famine relief up to the end of March, which was referred to in paragraph 14 of my letter of December, is being separately dealt with, but the Chief Commissioner desires to take this occasion of pointing out the great difficulty—a difficulty which was referred to at the close of paragraphs 10 and 12 of the letter just referred to—of making any estimates of probable expenditure until relief measures have been organized in all distressed areas and until they have been in actual operation for some time. As an illustration of this difficulty I am to instance the case of the Jubbulpore Division, where there had been some previous experience of local scarcity and where the Commissioner (Mr. Anderson), a particularly careful officer, had been for some years in charge of the Division and was intimately acquainted with all its circumstances and local history. I am to give below his estimate, submitted last November, of the numbers of persons which he and his Deputy Commissioners, three of whom were also experienced officers with a detailed knowledge of their districts, thought would be likely to be in need of relief during the four months succeeding the submission of their reports:—

Jubbulpore	17,300
Saugor	12,500
Damoh	7,200
Seoni	3,750
Mandla	10,250
TOTAL	51,000

The actual numbers in receipt of relief considerably exceeded this even by the beginning of January, and on the 30th January, the latest date for which complete figures are available, these numbers were as follows:—

Jubbulpore	99,056
Saugor	42,173
Damoh	25,840
Seoni	7,244
Mandla	17,394
TOTAL	192,607

That is, by the end of last month, numbers had risen to nearly four times the figures estimated for in November, and it is certain that they must remain very much above the estimated figure for some time to come.

It is true that the numbers in receipt of Government relief in the three northern districts of this Division, and especially in Jubbulpore, have been very largely swelled by the influx of immigrants from Native States; but a consideration of the figures for the Nerbudda Division, where this cause has operated to a much less extent, will further prove how useless prediction is, unless based on actual experience. Here also careful estimates based on local figures were submitted at the end of October. The average numbers which it was supposed would need relief were given as follows. The numbers actually in receipt of relief on 30th January are added for comparison:—

	Estimated.	Actual.
Hoshangabad	12,800	35,781
Narsinghpur	9,300	22,801
Nimar	2,500	953
Chhindwara	8,000	9,094
Betul	3,500	12,627
TOTAL	36,100	81,256

It was thus only in Nimar that numbers were over-estimated, while in Hoshangabad the actual numbers are three times the estimate and in Betul nearly four times.

The Chief Commissioner does not ascribe these very large discrepancies between facts and forecasts to any want of care or local knowledge on the part of the officers who made the estimates. The result is, indeed, only what must be anticipated in a Province where there had been no previous experience of a widespread famine or of an extensive system of famine relief. It was for this reason that Mr. Lyall refrained in his report of December from making any estimate of the numbers likely to need relief until he had some reliable data to go upon. The actual statistics of relief which are now submitted each week from the distressed districts have given some data for such an estimate, and in my Circular letter No. 5123, dated the 30th December 1896, copy of which I am to submit for the information of the Government of India, further data were called for which will, the Chief Commissioner trusts, enable him to forecast his probable requirements for that year with some approach to trustworthiness.

But in view of the figures which have been given above, the Government of India will understand that the estimate given in the letter of December of 15 lakhs of rupees as sufficient to provide relief up to the end of March has proved altogether inadequate, and an application for a further grant of 13½ lakhs is now being made.

26. With reference to paragraphs 6 and 7 of your letter No. 111-F, dated the 4th January 1897, in which a grant of five lakhs of rupees was made for the purpose of famine loans in these Provinces, I am to append copy of a letter No. C-109—112, dated the 17th January 1897, which was addressed to all Commissioners of Divisions, on receipt, on the 16th January, of the final orders of the Government of India regarding these loans. The form of agreement appended to that letter has been legalized by a notification (copy appended) under section 10 of the Land Improvement Loans Act, and allotments to Divisions have been made as follows :—

	Rs.
Nagpur	1,50,000
Jubbulpore	1,45,000
Nerbudda	20,000
Chhattisgarh	1,50,000
TOTAL	4 05,000

The remaining Rs. 35,000 will, it is anticipated, be needed in Chhattisgarh In a recent letter to the Government of India, No. C-138, dated the 20th January 1897, the Chief Commissioner has pointed out the necessity, in addition to these special famine loans, of granting Land Improvement Loans on ordinary terms in tracts which are under observation, but where there is as yet no general or severe distress. The grant of such loans on a fairly liberal scale is, Mr. Lyall thinks, essential if a large additional expenditure on direct famine relief is to be avoided. In the same letter stress was also laid on the necessity of similar advances for seed grain under the Agriculturists Loans Act, and more recently the Chief Commissioner has been obliged to ask (and has received) telegraphic sanction to a special grant of three lakhs during the current year for seed advances in Balaghat and Chhattisgarh. Mr. Lyall is confident that even if there should hereafter be short recoveries on such loans, or failure in particular cases to pay interest, such losses will be more than made up by the more rapid recovery of normal prosperity which the grant of the loans will secure.

27. Regarding the suspension of land revenue referred to in paragraph 15 of my letter of December last, a separate and full report will shortly be submitted as soon as the applications from all districts have been dealt with. Meanwhile the appended Table B shows the amounts suspended or remitted the several districts of the Province up to the date of this letter.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Government House on Thursday, the 4th March, 1897.

PRESENT:

His Excellency the Earl of Elgin, Viceroy and Governor General of India, P.C., G.M.S.I., G.M.I.E., LL.D., *presiding*.
His Excellency Sir G. S. White, G.C.I.E., K.C.B., V.C., Commander-in-Chief in India.
The Hon'ble Sir J. Westland, K.C.S.I.
The Hon'ble Sir J. Woodburn, K.C.S.I.
The Hon'ble M. D. Chalmers.
The Hon'ble Major-General Sir E. H. H. Collen, K.C.I.E.
The Hon'ble A. C. Trevor, C.S.I.
The Hon'ble M. R. Ry. P. Ananda Charlu, Rai Bahadur.
The Hon'ble Sir G. H. P. Evans, K.C.I.E.
The Hon'ble Alan Cadell, C.S.I.
The Hon'ble J. D. Rees, C.I.E.
The Hon'ble G. P. Glendinning.
The Hon'ble Nawab Amir-ud-Din Ahmad Khan, C.I.E., Bahadur, Fakhar-uddoulah, Chief of Loharu.
The Hon'ble Sir Lakshmishwar Singh, K.C.I.E., Maharaja Bahadur of Durbhanga.
The Hon'ble Rao Sahib Balwant Rao Bhuskute.
The Hon'ble P. Playfair, C.I.E.
The Hon'ble Rahimtula Muhammad Sayani, M.A., LL.B.
The Hon'ble Pandit Bishambar Nath.
The Hon'ble Joy Gobind Law.
The Hon'ble C. C. Stevens, C.S.I.
The Hon'ble Sir H. T. Prinsep, KT.
The Hon'ble H. E. M. James.

QUESTIONS AND ANSWERS.

The Hon'ble RAO SAHIB BALWANT RAO BHUSKUTE asked:—

"(1) Have any enquiries been made with regard to the questions asked by me on the 19th of March, 1896, as to the restriction of age

on students seeking admission to the High Schools in the Hyderabad Assigned Districts?

"(2) If so, is there any objection to the papers being laid on the table?"

The Hon'ble SIR JOHN WOODBURN replied :—

"(1) Yes.

"(2) No. I lay the Resident's reply to our enquiry on the table."

The Hon'ble RAI BAHADUR P. ANANDA CHARLU asked :—

"(1) Will the Government be pleased to state whether, since the disposal of the papers Nos. 975 and 976 of the Government of Madras, dated 13th August, 1883, any discussion or correspondence has taken place between the Government of India and the Secretary of State with reference to the settlement of land-revenue so far as the Madras Presidency is concerned?

"(2) If so, will the Government be pleased to place on the table the correspondence so far as it relates to the Madras Presidency?

"(3) Will the Government be pleased to state whether the despatch of the Secretary of State for India, No. 4 (Revenue), dated 8th January, 1885, did not relate solely to the North-Western Provinces, in which there were no prior pledges or declarations of policy and no question of revision of settlement?

"(4) Will the Government be pleased to state whether the Government of Madras or any other competent authority put forward for the Madras Presidency any proposals other than those contained in its orders Nos. 975 and 976, dated 13th August, 1883?

"(5) If the Madras Government or any other competent authority made any such proposals, will the Government be pleased to state their date and substance?"

The Hon'ble SIR JOHN WOODBURN replied :—

"*Questions 1 and 2.*—Since the disposal of the papers referred to, correspondence has taken place between the Government of India and the Secretary of State with reference to the settlement of land-revenue, in which the Madras Presidency, together with the other provinces of India, has been concerned. The same objections exist to the publication of that correspondence as were explained in the answer given to the Hon'ble Member's questions 1 and 3 on the 25th February. No such correspondence of any importance has taken place in which the Madras Presidency alone has been concerned.

"*Question 3.*—The despatch referred to contained the Secretary of State's final orders in a discussion which related to the whole of India except the permanently settled tracts: it did not relate solely to the North-Western Provinces; and it dealt mainly with the question of revision of assessment of land-revenue.

"*Questions 4 and 5.*—During the discussion which was closed by the despatch of the 8th January, 1885, and to which the question is understood to refer, no proposals other than those contained in the Madras Government orders Nos. 975 and 976, dated the 13th August, 1883, were put forward for the Madras Presidency, either by the Madras Government or by any other competent authority acting in its behalf."

NEGOTIABLE INSTRUMENTS ACT, 1881, AMENDMENT BILL.

The Hon'ble MR. CHALMERS moved that the Report of the Select Committee on the Bill to amend the Negotiable Instruments Act, 1881, be taken into consideration.

The motion was put and agreed to.

The Hon'ble MR. CHALMERS moved that the Bill, as amended, be passed. He said :—"The Bill is a Bill to assimilate the provisions of the Indian Act to those in the English Act in one particular respect, namely, in the case where a cheque is drawn on a bank and that bank fails. Now, with Your Excellency's permission, I desire to make a suggestion as to the course which should be

pursued in order further to assimilate the Indian to the English law on the subject of negotiable instruments. In order to make my suggestion clear I must advert for a moment to the history of Legislation in England and in India. The main Indian Negotiable Instruments Act was passed in 1881. That Act applies in substance only to what may be called English instruments. It contains a saving for all usages as to hundis and other instruments in the native languages. Applying, as it does, only to English instruments, the object of the framers was to codify the English Common Law as it existed in 1881. The Indian Act of 1881 reproduced as nearly as possible the English Common Law, and it passed through this Council without amending the rules of the Common Law. During the same year a codifying Bill was introduced in England. Its frame and of course its language differed from the frame and language of the Indian Act, but like the Indian Act its object was as far as possible to reproduce the existing Common Law without alteration. That Bill did not pass in 1881, but the next year it was introduced into Parliament and became law as the Bills of Exchange Act, 1882. In its progress through Parliament in England it was referred to two Select Committees, one in the Commons and the other in the Lords, and those two Select Committees introduced a series of changes and amendments in the Common Law rules. The principle on which they acted was that they introduced no contentious amendment, but they introduced all amendments on which the whole of the members of the Committees were agreed. The result of amending the law in England was to create a divergence between Indian and English law with respect to negotiable instruments. The English and Indian Acts alike are founded on the English Common Law, but by reason of the amendments made in the English Act the two laws have now diverged. This was found to be inconvenient in India, and in 1885 an amending Act was passed. The Indian Act of 1885 amended the Indian Act of 1881 in nine particulars, bringing it into line with the English Act in these nine particular cases. The present Bill, which I am now asking you to pass, amends the Indian Act in a tenth particular, and again, in this particular, brings it into line with English legislation. Since the Committee reported I have had a letter from Mr. Justice Shepherd of Madras. He calls my attention to the terms of section 60 of the Indian Act and says that its wording is ambiguous, and that it is doubtful how far that section corresponds with the English law, although he conceives, and the Court has held, that it was intended to lay down the same rule. Well, in addition to this I have had one or two other suggestions and I have read through the two Acts, and I find that on many points there still exist divergences. My friend Sir Griffith Evans mentioned one to me, namely, the effect of a verbal discharge of a Bill. There English and Indian law differ. I find again that the effect of a blank endorsement being followed by an endorsement in full is different in England and in India. I find again that the effect of a conditional acceptance is different in England and in India; and I find further that the rules as to crossed cheques somewhat differ in England and in India. And then comes the question whether this process of assimilation ought to be carried further. If we go on amending the Indian Act in detail after detail it will become an almost intolerable patch-work. But there is an alternative course which might be taken, and that would be to adopt, once for all, the English Act, of course applying it only to what may be called English instruments and making the necessary saving for hundis and for one or two peculiarities of Indian law. For instance, we could not apply to India the English law of Bank Holidays; but I suggest for consideration whether it might not be convenient to have, once for all, the English Act. It is a question purely for the mercantile community, and not a question that concerns the Government in any way. It is not a question of theoretical convenience; it is a question Lord [illegible]tical convenience. There are no doubt arguments both ways. On the one hand the merchants, since 1881, have got accustomed to the provisions of the Act of 1881. They know these provisions, and it might be inconvenient to them to find the same propositions of law stated in different terms. On the other hand the English Act has been adopted with hardly any modification throughout the Queen's dominions; it has been adopted in Canada; it has been adopted, I believe, in the whole of the Australasian Colonies, and in several other Colonies besides. It might make for mercantile convenience to have one law expressed in the same terms for the whole of the Queen's dominions. Decisions given in one country would then become authorities which could be quoted in another country, and we should have the benefit always of the Privy

Council's decisions ruling throughout the Queen's dominions. It certainly is convenient in some ways that instruments like bills of exchange which circulate freely from one country to another should not alter their laws as they go. It is convenient that a bill drawn in England on Australia, or a bill drawn in India on England should be governed by the same law, both where it is drawn and where it is acceptable and payable; but, on the other hand, as I have said, it is a question for merchants to consider whether the inconvenience of having a new Act would outweigh the conveniences which I have pointed out. It is a question of practical convenience, and I hope we shall endeavour to obtain their opinion; and we shall certainly follow it. It is not a question to be determined on theoretical grounds, but is purely a question for the merchants to decide for themselves and for their wishes to be given effect to."

The motion was put and agreed to.

PROVIDENT FUNDS BILL.

The Hon'ble MR. CHALMERS presented the Report of the Select Committee on the Bill to amend the law relating to Government and other Provident Funds. He said:—"The Report deals fully with the changes we have made. If, when the report has been in the hands of Members, they desire any further explanation, I have no doubt on behalf of the Committee I shall be able to go into the matter."

GENERAL CLAUSES BILL.

The Hon'ble MR. CHALMERS presented the Report of the Select Committee on the Bill to consolidate and extend the General Clauses Acts, 1868 and 1887.

The Hon'ble MR. JAMES said:—"It is with great diffidence that a layman like myself ventures to join issue with the Hon'ble Legal Member on a point of law, but I trust that when the Council has heard me it will consider that I have justification for doing so. I object to the new definition of good faith on several grounds. In the first place it is inconsistent with the Penal Code, and the passing of it will stultify the Council. In one law we shall say, as we have said for 35 years, that good faith shall not be pleaded without due care and attention, in another that, if done honestly, there may be negligence. The result of the amendment must be that the old definition will disappear from the Penal Code which will so far be emasculated. The alternative, I understand, is, that in every place where the word 'good faith' occurs in the Penal Code we must insert words like the following: 'Whenever with good faith and with due care and attention'. But will not that be a contradiction in terms? Substitute for 'in good faith' the words of the new definition proposed, and how will it run? Whoever does an act (in fact honestly, whether there be negligence or not) with due care and attention In the second place, I object to amending so well-known a provision of law, which has worked well for the last 37 years, without it can be shown that it has worked badly. The Bench, the Bar, the Magistracy all know it, and I say, that as practical men, we should leave well alone. Thirdly, I maintain with the greatest deference to the Hon'ble Member that the old definition is, whatever may be thought in England, a far better one as a practical working rule and more suited to India than the new one. Everyone who knows anything of India is also aware that negligence is the thing that a Native caught *flagrante delicto* always pleads: 'Huzur main ne bhul kya', and how admirable they are at pleading honesty. To take an instance: most of us know how terribly fond many classes of Natives are of making false accusations against respectable men or against persons who they envy or dislike, out of pure spite. The law now says. 'It is not an offence to prefer in good faith an accusation against any person.' The amendment will enable the common slanderer and blackmailer to get off scot-free. His defence will be 'I admit that I did not take any steps to test the truth of the accusation, but I heard it from a respectable man in the bazaar whose name I do not know. I have been negligent, but I thought if the accusation were true I ought

to bring it to notice. My only sin is negligence; I acted in good faith honestly. My motive was unimpeachable.' He will get off.

"I am told that the new definition is needed, so as to bring the law of India into harmony with the law that the Privy Council at home have to administer, namely, with the very latest decisions of the House of Lords. My Lord, every Sunday, or at least whenever we Christians hear the Litany, we pray that the Almighty may endue the Privy Council, and all the Nobility with grace, wisdom and understanding. I humbly think that, if when trying Indian cases the Privy Council forgets that it has to decide them by Indian law and not English, they must be past praying for. But the Hon'ble Mr. Chalmers surely would not have us believe that eminent men like Lord Hobhouse and Sir Richard Couch have forgotten their Penal Code. Even if they did, there are learned Parliamentary Counsel to remind them of it. One day we shall have them objecting to the Mitakshara and Mayuka and all Native laws, for the same reason that the House of Lords does not recognise them. In any case, if confusion will be caused by diversity of definition, surely it is better that it should be confined to a few eminent persons on the Privy Council rather than that the great mass of those who have to carry out the law in India shall be puzzled by a new, and as I think dangerous, doctrine.

"And my Lord, I go still further and submit that the very reason brought forward, that we are always to bring our Indian law into the same lines as the English, is unsound. Of course I am not referring to highly specialised laws, like the Negotiable Instruments Act. What did that eminent Judge, Sir James Fitzjames Stephen, whose chair the Hon'ble Mr. Chalmers is now so ably filling, say of the Indian Penal Code? He said 'It is the criminal law of England, clothed and in its right mind'. The object of our Legislature in India has been to pick out all that is best in the great amorphous mass of English law, discarding what is judged wrong or unsuitable to India. We have the great authority of Lord Macaulay for our present definition. We have had a succession of able Legal Members, like Sir Henry Maine, Lord Hobhouse, Sir James Stephen, Sir Andrew Scoble, and none of them dared to lay a sacrilegious finger on this definition. It is wonderful indeed what very little alteration the Penal Code has needed. More justification, I submit, is required than that the present House of Lords has endorsed a maxim that did not commend itself to Lord Macaulay or any of his successors until now. If we are to alter our law every time the House of Lords rules something or other, whether it suits us in India or not, our law will soon be in a pretty state.

"Yes, my Lord, I traverse the position utterly that we ought to, or as a matter of fact that we do always, carry out English principles into our law. We try and import its spirit of fairness no doubt, but the result of our attempt to follow its principle is not always happy. Look at the law as to debtor and creditor, and the mortgaging of ryots' lands. If this is the kind of justice which English principles lead us to, let us have no more of it. Why, in the Evidence Act you have what, I am told, is an absolute violation of English principles. Look at section 133: 'a conviction is not illegal merely because it proceeds upon the uncorroborated evidence of an accomplice.' What is more, England herself is now beginning to take a leaf out of our own book. In England, an accused used to be entreated by the Police and Courts to hold his tongue lest he should say anything likely to injure his chance of escape. In India for years we have taken the sensible course of allowing the Judge or Magistrate to examine an accused fairly, to ascertain if he can account for the damaging evidence against him or offer any valid explanation, and if he fails, of course the Court draws its own conclusion. And now the English Legislature has followed India, and allows accused persons to give evidence in English Courts on oath. I almost believe that, if we are not in too great a hurry to alter it, we shall some day find Parliament copying our definition of 'good faith' too. *Ex Oriente lux*, as it always has been.

"My Lord, as we are dealing with the subject of General Clauses, may I be permitted to make an appeal to this Council in general, and to the Legislative Department in particular, to make the language of the law generally less ambiguous? I am free to admit that the drafting of our laws is done in the

most excellent good faith; that it is done in fact very honestly, and that the element of negligence is here certainly conspicuous by its absence. It is certain also that no law can provide for every conceivable case, and one of the uses of the Superior Courts of course is to clear up doubts and interpret on occasion. But the example of the Penal Code shows how transparently clear it is possible to make a law. When any ordinary man of business is informed that other Codes are not capable of similar interpretation and, as I have been gravely told lately, that a study of House of Lords judgments or digesting twenty pages of an English text-book is necessary to ascertain the meaning of a common phrase, it must be admitted that there is something wrong. These text-books are not, remember, in the hands of a vast majority of those who have to administer the law in the mufassal, and to supply them on even a moderate scale would involve a very great cost. Still there is an irresistible tendency amongst lawyers, as in every learned profession, to make esoteric rules of its own, not understood by the vulgar. And once let them get outside the Codes within which the Legislature wishes to fence them, they go wandering about at their own sweet will in the tangled jungle of English text-books and English case law, till one is fairly driven to doubt of what use the Codes may be. They excuse themselves by alleging that the language of the Codes is ambiguous. I should like to quote an example.

"The Code of Civil Procedure says that if a usurer, say one in one of the famine tracts, who has a special desire to possess his indebted neighbour's vineyard, which is mortgaged to him, puts in an application for foreclosure, the District or Sub-Judge 'may' sell him up, his fields, his wife's ornaments, all but a pair of bullocks, his plough and the materials of his house. Or Shylock 'may' apply to put the debtor in prison, a threat that only occasionally fails to bring the most recalcitrant debtor to his knees. You would think that in time of famine especially, the Court would have some discretion in a case of the kind. The Court 'may' sell up or imprison the debtor. You would think that the Legislative Council of the day meant, when it passed the section, that the Court 'may' do it, if it seems the just and proper thing to do. Not a bit of it—'may' is here mandatory and means 'must'. The Court may very likely find some ingenious way out of it. It will say to the usurer, 'Really, I think my old edition of Maxwell on this subject "may," that is, "must" be wrong. I will send home for the latest edition and adjourn the case for six months.' On the other hand, there is a section (326) of the Code of Civil Procedure authorizing a Collector to represent to the Court that a sale of property is objectionable, and the Court then 'may' authorize the Collector to provide for the settlement of the decree. Does 'may' here mean 'must'? Oh, no—It means, 'May if the Court likes'; and I have known a Court snub the Collector and say that it doesn't like. The Hon'ble Mr. Chalmers himself has admitted that if we want 'may' to mean 'may,' we must insert after it always the words 'if he so pleases.' Well, instead of altering the definitions of the Penal Code, cannot the Legislative Department have the old Acts examined, and put interpretation clauses in them, to say what the ordinary words mean, instead of telling men to go to text-books, which the Government of India does not supply, and which are not law in India? If only half the labour spent in going over and over the Acts, to pick out and repeal redundant but perfectly harmless expressions, such as 'Be it enacted,' 'for the purposes of this Act,' 'section so and so is repealed,' were devoted to making the Codes more intelligible, I doubt if I should have had any occasion to make these remarks.

"My Lord, I know that my hon'ble friend on my left is burning to say, of course in Parliamentary language, 'What has the like of thee to do with the interpretation of Codes—*ne sutor ultra crepidam.*' But, my Lord, I believe that what I say represents the views (be they right or wrong) of hundreds of your ablest servants administering the laws far away in the mufassal. They are the real rulers of the country whose convenience has to be considered. The multiplicity and gravity of their duties strains them nigh to the breaking-point and this Council has no right to aid unnecessarily to the burden by meekly accepting the position that the interpretation of common terms in the Indian law is to be looked for outside the Statute-books. I appeal therefore to the Hon'ble Mr. Chalmers with

the strongest possible confidence, not to bewilder the Civil Service of all ranks by needlessly altering the Penal Code which they so thoroughly understand. Speaking in their name I would respectfully press him to consider this as their prayer:—'Do not consider yourself bound to introduce every "dictum" or every "obiter dictum" of the English Courts of Law into India. Don't legislate over our heads. Cast out all expressions you can from the Indian law which necessitate references to English law-books. Strive to prevent the Upas-tree of English or Indian case-made law spreading. If the Courts decide that the law does not mean what plain men of intelligence, reading it, would understand, pray alter it and make it more clear. See if you cannot make a distinction between laws for the Presidency-towns where you have a highly complex mercantile system, based on English modes of doing business, and where there are solicitors and barristers who understand them, and for the mufassal—in a word, for places that differ as widely as the Sind Frontier Regulation does from the Negotiable Instruments Act. In addition, try and make a simple just law of debtor and creditor, to stop the rampant mischief going on up-country. Then, indeed, when you retire you will carry with you the admiration and respect of the Civil Service, and, far more than that, the eternal gratitude of the people of India.'"

The Hon'ble SIR HENRY PRINSEP said:—"It was not my intention to trouble the Council with any observations of my own to-day, although I had some intimation that my hon'ble friend on my right (Mr. James) intended to address the Council on this subject; but as he has specially referred to me I only wish to make one observation for his own special information with reference to the use of the word 'may' in the particular instance which he has cited. He seems to object to the interpretation which the Courts have put on that particular word in the way of holding that it imposes an obligation on the Courts to act, and he seems to think that when the law says that a Court may sell certain property in execution of a decree, it imposes no obligation.

"In the instance mentioned the Courts have very properly held that, although the word 'may' is here used by the Legislature, they are bound to act and have no discretion. They are under an obligation to discharge a public duty. The word 'may' is used rather than 'shall' not to indicate an absolute discretion in regard to such action, but as more appropriate than the imperative word 'shall' which would probably raise difficulties in the minds of some officers in applying such laws as the law of limitation which would restrict the action of a Court. But the Courts are bound to act unless so restrained and to execute decrees even by sale of the debtors' property. Personally I have some sympathy with the Hon'ble Mr James in the observations he has made in regard to the use of the words 'good faith,' but as I understood from the discussion in the Committee that it was not intended in any future codification of the Penal Code to alter the law in this respect, I did not think it necessary to make any objection."

The Hon'ble SIR GRIFFITH EVANS said:—"I do not desire to make any lengthy observations upon what has fallen from the Hon'ble Mr. James. It is not necessary to have any debate when a Report is presented but it is sometimes convenient that observations should be made, and I think it was very convenient that the Hon'ble Mr. James should make the remarks that he did now in order to draw attention in time instead of reserving them for the time when they really will have to be debated, that is the time when the consideration of the Report comes on. No vote is taken upon the presentation of the Report and no conclusion can be come to to-day.

"What I wish to say in this matter of the definition of 'good faith' in the General Clauses Acts is this. It is not really a matter of such great importance. It is merely a question really of what meaning those words shall bear in Acts drafted in future when there is no special definition given for them. In all future Acts it will be open to the Council either to insert the words 'good faith' without anything added to them, or without any restriction to them, in which case they will bear the meaning which is set down in the present clause, that is to say, that it will mean an act done honestly, though it may be negligently,

but, if for the purpose of any Act, as, for instance, the Penal Code, it is thought desirable to insist upon something more than honesty in order to constitute 'good faith,' it will be open to the Council always to have a special definition in that Act, and when the Penal Code is amended, it will, of course, be necessary to consider whether it is at all desirable to make any alteration in the present definition. If the Penal Code is re-enacted with the special definition of 'good faith,' which it now contains, that definition will override the definition in the General Clauses Acts, because the definitions in the General Clauses Acts are all governed by the clause which says that certain words are to mean so and so, unless the contrary is expressed, or unless the context compels a contrary interpretation. So that it is really a question of convenience as to whether we should put in any definition of good faith at all in the General Clauses Acts, and the matter will be open for discussion whether it is worth while to do so. The two courses that we can adopt when we come to the consideration of the Report are either to adopt the definition in the Bill or to leave 'good faith' without a definition in the General Clauses Acts and to put in special definitions in special Acts. Even now, if we were to pass an Act without any definition in the General Clauses Acts connected with transfers of property, and so on, using the words 'good faith,' the definition given in the Penal Code would not help the matter at all. We should have to refer to the context to the meaning of the words in ordinary English and to the Privy Council decisions and to the House of Lords' decisions, and might find the Privy Council decisions are not exactly the same as the House of Lords' decisions. It is purely a matter of convenience whether we should, when it comes to the discussion of this Report, retain this provision in order to give a fixed meaning to 'good faith' when used in future without qualification, or whether we should leave it without a general definition, bearing in mind that, if no special definition of good faith is inserted, and that, if we should use the words 'good faith' in an Act connected with the transfer of property or other matters, it would not be open to anybody to interpret that word by the aid of the Penal Code definition which is a special one. As I say, it is a matter of convenience and not a matter of cardinal importance, but the Hon'ble Member may rest assured that no one will dream of altering the definition in the Penal Code without consideration and without coming to the conclusion that that definition should be altered.

"As regards the exhortation which Mr. James has addressed to the Legal Member of Council to clear up those various ambiguities with regard to 'may' and 'shall,' I will leave it to the Legal Member to answer those observations."

The Hon'ble MR. CHALMERS said:—"I am much obliged to my friend Mr. James for his able and amusing remarks, first of all on this particular Bill, secondly, on Legislation generally, and thirdly on the legal profession at large. I do not propose to follow him the whole way through, but, although I listened with interest and attention to what he said, I must say that, as far as I am at present advised, I wholly disagree with him, and I am not convinced by his arguments. I wish particularly to deal with the definition of 'good faith' in the first instance. My friend Mr. James appealed to me not to introduce English law into India. I deny that this has anything to do with introducing English law into India. I plead guilty to introducing the English language into India for this purpose, and nothing more. It is not a question of law; it is a question of language. Those definitions that we give here are simply *primâ facie* definitions of the meaning of words. They lay down the meaning words will have in future Acts if the contrary is not expressed, and if there is nothing repugnant in the context or subject matter. It is a pure question of language. We are only dealing with the *primâ facie* meaning of a word. It is exactly to avoid those discussions in Court which my friend referred to that these definitions have been put in. We cannot, as Mr. James suggests, define every word in the English language that is used in an Act. You must limit your definitions somewhere, but there are certain common words which are continually occurring in Act after Act, and it is convenient to have a *primâ facie* meaning for them, that is to say, the meaning they should bear unless they are specially interpreted. As to 'good faith,' I admit, of course, that we have in this definition departed from the

definition given by the Indian Penal Code. Now I think that may be justified on many grounds. In the first place the definition in one Act has absolutely no bearing on the use and meaning of a word in another Act. There is no clearer principle than that, if you put a definition into an Act, you put it in for the purpose of showing that you are using the word in that Act in a particular and peculiar sense. The fact that in future Acts 'good faith' will mean that a thing is done honestly whether a thing is done negligently or not, will in no wise affect the Penal Code or the construction of the Penal Code. Then comes the question of expediency. Why should we depart from the definition given by the Penal Code? I think there are various reasons for this. In the first place, as I say, our Acts are passed in the English language, and ultimately India is governed by English Statutes. It is inconvenient in the mass of Acts—I am not speaking where there is a special definition, but where we do not define—it is inconvenient that we should have a common ordinary English word used in a sense different to that in which it is used in English Statutes and different to that by which it has been interpreted by English Courts and different to its use in ordinary language. Then, again, there is another cardinal rule that, in defining terms in common use, you should, as far as possible, keep to the ordinary and popular meaning of those terms. Now I think in the English language generally good faith is opposed to bad faith. I think we should hesitate to say that a man—I am speaking of a man in common life and not from the Penal Code point of view—but we should hesitate to say that a man who acted negligently acted in bad faith. Of course, there may be such negligence as to be evidence of bad faith. There may be a question of inference as to whether he acted in good faith or merely negligently. The two things in common language appear to be perfectly distinct. It is one thing to say a man acted in bad faith, and it is quite another and a different thing to say he acted negligently. Now as to the Penal Code my friend Mr. James is very much afraid that if the Penal Code should be consolidated and re-enacted, its force will be weakened by reason of this definition existing in the General Clauses Acts. I think his fears are quite groundless. In the first place this Act is not retrospective. In the second place, if eventually we consolidate the various enactments amending the Penal Code, we should pursue one of two courses. I am assuming, of course, that we did not wish to change the law. One course would be to re-enact the Code and the definition of the Code. There would be nothing unusual in that. We should keep the old Indian Penal Code definition; throughout the Statute-book each special Act has its special definitions. There would be nothing anomalous in keeping the old definition of 'good faith' in the Penal Code, if it were convenient. I am inclined to think that a good many people would say that would be a convenient course to follow. But then there would be another course. We could omit the definition of 'good faith' given by the Penal Code, and then of course this definition would automatically apply, but we could not omit the words of the old definition in the different parts of the Indian Penal Code in which the expression 'good faith' is employed. You must read this old definition of 'good faith' into every section of the code where the term 'good faith' applies. Let me take section 79, which provides that 'nothing is an offence which is done by any person who is justified by law or who by reason of a mistake of fact and not by reason of a mistake of law in *good faith* believes himself to be justified by law in doing it.' Now I quite agree that, if we simply reproduce those words and repeal the definition, we shall be altering the law, but not consolidating it. We could not do that. What we should do would be this: We should have to insert in addition to the term 'good faith' the words which are omitted from the old definition. We should have to insert on the face of the Code that 'nothing is an offence that is done by any person who is justified by law or who by reason of a mistake of fact and not by reason of a mistake of law in *good faith and without negligence* believes himself to be justified by law in doing it.' Now it seems to me that if we did that it would have exactly the opposite effect to what the Hon'ble Mr. James fears. I think a Court which would hesitate to convict a man of bad faith, would not shrink from saying: 'Well undoubtedly you were negligent, and that brings you within the law, and I convict you on the ground of negligence.' My impression is that, if the existing definition were

written out in full in the Code, that the law would rather be strengthened than weakened.

"Let me take another class of cases. The term good faith is used continually throughout the Statute-book. Let me remind you of a case where we used it the other day. In passing what is commonly known as the Plague Act, we put in a section protecting officers who acted in good faith. We protected them in respect of anything done or in good faith intended to be done under that Act. What is the interpretation to be put on good faith there? Is it to have that special interpretation which my friend Mr. James desires for it, or is it to have the interpretation which I think a right and fair one? If the case came up now it would have to be argued out in Court and, if a reference were made to the Penal Code, it would have no application to it. On the other hand, reference would no doubt be made to the English decisions and to the meaning of the words as used in English Statutes. I think the fair meaning is the meaning which we propose to give in this Bill. You know what pressure there is thrown upon officers now; how they are harried and pressed and overworken and overburdened in dealing with plague in Bombay. What we have done, if the English law and the English language is to be followed, is to protect the officer who may unintentionally, perhaps, go beyond his powers or outside his powers. We protect him if he acts in good faith. I admit that under that Plague Act the interpretation of 'good faith' is doubtful, but I should like for the future to put that interpretation beyond all doubt. I should like to protect the overstrained officer who really has done a thing *bonâ fide* and in good faith, even though the Court might say he has acted somewhat negligently. It is not only in the Penal Code that 'good faith' occurs; it occurs also in the English law, and it occurs in mercantile transactions. The rule laid down by clause (20) has been laid down in England unequivocally since 1836, and it is very inconvenient as I say in mercantile transactions where the transactions are between two countries that a different law should apply as between one country and another. There is nothing to prevent us in future legislation from imposing liability on a man who has acted in good faith, but negligently. But when we wish to impose such a liability I think it is better to do so expressly There are numerous cases where a man ought to be held liable for negligence but then it is better to say so in terms. To pass away from that definition. I do not know whether I have satisfied my friend Mr. James or not, but at any rate I think I have satisfied him that there is a good deal to be said on both sides.

"Then with regard to the use of the terms 'may' and 'shall.' That is a matter which cannot very well be dealt with in an enactment. The only possible enactment would be an enactment to say that the English language should have the same meaning in England as in India and in India as in England. What the Courts in England (and I take it the Courts in India have held the same) is this, that *primâ facie* where the word 'may' is used it gives an option, but where a public officer is empowered to do a particular thing for the benefit of the public, he is in the position of a trustee, and there may be a duty outside the Act itself and he is bound to carry it out. Where there exists a duty outside the Act itself, then although a power is given he is bound to exercise it. That was the principle laid down in the House of Lords in the Bishop of Oxford's case. I argued that case myself and I argued strongly to the contrary and was beaten, but the law in England at any rate puts the rule upon an intelligible basis. I do not see how any legislation can affect that. You may have a duty outside the Statute itself, and that duty must be obeyed. The construction of 'may' as 'must' has only a real application in the case of public officers exercising a public trust. Then my friend Mr. James appeals to me generally to give up all ordinary legislation and introduce a law of debtor and creditor which will bring in the millennium. I am afraid I am sceptical as to my power to do that. I have spent much of my life as a Judge at home in dealing with cases of debtor and creditor there, but certainly no legislation can give common sense, and no legislation can prevent the needy from borrowing money to meet his present necessities at a high price which he shall have to pay for dearly in the future. I agree that we ought seriously and carefully to consider any proposition that is put before us, but as long as human nature

is human nature, I do not think we can bring about any very startling change, or make poor men provident by paper Acts and Statutes. Legislation may make rich men poor, but I doubt if it can ever make the poor rich."

INDIAN EMIGRATION ACT, 1883, AMENDMENT BILL.

The Hon'ble SIR JOHN WOODBURN moved that the Bill to amend the Indian Emigration Act, 1883, be taken into consideration. He said:—"The amendment is a very simple one. It alters only one section of the Indian Emigration Act, and as I explained to the Council last Thursday, its object is only to extend to Sarawak certain privileges in the matter of emigration which are enjoyed by the adjoining Straits Settlements."

The Hon'ble MR. REES said:—"The natives of India, who leave their country for the Straits Settlements and the adjoining territories, belong almost exclusively to the southern districts of the Madras Presidency, and this Bill provides for the extension of the comparatively free system, which is fortunately permitted in regard to the Straits Settlements and its protected Native States, to other neighbouring countries, in the administration of which the Government of India has confidence, which obtain their supply of labour from India through the agency of the Straits Immigration Department. For instance, Raja Brooke's Kingdom, which I abstain from calling by its name on account of the wide difference of opinion which prevails as to its proper pronunciation in the Malay archipelago and in other parts of the world.

"I have been familiar for many years in India with the classes, which the Bill will affect, and have also had some opportunity in the Straits Settlements of studying their position in that country and of enquiring into their circumstances in localities for labour in which they are recruited through the agency of the Straits Government. I may therefore be permitted to express the belief that the proposed extension will be to the advantage of the localities in question in the farther east to which these emigrants will proceed. It will also be to their own advantage. They will leave the Coromandel coast for that of Borneo, which much resembles the rich coast of Malabar, and they will return enriched by their savings.

"In spite of the very large increase in recent years of emigration to Burma, and in a less degree to the really more foreign country of Assam, and notwithstanding the steady flow of emigration to Ceylon, the population of Madras is still the most homekeeping in India. It is very slow to move in large numbers to a new field. Any measure, such as this which facilitates movement to a country in which the demand for Indian labour is in excess of the supply must be advantageous. In the Straits and adjoining territories the Tamil cooly is highly valued and well cared for, just as he is on the plantations of south India. On the Madras tea and coffee estates he has grown accustomed to good pay and to good treatment, and as he is not likely to go farther and fare worse, there is no occasion for over solicitude in his behalf on the part of the Government. While the conditions of emigration from India to the Straits were under consideration, a Governor of the latter province said it would be as easy to keep flies from honey as to keep the Tamil cooly from the Straits. Subsequent experience has proved the correctness of this view, and free passengers leave for the Straits annually in thousands. The present Bill will facilitate the flight of the flies to the honey, and provide a new, large and fertile field for its collection."

The motion was put and agreed to.

The Hon'ble SIR JOHN WOODBURN moved that the Bill be passed.

The motion was put and agreed to.

INDIAN STAMP ACT, 1879, AMENDMENT BILL.

The Hon'ble SIR JAMES WESTLAND moved for leave to introduce a Bill to amend the Indian Stamp Act, 1879. He said:—"The object of the Bill is to carry out two amendments in the Stamp Act. These two amend-

ments relate to different subjects and are in no wise connected with each other. The first of them relates to documents which evidence the indebtedness of municipalities and other local authorities. When these local authorities issue public loans they issue to their creditors debentures and bonds in certain forms. Afterwards for the convenience of these creditors and for the purposes of transactions on the money-market in sale of those debentures, they carry out the steps which are known as renewal, consolidation and subdivision of those debentures; that is to say, they issue a new debenture in lieu of an old one; they sometimes issue a new debenture in lieu of more than one old one and they sometimes issue more than one debenture in lieu of an old one. According to the strict reading of the General Stamp Act, every debenture so issued, even if it is only a renewal in substitution for an old one, requires a stamp-duty to be paid upon it. As a matter of fact, in order to the convenience of business, we introduced a practice which is not in strict conformity with the Stamp Act, but it enables the business to be carried out, and the Government at the same time to levy the proper duty; that is to say, we tell the local authority that, if you pay up a half per cent. which is the rate of duty required upon the total amount of your loan, we will issue a notification under a certain section of the Act, which will exempt from all stamp-duty in future, not only the original debentures which are issued, but all debentures which in future may be issued in substitution for the original ones. These notifications are very numerous, and in fact when we issued a consolidated notification two or three years ago, the mere enumeration of the bonds covered by these numerous exemptions occupied a few pages of the Gazette. But the fact remains that at present no debenture-holder of a municipality or District Board can absolutely know whether the document he holds is of legal validity, unless he turns up these notifications to ascertain whether or not his particular bond is enumerated among the exemptions. The object of the Bill which I ask leave to introduce, is to apply to this practice of the Government of India the force and validity of law. The provision is that when a municipality or local authority raises a loan it shall pay to us the duty upon that loan, and that the debentures which it issues shall be exempt from all further duty. Moreover, we apply this law not only to future debentures but to past ones, and we word the Bill in such fashion that debentures are valid whether they actually bear stamp-duty or not, although the municipality, if it happens to have issued any debentures without stamp-duty, remains liable for the stamp-duty. After long enquiries we have found that, taking the whole of India together, nearly every existing debenture has been exempted, and there is, I think, only one small outlying municipality in Madras which has omitted to observe the provisions of the law, and which, I dare say, we shall have to call upon to pay up the ₹10 or ₹20 which it owes to us in respect of this omission.

"The second amendment which this Act introduces relates to a class of documents which have, ever since the last general Stamp Act was passed, entirely escaped the proper duty payable upon them. Article 60 of the General Stamp Act provides that a five-rupee stamp shall be the maximum chargeable in respect of the transfer of any interest secured by a bond, lease, mortgage-deed or policy of insurance. In the Stamp Act, which was in force before this Stamp Act of 1879 was passed, the word 'lease' did not occur, and nobody can find out how that word 'lease' came to be inserted in this new Stamp Act. The Bill of that time was in charge of Mr. Cockerell, and a few months after the Act had passed, his attention was drawn to the operation of this article when he happened to be inspecting the office of the Collector of Madras. He found that a transfer or conveyance of an estate of very large value which was held under a lease (as many of the tea and coffee estates are held under a lease from Government), was dealt with as a transfer of an interest secured by a lease. A pure conveyance of this sort ought obviously to bear a conveyance stamp which comes to about one per cent. on the whole value. He expressed his surprise that this article of the Stamp Act had been interpreted in this way, and stated what of course he knew to be the case, having been in charge of the Bill, that it was intended for an entirely different purpose, and that this particular document on which only a five-rupee stamp had been paid was, in his opinion, really a conveyance on which a much higher stamp should have been paid. The question was, a short time after that,

referred to the High Court of Madras and afterwards also the opinion of the High Court of Calcutta was taken on a similar question. They held, as they were bound to hold, in interpreting a law of taxation in the strictest sense, that a document of this sort was under the law stampable only with a stamp of five rupees. This was brought to the notice of the Government at the time, and it was decided that the point should be taken up when a general amendment of the Stamp Act came under consideration. I may mention also that at two subsequent periods two very eminent firms of solicitors have equally drawn our attention to this provision of the law, and pointed out that the result of it was that a pure conveyance of a valuable property, instead of being stamped, as under the Stamp Acts of other countries it would have been stamped, with a conveyance duty, was let off with the very small duty of five rupees only. I believe that we have under this provision of the law lost revenue which may be estimated by tens of lakhs of rupees. I would not ask the Council to pass an Act of the present kind for the simple purpose of enabling us to levy any new duty with the object of enhancing the stamp-revenue. The object we have in view is to remedy what is a distinct error in the law of 1879 and to remove from it a provision which makes the duty leviable on an important class of transactions, quite different in principle from that which is levied in England and other countries where stamp-duties are levied. The remedy we propose is simply the restitution of this particular Article 60 to the form it had before the Act of 1879 came into force, namely, by cancelling in it the word 'lease'; and we define in another part of the article that the transfer of a lease which is made by way of assignment and not by way of under lease, that is to say, that the transfer of a property which is held in leasehold tenure, is to be stamped in the same way as a conveyance is stamped."

The motion was put and agreed to.

The Hon'ble SIR JAMES WESTLAND introduced the Bill.

The Hon'ble SIR JAMES WESTLAND moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned to Thursday, the 11th March, 1897.

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Calcutta, the 2nd March, 1897.

No. 186.—The Honourable Sir Dennis Fitzpatrick, K.C.S.I., has obtained permission from His Excellency the Governor General of India to resign, from the afternoon of the 5th instant, the office of Lieutenant-Governor of the Punjab and its Dependencies. His Excellency is pleased to direct, as a mark of respect due to the character and services of Sir Dennis Fitzpatrick, that all the honours and distinctions to which he is now entitled as Lieutenant-Governor of the Punjab shall be continued to him from the 5th instant until the date of his embarkation for Europe.

The 5th March, 1897.

No. 203.—The services of Colonel H. H. Hughes Hallett Inspector General of Police and Jails, Central Provinces, are replaced at the disposal of the Military Department, with effect from the 1st April 1897.

SANITARY.

The 4th March, 1897.

No 809.—The following rules for quarantine against plague, which have been made by the Government of Bengal in exercise of the power conferred by section 1, Act I of 1870, with the sanction of the Governor General in Council, are published for general information. The rules have effect, as a temporary measure, from 3rd March 1897 in the Port of Calcutta:—

I.—The Commander of every vessel, including buggalows or other native craft arriving from Goa, shall on arrival at the Sandheads hoist a yellow flag, and indicate by signal the port from which she has come, and shall keep such flag and signal flying until permitted to take it down as hereinafter provided. The Pilot on going alongside a vessel from Goa shall direct the flag prescribed above to be hoisted if it has not already been done.

II.—The Commander shall not without first having obtained permission as hereinafter provided, allow any communication except orally with the shore or any other vessel or boat, excepting only with the boat supplying the Pilots * from the Pilot Brig, and in that case communication shall be limited to receiving on board the Pilot, his Leadsman, servant and baggage.

*N.B.—Pilotage is compulsory for all vessels over 100 tons in the port of Calcutta.

III.—If there is any case of sickness on board, and the Pilot has reason to believe that it is plague, he shall telegraph to the Port Officer from Saugor, and not proceed beyond Diamond Harbour without the permission of the Port Officer.

IV.—If the Pilot has no reason to believe that there is any one suffering from plague on board, he shall bring the vessel up the river to Mateeabrooj, and shall anchor it there till the Health Officer has visited it.

V.—The Health Officer, as soon as he has received information of the arrival of the vessel at Mateeabrooj, shall visit it, and ascertain by enquiry from the Commander or the Medical Officer on board, or other sources of information, whether any person on board is suffering or has suffered from plague.

VI.—If the Health Officer is satisfied that no one is suffering from plague, or has suffered from plague, since the vessel left Goa, and if the vessel has been allowed pratique at any immediate port including Columbo, he shall allow the passengers to land, but shall detain the vessel at Mateeabrooj till such measures have been taken for the disinfection of the mails and cargo and hold as he may consider necessary.

VII.—When he is satisfied that the necessary measures have been taken for the disinfection of the mails, cargo and hold, he shall allow the mails and cargo to be landed, and shall, by writing under his hand, to be delivered to the Commander, permit such vessel to haul down the yellow flag, and to proceed upwards in the Port, and to hold free communication with the shore and with vessels and boats in Port.

VIII.—If the vessel has not been allowed pratique at Columbo or other intermediate ports or if through her not carrying a qualified Medical Officer, or for other reasons, the Health Officer is not satisfied that no one on board has suffered during the voyage from plague, he shall direct the Commander to take the vessel to the quarantine anchorage at Mateeabrooj or elsewhere duly appointed by the Port Officer, there to remain for a period of eight days from the date of arrival in harbour. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore or other vessels or boats in the harbour.

IX.—If the Health Officer, as the result of the enquiry made under paragraph V above shall have reason to believe, at the time when the vessel arrives in the harbour, that any person on board is suffering from plague, or if during the time the ship is in quarantine at Mateeabrooj under Rule VIII, any case of the disease breaks out, he shall direct the Commander to take the vessel to the quarantine anchorage at Diamond Harbour or elsewhere duly appointed by the Port Officer, there to remain for a period of fifteen days from the day of arrival in the harbour; and shall further direct that during such fifteen days, intercourse between the vessel detained under this Rule, or Rule III, and the shore or other vessels or boats in the harbour, shall be prohibited as provided in Rule II.

X.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of plague should occur on board, the said vessel shall remain in quarantine for a period of fifteen days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule IX.

XI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering

from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Port Officer as places of quarantine, there to remain for a period of eight days if under Rule VIII, or if the vessel has been placed in quarantine for fifteen days, for a period of fifteen days. If a case of plague occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

XII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

The 5th March, 1897.

No. 820.—In Home Department Notification No. 583 dated the 19th February 1897, there was published for general information a telegram dated the 12th February 1897, from Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary at the Court of Teheran, Persia, to the Secretary to the Government of India in the Foreign Department in which it was stated that the importation of all dangerous cargo even on healthy ships into the Ports of the Persian Gulf is strictly prohibited. It has since been ascertained that the following Articles are classed as dangerous within the meaning of this prohibition :—Rezais, Mattresses, Blankets, Skins, Rugs, Cotton waste and second hand clothing.

No. 821.—The following quarantine Regulations in force at Muscat and Gwadur are published for general information :—

All vessels arriving from an Indian Port, will be held in quarantine and will be visited by a medical officer, who will, if there is a ship's doctor, take his report on the ship's health.

If there has been no case of plague or suspicious case during the voyage, the vessel will have pratique, and cargo may then be landed in the ordinary manner, with the exception that under no circumstances may rags or cotton waste be landed.

In the event of any other goods being considered susceptible of carrying the infection, orders will be issued prohibiting their import.

(The Customs House Officers will be held responsible that an immediate report of any rags or waste being fraudulently or inadvertently landed is reported to the Local Government who will order the destruction of such goods.)

Should any case of plague or suspicious case have occurred during the voyage, no communication whatsoever will be allowed with the shore except for the purpose of landing mails. In the event of pratique being given and there being any passengers for Muscat, they will be landed, under supervision, at Haramil where they will be detained for a period of nine days since the departure from the last infected port.

Should any case occur whilst in the lazaretto, the case will be segregated and the passengers will be required to undergo a further detention of nine days since the case occurred.

No person other than passengers who go to the lazaretto, will be permitted to land.

The effects of passengers landing at the lazaretto to be disinfected on landing, and if any case occurs, all effects to be again disinfected.

Each passenger on landing to pay a Quarantine fee of R5.

NOTE.—In addition to the restriction stated in the above rules His Highness the Sultan of Muscat has prohibited the discharge of cargo by coolies from the shore, and has issued orders that all cargo must be worked by the ship's crew and loaded into lighters alongside.

No. 823.—In modification of the rules for quarantine against plague which were published in Home Department notifications marginally noted, the Government of Bombay have, withthe previous sanction of the Governor General in Council, altered the first paragraph of rule III of the rules published therein as follows :—

No. 300, dated 12th October 1896.
No. 7, dated the 6th January 1897.

"III.—On such arrivals being signalled, the Health Officer of the Port or Port Surgeon or other officer appointed for the purpose shall, as soon as possible, go alongside the vessel and ascertain by enquiry from the Commander whether any person is suffering, or has during the voyage suffered, from plague; and if the ship carries a duly qualified medical officer, and if the Port Surgeon or Health Officer of the Port or other officer appointed for the purpose is satisfied after a medical inspection that no person on board is suffering, or during the voyage has suffered, from plague, quarantine shall be dispensed with and pratique granted."

No. 827.—The following documents regarding quarantine and trade restrictions imposed in foreign countries in consequence of the existence of Bubonic Plague in India are published for general information :—

DECREE OF THE FRENCH REPUBLIC.

Paris, January 19th, 1897.

The President of the French Republic, on the report of the Ministers of the Interior and Finance, having read the 1st Article of the Law of the 3rd March 1822, on the subject of the sanitary police, the decree of the 15th January 1897, and the report of the Council of Direction of the Sanitary Department, decrees as follows :—

Article 1. The importation of the undermentioned articles from Bombay or any other place in India infected with plague into France or Algiers is prohibited until further orders :—

Cotton and other rags, body linen, personal effects, used clothing and bedding (when not carried as baggage), raw hides and undressed leather, animal matter and refuse, claws and hoofs.

Article 2. The transit trade through France and Algiers in the articles mentioned in Article 1 is also prohibited when such trade involves unloading or handling the articles.

Article 3. The decree of the 15th January 1897 is hereby repealed.

Article 4. The Minister of the Interior and the Minister of Finance, respectively, are charged with the execution of this decree, which will be inserted in the *Bulletin des Lois* and published in the *Journal Officiel*.

PROCLAMATION

By His Excellency the Honourable Sir Walter Francis Hely-Hutchinson, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of Natal, Vice-Admiral of the same, and Supreme Chief over the Native Population.

WHEREAS by Section 1 of Law No. 4, 1882, intituled "Law to amend the Law No. 3, of 1858, relating to Quarantine and to give power to the Governor to declare an infected Port or Ports," it is enacted that as often as the Governor, with the advice of the Executive Council, shall by Proclamation notify that any place or places, whether on this Continent or beyond the seas, is or are infected with any contagious or infectious disease dangerous to the public health, and that it is probable that such disease may be brought from such place or places to the Colony of Natal, then and immediately from and after such notification, all ships and vessels whatever arriving from or having touched at any such place or places shall be and be considered to be liable to quarantine within the meaning of the Law No. 3, 1858, and of any order made or thereafter made by the Governor with the advice of the Executive Council, and notified by Proclamation concerning quarantine and the prevention of infection :

AND WHEREAS I have been informed that the disease known as the "Bubonic Plague" is now prevalent in the City of Bombay, in India :

NOW THEREFORE, by virtue of the power and authority in me vested, and with the advice of my Executive Council, I do proclaim and notify that the City of Bombay, in India, is a place infected with a contagious or infectious disease dangerous to the public health, and that it is probable that such disease may be brought thence to the Colony of Natal.

GOD SAVE THE QUEEN !

Given under my hand and the Public Seal of the Colony, at Government House, Pietermaritzburg, Natal, this Eighteenth day of December, One Thousand Eight Hundred and Ninety-six.

HARRY ESCOMBE,
Attorney-General.

The 5th March, 1897.

No. 376-G.—Captain E. LeMesurier, Indian Staff Corps, Political Assistant of the 3rd (officiating 2nd) class and Political Agent at Kalat and Political Agent in charge of the Bolan Pass, is granted furlough for 6 months, under Article 340(*a*) of the Civil Service Regulations, with effect from the 4th March, 1897, or the subsequent date on which he may avail himself of the furlough.

No. 881-I. B.—Whereas the Governor-General in Council has full jurisdiction within the lands which are or hereafter may be occupied by the Bengal-Nagpur Railway (including land occupied as stations, for out-buildings, and for

(*a*) The eastern parts of the feudatory State of Gangpur and the States of Seraikilla and Kharsawan.
(*b*) The State of Mohurbhanj.

other purposes connected with the railway), and which lie within the territories named in the margin;

In exercise of this jurisdiction and of the powers conferred by sections 4 and 5 of the Foreign Jurisdiction and Extradition Act (XXI of 1879) and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to provide as follows for the administration of justice within the aforesaid lands:—

I. (1) All laws for the time being in force in the Kolhan in the Singhbhoom district of the Bengal Presidency shall be in force in such of the said lands as lie within the eastern parts of the feudatory State of Gangpur and the States of Seraikilla and Khursawan.

(2) All Courts having for the time being jurisdiction within the Kolhan in the Singhbhoom district of the Bengal Presidency shall exercise the same jurisdiction within the said lands.

(3) The administration of police within the said lands shall be vested in the District Superintendent of Police, or the officer for the time being in charge of the district police of Singhbhoom, who shall exercise within the said lands the same police powers as he may for the time being exercise within the Kolhan in the Singhbhoom district, in subordination to the authorities to whom he may be for the time being subordinate when exercising those powers within the Kolhan aforesaid.

II. (1) All laws for the time being in force in the Balasore district of the Bengal Presidency shall be in force in such of the said lands as lie within the State of Moharbhanj.

(2) All Courts having for the time being jurisdiction within the Balasore district of the Bengal Presidency shall exercise the same jurisdiction within the said lands.

(3) The administration of the police within the said lands shall be vested in the District Superintendent of Police or the officer for the time being in charge of the district police of Balasore, who shall exercise within the said lands the same police powers as he may exercise in the district of Balasore, in subordination to the authorities to whom he may be for the time being subordinate when exercising those powers within the district of Balasore.

III. The notification by the Government of India, in the Foreign Department, No. 1033-I., dated the 28th March, 1890, is hereby cancelled.

W. J. CUNINGHAM,
Secretary to the Government of India.

Mr. H. J. Brereton, Deputy Accountant General, North-Western Provinces and Oudh, is appointed to be Comptroller, Central Provinces.

Mr. R. T Howe, Assistant Accountant General, Punjab, is posted as Deputy Accountant General, North-Western Provinces and Oudh.

Mr. L. Marshall, Assistant Accountant General, North-Western Provinces and Oudh, is posted as Assistant Accountant General, Punjab.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

The 3rd March, 1897.

No. 1015-A.—In pursuance of Rule 22 of the Rules made by the Government of India under Section 14 of the Indian Securities Act, XIII of 1886, and published in the *Gazette of India* of the 7th January 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security. All persons, other than the respective claimants named below, who have any claim upon these Securities, should communicate immediately with the Comptroller General, the Treasury, Calcutta.

The list is divided into two parts,—Part A being the list of Securities now advertised for the first time, and Part B the list of Securities previously advertised.

N B.—Under Section 13 of the said Act, Government will be discharged from all liability in respect of these original Securities after the lapse of six years from (*a*) the several dates stated against them in the last column of the list, or (*b*) the last payment of interest on them, whichever date is the later.

ACCOUNTS and FINANCE.
Savings Banks.

RESOLUTION.

The 3rd March 1897.

READ again—

Resolution in the Finance and Commerce Department, No. 2270 A., dated the 18th May 1895, prescribing revised rules for the guidance of depositors in the Post Office Savings Bank.

RESOLUTION.—According to Rule 39 (*i*) of the Rules laid down in the Resolution read in the preamble, the annual limit of ₹200 and the maximum limit of ₹2,000 for deposits and the limit of ₹5-3-3 for monthly interest do not apply to public accounts. Instances having occurred in which very large deposits have been admitted, which, though admissible under the strict letter of the rules, clearly do not come within the declared purposes of the Post Office Savings Bank, the Governor General in Council is of opinion that a maximum limit should be laid down in the case of public accounts. His Excellency in Council accordingly directs that for Rule 39 (*i*) of the Post Office Savings Bank Rules, the following shall be substituted :—

"39. (*i*) The annual limit of ₹200 for deposits (see Rule 10) does not apply to public accounts. But no public account may have at any time more than ₹10,000 at its credit, exclusive of interest, and no interest will be credited on any sum in excess of ₹10,000."

2. In the case of all public accounts in excess of ₹10,000 existing on the date of this Resolution, a written notice will be sent to each depositor of the change of rules now made, with the intimation—

(1) that no further deposit will be allowed to be made to the credit of the account unless the balance of the account should fall below ₹10,000;

(2) that from the 1st April 1897 no interest on any amount in excess of ₹10,000 will be credited to the account;

(3) that the depositor will be at liberty up till the 1st April 1897 to withdraw, or cause to be invested, any portion of his balance, without reference to the requirement of six months' notice provided by Rule 39 (*j*) and Rule 43 as amended by Resolution in this Department, No. 194 A., dated 13th January 1897; but that from the 1st April 1897 the rules as amended by this Resolution will operate fully with reference to his account.

ORDER.—Ordered, that this Resolution be communicated to the Director General of the Post Office of India for the necessary action; to the Comptroller and Auditor General, and to the Comptroller, Post Office.

Ordered, also, that the Resolution be published in the *Gazette of India* for general information.

J. F. FINLAY,
Secretary to the Government of India

The 4th March, 1897.

No. 90.—Captain E. W. Walton, R.E., Executive Engineer, 3rd grade, State Railways, Deputy Consulting Engineer to the Government of India for Railways, Calcutta, is appointed Deputy Consulting Engineer for Railways, Burma, until further orders.

No. 91.—Lieutenant H. J. Hare, R.E., Assistant Engineer, 1st grade, State Railways, whose services were placed temporarily at the disposal of the Military Department for employment on Field Service in Public Works Department Notification No. 55 of the 7th February, 1895, was, on return from the 15 months' leave on medical certificate granted to him by the Department, permanently transferred to the Revenue and Agricultural Department.

The 5th March, 1897.

No. 93.—With reference to Public Works Department Code, Volume I, Chapter II, paragraph 79, Mr. Elphinstone Cortlandt Trotter is appointed to the Superior Accounts Branch, in the rank of Deputy Examiner, class II, on probation, with effect from 26th February, 1897, and is posted to the Office of the Examiner of Public Works Accounts, Bengal.

No. 96.—The Governor General in Council is pleased, under section 16 (1) of the Indian Railways Act (IX) of 1890, to sanction the use of locomotive engines and of rolling stock to be drawn or propelled thereby, on such portions of the Anklesvar-Pardi section of the Rajpipla State Railway as are situate in British territory

No. 98.—The following is published for general information :—

Corrigendum to the Government of India Resolution No. 91 R. T., dated the 23rd January, 1897, which was published under the Government of India, Public Works Department Notification No. 40, dated the 26th January, 1897, in Part I of the *Gazette of India* of the 30th January, 1897, sanctioning the application to the Darjeeling-Himalayan Railway of certain general rules for open line working.

For the words "1st February, 1897," in the above quoted Resolution, *substitute* the words "1st April, 1897."

The 2nd March, 1897.

No. 88.—The following is published for general information :—

NO. 70 I.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT.—CIVIL WORKS—IRRIGATION.

Calcutta, the 25th February 1897.

Review of the Revenue Report of the Irrigation Works in Baluchistan for the year 1895-96.

READ—

Revenue Report of Irrigation Works in Baluchistan for the year 1895-96, forwarded with letter No 6601, dated the 17th December 1896, from the Secretary to the Agent to the Governor General, Baluchistan, Public Works Department.

OBSERVATIONS.—There are two Minor Works in Baluchistan of which Capital and Revenue Accounts are kept, *viz.*, the Shebo Canal and the Khushdil Khan Reservoir.

2. There was no Capital outlay during the year; the outlay up to the end of 1894-95, as shown in the table in para. 2 of that year's review, amounted to Rs. 16,12,782, including indirect charges.

3. The following statement shows the actual financial results of the year under review :—

Works.	Total Capital outlay to end of year, including indirect charges.	Gross Revenue collected.			Working Expenses.			Net revenue.	Percentage of net revenue on Capital at end of year.
		Irrigation revenue.	Miscellaneous receipts.	Total.	Direct.	Indirect.	Total.		
1	2	3	4	5	6	7	8	9	10
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
MINOR WORKS AND NAVIGATION.									
Shebo Canal	6,77,231	11,718	5,076	16,794	6,412	182	6,594	10,200	1·50
Khushdil Khan Reservoir . .	9,35,551	16,195	283	16,478	6,210	167	6,377	10,101	1·08
TOTAL .	16,12,782	27,913	5,359	33,272	12,622	349	12,971	20,301	1·26
Figures for 1894-95 .	16,12,782	21,082	94	21,176	13,052	343	13,395	7,781	0·48

The working of the Shebo Canal during the year under review resulted in a net return of Rs. 10,200, or 1·50 per cent. against a deficit of Rs. 851 in the preceding year. The gross revenue of Rs. 16,794 includes a sum of Rs. 4,459 paid by the Forest Department for water supplied to the Shebo plantations during 1894-95 and not accounted for in that year. During the year under review the crops were generally poor both in quality and quantity; there was no snow-fall at all during the year, which circumstance, it is stated, was most detrimental to the crops. The question regarding the replacement of the system of 'batai' or 'division of the crop' by a 'cash rate,' to which reference was made in the previous year's review, has not yet been settled and the revenue is still collected in kind, but it is stated that efforts are being made by the Revenue Authorities to realize it in cash as soon as practicable.

The net revenue from the Khushdil Khan Reservoir amounted to Rs. 10,101, or 1·08 per cent., on the capital expended, against 0·92 per cent. during the previous year.

There were no remissions and no arrears of revenue due at the end of the year 1895-96.

On the Shebo Canal, the yield per acre during the year was—wheat 5·45 maunds and barley 3·97 maunds, against the previous year's yield of 5·32 and 8·71 maunds, respectively, and the revenue realized from the irrigation of these crops was Rs. 3·90 for wheat and Rs. 2·09 for barley per acre, as compared with Rs. 2·75 and Rs. 3·38 in 1894-95. On cultivated lands as a whole the average revenue collected was Rs. 4·03 per acre against Rs. 2·75 per acre in the preceding year. The average rate charged for the Forest plantations was Rs. 3·06 per acre.

On the Khushdil Khan Reservoir, the yield per acre was 6·10 maunds of wheat and 5·72 maunds of barley, against the preceding year's yield of 8·47 and 15·52 maunds, respectively. The decrease in the yield per acre as compared with the previous year is attributed to there having been no fall of snow during the year under review. The revenue realized was—wheat Rs. 4·26 per acre and barley Rs. 3·07 per acre, against Rs. 4·26 and Rs. 6·37 realized in the preceding year.

4. The area irrigated by the Shebo Canal during the year amounted to 1,799 acres (of which 104 acres were under kharif crops), excluding 1,215 acres of Forest plantation, against 1,993½ acres irrigated in the preceding year. The Khushdil Khan Reservoir irrigated 4,056 acres under rabi crops only during the year against 2,902½ acres irrigated during 1894-95. All irrigation is by flow.

5. The following table shows the details of the working expenses exhibited in the statement in para. 3 :—

	Repairs.	Establishment.	Tools and plant.	Total.	Indirect charges.	Total working expenses.	Area irrigated	Rate per acre.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Acres.	Rs.
Shebo Canal	5,114	1,298	...	6,412	182	6,594	1,799	3·7
Khushdil Khan Reservoir	5,019	1,191	...	6,210	167	6,377	4,056	1·6
Total .	10,133	2,489	...	12,622	349	12,971	5,855	2·2
Figures for 1894-95 . . .	10,604	2,448	...	13,052	343	13,395	4,895	2·7

The outlay on repairs on the Shebo Canal amounted to Rs. 5,114 and on the Khushdil Khan Reservoir to Rs. 5,019. These sums represent expenditure on the usual annual repairs such as clearance of silt, weeds, etc.

6. The rainfall at Quetta and Shirinao during 1895-96 was 10·81 and 6·84 inches, respectively, as compared with 7·33 and 5·49 inches in the previous year. The rainfall at Khushdil Khan was 9·42 inches and at Pishin 8·88 inches against 6·32 and 7·35 inches in the preceding year.

ORDER.—Ordered that a copy of this Review be forwarded to the Agent to the Governor General and Chief Commissioner, British Baluchistan, Public Works Department, for information.

Also, that a copy of the Review and of the Report be forwarded to the Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab in the Public Works Department for information.

Also, that a copy of the Review and of the Report be forwarded to the Revenue and Agricultural Department for information.

Also that a Review be published in the *Gazette of India*.

Ordered further, that a copy of this Review and of the Report be forwarded to Her Majesty's Secretary of State for India for information.

The 5th March, 1897.

No. 92.—The following is published for general information :—

No. 595 G.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT.—GENERAL.

Calcutta, the 3rd March 1897.

Engineer Establishment—Cadre numbers for 1897 for regulating promotions of Executive and Assistant Engineers.

READ—

Public Works Department Resolution No. 2523 G., dated 28th September 1893.
" " " 524 G., " 20th February 1895.
" " " 442 G., " 19th " 1896.

RESOLUTION.—The Governor General in Council is pleased to fix the cadre numbers and limiting scales for regulating the promotions of Executive and Assistant Engineers for the year 1897, or pending further orders, as below :—

List.	Cadre number for 1897.	Limiting Scale.					
		Executive Engineers.			Assistant Engineers.		
		1	2	3	1	2	3
Madras	72	18	11	7	14	11	11
Bombay	84	21	13	8	17	12	1
Bengal	52	13	8	5	10	8	8
North-Western Provinces and Oudh .	92	23	14	9	18	14	14
Punjab	115	29	17	11	23	18	17
Local Administrations	130	32	20	13	26	19	20
Railways	180	45	27	18	36	27	27

The rules laid down in para. 6 of Resolution No. 2523 G., dated 28th September 1893, will continue to ope rate.

2. The rule laid down in para. 2 of Resolution of February 1895, quoted in the preamble, for regulating temporary promotions to the 3rd grade of Executive Engineers, will be maintained on all the lists for the year 1897.

3. Attention is specially invited to the fact that the cadre numbers for the year sanctioned under these orders are intended solely as the basis for calculating the several limiting scales which regulate the promotions of Executive and Assistant Engineers on each list. These numbers are, under present circumstances, fixed on different considerations to those with reference to which the strength of the Engineer Establishment is decided. An increase therefore in a cadre number for calculating the scale affords no ground for increasing the sanctioned strength, and the fact of such increase cannot be put forward as an argument for increasing that strength.

ORDER.—Ordered, that the above Resolution be circulated to the Local Governments and Administrations and Officers noted on the margin, for information and guidance, and that it be published in Part I of the *Gazette of India*.

The Governments of Madras and Bombay, Public Works Department, General and Railway Branches.
The Governments of Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Rajputana, Central India, and Baluchistan.
The Accountant General, Public Works Department.
The Director General of Railways
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow, and Assam.

No. 94.—The following is published for general information :—

No. 1071 R. T.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT—RAILWAY TRAFFIC.

Calcutta, the 2nd March 1897.

General Rules of 1895 for working railways open for traffic.

READ—

Section 47 of the Indian Railways Act, 1890

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules, therewith promulgated, for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda to the rules therewith promulgated.

Letter from the Government of Bombay, Public Works Department, Railway Branch, No. 515, dated the 19th February 1897, forwarding letter from the Agent of the Bombay, Baroda and Central India Railway Company, No. 1625, dated the 15th February 1897.

OBSERVATIONS.—The Agent of the Bombay, Baroda and Central India Railway Company has applied that the General Rules for working open lines of railway which were published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circulars Nos. 3 Railway, dated the 22nd May 1896, and 3 Railway, dated the 3rd February 1897, which were published under Public Works Department notifications Nos. 257, dated the 28th May 1896, and 55, dated the 5th February 1897 (*vide*

the *Gazette of India* of the 30th May 1896 and 6th February 1897) may be made applicable to the Ahmedabad-Parantij railway from such date as it may be opened for the public carriage of passengers, animals or goods.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for working open lines of railway which may, for the time being, be in force on the Bombay, Baroda and Central India railway, to such portions of the Ahmedabad-Parantij railway as are situate in British territory from the date of opening for the public carriage of passengers, animals or goods.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India*, as required by section 47, sub-section (3) of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Government of Bombay, for information and guidance.

No. 95.—The following is published for general information:—

No. 201 R. T.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT.—RAILWAY TRAFFIC.

Calcutta, the 2nd March 1897.

General Rules for railways under construction.

READ—

Sections 3 (4), 16 (2), 47 and 148 (1) of the Indian Railways Act (IX) of 1890.

Government of India, Public Works Department, notification No. 480½, dated the 30th October 1890, publishing—in the *Gazette of India* of the 8th November 1890—the Government of India resolution No. 736 R. T., dated the 17th October 1890, and the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods.

Letter from the Government of Bombay, Public Works Department, Railway Branch, No. 2457, dated the 18th November 1895, forwarding letter No. 11252 T., dated the 5th November 1895, from the Agent of the Bombay, Baroda and Central India Railway Company.

OBSERVATIONS.—The Agent of the Bombay, Baroda and Central India Railway Company, has applied for leave to adopt, on the Anklesvar-Pardi section of the Rajpipla State railway, the General Rules for working railways under construction and not used for the public carriage of passengers, animals or goods, which rules were published in the *Gazette of India* of 8th November 1890, under Public Works Department notification No. 480½, dated the 30th October 1890.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules which are referred to in the foregoing observations, to such portions of the Anklesvar-Pardi section of the Rajpipla State railway as are situate in British territory, and which have been sanctioned for construction.

ORDER.—Ordered that the General Rules, which have already been published in the *Gazette of India* of the 8th November 1890, be further notified to the railway servants and to the public by a copy thereof being kept open to inspection, free of any charge, in the office of the engineer in charge of the construction of the railway.

Ordered, also, that this resolution be communicated to the Government of Bombay, Public Works Department, Railway Branch, for information and guidance, and that it be published under a notification in Part I of the *Gazette of India*.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 4th March, 1897.

NOTIFICATIONS

No. 794 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 27th February 1897 :—

No. 72 of 1897.—Amended application. *See* No. 5 of 1897.

No. 73 of 1897.—Amended application. *See* No. 409 of 1896.

No. 74 of 1897.—Harry Heatly, civil engineer, of the firm of Heatly and Gresham, Limited, 7, Hastings street, Calcutta, for improvements in or applicable to hot air engines for actuating punkahs, thermantidotes and for other purposes.

No. 75 of 1897.—Kelso King, underwriter, of 120, Pitt street, in the city of Sydney and colony of New South Wales, for improvements in pneumatic tyred wheels to facilitate the inflation of the tyres.

No. 76 of 1897.—Friedrich Hermann Schule, manufacturer, of No. 94 Hammerdeuh, Hamburg, Germany, for improvements in and relating to the oscillating supports of shaking sieves.

No. 77 of 1897.—André Braly, civil engineer, of 8, rue Sainte Beuve, Paris and Louis Braly, genealogist, of 19, Cours de la Liberté, Lyons, for improved means of preventing the falsification of liquid and other products, works of art, monetary and other documents, and apparatus for use in connection therewith.

No. 78 of 1897.—Hermann Muller-Thurgau, director, wine growing school, of Waedensweil, near Zurich, Switzerland, for a process for the production of non-alcoholic or feebly alcoholic fruit juices (fruit and grape wines) which may be kept or preserved without change.

No. 79 of 1897.—George Baxter, gentleman, of 1, Frederick's place, Old Jewry, London, for a new or improved brake for cycles and other road vehicles.

No. 80 of 1897.—Francis Gascoigne Lynde, civil engineer, of Ahmedabad, in the Bombay presidency, for improvements in the switch lock, known as "Blood's patent switch lock," by means of which injury to the switch is prevented in case the points are burst open by a vehicle forcing its way through when they are wrongly set.

No. 81 of 1897.—Amended application. *See* No. 6 of 1897.

No. 795 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director

of the department of land records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 44 of 1896.—Taylor Burrows, engineer, of 88, Upper Kennington lane, London, and Dick Edwards Radclyffe, gentleman, of 56,. Gloucester cresent, Regent's park, London, for improved means or apparatus for de-gumming or otherwise treating by immersion the fibres extracted from the plants, stems or straws of flax, hemp, ramie or the like. (Specification filed 19th February 1897.)

No. 111 of 1896.—Frances Eliza Hunter, spinster, of Freeman street, North Fitzroy, near Melbourne, in the colony of Victoria, for an improved box-iron (Specification filed 12th February 1897.)

No. 131 of 1896.—Robert Cooke Sayer, engineer, of Clyde road, Redland, Bristol, in the county of Gloucester, for improvements in railways. (Specification filed 17th February 1897.)

No. 193 of 1896.—Robert Greenhalgh, warehouseman, of 20, Nicol road, Willesden, London, for an improved method of marking and arranging patterns or sections of wearing apparel. (Specification filed 19th February 1897.)

No. 226 of 1896.—Abraham Wood, jeweller, of 15, Bridge street, Ramsbottom, in the county of Lancaster, for improvements in loom shuttles and tongues. (Specification filed 19th February 1897.)

No 243 of 1896.—William Roberts King, mechanical engineer, and Francis Wyatt, chemist, both of 12, Old Slip, New York city, New York, United States of America, for apparatus and process for forming calcium carbide. (Specification filed 19th February 1897.)

No. 245 of 1896.—Edward Lloyd Pease, engineer, of the firm of Ashmore, Benson, Pease and Co, limited, gasholder manufacturers, Stockton-on-Tees, in the county of Durham, and residing at Hurworth-on-Tees, in the said county, for a novel or improved structural arrangement for combining strength with rigidity in a manner applicable to flooring, walling and other structural purposes. (Specification filed 19th February 1897.)

No 253 of 1896.—Aloys Naville, Philippe Guye and Charles Eugene Guye, gentlemen, of No. 20, rue de Candolle, Geneva, Switzerland, for electrical gas reaction apparatus. (Specification filed 19th February 1897.)

No. 283 of 1896.—Wasudeo Balwant Soman, head clerk at the Indo-China mills, 20, Parel road, Cross lane, Parel, Bombay, for improvements in sizing or dressing machines for yarns. (Specification filed 16th February 1897.)

No 310 of 1896.—Paran Chandra Chatterji, depôt store-keeper, E. C. railway, Waltair, for improvements to facilitate the working of tri-colour hand signal lamp. (Specification filed 22nd February 1897.)

No 345 of 1896.—William Alfred Gibbs, gentleman, of Gilwell park, Chingford, England, and Gilbert William Sutton, civil

engineer, of Rothmans, Great Baddow, Chelmsford, England, for improvements in apparatus for drying tea and other substances. (Specification filed 17th February 1897.)

No. 362 of 1896.—Charles Frederick Cross, analytical chemist, of No. 4, New Court, Carey street, London, for improvements in the manufacture of alkali cellulose. (Specification filed 17th February 1897.)

No. 365 of 1896.—Charles Frederick Cross, analytical chemist, of No. 4, New court, Carey street, London, for manufacture of soluble cellulose, and of products therefrom. (Specification filed 17th February 1897.)

No. 390 of 1896.—Henry George Hills, tea planter, Silcoorie tea estate, Cachar, for a machine for drying tea and analogous substances. (Specification filed 22nd February 1897.)

No. 419 of 1896.—John Marr, master mariner, of Roseville, Irvine, Ayrshire, N. B., for a tea packing box of novel construction to be called the "Marr tea box." (Specification filed 18th February 1897.)

No. 796 P.—THE undermentioned design has been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George and Bombay, and the Chief Commissioner of Burma. This and other designs are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 3D of 1897.—Joseph Henry Johnson, mechanical engineer, Aligarh, N.-W. P., for salt castors.

No. 797 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 144 of 1890.—Alfred Addison Blandy, M.D., of 58, Brook street, Grosvenor square, London, for improvements in the production of new compounds for the manufacture of the soles and heels of boots and shoes and for other and various useful purposes, the said compounds being characterized by their vulcanizing, insulating and other qualities. (From 2nd December 1896 to 2nd December 1897.)

No. 145 of 1891.—Hahnemann Adolphus Cutmore, electrical engineer, London, for a new or improved switch to be used for a system of two or more speaking tubes. (From 31st March 1897 to 31st March 1898.)

No. 208 of 1892.—Beaumont Richard Harrington, civil engineer, of No. 1, Wood street, Calcutta, for an improved refuse and excrement incinerator. (From 25th February 1897 to 25th February 1898.)

No. 211 of 1892.—John Rickie, district locomotive superintendent, frontier section of the North-Western railway, Quetta, for improvement in compound engines. (From 6th March 1897 to 6th March 1898.)

No. 798 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorising others so to do has ceased :—

No. 232 of 1891.—John Driscoll's invention for saving of life and property. (Specification filed 23rd November 1891.)

No. 307 of 1891.—John Driscoll's invention for saving of life and property in cargo boats, steam launches and other vessels. (Specification filed 25th November 1891.)

Fee in respect of the continuance of an exclusive privilege—

(*b*) After the filing of the specification and before the expiration of the fifth year from the date of the filing thereof—

The sum of ₹50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

A. T. PRINGLE,
Offg. Secy. under the Inventions and Designs Act, 1888.

R. H. SHIPLEY,
Acting Secretary

ACCOUNTANT GENERAL, PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

ESTABLISHMENT.

Calcutta, the 5th March, 1897.

No. 5.—Mr. J. M. Hartley, Assistant Examiner of Accounts, is transferred from the Office of the Examiner of Public Works Accounts, Bengal, to that of the Examiner of Accounts, Oudh and Rohilkhand Railway.

A. R. BECHER,
Offg. Accountant General.

THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 22nd February, 1897.

No. 720.—Tenders are hereby invited for a contract for the transport of arrack from the Mysore Government Central Distillery, Bangalore, under bond to the depôt in the Civil and Military Station, Bangalore, and the issue of it from the depôt to the licensed retail shops in the said Station during the period of five years beginning with 1st April, 1897, and ending with 31st March, 1902.

2. The terms of the contract are those contained in the annexed form of agreement which must be executed by the contractor, as required by the rules in Resident's Notification No. 3207—379-92, dated 14th September 1894.

3. Each tender should specify the lowest rate per gallon at which the tenderer is prepared to undertake to transport liquor from the Distillery to the depôt and there issue it to the retail license holders after collecting the prescribed duty thereon. The rate specified in the tender which is accepted by the Resident in Mysore shall be the rate at which remuneration will be payable to the contractor during the full period above described.

4. Each tender must be accompanied by a deposit of ₹100 and enclosed in a sealed cover superscribed with the words "Tender for transport and distribution of arrack for the Civil and Military Station," and must be delivered at the office of the Collector, Civil and Military Station of Bangalore, on or before noon of Monday, the 15th March, 1897. The tenders will then be opened by the Collector, but the final disposal of the tenders will rest with the Resident in Mysore who may refuse or accept any tender without assigning his reasons. The deposits made by the applicants whose tenders are rejected, will be returned to them on their application.

5. The person whose tender is accepted by the Resident, shall be required within eight days of the acceptance of his tender being communicated to him to deposit at the Resident's Treasury, Bangalore, a further sum in cash or in Government Securities, duly endorsed in favour of the Collector of the Civil and Military Station, to make up with the deposit previously made the sum of ₹3,000, and to execute an agreement in the annexed form on proper stamp, and if he fail or refuse to make the deposits required, the deposit already made will be forfeited to Government and the contract otherwise disposed of as the Resident may direct.

6. The contract shall not be transferable except with the previous sanction of the Resident in Mysore.

The quantity of arrack conveyed from the Government Central Distillery to the Bonded Depôt and sold to separate shop-keepers yearly from 1892-93 to 1895-96 and during the nine months ending 31st December, 1896, are noted below, the rate of remuneration allowed to the contractor for the transport and issue of the liquor during that period has been 1 anna per gallon :—

PARTICULARS.	1892-93, Gallons.	1893-94, Gallons.	1894-95, Gallons.	1895-96, Gallons.	1896-97, for nine months ending 31st December 1896, Gallons.
Transported to Civil and Military Station	86,058	90,921	97,570	1,03,676	78,536
Issued to Civil and Military Station separate shops	86,446	91,122	97,476	1,03,007	78,318

K. D. ERSKINE, *Captain*,
First Assistant to the Resident.

WHEREAS I, , have been granted by the Resident in Mysore, for the official year beginning 1st April 189 , and ending 31st March 189 , the right of conveying country spirits from the Central Distillery *under bond* to the depôt in the Civil and Military Station of Bangalore, in quantities sufficient to meet the demand of the separate shops dependent on such depôt, and whereas the said Resident has agreed to pay me the remuneration hereinafter described, I, the said for myself, my heirs, legal representatives and assigns, hereby agree and bind myself to all the terms and conditions hereinafter set forth :—

(1) that I hold myself responsible to Government for the correct delivery of the requisite supplies of liquors to the separate shop-keepers at a depôt to be provided by me in the Civil and Military Station of Bangalore, with the approval of the Collector (which will henceforth be called a Bonded Depôt), on production of Treasury receipts in proof of prepayment of duty and price of such liquor; or on prepayment at the Bonded Depôt under orders of the Collector of the duty and price of liquor;

(1) (*a*) that I hold myself responsible to Government in case the prepayment of duty and price of liquor is directed to be made at the depôt to pay the same into the Resident's Treasury on such date or dates as the Collector may fix from time to time;

(2) that in special cases sanctioned by the Collector, I shall be bound to carry the requisite supply of liquor to any altered locality of the existing depôt, provided the expense to me is not likely to be greater than supplying present depôt ;

(3) that as remuneration for my contract, the Government shall pay me, at the end of each month, for every gallon of liquor conveyed by me from the Central Distillery to the depôt, and issued to retail vendors and shall allow me no wastage under any circumstances whatsoever ;

(4) that the usual establishment required for such depôt and the house rent shall be paid for by myself ;

(5) that the establishment at the depôt shall keep such accounts as may be prescribed by the Collector, and shall be under the control and orders of myself, and regard themselves as my servants ;

(6) that I shall conform to the Excise Laws and Rules in force, and which may from time to time be issued by Government, and also to such rules of practice as may be prescribed by the Collector ;

(7) that for the due fulfilment of the terms of this contract, I hereby deposit in the Resident's Treasury ₹ in cash, or Government Securities duly endorsed in favour of the Collector to the value of ₹ ;

(8) that I equally with the depôt-keeper shall be bound by the conditions of the depôt license, Appendix E ;

(9) that I shall be bound to dismiss any of my servants on the requisition of the Collector, and appoint qualified men instead without delay ;

(10) that I shall be bound to make good the loss accruing to Government and the separate shop keepers by short stock or no stock in the said depôt, or by neglect, carelessness in not conveying the necessary supplies of liquor to the depôt in due time ;

(11) that as the liability of the Manufacturers ceases on delivery by them of liquor to me at the Distillery, all further liability or responsibility to account for the whole quantity of such liquor thenceforth, shall rest with me, and any diminution from any cause whatever (Acts of God and the Queen's enemies and robbery by vis Major excepted), shall be made good by me at the rate of ₹ per gallon of 20° under-proof, and proportionately for higher or lower strengths ;

(12) that in case of any breach of the laws and rules or of the aforesaid conditions, or in case of any attempt at fraud by my servants, agents or employés, it shall be competent to the Collector to impose upon them, or upon myself in the event of my neglect, a fine not exceeding ₹50 for every such breach, or at the option of the Collector to declare the money or any portion thereof deposited by me forfeited ; and to cancel the contract with the previous sanction of the Resident in Mysore ;

(13) that the imposition of a fine or the forfeiture of the deposit, or the cancelment of the contract, shall not be held to prevent prosecution for any offence committed under any law for the time being in force ; and

(14) that this contract shall not be transferable except with the consent of the Resident in Mysore.

In witness whereof I hereunto set my hand and seal this day of 189

Sealed, signed and delivered in the presence of us :—

Witnesses :—

1.

2.

The 25th February, 1897.

No. 761.—Whereas certain parts of India are visited by, and the Province of Mysore and the Civil and Military Station of Bangalore are threatened with, an outbreak of a dangerous epidemic disease known as bubonic plague, the Officiating Resident in Mysore in exercise of the powers delegated to him by the Governor-General in Council under section 2, sub-section (3) of the Epidemic Diseases Act, 1897, as applied to the Civil and Military Station of Bangalore (Notifications of the Government of India, Foreign Department, Nos. 443-I.A. and 444-I.A., dated the 4th instant, and No. 567-I.A., dated the 12th instant) is pleased to prescribe the following temporary regulations : —

1.—Every passenger train coming from outside the Mysore State to any of the stations to which these rules may be declared by the Resident to be applicable shall be stopped at such station and shall not be taken further until the inspection provided by these rules has been carried out and until the guard in charge of such train has obtained a certificate from the Inspecting Officer at such station to the effect that all persons proceeding further by the said train, whether railway servants or passengers, are free from bubonic plague.

II.—Every such train shall be emptied for inspection of the passengers in such manner as the Inspecting Officer on duty may direct, and all such facilities shall be afforded by the servants of the Railway Company as the Inspecting Officer on duty may deem to be necessary for the purpose of inspecting

(*a*) persons who have come by such train, whether they intend to proceed by it or not, and

(*b*) persons who intend to start from any of the said stations and to travel by such train.

In particular the doors of all railway carriages shall be locked at the station at which the train last stops before arrival at the station appointed for the inspection of passengers under these rules.

III.—The Resident in Mysore may appoint any person or persons by name or by virtue of office to be the Inspecting Officer or Officers for the purposes of these rules, and may cancel any such appointment.

IV.—Inspecting Officers appointed under these rules are empowered to examine all persons arriving by or intending to leave by the trains mentioned, and to detain persons suffering or suspected by them to be suffering from bubonic plague in such places as may be appointed for the accommodation of such persons respectively.

V.—Inspecting officers appointed under these rules may demand of any person travelling in the trains mentioned his name, his usual abode, and particulars of the places in which he has resided, or which he has visited during the preceding 15 days, and also the address to which he is about to proceed, and any other particulars which the Inspecting Officers may think fit in view of satisfying themselves as to the likelihood of the said persons spreading the infection of the plague. A person so interrogated shall be bound to answer truly to the best of his knowledge and belief all such questions and enquiries.

VI.—If any such person is found to have, within the preceding ten days, been within a part of India believed by the Inspecting Officer to be infected by the plague, and is unable to satisfy such officer that he is proceeding to any fixed place of residence, such officer may remove him or cause him to be removed to a place provided under Rule IV, and may there cause him to be detained for ten days, when, if he is certified free from the infection of the plague, he shall be permitted to depart therefrom.

VII.—The police shall act under the orders given by the Inspecting Officer on duty under these rules with regard to compelling persons to submit to such arrangements as may be made by the said officer for the purpose of inspection, and with regard to the detention and segregation of persons suffering or suspected to be suffering from bubonic plague.

VIII.—Any person disobeying any of these rules or any orders issued thereunder by the Inspecting Officer shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code, and shall be liable on conviction to be punished with imprisonment of either description for a term which may extend to six months, or with fine which may extend to one thousand rupees or with both.

No. 762.—With reference to this office Notification No. 761, dated the 25th February, 1897, the Officiating Resident is pleased to declare that the rules there prescribed are applicable to the following stations —

Harihar, Yesvantpur — On the Mysore State Railway.
Bangalore Cantonment on the Madras Railway.

2. With reference to rule 3 of the rules aforesaid, the Officiating Resident is pleased, with the concurrence of the Mysore Durbar in the case of officers serving the Mysore State, to appoint the following to be Inspecting Officers for the purposes of the rules, at the stations opposite to their names :—

The Senior Surgeon with the Government of Mysore at Harihar and Yesvantpur.

The Residency Surgeon, Bangalore	at Bangalore Cantonment.
The Health Officer of the Civil and Military Station Municipality	
The Medical Registrar ditto ditto	
The Hospital Assistant at the Civil and Military Station Municipal Chattram	
The Vaccinatrix of the Civil and Military Station Municipality	
The two Hospital Assistants at Harihar Dispensary	at Harihar.
The Female ditto at ditto ditto	
The Hospital Assistant at Yesvantpur Dispensary	at Yesvantpur.
The Female ditto ditto ditto

سنکونا فبري فيوج يعنے تپ بھگانے والے سنکونا *

سنکونا فبري فيوج کلکتہ سے بوٹانکل گارڈن یعنے باغ سے سپرنٹنڈنٹ صاحب سے ہر ایک ملازم سرکاري اور ایک مشت چھہ پونڈ تک لینے والا ہر آدمی حسب ذیل خرید کرسکتا ہی — یعنے چار اونس والا ٹین بقیمت دو روپیہ آٹھہ آنہ؛ آٹھہ اونس والا ٹین بقیمت پانچ روپیہ: ایک پونڈ والا ٹین بقیمت دس روپیہ *

عام آدمیوں کو یہہ دوا بوٹانکل گارڈن یعنے کمپنی باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ ذیل مل سکتي ہی — یعنے چار اونس والا ٹین بقیمت تین روپیہ؛ آٹھہ اونس والا ٹین بقیمت چھہ روپیہ: یک پونڈ والا ٹین بقیمت بارہ روپیہ *

یہہ دوا کلکتہ کے بڑے بڑے ولایتی اور دیسی دواخانوں میں بھی بکتی ہی — ماسوائے قیمت مذکورۂ بالا کے محصول ڈاک چار اونس والے ٹین کو چار آنہ؛ آٹھہ اونس والے ٹین کا آٹھہ آنہ: اور ایک پونڈ والے ٹین کا بارہ آنہ *

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows:—

1-pound tin,	R18,	or, post free,	R18-12.
½	„ R 9,	„	R9-8.
¼	„ R4-8,	„	R5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পোণ্ড টিন	১৮৲	বা ডাকমাশুল বিনা	১৮৲০
½ আধ „ „	৯৲	„	৯৲৮
¼ সিকি „ „	৪৲৮	„	৫৲

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনিডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। কহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

FOR SALE.

Reports on the Inspection of Mines in India during 1893-94 and 1894-95. By JAMES GRUNDY, Inspector of Mines in India (1894 and 1896). Price R1 and R2, respectively.

Drawing Instruments (electrum) are available at the College Book Depôt at R6½ per box. Drawing Instruments, drawing materials, etc., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

ROORKEE TREATISE ON CIVIL ENGINEERING IN INDIA.

Royal Octavo, with numerous Plates.

Volumes I and II are published in separate convenient sized Sections, as below, but can be bound up if required:—

VOLUME I*

Section	I.	Building Materials	(1895),	R2-c.
,,	II.	Masonry	(1891,,	R1-4.
,,	III.	Carpentry	(1889),	R1-4.
,,	IV.	Earthwork	(1892),	R1-4.
,,	V.	Tools and Plant (never published).		

VOLUME II*

Section	VI.	Buildings	(1891),	R1-4.
,,	VII.	Bridges	(in the Press).	
,,	VIII.	Roads	(in the Press).	
,,	IX.	Railways	(1891),	R1-4.
,,	X.	Irrigation Works	(1873),	R1-8.

Roorkee Treatise on Civil Engineering, Vol. II (1867 edition). R3.

ROORKEE MANUAL OF APPLIED MECHANICS.

Vol. I. Direct and Transverse Strain, principally by Analytical Methods. R8.

,, II. The Stability of Structures, mostly by Graphic Methods (in the Press).

MANUALS.

VII. Surveying (by Major Firebrace, R.E.) (6th edition), with Curve Tables (in the Press).

XIII. Drawing (by Lieut. R. Pulford, R.E.).* R8

XIIIa. Drawing, First Principles of Geometrical (by do.) (4th edition). R1-4.

XIV. Simple Applied Mechanics (2nd edition), Parts I and II in one. R5.

Simple Applied Mechanics, Part II (1st edition). 8a.

XV. Examples of Estimating. Comprising a progressive series of Estimates (with Plans of Buildings and Bridges, worked in detail). By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master (5th edition) (in the Press).

XVI. Earthwork Estimating, with Practical Tables and Diagrams. *By Major A. M. Brandreth, R.E. 4a.

XVII. Specimens of Printing used in the College Drawing Course and Entrance Examinations. 6a.

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting Section X, is the course for the Upper Subordinate Class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS.

Curve Tables, complete, for laying any curve. 4a.

Scantlings of Timber for Roofs. Tables and investigation of formulæ for determining size of timbers for Flat Roofs from 8 to 22 feet span, and for Trussed Roofs from 10 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master. R1.

Useful Rules and Tables relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawn Timbers, with Tables, etc. By Rai Kunhya Lal. R2-8.

O'Callaghan's Earthwork Tables for India, in one large sheet, 8a.; mounted on cloth and bound (in the Press). R1-12.

Tables for Computing Earthwork in Distributaries and small open Channels, in use in Irrigation Department, N.-W. Provinces. R1-4.

Tyndall's Hand-Book of Specifications. R5.

The Indian Engineer's Pocket Book. 4a.

Wooden Bridges and Designs. By Rai Kunhya Lal (in the Press).

Blasting under Water (2nd edition). 12a.

Waugh's Instructions for Topographical Surveying R1-4.

Analysis of Lime and Cement Stones. By Murray Thomson, Esq., M.D., F.R.S.E. 6a.

Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet. By F. G. Brook Fox, Esq., M.I.C.E. R2-4.

Graphic Hydraulic Diagram for Channels in earth, etc. By R. G. Kennedy, Esq, Executive Engineer. R7-8

Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width. R1-8

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Seers and Chittacks into decimals of a Maund, and Annas and Pies into decimals of a Rupee. With a few others of general utility (4th edition). R1-8.

Boileau's Tables of Log sin² ½ P (for computing time), 4a.

Cape's Logarithms, with Tables of Squares, Cubes etc. (in the Press).

Cape's Geometry. R1-4.

,, **Mechanics.** R1.

Military Topography. 8a.

HINDUSTANI.

Elements of Hindustani Grammar (in the Press).

Technical Dialogues—English and Urdu. R1.

A Vocabulary of Common and Technical Words in English-Urdu. R1.

History of India (*Itihas Timirnásak*), Hindi, Parts I and II, each part 4a.

Short Account of Ganges Canal (English and Urdu). 8a.

NOTE AND FIELD-BOOKS, etc.

Note-Books (Section paper), large and small. Each R1-4.

Surveying Field-Books (ruled). R1.

Levelling Field-Books (English Pattern). R1-8

,, ,, (Canal ,,). R1-8

,, ,, (College ,,). R2-0

P. W. D. Note-Book. R1-4.

,, **Measurement Book.** R1-4.

Circular Card-board Protractors, 12 inches (exclusive of packing). R1-8.

MISCELLANEOUS.

Distributary Velocity and Discharge Table. By Capt. Allan Cunningham. 8a.

Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thanatophidia of India.") R1-8.

Ditto ditto in Urdu. R1-4.

Perspective (fully explained). By Col. A. M. Brandreth, R.E. R1-12.

Map of Roorkee. R1.

Thomason College Calendar for 1891, 1892, 1894,* and 1895,* each R2.

Ditto ditto for 1896.* R4-12.

* Date of Edition on sale.

* Originally published at R15, reduced to R8.

* These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, Public Works Department.

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depôt. Application to be made to the Curator.

Apparatus for Printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS.

Circulars containing the Rules of Admission to the different Classes of the College will be forwarded to applicants.

J. CLIBBORN, *Lieut.-Col., I.S.C.,*
Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1889, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1879:—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . ₹22-8

	Without postage.			With postage.		
	₹	*a.*	*p.*	₹	*a.*	*p.*
For the Calcutta Series	10	0	0	12	8	0
" each of the Madras, Bombay, and Allahabad Series	0	0	0	7	0	0
" a part of the Calcutta Series purchased separately, *inclusive of postage in India*	...			2	0	0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately, *inclusive of postage in India*	...			1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit:—

	For town.			For mofussil.		
	₹	*a.*	*p.*	₹	*a.*	*p.*
For the Calcutta Series; per copy . .	0	8	9	0	10	3
" each of the Madras, Bombay, and Allahabad Series; per copy . . .	0	5	3	0	5	9
" the Calcutta Series. For the year .	7	2	6	8	6	3
" each of the Madras, Bombay, and Allahabad Series. For the year . .	4	4	6	4	11	3

Persons desiring to subscribe for, or purchase, the Report should apply to—

Superintendent, Government Press, Madras.

The Superintendent, Government Central Press, Bombay.

The Curator of Government Books, North-Western Provinces and Oudh.

The Officer in charge, Bengal Secretariat Book Depôt.

Orders and subscriptions for 1894 should be at once registered and remitted by money-order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance :—

	One page.	*Half page.*	*Quarter page.*
For one issue . . .	₹ 20	₹ 14	₹ 9
,, three issues . . .	,, 55	,, 36	,, 24
,, six ,, . . .	,, 100	,, 68	,, 45
,, nine ,, . . .	,, 145	,, 96	,, 64
,, twelve ,, . . .	,, 180	,, 120	,, 80

Several volumes of the BENGAL LAW REPORTS, from August 1868 to December 1875, and FULL BENCH RULINGS, Parts I and II, are available at the following rates :—

	Without postage.	With postage
	₹ a. p.	₹ a. p.
Bengal Law Reports, for one year . .	20 0 0	22 8 0
Single copies, ₹2 per copy.		
Full Bench Rulings, Parts I and II . .	20 0 0	22 8 0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, ₹22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

Cattle Disease in India. Manual of the more deadly forms of. Hindi version. Royal 8vo., stiff boards. 6*a*

Ditto. Urdu version. Royal 8vo., stiff boards. 6*a.*

A Dictionary of the Economic Products of India.

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Volume VI, Parts I, II, III, & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is R45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, 2 rupees 6 annas per volume. For copies bound in half calf or half morocco, R6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names, habitat or source, history; properties and uses (both chemical and industrial), trade statistics; markets, etc. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries, and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo pages, Volume II embraces the letter C in 689 pages; Volume III contains the letters D, E, F, and half of G; Volume IV, latter half of G to middle of L, and Volume V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI), but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a glossary of the vernacular and European names of the plants, animals, and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

Technical Art Series published up to 1894, together with their explanatory Text—

1886-87, 6 Plates with Text. R1-8 a set (4*a.*)
1888-89, 15 Plates with Text. R4-8 a set (8*a.*)

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 4th March, 1897, and is hereby promulgated for general information —

ACT NO. VI OF 1897.

An Act to amend the Negotiable Instruments Act, 1881.

WHEREAS it is expedient to amend the Negotiable Instruments Act, 1881; It is hereby enacted as follows :—

Short title and commencement

1. (1) This Act may be called the Negotiable Instruments Act Amendment Act, 1897, and

(2) It shall come into force at once.

Amendment of section 72, Act XXVI of 1881

2. To section 72 of the said Act the following words shall be prefixed, namely, "Subject to the provisions of section 84".

Substitution of new section for section 84 Act XXVI of 1881.

3. For section 84 of the said Act the following section shall be substituted, namely :—

When cheque not duly presented and drawer damaged thereby.

"84. (1) Where a cheque is not presented for payment within a reasonable time of its issue, and the drawer or person on whose account it is drawn had the right, at the time when presentment ought to have been made, as between himself and the banker, to have the cheque paid and suffers actual damage through the delay, he is discharged to the extent of such damage, that is to say, to the extent to which such drawer or person is a creditor of the banker to a larger amount than he would have been if such cheque had been paid.

(2) In determining what is a reasonable time, regard shall be had to the nature of the instrument, the usage of trade and of bankers, and the facts of the particular case.

(3) The holder of the cheque as to which such drawer or person is so discharged shall be a creditor, in lieu of such drawer or person, of such banker to the extent of such discharge and entitled to recover the amount from him.

Illustrations.

(a) A draws a cheque for Rs. 1,000, and, when the cheque ought to be presented, has funds at the bank to meet it. The bank fails before the cheque is presented. The drawer is discharged, but the holder can prove against the bank for the amount of the cheque.

(b) A draws a cheque at Umbala on a bank in Calcutta. The bank fails before the cheque could be presented in ordinary course. A is not discharged, for he has not suffered actual damage through any delay in presenting the cheque.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1897 :—

No. 7 OF 1897.

A Bill to amend the Indian Stamp Act, 1879.

WHEREAS it is expedient to amend the Indian Stamp Act, 1879. It is hereby enacted as follows :—

Addition of new section after section 7A, Act I, 1879

1. After section 7A of the Indian Stamp Act, 1879, as amended by Act No. VI of 1894, section 2, the following section shall be added, namely :—

Bonds, debentures or other certificates issued on loans under Act XI, 1879

"7B. (1) Notwithstanding anything in this Act, any local authority raising a loan under the provisions of the Local Authorities Loan Act, 1879, or of any other law for the time being in force, by the issue of bonds, debentures or other certificates, shall, in respect of such loan, be chargeable with a duty of eight annas per centum on the total amount of the bonds, debentures or other certificates issued by it, and such bonds, debentures or other certificates need not be stamped and shall not be chargeable with any further duty on renewal, consolidation, subdivision or otherwise.

"(2) The provisions of sub-section (1) exempting certain bonds, debentures or other certificates from being stamped and from being chargeable with certain further duty shall apply to the bonds, debentures or other certificates of all outstanding loans of the kind mentioned therein, and all such bonds, debentures or other certificates shall be valid, whether the same are stamped or not :

"Provided that nothing herein contained shall exempt the local authority which has issued such bonds, debentures or other certificates from the duty chargeable in respect thereof under the Indian Stamp Act, 1879, prior to its amendment by this Act, when such duty has not already been paid or remitted by order issued under that Act."

Amendment of No. 60 and addition of new No. 60A in Schedule I, Act I of 1879.

2. In Schedule I, No. 60, of the said Act, the word "Lease" wherever it occurs, is hereby repealed ; and after the said No. 60 the following shall be added, namely :—

"60A.	**TRANSFER OF LEASE** by way of assignment and not by way of under-lease.	The same duty as a Conveyance (No. 21).

STATEMENT OF OBJECTS AND REASONS.

THIS Bill contemplates two small, but by no means unimportant, amendments in the Stamp Law, and it is, in the opinion of the Government of India, very desirable that they should be given effect to without delay.

2. The first clause purports to add a new section to the Indian Stamp Act, 1879, providing that the bonds or debentures issued by a local authority need not be separately stamped, either in the first instance or on renewal, subdivision, consolidation or otherwise, but that all that is necessary is for the local authority concerned to pay once for all the *ad valorem* stamp duty (eight annas per cent.) chargeable on the total amount covered by the bonds or debentures. It is further proposed to apply the same provisions to bonds or debentures already issued in respect of outstanding loans raised by local authorities, on the understanding that the full duty leviable under the Act as it now stands shall have been either paid or remitted by an order issued under section 8.

3. The object of the remaining clause is to remove a flaw in Act I of 1879, which has probably resulted in the loss of a considerable amount of stamp-revenue. The assignment of a lease is at present chargeable with the low rate of duty fixed by No. 60 in Schedule I to the Act, and this provision enables conveyances of large and valuable lease-hold estates to be transferred with a merely nominal stamp-duty. It is proposed to add to the schedule a separate No. (60A) expressly providing for this, the references to leases in No. 60 being at the same time repealed.

J. WESTLAND.

The 2nd March, 1897.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the law relating to Government and other Provident Funds was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1897 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the law relating to Government and other Provident Funds was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

From Chief Commissioner, Coorg, No. 1686, dated 12th November, 1896 [Paper No. 1].
From Chief Commissioner, British Baluchistan, No. 8191, dated 14th November, 1896, and enclosure [Papers No. 2].
From Chief Commissioner, Assam, No. 192-L. & L.—4764-J., dated 16th November, 1896 [Paper No. 3].
From Resident, Hyderabad, No. 357, dated 28th November, 1896, and enclosures [Papers No. 4].
From High Court, Calcutta, No. 2739, dated 7th December, 1896 [Paper No. 5].
From Government, Bengal, No. 5864-F, dated 9th December, 1896, and enclosures [Papers No. 6].
From Chief Commissioner, Central Provinces, No. 8364, dated 3rd December, 1896 [Paper No. 7].
From Chief Commissioner, Ajmere-Merwara, No. 1456, dated 12th December, 1896 [Paper No. 8].
From Government, North-Western Provinces and Oudh, No. 1637, dated 12th December, 1896, and enclosures [Papers No. 9].
From Chief Commissioner, Burma, No. 507—2 P.-25, dated 11th December, 1896, and enclosures [Papers No. 10].
From President, Board of Directors, Punjab Mutual Hindu Family Relief Fund, Lahore, dated 10th December, 1896 [Paper No 11].
From Government, Punjab and its Dependencies, No. 2363, dated 18th December, 1896, and enclosures [Papers No 12].
From Government, Bombay, No. 4513, dated 23rd December, 1896, and enclosures [Papers No. 13].
From Government, Madras, No. 873, dated 14th December, 1896, and enclosures [Papers No. 14].
From Directors, North-Western Provinces and Oudh Mutual Hindu Family Relief Fund, Dehra Dun, dated 31st December, 1896, and enclosures [Papers No 15].
From Honorary Secretary, Sind Mutual Hindu Family Relief Fund, dated 13th January, 1897 [Paper No. 16].
From Deputy Chairman, Mutual Hindu Family Pension Fund, Calcutta, dated 3rd February, 1897 [Paper No. 17].
From Chairman, Writers' Building Provident Benefit Fund, Calcutta, dated 4th February, 1897 [Paper No. 18].
From Directors, Muhammadan Mutual Family Relief Association, Lahore [Paper No. 19].

2. *Clause 1.*—The amendments in this clause are drafting amendments.

3. *Clause 2.*—In sub-clause (2) we have altered "Government of India" into "Government" in order to extend the benefit of the proposed Act to funds under provincial Governments.

Sub-clause (3).—We have inserted the words "or tramway" to make it clear that the definition applies to tramways as well as railway funds, and we have provided for railway companies who contract with the Secretary of State in Council as well as for those which contract with the Government of India.

Sub-clause (4).—We have added the words "or increment" after "interest" in consequence of a suggestion made to us.

4. *Clause 3.*—Following the analogy of the Friendly Societies Act, 1896 (59 and 60 Vict., c. 25), we have provided that payment is primarily to be made to the persons designated by the rules of the fund or to a nominee of the depositor and not to his personal representatives. This will facilitate the speedy distribution of small funds to the persons for whose benefit they are accumulated.

Sums above Rs. 2,000 are not dealt with by this Bill, but we have inserted a saving to show that we have no intention of interfering with rules covering larger sums so far as those rules may be consistent with the existing law.

5. *Clause 4.*—We have made some verbal amendments and further inserted provisions protecting compulsory deposits from the operation of the Insolvency laws. This is in accordance with a suggestion made by the Secretary of State.

6. We have been asked to extend the proposed Act to various Mutual Societies which have sprung up in different parts of the country, but we do not see our way to doing so, because the main principle of the Bill is to protect deposits which are compulsory under the terms of the depositor's service. Contributions to these societies, which are wholly uncontrolled, must be regarded as on the same footing as any other voluntary insurances.

No. II.

A Bill to amend the law relating to Government and other Provident Funds.

WHEREAS it is expedient to amend the law relating to Government and other Provident Funds; It is hereby enacted as follows :—

Title, extent and commencement.

1. (*1*) This Act may be called the Provident Funds Act, 1897.

(*2*) It extends to the whole of British India, *including Upper Burma and British Baluchistan*; and

(*3*) It shall come into force at once.

Definitions.

2. In this Act—

(*1*) "Provident Fund" means a fund in which the subscriptions or deposits of any class or classes of employees are received and held on their individual accounts, and includes any contributions credited in respect of, and any interest accruing on, such subscriptions or deposits under the rules of the Fund:

(*2*) "Government Provident Fund" means a Provident Fund constituted by the authority of the Government for any class or classes of its employees

(*3*) "Railway Provident Fund" means a Provident Fund constituted by the authority of the Government of India or of any company which administers a railway *or tramway* in British India, either under a special Act of Parliament or under contract with the *Secretary of State in Council or the* Government of India, for any class or classes of the employees on, or in connection with, such railway *or tramway*; and

(*4*) "compulsory deposit" means a subscription or deposit which is not repayable on the demand, or at the option, of the subscriber or depositor, and includes any contribution which may have been credited in respect of, and any interest *or increment* which may have accrued on, such subscription or deposit under the rules of the Fund.

Payment from Government or Railway Provident Fund on death of subscriber or depositor.

3. (*1*) When a subscriber to, or depositor in, any Government or Railway Provident Fund dies and the sum standing to his credit in the books of the Fund does not exceed two thousand rupees, the officer *or person* whose duty it is to *make payment of such sum* may pay it as follows :—

(*a*) he may pay it to any person entitled to receive it according to the rules of the Fund or, in the absence of any rule of the Fund to the contrary, to any person nominated in writing by the deceased subscriber or depositor to receive it;

(*b*) in any case not hereinbefore provided for he may pay it to any person appearing to him to be entitled to receive it.

(*2*) The provisions of sub-section (*1*) *shall* apply to any *such* sum which, at the commencement of this Act, stands to the credit of any subscriber or depositor already deceased.

(*3*) *Nothing in this section shall affect the validity of the rules of any Fund in so far as such rules may provide for the disposal of sums exceeding two thousand rupees.*

Government and Railway Provident Funds not to be attached.

4. After the commencement of this Act, the compulsory deposits in any Government or Railway Provident Fund shall not be liable to attachment under any decree or order of a Court of Justice *in respect of any debt or liability incurred by* a subscriber to, or depositor in, such Fund, *and neither the Official Assignee, nor a Receiver appointed under Chapter XX of the Code of Civil Procedure, shall be entitled to, or have any claim on, any such compulsory deposit.*

Protection for anything done in good faith under this Act

5. No suit or other legal proceeding shall lie against any person in respect of anything done or in good faith intended to be done in pursuance of the provisions of this Act.

Power to extend Act to other Provident Funds.

6. The Governor General in Council may, in his discretion, by notification in the official Gazette, extend the provisions of this Act to any Provident Fund established for the benefit of its employees by any loc authority within the meaning of the Loc Authorities Loan Act, 1879.

Saving as to estates of soldiers.

7. Nothing in section 3 shall apply to mone belonging to the estate any European officer, no commissioned officer soldier dying in Her Majesty's service in Indi or of any European who at the time of his dea was a deserter from such service.

J. M. MACPHERSON,
Secretary to the Government of Indi

V B

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to consolidate and extend the General Clauses Acts, 1868 and 1887, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th March, 1897 :—

WE, the undersigned, Members of the Select Committee to which the Bill to consolidate and extend the General Clauses Acts, 1868 and 1887, was referred, have considered the measure and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2 The amendments which we have deemed it necessary to suggest, are not numerous, and all are briefly explained by the following remarks :—

Clause 3 (16).—We have inserted the word "written" before the word "expressed" in the definition of a "document," in order to draw the provisions of clause 3 (*61*) [clause 3 (*58*) of the amended Bill] and so to indicate that a photograph, for example, may fall within the meaning of the term. It will be observed that in section 3 of the Indian Evidence Act, 1872, from which the definition has been taken, the addition of an illustration appears to have been thought desirable to make the intention clear.

Clause 3 (20) of the Bill as introduced.—We have decided to recommend the omission of any definition of the expression "Gazette." It will, we believe, always be found useful to indicate as precisely as possible the manner in which any publication required by an Act of the Legislature is to be made.

Clause 3 (25) of the Bill as introduced.—We have, in clause 3 (*24*) of the amended Bill, avoided all attempt at defining the expression "High Court" when used with reference to criminal proceedings, and confined the definition, as in section 2 (*11*) of the General Clauses Act (I of 1868), to the expression in its relation to civil proceedings. The jurisdictional arrangements, especially in connection with the Court of the Recorder of Rangoon and the Criminal Courts in Burma generally, are in some respects extremely complicated, and we have, therefore, come to the conclusion that it is wiser to adopt this course.

Clause 3 (27) of the Bill as introduced.—The declaratory definition of the word "notice" we think it safer on the whole to omit, leaving it to be expressly provided on each occasion, if considered necessary, that a notice must be given in writing.

Clause 3 (42) of the Bill as introduced.—The change which we have made in the definition of "Political Agent" [clause 3 (*40*) of the revised Bill], is purely formal.

Clause 3 (55) of the Bill as introduced.—In the definition of "son" [clause 3 (*53*) of the amended Bill] we have merely transposed the words so as to make the form correspond exactly with that of the definition of "father."

Clause 3 (58) of the Bill as introduced.—The expression "value" is used in varying senses and for various purposes, and we consider that neither the definition in section 3 (*13*) of the General Clauses Act (I of 1887) nor yet that in the Bill is likely to serve any good purpose. We would not attempt any definition of the word, and have, therefore, omitted clause 3 (*58*) of the Bill as introduced in Council.

Clause 4.—The omission of the parenthesis "(used with reference to civil proceedings)" and the word "value" needs no further explanation.

Clause 6.—We propose to adhere more closely to the wording of the Interpretation Act, 1880, section 38, by substituting the phrase "unless a different intention appears" for the phrase "unless the contrary is expressed" in the Bill as introduced. It is most desirable to have our law in this particular connection as much as possible in line with that approved in England, and we have, therefore, left the clause practically reproducing the whole of the English section; but we desire, at the same time, to take the opportunity to point out, with reference to the last sub-clause, that in this country it will probably be necessary in some cases expressly to lay down a rule differing from that recognized by the English Statute. Thus, in the present Code of Civil Procedure it is provided that certain proceedings taken in pursuance of a right accrued under the former Code shall be taken in accordance with the new provisions and not with those repealed, and it will very likely be deemed expedient to reproduce that in revising and re-enacting Act XIV of 1882.

The second paragraph of this clause we have on further consideration thought it right to delete. It may be that, without any such provision, it would be held that the effect is the same when an enactment expires as when it is repealed; but on the other hand it is conceivable that there might be cases in which, for example, it would be better not to allow a person to be proceeded against after the expiry of a temporary, and possibly very stringent, enactment, although he acted in contravention of it during the period for which it was expressed to endure.

Clause 13.—The addition which we have here prefixed, will explain itself. It will be observed that we have deemed it unnecessary to place any limitation upon the application of the familiar rules laid down by the clause.

Clause 15.—We think that it will prove convenient, and is unobjectionable, to make this clause apply to appointments hereafter made, even if they be made under the provisions of enactments passed before the commencement of the proposed Act. We have, therefore, here slightly altered the language and arrangement.

Clause 20.—The presence of the word "warrant" in the Indian Statute-book might cause confusion in this connection. We have, therefore, struck it out, and at the same time inserted a reference to "forms".

Clause 24.—An amendment similar to that explained above in the case of clause 20 has been made here also. We have further suggested an addition towards the end of the clause to make the provision more comprehensive.

Clause 26.—We have left this standing, but we think that its proper place is in the Indian Penal Code, and we trust that, when that is consolidated, the provision here will be repealed and reproduced in the new Code.

Clause 27.—It seems to us that this had better be limited so as to apply only to Acts passed after the commencement of the proposed Act, and we have amended the clause accordingly.

THE SCHEDULE.

ENACTMENTS REPEALED.

A Bill to consolidate and extend the General Clauses Acts, 1868 and 1887.

WHEREAS it is expedient to consolidate and extend the General Clauses Acts, 1868 and 1887; It is hereby enacted as follows:— [I of 1868. I of 1887.

Preliminary.

Short title and commencement.

1. (*1*) This Act may be called the General Clauses Act, 1897; and

(*2*) It shall come into force at once.

Repeal.

2. The Acts mentioned in the schedule are repealed to the extent specified in the fourth column thereof.

General Definitions.

Definitions.

3. In this Act, and in all Acts of the Governor General in Council and Regulations made after the commencement of this Act, unless there is anything repugnant in the subject or context,—

"Abet."

(*1*) "abet," with its grammatical variations and cognate expressions, shall have the same meaning as in the Indian Penal Code: [I of 1887, s. 3 (*1*).] XLV of 1860.

"Act."

(*2*) "act," used with reference to an offence or a civil wrong, shall include a series of acts, and words which refer to acts done extend also to illegal omissions: [*Cf.* XLV of 1860, ss. 32 and 33, and Mad. Act I of 1891, s. 3 (*36*).]

"Affidavit."

(*3*) "affidavit" shall include affirmation and declaration in the case of persons by law allowed to affirm or declare instead of swearing: [I of 1868, s. 2 (*17*).]

"Barrister."

(*4*) "barrister" shall mean a barrister of England or Ireland, or a member of the Faculty of Advocates in Scotland: [I of 1868, s. 2 (*14*).]

"Bengal Act."

(*5*) "Bengal Act" shall mean an Act made by the Lieutenant-Governor of Bengal in Council under the Indian Councils Acts, 1861 and 1892: 24 & 25 Vict., c. 67; 55 & 56 Vict., c. 14.

"Bombay Act."

(*6*) "Bombay Act" shall mean an Act made by the Governor of Bombay in Council under the Indian Councils Acts, 1861 and 1892: 24 & 25 Vict., c. 67; 55 & 56 Vict., c. 14.

"British India."

(*7*) "British India" shall mean all territories and places within Her Majesty's dominions which are for the time being governed by Her Majesty through the Governor General of India or through any Governor or other officer subordinate to the Governor General of India: [52 & 53 Vict., c. 63, s. 18 (*4*); *cf.* I of 1868, s. 2 (*8*).]

"British possession." (8) "British possession" shall mean any part of Her Majesty's dominions, exclusive of the United Kingdom, and, where parts of those dominions are under both a central and a local legislature, all parts under the central legislature shall, for the purposes of this definition, be deemed to be one British possession: [52 & 53 Vict., c. 63, s. 18 (2).]

"Chapter." (9) "Chapter" shall mean a Chapter of the Act or Regulation in which the word occurs: [I of 1887, s. 3 (2).]

"Collector." (10) "Collector" shall mean, in a Presidency-town, the Collector of Calcutta, Madras or Bombay, as the case may be and, elsewhere, the chief officer in charge of the revenue administration of a district: [Cf. Bo. Act III of 1886, s. 3 (12), and N.-W. P. & O. Act I of 1887, s. 2 (12).]

"Colony." (11) "Colony" shall mean any part of Her Majesty's dominions, exclusive of the British Islands and of British India, and, where parts of those dominions are under both a central and a local legislature, all parts under the central legislature shall, for the purposes of this definition, be deemed to be one colony: [52 & 53 Vict., c. 63 s. 18 (3).]

"Commencement." (12) "commencement," used with reference to an Act or Regulation, shall mean the day on which the Act or Regulation comes into force; [I of 1887, s. 3 (4).]

"Commissioner" (13) "Commissioner" shall mean the chief officer in charge of the revenue administration of a division: [N.-W. P. & O. Act I of 1887, s. 2 (11).]

"Consular officer." (14) "consular officer" shall include consul-general, consul, vice-consul, consular agent, pro-consul and any person for the time being authorized to perform the duties of consul-general, consul, vice-consul or consular agent: [54 & 55 Vict., c. 36, s. 3.]

"District Judge." (15) "District Judge" shall mean the Judge of a principal Civil Court of original jurisdiction, but shall not include a High Court in the exercise of its ordinary or extraordinary original civil jurisdiction: [I of 1868, s. 2 (12).]

"Document." (16) "document" shall include any matter *written*, expressed or described upon any substance by means of letters, figures or marks, or by more than one of those means, which is intended to be used, or which may be used, for the purpose of recording that matter: [I of 1872, s. 3.]

"Enactment." (17) "enactment" shall include a Regulation (as hereinafter defined) and any Regulation of the Bengal, Madras or Bombay Code, and shall also include any provision contained in any Act or in any such Regulation as aforesaid:

"Father."	(18)	"father", in the case of any one whose personal law permits adoption, shall include an adoptive father:	[*Cf.* I of 1868, s. 2 (19).]
"Financial year."	(19)	"financial year" shall mean the year commencing on the first day of April:	[I of 1887, s. 3 (5).]
"Good faith."	(20)	a thing shall be deemed to be done in "good faith" where it is in fact done honestly, whether it is done negligently or not:	[45 & 46 Vict., c. 61, s. 90; 56 & 57 Vict., c. 71, s. 62.]
"Government."	(21)	"Government" or "the Government" shall include the Local Government as well as the Government of India:	[*Cf.* XIV of 1882, s. 2.]
"Government of India."	(22)	"Government of India" shall mean the Governor General in Council or, during the absence of the Governor General from his Council, the President in Council, or the Governor General alone, as regards the powers which may be lawfully exercised by them or him respectively:	[I of 1868, s. 2 (9).]
"Her Majesty" or "the Queen."	(23)	"Her Majesty" or "the Queen" shall include Her successors:	[*Cf.* I of 1868, s. 2 (7).]
"High Court."	(24)	"High Court," used with reference to civil proceedings, shall mean the highest Civil Court of appeal in the part of British India in which the Act or Regulation containing the expression operates:	[I of 1868, s. 2 (11).]
"Immoveable property."	(25)	"immoveable property" shall include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth:	[I of 1868, s. 2 (5).]
"Imprisonment."	(26)	"imprisonment" shall mean imprisonment of either description as defined in the Indian Penal Code;	[I of 1868, s. 2 (18).] XLV of 1860.
"India."	(27)	"India" shall mean British India, together with any territories of any Native Prince or Chief under the suzerainty of Her Majesty exercised through the Governor General of India or through any Governor or other officer subordinate to the Governor General of India:	[*Cf.* 52 & 53 Vict., c. 63, s 18 (5).]
"Local authority."	(28)	"local authority" shall mean a municipal committee, district board, body of port commissioners or other authority legally entitled to, or entrusted by the Government with, the control or management of a municipal or local fund:	[I of 1887, s. 3 (5).]
"Local Government."	(29)	"Local Government" shall mean the person authorized by law to administer executive government in the part of British India in which the Act or Regulation containing the expression operates, and shall include a Chief Commissioner;	[I of 1868, s. 2 (10).]
"Madras Act."	(30)	"Madras Act" shall mean an Act made by the Governor of Fort St. George in Council under the Indian Councils Acts, 1861 and 1892:	24 & 25 Vict., c. 67; 55 & 56 Vict., c. 14.
"Magistrate."	(31)	"Magistrate" shall include every person exercising all or any of the powers of a Magistrate under the Code of Criminal Procedure for the time being in force:	[I of 1868, s. 2 (13).] X of 1882.

"Master" (of a ship). (32) "master," used with reference to a ship, shall mean any person (except a pilot or harbour-master) having for the time being control or charge of the ship: [I of 1887, s. 3 (8).]

"Month." (33) "month" shall mean a month reckoned according to the British Calendar: [I of 1868, s. 2 (4).]

"Moveable property." (34) "moveable property" shall mean property of every description, except immoveable property: [I of 1868, s. 2 (6).]

"North-Western Provinces and Oudh Act." (35) "North-Western Provinces and Oudh Act" shall mean an Act made by the Lieutenant-Governor of the North-Western Provinces and Oudh in Council under the Indian Councils Acts, 1861 and 1892: 24 & 25 Vict., c. 67; 55 & 56 Vict., c. 14.

"Oath." (36) "oath" shall include affirmation and declaration in the case of persons by law allowed to affirm or declare instead of swearing: [I of 1868, s. 2 (17).]

"Offence." (37) "offence" shall mean any act or omission made punishable by any law for the time being in force: [I of 1887, s. 3 (9).]

"Part." (38) "Part" shall mean a Part of the Act or Regulation in which the word occurs: [I of 1887, s. 3 (2).]

"Person." (39) "person" shall include any company or association or body of individuals, whether incorporated or not: [I of 1868, s. 2 (3).]

"Political Agent." (40) "Political Agent" shall *include*— [*Cf.* XXI of 1879, s. 3 and X of 1882, s. 190.]

(*a*) the principal officer representing the Government in any territory or place beyond the limits of British India, and

(*b*) any officer of the Government of India or of any Local Government appointed by the Government of India or the Local Government to exercise all or any of the powers of a Political Agent for any place not forming part of British India under the law for the time being in force relating to foreign jurisdiction and extradition:

"Presidency-town." (41) "Presidency-town" shall mean the local limits for the time being of the ordinary original civil judicature of the High Court of Judicature at Fort William, Madras or Bombay, as the case may be: [X of 1882, s. 4 (*h*); *cf.* Mad. Act I of 1891, s. 3 (25).]

"Privy Council." (42) "Privy Council" shall mean the Lords and others for the time being of Her Majesty's Most Honourable Privy Council: [52 & 53 Vict., c. 63, s. 12 (5).]

"Province." (43) "province" shall mean the territories for the time being administered by any Local Government: [X of 1882, s. 4 (*f*).]

"Public nuisance." (44) "public nuisance" shall mean a public nuisance as defined in the Indian Penal Code: [I of 1887, s. 3 (10).] XLV of 1860.

"Registered." (45) "registered," used with reference to a document, shall mean registered in British India under the law for the time being in force for the registration of documents: [I of 1887, s. 3 (11); *cf.* Mad. Act I of 1891, s. 3 (28).]

"Regulation." (46) "Regulation" shall mean a Regulation made under the Government of India Act, 1870 : [33 Vict., c. 3.]

"Rule." (47) "rule" shall mean a rule made in exercise of a power conferred by any enactment, and shall include a regulation made as a rule under any enactment :

"Schedule." (48) "schedule" shall mean a schedule to the Act or Regulation in which the word occurs : [I of 1887, s. 3 (2).]

"Scheduled District." (49) "Scheduled District" shall mean a "Scheduled District" as defined in the Scheduled Districts Act, 1874 : [*Vide* XIV of 1874, s. 1, para. 3.] XIV of 1874.

"Section." (50) "section" shall mean a section of the Act or Regulation in which the word occurs : [I of 1868, s. 2 (15).]

"Ship." (51) "ship" shall include every description of vessel used in navigation not exclusively propelled by oars : [I of 1887, s. 3 (7).]

"Sign." (52) "sign," with its grammatical variations and cognate expressions, shall, with reference to a person who is unable to write his name, include "mark", with its grammatical variations and cognate expressions : [I of 1887, s. 3 (12).]

"Son." (53) "son", in the case of any one whose personal law permits adoption, shall include an adopted son : [*Cf.* I of 1868, s. 2 (19).]

"Sub-section." (54) "sub-section" shall mean a sub-section of the section in which the word occurs : [I of 1887, s. 3 (3).]

"Swear." (55) "swear", with its grammatical variations and cognate expressions, shall include affirming and declaring in the case of persons by law allowed to affirm or declare instead of swearing : [*Cf.* I of 1868, s. 2 (17).]

"Vessel." (56) "vessel" shall include any ship or boat or any other description of vessel used in navigation : [57 & 58 Vict., c. 60, s. 742; *cf.* XLV of 1860, s. 48.]

"Will." (57) "will" shall include a codicil and every writing making a voluntary posthumous disposition of property : [*cf.* I of 1868, s. 2 (16).]

"Writing." (58) expressions referring to "writing" shall be construed as including references to printing, lithography, photography and other modes of representing or reproducing words in a visible form : and [52 & 53 Vict., c 63, s. 20 ; *cf.* I of 1887, s. 3 (14).]

"Year." (59) "year" shall mean a year reckoned according to the British calendar. [I of 1868, s. 2 (4).]

Application of foregoing definitions to previous enactments.

4. (1) The definitions in section 3 of the following words and expressions, that is to say, "affidavit," "barrister," "British India," "District Judge," "father," "Government of India," "Her Majesty" or "the Queen," "High Court", "immoveable property," "imprisonment," "Local Government," "Magistrate," "month," "moveable property," "oath," "person," "section," "son," "swear," "will" and "year," apply also, unless there is anything repugnant in the subject or context, to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887. [*Vide* I of 1868, s. 2, and I of 1887, s. 10.]

(2) The definitions in the said section of the following words and expressions, that is to say, "abet," "Chapter," "commencement," "financial year," "local authority," "master," "offence," "Part," "public nuisance," "registered," "schedule," "ship," "sign," "sub-section" and "writing," apply also, unless there is anything repugnant in the subject or context, to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887. [*Vide* I of 1887.]

General Rules of Construction.

Coming into operation of enactments.

5. (1) Where any Act of the Governor General in Council is not expressed to come into operation on a particular day, then it shall come into operation on the day of which it receives the assent of the Governor General. [*Cf.* Bo. Act III of 1886, s. 10.]

(2) Where any Act of the Governor General in Council is reserved under the Indian Councils Act, 1861, section 20, for the signification of Her Majesty's pleasure thereon, then, if no later date is expressed, it shall come into operation, if assented to by Her Majesty, on the day on which the assent of Her Majesty is duly proclaimed. 24 & 25 Vict., c. 67.

(3) Unless the contrary is expressed, an Act of the Governor General in Council or Regulation shall be construed as coming into operation immediately on the expiration of the day preceding its commencement. [52 & 53 Vict., c. 63, s. 36 (2).]

6. Where this Act, or any Act of the Governor General in Council or Regulation made after the commencement of this Act, repeals any enactment hitherto made or hereafter to be made, then, unless *a different intention appears*, the repeal shall not— [52 & 53 Vict., c. 63 s. 38; *cf.* Mad. Act I of 1891, s. 8.]

(*a*) revive anything not in force or existing at the time at which the repeal takes effect; or

(*b*) affect the previous operation of any enactment so repealed or anything duly done or suffered thereunder; or

(*c*) affect any right, privilege, obligation or liability acquired, accrued or incurred under any enactment so repealed; or

(*d*) affect any penalty, forfeiture or punishment incurred in respect of any offence committed against any enactment so repealed; or

(*e*) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as aforesaid;

and any such investigation, legal proceeding or remedy may be instituted, continued or enforced, and any such penalty, forfeiture or punishment may be imposed as if the repealing Act or Regulation had not been passed.

Revival of repealed enactments.

7. (*1*) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be necessary, for the purpose of reviving, either wholly or partially, any enactment wholly or partially repealed, expressly to state that purpose. [I of 1868, s. 3 (*1*).]

(*2*) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Construction of references to repealed enactments.

8. (*1*) Where this Act, or any Act of the Governor General in Council or Regulation made after the commencement of this Act, repeals and re-enacts, with or without modification, any provision of a former enactment, then references in any other enactment or in any instrument to the provision so repealed shall, unless a different intention appears, be construed as references to the provision so re-enacted. [*Cf.* 52 & 53 Vict., c. 63, s. 38 (*1*).]

Commencement and termination of time.

9. (*1*) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of excluding the first in a series of days or any other period of time, to use the word "from," and, for the purpose of including the last in a series of days or any other period of time, to use the word "to." [I of 1868, s. 3 (*2*) and s. 3 (*3*).]

(*2*) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Computation of time.

10. (*1*) Where, by any Act of the Governor General in Council or Regulation made after the commencement of this Act, any act or proceeding is directed or allowed to be done or taken in any Court or office on a certain day or within a prescribed period, then, if the Court or office is closed on that day or the last day of the prescribed period, the act or proceeding shall be considered as done or taken in due time if it is done or taken on the next day afterwards on which the Court or office is open: [Madras Act I of 1891, s. 11; *cf.* I of 1887, s. 7 (*1*), and s. 7 (*2*).]

Provided that nothing in this section shall apply to any act or proceeding to which the Indian Limitation Act, 1877, applies. XV of 1877.

(*2*) This section applies also to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887.

Measurement of distances.

11. In the measurement of any distance, for the purposes of any Act of the Governor General in Council or Regulation made after the commencement of this Act, that distance shall, unless a different intention appears, be measured in a straight line on a horizontal plane. [*Cf.* 52 & 53 Vict., c. 63, s. 34, and Bo. Act III of 1888, s. 524.]

Duty to be taken *pro rata* in enactments.

12. Where, by any enactment now in force or hereafter to be in force, any duty of customs or excise, or in the nature thereof, is leviable on any given quantity, by weight, measure or value [I of 1868, s. 4.]

of any goods or merchandize, then a like duty is leviable according to the same rate on any greater or less quantity.

Gender and number.

13. *In all Acts of the Governor General in Council and Regulations, unless there is any thing repugnant in the subject or context,*— [1 of 1868, s. (1) and (2).]

(1) words importing the masculine gender shall be taken to include females; *and*

(2) words in the singular shall include the plural, and *vice versâ*.

Powers and Functionaries.

Powers conferred on the Government to be exercisable from time to time.

14. (1) Where, by any Act of the Governor General in Council or Regulation made after the commencement of this Act, any power is conferred on the Government, then that power may be exercised from time to time as occasion requires. [1 of 1887, s. 5.]

(2) This section applies also to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887.

Power to appoint to include power to appoint *ex officio*.

15. Where, by any Act of the Governor General in Council or Regulation, a power to appoint any person to fill any office or execute any function is conferred, then, unless it is otherwise expressly provided, any such appointment, *if it is made after the commencement of this Act*, may be made either by name or by virtue of office.

Power to appoint to include power to suspend or dismiss.

16. Where, by any Act of the Governor General in Council or Regulation, a power to make any appointment is conferred, then, unless a different intention appears, the authority having power to make the appointment shall also have power to suspend or dismiss any person appointed by it in exercise of that power.

Substitution of functionaries.

17. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of indicating the application of a law to every person or number of persons for the time being executing the functions of an office, to mention the official title of the officer at present executing the functions, or that of the officer by whom the functions are commonly executed. [1 of 1868, s. 3 (6).]

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Successors.

18. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of indicating the relation of a law to the successors of any functionaries or of corporations having perpetual succession, to express its relation to the functionaries or corporations. [1 of 1868 s. 3 (5).]

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Official chiefs and subordinates.

19. (*1*) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of expressing that a law relative to the chief or superior of an office shall apply to the deputies or subordinates lawfully performing the duties of that office in the place of their superior, to prescribe the duty of the superior. [I of 1868, s. 3 (*4*).]

(*2*) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Provisions as to Orders, Rules, etc., made under Enactments.

Construction of orders, etc., issued under enactments.

20. Where, by any Act of the Governor General in Council or Regulation, a power to issue any order, scheme, rule, *form* or bye-law is conferred, then expressions used in the *order*, *scheme*, *rule*, *form* or *bye-law*, if it is made after the commmencement of this Act, shall, unless there is anything repugnant in the subject or context, have the same respective meanings as in the Act or Regulation conferring the power. [*Cf.* 52 & 53 Vict., c. 63, s. 31, and Mad. Act I of 1891, s. 10.]

Power to make, to include power to add to, amend, vary or rescind, orders, rules or bye-laws.

21. Where, by any Act of the Governor General in Council or Regulation, a power to make orders, rules or bye-laws is conferred, then that power includes a power, exercisable in the like manner and subject to the like sanction and conditions (if any), to add to, amend, vary or rescind any orders, rules or bye-laws so made. [*Cf.* Mad. Act I of 1891, s. 15.]

Making of rules or bye-laws and issuing of orders, between passing and commencement of enactment.

22. Where, by any Act of the Governor General in Council or Regulation which is not to come into force immediately on the passing thereof, a power is conferred to make rules or bye-laws, or to issue orders with respect to the application of the Act or Regulation, or with respect to the establishment of any Court or office or the appointment of any Judge or officer thereunder, or with respect to the person by whom, or the time when, or the place where, or the manner in which, or the fees for which, anything is to be done under the Act or Regulation, then that power may be exercised at any time after the passing of the Act or Regulation; but rules, bye-laws or orders so made or issued shall not take effect till the commencement of the Act or Regulation. [I of 1887, s. 4.]

Provisions applicable to making of rules or bye-laws after previous publication.

23. Where, by any Act of the Governor General in Council or Regulation, a power to make rules or bye-laws is expressed to be given subject to the condition of the rules or bye-laws being made after previous publication, then the following provisions shall apply, namely :— [I of 1887, s. 6.]

(*1*) the authority having power to make the rules or bye-laws shall, before making them, publish a draft of the proposed rules or bye-laws for the information of persons likely to be affected thereby ·

(*a*) the publication shall be made in such manner as that authority deems to be sufficient, or, if the condition with respect to previous publication so requires, in such manner as the Governor General in Council or the Local Government prescribes ;

(*3*) there shall be published with the draft a notice specifying a date on or after which the draft will be taken into consideration ;

(*4*) the authority having power to make the rules or bye-laws, and, where the rules or bye-laws are to be made with the sanction, approval or concurrence of another authority, that authority also, shall consider any objection or suggestion which may be received by the authority having power to make the rules or bye-laws from any person with respect to the draft before the date so specified ;

(*5*) the publication in the Gazette of a rule or bye-law purporting to have been made in exercise of a power to make rules or bye-laws after previous publication shall be conclusive proof that the rule or bye-law has been duly made.

Continuation of orders, etc., issued under enactments repealed and re-enacted.

24. Where any Act of the Governor General in Council or Regulation is, after the commencement of this Act, repealed and re-enacted with or without modification, then, unless it is otherwise expressly provided, any order, scheme, rule, *form* or bye-law, issued under the repealed Act or Regulation, shall, so far as it is not inconsistent with the provisions re-enacted, continue in force, *and be deemed to have been issued under the provisions so re-enacted*, unless and until it is superseded by any *order, scheme, rule, form or bye-law* issued under the provisions so re-enacted. [*Cf.* Mad. Act I of 1891, s. 18.]

Miscellaneous.

Recovery of fines.

25. Sections 63 to 70 of the Indian Penal Code and the provisions of the Code of Criminal Procedure for the time being in force in relation to the issue and the execution of warrants for the levy of fines shall apply to all fines imposed under any Act, Regulation, rule or bye law, unless the Act, Regulation, rule or bye law contains an express provision to the contrary. [*Cf.* I of 1868. s. 5.] XLV of 1860. X of 1882.

Provision as to offences punishable under two or more enactments.

26. Where an act or omission constitutes an offence under two or more enactments, then the offender shall be liable to be prosecuted and punished under either or any of those enactments, but shall not be liable to be punished twice for the same offence. [I of 1887, s. 8.]

Meaning of service by post.

27. Where any Act of the Governor General in Council or Regulation *made after the commencement of this Act* authorizes or requires any document to be served by post, whether the expression "serve" or either of the expressions "give" or "send" or any other ex- [*Cf.* 52 & 53 Vict., c. 63, s. 26.]

pression is used, then, unless a different intention appears, the service shall be deemed to be effected by properly addressing, pre-paying and posting, by registered post, a letter containing the document, and, unless the contrary is proved, to have been effected at the time at which the letter would be delivered in the ordinary course of post.

Citation of enactments.

28. (*1*) In any Act of the Governor General in Council or Regulation, and in any rule, bye-law, instrument or document, made under, or with reference to, any such Act or Regulation, any enactment may be cited by reference to the title or short title (if any) conferred thereon or by reference to the number and year thereof, and any provision in an enactment may be cited by reference to the section or sub-section of the enactment in which the provision is contained. [*Cf.* 52 & 53 Vict., c. 63, s 35.]

(*2*) In this Act and in any Act of the Governor General in Council or Regulation made after the commencement of this Act, a description or citation of a portion of another enactment shall, unless a different intention appears, be construed as including the word, section or other part mentioned or referred to as forming the beginning and as forming the end of the portion comprised in the description or citation.

Saving for previous enactments, rules and bye-laws.

29. The provisions of this Act respecting the construction of Acts, Regulations, rules or bye-laws made after the commencement of this Act shall not affect the construction of any Act, Regulation, rule or bye-law made before the commencement of this Act, although the Act, Regulation, rule or bye-law is continued or amended by an Act, Regulation, rule or bye-law made after the commencement of this Act. [*Cf.* 52 & 53 Vict., c. 63.]

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 2.*)

Year.	No.	Title or subject.	Extent of repeal.
1868	I	The General Clauses Act, 1868.	The whole.
1872	I	The Indian Evidence Act, 1872.	So much as relates to Act I of 1868.
1887	I	The General Clauses Act, 1887.	The whole.
1891	XII	The Repealing and Amending Act, 1891.	So much as relates to Act I of 1868.

Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 10.} CALCUTTA, SATURDAY, MARCH 6, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the week ending at 8 a.m. on Saturday, February 20th, 1897.

During the week under review the pressure conditions were not only very unsteady and irregular but were such as usually precede and lead up to the hot weather. Two depressions appeared over the Deccan during the week, but they were feeble diffused disturbances and their influence on the weather was confined chiefly to the eastern and central districts of the Central Provinces. Weather was more or less disturbed with rain in the southern half of the Peninsula and North-Eastern India during the greater part of the week, due largely to conditions in these areas and partly to actions in the Bay, and hence not indicated by the land observations. The chief feature of the meteorology of the week was the occurrence of exceptionally heavy rain in Southern India, more especially in South Madras which obtained a total of 3·04 inches during the week as contrasted with 0·08 inch, the anticipated fall of the week. Weather was fine and settled throughout the week in North-Western and Western India and part of Central India.

The temperature conditions of the week were comparatively less abnormal than during the preceding two or three weeks. Temperature was in steady moderate to large excess in the Peninsula and Burma, the excess being most pronounced in Madras where it averaged $4^{\circ}\frac{1}{3}$ for the whole of the week. On the other hand, temperature was very unsteady in Northern and Central India, varying very irregularly from the normal from day to day. The mean temperature

conditions of the whole week in these areas were, however, approximately normal.

Daily Summary.—*Sunday, 14th February.*—Pressure had decreased briskly to rapidly over the greater part of Northern and Central India and was practically unchanged in the Peninsula and Burma. Pressure exceeded the normal to a moderate extent in Sind, but over the remainder of Northern India and in Burma the pressure variations from the normal were very small in amount and of no significance. Over the Peninsula and Ceylon, on the other hand, pressure was more or less in defect of the normal. The deficiency was moderate in amount in Gujarat, Khandesh and the western districts of the Central Provinces and considerable in Southern India and Ceylon. A slight depression covered the area represented by the stations of Surat, Khandwa, Malegaon and Akola, but in all other respects the general distribution of pressure was that characteristic of the cold weather. Winds were irregularly cyclonic in direction in the neighbourhood of the depression, but elsewhere the directions were fairly normal. The force was strong on the South Madras coast. Skies were more or less clouded in Burma, Upper Assam, the Peninsula and Ceylon, and heavy rain had fallen on the eastern flanks of Ceylon and light to moderate rain in the Madras coast districts. Some local showers had occurred in the Central Provinces and North-Eastern India, the largest of which was 1·05 inches at Sibsagar. Temperature was below the average in Upper India and parts of Eastern India and in excess elsewhere. The excess was considerable in Burma, the Central Provinces and Madras and was due to much higher night temperature than usual.

Monday, 15th February.—The pressure changes were generally small in amount except in the southern and central districts of the Central Provinces where pressure had given way briskly to rapidly. Pressure continued practically normal in Northern India and Burma and in defect over the Peninsula. The deficiency was now greatest in the south of the Central Provinces where it averaged an eighth of an inch in amount. The depression noticed over Gujarat and Khandesh on the previous day had moved eastwards and now lay over North Hyderabad and the neighbouring districts of the Central Provinces with its centre a little to the west of Chanda. Feeble cyclonic winds prevailed in the Central Provinces and the Deccan and local southerly winds at the head of the Bay. Over the remainder of India the air motion was practically unchanged. Moderate to heavy rain had fallen in Southern India and showers in Ceylon, the central districts of the Central Provinces and Chota Nagpur. The principal amounts were recorded at Cuddalore (2·23 inches) and Tinnevelly (1·81 inches). Temperature had decreased in the area of rainfall in Madras, but was stationary or had increased in the remaining districts. The mean temperature of the previous 24 hours was in moderate excess of the normal in the Peninsula and in considerable excess in Burma, North-East India and the Central Provinces and practically normal in other districts.

Tuesday, 16th February.—Pressure had decreased slightly to briskly over nearly the whole of the Indian area and was, with a few unimportant exceptions, below the average everywhere. The deficiency exceeded a tenth of an inch in amount over the Peninsula and was absolutely greatest at Chanda where it equalled ·15″. The depression over the Central Provinces and the Deccan was unchanged in position and was slightly more diffused than on the previous day. The general distribution was somewhat abnormal, the chief irregularity being the position of the area of minimum pressure which lay over the south-east of the Arabian Sea. Abnormal south-east winds were blowing across the east coast of the Peninsula into the interior. Winds were variable in the Punjab, northerly in North Bombay and the Gangetic Plain and easterly over the Central Provinces. Light to moderate rain had again fallen in Southern India, Orissa, Chota Nagpur, and Lower Bengal. The more noteworthy falls were 1·51 inches at Chaibassa and 1·15 inches at Balasore. Temperature had diminished rapidly in Bengal and was now practically normal in that area. It had, on the other hand, increased briskly in Madras, thus accentuating the abnormal excess in that area.

Wednesday, 17th February.—Pressure had increased briskly to rapidly in the Central Provinces and Berar, and the depression over the south of that area had been displaced southwards to the Madras Deccan. A brisk to rapid rise of the barometer had occurred also in the Punjab, Sind and the neighbouring districts of Rajputana, thus emphasizing the high pressure conditions in that area. Pressure had decreased very slightly in the North Konkan and the adjacent part of the Arabian Sea, and a slight depression had appeared in that region. Elsewhere the changes were of no importance. Pressure was in slight to moderate excess in Upper India and generally below the average in the remaining districts. The deficiency was most marked in the area of depression over the North Konkan where it averaged a tenth of an inch in amount. Winds were anti-cyclonic in direction over North-Western and Central India, cyclonic around the depression over the Madras Deccan, south-easterly on the Madras coast and variable in most other places. The wind blew freshly in Gujarat. A large reduction of humidity had occurred over Northern and Central India and Baluchistan and the air was now very dry in these areas, several stations recording humidities of 25 per cent. and below. The lowest were 17 per cent. at Bhuj and 19 per cent. at Murree. Skies were densely clouded in the Peninsula, Bengal, Assam and Upper Burma, and rain in light to moderate amounts had fallen in Lower Bengal, Orissa, Chota Nagpur and Southern India. False Point had obtained a heavy fall of 3·45 inches. Temperature had decreased briskly in the central parts of the country and was practically stationary elsewhere. The mean temperature was about 5° higher than usual in Burma and 4° in the Peninsula. It was, on the other hand, in slight to moderate defect in Sind, Rajputana, Gujarat and Central India.

Thursday, 18th February.—Pressure had given way briskly to rapidly in Baluchistan and Upper India and had increased slightly to briskly in North-Eastern India and the greater part of the Peninsula. Elsewhere pressure was practically stationary. Pressure was below the average throughout the Indian area by amounts ranging from ·02″ at Ajmere to ·1″ at Mooltan. The feeble depression over the Madras Deccan as well as that over the North Konkan and the neighbouring part of the sea had practically filled up, but at the same time a fresh depression had appeared over Upper Sind. Westerly and north-westerly winds prevailed down the Gangetic Plain, northerly to north-westerly winds over Bengal, Rajputana and North Bombay, and variable winds in other districts. Calms were numerous in the Punjab. The air was much drier than on the previous day in Bengal and skies were clearing in that area. Local showers had been received in Assam, Lower Bengal, the Deccan and Southern India, the heaviest of which was 1·37 inches at Saugor Island. Temperature was below the average in Northern and Central India and above it in the Peninsula and Burma. The deficiency was greatest in amount in Kathiawar (4°½) and the excess in Burma (5°½). Maximum temperatures exceeding 100° were recorded at Cuddapah (101°·2) and Thayetmyo (100°·1).

Friday, 19th February.—The barometric changes of the previous 24 hours were very irregular in character and small in amount except in the sub-montane districts from Bareilly to Sibsagar. Pressure continued below the average everywhere. The deficiency was greatest in amount in North Bihar and the adjacent districts of the North-Western Provinces where a slight depression was developing. The depression in Upper Sind was unchanged in position and was filling up. Winds showed a tendency to cyclonic movement over the Deccan, but in the remainder of India the air motion was practically unaltered. Skies were more or less clouded in the centre and south of the Peninsula, and some showers of little value had fallen in that area. Temperature had decreased in Burma and North-Eastern India and had increased in North-Western and Central India. The mean daily temperature was below the normal to a moderate extent in Bengal and Assam and above it in the Peninsula and the Central Provinces. The excess was as much as 5°½ in Madras and was due chiefly to unusually high night temperature. The highest temperature recorded was 102°·3 at Ahmednagar.

Saturday, 20th February.—The barometric changes of the previous 24 hours were such as emphasized the conditions prevailing on the previous day. Pressure had given way almost everywhere, briskly in the North-Western

Provinces, the Submontane Punjab and East Rajputana and slightly elsewhere. Pressure was again in defect of the normal throughout the country. The deficiency was even more pronounced than during the previous two days and was largest in amount in the submontane districts from Roorkee to Patna, where it averaged about a seventh of an inch. The general distribution was very irregular, the chief irregularities being the depression in the North Gangetic Plain and the large shallow low pressure area which extended from the Bombay Deccan eastwards across the Peninsula and the adjacent part of the Bay to the meridian of 88° E. The air circulation had not changed to any extent except that the westerly winds down the Gangetic Plain had intensified considerably. Skies were partially clouded in the Peninsula and moderate rain had fallen in South Madras. The largest amount reported was 1·09 inches at Coimbatore. Temperature had again decreased in Burma and was now normal in that area.

Temperature.—The mean temperature conditions of the week varied to a less extent from the normal than during the preceding two or three weeks. The mean daily temperature was steadily above the average in the Peninsula and Burma throughout the week by average amounts ranging from $\frac{1}{2}$° to 5°$\frac{1}{2}$. The increased temperature in these areas was due mainly to large excess in the night temperature and was most marked in Madras. Temperature was, on the other hand, very unsteady in Northern and Central India and varied irregularly from the normal from day to day. On the whole, the mean temperature of the week was normal in Bengal, Assam, the North-Western Provinces and the Punjab, and slightly below the average in Sind, Rajputana, Central India, and Gujarat, the deficiency being due to much lower night temperature than usual. The following statement gives the variations of the mean daily temperature from the normal for the nine political divisions of the Empire on each day of the week and for the whole of the week :—

Province.	February 1897.							Mean variation of week.
	14th.	15th.	16th.	17th.	18th.	19th.	20th.	
Burma	+3·0	+3·6	+3·2	+4·8	+5·5	+3·2	+0·5	+3·4
Bengal and Assam	+0·7	+4·5	+1·3	+1·5	+0·3	—2·0	—1·4	+0·7
North-Western Provinces and Oudh	+0·4	+0·2	+0·9	—0·1	—0·6	—0·9	+1·3	+0·2
Punjab	—1·5	—0·3	0	+0·9	+0·5	+1·1	+3·2	+0·6
Bombay	+2·1	+1·9	+2·2	+3·6	+3·8	+4·2	+2·8	+2·9

Central India and Gujarat	—0·1	+0·5	+0·1	—2·1	—2·6	—1·4	—1·4	—1·0
Sind and Rajputana	—3·4	—1·7	—1·3	—1·6	—2·5	—0·0	+1·7	—1·3
Madras	+3·8	+2·3	+3·9	+4·3	+5·1	+5·6	+5·0	+4·3
Mean for whole of India	+1·0	+1·7	+1·6	+1·4	+1·0	+1·3	+1·5	+1·4

Rain.—Two depressions appeared over the Central Provinces and the Deccan during the week, but they were very feeble and diffused disturbances and gave rain only to the Central Provinces chiefly during the first three days of the week Conditions were more or less disturbed during the greater part of the week in the southern half of the Peninsula and North-Eastern India, and fair to abundant rain was received in these areas during the period from the 15th to the 17th. Weather was very quiet and settled throughout the week in Baluchistan, the Punjab, Sind, Rajputana, Central India, the North-Western Provinces, Berar, Bombay and the greater part of Burma, and the rainfall of the week was hence more or less in defect of the normal in these districts.

The accompanying rainfall statement will show that effective rain was received in Arakan, the whole of Assam, East, Central and Deltaic Bengal, Orissa, Chota Nagpur, Malabar, Coorg, Mysore, the eastern and central districts of the Central Provinces, the Madras coast districts and South and South-Central Madras. The total fall of the week in this area of effective rainfall

ranged between 0·12 inch and 3·04 inches, while the anticipated fall in the same area varies from *nil* in Arakan to 0·68 inch in Cachar. There was thus a very large excess over the greater part of the area, some divisions obtaining twenty to seventy times their normal fall.

The rainfall of the week was exceptionally heavy in the districts for which data are given below :—

District.	Average actual rainfall of week.	Average normal rainfall of week.	Variation from normal.
Tanjore	3·89	0·02	+3·87
Madura	3·13	0	+3·13
Trichinopoly	3·16	0·04	+3·12
Tinnevelly	2·94	0·17	+2·77
Nilgiris	2·47	0·08	+2·39
Balasore	2·71	0·23	+2·48

The seasonal rainfall is still more or less in defect of the normal in Burma (excluding Arakan), the whole of the Bengal, Assam, Bihar, the North-Western Provinces (excepting the central districts), the South and South-East Punjab, Konkan, the Bombay Deccan, Khandesh, Gujarat, Kathiawar, Sind, Rajputana, Hyderabad South and the western states of Central India. The deficiency is serious in Bengal, Assam, North Bihar, the western districts of the North-Western Provinces and the South-East Punjab.

The principal totals recorded during the week were 5·86 inches at Jayankonda (Trichinopoly), 5·74 inches at Tiruturaipundi (Tanjore), 5·51 inches at Thiruvadanai (Madura), 4·45 inches at Rambah (Ganjam), 4·98 inches at Kodanad (Nilgiris), 3·70 inches at Trichur (Malabar) and 3·55 inches at Bhadrack (Balasore).

HEM RAJ,
Offg. Asstt. Meteorological Reporter to the Government of India.

SIMLA, *the 25th February 1897.*

DENZIL IBBETSON,
Secretary to the Government of India

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 27th February.*—There were light scattered showers in parts, chiefly in the Circars, in the extreme south and in Malabar. The water-supply has been improved by the late rainfall in parts of the Circars, elsewhere it is generally decreasing and is scarce in parts of the Deccan even for drinking. Some ploughing is being done after the late rainfall and sowings are going on under wells, but cultivation is generally over. The harvest continues to yield a fair crop except in the Deccan and the Circars, but has been somewhat damaged in parts of the south by recent rain. Pasture has been benefited in the Circars, elsewhere it is drying up, if not dried. Fodder is sufficient except in the Deccan where the cattle in some parts are suffering, though many have been driven to the jungles for grazing. Prices are fluctuating irregularly but show small change. They are slightly easier in Ganjam and in parts of the Deccan. The numbers on relief works are:—Relief workers:—11,930 men, 24,516 women, 10,132 children, and 4,854 of whom particulars as to age and sex are not stated. Total 51,432 in the Deccan. Dependants:—men 82, women 282, children 2,205 in Bellary, Anantapur and Cuddapah; others, whether dependants or not, unknown:—127 men, 14 women, 265 children and 533 of whom particulars as to age and sex are not stated; in Kurnool and Anantapur 11 men, 25 women and 52 children not dependants; total 3,496, all relieved at kitchens in Deccan. Weavers:—4,553 men and 3,683 women relieved in the Deccan, making total workers 59,668 in that tract. Test workers:—Ganjam, men 331, women 798, children 365, no dependants, but 1,391 gratuitously relieved otherwise. Grand total 66,049 including 61,162 workers and 4,887 gratuitously relieved Prices by which wages are regulated are:—Kurnool and Bellary, 13½; Anantapur, 14; Cuddapah, 14½; and Ganjam, 12½ seers per rupee.

Bombay.—*For week ending 3rd March.*—The standing crops have been slightly damaged by drought in four talukas of Karachi; by frost in one of Karachi, in five of Shikarpur, and in four of Hyderabad; by locusts in two of Karachi; otherwise they are thriving in Sind and Gujarat; but are indifferent elsewhere. The crops recently sown have withered or are withering in Nasik, Ratnagiri, Ahmednagar, Sholapur, Belgaum, and Dharwar. The autumn harvesting has been completed except in Khandesh. The reaping of the late crops is in progress in parts of Gujarat, Deccan, Karnatak, Thana, Kathiawar, and Baroda. Fodder is sufficient except in the Deccan, Ratnagiri, Bijapur, Shikarpur, and parts of Karachi. The grain supply is generally sufficient in the affected districts. Cotton picking continues in Broach, Surat and Wadhwan. The condition of agricultural stock is deteriorating in Ahmednagar, Sholapur, and Bijapur; healthy elsewhere except in parts of Shikarpur, Upper Sind frontier, Thar and Parkar, Khandesh, Nasik, and Kanara. Prices are rising in parts of Surat, Ratnagiri, Sholapur, Bijapur, and Belgaum; falling in Upper Sind frontier, and in parts of Surat, Ratnagiri, and Sholapur; stationary in Hyderabad, Thar and Parkar, Panch Mahals, Kanara, and parts of Surat and Bijapur. The prices of staple food grains in the affected districts are:—Dharwar 13⅜; Belgaum 11½; Bijapur and Sholapur 10¾; Ahmednagar 10; Nasik 9⅝; Satara 9½; Khandesh 9⅓; Kolaba 7¾ seers per rupee. The average daily number on relief works including non-working children are:—Bijapur 75,580; Sholapur 105,047; Ahmednagar 89,011; Poona 20,598; Nasik 34,547; Satara 29,638; Khandesh 33,255; Belgaum 3,935. Total 391,611, of which 274,169 are relief workers and 1,17,442 non-working children. Of relief workers, excluding those in Khandesh, details for which are not reported, 82,775 are men, 108,999 women, 59,265 children. The numbers on gratuitous

relief are:—Bijapur 8,162 including 49 persons in one poor house; Sholapur 6,385; Ahmednagar 1,829; Poona 3,644; Nasik 115; Satara 14; Belgaum 477; Dharwar 22. Total 20,648, of which 11,020 are men, 5,600 women, and 4,028 children. Total number in receipt of relief 412,259.

Bengal.—*For week ending 1st March.*—There was no rain during the week. The spring crops are maturing and are being harvested in some parts. In Bihar the spring crops continue to promise well, but in the rest of the Province (except in portions of the Rajshahi and Chota Nagpur Divisions) the prospects are poor. Spring rice is doing well, having been benefited by the late rain. The ploughing of lands for the early rice and jute is going on, but more rain is required. The prospects of opium in Bihar are very favourable. Tobacco is reported to be a good crop. Sugarcane pressing continues. Fodder supply is generally sufficient. Scarcity of drinking-water is reported from some districts. The prices of food-grains have fluctuated slightly in some districts. In the distressed districts the prices of the staple grain on which the famine wage is based, are:—Nadia (common rice) 9 seers, Khulna (common rice) 10 seers, Rajshahi (common rice) 10 seers, Patna (common rice) 11 seers, Shahabad 10½ seers, Saran (Indian corn) 10 seers 1 chatak, Champaran (Indian corn) 10 seers, Muzaffarpur (Indian corn) 10½ seers, Darbhanga (Indian corn) 10 seers, Bhagalpur (common rice) 10 seers per rupee. There was a slight fall in the price of Indian corn in Saran and Muzaffarpur. The numbers on relief on Saturday, the 27th February, were—Nadia 10,578, Moorshedabad 730, Khulna 1,861, Rajshahi 585, Pabna 53, Patna 61, Shahabad 9,965, Saran 32,096 Champaran 170,251, Muzaffarpur 27,875, Darbhanga 140,093 (incomplete), Bhagalpur 8,160, Palamau 4,202, Manbhum 3,492. Total 410,002, against, 411,530 in the previous week. This total is distributed as follows:—

	Men	Women.	Children.	Total.	
Relief workers . . .	113,006	98,798	50,098	261,902	
Dependants . . .	1,785	167	1,104	3,056+725 in Nadia (sex not shown) 3,781.	
Relieved in poor-houses .	254	147	172	573	
Otherwise relieved . .	26,740	66,055	44,631	137,435	
Test-workers . . .	4,054	1,699	558	6,311	

Private Relief—Relief-works—Darbhanga Raj 21,900 (men 15,067, women 4,984, children 1,849), Hatwa 5,814. Gratuitous relief—Darbhanga Raj 10,518 (men 2,009, women 4,853, children 3,656). Hatwa 781.

North-Western Provinces and Oudh.—*For week ending 3rd March.*—Save for a light shower in Dehra Dun and Almora there was no rain during the week. The crops are reported to be generally in good condition and harvesting is in progress in several districts, but the crops in many districts have been somewhat damaged by high west winds. The poppy is doing well and opium is being collected in two or three districts; cane-pressing is practically completed and cane is being sown in a few districts The numbers in receipt of relief on Saturday the 27th February 1897 in 19 districts officially recognised as distressed were as follows:—Agra 39,442, Etawah 20,339, Cawnpore 119,325, Fatehpur 33,768, Banda 201,038, Hamirpur 60,482, Allahabad 180,794, Jhansi 67,386, Jalaun 1,02,121, Mirzapur 65,610, Jaunpur 71,273, Gorakhpur 44,642, Azamgarh 16,354, Lucknow 107,481, Unao 60,091, Rae Bareli 90,858, Sitapur 67,707, Hardoi 144,814 and Barabanki 21,599. Total 1,515,124. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—Employed on relief works 996,936, relieved as dependants 255,110, relieved in poor-houses 39,107, relieved under other provisions of the Code 223,971. The numbers relieved in 18 districts which are under observation and not yet officially recognised as distressed were on the same date as follows:—Relieved on test works 92,920, relieved in poor-houses 14,212, relieved under other provisions of the Code 32,361. Total 139,493. The grand total in receipt of relief on the last day of the week was therefore 1,654,617. Supplies are generally sufficient. Fodder is somewhat scarce in places. Prices are fluctuating, the grain market being very sensitive owing to apprehended injurious

effect of high west winds on the spring outturn. The price of the staple grain on which the famine wage is based varied from 9½ to 12 seers in the districts officially recognised as distressed.

Punjab.—*For week ending 2nd March.*—Rain averaging about ⅛ of an inch has fallen in Rawalpindi, and ¼ of an inch in Gujranwala and Peshawar. There has been a slight drizzle in parts of Hissar, Karnal, Gujrat, and Shahpur. More rain is generally wanted to improve the crops on unirrigated land which are still rather backward and have suffered in many districts from high dry winds. The sowings of the extra spring crops are going on. The ploughing for the autumn crops has commenced in some districts. Rape seed and barley are being already cut in Gurgaon. The irrigated crops are generally in good condition except those sown late on canals and those sown on brackish wells in Rohtak as well as in parts of Gurgaon. The prospects are poor in Delhi and average in Mooltan, Lahore, and Dera Ismail Khan. The crops on dry land still require more rain in most districts. High westerly winds are blowing in certain districts which will probably injure the standing crops to some extent. The stocks of food grain are insufficient with the cultivators of Amritsar and Gujranwala and have been exhausted in Hissar and Delhi where, however, the imports meet requirements. The rape and gram crops are still being damaged by caterpillars in Ferozepore. Cattle are generally in a poor condition for want of sufficient fodder. They are dying of starvation in Hissar and Rohtak; their condition is reported fair from Gurgaon and Ferozepore; good in Amritsar; and average in Sialkot. Dry fodder is still scarce in nearly all districts, but since the well distributed rain of last month grass is springing up and clover and other fodder crops are also supplying the want. The average number of persons on relief works and dependants, etc., are as follows:—relief workers:—34,965 men; 31,873 women; 15,987 children: dependants 916 men; 1,358 women; 12,491 children; relieved in poor-houses 615 men; 691 women; 428 children: otherwise relieved 2,208 men; 3,079 women; 1,305 children; test workers 229 men; 143 women; 117 children. Details have not been given for 17,333 persons otherwise relieved in Gujrat. The total number of workers, dependants, etc., in the Punjab was therefore 123,738. At the end of February prices were generally high; they are still rising in Ferozepore, Mooltan, Gujranwala, and Rawalpindi; and are falling slightly in other districts except in Hissar and Amritsar where the figures are unchanged. Wheat is selling from 8¼ to 11 seers; gram 9½ to 10¾; great millet 9¾ to 11; bulrush millet 9 to 11¼; and maize 10 to 11⅝ seers per rupee. The tendency of prices to rise is kept in check by imports from Sindh in the southern districts and from transfrontier territory to some frontier districts. The prices of staple food-grains on which the famine wage is reckoned are:—Rohtak gram and maize 10 seers; Delhi bulrush millet 8⅛; Karnal gram 9½, and maize 10; Ferozepore great millet 11; Lahore wheat and maize 10; and Gujrat maize flour 8 and 9 seers per rupee.

Central Provinces.—*For week ending 2nd March.*—The weather is generally clear. The nights are cool and the days are getting hot. Spring harvesting is being rapidly pushed on. Prospects are generally fair. Estimated outturns reported are:—Mandla 16, Bhandara 9 and Raipur 11 annas; the cold weather Juari (*Sirghum vulgare*) in Bhandara 14 annas. The Mohwa (*Bassia latifolia*) crop is generally reported to be fair though somewhat damaged by clouds in Balaghat; too early yet for definite forecast. Fodder is becoming scarce in parts of Seoni, Hoshangabad, Sambalpur, and Wardha. There has been no marked movement in prices, but they are slightly easier in the Nerbudda Valley. The number of relief workers are decreasing in the *rabi* (spring crop) districts of Saugor, Damoh, Jubbulpore, Seoni, Narsingpur, Hoshangabad, and in Nimar; and are increasing in the *kharif* (autumn crop) districts of Mandla, Betul, Bhandara, Raipur, and Bilaspur. They are fairly stationary in Chhindwara, Nagpur, Chanda, and Balaghat. Two relief works have been closed in Nimar. The numbers on relief works are:—Saugor 23,904; Damoh 14,571; Jubbulpore 70,103; Mandla 20,639; Seoni 5,794; Narsingpur 13,981; Hoshangabad 20,209; Nimar 192; Betul 14,100; Chhindwara 5,989; Nagpur 1,278; Chanda 2,690; Bhandara 15,094; Balaghat 10,348; Raipur 37,757; Bilaspur 12,012. Total 2,68,651. The numbers receiving gratuitous relief are:—Saugor 13,426; Damoh 3,469; Jubbulpore 16,282; Mandla 4,788; Seoni 2,722;

Narsingpur 6,457 ; Hoshangabad 6,926; Nimar 314 ; Betul 2,500 ; Chhindwara, 2,812 ; Nagpur 1,228 ; Chanda 392 ; Bhandara 4,746 ; Balaghat 4,466 ; Raipur 6,173 ; Bilaspur 6,017. Total 82,718. Total number in receipt of relief 351,379. Complete details of dependants are still not available. There were also 39,000 on Railway and private works in Saugor, Damoh, Jubbulpore, Chhindwara, and Balaghat. The prices of staple food-grains on which the famine wages are based, are :—Saugor 9 ; Damoh, Seoni, Narsingpur, Nimar, Betul, Chanda, Bhandara, Raipur, and Bilaspur 10 ; Mandla 8½ ; Hoshangabad and Nagpur 11½ ; Chhindwara 10¼ ; Balaghat 8 seers per rupee.

Burma.—*For week ending 27th February.*—In Lower Burma threshing continues. In Upper Burma the reaping of peas, wheat, gram, and miscellaneous crops continues. The prospects of the dry weather paddy crop continue fair ; other conditions are the same as last week. The wet weather paddy crop in Kyaukse has been harvested. The price of paddy has risen considerably in Thongwa and Henzada and slightly in Thayetmyo ; while it has fallen considerably in Myaungmya and slightly in Bassein ; elsewhere it is stationary. The numbers on relief works are :—Meiktila 13,642 ; and Myingyan 8,075 ; and on gratuitous relief Meiktila 2,290 ; Myingyan 1,785 ; Yamethin 336. The total number on relief was 26,128. Price of rice :—Meiktila 8 seers 12 chittacks Yamethin 9 seers 5 chittacks per rupee.

Assam.—*For week ending 2nd March.*—Slight rainfall in Cachar, Sibsagar, and Lakhimpur. Rain is wanted for the low land rice in Sylhet and for the early rice sowing in Kamrup and Nowgong. Ploughing for the early rice ; pressing of sugarcane and pruning of tea continue. Mustard is being gathered. Prices : common rice, Silchar 9½ ; Sylhet 10½ ; Gauhati 10 ; Tezpur 10½ ; and Sibsagar 11 seers per rupee. Fodder is insufficient in Cachar, Nowgong, and in the Naga, Khasi and Jaintia Hills ; and in parts of the Kamrup district. Water is scanty in Cachar, Nowgong, and the Naga Hills.

Mysore and Coorg.—*For week ending 3rd March.*—MYSORE : The prospects are good. Prices have slightly risen in Kadur and Shimoga ; and fallen in Mysore, Tumkur, and Bangalore. Paddy is harvested in Bangalore.

COORG : The coffee has blossomed in parts. Prices are normal. Water and fodder for cattle are sufficient.

Berar and Hyderabad.—*For week ending 2nd March.*—BERAR : The weather is warm. Harvesting of wheat, gram and linseed continues. The land is being prepared for the rain crop. Fodder and water are inadequate to wants. High prices prevail. 11,111 persons were employed on relief works during the week. Prices :—Akola 10 ; Basim 10 ; and Melghat 8 seers per rupee

HYDERABAD : Rainfall during week ended 27th February 19 cents. Total from 1st January 58 cents. The harvesting of the spring crop continues. Fodder and pasture and water are scarce. Relief works continue in Gulburga, Raichore and Naldrug. Aggregate number of persons employed 4,509. Prices :—Wheat 7, coarse rice 7, and jowari 12 seers per current sicca rupee.

Central India.—*For week ending 2nd March.*—No rain fell in Central India during the week. Agricultural operations are in progress in all Agencies ; they have been completed in Bundelkhand. The spring crops are in good condition in Baghelkhand, Malwa, and in some districts of Gwalior and Bundelkhand ; fair in Bhopal, Bhopawar, five districts of Gwalior, and three districts of Bundlekhand ; bad in four districts of Bundelkhand, and one of Gwalior. Agricultural stock is in good condition in Bundelkhand, Baghelkhand, Malwa, Bhopawar, and five districts of Gwalior ; fair in Bhopal ; and indifferent in remaining districts of Gwalior. Pasturage is sufficient in Bhopawar ; fair in Bhopal, and Malwa ; indifferent in Bundelkhand and nine districts of Gwalior ;

good in Baghelkhand; and one district of Gwalior; bad in three districts of Gwalior. Prices are above normal in Bundelkhand, Baghelkhand, and Malwa, rising in Bhopawar and Bhopal; and steady in Gwalior. The opium crops are fair in Bhopawar and Bhopal; and one district of Gwalior; and good in Malwa and two districts of Gwalior; bad in other districts. The number of persons employed on famine relief works were:—in Gwalior 27,571; Bundelkhand 23,473; and Baghelkhand 69,309; and on gratuitous relief 6,998, in Gwalior, 5,657 in Bundelkhand; and 4,032 in Baghelkhand. Total number relieved was 1,37,040. Prices 10 to 11½ in Gwalior; 11 seers per rupee in Baghelkhand; not reported from Bundelkhand.

Rajputana.—*For week ending 3rd March.*—No rain fell throughout Rajputana. Agricultural operations are satisfactory in five States, thriving in three and poor in one. Standing crops are thriving in Marwar and Jaisulmere, poor in Dholepore, slightly damaged by frost in Meywar and Bundi, good elsewhere. The harvest prospects are good in Jhallawar; average in Ajmere-Merwara; and below average in Haraoti. Grain is being harvested in Kotah. Cattle are lean in Bhurtpore; fair in Meywar, Dholepore, Bikanir, and Jaisulmere; good elsewhere. Pasturage or fodder is generally sufficient; but scarce in some tehsils of Jeypore and failing in Bhurtpore and Dholepore. Prices falling in Meywar, Kotah, and Ajmere-Merwara; rising in Bikanir and Jhallawar; high in Haraoti and steady elsewhere. The number of persons on relief works was:—Marwar 5,281; Kotah 1,173; Tonk 30; Dholepore 5,305; Bikanir 4,095; Jaisulmere 901; and on gratuitous relief:—Marwar 1,180; Tonk 272; Bhurtpore 593; Bikanir 558; and Jaisulmere 81. Total numbers in receipt of relief 19,469. A small test work has been opened in Tonk. The prices of the staple food-grains on which the famine wages are based are Marwar 8¾; Kotah 14½; Tonk 11½; Bhurtpore 9 seers 6 chatacks; Dholepore 11 seers 4 chatacks; Bikanir 9 seers 2 chatacks to 8 seers 14 chatacks; Jaisulmere 8 9/16 seers per rupee.

Kashmir.—*For week ending 2nd March.*—Weather fine. Prices continue below normal. Price 24 seers per rupee.

JAMMU PROVINCE.—*For week ending 3rd March.*—No rain has fallen. Prices are stationary. Fodder is scanty. Price 10½ seers per rupee.

Nepal.—*For week ending 27th February.*—No rain has fallen, and the weather is again getting warm. High winds prevail. Crops are in good condition. Price 7½ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:—

T. W. HOLDERNESS,
Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Crop and Weather Summary in the *Gazette of India*.
Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns from those gratuitously relieved in poor-houses or at their homes.

Dated 5th March 1897.

T. W. HOLDERNESS,

Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

ANNUAL REPORT OF THE GEOLOGICAL SURVEY AND OF THE GEOLOGICAL MUSEUM, CALCUTTA, FOR THE YEAR 1896.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture (Geology and Minerals): No. $\frac{4}{27-2}$, *dated Calcutta, 26th February 1897.*

GEOLOGY AND MINERALS.

READ—

Annual Report of the Geological Survey and of the Geological Museum, Calcutta, for the year 1896.

RESOLUTION.

The work on which the officers of the Department were engaged during the year under review is shewn in the following table:—

Name of officer.	Locality where employed.	Character of work.	Whether main object scientific or practical.
Mr. Oldham	Rewah	Geological survey	Scientific.
Ditto	Head-quarters	Administrative	
Mr. LaTouche	Rajputana	Geological survey	Ditto.
„ Middlemiss	Madras	Ditto Examination of gold-bearing reefs and special investigations of corundum-bearing rocks.	Ditto and Practical.
Dr. Warth	Chota Nagpur	Mineralogical survey	Practical.
Mr. Holland	Naini Tal	Safety of Government House Hill, Naini Tal.	
	Head-quarters	In charge Museum and Lecturer on Geology, Presidency College.	Scientific and Practical.
Mr. Datta	Rewah	Geological survey	Scientific.
„ Smith	Madras Assam	Ditto Ditto	Ditto. Ditto.
„ Hayden	Punjab	Ditto	Ditto.
	Burma	Examination of minerals	Practical.
„ Vredenberg	Rewah	Geological survey	Scientific.
„ Grimes	Ditto Burma	Ditto Ditto	Ditto. Practical.
„ Anderson	Chota Nagpur	Mineralogical survey	Ditto.

2. The department was short-handed in consequence of retirements and absence on furlough; notwithstanding which, there was an extension of survey work. The survey of the Salem and Coimbatore districts of Madras was energetically pushed forward, and it is expected that it will be completed in 1897. It has already thrown light on the age of the Hosur gneiss and upon

the gold-bearing system of Southern India. The survey of Rewah was practically finished, and would have been entirely completed but for the exceptional unhealthiness of the season. The survey has added to the material available for determining the nature and origin of the Vindhyan sandstones. During the working season of 1895-96, Sub-Assistant Kishen Singh was engaged in Baluchistan in the survey of the Chehiltan range and part of the Khwája Amrán. The survey of Rajputana was resumed, and Mr. LaTouche was engaged for a part of the year in Southern Marwar. Mr. Holland made a full investigation of the stability of the Naini Tal hill-sides; and during the recess Mr. Hayden completed the geological survey of Simla, Mahasu and Jutogh. The survey of Assam was resumed by Mr. Smith.

3. Practical work was carried on mainly in Madras, Central India, Burma, and Chota Nagpur. In Madras some gold-bearing reefs were examined by Mr. Middlemiss in the neighbourbood of Kollegal. The special investigation of the corundum-bearing rocks was actively pursued, and has now reached a stage at which it has become advisable to practically test the commercial value of the ore. Several new discoveries of iron ores were made, and some previously known sites re-examined; but the statement in the report that all special investigation of these ores would be waste of time is premature, as the subject is still under inquiry. Arrangements were made for the trial of the steatite of the Kurnool district by an English firm. In Central India the western extension of the Singrauli coal-field was surveyed, and an abundant supply of coal discovered in the Damuda area, though too far from existing lines of communication to be immediately valuable. In Burma Mr. Hayden completed his examination of the Sagyin ruby tract, and examined the Mithwe coal-field, a yellow ochre deposit near Panjpé, and the steatite mines in the Kyaukpyu district of Arakan. The inquiries of Dr. Noetling appeared to indicate that the Yenangyoung oil-field was approaching exhaustion, and a search is now being made with every hope of success for a fresh field to take its place. Quartz-crushing operations in Chota Nagpur were much delayed, and were in the end inconclusive. It is hoped that the survey of Assam, which has now been resumed, will add materially to our knowledge of the mineral resources of the province.

4. Mr. Holland continued his valuable petrological studies of Indian rocks, and a memoir by him upon the corundum-bearing rocks is ready for publication. He also completed the rearrangement of the mineral and rock collections of the Museum. Good progress has been made with the publication of the results arrived at by the officers of the Department.

5. Mr. Grundy was confirmed in the appointment of Inspector of Mines in view of the contemplated legislation for the regulation of mining operations in India.

6. The Governor General in Council is pleased to express his satisfaction with the manner in which the Geological Survey of India has been conducted by the Department during the year under review.

ORDER.—Ordered that a copy of the foregoing Resolution be forwarded to the Director, Geological Survey of India, and to Local Governments and Administrations, and that it be published in the Supplement to the *Gazette of India*.

[True Extract.]

DENZIL IBBETSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA

Statistical Bureau

(*a*) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of this line has been taken in hand by the company from the 1st January 1897.

(*b*) Includes the Bhopal-Itarsi railway.

(*c*) Earnings for the 22nd February 1896, the line having been opened for traffic on that date.

(*d*) Includes the Godhra-Kutlam-Nagdá railway.

(*e*) Includes the Guntakal-Mysore frontier section.

(*f*) Includes the Tirhoot state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company.

(*g*) Includes the Jammu and Kashmir and the Hyderabad-Shadipalli railways.

(*h*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made for the line to be formally taken over, it will be worked by the state on behalf of the company.

(*i*) Includes the Wardha Coal, the Dhond-Manmád, the Khámgaon, and the Amraoti railways.

(*j*) Includes the Mysore-Nanjangúd and the Yesvartpur-Mysore frontier sections.

(*k*) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

CALCUTTA, *the 6th March 1897.*

(*a*) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of the line has been taken in hand by the company from the 1st January 1897.

(*b*) Includes the Bhopal-Itarsi railway.

(*c*) Earnings for the 22nd February 1896, the line having been opened for traffic on that date.

(*d*) Includes the Godhra-Rutlam-Nagda railway.

(*e*) Includes the Guntakal-Mysore frontier section.

(*f*) Includes the Tirhoot state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company).

(*g*) Traffic commenced [illegible] 22nd February 1896.

(*h*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made for the line to be formally taken over, it will be worked by the state on behalf of the company.

(*i*) Includes the Wardha Coal, the Dhond-Manmád, the Khamgaon and the Amraoti railways.

(*k*) Total earnings from 1st May 1895 to 22nd February 1896.

(*l*) Total earnings from 11th November 1895 to 22nd February 1896.

(*m*) Total earnings from 15th July 1895 to 20th February 1897.

(*n*) Includes the Mysore-Nanjangud and the Yelwandi-Ooty frontier sections.

(*o*) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

(*p*) Traffic commenced from 1st August 1895 to 22nd February 1896.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

RETURNS OF MOVEMENTS OF FOOD-GRAINS AND PULSES IN INDIA.

No. $\frac{737}{128-1}$ F.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture: dated Calcutta, the 5th March 1897.

FAMINE.

READ—

Circular of the Government of India, No. 1 G.—22-1, dated the 9th January 1897.

RESOLUTION.

The circular read in the preamble requested Local Governments to co-operate with the Government of India in ascertaining and reporting the movements of food-grains between different parts of the country, and explained the steps which it was considered desirable to take to this end. The object of these returns was defined to be to help the mercantile community to gauge demand and supply in the matter of food-stocks by placing freely fully and promptly at the disposal of the public all the information of which the Government was in possession.

2. Local Governments were therefore asked to arrange that the District Officer of each district on the railway should receive weekly a return from each railway station in his district, showing the number of standard maunds of food-grains and pulses which have (1) arrived at, and (2) left the station *from or for places outside that district* during the week ending with the previous Saturday. These statements were then to be totalled for the district, and the totals communicated by deferred telegram to the Director-General of Statistics at Calcutta.

It was explained that movements of grain within the district should be carefully excluded. With regard to returns of grain and pulse crossing the land frontier into India, it was stated that as these returns would not reach District Officers in time to be included with the railway figures, they should be forwarded by post weekly to the Director-General. As regards traffic by road within India, it was stated that no general machinery existed by which it could be registered: and, though the means of registering it doubtless existed at certain points, yet to include it for some districts and not for others would be inexpedient. With regard to water-borne traffic, however, it was added that, as this traffic was of very great magnitude in certain parts of the country, it should be included whenever this was the case and local arrangements could be made for the collection of statistics.

3. The weekly returns which have reached the Government of India in pursuance of the above scheme are not as yet complete for all districts, but the Government of India trust that completeness will be secured as the system gradually settles down into working order.

4. The returns for the week ending the 27th February and for the period from 30th January to the 27th February, so far as they have been received, are published for general information. Similar returns will be published week by week in the *Gazette of India*.

ORDER.—Ordered that a copy of the above resolution with the returns be published in the Supplement to the *Gazette of India* for general information.

By order,

T. W. HOLDERNESS,
Deputy Secy. to the Govt. of India.

APPENDIX.

IMPORTS and EXPORTS of FOOD-GRAINS and PULSE (in Indian maunds) at PRINCIPAL PORTS.

[Net imports are indicated by +, net exports by −.]

		Week ending 27th February 1897.	1st November 1896 to 27th February 1897.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Calcutta, the 8th March, 1897.

No. 99.—In exercise of the powers conferred by section 135 of the Indian Railways Act, IX of 1890, the Governor General in Council is pleased :—

(*a*) under clause (1) of that section, to declare that the East Indian Railway Company shall be liable to pay, in aid of the funds of the Arrah Municipality, a water-rate under the provision of the Bengal Municipal Act, III (B. C.) of 1894, in respect of the lands and buildings occupied by the Company within the limits of the Arrah Municipality; and

(*b*) under clause (2) of that section to appoint the Commissioner of the Patna Division to determine the sum which, having regard to all the circumstances of the case, may appear to him to be a fair and reasonable sum for the said Company to pay in lieu of the said water-rate.

The liability imposed by this notification shall be deemed to arise upon the first occasion of the supply of water by the said Municipality to the said Company, but not before.

No. 101.—In exercise of the powers conferred by section 135 of the Indian Railways Act (IX of 1890), the Governor General in Council is pleased, under clause (*1*) of that section, to declare that the East Indian Railway Company shall be liable to pay, in aid of the funds of the Howrah Municipality, a water-rate under the provisions of the Bengal Municipal Act (III B.C. of 1884) in respect of the houses, buildings and lands occupied by the Company within the limits of the said Municipality.

The liability imposed by this Notification shall be deemed to arise upon the first occasion of the supply of water by the said Municipality to the said Railway Company, but not before.

No. 102.—The Governor General in Council is pleased to order the following promotions of Executive and Assistant Engineers attached to the several Local Administrations, with effect from the dates specified :—

Names.	From	To	Nature of promotion.	With effect from
				1896.
Bell, E. W.	Assistant Engineer, 3rd grade.	Assistant Engineer, 2nd grade.	Permanent . .	1st September.
Hpo Thine	Assistant Engineer, 2nd grade.	Assistant Engineer, 1st grade.	Ditto . .	4th September.
Griffin, J. V.	Assistant Engineer, 2nd grade.	Assistant Engineer, 1st grade.	Ditto . .	21st September.
Collins, F. R.	Assistant Engineer, 3rd grade.	Assistant Engineer, 2nd grade.	Ditto . .	1st October.
Fox, H. H.	Executive Engineer, 2nd grade.	Executive Engineer, 1st grade.	Ditto . .	12th October.
Rose, A. E.	Executive Engineer, 3rd grade.	Executive Engineer, 2nd grade.	Ditto . .	12th October.
Sathaye, D. S. . . .	Assistant Engineer, 1st grade, and Executive Engineer, 3rd grade, temporary.	Executive Engineer, 3rd grade.	Ditto . .	12th October.
Davie, W. G. . . .	Assistant Engineer, 2nd grade.	Assistant Engineer, 1st grade.	Ditto . .	12th October.
Knight, W. E. . . .	Assistant Engineer, 1st grade.	Executive Engineer, 3rd grade.	Temporary . .	4th November.
Lugard, E. A, . . .	Assistant Engineer, 1st grade.	Executive Engineer, 3rd grade.	Ditto . .	5th November.

The 9th March, 1897.

No. 104.—The services of Mr. W. B. Gray, Government Examiner of Accounts, Assam-Bengal Railway, are lent to the Assam-Bengal Railway Company.

No. 105.—Mr. F. G. Heaven, Examiner of Accounts, attached to the Office of the Government Examiner of Accounts, East Indian Railway, is appointed Government Examiner of Accounts, Assam-Bengal Railway.

The 10th March, 1897.

No. 106.—Mr. W. T. Jolly, Supervisor, 1st grade, Assam, is appointed, on probation, to the Provincial Engineer Service of the Public Works Department, Bengal, as an Assistant Engineer, 3rd grade, sub. *pro tem.*

No. 107.—Mr. W. Slane, Deputy Examiner of Accounts, is, on return from furlough, posted to the Office of the Examiner of Public Works Accounts, Bengal.

No. 108.—Mr. J. T. Rollo, Executive Engineer, 1st grade, Burma, is appointed to officiate as a Superintending Engineer, 3rd class, with effect from the 23rd February, 1897, and until further orders.

No. 109.—Mr. W. J. Wilson, Executive Engineer, 1st grade, North-Western Provinces and Oudh, is permitted to retire from the service under Article 712 (*c*) of the Civil Service Regulations, with effect from the forenoon of the 10th February, 1897.

The 12th March, 1897.

No. 111.—The Governor General in Council is pleased, under section 16 (1) of the Indian Railways Act, IX of 1890, to sanction the use of locomotive engines and of rolling stock to be drawn or propelled thereby, on the Ledo and Tikak Margherita Colliery Branch of the Assam Railways and Trading Company, Limited.

The 8th March, 1897.

No. 100.—The following is published for general information:—

No. 78 I.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT.—CIVIL WORKS—IRRIGATION.

Calcutta, the 3rd March 1897.

Review of the Revenue Report of Irrigation Works in the North-Western Provinces for the year 1895-96.

Read—

Letter No. 4584 I, dated the 5th December 1896, from the Government of the North-Western Provinces, forwarding the Revenue Report of Irrigation Works in the North-Western Provinces for 1895-96, and the Resolution of that Government reviewing the Report.

OBSERVATIONS.—The Capital outlay on Irrigation Works in the North-Western Provinces during and up to the end of 1895-96 is shown in the following statement:—

	Number of Works	During the year 1895-96.							Total direct and indirect to end of 1895-96.
		Works.	Establishment.	Tools and Plant.	Suspense Account.	Total direct charges.	Indirect charges.	Total direct and indirect charges.	
	1	2	3	4	5	6	7	8	9
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
MAJOR WORKS.									
Protective Works (Account head 35) . . .	1	7,742	1,470	96	—1,974	7,334	232	7,566	42,36,154
Irrigation Works not charged against Revenue (Account head 49).	5	8,38,989	2,26,216	14,717	1,77,256	12,57,178	36,196	12,93,374	7,78,14,403
MINOR WORKS.									
Works for which Capital and Revenue Accounts are kept (Account head 43)									
Works in operation . .	4	8,118	1,759	...	1,850	11,727	1,454	13,181	26,39,129
Surveys	2	196	...	...	...	196	...	196	2,25,466
TOTAL MINOR WORKS .	6	8,314	1,759	...	1,850	11,923	1,454	13,377	28,64,595
GRAND TOTAL .	12	8,55,045	2,29,445	14,813	1,77,132	12,76,435	37,882	13,14,317	8,49,15,152

2. The total Capital expenditure during the year is Rs. 5,80,079 more than during the previous year.

On the Betwa Canal, a Capital outlay of Rs. 7,566 was incurred chiefly on pitching the slopes of the main canal.

On the Ganges Canal a Capital outlay of Rs. 3,76,845 was incurred chiefly on extending the Hardwar Dam; constructing the Motichur spur in the Ganges River; providing additional gates in the Myapur regulator; completing the Protective Works below the Pathri and Ranipur superpassages; constructing a new fall in the Jani escape; and on a number of new drainage works.

On the Lower Ganges Canal, including the Fatehpur Branch, there was a Capital outlay during the year of Rs. 6,22,783. The permanent river training works at Narora were practically completed, twenty-four miles of new drains were opened and others were put in hand. Work was commenced on the extension of the Ghatampur distributary, and good progress was made on the alignments of the Fatehpur Branch and its distributary channels; on the earthwork of the main channel, and on the construction of the more important masonry works.

On the Agra Canal, a Capital outlay of Rs. 1,11,718 was incurred chiefly on a number of important drainage works.

On the Eastern Jumna Canal, a Capital outlay of Rs. 1,82,028 was incurred chiefly on the completion of the retaining weir below the Naogaon Dam and on the extension of the Dam itself.

On Minor Works in operation there was a Capital outlay of Rs. 8,919 on the Dun Canal, of Rs. 2,629 on the Rohilkhand Canals and of Rs. 1,633 on the Bijnor Canals. There was also an expenditure of Rs. 196 on surveys for the Ken Canal.

3. The following table shows for Major Works the mileage of main canal and distributary sanctioned and in operation at the close of the year:—

	Sanctioned.		Completed.	
	Miles of canals.	Miles of distributaries.	Miles of canals.	Miles of distributaries.
Major Works.				
Protective Works—				
Betwa Canal	168	379	168	357
Works of which the Capital outlay is not charged against Revenue—				
Ganges Canal	440	3,000	440	2,614
Lower Ganges Canal, including Fetehpur Branch.	664	2,773	557	2,185
Agra Canal	109	600	109	574
Eastern Jumna Canal . . .	129	646	129	646
Total Major Works, 1895-96 .	1,510	7,398	1,403	6,376
Figures for 1894-95 .	1,510	7,380	1,403	6,320

There was an increase of 56 miles of distributary as compared with the previous year.

Of this, 38 miles was on the Ganges Canal and 13 miles on the Lower Ganges Canal.

4. The financial results of the year under review are shown in the following table :—

CANALS.	Total direct and indirect Capital outlay to end of year.	GROSS REVENUE COLLECTED.			WORKING EXPENSES.			Net. Revenue.	Percentage of net Revenue on Capital outlay.
		Direct Revenue Receipts.*	Share of Land Revenue.	TOTAL.	Direct.	Indirect.	TOTAL.

* Refunds deducted from Direct Revenue.

5. The gross revenue derived from the Major Works was less by Rs 19,84,317 than in the previous year, the working expenses were less by Rs. 3,82,288, so that the net revenue is less by Rs. 16,02,029. The falling off in revenue is due to the abnormal and well distributed rainfall during the cold weather of 1894-95, which as observed in para. 9 of the Review of the Revenue Report for that year practically did away with all necessity for artificial irrigation in the rabi harvest, the collections for which were made in the year under review.

The net revenue derived from the Major Works is equivalent to a return of 3·2 per cent. on the Capital outlay as compared with 5·2 per cent. during the previous year.

The interest charges for the year calculated at 4 per cent. on direct Capital outlay at the commencement of the year and at 2 per cent. on the direct Capital outlay during the year amounted on the Major Works in operation to Rs. 30,37,966, or Rs 4,23,028 in excess of the net revenue. On the Ganges and Eastern Jumna Canals the surplus revenue after paying the interest on direct Capital outlay was Rs. 2,80,005 and Rs. 5,06,350, respectively, while on the Lower Ganges, Agra and Betwa Canals the interest charges were in excess of the net revenue realized.

The surplus of accumulated net revenue over interest charges to the end of the year amounted to Rs. 1,34,73,168, the details of which are given below:—

Account head.	Canal.	Total.		Balance of	
		Net Revenue.	Interest charges.	Net Revenue.	Interest charges.
		Rs.	Rs.	Rs.	Rs.
35	Betwa	—4,07,775	19,95,849	...	24,03,624
49	Ganges . . .	4,11,67,219	3,83,59,695	28,07,524	...
	Lower Ganges . . .	2,01,54,727	2,42,17,566	...	40,62,839
	Agra	50,15,085	75,92,545	...	25,77,460
	Eastern Jumna . .	2,19,50,256	46,44,313	1,73,05,943	...
	Total 49 .	8,82,87,287	7,48,14,119	1,34,73,168	...
	Total, 1895-96 .	8,78,79,512	7,68,09,968	1,10,69,544	...
	Total, 1894-95 .	8,52,64,574	7,37,72,002	1,14,92,572	...
	Total, 1893-94 .	8,10,47,607	7,07,64,557	1,02,83,050	...
	Total, 1892-93 .	7,67,52,452	6,77,80,416	89,72,036	...

6. The net revenue derived from the Minor Works was Rs. 731 greater than in the previous year and represented a return of 2·5 per cent. on the Capital outlay as against 2·4 per cent. during the previous year.

7. The following table gives the results of the existing Provincial contract for the four years during which it has been in force:—

	1892-93.	1893-94.	1894-95.	1895-96.
	Rs.	Rs.	Rs.	Rs.
Revenue—				
Productive Works, Gross direct revenue.	55,99,355	57,71,147	56,23,502	36,72,268
Minor Works	1,86,634	1,74,368	1,50,481	1,37,183
Total .	57,85,989	59,45,515	57,73,983	38,09,451
Expenditure, Provincial—				
Productive Works, Working Expenses	24,29,258	24,38,835	23,69,675	20,08,015
Minor Works { Capital Account .	49,025	37,964	18,344	11,923
Minor Works { Working Expenses .	1,61,970	1,44,210	1,59,269	1,45,511
Minor Works { Neither Capital nor Revenue . . .	96,067	70,393	90,809	57,369
Total .	27,36,320	26,91,402	26,38,097	22,22,818
Net Revenue	30,49,669	32,54,113	31,35,886	15,86,633
Interest charges payable to Government of India	29,00,916	29,17,772	29,42,706	20,81,260
Surplus	1,48,753	3,36,341	1,93,180	—13,94,627

Under this contract the Provincial Government retains the direct Revenue from Major Productive Works and from Minor Irrigation Works, and pays interest to the Imperial Government on the total Capital outlay from all sources on works of the former class, and also on the Capital outlay from Imperial funds on Minor Works and Navigation incurred up to 1877-78.

The result of the wet winter season of 1894-95, *as far as canals are concerned*, was a loss of nearly 14 lakhs of rupees to the Provincial revenues, although the expenditure was less by Rs. 4,66,000 than the average of the previous three years. The share of enhanced land revenue due to canals which amounted to Rs. 12,61,266 is not entered in the above statement.

8. The statement in para. 4 gives the actual collections for the year, and in the following table details of the assessed revenue are given, and the total for each canal is compared with the area irrigated :—

Canals.	Area irrigated.		Assessments, 1895-96.				Assessments, 1894-95.	Rate per acre irrigated.	
	1895-96.	1894-95.	Occupier's rates.	Owner's rates.	Share of land revenue.	Gross assessed revenue, excluding miscellaneous.		1895-96.	1894-95.
1	2	3	4	5	6	7	8	9	10
	Acres.	Acres.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Betwa	35,292	8,041	90,577	...	...	90,577	26,691	2·6	3·3
Ganges	759,297	351,637	25,35,377	87,829	7,15,593	33,38,799	22,59,762	4·4	6·4
Lower Ganges . . .	666,8 0	231,143	18,15,047	1,71,743	2,09,586	21,96,376	9,60,810	3·3	4·1
Agra	184,503	139,166	5,42,400	98,084	...	6,40,484	4,85,970	3·5	3·5
Eastern Jumna . . .	222,476	125,260	9,05,197	6,874	2,49,803	11,61,874	9,18,083	5·2	7·3
Dun	16,027	9,470	46,370	3,422	24,980	74,772	59,617	4·7	6·2
Rohilkhand . . .	108,789	59,276	89,553	9,667	50,070	1,49,290	1,14,769	1·4	1·9
Bijnor	12,809	4,610	15,396	2,684	8,172	26,252	19,270	2·0	4·2
Bundelkhand Irrigation Works—									
Jhansi Lakes . .	1,942	562	3,250	...	1,299	4,549	4,617	2·5	5·3
Hamirpur Lakes .	2,007	296	3,463	...	1,763	5,226			
Total .	2,010,021	929,461	60,46,630	3,80,303	12,61,266	76,88,199	48,49,589	3·8	5·2

9. The area irrigated was 2,010,021 acres, being 1,080,560 acres more than during 1894-95 during which year, however, the area under rabi crop was the lowest recorded for the past thirty years. The rabi season was exceptionally dry—in marked contrast to the rabi season of 1894-95. The area irrigated under rabi was 1,293,265 acres and under kharif 716,756 acres as compared with 151,548 acres and 777,913 acres, respectively, during the previous year.

The kharif area of 1894-95 is the maximum on record. The rabi maximum is 1,471,927 acres, which was attained in 1883-84.

The total assessments per acre irrigated averaged Rs. 3·8 against Rs. 5·2 in 1894-95. The average rate for 1894-95 was high, owing to the low proportion of the rabi to the kharif area.

The occupiers' rate averaged Rs. 3 08 per acre.

10. The areas irrigated under the principal crops were as follows :—

Crops.	1895-96.	1894-95.
	Acres.	Acres.
Sugarcane	214,529	218,006
Rice	150,106	126,826
Indigo	223,441	308,832
Cotton	45,550	50,378
Wheat	728,163	83,973
Barley	74,091	6,385
Gram	79,625	18,689
Poppy	20,864	5,812

The large increase under rabi crops is due to the deficient rainfall of the rabi of 1895-96, while the damp injured both the indigo seed and cane cuttings, to which cause and also to the low prices obtained for the previous indigo crop is attributed the decrease under these crops. The rise in price paid to the cultivator for crude opium from Rs. 5 to Rs. 6 per seer is said to be the chief cause of the increase under poppy.

The value of the irrigated crops is estimated at 641 lakhs of rupees which is equivalent to an average of Rs. 31·8 per acre.

11. The balance of demands unrealized was Rs. 1,87,370 at the beginning, and Rs. 1,90,902 at the end of the year, or 4·9 per cent. of the demand. No explanation has been given of this high percentage which is much in excess of that of previous years.

12. The following statement gives details of the working expenses of the year and the totals compared with those of the previous year :—

Canals.	1895-96.					1894-95.
	Works.	Establishment.	Tools and Plant.	Indirect charges.	Total.	Total.

Hamirpur Lakes	1,147	2,181	..	305	3,933	5,012
GRAND TOTAL	9,47,148	12,70,648	23,179	1,75,728	24,16,703	28,15,020
Per acre irrigated	...	...	...	...	1·30	3·02

The expenditure on extensions and improvements amounted to Rs. 1,20,519 or Rs. 59,763 less than in the previous year.

The expenditure on repairs was Rs. 7,89,880 or Rs. 1,56,036 less than in 1894-95.

The decrease in expenditure on extensions and improvements and repairs is attributed to the issue of stringent orders restricting expenditure to absolutely necessary repairs and postponing all proposed works of improvement.

The working expenses amounted to Rs. 1·21 per acre irrigated on Major Works and Rs. 1·20 per acre irrigated on Minor Works as compared with Rs. 3·08 and Rs. 3·02, respectively, during the previous year. The charges per acre vary to a great extent inversely with the area irrigated.

13. The details of the establishment charges shown in the statement in para. 12 are as follows :—

	Revenue management	Maintenance.	TOTAL.	Percentage.
	Rs.	Rs.	Rs.	
Direction	1,54,538	43,568	1,98,106	15·59
Executive	4,73,492	2,24,832	6,98,324	54·95
Revenue (Irrigation Branch) . .	2,47,178	...	2,47,178	19·46
Revenue—payments by Civil Officers, including fees.	97,819	...	97,819	7·70
Navigation	10,419	...	10,419	0·83
Medical	...	5,128	5,128	0·40
Plantation	...	13,674	13,674	1·07
GRAND TOTAL .	9,83,446	2,87,202	12,70,648	100·00

14. The total working expenses amounted to 47·4 per cent. of the gross revenue realized and the cost of revenue management was 40·7 per cent. of the working expenses or 19·2 per cent. of the gross revenue.

15. The length of navigable channels open at the end of the year was 535 miles as before.

The ton-mileage was $8\frac{2}{3}$ millions, the estimated value of the cargoes was $34\frac{1}{2}$ lakhs of rupees and that of rafts $3\frac{1}{4}$ lakhs.

The number of passengers carried was 552 on the Agra Canal only.

16. The Navigation receipts and charges were as follows :—

CANAL.	RECEIPTS.		CHARGES.	
	1894-95	1895-96.	1894-95.	1895-96.
	Rs.	Rs.	Rs.	Rs.
Upper and Lower Ganges . . .	12,851	11,930	12,119	12,071
Agra	7,084	5,654	10,575	6,792
TOTAL .	19,935	17,584	22,694	18,863

The net revenue from Navigation operations was a loss of Rs. 141 on the Upper and Lower Ganges Canals and of Rs. 1,138 on the Agra Canal, resulting in a deficit on Navigation operations of Rs. 1,279 during the year. The decrease in revenue is attributed to the abolition of tolls on Government boats employed on Government work.

17. The revenue realized on account of water power was Rs. 81,653.

18. The following table gives details of supply utilized and escaped on the four principal canals :—

Canal.	Number of irrigating days.	Mean discharge at head, cubic feet per second.	Discharge utilized, cubic feet per second.	Percentages.	
				Discharge utilized	Discharge escaped.
Ganges	288	4,549*	4,019	88·3	11·7
Lower Ganges . . .	288	4,669	3,386	72·5	27·5
Agra	271	1,300	1,081	83·1	16·9
Eastern Jumna . . .	309	1,209	1,069	88·4	11·6

* Exclusive of the volume passed on to the Lower Ganges Canal.

Owing to the greater demand for canal water the percentage of discharge utilized is greater on all canals than during the previous year.

19. The following figures relate to the water duty obtained and the assessments per cubic foot of discharge :—

Canal.	Area irrigated per cubic foot		Total assessment per cubic foot of discharge utilized.	Occupiers' rate per acre	Total assessment per acre.
	Of discharge at head.	Of discharge utilized.			
	Acres.	Acres.	Rs.	Rs.	Rs.
Ganges . . .	167	189	831	3·34	4·40
Lower Ganges . . .	143	197	649	2·72	3·29
Agra	142	171	592	2·94	3·47
Eastern Jumna . . .	184	208	1,087	4·07	5·22

20. The following particulars relate to distributaries :—

Canal.	Average.		
	Area irrigated per mile of distributary.	Number of outlets per mile.	Area irrigated per outlet.
	Acres.		Acres.
Ganges	285	6·6	43
Lower Ganges	303	5·3	57
Agra	318	6·9	46
Eastern Jumna	336	5·7	59

21. The usual measurements of the level of water in wells were made during the year.

Following the incidence of the rainfall, there was a rise of spring level in the northern and a fall in the central and southern portions of the Doab commanded by the Upper and Lower Ganges Canals.

22. The outlay on drainage works charged against Capital amounted to Rs. 2,01,500, and 120 miles of drainage channels were excavated during the year.

The charges for extensions and improvements and repairs and maintenance of drainage channels connected with works for which Capital and Revenue Accounts are kept was Rs. 73,418. The expenditure on Agricultural (chiefly drainage) works was Rs. 46,374.

It is stated that the drainage channels acted efficiently, and that the heavy local bursts of rainfall which were a marked feature in June, July and August were quickly carried off and resulted in comparatively little damage to crops.

23. The following figures relate to the Tarai and Bhabar Canals on which the water revenue credited to the canals is an arbitrary portion of the land revenue, no separate water-rate being assessed :—

Canals.	Irrigated area.	Revenue Receipts.				Revenue Expenditure.				
		Water-rate.	Plantations	Water-power.	Total	Original works.	Repairs.	Establishment.	Tools and Plant.	Total.
	Acres.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Tarai	3,633	20,542	...	...	20,542	...	...	...	...	17,429*
Bhabar	48,089	1,31,100	...	33,245	1,64,345	4,446	61,063	13,201	1,508	80,218

* Details not given in the Revenue Report.

24. The Revenue Report was received by the Government of India on the 7th December 1896 and is accompanied by the usual maps and diagrams.

The Governor General in Council notices with satisfaction that the Lieutenant Governor and Chief Commissioner desires to thank the Chief Engineer and the officers of the North-Western Provinces Irrigation Branch for their management of the canals during the year.

ORDER.—Ordered, that copies of this Review and of the Report be forwarded to the Revenue and Agricultural Department for information.

Ordered, also, that copies of this Review be forwarded to the Government of the North-Western Provinces for information, and that copies of the Review be forwarded to the Local Governments and Administrations in the Public Works Department, noted on the margin, for information.

The Governments of Madras, Bombay, Bengal, and the Punjab
The Chief Commissioners of the Central Provinces, Burma, Assam, and Coorg.
The Residents at Hyderabad and Mysore
The Agents to the Governor General in Central India, Rajputana, and Baluchistan.

Ordered further, that this Review be published in the *Gazette of India*, and that copies of this Review and of the Report be forwarded to Her Majesty's Secretary of State for India.

The 12th March, 1897.

No. 110.—The following is published for general information :—

No. 234 R. T.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT—RAILWAY TRAFFIC.

Calcutta, the 11th March 1897.

General Rules of 1895 for working railways open for traffic.

READ—

Section 47 of the Indian Railways Act, 1890.

Government of India, Public Works Department, notification No. 118, dated the 21st March 1895, publishing—in the *Gazette of India* of the 23rd March 1895—the Government of India circular No. 6 Railway, dated the 12th March 1895, and the General Rules, there-

with promulgated, for all open lines of railway in British India administered by the Government.

Government of India, Public Works Department, notification No. 257, dated the 28th May 1896, publishing—in the *Gazette of India* of the 30th May 1896—the Government of India circular No. 3 Railway, dated the 22nd May 1896, and the amended rules therewith promulgated.

Government of India, Public Works Department, notification No. 55, dated the 5th February 1897, publishing—in the *Gazette of India* of the 6th February 1897—the Government of India circular No. 3 Railway, dated the 3rd February 1897, and the addenda and corrigenda to the rules therewith promulgated.

Letter from the Chief Commissioner of Assam, No. 577, dated the 9th February 1897, forwarding letter from the Agent and General Manager of the Assam Railways and Trading Company, Limited, No. 3344 G., dated the 17th November 1896.

OBSERVATIONS.—The Agent and General Manager of the Assam Railways and Trading Company, Limited, has applied that the General Rules for working open lines of railway, which were published under the Government of India, Public Works Department, notification No. 118, dated the 21st March 1895 (*vide* the *Gazette of India* of the 23rd March 1895), as modified by the Government of India circulars Nos. 3 Railway, dated the 22nd May 1896, and 3 Railway, dated the 3rd February 1897, which were published under Public Works Department notifications Nos. 257, dated the 28th May 1896, and 55, dated the 5th February 1897 (*vide* the *Gazette of India* of the 30th May 1896 and 6th February 1897), may be made applicable to the Ledo and Tikak Margherita Colliery branch of the Assam Railways and Trading Company, Limited.

RESOLUTION.—The Governor General in Council is pleased to sanction the application of the General Rules for working open lines of railway which may, for the time being, be in force on the Dibru Sadiya railway to the Ledo and Tikak Margherita Colliery branch of the Assam Railways and Trading Company, Limited, from the date of opening for the public carriage of passengers, animals or goods.

ORDER.—Ordered that this resolution be published under a notification in Part I of the *Gazette of India* as required by section 47, sub-section (3), of the Indian Railways Act, 1890; also that the General Rules cited in the foregoing observations—which have already been published in the *Gazette of India*—be kept at railway stations as directed by sub-section (6) of the same section.

Ordered, also, that this resolution be communicated to the Chief Commissioner of Assam, for information and guidance.

The 9th March, 1897.

TELEGRAPH.

No. 103.—The Governor General in Council is pleased to order the following officiating and temporary promotions in the Superior Establishment of the Indian Telegraph Department, with effect from the 6th March, 1897, and until further orders :—

NAME.	From	To
Mr. W. F. Melhuish . . .	Director, class III . . .	Deputy Director General, class II, officiating.
Mr. J. J. Allen	Chief Superintendent, class IV .	Director, class III, temporary.
Mr. H. E. Chappel . . .	Assistant Superintendent, class VI, 1st grade.	Superintendent, class V, 2nd grade, temporary.

W. S. S. BISSET, *Colonel, R.E.*,
Secretary to the Government of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, MARCH 13, 1897.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

WM. ROSS.

Publisher, Gazette of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Calcutta, the 12th March, 1897.

NOTIFICATIONS.

No. 858 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 6th March 1897:—

No. 82 of 1897.—Herbert Hoyle, silk dresser, of 9, Temperance street, Commercial road, Halifax, in the county of York, and Edwin Scarborough, coal merchant, of Crossley street, Halifax, aforesaid, for improvements in machinery for combing and dressing silk and other fibres.

No. 83 of 1897.—Albert Legg, secretary, of Allendale, in the county of Bergen, and state of New Jersey, and Charles Ward Weston, president, of 454, West 144th street, in the city of New York, county and state of New York, for improvements in sewing machines.

No. 84 of 1897.—Messrs. Ferd, Petersen & Co., chemical manufacturers, of Schweizerhalle near Bâle, Switzerland, for the manufacture of substantive cotton dye stuffs from benzidine sulpho-acids.

No. 85 of 1897.—Dr. B. Das & Co., patent medicine sellers, of 86, Aheereetola street, Calcutta, for an improved form of kerosine lamp with mica chimney.

No. 86 of 1897.—Daniel Hall and James Henry Kay, tin plate workers, both of Ashton-under-Lyne, in the county of Lancaster, for improved means for humidifying air.

No. 87 of 1897.—Amariah Lake, merchant, of Pleasantville, in the county of Atlantic, and state of New Jersey, United States of America, for an illusory apparatus.

No. 859 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George and Bombay, the Chief Commissioner of Burma, and the Director of the department of land records and agriculture, North-Western Provinces and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West, Calcutta), on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 16 of 1896.—Edward Nicoll Dickerson, of the city, county and state of New York, and Julius John Suckert, of Ridgewood, Bergen county, in the state of New Jersey, United States of America, for an improved process of an apparatus for producing and liquefying acetylene gas. (Specification filed 26th February 1897.)

No. 54 of 1896.—Taylor Burrows, engineer, of 88, Upper Kennington lane, London, and Dick Edwards Radclyffe, gentleman, of 56, Gloucester crescent, Regent's park, London, for a machine for breaking or decorticating and scutching fibrous plants, stems, or straws, such as ramie, hemp, and the like, throughout the length thereof at one operation. (Specification filed 26th February 1897.)

No. 250 of 1896.—Frederick Henry Addis, district railway locomotive superintendent, Mhow, Central India, for a new or improved apparatus for cooling air adapted to both rooms and vehicles, and applicable to refrigerators and the like. (Specification filed 27th February 1897.)

No. 263 of 1896.—Edwin Arthur Powell, engineer, of corner of Collins and William streets, Melbourne, in the colony of Victoria, for an improved blind-roller, and apparatus for forming same. (Specification filed 26th February 1897.)

No. 268 of 1896.—John James Marsland, an assistant in the firm of Messrs. Richardson and Cruddas, engineers, Bombay, for a new or improved apparatus for discharging night-soil and the like into sewers. (Specification filed 3rd March 1897.)

No. 274 of 1896.—Herman Frasch, manufacturer, of Euclid avenue, corner Kennard street, in the city of Cleveland, in the county of Cuyahoga, and state of Ohio, United States of America, for improvements in mining gold and similar metals. (Specification filed 26th February 1897.)

No. 275 of 1896.—Galileo Ferraris, professor of electrical technology, at the Industrial Museum, of 46 Via Venti Settembre, Turin, and Riccardo Arno, electrical engineer, of 24 Via Sant'Anselmo, Turin, for improvements in and relating to the distribution of alternating currents. (Specification filed 26th February 1897.)

No. 373 of 1896.—William James Orsman, analytical chemist, of Gathurst, in the county of Lancaster, for improvements in the manufacture of explosives, applicable for use in coal or other fiery mines. (Specification filed 26th February 1897.)

No. 406 of 1896.—Fredrik Ljungström, mechanician, of 37, Kommendorsgatan, Stockholm, for improvements in evaporating or heating apparatus. (Specification filed 27th February 1897.)

No. 423 of 1896.—Frederic Fowler Farlow, engineer, Bombay, for a self-acting tank low-water alarm. (Specification filed 5th February 1897.)

No. 432 of 1896.—Henri Edouard Couzineau, wholesale clothier, of 81, rue Gambetta, Lille, in the Republic of France, for improvements in apparatus for printing or impressing designs, patterns or outlines, for garments, on fabrics or other materials, or for analogous purposes. (Specification filed 27th February 1897.)

No. 456 of 1896.—Bernhard Baron, manufacturer, of 51, St. Mary Axe, London, for improvements in cigarettes, and in method of and apparatus for manufacturing the same. (Specification filed 26th February 1897.)

No. 860 P.—THE undermentioned designs have been registered, under the provisions of the Inventions and Designs Act, 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Fort St. George and Bombay, and the Chief Commissioner of Burma. These and other designs are open to public inspection, from 11 A.M. to 4 P.M., at the Secretary's office (Imperial Secretariat, Government Place, West), Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying :—

No. 4D of 1897.—Joseph Henry Johnson, mechanical engineer, Aligarh, North-Western Provinces, for pepper castors.

No. 5D of 1897.—Isaac Benjamin, artist and proprietor of the Bombay Art Furnishing Establishment, Gowalia Tank road, Bombay, for a square-tapered leg partly ornamented with angular reeded mouldings, to be used as such in any article of furniture.

No. 6D of 1897.—Messrs. Parry and Company, merchants, Madras, for a floral border and heading to be printed on cotton or silk goods in various colours.

No. 861 P.—THE fees prescribed in Schedule 4 of Act V of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 152 of 1888.—Ernest Hulburd, merchant, of Rouen, in the Republic of France, for improvements in and relating to metallic packing. (From 6th March 1897 to 6th March 1898.)

No. 39 of 1889.—James Gresham, of the firm of Gresham and Craven, engineers and machinists, of Craven iron works, Salford, in the county of Lancaster, for improvements in apparatus for applying sand or other substances to prevent the slipping of the driving wheels of locomotives. (From 20th March 1897 to 20th March 1898.)

No. 318 of 1889.—Leopold Cassella and Company, manufacturing chemists, of Frankfort-on-Main, Germany, for the production of new red colouring matters. (From 16th April 1897 to 16th April 1898.)

No. 248 of 1890.—John Donnelly, engineer, of the Metropolitan works, Dockley road, Bermondsey, in the county of Surrey, for improvements in the manufacture of axle boxes. (From 14th March 1897 to 14th March 1898.)

No. 73 of 1892.—Edward Lennon Cantwell, civil engineer and patent agent, 5, Old Post Office street, Calcutta, for an improved huller for rice, coffee and grain, and for scouring and cleaning rice, wheat, and every description of grain. (From 1st March 1897 to 1st March 1898.)

No. 152 of 1892.—Henry Thompson, engineer, of Ipswich, in the county of Suffolk, for improvements in the method of and apparatus for drying tea leaf and the like. (From 10th March 1897 to 10th March 1898.)

No. 326 of 1892.—Charles Hodgson, engineer, of Canterbury road, Kilburn, in the county of Middlesex, for improvements in apparatus for working railway points and signals. (From 14th April 1897 to 14th April 1898.)

No. 14 of 1893.—Samuel Edward Haskin, manufacturer, Avoca, Stenben county, state of New York, United States of America, for an improved process and apparatus for vulcanizing wood. (From 1st August 1897 to 1st August 1898.)

No. 862 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act (V of 1888), the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2) of the said Act, the exclusive privilege of making, selling, and using the said inventions in British India and of authorizing others so to do has ceased :—

No. 3 of 1892.—Arthur Elphinstone Cummins' invention for a new or improved method of baling cotton without using the ordinary hoops or lashing. (Specification filed 2nd December 1892.)

No. 125 of 1892.—William Carew's invention for an improved combined machine for capping, uncapping, loading, and crimping any two sizes of B. L. cartridges, *viz.*, 12 and 24—12 and 16—16 and 24. (Specification filed 1st December 1892.)

No. 239 of 1892.—James Macay Taylor's invention for a water-lift, known as the "blame water-lift." (Specification filed 5th December 1892.)

No. 264 of 1892.—Clarence Canning Hearsey's invention for an improved method of sustaining the combustion of charcoal and other materials used in the smoking of hookahs with chillums. (Specification filed 30th November 1892.)

Fee in respect of the continuance of an exclusive privilege—

(4) (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of ₹50 for each of the said inventions.

NOTICES.

All communications relating to Act V (the Inventions and Designs Act) of 1888 should be addressed to the "Secretary to the Government of India, Department of Revenue and Agriculture (PATENTS BRANCH), CALCUTTA."

The office of the Secretary under the Act is open for the transaction of business from 11 A.M. to 4 P.M. on all days except Sundays and gazetted holidays.

The Government of India are advised that as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's office are now on sale to the public at one anna and eight annas a copy respectively.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified; or, if the tenth day is a holiday, till the evening of the office day next following.

AGENT TO THE GOVERNOR GENERAL AT BARODA.

NOTIFICATION.

RULES UNDER ACT III OF 1897.

Baroda Residency, the 5th March, 1897.

No 3208.—Whereas on account of the entry into Baroda of persons suffering from a dangerous Epidemic disease, namely Bubonic Plague, the Baroda Cantonment is threatened by an outbreak of such epidemic disease amongst the inhabitants thereof, and whereas the Agent to the Governor-General at Baroda is of opinion that the ordinary provisions of the law for the time being in force are inadequate for the purpose of preventing the spread thereof, pursuant to the provisions of section 2, and sections 1 and 2 of the Epidemic Diseases Act, 1897, and in exercise of the powers in this behalf conferred

by the Governor-General in Council under section 2, sub-section 3 of the same Act, the Agent to the Governor-General at Baroda is pleased to empower the Cantonment authorities for the Cantonment of Baroda and to take measures hereinafter specified to prevent the spread of Bubonic Plague, and is further pleased to prescribe the temporary Regulations hereinafter set forth to be observed by the public and all persons concerned. :—

1. No person suffering from Bubonic Plague shall enter or be conveyed or be caused to be conveyed into the Cantonment limits.

2. In the event of the plague making its appearance within the Cantonment of Baroda, the Cantonment Magistrate, subject to the general instructions of the Officer Commanding at Baroda, may appoint special officers, either by name or by virtue of office, to carry out, under the Cantonment Magistrate's general directions, all measures necessary to prevent the spread of the plague.

The special officers appointed for the Cantonment of Baroda may be selected from the Native or European officers serving in the garrison at Baroda

3. At any place specially appointed by the Cantonment Magistrate and situated on a road leading to the Cantonment any officer on duty, or, person specially authorised in this behalf by the Cantonment Magistrate, may detain for the purpose of Medical Examination any person whom he reasonably believes to be suffering from the plague and shall if he be not himself a Medical Officer, give information of the detention to the Medical Officer of the Cantonment or the Hospital Assistant in charge of the Nanavati Dispensary.

4. In the Cantonment of Baroda to which this rule applies, an occupant of a house or building, or the principal surviving member of a family, shall give immediate information to the Kotwal or the Hospital Assistant in charge of the Nanavati Dispensary of any sickness or death due or likely to be due to plague in such house or building or among the members of such family.

5. The Kotwal and the Hospital Assistant aforesaid shall, in every case without delay, communicate the fact to the Cantonment Magistrate and the Sanitary Officer respectively, and the latter officer shall be bound to come to the place indicated.

6. Immediately on receiving information under the above rule the Sanitary Officer shall go to the place indicated, and if the place be a house or dwelling place, and if the occupant or occupants thereof do not (on the demand of the Cantonment authorities) allow him to enter and give him reasonable facilities for ascertaining whether any of the inmates are suffering from the plague, the Cantonment authorities are hereby empowered to enter into such house or any part thereof by force and to detain for the purpose of Medical Examination any person found therein to be suffering or suspected to be suffering from the plague.

7. Every person having the control or charge of any building, or part of a building, shall, on demand by the Cantonment Magistrate or Sanitary Officer, immediately cause such building or part of a building to be opened, and shall permit the Cantonment Magistrate or Sanitary Officer to cleanse or disinfect the same, and to cause the removal for disinfection or destruction of any bedding or clothing, or of any other goods or articles found therein.

For the purpose of enforcing and carrying into effect the said Regulation, the Cantonment Magistrate will, whenever he shall deem it necessary to do so break open and forcibly enter any such building or part of a building, and, without previous notice to the owner or occupier thereof, will cleanse or disinfect the same, and direct or cause the forcible removal and disinfection or destruction of any bedding, clothing, goods or articles as aforesaid.

8. If for any reason it shall appear to the Cantonment Magistrate personally, or, be reported to him by the Sanitary Officer, that any building intended for or used as a dwelling is unfit for human habitation, he may prohibit by a written order the further use of such building as a dwelling, and cause notice of such prohibition to be affixed to the door of, or, on some conspicuous part of such building.

As a temporary Regulation it is hereby prescribed that, when any such prohibition has been made, no owner or occupier of such building shall use or suffer the same to be used for human habitation until the Cantonment Magistrate certifies in writing, after consulting the Sanitary Officer, that the causes rendering it unfit for human habitation have been removed to his satisfaction and that of the Sanitary Officer.

For the purpose of enforcing and carrying into effect the said Regulation, the Cantonment Magistrate may, if necessary, forcibly remove any such person from such building and may prevent the re-occupation thereof until such time as he shall have certified as aforesaid.

9. If it shall appear to the Cantonment Magistrate that any building used as a dwelling is so over-crowded as to endanger the health of the inmates thereof, he may, by written order, request the owner or occupier of the building, within a period to be fixed by him to abate the over-crowding thereof by reducing the number of inmates thereof

For the purpose of enforcing this Regulation, the Cantonment Magistrate may, if necessary, at the expiration of the time prescribed in the written order, forcibly remove or cause to be removed such and so many of the inmates of the building as shall seem to him to be proper.

10. Any person suffering from Bubonic Plague, wheresoever found, shall, on a certificate signed by the Sanitary Officer or by any duly qualified Medical Officer or practitioner that such person is suffering from the said disease, be liable to be removed to such Hospital as shall be selected for the purpose by the Cantonment authorities for treatment, and retained there until cured.

For the purpose of enforcing and carrying into effect the said Regulation, the Cantonment Magistrate, or, any Police officer empowered by the Cantonment Magistrate in this behalf, will, whenever he shall deem it necessary so to do, cause any person, in respect of whom such certificate as aforesaid has been made, to be removed to hospital.

Provided always that no person suffering from the said disease shall be so removed if, in the opinion of the Sanitary Officer, such person is provided with proper lodging or accommodation and is being properly cared for, and so situated as not to be a source of danger to the public.

11. Every building or part of building in which any case of the aforesaid disease exists or has existed shall, for so long as the Cantonment Magistrate, on the strength of the Sanitary Officer's report, shall deem necessary, be isolated in accordance with such orders as the Cantonment Magistrate may in each case prescribe, and every occupant of such house, or, other person who may be therein, or, who may resort or desire to obtain access thereto, shall obey any order which he may receive from the Cantonment Magistrate prohibiting ingress or egress from such house.

For the purpose of enforcing and carrying into effect the said Regulation, the Cantonment Magistrate, or, any Police officer empowered by the Cantonment Magistrate in this behalf, will, if necessary forcibly prevent persons from entering or leaving such building or part of building.

12. The operation of cleansing or disinfecting a building within the meaning of this Notification shall be deemed to include not only the cleansing and lime-washing of such building, but also, if deemed necessary the removal of the earth or soil of the ground floor thereof to a depth of 4 inches, the removal of the whole or any part of the roof thereof, the removal of floors, the burning of kerosine oil or any other substance thereon, or any other measure whatever.

The expense of carrying into effect any of the measures hereby authorized for cleansing or disinfecting a building shall, in the first instance, be defrayed by the Cantonment Magistrate out of the Cantonment Fund, but shall, at his discretion, be recoverable from the owner or occupier of such building under the ordinary provisions of the Cantonment Act XXII of 1864, in the same manner, in all respects, as if the work had been done after notice and after failure to comply with notice within the meaning of section 30, Chapter IV of the same Act.

13. The Cantonment Magistrate is empowered to make regulations, when he deems it necessary, for enforcing burial in certain places or at a certain depth and for requiring that quick lime be placed with the corpse and may prohibit the burying or burial of corpses of persons reasonably supposed to have died of the plague in or upon the ground other than that specially assigned by him for such purposes.

14. The Cantonment Magistrate is to do his utmost, both personally and through orders, to make it generally understood throughout the Cantonment that these rules are necessary for the public safety, and to see that no needless inconvenience is caused to any one; that examination, etc., are carried out with as much regard to sex and the customs of the country and that everything is done to meet the wishes of the patient so far as compatible with the public safety.

15. The provisions of this notification are not intended to, and shall not operate to limit in any way any power the Cantonment Magistrate may possess independently of the powers hereby conferred.

16. Any person committing a breach of any of the aforesaid Regulations shall be liable to be punished under section 188, Indian Penal Code, with imprisonment for six months or with fine which may extend to ₹1,000, or with both.

N. C. MARTELLI, *Lieut.-Colonel*,
Agent to the Governor-General at Baroda.

AGENT TO THE GOVR.-GENERAL IN BALUCHISTAN.

NOTIFICATION.

Quetta, the 4th March, 1897.

No. 623—Under the provisions of section 5 (2) of the Baluchistan Agency Criminal Justice Law, the Cantonment Magistrate at Loralai is hereby authorised to try in a summary way all, or any of the offences mentioned in section 260 of the Criminal Procedure Code, which under section 29 he is competent to try.

By Order,
S. G. KNOX, *Lieut.*,
Second Assistant.

AGENT TO THE GOVR.-GENERAL AND CHIEF COMMISSIONER IN BRITISH BALUCHISTAN.

NOTIFICATIONS.

Quetta, the 2nd March, 1897.

No 597.—In exercise of the powers conferred upon him by section 6 (*b*) of the Baluchistan Agency Civil Justice Law and of the British Baluchistan Civil Justice Regulation, 1896 the Agent to the Governor General and Chief Commissioner is pleased to direct that Munshi Bashir Ali Officiating Munsif of Sibi, shall have jurisdiction in the Sibi Sub division to try original suits of value not exceeding five hundred rupees, with effect from the date of his assuming charge of the said appointment.

No 600.—In exercise of the powers conferred upon him by section 94 (1) of the Baluchistan Agency Civil Justice Law and of the British Baluchistan Civil Justice Regulation, 1896, the Agent to the Governor-General and Chief Commissioner is pleased to confer upon Mushi Bashir Ali, Officiating Munsif of Sibi, the jurisdiction of a Judge of a Court of Small Causes for the trial of suits, cognizable by such Courts, up to fifty rupees in value, to be exercised by him within the local limits of the Sibi Sub-division and with effect from the date of his assuming charge of the said appointment.

By Order,
S. G. KNOX, *Lieut.*,
Second Assistant.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

Abu, the 21st February, 1897.

No 765—190.—In exercise of the powers conferred by section 5 of the Ajmere Courts Regulation (I of 1877) and with the previous sanction of the Governor-General in Council, the Chief Commissioner of Ajmere-Merwara appoints Mir Sayyid Hussain, while holding charge of the current duties of the office of Extra Assistant Commissioner, 1st grade, to be a Subordinate Judge of the 1st class in the District of Ajmere-Merwara.

No. 767—190-C.—Under section 11 of the Ajmere Courts Regulation, 1877, the Chief Commissioner of Ajmere-Merwara, with the previous sanction of the Governor-General in Council, invests Mir Sayyid Hussain with the powers of a Judge of a Court of Small Causes, to be exercised, while he holds the appointment of Subordinate Judge of the 1st class and within the limits defined below:—

The Ajmere Division of the Ajmere-Merwara District with the exception of the Kekri pergunnah, the Goela Thana, the Deoli Cantonment, the jurisdiction as specified in the Notification of June 1877 of the Cantonment Magistrate, Nasirabad, and the jurisdictions of the Honorary Magistrates of Bhinae, Masuda Deolia, Bandanwara, Khirwa, and Pisangan.

By Order,

L. IMPEY, *Captain*,

First Assistant to the Governor-General's Agent Rajputana, and Chief Commissioner, Ajmere-Merwara.

THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 27th February, 1897.

No. 829.—Mr. Mahomed Yakub made over, and Mr Abdul Rahman, Khan Bahadur, assumed charge of the Court of the 2nd Magistrate and the Resident's Treasury, Bangalore, on the afternoon of the 6th February, 1897.

The 3rd March, 1897.

No. 849.—In continuation of Notifications Nos. 761 and 762 of the 25th ultimo, the Resident in Mysore is pleased to prescribe, under Section 2, Sub-Section (1) of the Epidemic Diseases Act, 1897, as applied to the Civil and Military Station, Bangalore, the following temporary regulations to be observed in the said station:—

I.—These regulations shall come into force at once and shall remain in operation until such time as they shall be withdrawn by Notification by the Resident.

II.—Every house-holder who becomes cognizant of any case of the bubonic plague or of fever with glandular swellings in his house or in any other private dwelling within the Civil and Military Station of Bangalore, shall be bound to give information of the same to the Residency Surgeon or the Health Officer of the Municipality with the least practicable delay.

III.—Any house, building or land which, in the opinion of the Residency Surgeon or the Health Officer, is suitable and required for the purpose of an isolation hospital for persons suffering or suspected to be suffering from the bubonic plague, may be entered upon and occupied by the President of the Municipal Commission of the Civil and Military Station, Bangalore (if untenanted without any notice whatsoever, and if tenanted, after twenty-four hours' notice in writing has been conspicuously posted on such house, building or land) and may be used for the purposes of such isolation hospital. The owner or lessee of such house, building or land shall not be entitled to claim from the Municipal Commission of the Civil and Military Station, anything beyond a reasonable rent for the period during which such house, building or land may remain in their occupation, provided always that the said Municipal Commission shall be bound at their own cost to cleanse and disinfect the said house, building or land and, if a house or building, to limewash it both internally and externally, before vacating it.

IV.—The President of the Municipal Commission, on receiving a certificate signed by either the Residency Surgeon, Bangalore, or the Health Officer of the Municipality that a person is suffering or believed to be suffering from the bubonic plague, and that the house in which such person is living is not a fit place for such person to remain in, may order that such person be removed to, and detained in, any hospital or other place specially set apart for the reception of persons suffering or suspected to be suffering from the plague respectively.

V.—When in the opinion of the Residency Surgeon or the Health Officer, the further occupation of any house or building is, by reason of such house or building or the immediate surroundings thereof being *infected* with plague, *likely to lead to the* spread of the disease, the President of the Municipal Commission may summarily cause such house or building to be vacated and thoroughly cleansed and disinfected, and such house or building shall not be re-occupied until, in the opinion of the Residency Surgeon or the Health

Officer, it is safe to be re-occupied. The owner or occupier or the tenants or inmates of such house or building shall not be entitled to claim any compensation on account of such compulsory vacation.

VI.—If in the opinion of the Residency Surgeon or Health Officer, the destruction of any hut or shed is necessary to prevent the spread of the plague, the President of the Municipal Commission may summarily take measures for the destruction of such hut or shed and of the materials of which it is constructed. The President may in his descretion give such compensation as appears to him reasonable from the Municipal Funds for any loss or damage sustained by any person by reason of such destruction.

VII.—The provisions of this Notification are not intended to, and shall not operate to, limit in any way any powers which the President of the Municipal Commission may possess independently of the powers hereby conferred.

VIII.—Any person disobeying or contravening any of the foregoing regulations shall be deemed to have committed an offence punishable under Section 188 of the Indian Penal Code, and shall be liable on conviction to be punished with imprisonment of either description for a term which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

By Order,

K. D. ERSKINE, *Captain*,
First Assistant to the Resident.

Parcels for the United Kingdom and other Foreign places.	16th ,,	Ditto.
*Australasian Colonies . .	19th ,,	*Vid* Tuticorin and Colombo.*
Madras, Pondichery, Ceylon, Singapore, China, and Japan.	19th ,,	Per French Str. *Eridan.*
Colombo	16th ,,	Per P. & O. Str. *Nubia.*
Straits Settlements, China, and Japan.	16th ,,	Per Steamer *Lightning.*
Rangoon and Moulmein . .	18th ,,	Per B. I. S. N. Co.'s Steamer.
Rangoon, Moulmein, Tavoy, and Mergui.	15th ,,	Ditto.
Rangoon, Moulmein, Penang, and Singapore.	13th ,,	Ditto.
Ditto ditto ditto (Supplemental).	14th ,,	Ditto.
Akyab, Kyaukpyu, Sand way, and Rangoon	17th ,,	Ditto.
Port Blair	18th ,,	Per Steamer from Madras

*Although the date entered in column 2 is, as far as can be calculated, the latest safe date of closing for the next Mail Steamer, full allowance being made for the steamer being in advance of her published timing, Mails for the places mentioned in column 1 are despatched daily to Colombo, so that they may proceed by any steamer that has been unusually accelerated or retarded, or by any special opportunity that may be afforded by a steamer not belonging to one of the regular lines.

The letter-box for Inland articles including articles for Burma and Port Blair and for Colombo (sea route) will be cleared for the last time for articles without the late fee at 7-30 P.M. precisely, after which hour Inland letters and papers fully prepaid and bearing an extra postage stamp of half anna will be received up to 8 P.M. and up to 8-45 P.M. with a late letter fee of 1 anna for the Chord Mail only.

On the day of despatch of the Mail for the Australasian Colonies *viâ* Tuticorin, the letter-box for Foreign articles will be cleared for the last time for article without the late fee at 5-30 P.M., and late letters and papers fully prepaid will be received up to 7 P.M.

On the day of despatch of the Mail for Europe, the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 9 P.M., and late letters and papers fully prepaid will be received up to 9-30 P.M. On these days the letter-box for Foreign articles will be cleared for the last time for articles without the late fee at 7-30 P.M., and late letters and papers will be received up to 9 P.M. for despatch by any Foreign Mails despatched the same night. The late fee for Foreign articles is 4 annas, which must be prepaid in stamps affixed to the articles.

JOHN OWENS,
Presidency Postmaster, Calcutta.

POSTAL NOTICE.

The transmission by the foreign post of parcels or other articles containing rags and rubbish; worn linen that has not been washed; worn clothes, including used boots; bedding, rugs, bed-clothes, mattresses, cushions and other articles that are used or may be used as such, is prohibited until further notice.

A. [illegible] LAWE,
Director General of Post Office of India.

CALCUTTA;
The 11th March, 1897.

POSTAL NOTICE.

Until further notice parcels will not be accepted for transmission by post to France.

A. U. FANSHAWE,
Offg. Dir. Genl. of the Post Office of India.
CALCUTTA,
The 5th March, 1897.

PUBLIC WORKS DEPARTMENT.

Cinchona Febrifuge can be purchased by all Government officers, and by anyone taking *six pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, at the following rates —per four-ounce tin, *R1-8*; per eight-ounce tin, *R3*; per pound tin, *R10*. The general public can be supplied by the Superintendent, Botanic Garden, *for cash only*, at the undernoted rates: per four-ounce tin, *R3*; per eight-ounce tin, *R6*; per pound tin, *R12*. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage, four annas per four-ounce tin, eight annas per eight-ounce tin, and twelve annas per pound tin, in addition to the foregoing rates.

سنکونا فبري فیوج یعنے تپ بھگانے والے سنکونا *

سنکونا فبري فیوج 1810 نے بوٹانکل کارڈن یعنے ڈیلی باغ کے سپرنٹنڈنٹ صاحب سے ہرایک ملازم سرکاري اور ایک مشت چھ پونڈ تک لینے والا ہر آدمی حسب نرخ ذیل خرید کرسکتا ہی — یعنے چار اونس والا ٹین بقیمت دو روپیہ آٹھہ آنہ ؛ آٹھہ اونس والا ٹین بقیمت پانچ روپیہ ؛ ایک پونڈ والا ٹین بقیمت دس روپیہ *

عام آدمیون کو یہہ دوا بوٹانکل کارڈن یعنے کمپنی باغ کے سپرنٹنڈنٹ صاحب سے بقیمت نقد حسب نرخ ذیل مل سکتی ہی — یعنے چار اونس والا ٹین بقیمت تین روپیہ ؛ آٹھہ اونس والا ٹین بقیمت چھہ روپیہ : یک پونڈ والا ٹین بقیمت بارہ روپیہ *

یہہ دوا کلکتہ نے بڑے بڑے ولایتی اور دیسی دواخانون مین بھی بکتی ہی — ماسوائے قیمت مذکورۂ بالا نے محصول ڈاک چار اونس والے ٹین ، چار آنہ ؛ آٹھہ اونس والے ٹین ۸ آٹھہ آنہ : اور ایک پونڈ والے ٹین ۸ بارہ آنہ *

PURE SULPHATE OF QUININE.

Manufactured at the Bengal Government Cinchona Plantation.

From 1st April, 1896, the price of this Quinine will be as follows:—

1-pound tin,	₹18,	or, post free,	₹18-12.
½	,,	₹ 9,	,,	₹9-8.
¼	,,	₹4-8,	,,	₹5.

Analysis shows this Quinine to be of the purest manufacture; and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Cinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash and may be had from the Superintendent, Botanic Garden, Seebpore, near Calcutta.

বঙ্গদেশের গবর্ণমেণ্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ কুইনাইন।

১৮৯৬ সালের ১লা এপ্রেল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন	১৮৲	বা ডাকমাশুল বিনা	১৮৲০
½ আধ ,, ,,	৯৲	,,	৯৲০
¼ সিকি ,, ,,	৪৲৮	,,	৫৲

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধ রূপে প্রস্তুত করা হইয়াছে। এবং ইহা যে সিন্‌কোনাইন ও সিনকোনিডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছা পূর্ব্বক মিশান হয় নাই তাহার গারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেণ্টের কর্ম্মচারীগণের নিকট বিক্রয় করা যাইবে, এবং কলিকাতার নিকটস্থ সিবপুরের বোটানিকাল বাগানের সুপারিণ্টেণ্ডেণ্টের নিকট পাওয়া যাইতে পারিবে।

Catalogue of Books procurable from Thomason College Book Depot, Roorkee.

Application to be made to Curator.

CASH MUST ACCOMPANY ORDER. ARTICLES WILL BE SENT BY VALUE-PAYABLE POST TO PERSONS IN GOVERNMENT EMPLOYMENT ONLY.

J. CLIBBORN, *Lieut.-Col., I.S.C.,*
Principal, Thomason College, Roorkee.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad, respectively.

In supersession of the previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows for current issues, as well as for back numbers of the Reports from 1870.—

Terms of subscription payable annually in advance.

For the complete Series, *including postage* . . . R12-8

	Without postage.	With postage.
	R a. p.	R a. p.
For the Calcutta Series	10 0 0	12 8 0

Bengal Secretariat Book Depôt, Writers' Buildings, Calcutta

Remittances to be forwarded to the Accountant and Treasurer Bengal Secretariat, Writers' Buildings, Calcutta.

All the wanting parts of the INDIAN LAW REPORTS (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depôt.

The subscription, ₹22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

NOTICE.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

27. Penalty for introduction or removal or supply of prohibited articles and communication with youthful offenders.
28. Penalty for abetting escape of youthful offender.
29. Arrest of escaped youthful offender.

V.—Miscellaneous.

30. Application of Act XV of 1869 to youthful offenders detained in Reformatory Schools.
31. Power to deal in other ways with youthful offenders including girls.
32. Procedure when youthful offender under detention in a Reformatory School is again convicted and sentenced

An Act to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders.

WHEREAS it is expedient to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders; It is hereby enacted as follows:—

I.—Preliminary.

Title, commencement and extent

1. (*1*) This Act may be called the Reformatory Schools Act, 1897; and

(*2*) It shall come into force at once.

(*3*) This section and section 2 shall extend to the whole of British India. The other sections shall extend in the first instance to the whole of British India except the territories for the time being administered by the Lieutenant-Governor of the Punjab and the Chief Commissioner of Coorg, but either of the said Local Governments may at any time, by notification in the local official Gazette, extend these sections to their territories from such day as may be fixed in any such notification.

Repeal of Act V of 1876

2. (*1*) The Reformatory Schools Act, 1876, is hereby repealed.

(*2*) But all proceedings taken, orders passed, officers appointed or authorised and rules made under the said Act shall, as far as may be, be deemed to have been respectively passed, appointed or authorised and made under this Act.

(*3*) Any enactment or document referring to the said Act shall, as far as may be, be construed to refer to this Act, or to the corresponding portion thereof.

Section 399 of Act X of 1882 repealed on date fixed by a notification under section 1 sub-section (3)

3. From the date fixed by any notification issued under section 1, sub-section (3), section 399 of the Code of Criminal Procedure, 1882, shall be repealed in the province to which the notification relates.

Definitions.

4. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "youthful offender" means any boy who has been convicted of any offence punishable with transportation or imprisonment and who, at the time of such conviction, was under the age of fifteen years;

(*b*) "Inspector-General" includes any officer appointed by the Local Government to perform all or any of the duties imposed by this Act on the Inspector-General and

(*c*) "District Magistrate" shall include a Chief Presidency Magistrate.

II.—Reformatory Schools.

Power to establish and discontinue Reformatory Schools.

5. With the previous sanction of the Governor General in Council, the Local Government may—

(*a*) establish and maintain Reformatory Schools at such places as it may think fit;

(*b*) use as Reformatory Schools schools kept by persons willing to act in conformity with such rules, consistent with this Act, as the Local Government may prescribe in this behalf;

(*c*) direct that any school so established or used shall cease to exist as a Reformatory School or to be used as such.

Requisites of schools

6. Every school so established or used must provide—

(*a*) sufficient means of separating the inmates at night,

(*b*) proper sanitary arrangements, water-supply, food, clothing and bedding for the youthful offenders detained therein,

(*c*) the means of giving such youthful offenders industrial training,

(*d*) an infirmary or proper place for the reception of such youthful offenders when sick.

Inspection of Reformatory Schools.

7. (*1*) Every school intended to be established or used as a Reformatory School shall, before being used as such, be inspected by the Inspector-General, and if he finds that the requirements of section 6 have been complied with, and that, in his opinion such school is fitted for the reception of such youthful offenders as may be sent there under this Act, he shall certify to that effect, and such certificate shall be published in the local official gazette, together with an order of the Local Government establishing the school as a Reformatory School or directing that it shall be used as such, and the school shall thereupon be deemed to be a Reformatory School.

(*2*) Every such school shall, from time to time, and at least once in every year, be visited by the said Inspector-General, who shall send to the Local Government a report on the condition of the school in such form as the Local Government may prescribe.

Power of Courts to direct youthful offenders to be sent to Reformatory Schools.

8. (*1*) Whenever any youthful offender is sentenced to transportation or imprisonment, and it, in the judgment of the Court by which he is sentenced, a proper person to be an inmate of a Reformatory

School, the Court may, subject to any rules made by the Local Government, direct that, instead of undergoing his sentence, he shall be sent to such a school, and be there detained for a period which shall be not less than three or more than seven years.

(2) The powers so conferred on the Court by this section shall be exercised only by (*a*) the High Court, (*b*) a Court of Session (*c*) a District Magistrate, and (*d*) any Magistrate specially empowered by the Local Government in this behalf and may be exercised by such Courts whether the case comes before them originally or on appeal.

(3) The Local Government may make rules for—

(*a*) defining what youthful offenders should be sent to Reformatory Schools having regard to the nature of their offences or other considerations, and

(*b*) regulating the periods for which youthful offenders may be sent to such schools according to their ages or other considerations.

Power to order where Magistrate not empowered considers offender fit for detention.

9. (1) When any Magistrate not empowered to pass an order under the last foregoing section is of opinion that a youthful offender convicted by him is a proper person to be an inmate of a Reformatory School, he may, without passing sentence, record such opinion and submit the proceedings and forward the youthful offender to the District Magistrate to whom he is subordinate.

(2) The Magistrate to whom the proceedings are so forwarded may make such further inquiry (if any) as he may think fit and pass such sentence and order for the detention in a Reformatory School of the youthful offender, or otherwise, as he might have passed or made had the youthful offender been originally tried by him.

Power to order persons under sentence of imprisonment to be sent to Reformatory Schools.

10. The officer in charge of a prison in which a youthful offender is confined, in execution of a sentence of imprisonment, may bring him, if he has not then attained the age of fifteen years, before the District Magistrate within whose jurisdiction such prison is situate, and such Magistrate may, if such youthful offender appears to be a proper person to be an inmate of a Reformatory School, direct that, instead of undergoing the residue of his sentence, he shall be sent to a Reformatory School, and there detained for a period which shall be subject to the same limitations as are prescribed by or under section 8, with reference to the period of detention thereby authorised.

Preliminary enquiry and finding as to age of youthful offender.

11. (1) Before directing any youthful offender to be sent to a Reformatory School under section 8, section 9 or section 10 the Court or Magistrate shall inquire into the question of his age and, after taking such evidence (if any) as may be deemed necessary, shall record a finding thereon, stating his age as nearly as may be.

(2) A similar inquiry shall be made and finding recorded by every Magistrate not empowered to pass an order under section 8 before submitting his proceedings and forwarding the youthful offender to the District Magistrate as required by section 9, sub-section (1).

Government to determine Reformatory School to which youthful offender shall be sent.

12. Every youthful offender directed by a Court or Magistrate to be sent to a Reformatory School shall be sent to such Reformatory School as the Local Government may by general or special order appoint for the reception of youthful offenders so dealt with by such Court or Magistrate:

Provided that if accommodation in a Reformatory School is not immediately available for such youthful offender, he may be detained in the prescribed manner for such other suitable part of a prison as the Local Government may direct—

(*a*) until he can be sent to a Reformatory School, or

(*b*) until the term of his original sentence expires,

whichever event may first happen. Should the term of his original sentence first expire, he shall thereupon be released, but, should he be sent to a Reformatory School, the period of detention he may have gone shall be treated as if spent in a Reformatory School.

Power to require Reformatory School to receive youthful offender sent from another School.

13. (1) If at any time after a youthful offender has been sent to a Reformatory School it appears to the Committee of Visitors or Board of Managers (as the case may be) that the case of such youthful offender has been misrepresented to the Court or Magistrate, or that he will attain the age of eighteen years before the expiration of the period during which he has been ordered to be detained, they shall report the case for the orders of the Local Government.

(2) No person shall be detained in a Reformatory School after he has been found by the Local Government to have attained the age of eighteen years.

Discharge of offenders by order of Government.

14. The Local Government may at any time order any youthful offender—

(*a*) to be discharged from a Reformatory School,

(*b*) to be removed from one Reformatory School to another such school situate within the territories subject to such Government. Provided that the whole period of his detention in a Reformato-

An Act to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders.

WHEREAS it is expedient to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders; it is hereby enacted as follows:—

1.—Preliminary.

This, commencement and extent.

1. (1) This Act may be called the Reformatory Schools Act, 1897; and

(2) It shall come into force at once.

(3) This section and section 2 shall extend to the whole of British India. The other sections shall extend in the first instance to the whole of British India except the territories for the time being administered by the Lieutenant-Governor of the Punjab and the Chief Commissioner of Coorg, but either of the said Local Governments may at any time, by notification in the local official Gazette, extend these sections to their territories from such day as may be fixed in any such notification.

Repeal of Act V of 1876.

2. (1) The Reformatory Schools Act, 1876, is hereby repealed.

(2) But all proceedings taken, orders passed, officers appointed or authorised and rules made under the said Act shall, as far as may be, be deemed to have been respectively passed, appointed or authorised and made under this Act.

(3) Any enactment or document referring to the said Act shall, as far as may be, be construed to refer to this Act, or to the corresponding portion thereof.

Section 399 of Act X of 1882 repealed on the finding a notification under section 1, sub-section (3).

3. From the date fixed by any notification issued under section 1, sub-section (3), section 399 of the Code of Criminal Procedure, 1882, shall be repealed in the province to which the notification relates.

Definitions.

4. In this Act, unless there is anything repugnant in the subject or context,—

(a) "youthful offender" means any boy who has been convicted of any offence punishable with transportation or imprisonment and who, at the time of such conviction, was under the age of fifteen years;

(b) "Inspector-General" includes any officer appointed by the Local Government to perform all or any of the duties imposed by this Act on the Inspector-General: and

(c) "District Magistrate" shall include a Chief Presidency Magistrate.

[illegible] Local Government [illegible]

[illegible] and maintain [illegible] at such place as it may think fit;

(b) [illegible] Reformatory Schools [illegible] such rules, not inconsistent with this Act, as the Local Government may prescribe in this behalf;

(c) direct that any school so established or used shall cease to exist as a Reformatory School or to be used as such.

Regulations of schools.

5. Every school so established or used must provide—

(a) sufficient means of separating the inmates at night;

(b) proper sanitary arrangements, water supply, food, clothing and bedding for the youthful offenders detained therein;

(c) the means of giving such youthful offenders industrial training;

(d) an infirmary or proper place for the reception of such youthful offenders when sick.

Inspection of Reformatory Schools.

6. (1) Every school intended to be established or used as a Reformatory School shall, before being used as such, be inspected by the Inspector-General, and if he finds that the requirements of section 5 have been complied with, and that, in his opinion, such school is fitted for the reception of such youthful offenders as may be sent there under this Act, he shall certify to that effect, and such certificate shall be published in the local official Gazette, together with an order of the Local Government establishing the school as a Reformatory School or directing that it shall be used as such, and the school shall thereupon be deemed to be a Reformatory School.

(2) Every such school shall, from time to time and at least once in every year, be visited by the said Inspector-General who shall report to the Local Government as to the condition of the school in such form as the Local Government may prescribe.

8. (1) Whenever any youthful offender is sentenced [illegible] Power of Court to [illegible] transportation [illegible] imprisonment [illegible] Local Government [illegible] may direct that he be detained in a Reformatory School [illegible] for such period [illegible] the Government [illegible] by which he is sentenced,

(3) The powers conferred by this section shall be exercised by (a) the High Court, (b) a Court of Session, and (c) a District Magistrate, and (d) any Magistrate specially empowered by the Local Government in that behalf, and may be exercised by such Courts whether the case comes before them originally or on appeal.

(4) The Local Government may make rules for—

(a) defining what youthful offenders should be sent to Reformatory Schools, having regard to the nature of their offences or other considerations, and

(b) regulating the periods for which youthful offenders may be sent to such schools according to their ages or other considerations.

Procedure where Magistrate is not empowered to pass an order under section 8.

9. (1) When any Magistrate not empowered to pass an order under the last foregoing section is of opinion that a youthful offender convicted by him is a proper person to be an inmate of a Reformatory School, he may, without passing sentence, record such opinion and submit his proceedings and forward the youthful offender to the District Magistrate to whom he is subordinate.

(2) The Magistrate to whom the proceedings are so submitted may make such further inquiry (if any) as he may think fit and pass such sentence and order for the detention in a Reformatory School of the youthful offender, or otherwise, as he might have passed if such youthful offender had been originally tried by him.

Power of Magistrates to direct boys under sixteen sentenced to imprisonment to be sent to Reformatory Schools.

10. The officer in charge of a prison in which a youthful offender is confined, in execution of a sentence of imprisonment, may bring him, if he has not then attained the age of fifteen years, before the District Magistrate within whose jurisdiction such prison is situate; and such Magistrate may, if such youthful offender appears to be a proper person to be an inmate of a Reformatory School, direct that, instead of undergoing the residue of his sentence, he shall be sent to a Reformatory School, and there detained for a period which shall be subject to the same limitations as are prescribed by or under section 8 with reference to the period of detention therein authorized.

[illegible]

the Court or Magistrate [illegible] question of his age [illegible] evidence as they [illegible] shall record a finding thereon, stating [illegible] nearly as may be.

(2) A like inquiry shall be held by every Magistrate [illegible] finding recorded by every Magistrate [illegible] powered to pass an order under section [illegible] submitting his proceedings and forwarding [illegible] youthful offender to the District Magistrate [illegible] required by section 9, sub-section (1).

Commencement of detention in Reformatory School to which such offender shall be sent.

11. Every youthful offender directed by [illegible] Court or Magistrate to be sent to a Reformatory School shall be sent to such Reformatory School as the Local Government may by general or special order appoint for the reception of youthful offenders so dealt with by such Court or Magistrate:

Provided that, if accommodation in a Reformatory School is not immediately available for such youthful offender, he may be detained in the juvenile ward or such other suitable part of a prison as the Local Government may direct—

(a) until he can be sent to a Reformatory School, or

(b) until the term of his original sentence expires,

whichever event may first happen. Should the term of his original sentence first expire, he shall thereupon be released, but, should he be sent to a Reformatory School, then the period of detention previously undergone shall be treated as detention in a Reformatory School.

Persons found to be over eighteen years not to be detained in Reformatory Schools.

12. (1) If at any time after a youthful offender has been sent to a Reformatory School it appears to the Committee or Board of Visitors or Board of Management, as the case may be, that the age of such youthful offender has been understated in the order for detention, and that he will attain the age of eighteen years before the expiration of the period for which he has been ordered to be detained, they shall report the case for the orders of the Local Government.

(2) No person shall be detained in a Reformatory School after he has been found by the Local Government to have attained the age of eighteen years.

Discharge or removal by order of Government.

13. The Local Government may at any time order any youthful offender—

(a) to be discharged from a Reformatory School;

(b) to be removed from one Reformatory School to another such school situate within the territories subject to such Government: Provided that the whole period of his detention in a Reform

tory School shall not be increased by such removal.

Power to Governor General in Council to direct use of Reformatories in one province for reception of youthful offenders from another

15 (*1*) The Governor General in Council may by general or special order direct that any Reformatory School situated in one province shall be available for the reception of youthful offenders directed to be sent to any Reformatory School by any Court or Magistrate in any other province.

(*2*) Any such order may also provide for the removal of the youthful offender and the cost of his maintenance, and may give any such further directions as may be necessary.

Certain orders not subject to appeal or revision

16. Nothing contained in the Code of Criminal Procedure, 1882, shall be construed to authorise any Court or Magistrate to alter or reverse in appeal or revision any order passed with respect to the age of a youthful offender or the substitution of an order for detention in a Reformatory School for transportation or imprisonment.

III — Management of Reformatory Schools.

Appointment of Superintendent and Committee of Visitors or Board of Management.

17. (*1*) For the control and management of every Reformatory School the Local Government shall appoint either (*a*) a Superintendent and a Committee of Visitors, or (*b*) a Board of Management.

(*2*) Every Committee and every Board so appointed must consist of not less than five persons, of whom two at least shall be Natives of India.

(*3*) The Local Government may suspend or remove any Superintendent or any Member of a Committee or Board so appointed.

Superintendent may license youthful offenders to employers of labour.

18. (*1*) Every Superintendent so appointed may, with the sanction of the Committee, by license under his hand permit any youthful offender sent to a Reformatory School, who has attained the age of fourteen years, to live under the charge of any trustworthy and respectable person named in the license, or any officer of Government or of a Municipality, being an employer of labour and willing to receive and take charge of him, on the condition that the employer shall keep such youthful offender employed at some trade, occupation or calling.

(*2*) The license shall be in force for three months and no longer, but may, at any time and from time to time until the expiration of the period for which the youthful offender has been directed to be detained, be renewed for three months at a time.

Cancellation of license.

19. The license shall be cancelled at the desire of the employer named in the license.

Determination of license.

20. If during the term of the license the employer named therein dies, or ceases from business or to employ labour, or the period for which the youthful offender has been directed to be detained in the Reformatory School expires, the license shall thereupon cease and determine.

Cancellation of license in case of ill-treatment.

21. If it appears to the Superintendent that the employer has ill treated the youthful offender, or has not adequately provided for his lodging and maintenance, the Superintendent may cancel the license.

Superintendent to be deemed guardian of youthful offenders

22. (*1*) The Superintendent of a Reformatory School shall be deemed to be the guardian of every youthful offender detained in such school, within the meaning of Act No XIX of 1850 (*concerning the bonding of apprentices*).

Power to apprentice youthful offender

(*2*) If it appears to the Superintendent that any youthful offender licensed under section 18 has behaved well during one or more periods of his license the Superintendent may, with the sanction of the Committee, apprentice him under the provisions of the said Act, and on such apprenticement the right to detain such youthful offender in a Reformatory School shall cease and the unexpired term (if any) of his sentence shall be cancelled.

Duties of Committee of Visitors.

23. (*1*) Every Committee of Visitors appointed under section 17 for a Reformatory School shall, at least once in every month,—

(*a*) visit the school, to hear complaints and see that the requirements of section 6 have been complied with, and that the management of the school is proper in all respects;

(*b*) examine the punishment-book;

(*c*) bring any special cases to the notice of the Inspector-General; and

(*d*) see that no person is illegally detained in the school

(*2*) If any member of a Committee of Visitors so appointed fails or neglects, during a period of six consecutive months, to visit the school and assist in the discharge of the duties aforesaid, he shall cease to be a member of such Committee.

Powers of Board of Management

24. If, in exercise of the power conferred by section 17, the Local Government appoints a Board of Management for any Reformatory School, such Board shall have the powers and perform the functions of the Superintendent under sections 18 to 22, both inclusive; and the license mentioned in section 18 may be under

the hand of their chairman; and they shall be deemed to be the guardians of the youthful offenders detained in such school.

Power to appoint Trustees or other Managers of a school to be a Board of Management.

25. The Local Government may declare any body of Trustees or Managers of a School, who are willing to act in conformity with the rules referred to in section 5, clause (*b*), to be a Board of Management under this Act, and thereupon such body or Managers shall have all the powers and perform all the functions of such Board of Management.

Power of Board to make rules.

26. (*1*) With the previous sanction of the Local Government, every Board of Management of a Reformatory School may from time to time make rules consistent with this Act—

(*i*) to prescribe the articles which are to be deemed to be "prohibited articles"; and

(*ii*) to regulate—

(*a*) the conduct of business of the Board;

(*b*) the management of the school;

(*c*) the education and industrial training of youthful offenders;

(*d*) visits to, and communication with, youthful offenders,

(*e*) the terms and conditions under which any articles declared by the Board to be "prohibited articles" may be introduced into or removed out of the school;

(*f*) the manner in which such articles are to be removed when introduced without due authority;

(*g*) the conditions and limitations under which such articles may be supplied outside the school to any youthful offender under order of detention therein;

(*h*) the conditions on which the possession by any such youthful offender of such articles may be sanctioned;

(*i*) the penalties to be imposed for the supply or possession of such articles when supplied or possessed without due authority,

(*j*) the punishment of offences committed by youthful offenders; and

(*k*) the granting of licenses for the employment of youthful offenders.

(*2*) In the absence of a Board of Management the Local Government may make rules consistent with this Act to regulate for any Reformatory School the matters mentioned in any clause of sub-section (*1*), other than clause (*ii*) (*a*), and also the mode in which the Committee of Visitors shall conduct their business.

IV.—Offences in relation to Reformatory Schools.

Penalty for introduction or removal or supply of prohibited articles and communication with youthful offenders.

27. Whoever, contrary to any rule made under section 26, introduces or removes or attempts by any means whatever to introduce or remove into or from any Reformatory School, or supplies or attempts to supply outside the limits of any Reformatory School to any youthful offender under order of detention therein, any prohibited article,

and every officer or person in charge of a Reformatory School who, contrary to any such rule, knowingly suffers any such article to be introduced into or removed from any Reformatory School, to be possessed by any youthful offender detained therein, or to be supplied to any such youthful offender outside its limits,

and whoever, contrary to any such rule, communicates or attempts to communicate with any such youthful offender,

and whoever abets any offence made punishable under this section,

shall, on conviction before a Magistrate, be liable to imprisonment for a term not exceeding six months, or to fine not exceeding two hundred rupees, or to both.

Penalty for abetting escape of youthful offender.

28. Whoever abets an escape, or an attempt to escape, on the part of a youthful offender from a Reformatory School, or from the employer of such youthful offender, shall be punishable with imprisonment for a term which may extend to six months, or with fine not exceeding two hundred rupees, or with both.

Arrest of escaped youthful offender.

29. A Police-officer may, without orders from a Magistrate and without a warrant, arrest any youthful offender sent to a Reformatory School under this Act, who has escaped from such school or from his employer, and take him back to such school or to his employer.

V.—Miscellaneous.

Application of Act XV of 1869 to youthful offenders detained in Reformatory Schools

30. The provisions of the Prisoners' Testimony Act, 1869, shall be applied, so far as they can be made applicable, to youthful offenders detained in Reformatory Schools as if they were persons confined in jail within the meaning of that Act. XV of 18

Power to deal in other ways with youthful offenders including girls.

31. (*1*) Notwithstanding anything contained in this Act or in any other enactment for the time being in force, any Court may, if it shall think fit, instead of sentencing any youthful offender to transportation or imprisonment or directing him to be detained in a Reformatory School, order him to be—

(*a*) discharged after due admonition, or

(*b*) delivered to his parent or to his guardian or nearest adult relative, on such parent, guardian or relative executing a bond, with or without sureties, as the Court may require, to be responsible for the good behaviour of the youthful offender for any period not exceeding twelve months.

(*2*) For the purposes of this section the term "youthful offender" shall include a girl.

(*3*) The powers conferred on the Court by this section shall be exercised only by Courts empowered by or under section 8.

(*4*) When any youthful offender is convicted by a Court not empowered to act under this section and the Court is of opinion that the powers conferred by this section should be exercised in respect of such youthful offender, it may record such opinion and submit the proceedings and forward the youthful offender to the District Magistrate to whom such Court is subordinate.

(*5*) The District Magistrate to whom the proceedings are so submitted may thereupon make such order or pass such sentence as he might have made or passed if the case had originally been tried by him.

Procedure when youthful offender under detention in a Reformatory School is again convicted and sentenced.

32. When a youthful offender during his period of detention in a Reformatory School is again convicted by a criminal Court, the sentence of such Court shall commence at once, notwithstanding anything to the contrary in section 397 of the Code of Criminal Procedure, 1882, but the Court shall forthwith report the matter to the Local Government, which shall have power to deal with the matter in any way in which it thinks fit.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 11th March, 1897, and is hereby promulgated for general information :—

ACT NO. IX OF 1897.

An Act to amend the law relating to Government and other Provident Funds.

WHEREAS it is expedient to amend the law relating to Government and other Provident Funds ; It is hereby enacted as follows :—

Title, extent and commencement.

1. (*1*) This Act may be called the Provident Funds Act, 1897

(*2*) It extends to the whole of British India, including Upper Burma and British Baluchistan ; and

(*3*) It shall come into force at once.

Definitions

2. In this Act—

(*1*) "Provident Fund" means a fund in which the subscriptions or deposits of any class or classes of employees are received and held on their individual accounts, and includes any contributions credited in respect of, and any interest accruing on, such subscriptions or deposits under the rules of the Fund :

(*2*) "Government Provident Fund" means a Provident Fund constituted by the authority of the Government for any class or classes of its employees :

(*3*) "Railway Provident Fund" means a Provident Fund constituted by the authority of the Government of India or of any company which administers a railway or tramway in British India, either under a special Act of Parliament or under contract with the Secretary of State in Council or the Government of India, for any class or classes of the employees on, or in connection with, such railway or tramway : and

(*4*) "compulsory deposit" means a subscription or deposit which is not repayable on the demand, or at the option, of the subscriber or depositor, and includes any contribution which may have been credited in respect of, and any interest or increment which may have accrued on, such subscription or deposit under the rules of the Fund.

Payment from Government or Railway Provident Fund on death of subscriber or depositor.

3. (*1*) When a subscriber to, or depositor in, any Government or Railway Provident Fund dies and the sum standing to his credit in the books of the Fund does not exceed two thousand rupees, the officer or person whose duty it is to make payment of such sum may pay it as follows :—

(*a*) he may pay it to any person entitled to receive it according to the rules of the Fund or, in the absence of any rule of the Fund to the contrary, to any person nominated in writing by the deceased subscriber or depositor to receive it ;

(*b*) in any case not hereinbefore provided for, he may pay it to any person appearing to him to be entitled to receive it.

(*2*) The provisions of sub-section (*1*) shall apply to any such sum which, at the commencement of this Act, stands to the credit of any subscriber or depositor already deceased.

(*3*) Nothing in this section shall affect the validity of the rules of any Fund in so far as such rules may provide for the disposal of sums exceeding two thousand rupees.

Government and Railway Provident Funds not to be attached

4. After the commencement of this Act, the compulsory deposits in any Government or Railway Provident Fund shall not be liable to attachment under any decree or order of a Court of Justice in respect of any debt or liability incurred by a subscriber to, or depositor in, such Fund, and neither the Official Assignee, nor a Receiver appointed under Chapter XX of the Code of 1882. of Civil Procedure, shall be entitled to, or have any claim on, any such compulsory deposit.

Protection for anything done in good faith under this Act

5. No suit or other legal proceeding shall lie against any person in respect of anything done or in good faith intended to be done in pursuance of the provisions of this Act.

Power to extend Act to other Provident Funds.

6. The Governor General in Council may, in his discretion, by notification in the official Gazette, extend the provisions of this Act to any Provident Fund established for the benefit of its employees by any local authority within the meaning of the Local Authorities Loan Act, 1879. XI of 1879.

Saving as to estates of soldiers.

7. Nothing in section 3 shall apply to money belonging to the estate of any European officer, non-commissioned officer or soldier dying in Her Majesty's service in India, or of any European who at the time of his death was a deserter from such service.

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

THE SCHEDULE.

ENACTMENTS REPEALED.

An Act to consolidate and extend the General Clauses Acts, 1868 and 1887.

WHEREAS it is expedient to consolidate and extend the General Clauses Acts, 1868 and 1887; It is hereby enacted as follows:—

Preliminary.

1. (1) This Act may be called the General Clauses Act, 1897; and

(2) It shall come into force at once.

2. The Acts mentioned in the schedule are repealed to the extent specified in the fourth column thereof.

General Definitions.

3. In this Act, and in all Acts of the Governor General in Council and Regulations made after the commencement of this Act, unless there is anything repugnant in the subject or context,—

(1) "abet," with its grammatical variations and cognate expressions, shall have the same meaning as in the Indian Penal Code:

(2) "act," used with reference to an offence or a civil wrong, shall include a series of acts, and words which refer to acts done extend also to illegal omissions:

(3) "affidavit" shall include affirmation and declaration in the case of persons by law allowed to affirm or declare instead of swearing:

(4) "barrister" shall mean a barrister of England or Ireland, or a member of the Faculty of Advocates in Scotland:

(5) "Bengal Act" shall mean an Act made by the Lieutenant-Governor of Bengal in Council under the Indian Councils Acts, 1861 and 1892:

(6) "Bombay Act" shall mean an Act made by the Governor of Bombay in Council under the Indian Councils Acts, 1861 and 1892:

(7) "British India" shall mean all territories and places within Her Majesty's dominions which are for the time being governed by Her Majesty through the Governor General of India or through any Governor or other officer subordinate to the Governor General of India:

(8) "British possession" shall mean any part of Her Majesty's dominions, exclusive of the United Kingdom, and, where parts of those dominions are under both a central and a local legislature, all parts under the central legislature shall, for the purposes of this definition, be deemed to be one British possession: "British possession."

(9) "Chapter" shall mean a Chapter of the Act or Regulation in which the word occurs: "Chapter."

(10) "Collector" shall mean, in a Presidency-town, the Collector of Calcutta, Madras or Bombay, as the case may be and, elsewhere, the chief officer in charge of the revenue administration of a district: "Collector."

(11) "Colony" shall mean any part of Her Majesty's dominions, exclusive of the British Islands and of British India, and, where parts of those dominions are under both a central and a local legislature, all parts under the central legislature shall, for the purposes of this definition, be deemed to be one colony: "Colony."

(12) "commencement," used with reference to an Act or Regulation, shall mean the day on which the Act or Regulation comes into force: "Commencement."

(13) "Commissioner" shall mean the chief officer in charge of the revenue-administration of a division: "Commissioner"

(14) "consular officer" shall include consul-general, consul, vice-consul, consular agent, pro consul and any person for the time being authorized to perform the duties of consul-general, consul, vice consul or consular agent: "Consular officer."

(15) "District Judge" shall mean the Judge of a principal Civil Court of original jurisdiction, but shall not include a High Court in the exercise of its ordinary or extraordinary original civil jurisdiction: "District Judge."

(16) "document" shall include any matter written, expressed or described upon any substance by means of letters, figures or marks, or by more than one of those means, which is intended to be used, or which may be used, for the purpose of recording that matter: "Document"

(17) "enactment" shall include a Regulation (as hereinafter defined) and any Regulation of the Bengal, Madras or Bombay Code, and shall also include any provision contained in any Act or in any such Regulation as aforesaid: "Enactment.

her."

(18) "father", in the case of any one whose personal law permits adoption, shall include an adoptive father:

ancial r."

(19) "financial year" shall mean the year commencing on the first day of April:

d faith."

(20) a thing shall be deemed to be done in "good faith" where it is in fact done honestly, whether it is done negligently or not;

vern- nt."

(21) "Government" or "the Government" shall include the Local Government as well as the Government of India:

vern- nt of In- "

(22) "Government of India" shall mean the Governor General in Council or, during the absence of the Governor General from his Council, the President in Council, or the Governor General alone, as regards the powers which may be lawfully exercised by them or him respectively:

Majes- or "the een."

(23) "Her Majesty" or "the Queen" shall include Her successors:

h ."

(24) "High Court," used with reference to civil proceedings, shall mean the highest Civil Court of appeal in the part of British India in which the Act or Regulation containing the expression operates:

ioveable rty."

(25) "immoveable property" shall include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth:

ison- ' of 1860.

(26) "imprisonment" shall mean imprisonment of either description as defined in the Indian Penal Code:

a."

(27) "India" shall mean British India, together with any territories of any Native Prince or Chief under the suzerainty of Her Majesty exercised through the Governor General of India or through any Governor or other officer subordinate to the Governor General of India:

l au- ."

(28) "local authority" shall mean a municipal committee, district board, body of port commissioners or other authority legally entitled to, or entrusted by the Government with, the control or management of a municipal or local fund:

l Gov- nt"

(29) "Local Government" shall mean the person authorized by law to administer executive government in the part of British India in which the Act or Regulation containing the expression operates, and shall include a Chief Commissioner:

as

ix c. 67; 5

c. 14. strate.'

882.

(30) "Madras Act" shall mean an Act made by the Governor of Fort St. George in Council under the Indian Councils Acts, 1861 and 1892:

(31) "Magistrate" shall include every person exercising all or any of the powers of a Magistrate under the Code of Criminal Procedure for the time being in force:

(32) "master," used with reference to a ship, shall mean any person (except a pilot or harbour-master) having for the time being control or charge of the ship: "Master a ship).

(33) "month" shall mean a month reckoned according to the British calendar: "Month

(34) "moveable property" shall mean property of every description, except immoveable property: "Moveable property.

(35) "North-Western Provinces and Oudh Act" shall mean an Act made by the Lieutenant-Governor of the North-Western Provinces and Oudh in Council under the Indian Councils Acts, 1861 and 1892: "North-tern Pr ces and C Act" 24 & 25 Vict., c. 55 & 56 Vict., c.

(36) "oath" shall include affirmation and declaration in the case of persons by law allowed to affirm or declare instead of swearing: "Oath."

(37) "offence" shall mean any act or omission made punishable by any law for the time being in force: "Offence

(38) "Part" shall mean a Part of the Act or Regulation in which the word occurs: "Part."

(39) "person" shall include any company or association or body of individuals, whether incorporated or not: "Person."

(40) "Political Agent" shall include— "Political Agent."

(a) the principal officer representing the Government in any territory or place beyond the limits of British India, and

(b) any officer of the Government of India or of any Local Government appointed by the Government of India or the Local Government to exercise all or any of the powers of a Political Agent for any place not forming part of British India under the law for the time being in force relating to foreign jurisdiction and extradition:

(41) "Presidency-town" shall mean the local limits for the time being of the ordinary original civil jurisdiction of the High Court of Judicature at Fort William, Madras or Bombay, as the case may be: "Presi cy-town."

(42) "Privy Council" shall mean the Lords and others for the time being of Her Majesty's Most Honourable Privy Council: "Privy C cil."

(43) "province" shall mean the territories for the time being administered by any Local Government: "Prov ce

(44) "public nuisance" shall mean a public nuisance as defined in the Indian Penal Code: "Public sance" XLV of 18

(45) "registered," used with reference to a document, shall mean registered in British India under the law for the time being in force for the registration of documents: "Registered

(46) 'Regulation" shall mean a Regulation made under the Government of India Act, 1870:

(47) "rule" shall mean a rule made in exercise of a power conferred by any enactment, and shall include a regulation made as a rule under any enactment:

(48) "schedule" shall mean a schedule to the Act or Regulation in which the word occurs:

(49) "Scheduled District" shall mean a "Scheduled District" as defined in the Scheduled Districts Act, 1874:

(50) "section" shall mean a section of the Act or Regulation in which the word occurs:

(51) "ship" shall include every description of vessel used in navigation not exclusively propelled by oars:

(52) "sign," with its grammatical variations and cognate expressions, shall, with reference to a person who is unable to write his name, include "mark", with its grammatical variations and cognate expressions:

(53) "son", in the case of any one whose personal law permits adoption, shall include an adopted son:

(54) "sub-section" shall mean a sub-section of the section in which the word occurs:

(55) "swear", with its grammatical variations and cognate expressions, shall include affirming and declaring in the case of persons by law allowed to affirm or declare instead of swearing:

(56) "vessel" shall include any ship or boat or any other description of vessel used in navigation:

(57) "will" shall include a codicil and every writing making a voluntary posthumous disposition of property:

(58) expressions referring to "writing" shall be construed as including references to printing, lithography, photography and other modes of representing or reproducing words in a visible form: and

(59) "year" shall mean a year reckoned according to the British calendar.

4. (1) The definitions in section 3 of the following words and expressions, that is to say "affidavit," "barrister," "British India," "District Judge," "father," "Government of India," "Her Majesty" or "the Queen," "High Court" "immoveable property," "imprisonment," "Local Government," "Magistrate," "month," "moveable property," "oath," "person," "section," "son," "swear," "will" and "year," apply also, unless there is anything repugnant in the subject or context, to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

(2) The definitions in the said section of the following words and expressions, that is to say, "abet," "Chapter," "commencement," "financial year," "local authority," "master," "offence," "Part," "public nuisance," "registered," "schedule," "ship," "sign," "sub-section" and "writing," apply also, unless there is anything repugnant in the subject or context, to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887.

General Rules of Construction.

Coming into operation of enactments.

5. (1) Where any Act of the Governor General in Council is not expressed to come into operation on a particular day, then it shall come into operation on the day on which it receives the assent of the Governor General.

(2) Where any Act of the Governor General in Council is reserved under the Indian Councils Act, 1861, section 20, for the signification of Her Majesty's pleasure thereon, then, if no later date is expressed, it shall come into operation, if assented to by Her Majesty, on the day on which the assent of Her Majesty is duly proclaimed. 24 & 25 Vict., c 67.

(3) Unless the contrary is expressed, an Act of the Governor General in Council or Regulation shall be construed as coming into operation immediately on the expiration of the day preceding its commencement.

Effect of repeal.

6. Where this Act, or any Act of the Governor General in Council or Regulation made after the commencement of this Act, repeals any enactment hitherto made or hereafter to be made, then, unless a different intention appears, the repeal shall not—

(a) revive anything not in force or existing at the time at which the repeal takes effect; or

(b) affect the previous operation of any enactment so repealed or anything duly done or suffered thereunder; or

(c) affect any right, privilege, obligation or liability acquired, accrued or incurred under any enactment so repealed; or

(d) affect any penalty, forfeiture or punishment incurred in respect of any offence committed against any enactment so repealed; or

(e) affect any investigation, legal proceeding or remedy in respect of any such right, privilege, obligation, liability, penalty, forfeiture or punishment as aforesaid;

and any such investigation, legal proceeding or remedy may be instituted, continued or enforced, and any such penalty, forfeiture or punishment may be imposed as if the repealing Act or Regulation had not been passed.

7. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be necessary, for the purpose of reviving, either wholly or partially, any enactment wholly or partially repealed, expressly to state that purpose.

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

8. (1) Where this Act, or any Act of the Governor General in Council or Regulation made after the commencement of this Act, repeals and re-enacts, with or without modification, any provision of a former enactment, then references in any other enactment or in any instrument to the provision so repealed shall, unless a different intention appears, be construed as references to the provision so re-enacted.

9 (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of excluding the first in a series of days or any other period of time, to use the word "from," and, for the purpose of including the last in a series of days or any other period of time, to use the word "to".

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

10. (1) Where, by any Act of the Governor General in Council or Regulation made after the commencement of this Act, any act or proceeding is directed or allowed to be done or taken in any Court or office on a certain day or within a prescribed period, then, if the Court or office is closed on that day or the last day of the prescribed period, the act or proceeding shall be considered as done or taken in due time if it is done or taken on the next day afterwards on which the Court or office is open:

Provided that nothing in this section shall apply to any act or proceeding to which the Indian Limitation Act, 1877, applies.

(2) This section applies also to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887.

11. In the measurement of any distance, for the purposes of any Act of the Governor General in Council or Regulation made after the commencement of this Act, that distance shall, unless a different intention appears, be measured in a straight line on a horizontal plane.

12. Where, by any enactment now in force or hereafter to be in force, any duty of customs or excise, or in the nature thereof, is leviable on any given quantity, by weight, measure or value of any goods or merchandize, then a like duty is leviable according to the same rate on any greater or less quantity.

Gender and number.

13. In all Acts of the Governor General in Council and Regulations, unless there is anything repugnant in the subject or context,—

(1) words importing the masculine gender shall be taken to include females; and

(2) words in the singular shall include the plural, and *vice versâ*.

Powers and Functionaries.

Powers conferred on the Government to be exercisable from time to time.

14. (1) Where, by any Act of the Governor General in Council or Regulation made after the commencement of this Act, any power is conferred on the Government, then that power may be exercised from time to time as occasion requires.

(2) This section applies also to all Acts of the Governor General in Council and Regulations made on or after the fourteenth day of January, 1887.

Power to appoint to include power to appoint *ex officio*.

15. Where, by any Act of the Governor General in Council or Regulation, a power to appoint any person to fill any office or execute any function is conferred, then, unless it is otherwise expressly provided, any such appointment, if it is made after the commencement of this Act, may be made either by name or by virtue of office.

Power to appoint to include power to suspend or dismiss.

16. Where, by any Act of the Governor General in Council or Regulation, a power to make any appointment is conferred, then, unless a different intention appears, the authority having power to make the appointment shall also have power to suspend or dismiss any person appointed by it in exercise of that power.

Substitution of functionaries.

17. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of indicating the application of a law to every person or number of persons for the time being executing the functions of an office, to mention the official title of the officer at present executing the functions, or that of the officer by whom the functions are commonly executed.

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Successors.

18. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of indicating the relation of a law to the successors of any functionaries or of corporations having perpetual succession, to express its relation to the functionaries or corporations.

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

IV D

19. (1) In any Act of the Governor General in Council or Regulation made after the commencement of this Act, it shall be sufficient, for the purpose of expressing that a law relative to the chief or superior of an office shall apply to the deputies or subordinates lawfully performing the duties of that office in the place of their superior, to prescribe the duty of the superior.

(2) This section applies also to all Acts of the Governor General in Council made after the third day of January, 1868, and to all Regulations made on or after the fourteenth day of January, 1887.

Provisions as to Orders, Rules, etc., made under Enactments.

20. Where, by any Act of the Governor General in Council or Regulation, a power to issue any order, scheme, rule, form or bye-law is conferred then expressions used in the order, scheme, rule, form or bye law, if it is made after the commencement of this Act, shall, unless there is anything repugnant in the subject or context, have the same respective meanings as in the Act or Regulation conferring the power.

21. Where, by any Act of the Governor General in Council or Regulation, a power to make orders, rules or bye laws is conferred, then that power includes a power, exercisable in the like manner and subject to the like sanction and conditions (if any), to add to, amend, vary or rescind any orders, rules or bye-laws so made.

22. Where, by any Act of the Governor General in Council or Regulation which is not to come into force immediately on the passing thereof, a power is conferred to make rules or bye-laws, or to issue orders with respect to the application of the Act or Regulation, or with respect to the establishment of any Court or office or the appointment of any Judge or officer thereunder, or with respect to the person by whom, or the time when, or the place where, or the manner in which, or the fees for which, anything is to be done under the Act or Regulation, then that power may be exercised at any time after the passing of the Act or Regulation, but rules, bye-laws or orders so made or issued shall not take effect till the commencement of the Act or Regulation.

23. Where, by any Act of the Governor General in Council or Regulation, a power to make rules or bye-laws is expressed to be given subject to the condition of the rules or bye-laws being made after previous publication, then the following provisions shall apply, namely :—

(1) the authority having power to make the rules or bye-laws shall, before making them, publish a draft of the proposed rules or bye-laws for the information of persons likely to be affected thereby ;

(2) the publication shall be made in such manner as that authority deems to be sufficient, or, if the condition with respect to previous publication so requires, in such manner as the Governor General in Council or the Local Government prescribes ;

(3) there shall be published with the draft a notice specifying a date on or after which the draft will be taken into consideration ;

(4) the authority having power to make the rules or bye laws, and, where the rules or bye laws are to be made with the sanction, approval or concurrence of another authority, that authority also, shall consider any objection or suggestion which may be received by the authority having power to make the rules or bye laws from any person with respect to the draft before the date so specified ;

(5) the publication in the Gazette of a rule or bye-law purporting to have been made in exercise of a power to make rules or bye-laws after previous publication shall be conclusive proof that the rule or bye-law has been duly made.

Continuation of orders, etc., issued under enactments repealed and re-enacted.

24. Where any Act of the Governor General in Council or Regulation is, after the commencement of this Act, repealed and re-enacted with or without modification, then, unless it is otherwise expressly provided, any order, scheme, rule, form or bye law, issued under the repealed Act or Regulation, shall, so far as it is not inconsistent with the provisions re-enacted, continue in force, and be deemed to have been issued under the provisions so re-enacted, unless and until it is superseded by any order, scheme, rule, form or bye-law issued under the provisions so re-enacted.

Miscellaneous.

XLV of 1860. Recovery of fines.

25. Sections 63 to 70 of the Indian Penal Code and the provisions of the Code of Criminal Procedure for the time being in force in relation to the issue and the execution of warrants for the levy of fines shall apply to all fines imposed under any Act, Regulation, rule or bye law, unless the Act, Regulation, rule or bye-law contains an express provision to the contrary.

Provision as to offences punishable under two or more enactments.

26. Where an act or omission constitutes an offence under two or more enactments, then the offender shall be liable to be prosecuted and punished under either or any of those enactments, but shall not be liable to be punished twice for the same offence.

Meaning of service by post.

27. Where any Act of the Governor General in Council or Regulation made after the commencement of this Act authorizes or requires any document to be served by post, whether the expression "serve" or either of the expressions "give" or "send" or any other expression is used, then, unless a different intention appears, the service shall be deemed to be effected by properly addressing, pre-paying and posting, by registered post, a letter containing the document, and, unless the contrary is proved, to have been effected at the time at which the letter would be delivered in the ordinary course of post.

ation of
ctments.

28. (*1*) In any Act of the Governor General in Council or Regulation, and in any rule, bye-law, instrument or document, made under, or with reference to, any such Act or Regulation, any enactment may be cited by reference to the title or short title (if any) conferred thereon or by reference to the number and year thereof, and any provision in an enactment may be cited by reference to the section or sub-section of the enactment in which the provision is contained.

(*2*) In this Act and in any Act of the Governor General in Council or Regulation made after the commencement of this Act, a description or citation of a portion of another enactment shall, unless a different intention appears, be construed as including the word, section or other part mentioned or referred to as forming the beginning and as forming the end of the portion comprised in the description or citation.

ng for
ious
tments,
s and
laws

29. The provisions of this Act respecting the construction of Acts, Regulations, rules or bye-laws made after the commencement of this Act shall not affect the construction of any Act, Regulation, rule or bye-law made before the commencement of this Act, although the Act, Regulation, rule or bye-law is continued or amended by an Act, Regulation, rule or bye-law made after the commencement of this Act.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See section 2.*)

Year.	No.	Title or subject.	Extent of repeal.
1868	I	The General Clauses Act, 1868.	The whole
1872	I	The Indian Evidence Act, 1872.	So much as relates to Act I of 1868.
1887	I	The General Clauses Act, 1887.	The whole.
1891	XII	The Repealing and Amending Act, 1891.	So much as relates to Act I of 1868.

J. M. MACPHERSON,
Secretary to the Government of India

SUPPLEMENT TO

The Gazette of India.

No. 11.] CALCUTTA, SATURDAY, MARCH 13, 1897.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

APPROPRIATION REPORT ON THE ACCOUNTS OF 1895-96.

GENERAL REVIEW.

Throughout the report the figures are tens of rupees (Rs. 1—R10), with the last two figures cut off for brevity, thus, 149,7 reads one hundred and forty-nine thousand seven hundred tens of rupees.

1. Owing to the continued fall in the gold value of the rupee, the Government of India found itself face to face with the prospect of a heavy deficit in the Estimates of 1895-96. Before the presentation of those estimates, the Tariff Act was accordingly amended in December 1894, by the inclusion of cotton yarn and piece goods in the tariff, and a countervailing excise duty was also imposed on certain classes of cotton goods manufactured in this country. With the additional revenue thus expected to be obtained (1,455,0), the Government of India was able to secure equilibrium in the Estimates of the year in which the total revenue was expected to amount to 96,924,3 and the expenditure chargeable against it to 96,878,1, leaving a net surplus of 46,2 only. The rate of Exchange was taken in the Estimates at 13·09*d.* involving an excess expenditure of nearly 1,900,0 over the Budget Estimates of 1894-95. Provision was made for an increased scale of expenditure on Civil and Military Works which had been considerably restricted in the previous year, for an increase in the pay of Native Sepoys from R7 to R9 and for 150,0 for military preparations in connection with the disturbances in Chitral, for an increase in the Opium Expenditure due to an enhancement of the price paid to the cultivators of Bengal opium and to the purchase of Malwa opium for excise purposes. The Famine Insurance Grant, however, remained suspended. On the other hand, an improvement was estimated to be obtained from the reduction of the rate of interest on the bulk of the rupee debt, and from Railway, Land, Opium, and other revenues. The Financial Statement concluded with the remark that while the crisis was not yet past and the financial position could not be looked upon as safe till the Famine Grant had been renewed, yet the Government of India might claim to have made a full year's progress towards the restoration of their fortunes.

2. No sooner was the Financial Statement issued, than the complications in Chitral took a serious turn and it was decided to send a military expedition for the relief of the garrison, which cost 1,619,3 during the year, against a provision of 150,0 in the Budget. The occupation of Chitral and its communications also involved an expenditure of 86,6. The final result of the year would therefore have been a heavy deficit, if it were not for the rise in exchange during the year, the average rate obtained having been 13·638*d.* against 13·09*d.* a large improvement in the net revenue from Opium due partly to a saving in the expenditure consequent on the failure of the crops and partly to a rise in the price of Bengal opium, an increase in the revenue from Railways, Customs, Excise, Salt, Post Office and Telegraph, and a large saving on the estimate of the ordinary Military Expenditure, and that of the Civil Departments. These improvements were not only sufficient to meet the heavy expenditure on account of Chitral, but enabled the Government of India to restore the Famine Insurance Grant to 1,000,0, to refund to the Local Governments the special contributions aggregating 405,0 realised in 1894-95, to reduce with effect from 3rd February 1896 the cotton duties from 5 to 3½ per cent., to abolish the duty on yarns and still to close with a surplus of 1,534,0.

3. No changes in classification of Revenue and Expenditure requiring special notice here were made during the year.

4. The following summary gives the Budget and Account figures of 1895-96 to be reviewed in this report, and the details will be found in the statements on pages 154 to 166 :—

Receipts. Budget.	Receipts. Accounts.		Revenue and Expenditure.	Outgoings. Budget.	Outgoings. Accounts.
65,229,0	66,073,3	A	Principal Heads of Revenue .	11,280,5	10,351,2
805,1	825,1	B	Interest	4,115,5	4,044,8

42,694,2	45,050,6	GRAND TOTAL .	42,694.2	45,050,6

Comparison with the year 1894-95.

5. The comparison in respect of revenues with the year 1894-95 is as follows :—

Revenues.	1894-95.	1895-96.	Difference. 1895-96, greater (+) or less (—).
Principal Heads of Revenue . . .	63,585,1	66,073,3	+2,488,2
Interest	815,1	825,1	+10,0
Post Office, Telegraph, and Mint . .	2,645,6	2,840,4	+194,8
Civil Departments	1,629,0	1,684,5	+55,5
Miscellaneous	1,227,0	1,095,9	—131,1
Railways	21,244,1	21,859,2	+615,1
Irrigation	2,338,8	2,300,0	—38,8
Buildings and Roads	692,5	713,8	+21,3
Army Services	1,010,2	978,0	—32,2
TOTAL	95,187,4	98,370,2	+3,182,8

6. The important variations under *Principal Heads of Revenue* are the following :—

Land Revenue	+792,6
Opium	—199,9
Salt	+196,1
Stamps	+101,4
Excise	+194,7
Provincial Rates	+165,9
Customs	+1,162,4
TOTAL .	+2,413,2

7. Under *Land Revenue* the increase occurred chiefly in the Central Provinces (108,9), the North-Western Provinces and Oudh (261,8), and Bombay (407,c) in consequence partly of postponements from the previous year and partly of revisions of settlements. In Bombay a part of the increase was also due to the collection in advance of a part of the revenue due in the current year. Under *Opium* the prices realised at the sales of Pengal opium were higher than those of the previous year (R1,390 against 1,338), but the improvement due to this was more than counterbalanced by a reduction in the number of chests sold, the net result having been a falling off in the revenue of 81,0. There was also a falling off of 145,4 in the Malwa opium pass fees, owing to the depressed condition of the trade. In excise opium, however, there was an improvement due to an enhancement of the cost price at which Bengal opium is issued for excise purposes, in consequence of an increase in the price paid to the cultivator. The improvement in *Salt* revenue occurred mainly in Madras, in consequence of the high price of Government paper which ruled during the year, having induced dealers to pay the duty in cash instead of availing themselves of the option of taking credit for six months on

lodging Government paper as security. The improvements under *Stamps* and *Excise* represent as usual the normal growth of these revenues in consequence of the growing prosperity of the country. There was, however, a decline in the Excise revenue of the Central Provinces and the North-Western Provinces and Oudh in consequence of unfavourable agricultural seasons. Under *Provincial Rates* there was an increase in the Central Provinces and the North-Western Provinces and Oudh, due to postponements from the preceding year, and in Madras owing partly to the establishment of additional Punchayat Unions, and partly to the village cess collections having been made for the whole year, against nine months in the previous year. The increase under *Customs* was obtained chiefly from the import duty imposed on cotton goods and yarn in December 1894 and partly from an improvement in the productiveness of the other duties. The increase would have been much larger but for the reduction of the duty on cotton goods and the abolition of the duty on yarns in February 1896.

8. The improvement under *Interest* is more than accounted for by the increased revenue obtained from the investment of a part of the cash balances in England. *Post Office and Telegraph* exhibited normal growths which were specially enhanced by the opening of new Post Offices in Cashmere and Chitral, by an increase in state telegrams on account of the Chitral Expedition, and in consequence of the deduction from the telegraph revenue of the previous year of 43,2 which was refunded to the East Indian Railway on a re-adjustment of the rent paid by it for the lease of telegraph wires and instruments for the years 1887 to 1893. The principal items making up the improvement under *Civil Departments* are an increase of 11,7 under Police, due to larger receipts from private watchmen and the sale of a Police hulk, of 14,5 under Marine, chiefly in Madras, due to re-adjustment of the contribution made in the previous year to the Pamban Pilotage Fund on account of the dredger "Wenlock" and 10,3 under Scientific and other Minor Departments, due chiefly to increased demand for cinchona and quinine and to a contribution paid by the Poona Municipality towards the Reay Industrial Museum. The falling off under *Miscellaneous* is accounted for chiefly by the absence of the special receipts which occurred in 1894-95, namely, 68,9 on account of the capitalised value of lapsed pensions under the King of Oudh Loans and 9,5 on account of the refund obtained from Her Majesty's Imperial Government, of the share of the charges for the Opium Commission originally borne by the Government of India. The Gain by Exchange on capital transactions of subsidised Railways also fell short of the actuals of the previous year by 49,4.

9. The large improvement in the *Railway Revenue Account* was obtained from the additional mileage of railways opened for traffic during the year, from the heavy traffic connected with the Chitral Expedition, from an exceptionally heavy pilgrim traffic and from a better business generally in cotton, coal, wheat and rice. The increase would have been larger but for serious breaches caused on some of the lines by floods which led to the suspension of through traffic on them for nearly two months. The chief contributors to the improvement were the East Indian Railway (245,3), the North-Western Railway (231,5), the South Indian Railway (72,2), the Southern Mahratta Railway (69,8), the East Coast Railway (53,5) and the Burma Railway (59,8). There was, on the other hand, a falling-off on the Rajputana-Malwa and the Indian Midland Railways of 162,3 and 73,2 respectively, owing to a falling-off in the traffic in grain, oil-seeds and salt. Under *Irrigation* revenue the falling-off of 38,8 was due to the heavy winter rains of 1894-95 having reduced the demand for canal water in the North-Western Provinces for the rabi irrigation of that year, the collections for which were made in the year under review. The decrease was, however, counterbalanced to some extent by increases in the Punjab and Madras, due to the development of irrigation in the former province and to enhancement of water rates in the latter. Under *Buildings and Roads* there was an improvement in the receipts from sale of buildings and from ferry tolls. As regards *Army Services*, the receipts of the previous year included a special credit of 34,1 on account of the value of Ordnance stores supplied to the Nepal Durbar and His Highness the Amir of Afghanistan, and on account of the sale-proceeds of three troopships

in England. The receipts in 1895-96 were further reduced by the value of Commissariat stores issued to other Departments having been adjusted by deduction from expenditure, instead of as receipts and by smaller sales of malt liquor. These deficiencies were, however, made good to some extent by larger recoveries on account of expeditions which were credited for the first time as receipts, instead of being deducted from expenditure, and by an increase in the value of articles in possession of regiments on their transfer from the Indian to the British establishment.

10. The comparison of the expenditure side is given below. The average rate of exchange for the Secretary of State's drawings in 1895-96 was about 13·638*d.* against 13·1005*d.* in 1894-95. The decrease under the different heads in the exchange on the expenditure in England, due mainly to the higher rate of Exchange obtained during the year, is shown separately :—

	1894-95.	1895-96.	Difference, 1895-96, greater + or less — In the Exchange, on English expenditure.	Due to other causes.	Total.
Direct Demands on the Revenues	9,722,1	10,351,2	— 5,2	+ 634,3	+ 629,1
Interest	5,124,0	4,044,8	— 180,5	— 898,7	— 1,079,2
Post Office, Telegraph, and Mint	2,466,2	2,594,9	— 3,0	+ 131,7	+ 128,7
Civil Departments	14,835,2	15,172,9	— 14,8	+ 352,5	+ 337,7
Miscellaneous	6,065,7	5,933,3	— 144,5	+ 12,1	— 132,4
Famine	610,2	586,5	— 1	— 23,6	— 23,7
Construction of Railways	19,6	7,7	...	— 11,9	— 11,9
Railways	23,592,6	23,479,5	— 407,8	+ 294,7	— 113,1
Irrigation	2,952,8	2,976,3	— 6	+ 24,1	+ 23,5
Buildings and Roads	5,352,8	5,810,5	...	+ 457,7	+ 457,7
Army Services	24,096,1	25,398,2	— 422,8	+ 1,724,9	+ 1,302,1
Special Defence Works	217,9	101,3	— 34,0	— 82,6	— 116,6
Total	95,055,2	96,457,1	— 1,213,3	+ 2,615,2	+ 1,401,9

11. The decreases in the charges for Exchange require no special explanation, and it is necessary to refer only to the differences shown above as due to other causes.

12. Under *Direct Demands on the Revenues* there was an increase of 453,6 in the Opium expenditure, due partly to an increase in the price paid to the cultivator for crude opium from R5 to R6 per seer and partly to an increase in the outturn. Assignments and Compensations also showed an increase of 48,3, due to revision of settlements of alienated lands in Bombay, to payments of arrears and to an increase in the sale of Sambhar salt in 1894-95 having enhanced the compensation payable to the Jodhpur and Jeypur States. The remainder of the increase occurred chiefly under Land Revenue (49,3), due to normal growth of the charges for District Administration and Land Records and Agriculture, under Customs (28,3), due to the additional establishment necessitated by the re-imposition of cotton duties, under Salt (22,9), due to the re-introduction of the monopoly system in certain

excise factories in Madras and the transfer of large quantities of Government salt for storage and under Refunds and Drawbacks (19,5), due to drawbacks of cotton duties. The *Interest* charges in 1894-95 included a considerable amount of special expenditure connected with the conversion operations in India, while those of 1895-96 were diminished by the reduction of the rate of interest on the bulk of the rupee debt from 4 to $3\frac{1}{2}$ per cent., by a considerable portion of the 4 per cent. debt not having been tendered for conversion and having therefore ceased to bear interest as it had been advertised for discharge, and by the transfer of a larger portion of the interest charges in India to the Railway and Irrigation Revenue Accounts in consequence of additional capital expenditure on State Railways and Irrigation Works, which was met from existing balances without a new loan. *Post Office and Telegraph* showed excesses as usual, due to continued growth of the departments, the increase under Telegraph being further enhanc by an extension of the programme for the construction of new lines which had beer. unusually curtailed in the previous year.

13. As regards the *Civil Departments*, the only items which require special mention are an increase of 146,3 under Political, due to payment of arrears of the subsidy of His Highness the Amir of Afghanistan, to charges connected with the visit of His Highness the Amir's son to England, and to the expenditure connected with the Chitral expedition, the Kurram Mission and the frontier levies in Dir and Swat, and an increase of 44,7 under Marine due to an enhancement of the contribution towards the expenses of Her Majesty's ships employed in the Indian seas, the decision of the arbitrator being that India must pay a share of the cost incurred by the Admiralty in the defence of Indian waters. Most of the other heads also showed usual increases owing to the growing needs of Administration, the only head which showed a decrease being Administration, under which there were some special payments in 1894-95 to the Bank of England and the Presidency Banks in India, in consequence of the extra work entailed on them by the conversion of the 4 per cent. rupee debt, and the supply of currency note forms, which were also exceptionally heavy. The normal growth of the retired list and an increase in the number of officers absent on leave in England enhanced the charges in the group *Miscellaneous*, but a part of the increase was counterbalanced by lapses of Political Pensions, by the transfer of a Waziki pension amounting to 5,9 from this head to Interest and by smaller charges for Special Commissions of Enquiry. The *Famine Insurance* Grant was maintained in both years at 1,c00,0. But owing to a falling-off in the net earnings of the two Protective Railways, the Bengal-Nagpur and the Indian Midland, there was an increase in the net charge on the revenues on account of them. This, though shown under the Railway Revenue Account, is actually met out of this grant, and the increase in it consequently caused a corresponding reduction in the amount available for expenditure on the construction of Protective Railways and Irrigation Works, shown in this group. The programme of the year for the *Construction of Railways* from revenue was smaller than that of the previous year.

14. In the *Railway Revenue Account* there was a large increase in the working expenses of State Railways owing to larger traffic and to specially large renewals of engines on the East Indian Railway. The interest charges were also higher owing to the progress of railway construction. The increases were, however, counterbalanced to some extent by a large decrease in the surplus profits paid to the Great Indian Peninsula, the East Indian, and the Bombay, Baroda and Central India Railway on account of the Rajputana-Malwa Railway. The *Irrigation Expenditure* was higher owing to increased charges for interest consequent on the investment of further capital on the construction of Irrigation Works. The expenditure on *Buildings and Roads* in 1894-95 was exceptionally low owing to the stringent measures of economy adopted in that year in consequence of financial pressure. On the restoration of financial equilibrium the scale of expenditure under this head has been raised to the normal level. As regards *Army Services*, the increase is more than accounted for by the special expenditure connected with the Chitral Relief Force, and the occupation of Chitral and its communications. There was special expenditure also on account of the Tochi and Wano

garrisons, the reorganisation of the Army Commands and Staff in India, the increase in the pay of the Native Infantry from R7 to R9 a month and the payment of the British troops at a lower rate of exchange, namely, 13¼*d.*, against an average of 13⅞*d.* in 1894-95. These increases were, however, counterbalanced by a saving in the ordinary expenditure, chiefly in the purchase of malt liquor, in the charges for provisions for native troops due to a fall in prices, in the Railway and other transport charges, in the charges for clothing due to the introduction of the new clothing scheme, in the payments to the War Office, the advances made in the previous year having been found to be larger than the amount due, in the furlough allowances of officers absent in England and in the supplies of Ordnance stores from England. The expenditure on *Special Defence Works* was considerably below that in 1894-95 owing to the gradual completion of the important works included in the programme.

Comparison of Accounts with Budget Estimates of 1895-96.

15. The following figures exhibit the differences in the net accounts between the Budget and the actuals, the differences due to the rise in the rate of exchange, which was taken in the Budget at 13·09*d.*, being shown in a separate column The comparison of the gross figures has been given before in paragraph 4:—

	Due to rise in exchange.	Better + Worse — Due to other causes.	Net.
Principal Heads of Revenue . .	+ 3,4	+1,770,2	+1,773,6
Interest	+ 191,9	— 101,2	+ 90,7
Post Office, Telegraph, and Mint .	+ 14,9	+ 107,1	+ 122,0
Civil Departments	+ 41,4	+ 219,5	+ 260,9
Miscellaneous	+ 148,1	+ 164,3	+ 312,4
Famine	...	— 531,5	— 531,5
Construction of Railways . . .	...	+ 1,7	+ 1,7
Railways	+ 422,8	+ 105,1	+ 527,9
Irrigation	+ 1	— 110,2	— 110,1
Buildings and Roads . . .	+ 6,8	+ 61,1	+ 67,9
Army Services	+ 298,7	— 377,4	— 78,7
Special Defence Works . . .	+ 3,3	+ 50,1	+ 53,4
COMBINED SURPLUS, IMPERIAL AND PROVINCIAL .	+1,131,4	+1,358,8	+2,490,2

16. The improvements due to the rise in the rate of Exchange require no special explanation, and it is necessary to explain only the differences shown above as due to other causes.

17. To the large improvement under *Principal Heads of Revenue* Opium alone contributed 949,6, being the net result of an improvement in the revenue of 263,3 and a saving in the estimated expenditure of 686,3. The sales of Bengal opium brought

in an increase of 396,6, chiefly from the actual prices having considerably exceeded those anticipated in the Budget and to a smaller extent from an increase in the quantity sold. On the other hand, there was a decrease of 134,1 in the pass fees on Malwa Opium, the exports of which seriously declined in consequence of the depressed condition of the trade. The saving in the expenditure resulted chiefly from a failure of the Opium crop in Bengal. The next largest improvement was obtained from Customs, the revenue under which showed an improvement of 202,6 and the expenditure a saving of 7,3. There was a large increase in the import duty on kerosine oil and liquors. The export duty on rice also yielded a specially high revenue. But the import duty on cotton goods fell considerably short of the anticipations in the Budget, and the deficiency was enhanced by the Tariff Act of February 1896, which, as explained in paragraph 2, abolished the duty on yarns, reduced the import duty on manufactured cotton goods from 5 to 3½ per cent., and imposed an excise duty of 3½ per cent. on cotton goods of all counts manufactured in Indian mills. The saving in expenditure resulted from the cost of the additional establishment required for the administration of the Cotton Duties Act having been over-estimated. The other heads which contributed to the improvement in the group under consideration are Excise (Revenue 188,1, Expenditure 2,2—total 190,3) under which the Revenue was under-estimated in Bengal, and in Madras and Bombay the estimates were exceeded owing, in the former, to a growing consumption of arrack and to enhanced rates of duty on country spirits, and in the latter to higher prices obtained at the re-sale of lapsed licences, to enhanced rates of still head duty and to increased sales of country spirits; Salt (Revenue 167,5, Expenditure 13,1—total 180,6), the better result under which was obtained chiefly from the high price of Government Securities having stimulated cash in lieu of credit sales in Madras; Stamps (Revenue 78,9, Expenditure 22,3—total 101,2) due to its normal growth; Forest (Revenue 18,3, Expenditure 83,9—total 102,2) the result under which was more favourable in consequence of the extraction of a larger quantity of timber by consumers, to the curtailment of departmental operations having diminished expenditure, which was over-estimated in the Budget. Provincial Rates also showed a moderate improvement. The only head which showed an appreciable falling-off was Land Revenue, the collections of which fell short of the estimate by 168,7 chiefly in the North-Western Provinces, Central Provinces, and the Punjab, owing to suspensions and remissions rendered necessary by bad agricultural seasons. The deficiency in the receipts was however to some extent made good by a saving of 92,0 in the estimated expenditure, chiefly under Land Records and Agriculture and Survey and Settlements, some of the operations not having been undertaken and the expenditure on some others having been over-estimated.

18. The *Interest* charges were higher partly on account of the payment in the year of two years' interest on the Bengal Uncovenanted Service Family Pension Fund deposits and partly on account of the discharge of the unconverted portion of the 4 per cent. loans having brought forward claims for arrears of interest. The better result under *Post Office, Telegraph and Mint* was the outcome partly of over-estimates under expenditure and partly of insufficient provision in the estimate of revenue for the growth of the operations of the departments which, as explained in para. 8, was specially large in the year under review in consequence of the opening of new post offices in Cashmere and Chitral and of a large increase in state telegrams on account of the Chitral Expedition. In the *Civil Departments* the expenditure of most of the departments was over-estimated in the Budget. The postponement of the reorganisation of the Burma Police and of the appointment of an additional Judge there till late in the year caused further savings. The result under Marine also was better owing to an increase in the receipts for work done for other departments and Local Governments. In the *Miscellaneous* group, the receipts from Gain by Exchange on capital transactions of Guaranteed and Subsidised Railways and other miscellaneous remittance transactions with London exceeded the Budget Estimate by 89,9. There was an increase under Miscellaneous also, in the receipts from rents and unclaimed deposits lapsing to Government, and in the Customs and Zariba receipts of Berbera and Bulhar. In the expenditure there were savings on the Budget chiefly under Territorial and Political Pensions due to lapses by deaths,

under Stationery and Printing, due to larger recoveries from the Post Office on account of work done, and under Miscellaneous, owing to provision having been made in the Budget Estimate of the Punjab for a reserve to meet unexpected expenditure which was charged in the accounts under the respective heads concerned. As regards *Famine Insurance*, it has been explained in para. 2 that it was decided to raise the grant to 1,000,0 including the net loss on revenue account of the Protective Railways (Bengal-Nagpur and Indian Midland), long after the issue of the Financial Statement for the year.

19. The improvement in the *Railway Revenue Account* was the net result of an increase in the revenue of 322.4 and an increase in the expenditure of 217,3. The increase in revenue was obtained, as explained in para. 9, from the heavy traffic connected with the Chitral Expedition, from an exceptionally heavy pilgrim traffic in the year, and from a good business generally in cotton, coal, wheat and rice. The increase was contributed chiefly by the North-Western Railway (335,7), East Indian Railway (243,4), Eastern Bengal Railway (131,6), Southern Mahratta Railway (68,7) and the South Indian Railway (63,5). On the other hand, there was a falling-off of 444,4 on the Great Indian Peninsula Railway and of 199,2 on the Rajputana-Malwa line. On the former the Budget anticipated a revival of traffic, but the expectation was not realized owing to continued failure of agricultural crops in the districts served by it. Under expenditure there was a large increase in the Working Expenses of State Railways in consequence of the larger traffic worked, heavier renewals of engines on the East Indian Railway and larger surplus profits paid to the East Indian Railway, the Bengal North-Western Railway, the Southern Mahratta Railway and the South Indian Railway. The increase was, however, counterbalanced to some extent by savings on the estimate of the surplus profits of the Great Indian Peninsula Railway, the charges for Land for the Bengal North-Western Railway for the Gogra bridge and Miscellaneous Railway Expenditure owing to surveys for new lines not having been undertaken to the extent provided for. The unfavourable result under *Irrigation* was due mainly to the heavy winter rains of 1894-95 having reduced the demand for canal water in the North-Western Provinces for rabi irrigation, to large remissions of water rates in the Godavari and Kistna Deltas in Madras owing to damages done to crops by heavy floods in the latter part of 1895, to restriction of expenditure in the North-Western Provinces in consequence of a very large falling-off in revenue, and to a delay in the preparation of the Estimates for the Cooum improvement scheme in Madras. The improvement under *Buildings and Roads* occurred almost wholly in the receipts from sale of buildings and from ferry tolls. Under *Army Services*, the Chitral Relief Force and the occupation of Chitral and its communications caused an excess over the Budget of 1,555,9, but 1,178,5 out of it was counterbalanced by a saving in the ordinary expenditure, due partly to over-estimates in the Budget notably under Army and Garrison Staff, Commissariat, Clothing and Ordnance and partly to savings in the estimate of the charges for Exchange Compensation Allowance owing to the rise in Exchange, to large savings under Commissariat chiefly in consequence of a fall in the prices of articles of food for men and animals, of less ordinary movements of troops and stores and of smaller purchases of commissariat stores and transport animals, to the introduction of the new clothing system and the inability of contractors to supply the full requirements of clothing and ordnance stores, to the absence of troops on field service having caused savings in the ordinary expenditure, to the cancellation of the orders for certain supplies of cordite and to smaller payments to the War Office, the advances made in the previous year having been found larger than the amount due.

20. The Budget estimated for an expenditure of 577,1 in excess of the revenue on the whole account, but a sum of 623,3 out of the Provincial and Local expenditure was payable from past accumulations of balances, leaving a net surplus in the Imperial account of 46,2. The accounts close with a surplus of 1,534,0 in the Imperial account and of 379,1 in the Provincial and Local account. The net Imperial Revenue has, therefore, been better than the Budget by 1,534,0—46,2=1,487,8, and the Provincial and Local expenditure by

623,3+379,1=1,002,4. The details of these fluctuations are given below, the signs + m ing better, and — worse, than the estimate :—

	Revenue Side.			Expenditure Side.		
	Imperial.	Provincial.	Total.	Imperial.	Provincial.	Tota
Principal Heads of Revenue .	+ 271,1	+ 573,2	+ 844,3	+ 828,0	+ 101 3	+ 92

Section A.—PRINCIPAL HEADS OF REVENUE.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
63,585,1	REVENUE	65,229,0	65,832,7	66,073,3

22. The actuals exceeded the Budget Estimate by 844,7, and the actuals of the previous year by 2,488,2. Of the improvement, as compared with the Budget, 263,3 occurred under Opium, due to better prices having been realized at the sales of Bengal opium, and to increase in the number of chests sold, reduced by a fall under opium pass fees, owing to the depressed condition of the trade, 202,6 under Customs, chiefly in Burma and Bengal, due in the former to a general improvement in the import trade, and to exceptionally large exports of rice to foreign ports, and in the latter to duty on oil and large exports of rice, counterbalanced by a decline, chiefly in Madras and Bombay, due to the reduction of import duty on cotton goods and the abolition of duty on twist and yarn; 167,5 under Salt, chiefly in Madras, owing mainly to large cash sales due to the high price of Government Paper. Stamp and Excise revenue also had their normal growth, the improvements being 73,9 and 188,1 respectively. Provincial Rates contributed 53,0 and Assessed Taxes 36,0, due mainly to more careful assessment, and Forest contributed 18,3. The only head which showed a falling-off was Land Revenue, which declined by 168,7, mainly in the North-Western Provinces, the Central Provinces and the Punjab, due chiefly to suspensions and remissions rendered necessary by unfavourable seasons and failure of crops.

23. Of the improvement, as compared with the actuals of the previous year, 1,162,4 occurred under Customs due chiefly to the causes mentioned above; 792,6 under Land Revenue chiefly in the North-Western Provinces, the Central Provinces, and Bombay in consequence of postponement of previous year and revision of settlement; 196,1 under Salt, chiefly in Madras. There were also improvements under Stamps (101,4), Excise (194,7), Provincial Rates (165,9), Assessed Taxes (27,1), Forest (29,0), Registration (6,7), and Tributes from Native States (12,2). Under Opium there was a falling-off of 199,0, due partly to a fall in the number of chests sold, and partly to the decline in pass fees noticed above.

I.—Land Revenue.

24. The receipts under this head showed a falling-off of 168,7 as compared with the Budget, and an improvement of 792,6 over the actuals of the previous year. The decline was largest in the North-Western Provinces, the Central Provinces and the Punjab, partly counterbalanced by a rise in Madras and Bombay. The improvement as compared with the actuals of the previous year occurred chiefly in Bombay, the North-Western Provinces and the Central Provinces.

25. Under *Ordinary Land Revenue* the receipts in India fell short of the Budget by 3,0 under fixed collections, of which 1,6 occurred in Coorg, owing to the postponement of settlement operations in two Taluks, and 1,2 in Ajmere, owing to too sanguine an estimate. Under fluctuating collections the fall amounted to 8,1, of which 7,8 occurred in Baluchistan, owing to an indifferent season and to a fall in the prices of food-grains. In the Central Provinces the anticipated increase of revenue from revised settlement operations was not realized, owing chiefly to the non-realization of the suspended revenue in the Damoh and Saugor Districts, to the further suspension in the Damoh and Jubbulpore Districts, to the postponement in the Saugor, Narsingpur, and Hoshangabad Districts of the revised Settlement, and to the low collections in the Jubbulpore District of the February kist. In Upper Burma the falling-off, due to shrinkage in the area under cultivation owing to deficient rainfall, was more than made up by arrears of revenue collected. In Lower Burma the actuals were higher owing to the collections of arrears, to an increase in the area of assessment, and to prompt realization of current demands. In Assam the deficiency was due to unrealized revenue, chiefly in the Assam Valley Districts. In Bengal the improvement was due to the inclusion of receipts on account of Malikana, provided for under *Miscellaneous*, and to the exceptionally large collections from Government estates, which exceeded the Budget by 95,0, counterbalanced by a shrinkage of about 70,0 in the revenue from fixed collections and from quit-rents of Tributary estates. In the North-Western Provinces the deficit was due to the non-realization of a large part of the arrears (175,0) of the previous year owing to the failure of crops. In the Punjab the actuals exceeded those of the previous year in consequence of the revision of settlements in some districts, but fell short of the Budget owing partly to suspensions and remissions of revenue rendered necessary by a bad harvest and partly to floods in some districts. In Madras the falling-off was due to the relinquishment of water-rate in Godavari, and to the anticipated increase in settlement rates in Malabar not having been made, partly counterbalanced by prompt and advance collections and a favourable season. In Bombay the excess was due to the recovery of arrears and the collection in advance of a portion of the revenue due in 1896-97, to the disforesting of certain forest lands and bringing them under cultivation, and to favourable crops. In some districts, the additional revenue expected from revision of settlement was not realized, while the absence of rainfall and unfavourable inundations injuriously affected the crops in others.

26. Under *Assessment of Alienated Lands less Quit-Rents* the improvement as compared with the Budget occurred entirely in Bombay and was due to the introduction of Revised settlements, partly counterbalanced by a falling-off due to the exclusion of unculturable lands from the holdings of Jaghirdars and by lapses on the death of alienees. In Bengal the receipts of Police or Thanadari lands were included in the Revised under *Ordinary Land Revenue*, but the proposed change in classification was afterwards abandoned.

27. Under *Sale of Proprietary Right, etc.*, in Bengal the increase was due to the sale of Government estates and of waste lands in the Sunderbans (11,4), and to larger receipts on account of 12 per cent. on collections from Government Estates (2,5) consequent on the improved collections referred to above, while the sale of lands in the Lahore and Mooltan Districts in the Punjab fell much below the expectations of the Budget. In Madras the Revised included 23,6 expected to be realized in the Kistna District, which, however, did not accrue within the year.

28. Under *Capitation Tax, etc.*, in Upper Burma the rate of assessment of Thathameda tax was reduced in several districts on account of failure of crops, but in Lower Burma there was an improvement

Section A—PRINCIPAL HEADS OF REVENUE—*continued.*

I.—Land Revenue—*continued.*

under Capitation Tax owing to immigration from Upper Burma in some of the Districts and to the natural growth of population.

29. Under *Miscellaneous* the improvement in India was in cattle-grazing fees in Baluchistan. In Upper Burma it was contributed chiefly by larger receipts from petrolium wells, jade and amber, and fines imposed under Village Regulations. There was also a receipt of 3,3 from royalty on rubies, and of 6 from fruit trees, not foreseen in the Budget. In Lower Burma the fishery revenue was over-estimated. In Assam an increase in the number of applications for settlements brought more Survey fees. In Bengal the fall was due chiefly to the adjustment of Malikana receipts under *Ordinary Revenue* and partly to smaller recovery of Survey charges and to smaller miscellaneous receipts. In the North-Western Provinces the increase was due to improved Record-room receipts (1,3) and to special credits by recovery in India of Law charges in England on account of appeals from India (1,1). In Madras the Budget was raised in the Revised, but the actuals showed a further improvement.

30. Under *Land Revenue due to Irrigation* there was a decrease of 108,0 as compared with the Budget Estimate of which 76,4 occurred in Madras due to large remissions of water-rates in the Godavari and Kistna deltas owing to damages to crops by heavy floods in the latter part of 1895, and to exemption from enhanced water-rate in certain villages in Godavari. In Bombay the decrease of 34,4 was due to a falling-off of revenue from the Desert and Begari canals and the Eastern Nara works owing to insufficient water-supply, unfavourable inundation and less rabi cultivation. As compared with the actuals of the previous year, there was an improvement of 45,6. The increase in Madras (40,9) was mainly due to the enhancement of water-rates on the Godavari, Kistna and Cauvery delta systems, and the improvement in the Punjab (12,6) was due to increased credits to the Chenab canal.

31. The following statements A and B give the usual particulars regarding the distribution of Land Revenue between the Imperial and the Provincial Governments:—

II.—Opium.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
5,321,4	Sale of Bengal Opium	4,843,8	5,240,4	5,240,4
1,801,3	Bombay Opium Pass Fees	1,790,0	1,590,0	1,655,9
	Excise Opium—			
23,2	Central Provinces	26,4	23,5	24,3
3,6	Burma { Upper	4,0	5,0	4,5
14,0	Burma { Lower	17,2	17,8	15,5
39,9	Assam	45,9	45,4	45,0
59,5	Bengal	65,0	70,0	71,3
48,0	North-Western Provinces and Oudh	51,3	52,0	52,9
6,3	Punjab	6,2	7,2	8,1
194,5		220,0	220,9	221,6
6,6	Miscellaneous	6,8	5,8	6,0
7,323,8	TOTAL	6,860,6	7,057,1	7,123,9

33 Under *Sale of Bengal Opium* the Budget was based upon an expected sale of 37,260 chests at ₹1,300 per chest. The number of chests actually sold was 37,695 being an increase of 435 chests and the average of the actual prices obtained at the sales was ₹1,300 per chest. The result was an increase of 390,6 as compared with the Budget. Although the prices realised in 1895-96 were higher than those of 1894-95, the revenue of the year was less by 81,0 owing to the larger number of chests sold in 1894-95. Under *Bombay Opium Pass Fees* the Budget was not realised owing apparently to the depressed condition of the trade.

34. Under *Excise Opium* the falling-off in the Central Provinces was due to the fall in the sale of opium to licensed vendors. In Upper Burma the quantity of the drug sold exceeded the Budget anticipations, while in Lower Burma it was short of expectations. In Assam the falling-off was due to decreased consumption of opium, chiefly in the Darrang District. In Bengal the increase of revenue due to the cost price of excise opium having been raised was under-estimated. In the North-Western Provinces the estimate was framed too high. The increase in the Punjab was due to larger consumption of the drugs.

35 The following table gives the usual statistics for the last ten years of the produce and sales in Bengal and the exports from Bombay.—

Year.	Bengal. Produce of season. For export.	For Excise.	Total.	Chests sold.	Average price per Chest.	Total price.	Bombay. Chests.	Rate.	Amount.
	Chests.	Chests.	Chests.		₹			₹	
1885-86	64,025	5,144	70,169	59,094	1,735	6,296,0	37,077	650	2,440,0

* Including 27 chests issued to the Excise Department.

III.—Salt.

36 The actuals showed an improvement of 167,5 over the Budget Estimate and of 196,1 over the previous year. The increase occurred chiefly under *Excise on Local Manufacture* in Madras, and was due chiefly to larger realisations both on account of salt issued on cash payment of duty and previous credits. The large cash sales are said to have been due to the high price of Government paper.

37. The improvement noticed in last year's report has been continued.

		India.	Burma. Upper	Burma. Lower	Bengal.	Madras.	Bombay.	TOTAL.

39. Under *Sale of Government Salt* the decrease in India was due to Sambhar salt being displaced to a certain extent in the eastern markets of the North-Western Provinces and Oudh by salt which was imported from Calcutta. In Bombay the Budget, which was based on the collections of 1893-94, proved too high.

40. Under *Excise on Local Manufacture* the improvement, which was confined almost entirely to Madras, has been explained above. In Upper Burma the reduction of the composition duty in certain districts revived the local manufacture and improved the actual receipts. In India the falling-off was due to Sambhar salt having been displaced in the North-Western Provinces as explained above. In Bombay the falling-off, as compared with the actuals of the preceding year, was due to a very large decrease in the exports to Calcutta and to the Madras Presidency, principally Malabar, which fell respectively from 7,31,122 and 17,23,805 maunds in 1894-95 to 4,14,406 and 15,62,502 maunds in 1895-96, and to a decrease in the sales of Baragara salt owing to business at the Sambhar Lake having resumed its normal course, partly counterbalanced by an increase in duty on sea salt issued to other places and for local consumption.

41. Under *Duty on Imported Salt* in Burma the improvement was due to the disappearance of the glut caused in the market by the large clearances of imported salt in 1893-94, which prejudicially affected the duty in 1894-95. In Bengal the Budget was framed with reference to past actuals, and proved too low. In Madras the decrease was due to a smaller quantity of dutiable salt having been imported into the West Coast ports. The increase in Bombay was due to a continued improvement in the trade in Goa salt.

42. Under *Miscellaneous* the decrease in India was due to the falling-off at Sambhar in the demand for through traffic salt, partly counterbalanced by an increase in the manufacture of saltpetre owing to favourable prices, and to a particularly favourable manufacturing season. In Bengal the Budget Estimate was framed on an average of the receipts of the three preceding years and proved too low.

Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

IV.—Stamps.

43. The revenue under this head showed as usual more or less improvement in almost all the Provinces. The actuals of 1895 96 exceeded those of the preceding year by 101,4 and the estimate by 78,9. To these figures *Court Fee Stamps* contributed 61,7 and 39,3 and *Commercial and other Stamps* 35,6 and 33,5 respectively.

44. Under *Court fee Stamps*, the increase in Lower Burma was mainly due to special receipts in Rangoon on account of Probate duty paid on the Estates of wealthy persons. In Assam the enhanced revenue occurred chiefly in Sylhet, and was due to the institution of a larger number of civil and criminal cases, and to the issue of a larger number of processes under the Assam Land and Revenue Regulations In the Punjab and Madras the increase was due to increased litigation, while in Bombay the actuals were swelled by the receipt of two special items as Probate duty. The decline in India was due to decrease in value of suits instituted in Coorg and Baluchistan. In the Central Provinces the Budget was based on the average of three years' actuals and proved too high, while the decrease in the North-Western Provinces and Oudh was the result of bad seasons which checked the normal growth of the revenue.

45. Under *Commercial and Other Stamps*, the increases in Assam, Bengal and Madras were due to the general development of business, while that in the Punjab was attributed to unsatisfactory harvests during the year, in consequence of which debts were contracted by agriculturists and others and a large number of documents executed. In Bombay the improvement was due to more numerous transactions in shares of Companies and Associations. The decline in India was due partly to an over-estimate and partly to fewer sales of land and diminished speculation in the coffee trade in Coorg, while that in the Central Provinces was due to bad harvests generally accompanied by dull and restricted trade. In Lower Burma the revenue under this head has shown a progressive decline since 1892 93 owing to depreciation in the value of land and a general depression in trade.

V.—Excise.

46. Except a fall of 31,2 in Central Provinces and 25,1 in the North-Western Provinces and Oudh, the Excise revenue showed an advance in all the provinces, the total increase over the actuals of the preceding year having been 194,7 and that over the Budget 188,1. This improvement was contributed chiefly by Bengal, Madras and Bombay. In Bengal the increase was due to an under-estimate; in Madras to the growing consumption of arrack, and to an enhanced rate of duty on country spirits; and in Bombay chiefly to higher prices obtained at the re-sale of lapsed licenses, to enhanced rates of still head duty and to the increased sale of country spirits.

47 Under *License and distillery fees, etc*, the improvement in India resulted partly from the growth of revenue in Bangalore and Coorg owing to an influx of labourers in search of employment and of coolies for coffee cultivation (5,2), and partly to an increase in the still-head duty in Ajmere. In Lower Burma owing to keener competition for licenses higher prices were obtained. In Assam the increase was also due to keener competition at sales of shops and more favourable settlements generally. In Bengal sufficient provision was not made in the Estimates for the continued expansion of the revenue. In the Punjab the improvement was due to the expansion of the spirit trade, owing to a certain extent, to a very large number of marriages having been celebrated. In Madras the growing consumption of arrack and the enhancement of the rate of excise duty on country spirits were chiefly responsible for the increase. In Bombay the increase was due to various causes, chiefly to higher prices realized at the re-sale of lapsed licenses for the triennial period ending 1897-98, to enhanced rates of still-head duty from the commencement of the revenue year 1895-96, to the increased sales of country spirits attributed to the larger number of marriages in 1895-96 and to increased competitions at sales of toddy shops. The decline in the Central Provinces was due to the continued failure of crops, and to the unsuccessful working of the Bonded Warehouse system in certain districts. In the North-Western Provinces and Oudh the deterioration was due to adverse agricultural conditions which prevailed during the last half of 1894-95 and the whole of the year 1895-96.

48. Under Opium the variations were mostly due to the same causes as those mentioned under II.—Opium—Excise Opium. The only other noticeable facts are that in the North-Western Provinces and Oudh the decrease was partly due to adverse agricultural conditions, and partly to the enhancement of the cost price of opium. In Bombay the improvement was due to larger purchases by district farmers for home consumption, which was probably partly due to the large number of marriages in 1895-96. Under *Duty on Ganja* in Bengal the estimate, which was based on the actuals of past years, proved too low.

49. Under *Other Receipts* the falling-off in the Central Provinces was due to the fact that most of the zemindars in certain districts were paid compensation for resumption by Government of their Abkari rights. In Bombay the increase was due to enhanced receipts under confiscations and penalties, etc., owing to the cancellation of some of the country spirit farms in the Ratnagiri district.

50. The revenue under this head showed an improvement of 53,0 over the Budget Estimate and 165,9 over the actuals of the preceding year.

51. In the Central Provinces the actuals fell off, as the estimate under *Patwari Fund Receipts* was too sanguine in regard to the revision of Settlement operations. In the North-Western Provinces and Oudh the Budget under *Patwari Receipts* anticipated increased receipts under Rural Police Rate (Oudh) in consequence of contemplated changes in the village chaukidari system in Oudh, which however were not carried out. In Madras the Budget Estimate was too cautiously framed. Under *District and Local Rates and Cesses* the variations were mostly due to those causes which affected the ordinary collections under I—Land Revenue, but in Burma arrear collections also contributed to the increase, while in Madras the improvement due to the establishment of additional Punchayat unions was not fully allowed for. In Bengal the Budget under *Road Cess* was based on the average of the actuals of past years, and proved too high. The falling-off under *District Post Cess* occurred chiefly in the Districts of Midnapur, Backergunge, Chittagong, and Bhagalpur.

Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

VII.—Customs—*continued.*

52. The revenue showed an improvement of 202,6 over the Budget and of 1,162,4 over the actuals of the preceding year.

53. Under *Import Duties* the increase in Burma was due to a general improvement in the import trade, contributed chiefly by liquors and metals; but the receipts from cotton goods and raw materials were considerably below the Estimate. In Bengal the improvement was due to an increase of 123,2 from duty on oil, and of 15,1 under duties on spirits, partly counterbalanced by a fall under duties on cotton owing to a reduction of the duty on piece goods and the exemption of yarns. In Madras and Bombay the decline was due to the revised tariff legislation reducing the rate of import duty on cotton goods from 5 to 3½ per cent. and the abolition of duty on twist and yarn during the close of the year, partly counterbalanced by increases due to larger imports of silver bullion, copper, iron, steel, tin, spirits, drugs, dyes, etc. Under *Export Duties* the improvement in Burma, Bengal, and Bombay was due to a larger export of rice to foreign ports; the actual quantity exported from Burma having been 96,756 tons in excess of the exports of 1894-95. The falling-off in Madras was due to a considerable decrease in the exports of rice to Ceylon and Mauritius. The decline in Bombay under *Excise Duty on Cotton Manufacture* was due to the Budget having erroneously included duty on yarns allowed free export, and therefore exempt from duty under the Act. Under *Land Customs and Miscellaneous* the increase in Bengal was due to the Budget not having included the receipts from excise duty on cotton manufactures, while in Bombay it was due partly to an improvement on the cotton trade, and partly to the credit to Government under this head of the balance at credit of the 'Extra Hours' Fund, for which no provision was made in the Budget.

VIII.—Assessed Taxes.

1894-95 Accounts		Budget.	1895-96 Revised.	Accounts.
232.4	India	227,7	226,7	226.7
47.8	Central Provinces	50,8	49.0	47,8
8,9	Burma—Upper	9.0	9.0	8,9
67.9	Burma—Lower	70,0	63,0	65 3
27,4	Assam	27.5	29.0	32,3
456,3	Bengal	450.0	465,0	466,0
238.6	N.-W. Provinces and Oudh	234,0	245.0	241,9
129,0	Punjab	129,0	133,0	131,0
222,6	Madras	224,0	229.0	228,6
379.2	Bombay	377.2	390,0	388,7
1,808,1	TOTAL	1 799,2	1,838,7	1,835,2

54. The revenue showed an improvement of 36,0 over the Budget Estimate and of 27,1 over the actuals of the preceding year. The improvement was chiefly due to closer supervision of assessments and to commercial prosperity.

55. The decrease in the Central Provinces was due to the postponement of the triennial revision of assessment in certain districts owing to the depressed agricultural condition of the people. In Lower Burma the Budget was too sanguine. In Assam, Bengal, North Western Provinces, Punjab, and Madras the revenue continued to show a steady increase, due generally to more careful assessments. In Bombay the increase was due to an improvement in the earnings of the Bombay, Baroda and Central India Railway to better receipts under "Tax on Profits of Companies" and under "Tax on Securities" due in the former to improved trade, chiefly in respect of the Cotton Mills, and in the latter principally to the issue of debentures by certain Joint Stock Companies.

56. As usual, the *India* figures include, in addition to the collections made in the districts directly administered by the Government of India, the recoveries in the Non-Civil Departments from the salaries of Government officers. The details are given below:—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
94.2	Civil Department, India	90,3	85 9	84.7
65.4	Military Department	65,9	69.6	60.4
55,4	Public Works Department	54.0	53.3	54.9
2,0	Marine Department	2,1	2,2	2,1
7,0	Post Office Department	7,0	7,2	7,1
8,4	Telegraph Department	8,4	8,5	8,5
232,4	TOTAL AS ABOVE	227,7	225,7	226,7

57. The falling off in the Civil Department, as compared with the Budget, was due to the tax on the East Indian Railway Company's share of surplus profits, and interest on Government Securities, having been over-estimated.

Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

IX.—Forest.

58. The revenue under this head exceeded the Budget by 18,3 and the actuals of 1894-95 by 29,(The most marked improvement was in Burma, Bengal and Madrás, the receipts in which were higher tha both estimate and actuals. In India, the Central Provinces, and Bombay the receipts fell considerably shor of the Budget anticipation, which in Bombay was also very much below the collections of last year.

59. Under *Timber and other produce removed by Government Agency* there was a total deficienc of 94,3 as compared with the Budget. In India the proceeds of the sale in London of three cargoe of Andaman timber were not included in the accounts of the year, and sandal wood fetched less i Coorg. In Lower Burma the extraction of teak in the Pegu circle fell short, while in the Tenasserir circle the timber extracted was not sold before the close of the year. In Assam the fall was due t a large stock of timber remaining unsold. In the North-Western Provinces the decrease was due t the abolition of the departmental depôt system in the Bundelkhund Division, to a decrease in the sal of fuel, owing to the absence of a regiment during the whole year on the Chitral expedition, to th failure of contractors to remove fuel within the year, to no market having been found for fuel in Gonda and to less realizations from sales in Kheri In Madras the Budget was pitched too high. In Bomba the falling off was due chiefly to the supply in Sind of timber and firewood by Government Agenc having been stopped, to the introduction of a new system of selling coupes, by which the revenue fro this source has been brought to account under head II, and to a large falling-off in the sale of grass firewood, and charcoal The only province which showed an appreciable increase was the Centra Provinces, where the sale of hurra collected during the last three years swelled the receipts.

60 Under the second head the increase in India was chiefly in Coorg, and was caused by th removal of large quantities of poles, etc., by purchasers In Upper Burma the improvement was th result of a very large outturn of lessee's timber from the Chindwin forests, and of better prices fo the Cutch licenses ; in Lower Burma it was due to larger extraction of timber. In Assam improve supervision and better enforcement of the new grazing rules caused the excess. In Bengal there was a increased demand for *sundri* timber and firewood. In the Punjab the increase was due to a large number of trees having been sold in consequence of the erection of new buildings at Murree by the Militar authorities, to better prices having been realized, to larg r sales of fuel to the Murree-Attock Railway a more favourable rates, and to the great demand for grass owing to the scanty rainfall. In Madras the in crease was due chiefly to the revenue from trees in darkhast lands being credited to this head instead of t Land Revenue as formerly, and to large extractions from certain forests in South Malabar. In Bombay th improvement was due to the change in system referred to above, to better prices obtained for *coupe* and for teak timber, to larger sales of reserved wood and bamboo, and to better receipts from mino products. The falling-off in the Central Provinces was due to agricultural depression, owing to whic

Section A.—PRINCIPAL HEADS OF REVENUE—*continued.*

IX.—Forest—*continued.*

the people were allowed to collect wood from Government forests free of charge, to non-realization of commutation fees for grazing, to cattle disease, and to reckless fellings in malguzari forests, which necessitated the disposal of materials at low rates. In the North-Western Provinces the decrease was due to the low prices realized for standing trees, and minor produce, at the auction sales, to less sales of timber, fuel and grass and to short realizations of outstandings.

61. Under the third head the sale of a larger number of drift logs raised the receipts in both Upper and Lower Burma; while in Upper Burma the receipts were further improved by fines imposed on Shan chiefs for illicit working. In the North-Western Provinces the increase was due to a better collection of river dues and to larger sales of drift wood. In the Punjab the increase was due to fines in fire cases, to larger receipts for compounded forest cases, to better realizations from rafting fees, and to larger collections of drift timber.

62. The revenue under this head showed an increase of 2,5 over the Budget Estimate and of 6,7 over the actuals of the preceding year. This improvement was contributed mainly by Punjab and Bombay, and was due, in the former Province, to the natural expansion of the registration business and to the increase in sales and mortgages on account of the unsatisfactory nature of the season, and partly to an under-estimate which was also the cause of the increase in Bombay. In Bengal the revenue under "Fees for registering documents" has declined since 1893-94, the decrease being due to the reduction of the minimum *ad valorem* fee on documents not exceeding ₹50 in value. The Budget anticipated an increase of revenue from the opening of new rural sub-registry offices, but this was not realised.

63. The receipts under this head are for the most part fixed. The fluctuations that occur arise either from the non-payment of dues, or from advance or arrear collections. In the case of the Shan States the increase was due to heavier collections than anticipated. In the case of the Baroda State the Budget was not realized owing to the non payment of sums due by certain petty States.

64. Under *Tributes and Contributions under Rx. 5,000* in India the decrease was due to the delay in the realization of two instalments due from the Ajehgurh State until July 1896.

65. Under *Fees on Succession to Native States* the decline in India was due to the non-realization of the fees from the Baoni State till June 1896. The increase in Bombay was due to the realization of arrears which were not provided for in the Budget Estimate.

Section A.—DIRECT DEMANDS ON THE REVENUE.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
9,722,1	EXPENDITURE	11,280,5	10,377,8	10,351,2

66. The expenditure under this section showed a saving of 929,3 as compared with the Budget Estimate, and an excess of 629,1 as compared with the actuals of the previous year. Of the saving, as compared with the Budget, 686,3 occurred under Opium, due to the outturn of opium having fallen short; 92,0 under Land Revenue chiefly in the charges for Survey and Settlements and Land Records and Agriculture; 83,9 under Forest, dən to the curtailment of departmental operations; 24,6 under Refunds and Drawbacks, due to an over-estimate, and 25,4 under Stamps, due to the demand for stores from England having been smaller than anticipated. Under Salt and Customs there were savings of 13,1 and 7,3 respectively. Under Assignments and Compensations there was an excess of 15,4, chiefly in Bombay, due to revision of settlements, and large payments of arrears.

67. Of the excess as compared with the actuals of the previous year 452,8 occurred under Opium due chiefly to increase in price paid to cultivators and to a better outturn; 48,3 under Assignments and Compensations, due chiefly to the payment of the arrears mentioned above; 49,0 under Land Revenue, chiefly in the charges for District Administration and Land Records and Agriculture; 28,4 under Customs, due to additional establishment in connection with the new Tariff Act, and the imposition of import duties; 22,6 under Salt, chiefly in Madras; 19,5 under Refunds and Drawbacks, chiefly in Bombay; and 15,1 under Excise, chiefly in Bengal and Madras.

I.—Refunds and Drawbacks.

68. The charges under this head are of a fluctuating character and do not admit of an accurate forecast. The savings in the total charges of 24,6 on the Budget Estimate, and the excess of 19,5 as compared with the actuals of the preceding year, principal variations are explained below.

			India.	Central Provinces.	Burma. Upper.	Burma. Lower.	Assam.	Bengal.	N.-W. P. and Oudh.	Punjab.	Madras.	Bombay.	Total.

69. Under *Land Revenue Refunds* in the Central Provinces the increase was due to a special remission of Land Revenue in the Bilaspur District. The savings in Bengal, North-Western Provinces and Oudh, Madras, and Bombay were due to the estimate having been framed too high. Under *Salt Refunds*

Section A.– DIRECT DEMANDS ON THE REVENUE—*continued.*

I.—Refunds and Drawbacks—*continued.*

the increase in Madras was due to refunds of duty levied on larger quantities of Bombay salt supplied to the French Government, while in Bombay the estimate was pitched too high The high figure of 1894 95 was due in India to the special circumstances explained in last year's report, and in Bombay to larger exports of salt to Calcutta and Malabar, and consequent larger claims for wastage. Under *Stamp Refunds* the excess in the Central Provinces was due to a special refund in the Nagpur District In Madras unusually large refunds of spoiled stamps swelled the figures in 1894-95 while in Bombay the actuals of that year included a special refund of the excess Stamp duty levied on the probate of the will of a wealthy Parsi inhabitant of Bombay. Under *Customs Refunds* the large decrease in Bombay was due to the inclusion in the Budget Estimate by mistake of duty on yarns allowed free export, the Customs authorities having at the time anticipated that the revenue would first be collected and then refunded, and to less refunds on account of cotton goods re-exported, due to slackness of the cotton import trade. The excess over the previous year was chiefly due to drawbacks of cotton duties. The increase under *Assessed Taxes* in India was due to refunds to medical officers of the Hyderabad Contingent of Income Tax erroneously deducted during the past six years from their horse and tentage allowances, and to refund of Income Tax on interest on Government Securities paid at the Bank of Bengal.

70 Under *Other Revenue Refunds* the increase in the Central Provinces was due to the heavy refunds of Forest Revenue. In Madras the increase was due to an adjustment of an erroneous credit to Village Service Funds in March 1895 instead of to I.—Land Revenue. In Bombay the Budget was framed too high.

2.—Assignments and Compensations.

71. The charges under this head exceeded the Budget Estimate by 15,4 and the actuals of the previous year by 48.3. The excess occurred chiefly in Bombay under *Land Revenue Compensations* and was due partly to the introduction of revised settlements, chiefly in Kaira, and partly to larger payments of arrears of previous years to certain Inamdars and other grantees. The excess over the actuals of the previous year was due chiefly to the arrear payments above mentioned, and to a further increase under District and Village officers

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued.*

2.—Assignments and Compensations—*continued.*

72. Under *Land Revenue Compensations* the chief difference, which occurred in Bombay, has been explained above. The saving in the North-Western Provinces and Oudh was again due to the non-payment of allowances to the heirs of the late Raja Shambhu Narain Singh of Ghazipur during the year, in consequence of a dispute as to title amongst the claimants. The saving in Madras was due partly to the transfer to the head *Miscellaneous Compensations* of the allowance payable to the family of the ex-Zemindar of Chermahal (Kistna), and partly to the payments of arrears, unclaimed in the previous year, not having been drawn in full.

73. Under *Salt Compensations* the increase in India was due to larger payments to the Jodhpur and Jeypur states, owing to increased sales of Sambhar salt during the latter part of 1894-95. The excess over the figures of 1894-9, was due to the increase in the quantity of salt sold. The saving in Madras was due to the advance payment of 8 to the French Government in 1894-95 having been adjusted by a short payment in the year under review, while in Bombay the actual amount outstanding on account of Salt Pans in Portuguese India was over-estimated. Under *Excise Compensations* in the Central Provinces the Revised Estimate provided for payment of 8,1 to zemindars on account of resumption by Government of their Abkari rights, but only 1,4 was paid. In the North-Western Provinces and Oudh the increase was due chiefly to the payment of arrears to the Maharaja of Benares. In Bombay the saving was due to the amount provided in the Budget for certain Native States not having been drawn in full partly counterbalanced by the payment of 2,3 as compensation in advance for five years to the Chief of Aundh, for which 1,5 only was provided in the Budget. The increase as compared with the actuals of the previous year was due partly to revision of Abkari compensations payable to certain Native States leading to larger payments and partly to the advance payment to the Chief of Aundh. Under *Miscellaneous Compensations* the increase in India was due to the payment to the Khan of Khelat of arrears of quit rent not drawn in 1894-95. In the Punjab the excess was due to a payment of 1,0 having been made to the Kashmir Durbar as compensation for loss of Rabi irrigation on the Ravi, owing to the construction of the Bari Doab Canal sanctioned by the Government of India. The increase in Madras has been already explained. The decline in Bombay was due to the transfer of 7 to *Customs Compensations* and partly to the provision of 1,1 on account of the Nawab of Radhanpur not having been claimed before the close of the year.

3.—Land Revenue.

74. The Indian expenditure was less than the Budget Estimate by 91,4 and more than that in 1894-95 by 49,5. The saving, as compared with the Budget, was contributed by all the Provinces except Punjab and was greatest under Survey and Settlement and Land Records and Agriculture.

75. Under *Charges of District Administration* the excess in the Central Provinces (3,7) was due to the new civilians posted to the Province and to a greater number of senior officers having been present on duty, counterbalanced to a certain extent by the absence on leave and deputation of Tahsildars. Interchange of officers between Upper and Lower Burma resulted in an excess of 1,1 under General Establishments in the latter with a corresponding decrease in the former. In Lower Burma the employment of a larger number than anticipated of surveyors and chainmen owing to the gradual introduction of the system of collecting revenue by village headmen and survey of patta lands led to a further excess; but this was partly reduced by savings in the district office and treasury establishments, and by the provision for Local Fund Establishment not having been utilized, the charges having been debited to 18—General Administration as before. The savings in Upper Burma were further supplemented by vacancies, and absence of officers on deputation and long leave, by reductions in the Sub-Divisional Establishment, by surveyors not having been entertained to the sanctioned extent, and by the provision for house-rent allowances not having been fully required, owing to the grant of free quarters to some officers. In Assam the decrease (4 5) occurred chiefly under salaries of officers, and was due to leave, vacancies and deputations. In Bengal the increase (6, 7), in comparison with the previous year, was due chiefly to increased expenditure under Partition Establishment. The saving in Bombay (0,5) occurred principally under salaries, owing to absentees, and to the appointment of Assistant Collectors as Assistant Judges to a greater extent than was anticipated, and to savings in the grants for boundary marks, expenditure, repairs, and petty construction. The larger expenditure in the Punjab (1,7) was in travelling allowance and postage charges. In Madras the increase (2,7) occurred chiefly under General and Sub-Divisional Establishment, due to larger expenditure on account of travelling and tentage allowances (6), salaries 9), contingencies (2,1), and under Fund Establishments owing to a change in classification by which the pay of Special Fund clerks, which was formerly debited to Incorporated Local Funds, is now debited to this head. The increase over 1894-95 was due to the larger cost entailed by the grant of privilege leave in the year and to increase in Exchange Compensation Allowance.

76. Under *Survey and Settlement* the saving in Upper Burma (10,5) was caused by the Shwebo Survey not having been undertaken, and by the expenditure on the Minbu, Sagaing, and other surveys and on demarcation surveys having been less than anticipated in the Budget. In Lower Burma the saving (6,7) was due to the outlay on Settlement Survey and Survey by Professional parties not having been as high as anticipated, and to the provision for the Rangoon Town Survey not having been needed owing to a change in the method of adjustment of the advance to the Rangoon Municipality for Survey charges. In Assam the saving of 8 2 was due partly to an over-estimate of the charges for the Professional Survey Party, partly to no expenditure having been incurred against provision for *Ilam Settlement* in Sylhet, and partly to the provision for the Jaintia and Cachar Settlements not having been fully utilized. In Bengal the saving occurred chiefly in other Settlement Operation (6,6), Controlling Office (Survey) (3,9) and Behar Survey Operation (1,7), counterbalanced by increased expenditure under Settlement Operations in Behar, while the larger outlay in comparison with 1894-95 occurred chiefly under "Behar Settlement Operations" and "Other Settlement Operations." In Madras a portion of the charges was transferred to *Land Records and Agriculture*, and less was spent in the survey of

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued.*

3.—Land Revenue—*concluded.*

Municipal towns. The decrease of 12,5 in the North-Western Provinces was due to large savings in Settlement expenditure and Survey charges transferred from the India Estimates, and that in Bombay chiefly arose from recovery of arrear contributions for Foreign Service (2,0), which are brought to account by deduction from expenditure, from savings in Temporary Establishment (1,0), and in the charges for the re-survey of River Indus (6).

77. Under *Land Records and Agriculture* the reduction in the Central Provinces (5,1) was due chiefly to unexpected savings under Salaries of Patwaris. In Lower Burma the saving 2,2) was due to the appointment of officers on less salary to officiate for absentees, and to less outlay on travelling and contingencies. In Assam there were savings of 4,3, owing to the appointment of a junior officer to act as Director of Land Records, to the privilege leave allowances of the permanent incumbent having been drawn in Bengal, to the appointment of the second Superintendent of Land Records provided for in the Budget not having been filled up, and to the non-entertainment of the full sanctioned scale of Kanungos and District Mandals. The decrease in the North-Western Provinces was due to large savings under Kanungo Establishment, partly counterbalanced by increased outlay on Land Record Surveys in consequence of extended operations. In Bombay the savings were chiefly due to the absence of the Director on special leave for 6 months, to the non-introduction of the new agricultural staff in the Kaira District, to the provisions on account of Temporary Establishment, and for charges in connection with field work not having been utilized during the year, and to recoveries of boundary marks charges in excess of the Budget The increase in the Punjab was chiefly on account of Patwari Fund charges.

78. Under *Management of Government Estates* the excess in Bengal (3,5) over the Budget was due to the payment of unrealized Road and Public Works cesses, to increased payments on account of temporary establishment, which also accounted for the high charge in comparison with 1894-95, and to larger outlay on improvements. The increase in the North-Western Provinces (2,3) was caused by improvements in the Tarai Government Estates.

79 Under *Commission on Collections* the excess in Lower Burma was partly due to payment of arrears of commission paid, and partly to increase of revenue. The decrease in Upper Burma arose chiefly from the bad season in the dry zone, which affected the collection of Thathameda. In Assam the saving of 3,0 was on account of the gradual substitution of the Tahsili for the Mauzadari system of Land Revenue collection, and of a smaller collection of Land Revenue.

80. Under *Allowances to District and Village Officers* the saving in Bombay, as compared with the Budget, was in cash allowances and assessment of alienated lands, due to the delay in presenting claims.

81. In England the decrease was under *Law charges in connection with appeal from India* being less than was anticipated, and partly under stores for which there was little demand.

4.—Opium.

1894-95. Accounts.		Budget.	1895-96. Revised	Accounts.
	Bengal—			
5,5	Behar Agency, Superintendence	5,8	5,7	5,8
34,8	,, Opium Factory	39,6	36,5	34,7
38,9	,, District Staff	44,0	40,2	42,4

8,3	Benares Agency, Superintendence	7,2	8,1	8,4
36,5	,, Opium Factory	47,6	39,0	36,1
65,8	,, District Staff	60,5	71,0	69,3
879,8	,, Payments to Cultivators	1,567,2	1,100,0	1,098,7
2,2	Other Charges	3,0	2,0	2,0
1,3	India	1,3	1,3	1,3
2,6	Bombay	2,6	2,6	2,6
1,613,5	TOTAL	2,753,9	2,077,3	2,068,0
1,4	England	7	6	5
1,2	Exchange	6	4	4
1,616,1	GRAND TOTAL	2,755,2	2,078,3	2,068,9

82. The Indian expenditure showed a saving of 685,9 as compared with the Budget Estimate, and an increase of 454,5 as compared with the actuals of the previous year. As usual, these variations were the result mainly of variations in the outturn of the crop, which in the year under review amounted to 69,084 maunds against 77,428 maunds estimated in the Budget Estimate, and 59,673 maunds the actual production of the previous year.

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued.*

4.—Opium—*continued.*

83. The details of Payments to Cultivators, which form the bulk of the charges, are given *below:—*

	Advances to Cultivators.	Final payments on delivery of the crude drug.	Miscellaneous.	Total.
1894-95.				
Behar	285,1	240 8	11,9	537,8
Benares	266,7	508,1	105,0	879,8
Total	551,8	748,9	116,9	1.417,6
1895-96.				
Behar	277,9	480,1	10,7	768,7
Benares	319,3	618.7	160,7	1,098,7
Total	597,2	1,098,8	171,4	1,867,4

84. Under *Opium Factory* there were considerable savings in both the Agencies, due to a smaller outturn of opium having required a smaller outlay on freight and manufacturing charges. Under *District Staff* the saving in the Behar Agency was due to smaller payments for commission to Amlahs and for transit and weighment charges, counterbalanced by increased payments for temporary establishments in the Benares Agency. The larger outlay under these heads, as compared with the actuals of 1894-95, was due partly to the larger production, and partly to the increased price paid to cultivators. The estimate under *Other charges* was framed too high.

5.—Salt.

85. The Indian charges showed a saving of 12,4 over the Budget Estimate and an excess of 23,2 over the actuals of the preceding year. With the single exception of Bengal in which the Estimate was exceeded by 1,7 there were savings in all the other Provinces, but chiefly in Madras due to an over-estimate under *Salaries, Establishment, etc.*, partly counterbalanced by an excess under *Purchase and Freight.*

5.—Salt—*continued.*

86. In India the decrease under *Salaries, Establishment, etc.*, was due to savings in through-traffic charges, owing to diminished sales under the through-traffic system (8), in contingencies and travelling (8), in Preventive Establishments (8) due chiefly to absence of Superintendents, partly counterbalanced by an excess of commission on salt collections, owing to large increase in sales of Kohat salt. In Bengal the increase was due to the payments on account of rent for the accommodation provided at the Kidderpur Docks for the storage of salt. In Madras the Budget made too large a provision for Rewards and Petty Constructions and Repairs In Bombay the saving was chiefly due to the provision for the Sirganda Salt Deposit, temporary establishment not being required, to the absence of the Collector on long leave, and the appointment being held by a lower paid officer, to the provision for the purchase of boats not being fully utilized, and to the full sanctioned strength of the Northern Frontier Establishment not having been entertained. The decrease under *Manufacture and Excavation* was chiefly due to a diminished outturn of salt owing to unfavourable weather during the year. The increase under *Purchase and Freight* in Madras was due partly to the re-introduction of the monopoly system into certain Excise Factories (12,8), and partly to the transfer of Government salt from the factories in the Vayalur and Ennore circles to the Madras depôt for storage (9·), counterbalanced by a decrease under Petty works for manufacture and storage of salt (10,7). In Bombay the Budget was framed too low.

87. The estimate for expenditure in England which was framed in the absence of information from India was unnecessary.

6.—Stamps.

88 The saving in the North-Western Provinces and Oudh under *Charges on sale of Stamps, etc.*, was due to the transfer of the charges on account of the combined Stamp, Excise and Income Tax Establishment to 3—Land Revenue, partly counterbalanced by increased expenditure on discount on sale of stamps. The increase in the Punjab was due to increased payments for discount on sale of stamps, consequent on an enhanced revenue derived from their sale, and partly to special expenditure incurred in supplying stamps to the Peshawar Treasury, to meet requirements in connection with the Chitral Relief Expedition. The excess in Madras was due to improvements in the revenue under the *per contra* receipt head

89. *Stamps supplied from Central Stores* exceeded the anticipation of the Budget Estimate in Burma, Punjab, Madras and Bombay, owing to higher demands for stamps from Central Stores, and fell short of the Budget in Assam, Bengal and North-Western Provinces and Oudh where the demands were lower than provided for.

90. The saving in the expenditure in England was due to the demands being smaller than anticipated in the Budget.

...	England	1	1	1
...	Exchange	1	1	...
192,8	TOTAL	210,1	207,1	207,9

91. The actual expenditure was less than the Budget by 2,1 and more than that in 1894-95 by 1,5. The saving in the Budget occurred chiefly in the North-Western Provinces owing to the transfer of the cost of the combined Stamps, Excise and Income Tax Establishment to 3—Land Revenue, for which the provision was originally made under this head. The excess in Lower Burma occurred under Rewards, and was due to a greater activity in bringing to justice offenders against the Excise laws. The increase in Bengal was due chiefly to increased payments on account of rewards and allowances under Distilleries. The excess over the Budget in Madras was due to the fact that in the apportionment of the charges debitable to this head, those relating to Orissa salt and petty construction and repairs of licensers' works in which large savings accrued, were excluded. In Bombay the saving was due chiefly to temporary establishment not being entertained to the full extent provided and to smaller payments under Supplies and Services.

8.—Provincial Rates.

	ESTABLISHMENT AND OTHER CHARGES—			
5,2	Burma, Lower	5,1	5,1	5,5
3	Assam	4	3	3
44,5	Bengal	43,2	43,0	39,8
8	N.-W. Provinces and Oudh	7	9	8
5	Punjab	5	5	5
5,1	Bombay	6,0	5,4	5,8
56,4	TOTAL	55,9	55,2	52,7

92. The charges were lower than the Budget Estimate and the actuals of 1894-95 by 3,2 and 3,7 respectively. The saving occurred chiefly in Bengal in contingent expenditure and in the charges for the service of processes. The small excess in Burma was due to larger payments of commission owing to increased receipts.

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued.*

9.—Customs.

			Burma, Lower.	Bengal.	Madras.	Bombay.	Total.
Charges at the principal Ports of Rangoon Calcutta, Madras, Bombay.	Accounts	1894-95	13,8	60,6	9,1	60,0	143,5

	Accounts	1895-96	1	1	2		Accounts 1895-96	203,0

93. The charges were less than the Budget by 7,3, and more than the accounts of 1894-95 by 28,3. The saving on the Budget was chiefly in Bengal and was due to the provision for additional establishment to be entertained on the introduction of the new Tariff Act not having been fully utilised. In Bombay also there were savings owing to the provision for increased establishments in connection with the imposition of import duties not having been fully required owing to their gradual entertainment counterbalanced by an increase under "Salaries" owing to grade promotion of officers. The excess over the actuals of the previous year was due to additional establishments entertained in connection with the new Tariff Act, and the imposition of import duties.

10.—Assessed Taxes.

1894-95 Accounts.		Budget	1895-96 Revised.	Accounts.
1	India	1	1	1
1	Central Provinces	1	1	1
2,1	Burma, Lower	2,3	2,0	2,0
1	Assam	2	2	2
18,1	Bengal	19,0	18,4	18,4
4	N.-W. Provinces and Oudh	1,2	2	2
1,2	Punjab	1,2	1,2	1,2
2,3	Madras	2,4	2,4	2,3
5,4	Bombay	5,3	5,3	5,3
29,8	Total	31,8	29,9	29,8

94. The expenditure showed a saving of 2,0 as compared with the Budget chiefly in Bengal and the North-Western Provinces. In Bengal it was due to smaller expenditure on account of Travelling Allowances of District Establishments, and in the North-Western Provinces it was nominal being due to the transfer of the cost of the combined Stamp, Excise and Income-Tax Establishment to 3—Land Revenue. The small saving in Burma was due to vacancies and to a temporary establishment for four months instead of a permanent one having been sanctioned for the Maubin District.

11.—Forest Expenditure.

95. The Indian expenditure was smaller than the Budget Estimate, and the actuals of the previous year by 85,1 and 3,5 respectively. The saving on the Budget was spread over almost all the Provinces, but occurred chiefly in Bombay (27,8), Burma (14,1) Madras (12,4) and the Central Provinces (12,0). Over

Section A.—DIRECT DEMANDS ON THE REVENUE—*continued.*

11.—Forest Expenditure—*continued.*

half of it occurred in the *Charges for the removal of timber and other produce by Government agency*, in which also there were considerable savings over the actuals of the previous year. *Establishment charges* showed a large increase over the actuals of 1894-95.

	Accounts		1,4	1,1	2,5		Accounts 1895-96	911,2

96. Under *General Direction* the saving was due to the absence of the Inspector General on leave.

97. Under *Timber, etc., removed by Government Agency*, the saving in India was chiefly due to the non-inclusion of expenditure on London cargoes of Andamans timber, owing to non-receipt of accounts from the London Agents, and partly also to less Departmental Operations in Baluchistan and to no firewood having been collected in Quetta Depôt owing to small demand. In the Central Provinces it was due to *hurra* not having been collected departmentally and to restricted fellings. In Burma the decrease was due to short extraction of timber. In the Punjab it was caused by curtailment of Departmental Operations. In Madras there was an over-estimate. In Bombay the decrease occurred chiefly under firewood, due partly to a change in the system under which the supply of timber and firewood by Government Agency has been stopped, partly to the low rates for contracts to bring in fuel, and partly to a decrease in the quantity brought in. The excess over the Budget in Bengal was due to the re-stocking of the Darjeeling Depôt with charcoal, and to the supply of firewood to the Lobong Commissariat and of sâl sleepers to Railways not originally anticipated.

98. Under *Timber, etc., removed by purchasers* the aggregate saving was small. The largest decrease occurred in the Central Provinces, and was due to less work having been undertaken in connection with the laying out of *coupes* and marking standers, and to less commission having been paid to vendors partly in consequence of a falling-off in the revenue.

99. Under *Other charges* the large saving in Madras and Bombay was due to less expenditure on demarcation works. The saving in India was due to the curtailment of expenditure for repairs on roads, buildings, etc. In the Central Provinces the decrease was chiefly under "Fire protection" and

Section A.—DIRECT DEMANDS ON THE REVENUE—*concluded.*

11.—Forest Expenditure—*concluded.*

"Survey." In Upper Burma it was chiefly due to non-completion of buildings and roads and to fire protection not having been carried out to the extent intended. The excess in Lower Burma was due to the adjustment of the survey charges by the Imperial Survey Department partly counterbalanced by a smaller collection of drift logs. In Assam the largest reduction was in the charges connected with the organization, extension and improvement of Forests.

100. Under *Establishment* there was a saving over the Budget in all Provinces except Madras. The saving was due generally to absence and transfer of officers, vacancies and smaller expenditure in connection with Exchange Compensation, travelling allowance, stationery and printing charges. The increase in Madras was occasioned mainly by the re-organization of the District Forest office Establishment. Appointments of extra officers, promotions and additions to Establishment were the main causes of the excess over the actuals of 1894-95.

101. The demand for stores from England were larger than was anticipated.

102 The charges were less than the Budget by 4,7 and more than the actuals of 1894-95 by 3,5 The saving in Bengal occurred partly in the charges on account of remuneration to copyists, but chiefly in the commission paid to Special Sub-Registrars (4,2) counterbalanced to a large extent by increased payments (2,6) on account of commission to Rural Sub-Registrars. In the Punjab the excess was due to larger expenditure for commission to Sub-Registrars, owing partly to the increase in the receipts from registration fees and partly to the substitution of non-official for official agency for registration. The saving in Madras was due to the scheme for regrading Registrars and Sub Registrars not having been fully required. The provision for opening new Sub-Registry offices was also not utilised in full. The increase over the actuals of the previous year was the result of an expansion of departmental operations.

Section B.—INTEREST.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
815,1	RECEIPTS	805,1	820,8	825,1

103. The receipts in this section showed an increase, compared with the actuals of the previous year and with the Budget, of 10,0 and 20,0 respectively. Compared with the Budget there was an increase in England of 14,6, due to a larger investment of surplus cash balance than was expected, and to an exceptional receipt from the Bombay, Baroda and Central India Railway Company credited to the revenues of India under this head. In India also there was an excess owing to a payment of 5,8 by the Secunderabad Cantonment Committee as interest on a loan fully taken up within the year for which no provision had been made and to an arrear payment by the Lucknow Municipality. Against this excess there was a deficiency in Bengal and Madras in the amount of interest realized on arrear Land Revenue collections.

Section B.—INTEREST—*continued.*

XII.—Interest—*continued.*

104. It has been explained in previous reports that the receipts in India under this head arise chiefly from the Paper Currency Investment and from loans granted by Government to Municipalities and other public bodies, Native States, and cultivators. No alteration has been made in the amount of the first during the year.

105. The following statement shows the balances of the different kinds of loans during the last five years:—(The Cooch Behar Loan has been treated in the Finance Accounts of 1895-96 as an Imperial Loan, and the same classification has been adopted for the purposes of this statement, though it was provided for in the Budget under Provincial Loans and Advances.)

	31st March 1892.	31st March 1893.	31st March 1894.	31st March 1895.	31st March 1896.

106. The interest paid in 1895-96 by the Local Governments to the Government of India on account of the loans held on the Provincial account amounted to 127,5, while the actual sum realised by them and credited to Provincial revenues amounted in the aggregate to 137,3. The fluctuations under the different heads are explained below.

107. Under *Interest on Loans to Native States*, the receipts in Bengal were on account of the loans granted to the Maharajah of Cooch Behar and also to the Cooch Behar State for the construction of the Cooch Behar Railway. Under *Presidency Corporations* the slight variation in Bombay was due to the Port Trustees having taken up 1¼ lakhs only of the Victoria Dock Loan against an estimate of 3½ lakhs.

108. Under *Interest on Loans to Municipal and other Public Corporations*, the excess in India was occasioned by a receipt of 5,8 from the Cantonment Committee, Secunderabad, on account of interest on a loan of 8 lakhs for water-works. This interest was not estimated for, as it was not known when the full amount of the loan would be drawn. In the Central Provinces a payment of 8 from the Jubbulpore Municipality was not anticipated when the Budget was framed. In Bengal the decrease was due to the non-payment by the Howrah Municipality of the interest for the second half year. In the North-Western Provinces the Lucknow Municipality paid 4,9 on account of 1894-95, but this improvement was partly counterbalanced by the fact that the advances sanctioned for the Bareilly and Hardwar Municipalities were not utilized during the year.

109. Under *Interest on Advances to Cultivators* in Upper Burma the large balances outstanding at the beginning of the year swelled the receipts; in Lower Burma the increase was due to large advances owing to the prevalence of cattle disease in certain districts. In the Punjab the decrease was probably due to remissions and suspensions necessitated by unfavourable agricultural conditions. In Madras the receipts fell with the improvement in the season and the punctual re-payments of the large State loans taken by the ryots in 1891-92 and 1892-93.

Section B.—INTEREST—*continued.*

XII.—Interest—*continued.*

110 Under *Securities of Provincial Funds* in Bombay the variation in the actuals of the two years was due to the reduction in the rate of interest, and to the receipt in 1894-95 of anticipation interest paid in connection with the conversion scheme.

111. Under *Other Items*, in India the excess was in the 25 per cent. additional subscription realized from subscribers to the Bengal Uncovenanted Service Family Pension Fund owing to the adjustment of two years' receipts as explained under 14—Interest on other Obligations. The Bengal Budget was over-estimated. The decline in Madras was mainly in Interest on Arrears of Revenue, due to smaller outstandings of Land Revenue of previous years, and to the introduction of a new rule under which no interest was charged on ryotwar and miscellaneous revenue in the year in which it fell due.

112. The excess in England was due to an exceptional receipt from the Bombay, Baroda and Central India Railway Company credited under this head, and to a larger investment of surplus cash balance

Section B.—INTEREST.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
5,124,0	EXPENDITURE	4,115,5	3,942,4	4,044,8

113. The total charges in this section showed savings of 70,7 and 1,079,2 compared with the Budget and the actuals of the previous year respectively. The former is the net result of a decrease of 222,5 in the charges for exchange due mainly to the rise in the rate, and of an increase of 151,8 in the other charges due chiefly to the discharge of the unconverted portion of the 4 per cent. loans having brought forward large claims for arrears of interest and to the payments of two years' interest on the deposits of the Bengal Uncovenanted Service Family Pension Fund, counterbalanced by savings in England due to the India Bills having been raised on better terms and to no temporary loan having been required.

114. The decrease compared with 1894-95 is accounted for partly by the special payments in that year on account of the conversions in India, partly by the reduction of the rate of interest on the bulk of the rupee debt from 4 to 3½ per cent., partly by the rise in the rate of exchange and by the transfer of a large portion of interest charges in India to the Railway and Irrigation Revenue Accounts in consequence of additional Capital Expenditure on State Railways and Irrigation works which was met from existing balance.

13.—Interest on Ordinary Debt.

115. Before proceeding to examine the interest charges in detail, it is usual to exhibit the amount of Loans raised or discharged during the year, and the following figures supply the necessary particulars for 1894-95 and 1895-96:—

1894-95. Accounts		Budget.	1895-96. Revised.	Accounts.

—4,000,0		...	...	...

* The above amounts are exclusive of 100,5 cancelled, comprising 90,3 charged to Railways on account of Sinking Funds of the East Indian, Eastern Bengal, and Sind, Punjab and Delhi Railways, and 10,2 to Discount Sinking Fund

116. As announced in the Financial statement no new loan was raised in India during the year, but of the balance of the loans advertised for discharge 420 9 and 21,9 were paid on account of the 4 and 3½ per cent. loans respectively. Of the loans bearing interest, 120,0 was paid on account of the Gwalior loan in accordance with the terms of the agreement with the Durbar under which the loan was originally taken. The actuals also include a debit of 21,9 under the 3½ per cent. loans chiefly on account of promissory notes belonging to the Madras Military Assistant Surgeons' Fund. It was decided that the assets of the fund should continue to bear interest at 4 per cent, and the promissory notes belonging to the Fund were accordingly cancelled and their value transferred as deposits bearing 4 per cent. interest to credit of the head "Deposits of Service Funds Bearing Interest."

117. In England a temporary loan of £ ,000,000 was raised on the security of India Bills to repay the same amount of bills raised in the previous year, which fell due on the 12th May 1895.

Section B.—INTEREST—*continued.*

13.—Interest on Ordinary Debt—*continued.*

118. The usual Statement analysing the charge for Interest on Ordinary Debt is given below:—

1894-95. Accounts.	Rate.	Debt in India on 31st March 1895. Principal.	Interest due.	Budget.	1895-96. Revised.	Accounts.

Divided into—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	Interest on Ordinary Debt—			
—137,4	India	—1,276,4	—1,151,4	—1,177.2
2,611,9	England	2,658,1	2,622,7	2,622.7
2,173,1	Exchange	2,215,1	1,977.5	1.992,6
4.647,6		3,596.8	3,448,8	3,438,1
	Interest on Debt for Railways and Irrigation Works—			
4,711,3	India	4,909.8	4,914.4	4,908,7
1,202,1	England	1,198,9	1,198,9	1,198,9
1,000,1	Exchange	999,1	904,0	910.9
6,913,5		7,107,8	7,017,3	7,018,5
11,561,1		10,704,6	10,466,1	10,456,6

119. The actual payments in India corresponded closely with the amounts which fell due during the year, but exceeded the Budget Estimate by 98,1 chiefly in consequence of the discharge of the unconverted portion of the 4 per cent. loans having brought forward claims for arrears of interest. The excess under Provincial Debentures is on account of the share of the surplus profits of the Cawnpur-Achneyra Section of the Rajputana-Malwa Railway paid to the debenture holders. The decrease compared with the previous year has been explained in para. 114.

120. In England there was a decrease of 25,4 in the interest on India Bills, and the provision of 10,0 in the Budget for interest on temporary loans from the Bank of England was not utilised as no such loan was required.

121. The following are the details of the interest paid in *England*:—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
2,611,9	Interest not charged to Railways	2,658,1	2,622,7	2,622,7
2,173,1	Exchange	2,215,1	1,977,5	1,992,6

	Accounts	1895-96	2	1	3		606,7

122. The expenditure showed an excess of 88,1 over the Budget Estimate and of 130,2 over the actuals of the previous year. The excess over the Budget occurred chiefly under *Treasury Notes and Service Funds* (79,1) due mainly to the adjustment of two years interest on account of the uncovenanted Service Family Pension Fund owing to a change in practice by which the interest on the collections for the year is now adjusted in the year to which it appertains. Under *Special Loans* the saving in India was in the annuities on account of the Madras Perpetual Loans and Choultry Endowments; the increase in the North-Western Provinces was due to the payment of arrear Wasika pensions, which are debited as interest on loans from the late King of Oudh; and in Bombay to inclusion of a special charge of 5,9 on account of Wasika pensions under the 3rd Oudh Loan provided for under 27.—Territorial and Political Pensions. The usual details of the interest on *Treasury Notes and Service Funds* and *Savings Bank Deposits* are noted below. The orders of Government transferring the Presidency Savings Bank to the Post Office from 1st October 1896 resulted in a large withdrawal of Postal deposits in Bengal. Under *Miscellaneous* in Bombay there was a special payment of 1,9 to the Thakors of Amod and Kherwada under Government orders. As compared with the actuals of the previous year 81,0 of the excess occurred under *Treasury Notes and Service Funds* due chiefly to the cause stated above, and 43,3 under *Savings Bank Deposits* mainly in the interest on Post Office Savings Bank Deposits.

Interest on Treasury Notes and Service Funds.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.

Section C.—POST OFFICE, TELEGRAPH, AND MINT.

1894-95. Accounts		Budget.	1895-96. Revised.	Accounts.
2,645,6	RECEIPTS	2,781,0	2,820,8	2,840,4
2,466,2	EXPENDITURE	2,657,5	2,587,7	2,594,9
+179 4	NET .	+123,5	+233,1	+245,5
+25,5	POST OFFICE (NET) . . .	+24,8	+71,8	+69,7
+170,8	TELEGRAPH (NET) . . .	+94,8	+182,1	+188,1
−16,9	MINT (NET)	+3,9	−20,8	−12,3

123. The net results of the transactions of the Postal Department for the last five years have been as follows:—

	Net Expenditure.	Net Receipts
1891-92	47,0	
1892-93	29,6	
1893-94		3,8
1894-95		25,5
1895-96		69,7

124. The improvement upon the Budget figure in the net receipts was due to insufficient allowance for the normal growth of the revenue of the Department, while the provisions for Presidency and District Offices, and Road Establishment and Contingencies were not fully utilized and Railway charges were somewhat over-estimated.

125. The improvement in the net earnings of the Telegraph Department was due to an increase in the revenue owing chiefly to Military operations in Chitral, and to less expenditure than was anticipated owing to smaller purchases of stores in England and to savings in establishment charges.

126. The Budget Estimate anticipated a net receipt under Mint, but the receipts under seignorage on silver fell short of the anticipations owing to the coinage of dollars for the Straits Settlements having been considerably below the Estimate, and the receipts under Gain on copper coinage also fell short owing to the absorption of copper coins having been much below what was expected.

1,631,8	GRAND TOTAL .	1,687,5	1,703,6	1,713,5

127. The total revenue exceeded the Budget Estimate by 26,0, and the actuals of the preceding year by 81,7. The improvement occurred under almost all heads. Under *Parcel and other Postage collected in cash*, the increase of 12,0 over the Budget was due to insufficient allowance having been made for larger circulation of trade circulars which are paid for in cash instead of by postage stamps and to larger collections on account of unstamped articles, due to the opening of new Post offices in Kashmir and Chitral, for which sufficient allowance was not made in the estimate. The receipts under this head during the last five years have been as follow :—

1891-92	154,1
1892-93	150,8
1893-94	147,4
1894-95	155,1
1895-96	165,0

128. The improvement in receipts from the *Sale of Ordinary Stamps* arose from the normal growth in the operations of the department, as well as from the opening of new Post offices in Kashmir and Chitral. Under *Sale of Service Stamps* the Budget was too sanguine. Under *Payments to English, Colonial, and other Foreign Post offices*, the excess of 3,2 was due to an arrear payment to the London Post Office of 4,7 on account of open and closed mail transit against a provision of 3,0 and partly (1,6) to arrear payment to Colonial and Foreign Post Offices for exchange of letters and parcels. The excess would have been much larger but for the non-settlement of the accounts during the year with certain Colonial and Foreign Governments. Under *Mail Cart Parcel Van Passenger and Goods Service* the increase was due to the taking over by the Post office of the out-agency of the East Indian Railway at Simla, and to the increased parcel rates by tongas from September 1895. The *Money Order Receipts* continued to show a steady increase from year to year. No actuals were recorded under *Bullock Train Collections* as the agency has been taken over by the Post office and the charges are now recorded under *Mail Cart Parcel e c, Service.* The decrease under other Receipts was due to a falling off in the sale of over printed stamps to Native States as well as in the gain realised on Native Coins during the year.

XIV.—Telegraph—*continued.*

Indian Telegraphs.

129. The receipts during 1895-96 were better than those of the previous year by 102,7. Of this increase 73,1 occurred under message revenue and was due chiefly to the growth of traffic and expansion of operations of the Department, and partly to an increase in the State traffic on account of the Waziristan and Chitral military operations. The receipts under the head *Rents of wires and instruments leased to Railways and canals* also showed an increase of 28,8. In 1894-95 a refund of 43,2 was made to the East Indian Railway Company, on account of a readjustment of charges for the years 1887 to 1893 inclusive. Allowing for exceptional items, the real increase under this head was approximately 2,2. Compared with the Budget Estimate, the actual receipts showed an increase of 45,3 which is attributable chiefly to military operations in Chitral. The increase of 6,3 over the Revised Estimate was mainly due to the revenue derived from postal combined offices having been more than was anticipated.

Indo-European Telegraphs.

130. The receipts during 1895-96 exceeded those of the previous year by 2,6. The increase was due partly to an improvement in the message revenue and partly to the increased earnings of the cable steamer *Patrick Stewart*. Of the increase of 4,1 over the Budget Estimate, 2,7 was due to the former cause and 1,2 to the latter. The actual receipts fell short of the Revised Estimate by 7,2, owing chiefly to the collections during the last three months of the year having been less than was anticipated.

XV.—Mint.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts
...	Seignorage on Silver	11,3	7,3	7,3
29,3	Gain on Copper Coinage	40,0	17,5	28,2
	Other Receipts—			
4,8	Calcutta	4,2	3,9	3,9
1,0	Bombay	2,2	1,7	1,5
35,1	TOTAL	57,7	30,4	40,9

131. Under *Seignorage on silver* the Budget Estimate allowed for a coinage of five millions of dollars for the Straits Settlements, but as the actual coinage fell considerably short of this sum, the Estimate was not realised. The closing of the mints to the free coinage of silver accounts for the absence of actuals in 1894-95. The following table shows the importation of silver and the silver coinage at the Mints in recent years —

	Net Importations.	Silver Coinage.	Seignorage.
1887-88	9 228,8	15,785,4	149,8
1888-89	9 246,7	7,282,3	138,9
1889-9	1 .937,9	8,541,2	165,8
1890-91	14,175,1	13,193,5	264,9
1891-92	9(22,2	5,554,0	116,1
1892-93	12,863 6	12,011,5	256,1
1893 94	13,719,8	4,992,5	94,9
1894-95	6 329,2	94,6	...
1895 96	6,582,2	202,7	7,3

132. Under *Other Receipts* the falling off in Bombay was due to the coinage of dollars for the Straits Settlements having been below Budget anticipations.

133. The *Gain on Copper Coinage* varies with the absorption of copper coin, which was much below the Budget Estimate.

134. The expenditure in India showed a saving of 18,9 on the Budget Estimate, due partly to the provision under *Road Establishment and Contingencies* for new runners' lines not having been fully required, and to the abolition of certain other lines in the Eastern Bengal, Madras and Burma Circles, partly to an over-estimate under *Railway Charges* counterbalanced by a heavy arrear payment on account of special train hire to the East Indian Railway, which was not anticipated when the estimate was framed but chiefly to the allotments for *Presidency and District Offices* not having been utilized in full The excess over the actuals of the previous year was due chiefly to the normal expansion of the operations of the Department, and to a smaller extent to the arrear payment of *Railway Charges* to the East Indian Railway referred to above and to additional contracts made for the conveyance of mails.

135. The small saving under *Chief Office, Calcutta*, as compared with the Budget, was due chiefly to the provision for Temporary and Extra Establishments not having been fully utilized. Under *Presidency and District Offices* the saving of 16,0 was due partly to a change in the *personnel* of the Postmaster General, North-Western Provinces and Oudh, partly to arrangements made in place of officers on leave

Section C.—POST OFFICE, TELEGRAPH, AND MINT—EXPENDITURE—*continued.*

15.—Post Office—*continued.*

or deputation, partly to smaller payments on account of Exchange Compensation Allowance and partly to savings in the Aligarh Workshops, and the grant for stationery and house-rent, and largely to the provision for increase in Establishment not having been fully utilized, counterbalanced to a small extent by excess due to the grant of privilege leave to officers, and the entertainment of a Superintendent for Kashmir, 5 probationary Superintendents and 11 Inspectors. Under *Road Establishment and Contingencies* the saving of 3,3 was, as already explained, due to the abolition of certain runners' lines in the Eastern Bengal, Madras, and Burma Circles, to a saving in the provision for new runners' lines and to the allotments for Monsoon charges not having been fully utilised. The saving under *Railway Charges* of 3,5 was due to an over-estimate partly counterbalanced by an arrear payment to the East Indian Railway which was not anticipated when the Budget was framed. The excess of 1,3 under *Bullock Train and Mail Cart Establishment, etc.*, was due to new contracts having been made for the Bombay and Central Provinces Circles after the Budget was prepared. Under *Other charges* the saving of 1,3 was due to the non-payment to the Peninsular and Oriental Co. for the conveyance of mails by non-contract vessels, and partly to the cost of construction and repair of Dâk boats for the Diamond Harbour Post Office having been less than was anticipated. The decrease under *Subsidies* was due to the non-payment to the Tigris and Euphrates Steam Navigation Co. of the subsidy for the year. The excess under *Stationery and Printing* was due to the supplies made by the Superintendent of Stationery, Bombay, and by the Superintendent of Government Printing, Calcutta, having been much larger than was anticipated.

136. Under *District Post Charges* the differences in Bengal and Madras only call for remark. In the former the saving was due to smaller charges of the Zemindari Dâk and for collection of cess. In Madras the Budget provided for raising the salaries of the existing staff and for entertaining additional establishments for improving the Village Postal Service, but the provision was only partially utilised.

137. The demands for stores from England were larger than was expected.

16.—Telegraph—*continued.*

Indian Telegraphs.

138. Exclusive of exchange, the expenditure during 1895-96 exceeded that of the previous year by 82,6 The increase was due chiefly to the construction of a larger number of Railway telegraph lines during 1895-96 than in the previous year, and partly to increased signalling charges necessitated by the development of message traffic and the opening of new offices. Of the short outlay of 20,9, as compared with the Budget estimate, 15.7 occurred in India and 5,2 in England. The short outlay in India was due partly to the cost of establishment charged to other Departments having been larger by 8,0 than was anticipated and partly to savings amounting to 7,4 in the establishment charges including Exchange Compensation Allowance. The decrease in the expenditure in England was due to fewer stores having been purchased than were provided for in the Budget estimate The short expenditure of 5,8, as compared with the Revised Estimate, was mainly due to the recovery of 5,7 from the Kashmir Durbar on account of contribution to the capital cost of telegraph lines and buildings in Kashmir; it was not expected that this money would be recovered until 1897-98.

Indo-European Telegraphs.

139. The expenditure during 1895 96, excluding exchange, was 4,8 more than that of the previous year. The increase was chiefly due to the construction of buildings for the signalling staff at Teheran. Of the short outlay of 8,0, as compared with the Budget Estimate, 5,1 occurred in the expenditure in India and 2,9 in the expenditure in England. The short outlay in India was due mainly (3,0) to smaller expenditure on cable maintenance and partly to savings in the salaries of general service clerks, the number engaged being less than the number sanctioned. The short outlay in England was chiefly due to less stores having been purchased than was provided for in the Budget Estimate. The actual expenditure of the year closely worked up to the figures of the Revised Estimate.

17.—Mint.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.

30,6	Total Calcutta	30,5	31,3	33,5
20,1	„ Bombay	22,0	19,0	18,9
50,7	„ India	52,5	50,3	52,4
7	„ England	7	5	5
6	„ Exchange	6	4	3
52,0	GRAND TOTAL	53,8	51,2	53,2

140. Under *Establishments* the accounts showed savings both in Calcutta and Bombay. In Calcutta the decrease was due chiefly to the absence on leave of the Assay Master, and in Bombay to the absence of the Assay Master on furlough and to the post of Assistant to the Mint Master and certain other appointments having been vacant.

141. Under *Loss in weight in Coinage* the excess in Calcutta over the Budget and the actuals of the preceding year was due to the heavy receipts of uncurrent coin for re-coining. In Bombay the Budget provided for the coinage of five millions of dollars for the Straits Settlements, but the actual coinage fell considerably short of this amount. This cause also explains the variations between the two years' results.

142. Under expenditure in England the saving was due to the demand for stores having been smaller than expected.

Section D.—RECEIPTS BY CIVIL DEPARTMENTS.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
1,629,0	RECEIPTS	1,630,2	1,677,0	1,684,5

143. The receipts in this section exceeded the Budget Estimate and the actuals of the previous year by 54,3 and 55,5 respectively. As compared with the Budget 27,1 of the improvement occurred under Marine, due to larger realizations for work done and for hire of vessels; and 10,9 under Scientific and other Minor Departments, due chiefly to increased demand for cinchona and quinine. There were small increases under all the other heads, except Law and Justice—Jails, where a falling off of 4,3 occurred, due chiefly to a smaller demand for jail manufactures.

144. As compared with the actuals of the previous year 11,7 occurred under Police, due to increased receipts from Private Watchmen and sale of the Police hulk "*Czarewitch*;" 14,5 under Marine, chiefly in Madras, due to re-adjustment of the contribution of the previous year to the Pamban Pilotage Fund on account of the dredger "*Wenlock*;" and 10,3 under Scientific and other Minor Departments, due chiefly to the cause mentioned above. There were small improvements under all the other heads.

145. The falling off in the receipts under this head which commenced in 1893-94 received a check, and showed an improvement of 6,7 as compared with the Budget Estimate and of 7,4 as compared with the actuals.

146. Under *Sale-proceeds of Unclaimed and Escheated Property* the improvement, as compared with the Budget Estimate, occurred chiefly in India, and the fall as compared with the actuals of the previous year in Bengal, partly counterbalanced by an increase in India. The receipts under this head are necessarily of a fluctuating nature. The increase under *Court fees realised in cash* occurred chiefly in the Central Provinces and the North-Western Provinces, and was due in the former to increased litigation owing to agricultural distress, and in the latter to high receipts of Kurk Amins' fees. The receipts under *General Fees, Fines, and Forfeitures* consist chiefly of magisterial fines, which are of a fluctuating and uncertain character. In Burma, Madras, and Bombay the receipts on this account showed an improvement, while in the other provinces there was a falling off. The increase under *Other Receipts*, which occurred chiefly in the Punjab, was due to an under-estimate of receipts from commission on amounts realised by sale of attached property, which were brought to account as revenue for the first time in 1894-95.

147. Under *Sale-proceeds of Jail Manufacture* the falling off in the Central Provinces and Bengal was due chiefly to a decline in the demand for Jail manufacture; in Burma and Assam to the employment of a smaller number of prisoners on remunerative forms of labor, and in the North-Western Provinces to the exclusion of Garden receipts under orders of Government, and to the transfer of Dairy Farm receipts to *Other Receipts*. The large increase in Madras was due chiefly to the large supplies made to the Police, Public Works, the Military and the Postal Departments. The receipts under this head, after deducting the corresponding charges under 19 B, are given below :—

			India	Central Provinces.	Burma. Upper.	Burma. Lower.	Assam.	Bengal	N.-W. P. and Oudh	Punjab.	Madras	Bombay	Total.
Net Receipts from Jail Manufacture.	Accounts	1894-95	8	5,5	4,1	5,2	2	32,8	16,6	3 0	7,4	2	75.8

	Accounts		8	2,4	0,5	5,1	3	7,6	12,0	5,2	11,1	2,0	53,6

148. Under *Convict Receipts at Port Blair and Nicobars* the falling off was due chiefly to smaller supply of convict labor to the Forest Department (1,1), to smaller Tea Garden receipts (4), to less receipts under sale of Stores (4), to sale of cocoanut oil and recoveries from Native States (5), and other miscellaneous receipts.

149. The receipts under this head exceeded the Budget Estimate by 4,2 and the actuals of the previous year by 11,7. Of the excess on the Budget 3,3 were contributed by receipts for *Police supplied to Public Departments, Private Companies and Persons* due chiefly to larger receipts on account of Punitive Police and for Police supplied to private companies and persons; 4,2 occurred under *Presidency Police*, chiefly in Bombay, due to the sale of the condemned Police hulk "*Czarewitch*" for 2,4 against an estimate of 5, and to larger receipts on account of Private Watchmen; and 2,7 occurred under *Fees, Fines and Forfeitures*, due in India to the inclusion of certain receipts which were formerly credited to Excluded Local Funds; in Upper Burma, to better receipts from Slaughter houses, in Lower Burma to an underestimate, in the North-Western Provinces, Punjab, Madras and Bombay to increased Cattle Pound receipts, while in Bengal the receipts from Cattle Pounds were exceptionally low. These increases were partly counterbalanced by a falling off of 5,7 under *Other Receipts*, which occurred almost entirely in Assam, and was due to a change in the system of rationing the men of the Lakhimpur and Garo Hills Battalions. The excess over the actuals of the previous year was due in Assam to larger Cattle Pound receipts, and recoveries on account of rations owing to the change above referred to; and in Bombay to the sale of the *Czarewitch* and increased receipts from Punitive Police and Private Watchmen. In Bengal low receipts from Cattle Pounds almost covered the improvements under the other heads.

Section D.—RECEIPTS BY CIVIL DEPARTMENTS—*continued.*

XVIII.—Marine—*continued.*

150. The receipts under this head exceeded the estimate by 27,1, due partly to larger realizations for work done for Port Trusts and under Hire of Vessels, and partly to an adjustment in accounts. The excess of 14,5 over the actuals of the previous year was due chiefly to the last cause.

151. *Pilotage Receipts* vary with the amount of shipping visiting the port. The receipts nearly equalled those of 1891-92, which are the highest on record for several years past.

152. Under *Dockyard Services*, etc., the increase was due chiefly to larger realizations from Port Trusts and private companies for work done, and to recoveries for hire of vessels which were not anticipated when the Budget was framed.

153. No recoveries were expected from the *Sale-proceeds of vessels*, but 3 was realized by the sale of the steam launch "*Wasp*" and of the hull of the steam launch "*Sandfly*." On the other hand, the receipts under *Sale of Stores* fell short of the Budget anticipations. In 1894-95 the actuals were swelled by the sale of a large quantity of obsolete stores

154. The better result under *Coast Light Dues* was due to improvement in trade, which caused a larger number of vessels to visit the Burma ports.

155. Under *Other Receipts* the increase in India was due solely to the nominal credit for coal supplied to H. M's ships in the Persian Gulf, three of which were employed owing to a disturbance in Arabia instead of one ordinarily stationed there. In Upper Burma there was an unexpected receipt of 1,0 on account of freight on stores shipped by a merchant. In Madras the balance of contribution made to the Pamban Pilotage Funds on account of the dredger "*Wenlock*" in previous years was re-adjusted under Government orders to the credit of Provincial Funds, and provided for in the Revised.

156. The receipts under this head were better than the Budget and the actuals of the previous year by 4,5 and 5,7 respectively. The improvement occurred under *Fees and Fines* and was contributed chiefly by the North-Western Provinces, the Punjab and Bombay. In the two latter provinces it was due to increased attendance at Colleges and Schools and in the North-Western Provinces to enhancement of the rates of Fees. This improvement was counterbalanced to a small extent by a decrease under *Other Receipts* in Bombay due to smaller receipts from sale of books.

157. The receipts in India showed an improvement of 5,0 as compared with the Budget Estimate, and 2,8 as compared with the actuals of the previous year. Of the increase 1,9 occurred under *Medical College and School Fees* chiefly in Bengal and Bombay due to increased number of students in Medical Colleges, and also in Bombay, to higher rate of fees; 1,2 under *Hospital Receipts*, chiefly in Bombay, due partly to larger receipts from paying patients, and partly to the transfer of certain Excluded Local Fund dispensaries to District Local Boards; and 3 under *Contributions*, due chiefly to an increase of 2,7 in Madras owing to an unexpected recovery of 3,0 in March 1890 from the Municipalities of Tanjore and Madura in connection with the Sanitary Engineer's establishment, and partly to increased recoveries from Municipalities on account of the Medical College, counterbalanced by a decrease of 1,7 in Bombay, due partly to the non payment by the Bombay Port Trust of its contribution of 1,0 towards the maintenance of the European General Hospital, and partly to the payment by the same body of a moiety of the pay of the Health Officer and of his establishment (9) having been adjusted by deduction from expenditure.

158. The receipts in India proved better than the Budget Estimate and the actuals of the previous year by 10,5 and 10,1 respectively. The increase occurred chiefly under *Cinchona Plantations*, and in Bengal was due to the growing popularity of the scheme for the sale of the drug in small packets, through the agency of the Post Office, and in Madras to the increased demand for quinine and to an expansion in the sale of quinine powders. The small improvement (2 2) under *Receipts on account of Public Exhibitions and Fairs* was due chiefly to the increase in the North-Western Provinces owing to the inclusion of receipts from the Garhmuktesar Fair in the Meerut District, and in the Punjab to fees from Horse and Cattle Fairs which were not anticipated in the Budget. Under *Labour and Emigration* the falling off in Assam was due to an over-estimate of fees in respect of labourers placed under contract at Dhubri. The increase under *Sale of Maps etc.*, was due to larger cash sales of maps and instruments by the Survey Department. Under *Other Receipts* the improvement in Bombay was due to the contribution (1,7) paid by the Poona Municipality towards the Reay Industrial Museum which was not anticipated. Under *Veterinary and Stallion Receipts* there was a falling off in India due to credit not having been taken for the Babugarh farm produce consumed by stallions, and in Bombay due to an over-estimate.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
14,835,2	EXPENDITURE	15,379,5	15,148,7	15,172,9

159. The expenditure in this section showed a saving of 206,6 as compared with the Budget Estimate, but exceeded the actuals of the previous year by 337,7. Of the saving, as compared with the Budget 56,3 occurred under Police, due to postponement of the revisions in Burma till late in the year, to short strength and to less cost of revision of Assistant Superintendents' grades in Bombay; 50,8 under Education due to less expenditure on primary education; 38,0 under Law and Justice—Courts of Law, due to the late appointment of an Additional Sessions Judge in Burma, and to certain Judgeships in the North-Western Provinces having been held by lower paid officers; 24,8 under Marine, due to recoveries from other Departments and Local Governments, which are deducted from expenditure, having exceeded anticipations; 15,3 under Scientific and other Minor Departments, due to less expenditure in England. There were small savings under the remaining heads except "Political" where there was an excess of 5,2.

160. Of the excess, as compared with the actuals of the previous year, 164,6 occurred under Political, due to payment of arrears of the subsidy to the Amir of Afghanistan, to charges connected with the visit of Sardar Nasarulla Khan to England, to payment of allowances to Frontier tribes, and to charges in connection with the affairs at Chitral; 70,4 under Marine, chiefly in England, due to an increase in the contribution towards the expenses of Her Majesty's ships employed in Indian waters; 51,7 under Law and Justice—Jails, due to high prices of food-grains and growth of jail population, and to purchases of machinery and tools and plant; 51,8 under Police, due to increased strength and reorganization, and to larger expenditure on the Bengal Military Police and South Lushai Hills Police. Excesses also occurred under Law and Justice—Courts of Law (20,2), Education (25,3), Ecclesiastical (6,9), and Medical (15,7). Under General Administration there was a decrease of 63,5, chiefly in the expenditure in England. There was also a small decrease of 5,4 under Scientific and other Minor Departments.

18.—General Administration.

161 The Indian expenditure exceeded the Budget by 23,2 and the actuals of the previous year by 7,9. Of this excess 18,3 occurred under Secretariat, due chiefly to large expenditure on telegrams and establishment and to the special duty of two officers in the Foreign Department.

162. The small excess under *Salaries of Governor General, Governors, etc.*, (7) was due in the North-Western Provinces to payment of arrear salary of the Acting Lieutenant-Governor, and in Madras to the amount drawn in March 1896 by His Excellency Lord Wenlock for 15 days of that month preparatory to his retirement. The excess in Madras under *Staff and Household* (8) was due to additional expenditure in connection with the visit of His Excellency the Viceroy; and that in Bombay (2,0) to the absence of the Surgeon on privilege leave, and to the provincialization of certain Band charges; the saving in India (2,7) occurred chiefly in Hill Journey charges and Municipal Rates on building at Calcutta left vacant during the Simla season. Under *Durbar Fund* the increase (3,0) was due to an additional grant for repairs of furniture. The payment in India of the leave allowance of the Hon'ble the Public Works

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

18.—General Administration—*continued.*

Member for nearly six months caused the excess under *Executive Council*. The saving under *Legislative Council* was chiefly due to the provision for salaries and allowances of members not having been fully utilised (3,9), to less Exchange Compensation Allowance (4), and to the absence of the Secretary on furlough (5), partly counterbalanced by increased expenditure on account of telegrams, Hill Journey charges and Travelling allowances.

163. The *Secretariat* charges exceeded the Budget by 18,3, of which 16,2 was in India, 3,3 in Bengal, 3,5 in Madras, and small excesses in Assam and Punjab, counterbalanced by savings in the other Provinces. The details of the India Secretariat charges are given below :—

1894-95. Accounts.	*Secretariat (India).*	Budget.	1895-96. Revised.	Accounts.
37,1	Financial Department	36,3	31,8	37,2
...	Statistical Department	...	5,0	...
25,1	Home Department	25,0	25,3	26,3
46,8	Foreign Department	40,5	51,7	50,4
21,9	Revenue and Agriculture	22,7	21,1	21,2
6	Translator's Department	6	7	7
33,2	Public Works Department	33,5	33,3	36,2
3,7	Government Record Department	4,2	2,9	2,8
49,4	Military Department	49,2	52,2	53,4
217,8	TOTAL .	212,0	224,0	228,2

164. The excesses were mainly due in all Departments to increased expenditure on account of contingencies, chiefly Telegram and Hill Journey charges. In the Financial Department the excess due to these causes was partly counterbalanced by saving due to the absence of the Under-Secretary on furlough. In the Foreign Department there was also an excess of 1,4 due to two officers being on special duty, and of 8 in Establishment. In the Public Works Department, in addition to the excess due to the above causes, there was an excess of 5 owing to the employment of an officer on special duty, and in the Military Department an excess of 1,3 occurred under Establishment, counterbalanced to the extent of 2 by a saving in salaries due to the deputation of Major-General Sir E. H. Collen to England. The saving in the Revenue and Agricultural Department was due chiefly to the transfer of charges (3,0) of the Reporter on Economic Products to 26—Scientific and other Minor Departments, to contingencies (4), and Hill Journey allowances (3), partly counterbalanced by increased expenditure due to the deputation of Sir E. Buck. In Bengal the excess of 3,3 was due chiefly to the appointment of an officer on special duty in the Judicial and Political Department (8), and to increased charges under establishment (1,2), and contingencies (1,0). In Punjab the excess of 1,3 was due to the absence of officers on privilege leave. In Madras the excess of 3,5 was due chiefly to the deputation of officers on special duty (2,0), to the reorganization of the office of Persian and Hindustani Translator to Government (3), and to absence of officers on privilege leave (1,2). Of the saving in the Central Provinces 1,8 was due to the transfer of charges for the maintenance of Telegraph lines to 32—Miscellaneous, 9 to increased postage charges, and 2 on account of telegrams and purchase of books. In Burma the decrease (1,8) was due to the Secretary having been an acting officer, to officers on lower pay than provided for having been appointed as Under-Secretaries, to the deputation of the Translator as Government Archæologist, and to less outlay on contingencies. In the North-Western Provinces the decrease (1,0) was due to the pay of the Judicial Secretary for March 1895 having been drawn in that month prior to his proceeding on furlough, to the lower rate of pay of the officiating Financial Secretary and one of the Under-Secretaries for a part of the year, and to larger savings than anticipated under Establishment. In Bombay the saving (1,1) was due to the provision for Secretary's Attaché and for the revision of establishment not having been utilised, to a lower paid officer having held the post of Secretary in the Revenue and Financial Departments, and to less charges for postage and telegrams, partly counterbalanced by an excess of 1,7 in the General Department, and of 6 in the Political Department, due to the absence of the Chief Secretary on privilege leave.

165. Under *Tour charges* the excess in India, due to the more extended tours of the Governor-General and the Members of the Executive Council, was partly counterbalanced by savings chiefly in the Central Provinces and Madras, the former being due to less touring by the Chief Commissioner, and the latter to less expenditure for maintenance of the Governor's camp equipage.

166. Under *Board of Revenue and Financial Commissioner* the excess occurred chiefly in the North-Western Provinces, due to the grant of privilege leave and to the deputation of the Junior Secretary on special duty, and in Madras due partly to the grant of privilege leave, partly to the entertainment of a special officer in anticipation of the appointment of an Assistant Secretary, and partly to increased expenditure on account of travelling and contingencies. These excesses were partly counter-

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

18.—General Administration—*continued.*

balanced by savings in Burma, due to the pay of the Secretary having been less than provided for, and to less expenditure than anticipated on travelling and contingencies, and in Punjab due to absence of officers on leave.

167. Under *Commissioners* there was an excess of 7,2 contributed chiefly by the North-Western Provinces, Punjab and Bombay. In the North-Western Provinces and Punjab the excess was due to the absence of a number of officers on privilege leave, and in Punjab partly also to the appointment of the Deputy Commissioner of Dera Ghazi Khan, to discharge the functions of a Commissioner in Derajat, and in Bombay to payments to officers of other provinces for which no provision was made.

168. The total charges for *Account and Currency Offices* are shown below :—

		Civil Account and Currency Offices.	Office of A. G., P. W. Dept.	TOTAL.
Accounts	1894-95	239,3	26,6	265,9
Budget	1895-96	245,1	27,2	272,3
Revised	1895-96	242,6	24,1	266,7
Accounts	1895-96	242,4	24,1	266,5

169. The saving in the Civil Account and Currency Offices was due chiefly to savings under Establishments due to vacancies and deputations, partly counterbalanced by excesses due to absence of officers on privilege leave. Of the saving in the Office of Accountant General, Public Works Department, 2,5 occurred under Salaries and 5 under Establishment, due to vacancies and absences on leave, and 4, under Travelling and Hill Journey allowances. The excess under *Allowance to Presidency Banks*, which occurred in Bombay, was due to payment of arrears of 1894-95, including 5 on account of the conversion of the 4 per cent. loans. The fall, as compared with the actuals of the previous year, was due to the special payments in 1894-95 in connection with the conversion of the 4 per cent. loans. Under *General Establishment of Local Fund Offices* the saving, as compared with the Budget Estimate, occurred chiefly in Bengal. The increase, as compared with the actuals of the previous year, was due chiefly to the establishment of additional Panchayat unions in Madras.

170. The expenditure in England showed a saving of 7,9 as compared with the Budget Estimate, of which 6,0 was due to the demand for stores being smaller than anticipated, and 3,2 to less expenditure on salaries, partly counterbalanced by an increase in contingencies, owing to special sanitary work at the India Office.

19A.—Law and Justice—Courts of Law.

171. The actuals showed a saving of 37.4 as compared with the Budget Estimate, which occurred chiefly under *Civil and Sessions Courts* and *Criminal Courts*, due under the former mainly to the late appointment of an Additional Sessions Judge provided for in Burma, to certain appointments of Judges in the North-Western Provinces having been held by Members of the Provincial Service and Statutory Civilians, larger savings than anticipated under Sub-Judges and Munsiffs, and to less expenditure on Process-serving Establishments, and under the latter head to a larger number of vacancies and absences.

172. Under *High Courts, etc.*, there was a saving of 5,8 contributed by Bengal, Madras, and Bombay partly counterbalanced by an excess in the North-Western Provinces. The saving in Bengal (7,1) was due chiefly to the absence of officers on furlough (5,0), to smaller expenditure on stamps for Government suits (4), to the appointments of Receiver and Registrar, Appellate Side, having been held by officiating officers (9), and to the provision for commission to the Receiver not having been required (5). In Madras it was due to the appointment of Registrar, Appellate Side, having been held by a junior officer, and to a vacancy for one month. In Bombay it was due to acting arrangements in the post of Chief Justice, to there having been two Native Judges on the Bench, who were not entitled to Exchange Compensation Allowance, to the appointment of Registrar, Appellate Side, having been held by a Native Officer on less pay, and to the deputation of the Deputy Registrar to officiate as Judge of the Court of Small Causes, Karachi. The excess (5,3) in the North-Western Provinces was due to the grant of privilege leave to the Chief Justice and Judicial Commissioner (2,2), to the continuance of the appointment of the 5th Puisne Judge and of his establishment for the whole year instead of for five months (3,0), and partly also to the entertainment on the permanent establishment of a number of translators, who were formerly paid from fees, and of a staff for weeding the records of district courts.

173. Under *Law Officers* there was an excess of 6,6. The increase in Bengal was due to larger charges for fees to Pleaders in Civil and Criminal cases (2,8), and to payments of Exchange Compensation Allowances to English Law Officers (3), counterbalanced to the extent of 2,2 by savings due to certain appointments having been held by officiating officers. In the North-Western Provinces the excess was due chiefly to larger payments of fees to Pleaders and Barristers in criminal cases (2,3), and to the non-recovery of 1,6 from the Courts of Wards for the services of the Legal Remembrancer and Standing Counsel on account of the Revenue year 1895-96. In Madras the increase was due to larger payments of fees to Pleaders for Civil and Criminal cases and pauper suits, and in Bombay to the grant of privilege leave to the Legal Remembrancer and to larger law charges.

174. Under *Civil and Sessions Courts* there was a saving of 18,6, to which all the Provinces, except India and the Central Provinces, contributed. In Burma the saving (4,9) was due to the appointment of an Additional Sessions Judge having been made very late in the year. In Assam the Budget provided for a larger number of higher grade officers than were actually entertained. In Bengal there was a saving of 4,5 due to the absence of District Judges, which was partly counterbalanced by excesses of 2,1 due to the grant of privilege leave to Subordinate Judges and Munsiffs and to the creation of additional temporary appointments, and of 7 owing to the deduction for probable saving under Process-serving Establishment having proved too high. In the North-Western Provinces the saving was due chiefly to certain appointments of Judges having been held by Members of the Provincial Service and Statutory Civilians (1,8), to larger savings than anticipated under Sub-Judges and Munsiffs (1,1), and to lower expenditure on Process-serving Establishment (5), counterbalanced to the extent of 3 by increased

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

19A.—Law and Justice—Courts of Law—*continued.*

expenditure under Record-room Establishment. In Punjab the saving (5,9) was due chiefly to certain appointments having been temporarily vacant. In Madras the saving occurred chiefly under Process-serving Establishment, and in Bombay it was due to the absence of a larger number of Subordinate Judges than anticipated, to less Exchange Compensation Allowance under the Dekhan Agricultural Relief Court, and to less expenditure under Process-serving Establishment, partly counterbalanced by an increase under Salaries of Civil and Sessions Judges, due chiefly to fewer absences on leave than was expected.

175. Under *Courts of Small Causes* the saving occurred chiefly in Punjab, and was due to the appointment of Extra Assistant Commissioners as Judges of Small Cause Courts instead of Extra Judicial Assistant Commissioners.

176. The decrease under *Criminal Courts* was due generally to larger savings than were anticipated under Salaries, owing to a larger number of vacancies and absences. The savings from this cause were partly counterbalanced by excesses in the Central Provinces, Lower Burma, Punjab and Madras. The excess in the Central Provinces was due chiefly to a lump deduction of 2,5 made by the Local Government, and 2,1 to the number of new Civilians posted to the province and to a larger number of officers having been on duty. In Lower Burma 1,1 of the excess was due to interchange of officers with Upper Burma, 1,3 occurred under Travelling Allowances, and 1,5 under Diet and Travelling Allowances of witnesses. In Punjab the excess occurred chiefly under Diet and Travelling of Witnesses (1,8) and under Contingencies (1,2).

177. Under Refunds the charges are of a fluctuating nature, and in Bengal proved unusually low.

178. In England the estimate provided for the outfit allowance of two Judges, but only one came to India.

19B.—Law and Justice—Jails.

179. The Indian Expenditure was less than the Budget by 9, but more than the actuals of the previous year by 51,7. The decrease was the result of saving under *Jail manufacture* owing to smaller purchases of raw materials, and under *Convict charges at Port Blair* due to absence of officers and to smaller charges for establishment, commissariat supplies, subsistence money and clothing, and an excess under *Other Jail charges* due chiefly to high prices of food grains, and growth of jail population. The excess over the actuals of the previous year occurred chiefly in Bengal and the North-Western Provinces, and was due in the latter to high prices of food-grains and growth in jail population, in the former to the purchase of machinery and tools and plant and of larger purchases of raw materials.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

19B.—Law and Justice—Jails—*continued.*

180. The saving under *Jail manufacture* was contributed by all the provinces except India, Bengal and Bombay. The large excess in Bengal was due to the outlay on machinery and tools and plant. The saving in the North-Western Provinces was due partly to the transfer of *Dairy Farm charges* to *Other Jail charges*, and partly to less contingent expenditure, and in Madras it was due to the transfer to *45—Civil works by Civil officers* of the charges for construction of a new jail in the South Arcot district partly counterbalanced by increased expenditure owing to a larger outturn of manufacture. In the other provinces the saving was due to smaller purchases of raw materials.

181. Under *Other jail charges* the excess in the Central Provinces, the North-Western Provinces and Punjab was due chiefly to the high prices of food-grains and increase in jail population : and in the North-Western Provinces also to the transfer to this head of the *Dairy Farm charges*, as stated above, and to the absence of the Inspector General of Prisons on privilege leave. In Bengal the excess occurred mainly in charges for clothing and bedding and for transfer of prisoners. In India, Burma and Madras the saving was in charges for rations and sick diet, in Assam and Bombay it was due to over estimates for rations and contingencies, and in Bombay also partly to the abolition of the Dhuliakot and Kaira District Jails, the conversion of the Surat District Jail into a sub-Jail, and to the duties of a Superintendent of the Presidency Jail having been performed, while he was on leave, by another officer without extra cost. The excess under *Convict charges at Port Blair* has been explained above.

20.—Police.

182. The expenditure in India showed a saving of 57,0 as compared with the Budget Estimate, and an excess of 51,8 as compared with the actuals of the previous year. Of the saving, 30,5 occurred under *District Executive Force*, and was due chiefly to the revision in the scale of Assistant Superintendents in Burma not having taken effect till late in the year, to the employment of fewer officers and short strength of the force in that administration ; in Bombay to the grant for the re-arrangement of the lower grades of Assistant Superintendents nothaving been fully utilised, and to saving in that province and the North Western Provinces under Salaries, Police Force, Clothing and Ammunition; 12,5 occurred under *Village Police*, due to the non-introduction of the changes expected to be made in the village chaukidari system of Oudh in consequence of the passing of the Oudh Local Rates Act, V of 1894 ; to payments to heads of Village Police and Watchmen in Bombay having been less than anticipated, and to the change in classification by which the charges for Shetsandi Police have been shown under *District Executive Police* and 24,1 occurred under *Special Police*, chiefly in Assam, due to the grant of compensation for dearness of provisions to some battalions of the Military Police in lieu of the free issue of rations ; to the late introduction of the sanctioned increased rate of good conduct allowance, and to an over-estimate under Arms and Accoutrements. The excess, as compared with the actuals of the previous year, occurred chiefly in Bengal, Madras, and Bombay In Bengal it was due mainly to the changes effected in 1895-96 in the strength of Sub-Inspectors of the District Executive Police ; to the expenditure on the Kairuma expedition, and to larger expenditure on the Bengal Military Police and South Lushai Hill Police. In Bombay the excess was due to the re-organization of the District and Sind Police Force having been more fully carried out.

183. The excess under *Presidency Police* occurred almost entirely in Bombay, and was due to the non-recovery from the Bombay Municipality of the full amount of its contribution towards the maintenance of the City Police, which is brought to account by deduction from charges. Under *Superintendence* the excess in Bengal was due to the adjustment under this head of the value of tents provided for under *District Executive Force*; in the North-Western Provinces it was due to the absence on privilege leave of the Inspector General of Police, and the extension of the term of deputation of an officer in connection with the introduction of the anthropometric system of measurement of criminals; in Madras it was due to the grant of privilege leave, revision of establishment, and more contingent expenditure, and in Bombay it was due to an officer of higher grade occupying the post of Personal Assistant, and to two Inspectors instead of one doing duty.

184. The saving under *District Executive Force* was contributed to by all the provinces except Bengal, Punjab and Madras. In Madras the Budget took credit for a large saving in the charges of the District Force, whereas additions to the force were made from time to time, including five first and six second class Inspectors entertained in September 1895, resulting in an excess of 4,6. There was also an excess of 3,7 under Travelling Allowances, of 8 under Hospital charges, and of 2,6 under Supplies and Services and Contingencies. The saving in India was chiefly due to reductions in Baluchistan; in Burma it was due to the revision in the scale of Assistant Superintendents having taken effect from October instead of from the beginning of the year, to the employment of fewer officers than provided for, to the force being below strength, to reductions in certain districts, to certain officers having been provided with free quarters, to the withdrawal of certain local allowances and to the provision for purchase of ponies not having been required; in Assam the decrease was due partly to vacancies in the Police Force and absence of officers on leave (3,1), and partly to the provisions for Clothing and Petty Construction and Repairs not having been fully utilized (1,2); in the North-Western Provinces the saving occurred chiefly under Salaries (5,2), and Police Force (4,5), partly counterbalanced by small increases under other heads; in Bombay the decrease was due to the grant for re-arrangement of the lower grades of Assistant

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

20.—Police—*concluded.*

Superintendents not having been fully utilized and the absence of officers on long leave (3,6), to savings under Police Force (9,1), under Clothing (3,9), under Ammunition (2,5), and under Petty Construction and Repairs and Rewards to informers (5), and to the grant for the Thuggee and Dacoity Department not having been fully utilized. These savings were partly counterbalanced by an increase of 2,3 under Excise Police, provision for which was insufficient, of 5 under Punitive Police, of 5 under Shetsandi Police, provision for which was made under Village Police, and of 1,0 owing to payments to officers of other provinces. The excess over the actuals of the previous year was due to the reorganization of the District and Sind Police Force having been more fully carried out.

185. Under *Municipal and Cantonment Police* the saving occurred almost entirely in Burma and was due to the absence of officers on long leave, to the provision for clothing not having been fully utilized and to the Cantonment Police charges in Lower Burma having been brought on the Government books from a later date than was expected. Under *Government Railway Police* the saving was due partly to the provision in Madras for the formation of the force not having been utilized, and partly to the charges for *Platform Police* having been debited to *District Executive Police*, counterbalanced by an excess of 1,8 in Bengal due to payment of arrear charges of the East Indian and Bengal-North-Western and Tirhoot State Railways, and of 9 in Punjab, due chiefly to an under estimate of the travelling allowances of the North Western Railway Police. Under *Village Police* the saving in the North-Western Provinces was due to the extension of the cash-payment system to the chaukidars of Oudh consequent on the passing of the Oudh Local Rates Act, V of 1894, not having been carried out during the year, and partly to saving in the grants for chaukidars and good-conduct allowances; in Bombay it was due to the charges under *Shetsandi Police* having been transferred to *District Executive Force*, to cash payments to heads of Village Police and Watchmen not having been drawn to the expected extent, and to the provision for additional Paggis or Village Trackers not having been fully utilized.

186. The saving under *Special Police* occurred chiefly in Assam, but Burma, Bengal, Punjab and Bombay also contributed to it. In Assam 9,8 of the saving was due to the adoption in some of the battalions of the Military Police of a system of granting compensation for dearness of provisions, instead of the free issue of rations provided for in the Budget, 2,7 was due to the late introduction of the increased rate of good-conduct allowance provided for, and 1,9 due to over-estimate under Arms and Accoutrements and Recruiting charges. These savings were partly counterbalanced by an excess of 1,5 due to the reduction of the Force contemplated in the Budget not having been made till October 1895, of 1,9 under compensation for dearness of provisions for the reason stated above, and of 5 on account of the Abor expedition which was not anticipated when the Budget was framed. In Burma the saving was due to the full complement of officers not having been entertained, to some officers not having qualified for the higher rates of staff allowance, to the Police Force having been below the sanctioned strength, to the absence of men on long leave, to the withdrawal of local allowances from officers in the Shan States and to less cost for up-keep of baggage animals, owing to short strength. The savings would have been much larger, but for the high expenditure in the last two months of the year on frontier expeditions. In Bengal the saving was due to small expenditure on Transport charges (9), on Salaries and Allowances of the Police Force (5), and 2,6 on account of Commissariat Establishment of the South Lushai Hill Police, partly counterbalanced by an excess of 1,4 due to increase in the number of sepoys of the Bengal Military Police, and of 1,1 on account of the Kairuma expedition. In Punjab the saving was due partly to a portion of the cost of the Border Police in Dera Ismail Khan (1,3) having been adjusted under *25.—Political* since May 1895, and partly to savings of 6 under *Frontier Police*. In Bombay 1,8 of the decrease occurred in Kathiawar, due partly to the recovery of the contribution for Railway Police having included arrears of 1894-95, and partly to the pay of the Assistant Superintendent having been drawn at a lower rate than that provided for; 3 in Mahi Kantha, chiefly in Establishment; 7 in Rewa Kantha, due partly to the provision for reorganisation of the Agency Police not having been fully utilized, and partly to less charges for the Mounted Police; and 3 under Bhil Nemunk, due to the transfer of certain charges under this head to 2.—*Assignments and Compensations.*

187. The expenditure in England included the subsistence allowance and return passage to India of an officer employed in connection with the prosecution of persons supposed to have been implicated in stealing arms from the Ferozepore Arsenal.

21.—Marine.

188. The Indian expenditure fell short of the Budget Estimate, and the actuals of the previous year by 52,7 and 6,7 respectively. The saving, as compared with the Budget, occurred chiefly under *Marine Stores and Coal, etc.*, and was due partly to an over-estimate of the charges for purchase of coal and stores, and

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

21.—Marine—*continued.*

partly to an under-estimate of recoveries from other departments and Local Government, which are adjusted by deduction from charges.

189 The decrease under *Marine Survey and Establishment* occurred chiefly in India and was due to vacancies and absence of officers on furlough, the temporary transfer of the services of the Surgeon Naturalist to the Bengal Government, and the non-undertaking of work connected with the survey of the mouth of the Indus. In Burma provision was made for a First Class Port Officer, but the proposal was not sanctioned. In Bengal the appointment of Port Officer was held by an officiating incumbent.

190. Under *Dockyards* the decrease occurred chiefly in "Wages of Artificers and Labourers" of the Kidderpore Dockyard, owing to some of the principal works, for which provision was made, not having been carried out or only partly carried out, and partly also to the recoveries from other departments and Local Governments, which are deducted from expenditure, having been larger than was expected.

191. Under *Salaries and allowances of officers and men afloat* the decrease in India was due to absence of officers on leave and vacancies in the establishments of Executive Officers and Engineers, counterbalanced by an increase under purchase of provisions. In Burma the savings were partly caused by the occasional lending of launches to the Public Works and Military Departments and the non-arrival of steamers for which provision was made. In Bengal there was a reduction in the charges of the pilot vessel *Sarasuti* and victualling charges of pilot vessels.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

21.—Marine—*concluded.*

192. Under *Marine Stores, etc.*, the minus entry in India was the result of the system of adjusting recoveries by deduction from charges, the charges also were lower than anticipated. In Burma the savings were due to the loan of launches to other departments and the non-arrival of steamers. In Bengal the decrease was due to the small outlay for repairs to the "*Rhotas*." The excess in 1894-95 in Bombay was due to special expenditure on repairs to the steamer "*Jhelum*"

193. The charges under *Pilotage, Pilot Establishment, and Vessels* fluctuate and vary with the tonnage of shipping visiting the port. For purposes of comparison the following table is given showing both receipts and expenditure for the seven years, commencing from 1889-90:—

	1889-90.	1890-91.	1891-92.	1892-93.	1893-94	1894-95.	1895-96.
Receipts	80,8	84,5	88,9	84,4	85,5	85,3	88,4
Expenditure	55,3	58,3	59,2	55,1	52,7	55,2	56,1

194. Under *Other Charges* there was a decrease as compared with the Budget. In Upper Burma the saving was due to the provision for certain works not having been utilized. In Lower Burma the expenditure on subsidies fell below the Budget owing to reduction in rates in new contracts and to expiration of certain contracts. The expenditure on the construction of new launches was less than the Budget anticipation, and the provision for a lantern for a new light vessel and for an occulting apparatus for the Eastern Grove Light-house was not required. In Madras the Budget provision of 2,3 to cover deficits of Port Funds was not required. The excess in India was in repairs done and coal supplied to Her Majesty's ships of war in Indian waters and Royal Indian Marine vessels at out-stations and in freight on Europe stores.

195. The excess in England was due to the payment towards the expenses of Her Majesty's ships employed in Indian seas having exceeded the Budget Estimate, partly counterbalanced by a smaller demand for stores.

22.—Education.

196. As in last year the Indian expenditure was larger than that of the previous year by 25,8, although it was smaller than the Budget by 50,2. The saving, as compared with the Budget, occurred chiefly in Bombay (16,0), Madras (12,2), Punjab (4,9), and North-Western Provinces (4,3). In Madras and Bombay, the Budget had provided for large increases on account of primary education which, however, did not actually take place. The special provision of 5,0 for the Madras Students' Hostel was not utilized. A considerable portion of the saving in Bombay was also due to the transfer to the Public Works Department, and to the adjusting heads, of charges for school buildings constructed by Local Boards. In the North-Western Provinces and the Punjab the saving was mainly due to absence of officers on leave and vacancies.

197. The increase, as compared with the accounts of 1894-95, occurred chiefly in Lower Burma, Bengal, Madras, and Bombay. In Lower Burma the University Examination charges were very heavy. In Bengal and Madras large amounts were paid as Grants-in-aid and Rewards to Boys' Schools. In Bombay revision of Establishments led to increased charges, and the contributions to Municipal Schools were much higher.

198. Under *Direction* the high charge in Bengal in the previous year was due to the payment there of the salary and allowances of the Director of Public Instruction, Burma, while on leave.

199. Under *Inspection* the Budget was exceeded in Bengal and Madras, chiefly under Salaries and Travelling Allowances. The savings in the Central Provinces, Upper Burma, and Punjab, were due to vacancies, leave, and deputation.

200. Under *Government Colleges* in Bengal there was a saving of 6,0 under Salaries and Exchange Compensation Allowance consequent on retirements, counterbalanced by an excess of 4 for the salary of a Medical Officer for the Engineering College, Howrah, and of 1,1 for petty construction and repairs, for which provision was not made in the Budget. In the North-Western Provinces the decrease was due to the retirement of a senior officer, to the vacancy for some months of a post of Professor in the Muir Central College, and to savings in the grant for contingencies. In Madras the excess was due to increased charges of the Engineering College and the Teachers' Colleges. The excess was provided for in the Revised.

201. Under *Government Schools* the excess in India was chiefly due to the payment from Local Funds of arrears of pension contribution of masters and teachers of Primary Schools in Ajmere. In Bengal the provision for purchase of works of art for the Government Art Gallery was not utilized. In the Punjab the decrease was due partly to an over-estimate and partly to savings in the charges of the Central Training College and Mayo School of Art on account of salaries and stipends, and in the contributions to Municipal and Local Boards owing to revision of grants. In Madras too much allowance was made in the Budget for increase of expenditure. The falling off in Bombay was due to the abolition of the Vice-Principalship of the Elphinstone High School, to smaller payments of Exchange Compensation Allowance and contributions in support of Municipal Schools, to an over-estimate under Primary Schools, to the absence on six months' leave of the Principal of the "School of Art," and to saving in the grant for "Industrial Schools." The increase, as compared with the actuals of the previous year, was owing to a revision of establishments, to larger payments in support of Municipal Schools, and to extension of primary education.

202. Under *Grants-in-aid and Payments by results* the savings were chiefly in Bombay, Lower Burma, Madras, and the North-Western Provinces. In Bombay the saving was nominal, as 3,5 was transferred to the Public Works Department and 6,1 to the adjusting head "Contribution from Provincial

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

22.—Education—*concluded.*

to Local" in connection with school buildings to be constructed by Local Boards. In Lower Burma and Madras the Budget was pitched too high. In the North-Western Provinces a portion of the building grant and of the grant for "Drawing class" at Lucknow, Meerut, and Jhansi was not utilized. In Bengal the excess was due to increased payments of Grants-in-aid and Rewards to Boys' Schools.

203. Under *Scholarships* the saving was contributed by all the Provinces. There was very little difference between the actuals of the two years.

204. Under *Other Charges* there was a saving of 5,9, of which 4,5 occurred in Madras, and was due to the special provision of 5,0 for the Madras Students' Hostel not having been required. In India the grants in Bangalore for building and furniture and remuneration to the Examining Committee were not fully utilised In Lower Burma the contribution paid to the Educational Syndicate exceeded the Budget owing to a larger number of students having passed the University Examinations and to heavier examination charges. In Bombay the saving was chiefly in charges for the Government Book Depôt and in grants for the encouragement of literature.

205. The expenditure in India was less than the Budget Estimate by 2,3 and more than that of the previous year by 7,0. The saving under *Church of England* was due to the absence of the Lord Bishop of Calcutta and his chaplain on furlough, to vacancies and leave to chaplains. The excesses in Madras and Bombay were due to the number of absentees having fallen short of the anticipations.

206. Under *Church of Scotland* in the North Western Provinces both the senior and junior chaplains were absent on furlough, and no officer was appointed to officiate for the former. Under *Allowances to other Clergymen* the excess was due to an under-estimate in the North-Western Provinces.

207. In England the Budget provided for the passage of eight Chaplains, but only four came out.

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

24.—Medical.

208. The expenditure in India fell short of the Budget Estimate by 12,7, but was higher than that of 1894-95 by 16,6. The decrease, as compared with the Budget Estimate, occurred chiefly under *Medical Establishments*, in the Punjab owing to furlough and deputations of officers and the temporary transfer of officers for military duty with the Chitral Relief Force, and under *Hospitals and Dispensaries* in Bombay due to the absence of the Physician of St George's Hospital and fluctuations in the salaries of apothecaries and assistants. The increase, as compared with the actuals of the previous year, occurred chiefly under *Medical Establishments* and *Vaccine Establishments, etc.*, in Madras and Bombay.

209. Under *Medical Establishments* the decrease in Upper and Lower Burma was due to change of officers and less outlay on travelling allowances. In North-Western Provinces and Oudh and Punjab it was due to the deputation of certain Medical officers on temporary military duty, and of certain civil surgeons on other duties and to furlough vacancies. The increase in Madras was due chiefly to the number of senior officers on duty and to warrant medical officers on higher grades of pay having been attached to Civil Hospitals from time to time. Compared with the actuals of the previous year, the increase in Madras and Bombay was due to a larger number of officers being on leave in 1894-95, and in Assam to promotions of officers and to a civil surgeon having been supernumerary for a longer period than in 1894-95.

210. Under *Vaccine Establishments and Sanitary Commissioner* the saving was due in Lower Burma to the full number of vaccinators not having been entertained, and in the North-Western Provinces to a vacancy in the post of one of the Deputy Sanitary Commissioners.

211. Under *Medical Colleges and Schools* the decrease occurred mainly in Bombay and Punjab and was due in Bombay to the absence on leave of the Principal and some of the other officers on the staff

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

24.—Medical—*continued.*

of the Grant Medical College, and in the Punjab to an over-estimate. As compared with the actuals of the preceding year, the increase in Bengal was due to the inclusion of the consolidated salary and Exchange Compensation Allowance of the Superintendent of the Campbell Medical School, which hitherto was proportionately debited to the major heads *19A—Law and Justice—Courts of Law* and *20—Police*; and the decreases in Madras and Bombay were due to absence on leave of senior officers and the appointment of junior officers in their places.

212. Under *Government Hospitals and Dispensaries* the decrease in North-Western Provinces and Oudh was due to savings in the grants for Allowances and Contingencies. In the Punjab the savings occurred in the charges for salaries and establishment and in the cost of medicines obtained from the Medical store depôts for Civil Dispensaries and Police Hospitals. In Bombay the saving was due chiefly to the absence of the Physician of the Saint George's Hospital on furlough and to fluctuations in the salaries of apothecaries and assistants of that institution, and to the transfer of some of the payments under Grants for Hospitals and Dispensaries to the adjusting head Contributions from Provincial to Local In Madras the excess was due to the opening of new hospitals and the entertainment of female apothecaries to instruct female pupils in midwifery (5,4), partly counterbalanced by less expenditure in providing bedding and clothing for patients in the Presidency Hospitals consequent on a fall in prices.

213. Under *Lunatic Asylum* the decrease occurred in Lower Burma, Madras and Bombay. In Lower Burma there were savings in the pay of establishment, and in expenditure on diet. In Madras the decrease was due to the appointment of a Surgeon-Captain in lieu of a Surgeon-Major to the charge of the Lunatic Asylum, and to the fall in prices noticed above; and in Bombay it was due to the charges for diet of patients being less than estimated.

214. Under *Other charges* the increase occurred mainly in the Central Provinces and the North-Western Provinces and Oudh. In the Central Provinces it was due to the withdrawal of certain contributions credited in previous years for dispensary purposes, for investment in Government securities, and in the North-Western Provinces and Oudh it was due to adjustment of erroneous credits in past years to the Civil Department transferred during the current year to the Public Works Department.

25.—Political.

215 The expenditure in India, as compared with the Budget Estimate and the actuals of the preceding year, showed increases of 15,2 and 120,2 respectively. The increase, compared with the Budget, was almost wholly in Punjab, and occurred chiefly under *Charges on the N. W. Frontier* due to new charges in connection with the Dir and Swát Agency, established during the year, counterbalanced by savings due to an over-estimate of the payments for guarding Hill Passes. The difference between the actuals of the two years occurred chiefly in India and Punjab. In India the excess occurred under *Political Subsidies*, and was due to payment of arrears of subsidy to the Amir of Afghanistan and under *Entertainment of Envoys and Chiefs* due to charges connected with the visit of Sardar Nasarulla Khan to England. In the Punjab, the excess was due partly to the cause mentioned above and partly to larger expenditure on account of allowances to Frontier tribes in the Derajat Division, and partly to payments in connection with affairs at Chitral.

216. Under *Political Agents* the decrease occurred in India, Upper Burma and the Punjab. In India there were savings in the salaries and Exchange Compensation Allowance of Political Agents, Assistants and Surgeons, chiefly due to vacancies and lower rates of pay and to the abolition of the appointment of the Agency Surgeon, Rajputana, and to a recovery of 2,9 from Her Majesty's Imperial Government on account of the contribution towards the charges of the Hodeida Vice-Consulate for the eight years from April 1888. In Upper Burma, the saving was due to the Superintendent, Northern Shan States, not having drawn his salary from August 1895 during the year, to the removal of an Extra Assistant Commissioner from the Northern Shan States in July 1895, to the appointment of fewer myoôks than provided for in the Southern Shan States, to the appointment of an officiating officer on less salary in place of the permanent Political Officer Chin Hills, on long leave, to absence of officers on leave and to the abolition of the Elephant Establishment in the Northern Shan States, partly counterbalanced by excess expenditure due to an Extra Assistant Commissioner having drawn pay from August 1894 to February 1895, to the employment of two additional Extra Assistant Commissioners in the Southern Shan States, and to the Superintendent, Northern Shan States, having drawn arrear pay for two months. In Punjab, the saving was due to over-estimates in salaries and Exchange Compensation Allowance of officers. The excess over the actuals of the previous year in Upper Burma was due to the causes mentioned above. In Assam it was due to special expenditure in connection with the Kairuma expedition. In Bombay the excess was due to the fact that for a portion of 1894-95 there was no permanent holder of the appointment of Political Agent, Mahi Kantha, the Assistant Political Agent being in charge in addition to his own duties, and to certain arrear recoveries in Kathiawar and Palanpur during 1894-95, which were brought to account by deduction from charges. These excesses were partly counterbalanced by savings in India as explained above.

217. The excess in Punjab under *Charges on the North West Frontier* has been already explained. The saving in India was due to reductions in Levy charges in Baluchistan, to smaller rates of pay of the Surgeon and Dâk Sowars of the Khorasan Agency, and to smaller charges for secret service telegrams,

Section D.—SALARIES AND EXPENSES OF CIVIL DEPARTMENTS—*continued.*

25.—Political—*concluded.*

rations and other contingencies of that Agency. The excess over the actuals of the previous year in the Punjab has already been explained.

218. The increase in India under *Political Subsidies* represents payments of arrears of subsidy to the Amir of Afghanistan. The decrease in Punjab arose from the Ruler of Chitral not having drawn the amount payable to him.

219. The increase in India under *Entertainment of Envoys and Chiefs* was due to charges connected with the visit of Sardar Nasarulla Khan to England.

220. Under *Durbar Presents, etc*, the saving was due to the Budget Estimate having been pitched too high. The high figures of the previous year were due in North-Western Provinces and Oudh, to a special charge incurred on account of the purchase of a khillat for presentation to His Highness the Nawab of Rampur on the occasion of his investiture, and in Bombay to special expenditure in connection with the purchase of horses for the Maharajah of Kolhapur.

221. Under *Other Charges* the excess in India was due chiefly to cost of ordnance stores supplied to the Amir of Afghanistan not provided for (4 4) and to an under-estimate of the charges connected with the Afghan Border Demarcation, the Perso-Baluch Frontier, and the Pamir Delimitation Commission (2,9) partly counterbalanced by a saving of 2,3 in the charges for organizing Imperial Service Troops, and of 1,6 in secret service expenditure of the Viceroy. In Lower Burma the excess was due to the payment of compensation to certain people for losses sustained at the hands of the Karennis, and in the Punjab it was due to increased expenditure in connection with affairs at Chitral To this cause is also due the increase over the actuals of the previous year which occurred chiefly in Punjab.

222. The saving in the expenditure in England occurred chiefly in connection with the visit of Sardar Nasarulla Khan to England.

26.—Scientific and other Minor Departments.

223. The expenditure in India showed a saving of 5,5 as compared with the Budget Estimate, and an excess of 27,5 as compared with the actuals of the previous year. The saving occurred mainly under Survey of India as explained below :—

224. Under *Survey of India* the saving was almost entirely under Survey Parties. There were also savings under Controlling and Administrative Staff and Head-Quarter Offices, due chiefly to vacancies, absence of officers on leave, and lower rates of pay. Under *Geological and other Survey* the saving was due to less charges (7) under salaries, establishments, and travelling allowance, and (1,0) under charges in connection with the publication of "Palæontologica" Indica, Doctor Waggen's works, Museum and Laboratory, counterbalanced by an excess of 1,1, due to the mineral survey of Chota Nagpur which was sanctioned after the Budget was framed. The excess over the Budget under *Meteorological Department* occurred chiefly in Telegram charges.

225. Under *Other Scientific Departments* the increase in India was due to the transfer to this head of the charges of the Reporter on Economic Products provided for under *18—General Administration*, a decrease in Bombay was due to the provision of 1,7 on account of contribution to the Reay Industrial Museum, Poona, not having been required.

226. Under *Veterinary and Stallion charges* the excess in India was due chiefly, to larger expenditure of 4,6 in purchase of stallions, of 2,0 in charges for stable feed and keep, and of 7 in road expenses. This excess was partly counterbalanced by a saving of 1,1 in Madras due to the provision for veterinary hospitals not having been utilised, and to less charges for Pony-breeding and prevention of cattle disease, and of 2,9 in Bombay due to the transfer of certain veterinary dispensaries to Local Boards, and to an over-estimate of the grants to veterinary hospitals and dispensaries. Under *Other Charges* the increase was due to an excess in Bengal, partly counterbalanced by savings in all the other provinces. The excess in Bengal occurred under *Cinchona Plantation*, and was due mainly to charges sanctioned subsequent to the framing of the Budget Estimate for temporary establishment (1,0), and for the purchase of bark (4,3) for the manufacture of quinine, to meet the demand consequent on the growing popularity of the sale of the drug in small packets through the agency of the Post Office. The savings in India occurred under *Experimental Cultivation*, and was due to miscellaneous expenditure of the Revenue and Agricultural Department having been adjusted under other heads. In Central Provinces it was due to less expenditure on account of agricultural experiments and to certain fairs not having been held owing to scarcity which prevailed then in the northern districts of the Province. In Upper Burma the savings also occurred under *Experimental Cultivation*, due to the provision for seeds and contingencies not having been fully utilised. In Madras nothing was spent for Farm schools, although provision of 1,0 was made in the Budget, and in Bombay the full grant for agricultural experiment was not required.

227. The excess under *Labor and Emigration* was contributed by all the provinces except Assam where there was a saving due to an over-estimate of fees for inspecting tea gardens and for the Bengal portion of the Inland Labor Transport Fund, the excess in Bengal was due to the smaller recovery from the Assam Administration towards the deficit in the transactions of the Inland Labor Transport Fund.

228. Under *Miscellaneous* the excess in Bengal arose mainly from the salary and other charges of the officer deputed to remove to Calcutta the sculptures, figures, and carvings of the Budhist period discovered in the Swat Valley and Dargai.

229. The expenditure in England fell short of the Estimate owing to short demand for stores and to less expenditure in objects of a literary, scientific, or antiquarian character, and in the purchase of stallions.

Section E.—MISCELLANEOUS.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
1,227,0	RECEIPTS	953,9	1,077,8	1,095,9

220. The receipts under this head exceeded the Budget Estimate by 142,0 and fell short of the actuals of the previous year by 131,1. Of the improvement as compared with the Budget, 89,9 occurred under Gain by Exchange, due to a large increase in the gain on the revenue stores of Guaranteed Railways; and 48,7 under Miscellaneous due to an increase in the receipts from Rents and Unclaimed Deposits lapsing to Government, and in the Customs and Zariba receipts of Berbera and Bulhar. Of the falling off as compared with the actuals of the previous year 73,3 occurred under Miscellaneous, owing to the inclusion in the accounts of 1894-95, of the commutation value of pensions lapsed to Government under the King of Oudh's first and sixth loans, and 49,4 under Gain by Exchange due to a falling off in the gain on the transactions of the Assam-Bengal Railway which were adjusted in the previous year at a favourable rate of exchange.

	Accounts.	1895-96	96,9	73,6	170,5		Accounts. 1895-96	374,8

231. As noticed in previous reports, the receipts under the first head are decreasing every year, owing to retirement and casualties amongst old subscribers, but the falling off due to these causes was partly counterbalanced by the unexpected payment in India of donations by subscribers residing in England on attaining Colonel's allowances. The actuals were better than the Budget by 4,9 owing to the receipts in India having been largely under-estimated, and the special receipts in Madras noticed above. In Bengal the net proceeds of the Orphangunj Bazar at Kidderpur showed a small improvement over those of the years since 1891-92.

232. Under *Subscriptions to Civil Funds* the increase in Madras was due to the receipt of subscriptions to the Bombay Civil Fund which were not anticipated when the Budget was framed, and in the Central Provinces to a special contribution to the Bengal Civil Fund.

233. The receipts under the head *Contributions for Pensions and Gratuities* vary with the number and rank of officers in Foreign service. In India the subscriptions on account of officers in the

Section E.—MISCELLANEOUS—*continued.*

XXII.—Receipts in aid of Superannuation, Retired, and Compassionate Allowances—*continued.*

Berar Administration, which form the bulk of the receipts, were over-estimated. In Upper Burma, the Budget included arrears of contribution of officers lent to the Mong Mit State, but these were realised in the previous year. In Bengal, Punjab and Madras the increases were due to new admissions, while in the North-Western Provinces the decrease was owing to the reversion of certain officers from Foreign to British service.

234. Under *Other Items* the increase was due generally to receipts from new entrants to the Indian Civil Service Family Pension Fund.

235. In *England* sufficient provision was not made under the several Funds for the growth of these receipts.

XXIII.—Stationery and Printing.

			India.	Central Provinces	Burma. Upper.	Burma. Lower.	Assam.	Bengal.	N.-W. P. and Oudh.	Punjab.	Madras.	Bombay.	Total.

	Accounts	1895-96	12,1	1,3		4,5	6	20,8	9,0	9,0	15,5	11,5	84,3

236. The variations under *Receipts from Sale of Stationery* depend mainly on the supply of stationery to State Railways. In Upper Burma there were no receipts from the Burma State Railway, and in Lower Burma they were less than estimated. In Bengal and the Punjab the receipts were under-estimated. The increase in Madras was due partly to larger issues to the East Coast and the Bezwada-Madras State Railways, and partly to larger supplies to Local Bodies and Courts of Wards.

237. Under *Sales of Gazettes and other Publications* the receipts in Madras showed a material increase owing to larger sales of Acts and books. In the North-Western Provinces and Oudh the saving was nominal and was due to the transfer to *Other Press receipts* of recoveries on account of cost of printing High Court Appeals.

238. Under *Other Press Receipts* the largest decrease occurred in Madras and was due to a decline in work for private parties at Collectorate Presses. In India the estimate was taken too low. In the Central Provinces the deterioration was due partly to an over-estimate and partly to a falling off in the income of the Nagpur Jail Press. The increase in the North-Western Provinces and Oudh has been explained above. In the Punjab the decrease occurred under lithographic printing.

239. The receipts under this head exceeded the Budget Estimate by 89,9, but fell short of the actuals of the previous year by 40,4. Of the improvement over the Budget, 70,6 occurred in the gain by exchange on revenue stores of Guaranteed Railways. The remainder is the net result of a number of smaller variations, the most important of which are the following:—A falling off of 27,1 on the Southern Mahratta Railway due to smaller withdrawals of capital both in India and in England, and to the rise in the rate of exchange. A loss of 30,9 on the Assam-Bengal Railway, due to the transactions of the Railway being adjusted at the previous half year's rates of exchange which were more unfavourable. The East Indian Railway advances are adjusted at the official rate of exchange, which being smaller than the average rate of the year, led to a gain of 13,1 instead of a loss of 6,5 provided in the Budget. Under miscellaneous remittance transactions also, there was a considerable improvement, owing partly to the average rate of the year having been higher than the official rate, while in the Budget Estimates it was assumed to be lower, and partly to some special payments in India at the more favourable rate (official rate of exchange) on account of Zanzibar bills, the Uganda Railway and remittances of officers and men of the Hongkong Regiment and Asiatic Artillery. The decrease compared with the actuals of the previous year occurred chiefly in connection with the transactions of the Assam-Bengal Railway. As the original share capital of the Company had not been exhausted at the beginning of that year, the withdrawals during it were set off against that capital and were therefore converted at a rate of exchange considerably higher than the average rate of the year.

240. The falling off in *Gain by Exchange* in India was due to military and other payments at Hyderabad having been made in British Indian currency instead of in local currency.

241. The improvement under *Premium on Bills* occurred almost entirely in India and Bombay and was the result of the extension of the system of drawing off surpluses by means of Supply Bills. In Upper Burma the falling off was due to telegraphic money orders having, to a certain extent, superseded Supply Bills. The receipts in Bengal showed a decrease for the first time since 1890-91, due to a shrinkage in the demand for bills, chiefly on the Assam and Central Provinces treasuries. The head *Unclaimed Deposits* is subject to considerable fluctuations. In most of the Provinces the lapses to Government at the close of the year were particularly high. The decrease in Madras under *Government Audit Fees* was due to a change in classification, under which the contribution paid by the Madras Municipality on account of the Local Funds Controlling Establishment in the Accountant General's Office was transferred in the accounts to the next succeeding minor head "Contributions." Under *Rents* the expansion of revenue in Burma was due to the construction of new bazaars. In Assam the improvement was due to special realisations on account of *hats* in the Kamrup district credited to this head for the first time. In the North-Western Provinces and Oudh the increase was due to the inclusions of the gross transactions in the Sawad-i-shahr estate in the Agra district formerly treated as a Personal Ledger Account. In Madras the receipts include Choultry and Market rents and Bungalow fees and are subject to considerable fluctuations. The increase under *Miscellaneous Fees, Fines and Forfeitures* was almost wholly due to partition fees and fees for the survey of tea lands in Bengal. Under *Extraordinary Items* the figure in Bombay represents the moiety of the sale proceeds of a piece of land forming part of the Tank Bandar estate purchased by the Bombay Municipality from the Port Trust and applied equally to the reduction of the interest bearing and non-bearing portions of the debt created against the Trustees under the Port Trust Act. In the North-Western Provinces and Oudh the amount represents the realisation of the capitalised value of abatement of Land Revenue on land acquired for the Rohilkhand-Kumaun Railway. The figure in the accounts of 1894-95 represents the commutation value of pensions lapsed to Government under the King of Oudh's first and sixth loans in order to bring the outstanding principal of the loans into accordance with the amount of pensions payable on 31st March 1895. In Upper Burma the credit represents the amount recovered from the Home Government on account of a moiety of charges incurred in 1894-95 in connection with the Mekong Commission.

242. Under *Other Items* the increase in Bombay was under Customs and Zariba receipts in the revenues of Berbera and Bulhar. The increase under Customs receipts was due to direct importation of rice in large quantities from Calcutta, and to a large number of shooting parties visiting Berbera, and the duty paid by them on supplies imported and hides and skins exported. The increase in Zariba fees was due mainly to the large export of camels and cattle of Nussowa during the recent operations in Tigre and also to the enhancement of fees levied on hunting trophies exported by individuals other than sportsmen for purposes of trade. The large receipt in 1894-95 in India represents the refund by the Home Government on account of the charges of the Royal Commission on Opium, while that in the North-Western Provinces was due principally to the sale-proceeds of 1,000 gold mohurs presented by the Nawab of Rampur on the occasion of his installation.

243. In *England* the receipts include 1,1 as "Conscience Money," the remainder of the increase was due to fines and penalties incurred by contractors in providing stores.

6,065,7	EXPENDITURE	6,103,7	5,964,9	5,933,3

244. The charges under this head were less than the Budget Estimate and the actuals of the previous year by 170,4 and 132,4 respectively. In Exchange there were savings of 145,9 and 144,5 being due to the higher rate obtained. In the sterling expenditure, however, there were excesses of 11,6 and 9,8 respectively, resulting in the first case mainly from increased expenditure on account of Civil Furlough and Absentee Allowances and payments of pensions and store charges, counterbalanced by a saving in the payments in respect of stores lost in transit to India. The Indian expenditure was less than the Budget by 36,1, owing chiefly to savings under Territorial and Political Pensions, due to lapses by deaths, under Stationery and Printing in charges of Government Presses, and under Miscellaneous chiefly due to the charges against the reserve provided in the Punjab Budget having been shown under the appropriate heads. Compared with last year there were savings under Territorial and Political Pensions, but they were more than counterbalanced by an increase under Superannuation and Retired Allowances owing to new pensions exceeding lapses by death.

245. As in previous years the payments on account of Territorial and Political Pensions showed a decrease compared with the Budget Estimate owing to lapses. In India and Bengal the decrease occurred in the pensions of the Mysore and Nizamut Families, respectively. In the North-Western Provinces there were lapses by the death of certain members of the Ex-Royal Families of Oudh and Delhi, partly counterbalanced by increased expenditure under *Charitable Allowances*. In Madras the payments of Carnatic stipends were largely in excess of the Budget, but there was a material decrease in the Tanjore pensions and under Commutations. In Bombay in spite of the payment of arrears to Yemen Stipendiaries and heads of Tribes at Aden, there was a large saving caused by lapses and unclaimed amounts, the non-utilization of some special grants, and the adjustment of certain Wasika pensions under 14.—Interest on other Obligations.

246. The expenditure in England varied only slightly from the Budget.

Section E.—MISCELLANEOUS—*continued.*

28.—Civil Furlough and Absentee Allowances.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
1,1	India	6	4	1
...	Bengal	1	1	...
1	Madras	1	1	1
1	Bombay	2	5	4
1,3	TOTAL .	1,0	1,1	8
220,7	England	218,0	224,0	223,5
183,5	Exchange	181,7	168,9	169,9
405,5	TOTAL, INCLUDING ENGLAND .	400,7	394,0	394,2

247. The charges incurred in this country depend on the number and grade of officers lent to foreign service on leave. The Bombay Budget proved too low.

248. The increase in England occurred in the absentee allowances of officers of the Indian Civil Service.

29.—Superannuation Allowances and Pensions.

249. The total Indian expenditure showed an increase of 6,5 on the Budget Estimate and of 24,3 over the actuals of the previous year, the excess occurring solely in the first minor head *Superannuation and Retired Allowances* under which the charges are increasing annually owing to the amount of new pensions exceeding the lapses from death.

Section E.—MISCELLANEOUS—*continued.*

29.—Superannuation Allowances and Pensions—*continued.*

250. The following statement shows the growth of expenditure under the first minor head durin the last six years :—

1890-91	765,5
1891-92	792,6
1892-93	830,4
1893-94	863,5
1894-95	899,1
1895-96	925,1

251. The increase was due mainly to sufficient allowance not having been made for the norma growth of the expenditure, specially in Bengal and Madras. In Bombay, however, the Budget was over estimated and had to be reduced in the Revised.

252. Under *Compassionate Allowances* the excess over the Budget in Madras was due to the pay ment of an allowance of R50 per mensem undrawn from 1886. The larger payments in Bombay unde *Gratuities* were due to the reorganization of the Survey and Police Departments.

253 Under *Military Orphan and Medical Retiring Fund* the excess in Bombay was due chiefl to payment of marriage portions and arrears.

254. Under *Pensions of the Military Funds,* the Budget Estimate of Madras provided for arrea payments, which, however, did not take place The Bengal Budget was over-estimated.

255 In England there was a large decrease in the payments on account of the Military Funds, bu this was more than counterbalanced by an increase in the pensions of officers of the Uncovenanted Service

Section E.—MISCELLANEOUS—*continued.*

30—Stationery and Printing—*continued.*

256. Under *Stationery Office at the Presidency* there were savings in Bengal and Bombay, partly counterbalanced by an increase, due to larger contingent expenditure in Madras. The saving in Bombay occurred chiefly under "Freight on English Stores" and "Forwarding charges."

257. Under *Purchase of Stationery*, the charges in Bengal considerably exceeded the Budget, owing to increased demands from the North-Western Provinces and Oudh and the Postal Presses for certain kinds of paper. In Madras the Estimate was placed too low. The saving in Bombay was due to the inability of the mills to meet indents before the close of the year. There was also a small saving in the Punjab, due to reduced charges in the Revenue and Judicial Departments for stationery purchased in the country.

258. Under *Government Presses* there were savings in almost all the provinces. In India more work was done by the Central Press for the Postal and Telegraph Departments than was anticipated, resulting in larger deductions from the gross charges. Lower Burma showed savings in the pay of extra and piece establishments, and in the outlay on materials and stock. The reduction in Bengal occurred partly under Establishment and partly in the Contingent charges of the Bengal Secretariat and Presidency Jail Presses. In Punjab the saving occurred under lithographic printing.

259. Under *Stationery supplied from Central Stores* the demands exceeded the anticipations in Madras, North-Western Provinces, Bombay, and Punjab. The excesses were due chiefly to increased demands of Departments and to the issue of new articles. The decrease in Bengal was on account of smaller demands for printed forms. In the Central Provinces the large decrease in the actuals of the previous year was due to smaller indents in that year on account of accumulated stock.

260. The *Stationery supplied to the Postal and Telegraph Departments* showed an increase. Under *Other charges* the increase in the North-Western Provinces and Punjab was caused by high charges incurred under Printing at Private Presses. The saving in Madras was due principally to less work being given to private Presses.

261. In England the charges for stores were larger than was estimated for.

32—Miscellaneous.

262. The Indian expenditure showed a saving of 6,9 on the Budget, chiefly under the heads *Petty Establishments and Other items*, partly counterbalanced by excess expenditure under *Charitable Donations, Remittance charges, and Special Commissions of Enquiry.*

	Accounts 1895-96	232,0

263. *Allowances and Rewards* were over-estimated in Bengal and Madras. The excess in Upper Burma was due to an increase in the number of officers who appeared in the Language Examination and earned rewards. The excess over the Budget and the actuals of the previous year in Bombay was on account of rewards, partly counterbalanced by fees to members and assessors on Examination Committees.

264. The falling off in *Remittance charges* noticed in last year's report has received a check and the actuals have exceeded the Budget Estimate. The largest increase occurred in the North-Western Provinces and the Punjab due in the former to heavy expenditure on remittances sent to other Provinces, and in the latter to large remittances of specie to the Chitral Relief Force. The Bengal Budget was over-estimated. The saving in Madras was due to the opening of Currency Agency chests in District Treasuries. In Bombay the excess was due to a special remittance to Rangoon.

265. Under *Charitable Donations* the excess in Bengal was due chiefly to a special grant towards the cost of the land for the Leper Asylum at Gobra.

266. Lower Burma and Assam over-estimated the expenditure on *Rewards for Destruction of Wild Animals*, while in the Central Provinces the charges were higher than anticipated.

267. The savings under *Petty Establishments* in Lower Burma were due to vacancies, and in Madras to smaller charges on account of markets and *Choultries*. The Assam Budget was over-estimated.

268. The charge in India under *Special Commissions of Enquiry* was on account of the Mining Regulations Committee and Mr. Jacob's pay and travelling allowance drawn in India while on deputation with the Royal Commission.

269. The excess under *Rents, Rates, and Taxes* in Lower Burma was caused by the enhancement of the Municipal Tax in the Rangoon town. The commutation value of lapsed Wasika pensions revived during the course of the year under Government orders appeared under *Extraordinary Items* in the North-Western Provinces.

270. Under *Other items* the largest saving was in the Punjab, where the expenditure met from the special provision of 10,0 under *Miscellaneous and Unforeseen charges* was classified under the appropriate heads in the accounts. This saving was slightly reduced by an excess of 5 on account of the loss incurred in disposing of Kabuli rupees received at Kurram in payment of revenue due to Government. The saving in Bombay was due chiefly to smaller repayments of loans by some District Boards. In the previous year a special payment of 1,6 was made to Messrs. Thomas Cook and Sons for the loss sustained by them in 1892-93 in connection with the carriage of pilgrims. In Upper Burma the excess was due to refunds of fines imposed by Political Officers in the Chin Hills and Shan States having been transferred to this head from Law and Justice, to which they had hitherto been erroneously debited. In Bengal the increase was due to larger payments on account of refunds. Sufficient allowance was not made in the Central Provinces and Assam for the fluctuations of this head.

271. The decrease in the English expenditure was mainly on account of smaller payments in respect of stores lost in transit to India.

Section F.—FAMINE RELIEF AND INSURANCE.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
610,2	EXPENDITURE . . .	55,0	585,5	586,5

272. The Budget Estimate provided under this head for only a small expenditure on direct Famine Relief and on the construction of Protective Irrigation Works. Including the net charge on the revenues, on account of the Protective Railways constructed through the agency of Companies, which though shown under the Railway Revenue Accounts, is chargeable to this grant, the total amount provided on account of this grant was 421,8. In the Revised Estimate the grant was increased to 1,000,0 which included a provision of 534,8 for the construction of Protective Railways.

273. The following statement shows how the above sum of 1,000,0 was applied :—

Famine Relief and Insurance.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
10,2	Famine Relief	5,0	10,5	18,3
556,9	Construction of Protective Railways	...	534,8	529,9
43,1	Construction of Protective Irrigation Works . . .	50,0	40,2	38,3
610,2	TOTAL .	55,0	585,5	586,5

Railway Revenue Account.

236,7	Net charge on account of Indian Midland Railway .	225,5	259,9	274,0
153,1	" " " Bengal-Nagpur Railway .	141,3	154,6	139,5
389,8	TOTAL .	366,8	414,5	413,5
1,000,0	GRAND TOTAL .	421,8	1,000,0	1,000,0

33.—Famine Relief.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
7,3	Central Provinces	...	3	1
2,7	Bengal	5,0	...	1
2	North-Western Provinces	...	10,0	17,9
...	Madras	...	2	2
10,2	TOTAL .	5,0	10,5	18,3

274. The expenditure of 1894-95 in the Central Provinces was incurred in the relief of distress in the Damoh and Saugor Districts and in Bengal in Durbhanga, Tipperah, Cuttack and Faridpur. In the year under review the provision in Bengal proved unnecessary ; in the North-Western Provinces and Punjab the necessity for a provision was not foreseen. The provision made in the Revised Estimate in the North-Western Provinces in view of the threatened scarcity in Bundelkhand proved insufficient.

34.—Construction of Protective Railways.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
556,9	EXPENDITURE	...	534,8	529,9

275. Owing to financial pressure no provision was made in the Estimate for expenditure under this head, but in the Revised provision was made for an expenditure of 534,8.

35.—Construction of Protective Irrigation Works.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	N.-W. PROVINCES AND OUDH —			
8	Betwa Canal	8	8	7

	THIS INCLUDES—			
2	Outlay in England	...	...	...
1	Exchange	...	...	...
3		...	...	...

276. The decrease in the expenditure in 1895-96, as compared with that of 1894-95, was chiefly due to the Rushikulya project in Madras having been nearly completed. The decrease of 11,7, as compared with the Budget Estimate, was due partly to the temporary cessation of work on the Surada reservoir dam and to large savings on some completed works in connection with the Rushikulya project, and partly to the postponement of certain works in connection with the Chankapur tank.

Section G.—CONSTRUCTION OF RAILWAYS (charged against Revenue in addition to that under Famine Insurance).

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
19,6	EXPENDITURE	9,4	9,7	7,7

277. The following are the details of the amount spent under Provincial, nothing having been charged to this head under Imperial, and the explanation of the differences between the Actuals of 1894-95 and 1895-96, as well as between the Actuals and the Budget Estimate of the last-named year:—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	PROVINCIAL.			
	ASSAM—			
8	Jorhat Railway	4,6	1,9	1,0
2	Cherra-Companygunj Railway	...	1	1
1,0	TOTAL .	4,6	2,0	1,1
	MADRAS—			
12,7	Mayavaram-Mutupet Railway	3,8	6,0	5,3
	BOMBAY—			
5,9	Hyderabad-Shadipalli Railway	1,0	1,7	1,3
19,6	GRAND TOTAL, PROVINCIAL .	9,4	9,7	7,7

278. The decrease as compared with the actuals of the previous year was 11,9. The smaller expenditure on the Mayavaram-Mutupet and the Hyderabad-Shadipalli Railways was due to the completion of works. The lapse as compared with the Budget, occurred principally on the Jorhat Railway, (3,6) was due to the programme of the year not having been carried out. The excess of 1,5 in the actuals of the Mayavaram-Mutupet Railway over the Budget Estimate was due to more work having been done than anticipated.

Section H.—RAILWAYS.

279. The following is a general statement of the Revenue Account :—

1895-96.	State Railways.	Guaranteed Railways.	Subsidised Companies.	Miscellaneous.	Total.
GROSS RECEIPTS . .	18,558,7	6,255,1	25,3	...	24,839,1
WORKING EXPENSES .	8,598,9	2,979,9	...	...	11,578,8
Surplus Profits . .	441,9	501,5	...	...	943,4
Interest	7,010,7	3,806,7	...	...	10,817,4
Annuities . . .	3,001,1	...	...	...	3,001,1
Land and Supervision .	...	28,8	18,3	...	47,1
Miscellaneous Railway Expenditure . . .	...	...	...	71,6	71,6
TOTAL EXPENDITURE .	19,052,6	7,315,9	18,3	71,6	26,459,4

NET GAIN OR LOSS TO GOVERNMENT—

1895-96	— 493,9	—1,061,8	+ 7,0	— 71,6	—1,620,3
1894-95	— 737,5	—1,535,7	+25,0	—100,3	—2,348,5
1893-94	— 666,3	— 778,9	+ 13,1	—103,4	—1,535,5
1892-93	—1,041,2	— 805,6	—11,1	+ 10,9	—1,847,0
1891-92	+ 109,5	— 333,2	— 1	— 92,0	— 315,8

280. These figures show that *State Railways* did better than in 1894-95 by 243,6. Unde *Receipts* there was an increase of 406,6 due to general improvement in traffic on most railways but as the *Expenditure* was higher by 163,0 the net result is only 243,6 in excess of th preceding year's figures. There was an increase in *Working Expenses* of 267,0 due to large traffic, and a decrease of 86,8 for interest and annuities owing to higher exchange ; there wa also a decrease in the surplus profits paid to companies of 17,2.

281. The working of *Guaranteed Railways* resulted in a loss of 1,061,8 which is a re duction by 473,9 of the loss of the preceding year. There was an increase of 224,9 in the ne traffic receipts, and the charges for interest decreased by 147,1 due to the rise in exchange.

282. The net loss to Government on the Revenue Account of Railways during the las few years, as shown above, has been considerably affected by the fluctuations in the rate o exchange. If the rate had not varied from that of 1886-87, the amounts of net loss or gai would have been as shown below :—

1895-96	+ 882,2	—232,4	+ 7,0	— 71,6	+ 585,2
1894-95	+ 896,7	—553,4	+25,0	—100,3	+ 268,0
1893-94	+ 316,6	—188,9	+ 13,1	—103,4	+ 37,4
1892-93	— 234,1	—321,7	—11,1	+ 10,9	— 556,0
1891-92	+ 315,5	—210,2	— 1	— 92,0	+ 13,2
1890-91	— 552,5	—262,9	— 4,8	—149,2	— 968,5
1889-90	— 746,0	—529,6	—20,1	—149,1	—1,444,8
1888-89	— 991,1	—682,1	+ 14,7	— 70,6	—1,729,1
1887-88	—1,002,0	—811,4	—18,8	— 51,8	—1,884,0
1886-87	— 375,1	—675,6	—43,6	— 94,4	—1,188,7

283. The opening of the Frontier lines and the commencement of the Bengal-Nagpu Railway increased the net loss considerably in 1887-88 ; but since then, the loss steadily de creased year by year to the end of 1891-92, when the growth of the revenue received a chec owing to a falling off in the export traffic in wheat. In 1893-94 the revenue showed a con siderable improvement over that of the previous year, and, but for the fall in exchange, th results would have been a gain to Government. In 1894-95 there was a further improvement i the revenues, but owing to the prevailing low rate of exchange the year's transactions resulte in a net loss to Government of 2,348,5. In 1895-96 the revenues continued to show stead improvement, and there was a slight improvement in exchange. The year's transactior resulted in a net loss to Government of only 1,620,3 against 2,348,5 in the previous year.

Section H.—RAILWAYS—RECEIPTS.

1894-95. Accounts.		Budget.	1895-96. Revised	Accounts.
21,244,1	RECEIPTS	21,536,8	21,674,3	21,859,2

284. The following are the items comprised in this group. Particulars of them are given in the succeeding statements :—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts
18,152,1	State Railways (gross) . .	18,001,9	18,375,1	18,558,7
3,050,3	Guaranteed Railways (net) .	3,495,0	3,270,0	3,275,2
41,7	Subsidised Companies . .	39,9	29,2	25,3
21,244,1	TOTAL .	21,536,8	21,674,3	21,859,2

285. *State Railways.*—The gross receipts were 406,6 more than those of the previous year. The principal increases occurred on the East Indian, Southern Mahratta, North-Western and South Indian Railways. There was also an appreciable improvement in receipts on the Warora Colliery, Bengal Central, Guntakal-Mysore Frontier and East Coast Railways.

286. On the East Indian, the increase was due chiefly to steady development of traffic, a small portion only being attributable to abnormal causes such as pilgrim traffic. On the Southern Mahratta Railway the increase was due to development of traffic, to heavier bookings of coal from the Nizam's Guaranteed Railway to Dharmavaram and to a better business in salt, wheat, rice and *til* seeds. The increase on the North-Western Railway was due chiefly to the movement of troops for the Chitral Expedition, to the opening of about 100 miles of the Wazirabad-Lyallpur Railway, to large booking of wheat to Karachi in May and June 1895, and to large outstandings against the Military Department at end of the previous year having been adjusted during 1895-96. The increase on the South Indian Railway was due to the festivals at Srirangam and Chidabaram having been exceptionally well attended and to the fact that festivals at Mailam, Tiruvallur, and Pulni were held twice during the year.

287. Compared with the Budget Estimate, there was an improvement of 556,8, of which the East Indian Railway contributes 243,4 owing to steady development of traffic; the Eastern Bengal Railway 131,6 owing to a favourable jute crop; the North-Western Railway 335,7 owing to the Chitral Expedition and the opening of the Wazirabad-Lyallpur Railway; the Oudh and Rohilkhand Railway 24,5 owing to the movements of troops in connection with the Chitral Expedition and a favourable import traffic in grain; the Southern Mahratta Railway 68,7 owing to traffic having been diverted in consequence of breaches on the Great Indian Peninsula Railway and the carriage of troops and baggage for the Chitral Expedition; and the South Indian Railway 63,5 owing to heavy pilgrim traffic. On the other hand there was a decrease on the Rajputana-Malwa Railway of 199,2 owing chiefly to a falling-off of traffic in grain and oil seeds; of 22,1 on the Bengal-Nagpur Railway due entirely to the rice and wheat crops having suffered for want of rain; and of 55,5 on the Indian Midland Railway owing to continued falling-off in goods traffic. The other variations call for no remark.

288. *Guaranteed Railways.*—The net receipts were 224,9 above those of the previous year, this being the result of improvement of earnings on all the lines. The traffic on the Great Indian Peninsula Railway was better than in 1894-95, the improvement being chiefly in the third class passenger traffic. On the Bombay, Baroda and Central India Railway the traffic was better, both under passengers and goods, but chiefly goods under the heads cotton, grain and pulse, metals, timber and coal. On the Madras Railway there was an increase in coaching earnings owing chiefly to the raising of the third class passenger fare from 1½ to 2 pies per mile. The result would have been better but for the serious breaches in September 1895 on the Great Indian Peninsula, Nizam's and East Coast Railways which led to the suspension of through booking over these lines for a period of nearly two months.

STATE RAILWAYS—IMPERIAL.

East Indian Railway.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
1,643,2	Coaching	1,630,0	1,760,0	1,788,6
3,525,0	Goods	3,540,0	3,660,0	3,587,8
80,3	Miscellaneous and Suspense . . .	80,4	80,4	117,4
5,248,5	TOTAL .	5,250,4	5,500,4	5,493,8

289. Compared with the actuals of the previous year, there was an increase in the receipts of 2453. The increase under *Coaching* traffic was due to steady development of traffic, a small portion only being attributable to abnormal causes such as pilgrim traffic. An increase under Intermediate class traffic was especially noticeable and was caused by a radical change in rates. The increase under *Goods* traffic was chiefly due to an improvement in coal traffic, but this was to some extent neutralised by a falling off in the traffic of edible grains, wheat and rice. The increase under *Miscellaneous and Suspense* was due to a smaller number of vehicles having been hired from Foreign railways, realizations of outstanding house-rent from the Government Railway Police, and of a claim against the North Western Railway for supply of water at Umballa, and to increased receipts for landing stores for the Bengal and North-Western and Assam-Bengal Railways. Compared with the Budget Estimate there was an increase of 243,4. The Budget Estimate was based on the actuals of the previous year, and the increase was due to the same causes as led to the increase over the actuals of 1894-95.

Eastern Bengal Railway

(*including Provincial share*).

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
484,0	Coaching	470,0	498,2	510,9
833,4	Goods	736,5	810,0	825,4
121,2	Miscellaneous and Suspense . . .	93,5	81,8	95,3
1,438,6	TOTAL .	1,300,0	1,390,0	1,431,6

290 The receipts were less than those of the previous year by 7,0, owing to the transfer of the Goalundo-Narayanganj steamer service to the India General Steam Navigation Company, Limited. They were better than the Budget Estimate by 131,6 owing to a favourable jute crop.

Rajputana-Malwa Railway.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
709,9	Coaching	705,0	700,0	772,6
1,785,2	Goods	1,809,0	1,580,0	1,537,2
18,0	Miscellaneous and Suspense . . .	36,0	30,0	41,0
2,513,1	TOTAL .	2,550,0	2,310,0	2,350,8

291. Contrasted with the actuals of the previous year the receipts showed a decrease of 162,3 There was an increase of 62,7 under *Coaching* due partly to development of traffic on the Godhra-Rutlam Railway and partly to ordinary fluctuations. There was a decrease of 248,0 under *Goods* traffic: the traffic in grains, oil-seeds and salt showed a falling off of 321,2 whilst there was an increase in raw cotton and general merchandise of 73,5. The increase under *Miscellaneous and Suspense* was due to fluctuations in traffic suspense balances. Compared with the Budget Estimate there was a decrease of 199,2. There was an increase of 67,6 under *Coaching* due to general improvement in traffic. Under *Goods* traffic there was a decrease of 271,8 due to a falling off of traffic in grain and oil-seeds. The increase under *Miscellaneous and Suspense* was due chiefly to the adjustment of supervision charges on construction works of the Nagda-Ujjain Railway, and to the hire of rolling-stock to the Rutlam-Nagda and Oodeypore-Chittore Railways.

Section H.—RAILWAYS—RECEIPTS—*continued.*

North-Western Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
1,030,2	Coaching	1,000,0	1,150,0	1,158,1
2,170,1	Goods	2,080,0	2,149,5	2,216,2
53,9	Miscellaneous and Suspense . . .	70,0	120,5	111,4
3,254,2	TOTAL .	3,150,0	3,420,0	3,485,7

292. The receipts as compared with the actuals of the previous year show an increase of 231,5. There was an increase under *Coaching* traffic of 127,9 due to the movement of troops for the Chitral expedition, and the opening of about 100 miles of the Wazirabad-Lyallpur Railway; also an increase of 46,1 under *Goods* traffic due to large bookings of wheat to Karachi in May and June 1895. There was an increase under *Miscellaneous and Suspense* due to large outstandings against the Military Department at the end of the previous year having been adjusted during 1895-96. The increase of 335,7 over the Budget Estimate was due to movement of troops for the Chitral expedition, the opening of the Wazirabad-Lyallpur Railway, and to a decrease in the suspense balances owing to payments during the year of outstandings against the Commissariat Department at the end of 1894-95.

Oudh and Rohilkhand Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
391,2	Coaching	400,0	408,5	406,5
698,5	Goods	520,0	546,0	538,3
15,6	Miscellaneous and Suspense . . .	30,0	25,5	29,7
1,105,3	TOTAL .	950,0	980,0	974,5

293. Compared with the actuals of the previous year there was a decrease in the receipts of 130,8. There were small increases of 15,3 and 14,1 under *Coaching* and *Miscellaneous and Suspense* respectively due to traffic on these heads having been unfavourable during 1894-95, whilst under *Goods* traffic there was a decrease of 160,2 due to the traffic during the previous year having been exceptionally favourable. During the year under review there was a fair import traffic which ceased with the advent of the monsoon, but on the other hand the traffic towards the close of the year was unfavourably affected owing to uncertainty as to the coming crops consequent on the failure of the winter rains. Compared with the Budget Estimate there was an increase of 24,5, of which 6,5 occurred under *Coaching* traffic due to the movements of troops in connection with the Chitral expedition, and 18,3 under *Goods* traffic due to a favourable import traffic in grain and to the carriage of stores in connection with the Chitral expedition.

Bengal-Nagpur Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
135,1	Coaching	135,0	155,5	159,3
483,9	Goods	490,0	441,0	443,1
59,9	Miscellaneous and Suspense . . .	55,0	48,5	55,5
679,2	TOTAL .	680,0	645,0	657,9

294. Compared with the actuals of the previous year there was a decrease in the earnings of 21,3. There was an increase of 23,9 under *coaching* traffic due to pilgrim traffic to Allahabad and Benares, despatches of emigrant coolies, and increase in parcels traffic. There was a decrease of 40,8 under *Goods* traffic, due chiefly to dullness of business in Calcutta and Bombay, to bad linseed and wheat crops, and specially to a bad rice crop. The decrease under *Miscellaneous and Suspense* was due to a smaller number of vehicles having been hired by the East Indian Railway, and to a falling off under "Mileage and demurrage" of vehicles consequent on the decline in goods traffic. Compared with the Budget Estimate there was a decrease of 22,1 which occurred under *Goods* traffic, due entirely to the rice and wheat crops having suffered for want of rain. The increase under *Coaching* traffic was due to the same causes that led to the increase over the actuals of the previous year.

Section H.—RAILWAYS—RECEIPTS—*continued.*

Bengal and North-Western and Tirhoot Railways.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
232,3	Coaching	226,4	230,0	231,5
276,1	Goods	275,0	268,2	270,4
58,9	Miscellaneous and Suspense	63,6	61,8	65,3
567,3	TOTAL	565,0	560,0	567,2

295. Compared with the actuals of the previous year, there was a decrease of only 1, which does not call for explanation. The increase of 2,2, as compared with the Budget, was due chiefly to the development of *Coaching* traffic.

Indian Midland Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
204,5	Coaching	215,0	220,0	219,3
349,1	Goods	378,0	273,2	254,8
—25,9	Miscellaneous and Suspense	—43,0	—23,2	—19,6
527,7	TOTAL	550,0	470,0	454,5

296. The earnings, as compared with those of the previous year, showed a decrease of 73,2, which was due entirely to a falling off in *Goods* traffic. There was an increase of 14,8 under *Coaching* Traffic, due to improvement in passenger traffic and to other Military traffic in connection with the Chitral expedition. The decrease of 94,3 in *Goods* traffic was due chiefly to the abnormal import of wheat and food grains in the previous year. The traffic in oil-seeds also fell off owing to poor crops and small demands for export. During the previous year too the earnings had been considerably augmented by heavy consignments of materials for the Bina-Guna and Bhopal-Ujjain Railways. Compared with the Budget the actuals were less by 95,5 due to continued falling off in *Goods* traffic.

Southern Mahratta Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
223,3	Coaching	219,6	255,0	255,6
359,7	Goods	363,7	387,0	390,2
10,9	Miscellaneous and Suspense	11,7	13,0	17,9
593,9	TOTAL	595,3	655,0	663,7

297. Compared with the actuals of the previous year, there was an increase in the receipts of 69,8 due to development of traffic; to the diversion of the Great Indian Peninsula Railway traffic consequent on the breaches on that line in the latter part of 1895; to heavier bookings of coal from the Nizam's Guaranteed Railway to Dharmavaram for the South Indian Railway and to Goribidnur for Messrs. Arbuthnot & Co. to a better business in salt, wheat, rice and *til* seeds, and to the adjustment of arrear charges for rent of joint buildings at Castle Rock, and charges for commission received from the Kolhapur State Railway for stores purchased in England for that line, and interest charges on the customs shed and sidings at Castle Rock for the period ending December 1895. The increase of 68,7, as compared with the Budget Estimate, was due to traffic having been diverted in consequence of breaches on the Great Indian Peninsula Railway and to the carriage of troops and baggage for the Chitral expedition and partly to improvement in traffic.

South Indian Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	EARNINGS—			
439,9	Coaching	450,0	473,8	474,7
381,5	Goods	374,8	417,0	418,8
9,9	Miscellaneous and Suspense	15,2	9,2	10,0
831,3	TOTAL	840,0	900,0	903,5

Section H.—RAILWAYS—RECEIPTS—*continued.*

South Indian Railway—*continued.*

298. Compared with the actuals of the previous year there was an increase in the receipts of 72,2. The increase under *Coaching* traffic was due to the festivals at Srirangam and Chidambaram having been well attended and to the fact of festivals at Mailam, Tiruvallur and Pulni having occurred twice during the year. The increase in *Goods* traffic was due to terminal charges having been in operation throughout the year as against only three months during the preceding year. The increase over the Budget Estimate of 63,5 was due to the same causes that led to the increase over the actuals of the previous year.

Other State Railways—Imperial.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
751,8		890,0	828,8*	867,3

299. Compared with the actuals of the previous year, there was an increase of 115,5, of which 42,5 was due to the opening of a portion of the Assam-Bengal Railway. There was an increase of 53,5 on the East Coast Railway due to the opening of the Berhampore-Khurda Road Section. On the Mysore Railway there was an increase of 14,3, due partly to the diversion of traffic from the Great Indian Peninsula Railway, and partly to the booking of race horses *viâ* Bangalore, and to improved receipts in jawar, grain, pulse and salt, and to the carriage of pipes from Bombay for the Hessargutta water-works at Bangalore. On the Guntakal-Mysore Frontier Railway there was an increase of 6,4 due to an improvement in through bookings from Bangalore and to large consignments of coal and rice and of unrefined sugar to Goribidnur for the factory worked by Messrs. Arbuthnot & Co. There was an increase of 9,4 on the Bengal Central Railway due to an increase in passenger and jute traffic. There were also increases of 8,5, 2,6, and 2,6 on the Mu Valley Railway, Warora Colliery, and Dhond and Manmad Railway respectively, whilst on the other hand there were decreases of 2,0, 2,6, 2,4, and 17,3 on the Bhopal and Wardha Coal Railways, Umaria Colliery, and Lucknow-Bareilly Railway respectively.

300. The actuals were less than the Budget Estimate by 22,7 There were increases aggregating 33,0, of which 1,1, 11,1, 1,7, 10,7, 7,6, and 8 occurred on the Warora Colliery, the Bengal Central, Guntakal-Mysore Frontier, Mysore, Assam-Bengal, and Dhond and Manmad Railways respectively, whilst the decreases amounted to 55,7, and occurred 7 on the Palanpore-Deesa, 3,3 on the Bhopal, 4,6 on the Wardha Coal, 5,4 on the Umaria Colliery, 14,2 on the Mu Valley, 3,6 on the Lucknow-Bareilly, and 23,9 on the East Coast Railways.

* Excluding the estimated Imperial share of net receipts of the Burma Railway amounting to 5,0.

STATE RAILWAYS—PROVINCIAL.

Burma Railway.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.

Gross Receipts.

303. The increase of 131,0, as compared with the actuals of the previous year, was due principally to an improvement on the Bombay, Baroda and Central India Railway, owing to the development of traffic under both Passengers and Goods. The principal commodities in respect of which the goods traffic improved are cotton, grain and pulse, metals, provisions, timber and coal. On the Great Indian Peninsula Railway the earnings were better by 53.2, but this increase was more than counterbalanced by smaller receipts under suspense, and the year's transactions resulted in a decrease in gross receipts of 88,4. On the Madras Railway there was an improvement of 63,7, due principally to the enhancement of 3rd class passenger fares. The improvement would have been more, but for the serious breaches in September 1895 on the Great Indian Peninsula, Nizam's, and East Coast Railways, which led to the suspension of through booking over these lines for nearly two months.

304. The total gross receipts have fallen short of the Budget Estimate by 304,9, as under:—

Bombay, Baroda and Central India Railway	+200,9
Great Indian Peninsula Railway	—548,6
Madras Railway	+42,8

305. Of the increase on the Bombay, Baroda and Central India Railway, 47,2 occurred under Coaching traffic, 130 5 under Goods traffic, and 23,2 under Sundries, due to a greater improvement in earnings than was anticipated when the Budget Estimate was framed; the decrease on the Great Indian Peninsula Railway occurred chiefly under Goods traffic, and was due to the revival of traffic which was anticipated when the Budget was framed not having taken place. The increase on the Madras Railway was due to the improvement in earnings under both Coaching and Goods, owing to the favourable results obtained by the increase of the 3rd class passenger fare and to heavy traffic in food-grains, iron, salt, hides and skins, oils, and provisions, coal and timber.

Working Expenses.

306. The total working expenses were less than those of the previous year by 93,9, as under:—

Bombay, Baroda and Central India Railway	+57,2
Great Indian Peninsula Railway	—143,6
Madras Railway	—9,5

307. The increase on the Bombay, Baroda and Central India Railway was due chiefly to heavy outlay in the Locomotive and Traffic Departments, on account of increased consumption of coal and running stores, larger renewals and repairs of engines, and engagement of extra station staff to meet heavy traffic. The decrease on the Great Indian Peninsula Railway was due partly to reduced outlay on maintenance owing to smaller issues of permanent-way materials at lower rates, and to the suspension of outlay on platelayer's huts. Reduced outlay in the Carriage and Wagon and Traffic Departments also contributed to the decrease. The former was due to the curtailment of repairs to coaching and goods vehicles, to the lower price of new iron-work for renewal of covered goods wagons, to smaller issues

Section H.—RAILWAYS—RECEIPTS—*concluded.*

XXVII.—Guaranteed Companies—Net Traffic Receipts—*continued.*

of new materials, and to the use of second-hand materials; and the latter, to the reduction of station and train staff, and to the absence of staff on compulsory leave. The decrease on the Madras Railway was due chiefly to less repairs to vehicles than in 1894-95, and to a large reduction in loss by exchange due to the smaller issues of English stores for repairs.

308. The actual expenses were less than the provision made in the Budget Estimate by 85,1, as follows:—

Bombay, Baroda and Central India Railway	+33,6
Great Indian Peninsula Railway	—104,2
Madras Railway	—14,5

309. The increase on the Bombay, Baroda and Central India Railway was due to heavy expenditure in the Locomotive Department consequent on the increased train mileage. The reduction on the Great Indian Peninsula Railway was due to the large deficiency in the traffic as estimated for when the Budget was prepared. The decrease on the Madras Railway was due to smaller outlay in the Engineering and Carriage and Wagon Departments owing to a saving under all heads of maintenance of ways, works and stations, to the proportion chargeable to the Kolar Gold Fields Railway being more than anticipated, and to less repairs and renewals of vehicles having been undertaken than was provided for. This saving was absorbed to a certain extent by the expenses of the Locomotive Department being higher than the provision, owing to the increased outlay on fuel, maintenance, and renewal of engine and machinery and loss by exchange.

XXVIII.—Subsidised Companies (Repayment of Advances of interest).

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
	INDIA—			
41,7	Mysore Railway	39,9	29,2	25,3

310. The credit under India represents the amount recoverable from the Mysore Durbar in settlement of the net charge for interest paid to the Southern Mahratta Railway Company in connection with the Mysore Railway. The receipts, working expenses, and interest charges of the Mysore Railway are recorded in the accounts under their respective railway heads, and the recovery of the net charge for interest (*i.e.*, interest on capital expended, *minus* net receipts) from the Mysore Durbar is credited under this head. The settlement with the Mysore Durbar is effected outside the Railway accounts. The details of the amounts recoverable are given below:—

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
	INDIA—			
	MYSORE RAILWAY—			
87,9	Interest on Capital	88,0	84,2	84,5
9,0	*Less*—Charge for interest borne by Government for the unexpended balance of the Capital retained in its hands	8,1	8,0	7,9
78,9		79,9	76,2	76,6
37,2	Net receipts	40,0	47,0	51,3
41,7	Net charge for interest recoverable from the Mysore Durbar	39,9	29,2	25,3

Section H.—RAILWAYS—EXPENSES.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
23,592,6	EXPENDITURE . .	23,685,0	23,458,0	23,479,5

311. These figures comprise the expenditure under the following heads:—

	STATE RAILWAYS—			
8,791 0	Working Expenses .	8,697,0	9,033,7	9,040,8
5,299,0	Interest on debt .	5,464,7	5,387,8	5,391,0
3,119,3	Annuities . . .	3,127,5	2,991,3	3,001,1
401,0	Interest on Advances .	401,3	387,5	385,7
1,279,3	Interest on Capital Deposits	1,281,8	1,230,2	1,234,0
	GUARANTEED COMPANIES—			
632,2	Surplus Profits, etc. .	618,0	532,3	530,3
3,953,8	Interest . . .	3,964,6	3,794,6	3,806,7
	SUBSIDIZED COMPANIES—			
16,7	Land, etc. .	30,1	25,5	18,3
...	Advances of Interest .	...	...	...
100,3	MISCELLANEOUS RAILWAY EXPENDITURE .	100,0	75,1	71,6
23,592,6		23,685,0	23,458,0	23,479,5

312. The actuals were less than those of the previous year by 113,1 and than the Budget Estimate by 205,5. The charges on account of exchange were lower by 407,7 and 421,7, chiefly on account of a rise in the market rate.

313. The decrease under *State Railways*, compared with the actuals of the previous year, occurred chiefly in Annuities, Interest on Advances, and Interest on Capital Deposits, and was due to the rise in exchange. The increase in Working Expenses of State Railways was due to the larger traffic worked, and that in Interest on debt resulted from the progress of State Railway construction.

314. Under *Guaranteed Companies* there was a decrease of 101,9 in Surplus Profits, etc., due to a fall in traffic on the Great Indian Peninsula Railway. There was also a decrease in Interest of 147,1 due entirely to the more favourable rate of exchange.

315. The decrease compared with the Budget Estimate occurred chiefly in Annuities, Interest on Advances, and Interest on Capital Deposits, due to a rise in exchange, also in the Surplus Profits and Interest of Guaranteed Companies. The differences in Surplus Profits and Interest were due to the same causes which led to the decrease as compared with the actuals of the previous year.

38.—State Railways—Working Expenses.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
8,791,0	EXPENDITURE . .	8,697,0	9,033,7	9,040,8

316. The details of these amounts by individual railways are given on page 88. The explanation of the increases over the actuals of the previous year and over the figures of the Budget Estimate is given below:—

STATE RAILWAYS—IMPERIAL.

East Indian Railway

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
462,2	Maintenance	438,0	442,1	461,0
416,8	Locomotive	411,1	503,4	513,8
144,1	Carriage and Wagon	133,5	147,3	148,5
297,3	Traffic	295,5	311,9	314,1
245,7	General, Miscellaneous and Suspense . . .	261,0	271,0	266,6
1,566,1	TOTAL WORKING EXPENSES .	1,540,0	1,675,7	1,704,9
192,8	Share of surplus profits paid to the Company, and contribution to Provident Fund	160,0	174,3	179,6
1,758,9	TOTAL .	1,700,0	1,850,0	1,884,5

Section H.—RAILWAYS—EXPENSES—*continued.*

East Indian Railway.

317. The increase under working expenses, as compared with the actuals of the previous year, was 138,8 due to the higher price of coal, to larger consumption of coal and stores owing to increased train-mileage and engine renewals, twenty-six engines having been renewed as compared with sixteen in the previous year, to payment of 15 per cent. of salary in lieu of Exchange Compensation Allowance to train and station staff which was not sanctioned in 1894-95, and to a special credit during the previous year of 43,2 on account of rebate from the Government Telegraph Department in terms of the Telegraph Committee's report. Against these increases there was a decrease under Electric Telegraph due to less expenditure consequent on the reductions sanctioned on the report of the Special Committee that investigated these charges; to decreased payments for hire of vehicles, and mileage and demurrage of Foreign stock. The decrease in the payments to the company on account of their share of surplus profits was due to the lower rate of exchange at which the fixed sterling charges for annuities and interest were converted. The increase over the Budget Estimate was due, in addition to the causes which led to the increase over the actuals of the previous year, to increased expenditure on improvement of fencing and strengthening bridges, to more vehicles having been re-built, and to heavy replacements of wheels for increasing the carrying capacity of stock. The increase under Company's share of surplus profits and contribution to Provident Fund was due to increased earnings.

Eastern Bengal Railway.

1894-95. Accounts.		Budget	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
125,6	Maintenance	132,5	123,9	121,7
126,4	Locomotive	126,6	131,8	131,2
55,5	Carriage and Wagon	56,5	58,0	54,9
126,8	Traffic	124,0	128,0	129,3
137,9	General, Miscellaneous and Suspense	130,4	125,8	123,9
572,2	TOTAL	570,0	567,5	561,0

318. The expenditure was less than that of the previous year by 11,2 and than the Budget Estimate by 9,0 owing to the transfer of the Goalundo-Narayanganj steamer service to the Indian General Steam Navigation Company, Limited.

Rajputana-Malwa Railway.

1894-95. Accounts.		Budget	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
158,4	Maintenance	170,0	170,0	178,3
431,6	Locomotive	408,7	430,0	421,9
98,9	Carriage and Wagon	105,1	103,0	104,8
158,5	Traffic	154,4	162,5	161,5
144,3	General, Miscellaneous and Suspense	141,8	137,8	148,5
991,7	TOTAL WORKING EXPENSES	980,0	1,003,5	1,015,0
167,8	Share of surplus profits paid to the Bombay, Baroda and Central India Railway Company, and contribution to Provident Fund	160,0	149,0	146,5
1,159,5	TOTAL	1,140,0	1,152,5	1,161,5

319. Compared with the actuals of the previous year the working expenses showed an increase of 23,3. There was a net increase of 19,9 under *Maintenance* due to larger outlay on relaying; to carriage of more rails and sleepers; to a credit during 1894-95 for arrear over-charges on stores, and to the entire length of the Godhra-Rutlam Railway having been worked throughout the year; against these increases, however, there were small decreases under general superintendence and repairs of stations and buildings. There was a decrease of 9,7 under *Locomotive* expenses due chiefly to less train mileage run. There was an increase of 5,9 under *Carriage and Wagon* expenses due to heavier rebuilding operations in connection with repairs and renewals of vehicles; to a special credit in 1894-95 for over charges on stores; to more new minor works having been carried out, and to the entire length of the Godhra-Rutlam Railway being open throughout the year. The decrease in *Surplus profits, etc.*, was due to the large falling off in traffic. Compared with the Budget Estimate there was an increase of 35,0. There was an increase under *Maintenance* of 8,3 due to heavier renewals of permanent-way and repairs of bridges. The increase of 13,2 under *Locomotive* expenses was due to insufficient provision having been made for fuel and maintenance and renewals of Locomotive engines and machinery. There was an increase of 7,1 under *Traffic*

Section H.—RAILWAYS—EXPENSES—*continued.*

Rajputana-Malwa Railway—*continued.*

expenses due chiefly to insufficient provision for general superintendence, station staff, fuel, lighting, water, general stores, printing and stationery. The decrease in the *Share of surplus profits, etc.*, was due to the net result of the year's working not having proved as satisfactory as was anticipated at the time the Budget Estimate was framed.

North-Western Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
630,5	Maintenance	590,5	580,0	558,9
670,6	Locomotive	647,0	720,0	698,8
199,5	Carriage and Wagon	184,3	185,0	173,1
251,7	Traffic	259,8	260,0	264,6
151,1	General, Miscellaneous and Suspense	168,4	170,0	181,5
1,903,4	TOTAL	1,850,0	1,915,0	1,876,9

320. The working expenses proper were less than the charges for the previous year by 55,1, but owing to fluctuations in outstanding charges and suspense items, the net saving was 26,5. There was a decrease in *Maintenance*, charges for renewals, flood damages and strengthening bridges were not as heavy as in the preceding year; there was an increase in *Locomotive* expenses, and in *Traffic* expenses due to heavier traffic; there was a decrease in *Carriage and Wagon* expenses mainly in repairs and renewals of stock. Compared with the Budget Estimate there was an increase due chiefly to fluctuations in suspense balances.

Oudh and Rohilkhand Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
146,8	Maintenance	117,5	166,0	166,3
141,7	Locomotive	136,0	126,0	123,2
54,0	Carriage and Wagon	56,0	68,5	67,8
78,2	Traffic	75,7	80,0	79,6
61,5	General, Miscellaneous and Suspense	4 ,8	59,5	63,9
482,2	TOTAL	435,0	500,0	500,8

321. Contrasted with the actuals of the previous year, the expenditure showed an increase of 18,6, due chiefly to more extensive renewals of rails, special renewals of weak girders, and to renewals of goods vehicles. There were decreases under *Locomotive* and *General*, and *Miscellaneous* due to the smaller traffic worked, and to reduced payments on account of mileage of foreign stock, the result of reduced import traffic during the year, whilst there was an increase under *Suspense*.

322. The increase over the Budget Estimate was due to special renewals of rails, weak girders and goods vehicles.

Bengal-Nagpur Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
99,9	Maintenance	95,0	83,5	83,4

18,6	Carriage and Wagon	22,7	26,0	25,4
51,4	Traffic	52,5	53,0	54 0
78,9	General, Miscellaneous and Suspense	73,8	79,5	78,1
334,9	TOTAL	335,0	330,0	329,5

323. Compared with the actuals of the previous year there was a decrease under *Maintenance* due to heavy payments during 1894-95 on account of arrears of Exchange Compensation claims, repairs of stations and buildings, staff quarters, and ballast train charges. The increase under *Locomotive* expenses was due to a rise in the price of coal and to carriage of more coal to keep up the stock which had run low. The increase under *Carriage and Wagon* was due to replacements of bearing springs and broken axles and special repairs to goods vehicles. The increase under *Traffic* was due to annual increments to staff and payments of arrear printing and stationery charges appertaining to the previous year which were under dispute. Compared with the Budget Estimate there was a decrease under *Maintenance* due chiefly to delaying of 5 miles more of the Katni-Umaria section not having been taken up. The decrease under *Locomotive* was due to less expenditure having been incurred on running expenses, fuel, oil, tallow, etc., consequent on reduced train mileage. The differences under the other heads between the Budget and actuals were due to the same causes that produced the differences between the actuals of the two years.

Section H.—RAILWAYS—EXPENSES—*continued.*

Bengal and North-Western and Tirhoot Railways.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
58,7	Maintenance	55,0	60,5	61,7
47,4	Locomotive	47,2	49 0	50,8
13,4	Carriage and Wagon	12,7	1 .7	15,4
45,5	Traffic	43,1	42,5	42,3
69,0	General, Miscellaneous and Suspense	67,0	72,3	79,0
177,4	Share of net earnings paid to the Company, and contribution to Provident Fund	177,5	205,0	183,7
411,4	TOTAL .	402,5	445.0	437,9

324. The increase, as compared with the actuals of the previous year was 26.5, due partly to relaying work and the renewal of goods wagons having been carried out during 1895-96 and to a rise in the price of coal. There was also an increase of 11,3 under *Company's share of net earnings* due to 25 per cent. of the gross earnings of the combined system for January 1896 having been paid to the Company in 1895-96 in terms of the new arrangement come to by the Government of India. Compared with the Budget Estimate there was an increase of 6 7 under *Maintenance*, due chiefly to the expenditure on relaying 110 miles with 50 lbs. rails, and to the erection of the Gogra temporary Pile Bridge not having been anticipated. Under *Locomotive* expenses the increase of 3 6 was due to a rise in the price of coal. There was an increase of 2,7 under *Carriage and Wagon* expenses due to the erection of sixty iron-covered goods wagons in replacement of old wooden ones which was not estimated for. Under *General, Miscellaneous* and *Suspense* there was an increase of 12,0 due to under-estimates of the Home and Engineering charges and of working vessels and fuel, to law expenses incurred in connection with the Bunar Chák Embankment case, and to the write off of amount recoverable from Messrs. Smith Rodwell & Co.

Indian Midland Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
80,1	Maintenance	86,2	67,0	66,0
97,8	Locomotive	104,0	102,3	100,5
25,3	Carriage and Wagon	26,0	25,7	25,2
50,2	Traffic	51,5	46,4	47,0
47,0	General, Miscellaneous and Suspense	45,8	46,4	46,2
300,4	TOTAL .	313,5	287,8	284,9

325. The actuals were less by 15.5 than those of the previous year. Under *Maintenance* there was a saving of 14.1 due to decreased expenditure on extraordinary renewals, permanent way, and painting and re-timbering bridges Under *Locomotive* expenses there was an increase of 2,7 due to heavier repairs of old stock and to the cost of thoroughly repairing six engines sold to the East Coast Railway. Under *Traffic* expenses there was a decrease of 3,2 due to the lighter traffic dealt with. As compared with the Budget Estimate there was a lapse of 28,6 due to excess provision having been made under *Maintenance* for expenditure on extraordinary renewals, under *Locomotive* expenses for fuel, and under *Traffic* expenses for station and train staff.

Southern Mahratta Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.

Section H.—RAILWAYS—EXPENSES—*continued.*

Southern Mahratta Railway—*continued.*

326. The increase in the actuals, as compared with those of the previous year, occurred chiefly in the *share of net earnings paid to the Company* due to improvement in earnings. The decrease under *Maintenance* was due to special renewal of sleepers having been less extensive than in the previous year. The increases under *Locomotive* and *Carriage and Wagon* expenses were due to increased train mileage run and heavier repairs to engines and wagons. The increase under *Traffic* expenses was due to the entertainment of additional staff, to the grant of mileage allowances to guards instead of *batta*, and to additional outlay on oil and miscellaneous stores for the running of night trains. The increase under *General, Miscellaneous* and *Suspense* was due to the provisional adjustment of pontage charges for the Kistna bridge traffic for the four half years ending December 1895. The increase over the Budget Estimate was due to a larger *share of net earnings paid to the Company.*

South Indian Railway.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
	WORKING EXPENSES—			
99,9	Maintenance	125,4	112,3	114,6
174,1	Locomotive	180,0	191,0	193,1
60,5	Carriage and Wagon	55,6	62,4	63,8
70,7	Traffic	77,6	73,3	72,9
66,1	General, Miscellaneous and Suspense	69,2	71,0	70,4
471,3	TOTAL WORKING EXPENSES .	507,8	510,0	514,8
22,2	Share of net receipts paid to the Company, and contribution to Provident Fund	17,2	28,0	27,5
493,5	TOTAL .	525,0	538,0	542,3

327. The working expenses, compared with the actuals of the previous year, showed an increase of 43,5. The increase under *Maintenance* was due to a larger number of miles having been renewed with 50 lbs. rails. The increase under *Locomotive* expenses was due to increased train mileage, and to increase in carriage of revenue stores. The increase under *Carriage and Wagon* expenses was due to reconstruction of 65 third class carriages; on the other hand there was a saving on repairs and renewals of goods vehicles. The increase under *Traffic* expenses was due to extra lights provided at stations, to opening of a new trial station at Serndanur, to increased supplies of forms and tickets and to the entertainment of extra clerical staff for the Traffic Manager's and Assistant Traffic Manager's offices. The increase under *General, Miscellaneous* and *Suspense* was chiefly due to the payment to the late Agent, of gratuity and furlough allowances. The increase in *share of net receipts paid to the Company and contribution to Provident Fund* was due to increased net earnings. Compared with the Budget Estimate there was a net increase of 7,0 in working expenses. The decrease under *Maintenance* was due to changes in establishment, to the full number of subordinates not having been employed, and to the postponement of the work of cross sleepering the 30', 50' and 70' feet bridges. The increases under *Locomotive* and *Carriage and Wagon* expenses were chiefly due to increased train mileage.

Other State Railways—Imperial.

1894-95. Accounts.	Budget.	1895-96. Revised.	Accounts.
559,5	634,8	621,2	632,3

328. The actuals exceeded those of the previous year by 72,8. The increased mileage worked, due to the opening of sections of the Assam-Bengal and East Coast Railways, accounted for 32,7 and 41,2 respectively. On the Mu Valley Railway there was an increase of 12,1 and on the Bengal Central Railway of 6,1 due to increased expenditure consequent on increased earnings, whilst there was an increase of 3,7 in the amount paid on account of surplus profits and share of net earnings on the Mysore State Railway. On the other hand the chief decreases were 7,9 on the Warora Colliery due to reduction in establishment, to decrease in working expenses owing to increase in the coal brought out of the broken workings and to decrease in coal consumption; to decrease in repairs and renewals of all machinery, chiefly pit tubs, and to a credit in the previous year on account of value of three Warren girders transferred to the Assam-Bengal Railway. On the Lucknow-Bareilly Railway there was a decrease of 5,6 due to general dullness of traffic, and to loss of the special diverted traffic carried in the previous year. The actuals fell short of the Budget Estimate by only 2,5.

Section H.—RAILWAYS—EXPENSES—*continued.*

State Railways—Provincial.

Burma Railway.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.

63,5	Traffic			63,0
37,3	General, Miscellaneous and Suspense			44,9
350,3	TOTAL	322,5	340,0	347,4

329. The working expenses of the year were less than the actuals of the previous year, by only 2,9. Compared with the Budget Estimate there was an increase of 24,9 due to increased traffic. There was a decrease under *Maintenance* due to reduction in subordinate staff and to less work being done in conservancy of rivers and repairs to stations and buildings than was budgetted for. There were increases under *Locomotive*, *Carriage and Wagon* and *Traffic* and *Miscellaneous Expenses.*

Other Railways—Provincial.

1894-95. Accounts.	1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
31,8	33,7	36,7	37,7

330. The actuals were 5,9 in excess of those of the previous year; of this excess 1,5, 2,0 and 2,2 occurred on the Jorhat, Hyderabad-Shadipalli and Mayavaram-Mutupet Railways, respectively, due to increased expenses consequent on increased earnings. Compared with the Budget and Revised Estimates the variations were small.

38.—State Railways.

5,299,0	TOTAL INTEREST ON DEBT	5,464,7	5,387,8	5,391,0

331. There was a decrease in the actuals as compared with those of the previous year, and with the Budget Estimate in charges for exchange owing to the rise in the rate of exchange. Omitting exchange the charges approximate closely to the Budget and Revised Estimates, but exceed those of the previous year by 165,4, as the charges for interest on capital found by Government are increasing year by year with the progress of construction.

Section H.—RAILWAYS—EXPENSES—*continued.*

Interest on Capital found by Government.

332. The following statement shows how the interest charged in the accounts of 1895-96 has been computed :—

CAPITAL EXPENDITURE ON WHICH INTEREST IS CHARGEABLE.

	E. I. Ry. 3½ per cent.		E. B Ry.	Other State Railways.	TOTAL.
Capital Expenditure at end of 1894-95 . .	...	3,968.0	7,128,1	74.127,5	85,223,6

182,1	EXCHANGE	182,4	165,1	166 3
401,0	TOTAL .	401,3	387,5	385,7

Interest.

334. As explained in previous reports, the capital required by the above Companies has from 1889-90 been advanced by the Secretary of State from funds raised under the provisions of the Oudh and Rohilkhand Railway Purchase Act, and the interest chargeable against the Companies on the advances is shown under this head. The actual amounts in sterling agreed absolutely with those of the previous year, the Budget and Revised Estimates. The figures under "India" represent interest on the expenditure incurred in India on the extensions of the Bengal-Nagpur and Indian Midland Railways which was met from rupee advances.

Exchange.

335. The decrease in exchange was due to the more favourable rate of exchange which obtained.

Section H.—RAILWAYS—EXPENSES—*continued.*

Interest on Capital Deposited by Companies.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts
	INTEREST ON OVERDRAWN CAPITAL—

714,0		711,9	716,0	715,9
565,3	EXCHANGE	566,9	514,2	518,1
1,279,3	TOTAL	1,281,8	1,230,2	1,234,0

Interest.

336. The increase in the sterling payments over the actuals of the previous year occurred under the Assam-Bengal Railway, consequent on the additional capital paid up by the Company; and under the East Indian Railway on account of capital raised by the issue of debentures, authority for which was granted by a recent Act of Parliament.

Exchange.

337. The decrease in the actuals compared with those of the previous year and with the Budget Estimate was due to a rise in the rate of exchange.

39.—Guaranteed Companies—Surplus Profits, Land and Supervision.

€32,2	GRAND TOTAL	618,0	532,3	530,3

Section H—RAILWAYS—EXPENSES—*continued.*

39.—Guaranteed Companies—Surplus Profits, Land and Supervision—*continued.*

SURPLUS PROFITS.

338. The decrease, as compared with the actuals of the previous year and the Budget Estimate, was due to a fall in traffic on the Great Indian Peninsula Railway. The difference would have been more, but for the increase in the share of surplus profits paid to the Bombay, Baroda and Central India Railway Company consequent on the increased traffic and for the fact of the Madras Railway Company having earned surplus profits for the first time.

Land and Supervision.

339. The decrease, as compared with the actuals of the previous year, was due chiefly to smaller payments for land acquired in connection with railways in Bombay. Smaller payments for land and smaller credits realised from the sale-proceeds thereof in Madras have to a certain extent contributed to the decrease. The lapse on the Budget and Revised Estimates was due to the causes stated above, and to no payments having been made against the specific provision for land required at the stations of Kurla, Mumbra, and Godhra, and for doubling the line between Virar and Dáhánu.

39.—Guaranteed Companies—Interest.

1894-95. Account.		Budget.	1895-96. Revised.	Accounts.
	INTEREST—			
64	India	2,2	3,2	2,8
2,154.7	England	2,161,3	2,161,6	2,161,6
2,161.1		2,163,5	2,164,8	2,164,4
1,792,7	EXCHANGE	1,801,1	1,629,8	1,642,3
3,953,8	TOTAL	3,964,6	3,794,6	3,806,7

340. The decrease in the charges in India, compared with those of the previous year, was due to the Bombay, Baroda and Central India Railway not having overdrawn its capital to the extent it did in 1894-95. The decrease under exchange, compared with the actuals of 1894-95 and the Budget Estimate, was due to the more favourable rate of exchange.

40.—Subsidised Companies—Land Subsidy and Interest.

1894-95. Accounts.		Budget	1895-96. Revised.	Accounts.
	IMPERIAL—			
7	Bengal and North-Western Railway—(*Land*)	17,7	12,5	6,6
7	Delhi-Umbaila-Kalka Railway—(*Land*)	3	7	6
12	Nilgiri Railway—(*Land*)	2,0	1,0	9
...	South Behar Railway—(*Land*)	...	1	1
...	Ahmedabad-Parantij Railway (*Land*)	...	1,0	...
2,6	TOTAL IMPERIAL	20,0	15,3	8,2
	PROVINCIAL—			
4,0	Rohilkhand Kumaon Railway—(*Subsidy*)	...	...	...
10,1	Dibru Sadiya Railway—(*Subsidy and Audit*)	10,1	10,1	10,0
...	Dooars Railway—(*Land*)	...	1	1
14,1	TOTAL PROVINCIAL	10,1	10,2	10,1
16,7	GRAND TOTAL	30,1	25,5	18,3

341. Compared with the actuals of the previous year there was a net increase of 1,6. There was more land acquired for the Bengal and North-Western Railway and larger payments were made for compensation. The decrease of 4,0 on account of subsidy to the Rohilkhand and Kumaon Railway was due to the fact that the annual payment ceased on the 31st December 1894 in terms of the contract with the Company. The small outlay, as compared with the Budget, was due chiefly to short payments of compensation in the districts of Gonda, Baraich, and Barabanki for land acquired for the Gogra bridge and approaches and the Gonda-Balrampur and Tulsipur Branch.

100,3	TOTAL IMPERIAL AND PROVINCIAL	100,0	75,1	71,6

342. The total outlay under *Imperial* was less than that of the previous year by 29,4. No useful mparison can be made between the outlay of the two years by individual projects, as surveys are being mpleted and new surveys are being started every year. During the year new surveys were taken in nd, and others for which provision was made in the Budget Estimate were not commenced, the result ing that the expenditure was less by 28,4 than the Estimate.

Section J.—IRRIGATION.

343. The following is a general summary of the results under the head Irrigation :—

1894-95 Accounts.		Budget.	1895-96. Revised	Accounts.
	Major Works—			
1,370,6	Direct Receipts	1,350,3	1,265,2	1,279,4
776,1	Land Revenue due to Irrigation .	929,7	856,1	821,7
2,146,7	TOTAL RECEIPTS .	2,280,0	2,121,3	2,101,1
799,8	Working Expenses . .	813.2	791,4	787,3
1,194,1	Interest	1,222,4	1,222,6	1,222,4
1,993,9	TOTAL EXPENDITURE .	2,035,6	2,014,0	2,009,7
152,8	Net Receipts (Major Works) .	244,4	107,3	91,4
	Minor Works and Navigation—			
192,1	Receipts (excluding Land Revenue)	204,3	203,8	198,9
958,9	Expenditure	1,014,9	1,000,3	966,6
766,8	Net Expenditure (Minor Works)	810,6	796,5	767,7
614,0	Net Expenditure (Irrigation) .	566,2	689,2	676,3

344. The final net result was worse than the actuals of the previous year by 62,3 and than the Budget Estimate by 110,1. The increase of net expenditure as compared with 1894-95 was due partly to a falling-off of the revenue in the North-Western Provinces and Oudh owing to heavy winter rains of 1894-95, and partly to increased interest charges owing to additional capital outlay. The net result would have been still more unfavourable but for an increase of revenue owing to the extension of irrigation from the canals in the Punjab and Madras. The worse result, as compared with the Budget Estimate, was due partly to the decrease of Revenue in the North-Western Provinces being more than was anticipated, and partly to large remissions of water-rates in the Godavari and Kistna deltas owing to damages to crops by floods.

Section J.—IRRIGATION—RECEIPTS.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
2,338,8	REVENUE . . .	2,484,3	2,325,1	2,300,0

345. The falling off of 38,8 in the revenue realized during 1895-96, as compared with that of the previous year, was due to the heavy winter-rains of 1894-95 having reduced the demand for canal water in the North-Western Provinces for the *rabi* irrigation of that year, the collections on account of which were made in 1895-96. The decrease would have been considerably larger had it not been for an increase of revenue in the Punjab and Madras owing to the development of irrigation in the former Province and to the enhancement of water-rates in the latter. The fall, as compared with the Budget Estimate, was due partly to a larger decrease of revenue in the North-Western Provinces and Oudh than was anticipated, and partly to large remissions of water-rates in Madras owing to damages to crops by heavy floods in the latter part of 1895.

O

Section J.—IRRIGATION—RECEIPTS—*continued.*

Direct Receipts—Imperial Works.

346. The *gross revenue* in 1895-96 was better than that of the previous year by 105,1. The increase occurred chiefly in the Punjab, and was due to the extension of irrigation from the Chenab canal, to the greater demand for canal water in the *kharif* season of 1895 owing to a scanty rainfall on lands traversed by the Bari Doab canal, and to increased receipts from the Sirhind canal, the receipts for 1894-95 having been abnormally low owing to excessive rainfall. The decrease of revenue from the Western Jumna canal, as compared with the actuals of the previous year and the Budget Estimate, was due to the *rabi* cultivation of 1894-95 having been much below expectation. The increase of 6,2 in Bombay over the actuals of the previous year was due to the revision of water-rates on the Mutha canals As compared with the Budget Estimate there was an increase of 29,4 in Punjab due to better *kharif* irrigation from the Bari Doab, Sirhind, and Chenab canals than was anticipated. The decrease of 4,7 in Bombay, as compared with the Budget Estimate, was mainly due to the anticipated increase of revenue from the Mutha canals owing to the revision of water-rates not having been fully realized during the year.

Direct Receipts—Provincial Works.

347. The *gross revenue* in 1895-96 fell short of that of the previous year by 196,3 and of the Budget Estimate by 95,0. The decrease was mainly due to the heavy winter rains of 1894-95 having reduced the demand for *rabi* irrigation in the North-Western Provinces and Oudh.

XXIX.—Major Works—Indirect Receipts.

Portion of Land Revenue due to Irrigation.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
117,5	N.-W. Provinces and Oudh . . .	117,5	117,5	117,5
30,8	Punjab	46,6	43,9	43,4
541,7	Madras	659,5	631,1	582,6
86,1	Bombay	112,6	96,6	78,2
776,1	TOTAL .	929,7	886,1	821,7

348. The share of land revenue credited to irrigation works exceeded that of the previous year by 45,6. The increase occurred chiefly in Madras, and was mainly due to the enhancement of water-rates on the Godavari, Kistna, and Cauvery delta systems. The increase of 12,6 in the Punjab was due to increased credits to the Chenab canal. Of the decrease of 108,0, as compared with the Budget Estimate 76,4 occurred in Madras and 34,4 in Bombay. The decrease in Madras was due to large remissions of water-rates in the Godavari and Kistna deltas owing to damages to crops by heavy floods in the latter part of 1895, and also to exemption from enhanced water-rate of certain villages in the former. The decrease in Bombay was due to a falling-off of the revenue from the Desert and Begari canals and the Eastern Nara works owing to insufficient water-supply, unfavourable inundation and less *rabi* cultivation.

A.—Imperial. B.—Provincial and Local.

Section J.—IRRIGATION—RECEIPTS—*concluded.*

XXX.—Minor Works and Navigation—*continued.*

Imperial Works.

349. The increase in the revenue during 1895-96, as compared with that of the previous year, occurred chiefly in the Punjab, and was due to the assessments for the year 1894-95 on certain canals which fell due in that year having been recovered in 1895-96. The variations, as compared with the Budget Estimate, are unimportant.

Provincial and Local Works.

350. The variations under this head were comparatively small and were the net result of a number of small increases and decreases. The principal decrease, as compared with the actuals of the previous year and the Budget Estimate, occurred in Bengal, and was due chiefly to the recoveries on account of capitalized maintenance charges of the Howrah drainage scheme, hitherto accounted for under this head, having been adjusted in the accounts for 1895-96 under the debt head "Drainage advances," and partly to a falling off in the receipts from the Nadia rivers owing to the very unsatisfactory state of the river.

Section J.—IRRIGATION—EXPENDITURE.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
2,952,8	EXPENDITURE	3,050,5	3,014,3	2,976,3

351. The increase in the expenditure during 1895-96 over that of the previous year was due to increased interest charges on additional capital outlay. The short outlay, as compared with the Budget, was due chiefly to the restriction of expenditure in the North-Western Provinces and Oudh, owing to the very large falling off of irrigation revenue in that Province, partly to the delay in the preparation of the estimates for the Cooum improvement scheme in Madras, and partly to an over-estimate of the expenditure on the canals in Bengal.

42.—Major Works—Working Expenses.

1894-95. Accounts.	Budget.	1895-96. Revised.	Accounts.
799,8	813,2	791,4	787,3

Imperial Works.

352. The expenditure in 1895-96 exceeded that of the previous year by 31,4 and the Budget Estimate by 25,9. The increase occurred in the Punjab and Madras. The increase in the Punjab was due to the maintenance of greater lengths of canals opened for irrigation. Large expenditure was also found necessary in Madras for the maintenance and minor improvements of the Kistna delta, Sangam anicut and the Rushikulya projects.

Provincial Works.

353. Of the decrease of 43,9 in the expenditure during 1895-96, as compared with that of 1894-95, 7,4 occurred in Bengal and 36,5 in the North-Western Provinces and Oudh. The decrease in Bengal was due to a smaller expenditure having been found necessary for the maintenance and repairs of the Sone project. The decrease in the North-Western Provinces and Oudh was due to the restriction of expenditure by the Local Financial Department owing to the very large falling off in the irrigation revenue. For this reason the expenditure of the year also fell short of the Budget Estimate. In the Budget Estimate the expenditure on canals in Bengal was over-estimated.

42.—Major Works—Interest on debt.

958,9			1,014,9		1 000,3		966,6	

A. Imperial. B. Provincial and Local.

Imperial Works.

355. The expenditure in 1895-96 exceeded that of the previous year by 7,3. The increase occurred chiefly in Bombay, and was due to increased expenditure on the improvement of the Shikarpur and Karachi canals in Sind. The decrease, as compared with the Budget Estimate, was due to the postponement of certain works in Rajputana and Punjab, and to the non-payment of compensation for land (1,4) taken up in the latter Province.

Provincial and Local Works.

356. The total expenditure during 1895-96 was only 4 more than that of the previous year; but compared by Provinces there were some large variations, owing to the following causes:—

Lower Burma.—The decrease of 25,9 was due partly to the first section of the canal between Kyaikto and Bilin rivers having been suspended, and partly to the expenditure in the previous year having been somewhat large owing to the necessity for raising, strengthening and retiring several miles of the Irrawaddy embankments which were threatened by river encroachments and to the construction of some other embankments.

Bengal.—The increase of 10,1 was due to the transfer of the suspense balances of the Brahmini-Baitarni division amounting to 10,7 from 49—Irrigation to this head.

North-Western Provinces and Oudh.—The decrease of 5,4 was due to restriction of expenditure.

Punjab.—The decrease of 5,8 was due to the completion of survey of the Michni-Nowshera canal and of widening the Barkat Alikhan canal.

Madras.—The increase of 23,8 was mainly due to the commencement of a new project called the Nandyar channel and to the expenditure on some of the existing works having been larger than in the previous year.

357. Compared with the Budget Estimate, the actuals showed a decrease of 38,5. The decrease occurred chiefly in the North-Western Provinces and Oudh and Madras. The decrease of 10,0 in the North-Western Provinces was due to restriction of expenditure. In Madras the decrease (19,7) was due to the outlay on the Cooum improvement scheme being only 6 against a provision of 20,0 owing to the delay in the preparation of the estimates.

Section K.—BUILDINGS AND ROADS—RECEIPTS.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
692,5	RECEIPTS	652,4	698,7	713,8

358. The receipts in 1895-96 were better than those of the previous year by 21,3 and the Budget Estimate by 61,4. The increase was chiefly due to an improvement in receipts from sales of buildings, and from ferry tolls.

XXXI.—Military Works.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
50,4	India	37,1	40,9	40,8
6,0	Upper Burma	5,5	6,0	5,7
9	Lower Burma	9	9	8
4	Assam	4	4	3
1	N.-W. P. and Oudh	1	1	1
5	Punjab	5	5	6
3	Madras	4	3	2
1,1	Bombay	9	9	1,2
59,7	TOTAL .	45,8	50,0	49,7

359. The receipts for the year 1895-96 fell short of those of the previous year by 10,0. The decrease occurred chiefly under India, and was due to the receipts of the previous year having been abnormally large owing to the Commissariat granary at Madras having been sold in that year for 10,0. The increase of 3,9 over the Budget Estimate was mainly due to an improvement in rents from buildings.

A.—Public Works in charge of Departmental Officers. B.—Public Works in charge of Civil Officers.

Imperial Works.

360. The receipts by departmental officers during 1895-96 exceeded those of the previous year by 0,0 and the Budget Estimate by 8,7. The increase was due partly to the sale of the Saw Mills at Pegu for 3,0, partly to a recovery of 2,0 from the Calcutta Municipality as compensation for the removal of the out-offices of the Foreign office, and partly to an improvement in the rents of buildings.

Provincial Works.

361. The increase of 9,5 in the revenue realized by departmental officers during 1895-96 over that of the previous year was mainly due to the sale of certain buildings in Bengal, Punjab and Madras. As compared with the Budget Estimate, the increase of 23,7 was contributed by almost all the provinces. The principal increases occurred in Bengal, North-Western Provinces and Oudh, Punjab and Madras. The increase in Bengal was due to the sale of the distillery buildings at Manicktola (about 2,0) and to profits from the Seebpore Workshops (about 5,4). The increase in the North-Western Provinces and Oudh is the aggregate of several small increases. The increases in the Punjab and Madras were mainly due to the sales of buildings.

362. The variations in the receipts realized by Civil officers are comparatively small, and are the net result of a number of small increases and decreases.

Local Works.

363. The receipts realized by Civil officers in 1895-96 exceeded those of the previous year, and the Budget Estimate by 15,1 and 23,0, respectively. The increase occurred chiefly in Bengal, Punjab, Madras, and Bombay. The increase in Bengal was due to an improvement in ferry tolls and larger contributions from private parties. In the Punjab there was an increase in the receipts from the sale of road-side trees. The increase in Madras was due to an improvement in ferry tolls. In Bombay the increase was due to the receipt of larger contributions than was expected, and to an improvement in ferry receipts and road tolls.

Section K.—BUILDINGS AND ROADS—EXPENDITURE.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
5,352,8	Expenditure	5,817,0	5,760,1	5,810,5

364. The increase of 457,7, as compared with that of the previous year, was mainly du to the expenditure in 1894-95 having been small owing to the curtailment of grants on accoun of financial pressure.

44.—Military Works.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
748,1	India	910,8	873,9	930,4

365. Of the increase of 197,9 in the expenditure during 1895-96, as compared with that of the previou year, 182,3 occurred under India, and was due chiefly to the grant for 1894-95 having been curtaile owing to financial pressure and partly to special expenditure of 53,1 in 1895-96 on works in connectio with the occupation of Chitral. In 1894-95 the expenditure in Upper Burma was somewhat large owing t the construction of buildings for Native Infantry in the Chin Hills. The increase of 11,8 in the Punjal was mainly due to increased expenditure on works at Wano, Army Head-Quarters buildings at Simla and River Protective works at Dera Ismail Khan. The increase of 4,7 in Bombay was due to the progres of work on the Ahmedabad cantonment water-supply and the Remount Depôt at Ahmednagar.

366. The increase of 39,6, as compared with the Budget Estimate, occurred chiefly under India and i the Punjab. The increase under India was due to special expenditure on works in connection with th occupation of Chitral. The increase in the Punjab was due to additional expenditure on the works a Wano, Simla and Dera Ismail Khan already mentioned.

Section K.—BUILDINGS AND ROADS—EXPENDITURE—*continued.*

45.—Civil Works—*continued.*

Imperial Works.

367. *Departmental Officers.*—The increase in the expenditure, as compared with that of the previous year was due to the expenditure in 1894-95 having been small owing to the curtailment of grants for that year. As compared with the Budget Estimate, the decrease of 33,3 occurred chiefly under India and in Assam. The decrease under India was due partly to an over-estimate of expenditure chiefly in Baluchistan, and partly to the amount (13,7) held in reserve having been placed in the estimate under India but subsequently allotted to Provinces. The decrease in Assam was due to the expenditure on the Nichuguard-Manipur road and the telegraph office at Manipur not being so large as was anticipated. The increase of 5,8 in Bengal was due to the commencement of work on the new office for the Comptroller of Post Offices, and to the construction of servants' quarters in Government House at Calcutta. The increase of 12,3 in the Punjab was due chiefly to the construction of several works for which additional grants aggregating 10,5 were sanctioned during the year and partly to the expenditure of 2,1 incurred on Levy posts in the Tochi Valley and Southern Waziristan.

368. *Civil Officers.*—The increase of 6,5 in the expenditure during 1895-96 over that of the previous year was due to the expenditure of 6,9 incurred on the Residency at Bagdad. In 1894-95 no expenditure was incurred on this work.

Provincial Works.

369. *Departmental Officers.*—The expenditure in 1895-96 exceeded that of the previous year by 36,4. The decrease of 22,7 in the Central Provinces and of 14,1 in the North-Western Provinces and Oudh was due to the restriction of expenditure by Local Governments. The decrease of 55,5 in Lower Burma was due to heavy expenditure during 1894-95 on the new Government House at Rangoon and on Law and Justice buildings. The increase of 7,1 in Assam was chiefly due to abnormal expenditure in the Central and Lower Assam divisions on repairs of damages to roads caused by floods. The increase of 59,9 in Bengal, 44,1 in Madras and 0,8 in Bombay was due to larger grants having been made available by Local Governments for expenditure during 1895-96. The increase of 11,3 in the Punjab was due to large outlay incurred on river Protective Works at Dera Ghazi Khan. As compared with the Budget Estimate, the actuals show a decrease of 48,8. The decrease in the Central Provinces and the North-Western Provinces and Oudh was due to restriction of expenditure. The short outlay of 17,8 in Lower Burma was due partly to an over-estimate of the charges for establishment (6,0) and tools and plant (2,4), and partly (7,9) to a reduction in suspense balances. In Assam the decrease of 7,7 was due to the expenditure on certain unmetalled roads having been over-estimated and to a reduction in suspense balances. The increase in Bengal was due to a number of works having been undertaken which were not provided for in the Budget Estimate. The increase in the Punjab was due to the expenditure incurred on the river Protective Works at Dera Ghazi Khan. In Madras and Bombay the expenditure of the year was over-estimated.

370. *Civil Officers.*—The increase in the expenditure, as compared with the actuals of the previous year and the Budget Estimate, occurred chiefly in Madras, and was due mainly to a payment of 20,0 to the Madras Municipality on account of certain sanitary improvements, and partly to increased expenditure on water-supply projects.

Local Works.

371. *Departmental Officers.*—The increase of 13,2 over the actuals of the previous year occurred chiefly in the Punjab, and was due mainly to increased outlay on the repair of roads and partly to the construction of the Sarasti and Michne-Dalazuk canals for the supply of drinking water. The decrease of 8,3 in the North-Western Provinces and Oudh was chiefly due to smaller outlay on roads. The Budget was on the whole closely worked up to. The decrease of 4,9 in Lower Burma was due to the backward state of the works in several districts. The decrease in Assam was due to an over-estimate of the expenditure. The decrease of 8,7 in the North-Western Provinces and Oudh was chiefly due to short outlay on communications. The increase of 22,8 in Bombay was due to expenditure having been incurred against supplementary estimates sanctioned by District Boards during the year.

372. *Civil Officers.*—The increase of 66,0 in expenditure, as compared with that of the previous year, occurred chiefly in Bengal and Madras, and was mainly due to increased expenditure on the construction and repair of district roads. The variations in the Central Provinces, Lower Burma, and Bombay are the net result of several small increases and decreases. Although the total expenditure of the year was only 2,4 more than the Budget Estimate, there were large differences in the Central Provinces, Lower Burma Bengal, Madras and Bombay. The decrease of 5,0 in the Central Provinces was chiefly due to the transfer of charges for encamping grounds and village sanitation to the heads "32—Miscellaneous" and "24—Medical," respectively. In Lower Burma the decrease of 13,7 was due to transfers of grants to the Public Works estimates. In Bengal and Madras the expenditure on the construction and repairs of roads was under-estimated, while in Bombay the expenditure was over-estimated.

24,096,1	TOTAL .	25,193,1	25,583,9	25,398,2

374. The receipts in India exceeded the Budget Estimate by 61,0, but fell short of the actuals of the previous year by 39,3. The increase over the Budget Estimate was due chiefly to larger sales of malt liquor, clothing and Ordnance stores, to receipts on account of expeditions, and other special services having been adjusted by direct credit in the accounts, instead of being deducted as formerly from charges and to larger contributions towards Indian Military Service Family Pensions, partly counterbalanced by smaller sales of Commissariat stores.

375. The decrease as compared with the actuals of the previous year, was due to smaller sales of malt liquor, owing to absence of troops on field service, to value of Commissariat stores issued to other Departments being adjusted by deduction from expenditure, to fewer replacements of kits of men returned from field service, and to a special credit in 1894-95 on account of arms and accoutrements supplied to the Nepal Durbar, and sale of old stores to the East Indian Railway, and gunpowder to certain Native States, partly counterbalanced by recoveries on account of expeditions and special services, having been credited to receipts instead of being deducted from expenditure.

376. The receipts in England exceeded the Budget Estimate chiefly on account of the value of articles in possession of regiments on transfer from Indian to British service, and of receipts on account of the Indian Troop service.

377. The following statement shows separately the ordinary and special charges included under expenditure in India :—

1894-95. Accounts.			Budget.	1895-96 Extra Grants.		Accounts.

16,246,0		TOTAL .	17,070,5	204,7		18,120,1

Section L.—ARMY SERVICES—*continued.*

378. The expenditure in India exceeded the Budget Estimate by 1,049,6 and the actuals of the previous year by 1,874,1. The increase was due chiefly to excess strength of troops, to deductions on account of probable savings and absence of officers in Europe having been excessive, to larger expenditure for water-supply to troops, to payment of compensation to the zemindars of Mechparah for permission to hunt elephants in Garo Hills and Goalparah District, to larger expenditure on malt liquor, to increased charges for medical comforts and dieting sick, and to larger expenditure in connection with expeditions, particularly the Chitral Relief Force, and other special services. These excesses were partly counterbalanced by large savings, due to alterations in the rate of exchange for the payment of Exchange Compensation Allowances; to less expenditure for conveyance of troops and stores, to fewer purchases of transport animals, carts, doolies, equipment, and uniform clothing for transport followers, to smaller purchases of young stock for remounts and at favourable prices, and to less cultivation operations; to the introduction of the new clothing scheme, to failure of contractors to make supplies, and to the supply of certain articles from England instead of by local purchase; to the employment of smaller hot weather establishment, and to less charges for barrack bedding and lighting; to the abolition of two appointments of Principal Medical Officers of Districts; to the employment of fewer temporary artificers owing to less outturn from arsenals and ordnance factories, to purchase of less ordnance stores in consequence of sufficiency of stock, and to larger issues of stores to the Military Works Department and to the Mombassa contingent; to more economical arrangements for the conveyance of troops between Bombay and Burma; to less Moonshee allowances, to the provision for purchase of lands and buildings not having been used in full, to an over-estimate for telegrams and contingencies and to no camps-of-exercise having been held in the Punjab Command; to less capitation grants to Volunteer corps, and to the lapse to a certain extent of the provision for volunteer buildings, camps-of-exercise, and field allowances; to less payments for capitalized pensions to British officers, to stipends of Native pensioners not having been claimed, and to less charges for compensation for dearness of provisions to native pensioners in Madras owing to cheapness of rice.

379. The excess over the actuals of the previous year was chiefly due to a larger number of regimental officers having been present on duty during 1895-96, to the reorganization of Army commands and staff in India, with effect from 1st April 1895, to increased payments of Exchange Compensation Allowance, to a lower rate of exchange having been adopted for the payment of British soldiers for the first quarter of 1895-96, to increased pay having been sanctioned to the Native army from 1st July 1895, to more special grants for hutting to Native army, to increased effective strength of reservists of the Native army, and to more extensive field operations, partly counterbalanced by less Commissariat charges.

380. The expenditure in England showed a saving as compared with the Budget Estimate, which occurred chiefly in stores, Home charges of British officers, and retired pay, etc., of British Forces. The decrease on account of stores was chiefly due to the cancellation of the order for certain supplies of cordite, and to less payments to the War Office. The saving under Home charges of British officers was mainly in furlough charges. The decrease under retired pay, etc., of British officers was partly due to the adjustment of an excess payment of the previous year, and partly to less payments to the War Office.

56,9	EXCHANGE	30,5	49,1	57,2
1,010,2	GRAND TOTAL	851,6	950,7	978,0

381. The decrease under *Regimental Pay, etc.*, is due chiefly to smaller receipts on account of fines for drunkenness than anticipated.

382. The details of the receipts under *Commissariat* are as follows:—

1894-95. Accounts.		1895-96 Budget.	Revised.	Accounts.
324,9	Sale of malt-liquor	310,0	312,5	318,9
62,5	Sale of provisions and stores	83,2	65,7	64,4
15,8	Sale of rum	16,9	14,0	15,3
44,5	Other heads	46,8	40,3	39,4
447,7	TOTAL	456,9	432,5	438,0

383. The increase of 8,9 under "Sale of malt-liquor," as compared with the Budget Estimate, was due to larger issues to troops than were anticipated. The falling off under "Sale of provisions and stores" was due to smaller sales than expected in the Budget; and that under "Sale of rum" to the issue of rum, free of charge, to troops on field service. The decrease under "Other charges" was due chiefly to a fall of 4,1 under "Value of stores issued to other Departments" owing to a change in the mode of adjustment of the value of country stores supplied to other departments by which such receipts are deducted from expenditure, to short "Miscellaneous" receipts (1,6), and to ordinary fluctuations. As compared with the actuals of the previous year the falling off under "Sale of malt-liquor" was due to smaller issues consequent on a larger number of British troops having been employed on field service. The other differences are due to the causes explained above.

384. The decrease under "*Remount and Veterinary Receipts*," as compared with the Budget and actuals of the previous year, was due chiefly to fewer castings and sales of chargers to officers, partly counter-

Section L.—ARMY SERVICES—RECEIPTS—*continued.*

XXXIII.—Army—*continued.*

balanced by the transfer of a larger number of horses to the stables of the Viceroy and the Governor of Bombay.

385. Under *Clothing Establishment, etc.*, the increase was due to larger issues of clothing on payment at higher rates of recovery, owing to fall in the rate of exchange, (5,7) to larger sales of worn out time-expired clothing to british troops, and to the retention by men of time-expired clothing on payment. The decrease, as compared with the actuals of the previous year, occurred chiefly under "Proceeds of sale of necessaries" owing to fewer issues on payment, and fewer replacements of kits of men returned from field service.

386. Of the decrease under *Medical Establishment, etc*, 1,7 was due to smaller issues of stores to cantonment hospitals, and to no stores having been supplied to the Maharaja's hospital at Padukota, and 3,0 to smaller issues to State Railways and other Departments.

387. The increase under *Ordnance Establishment, etc.*, was due chiefly to larger issues of Ordnance stores (17,1) and ammunition (4,0) to Native States, British African Companies, His Highness the Amir of Afghanistan, the Royal Navy Reserve, and to the Police and other Departments. The falling off, as compared with the actuals of the previous year, was due to a special credit in 1894-95 on account of arms and accoutrements supplied to the Nepal Durbar, and to the sale of old stores to the East Indian Railway and of gunpowder to the Mysore and Travancore States.

388. Under *Sea Transport Charges* the decrease was due chiefly to a falling off under "Table Money" due to exemption from messing deductions of warrant and non commissioned officers and men of Indian Departments and Unattached Lists and their families who were entitled to passages to and from England.

389. Under *Miscellaneous Services* the increase was due chiefly to recoveries (42,7) on account of expeditions and other special services having been credited to this head instead of being deducted from charges, to credit of 2,7 on account of half cost of the Meekong Boundary commission in 1894-95, and to increased confiscations of security deposits of contractors (1,8). These causes also account for the increase over the actuals of the previous year.

390. Under *Rewards for Military Services* the decrease as compared with the actuals of the previous year was due to a special credit in 1894-95 on account of old medals returned to the Mint. The increase of 10,9 under *Widows' Pensions and Compassionate Allowance* was due to there having been a larger number of subscribers to the Indian Military Service Family Pension Fund, to more donations on account of promotions, marriages, and births of children than were anticipated, and to the fall in the rate of exchange at which the recoveries were effected.

391. The receipts in England exceeded the Budget Estimate by 39,4 under Effective Service. Of this excess 32,4 was due to increase in the value of articles in possession of regiments on their transfer from the Indian to the British Establishment, and 5,9 to larger receipts on account of the Indian Troop Service

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Army and Garrison Staff.

392. The expenditure under this head shows a saving of 34,7, as compared with the Budget, and an increase of 33,6 as compared with the actuals of the previous year. The former was due to the absence of a larger number of officers than anticipated, to recoveries of advances made in England, to variations in army ranks of officers, to vacancies in the staff, to savings in clerical establishments, to the abolition of certain appointments in the Madras Command, to less tour expenses of the Commander-in-Chief and Lieutenant-Generals Commanding the Forces and to less charges for Exchange Compensation Allowance due chiefly to alterations in the rate of exchange. The increase over the actuals of the previous year was due chiefly to the appointments of Lieutenant-Generals, and the creation of the Punjab and Bengal Commands on the reorganisation of Army Commands, partly counterbalanced by the abolition of the offices of Commander-in-Chief, Madras and Bombay Commands, on the reorganisation.

393. The expenditure under Army and Garrison Staff is distributed as follows :—

1894-95. Accounts.		1895-96. Budget.	Revised.	Accounts.
54,9	Commander-in-Chief	27,8	27,2	24,9
...	Lieutenant-Generals Commanding the Forces	42,7	42,8	40,6
49,4	Adjutant General	77,1	73,3	72,2
15,6	Artillery Branch	18,7	17,2	16,5
4,0	Cavalry Branch	4,1	3,9	3,3
26,7	Musketry Inspection	27,7	26,8	26,4
58,3	Quarter Master General	59,0	55,2	56,4
3,8	Gymnastic Instruction	4,1	4,1	4,0
3,6	Army Signalling	3,6	3,5	3,5
192,3	District Commands	204,3	190,5	194,6
65,6	Garrison and Station Staff	67,7	63,0	64,8
29,3	Hill Sanitaria	30,2	30,0	29,2
11,4	Miscellaneous Depôts	11,5	11,2	11,3
10,2	Staff of Local Forces	12,3	11,6	11,3
3	Staff Miscellaneous	3	3	3
3	*Add*—Expenditure in connection with the abolition of the Presidency Army System	2,9	...	...
525,7		594,0	560,6	559,3

394. The savings under *Commander-in-Chief* and *Lieutenant-Generals Commanding the Forces* as compared with the Budget Estimate, were due chiefly to less tour expenses and less charges for medical charge allowance and contingencies. The decrease under the first head, as compared with the actuals of the previous year, was due to the abolition of the offices of Commander-in-Chief, Madras and Bombay Armies on reorganization of Army Commands; and the increase in the latter to the creation of the appointments of Lieutenant-Generals on the reorganisation.

395. Under *Adjutant General* the saving was due to reductions in office establishments on the formation of the Punjab and Bengal Commands (1,6), to savings in clerical establishments, Madras and Bombay Commands, partly reduced by additional establishment in the Bengal Command (3), to variations in army rank (5), to less charges for medical charge allowance, travelling, and contingencies (1,4), and 8 in Exchange Compensation Allowance. The increase over the actuals of the previous year was due to the creation of the Punjab and Bengal Commands.

396. The savings under *Artillery Branch*, *Cavalry Branch* and *Musketry Inspection* were due chiefly to variations in army ranks of officers and absence of officers on furlough.

397. Under *Quarter Master General's Department* the saving was due to absence of officers on furlough and field service and to adjustment of advances drawn in England (8), to vacancies in the establishment of officers and interpreters (7), to savings in office establishment (8) and to Exchange Compensation Allowance (9), partly counterbalanced by increased charges for family allowances, travelling and contingencies.

398. Under *District Commands* the decrease was due to the deduction made in the Budget on account of absentees having proved to be insufficient (3,2), to vacancies in the establishment of officers (1,3), to the adjustment of advances made in England (6), to variations in army rank of officers (1,0), to Exchange Compensation, consequent on the above savings, and alterations in the rate of exchange (3,2), and to 3 under travelling and contingencies.

399. The saving under *Garrison and Station Staff* was due to the abolition of certain appointments in Burma, vacancies and variations in army ranks of officers (9), to Exchange Compensation Allowance (1,0), and to less travelling and contingencies.

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Administrative Staff.

400. The saving of 6, as compared with the Budget Estimate was chiefly due to the transfer to the Civil Department of the charges for the Governor's Band, Bombay, to less Exchange Compensation Allowance, due to alterations in rates of exchange, and to less charges for travelling and contingencies due to ordinary fluctuations, partly counterbalanced by excesses due to variations in departmental grades of officers and to the deduction made in the Budget for probable savings not having been realised to the estimated extent.

1894-95. Accounts.		1895-96. Budget	1895-96. Revised.	1895-96. Accounts.
16,7	Personal Staff of the Governor-General, Governors, and Lieutenant-Governors	17,7	16.7	16.1
17.3	Accountant General, Military Department . .	17.6	16,9	16,7
	Controller of Military Accounts—			
26,7	Central Branch	26,4	27,9	28,5
14,3	Accounts Branch	13.8	15,3	15.2
43.9	Pay Branch	43.0	43,1	43.5
33,8	Commissariat Branch	33,0	33,4	34,1
7.2	Commissariat Branch, Rangoon . . .	7,5	7.5	7,5
19,6	Ordnance and Clothing Branches . . .	18,4	19,1	19.3
18,6	Circle, Field and Pension Pay Officers . .	19,0	17,7	17,3
7,8	Inspections, Special Duties, and Probationers .	11,4	9.1	9,0
205.9		207,8	206,7	207,2

401. Under *Personal Staff of the Governor-General, Governors, and Lieutenant-Governors* the saving was due to the transfer to the Civil Department of the charges for the Governor's Band, Bombay. Under *Accountant General Military Department* the saving was due to the lower departmental grade of the Deputy Accountant General (3), to savings in the clerical establishment (1), to less Exchange Compensation Allowance (1), and to less travelling and contingencies due to ordinary fluctuations. Under *Central Branch* the excess of 2,1 was due to the deduction made in the Budget for probable savings not having been realised (1,5), advance of pay for March 1896 to Controller of Military Accounts, Bengal Command, on retirement (1), and to Controller, Madras Command, on proceeding on furlough (3), and to changes in office establishment (2). Under *Accounts Branch* the excess of 1,4 was due to higher departmental grades of officers (1,1), to the deduction for probable savings not having been realised (1), and to changes in clerical establishments (2). Under *Pay, Commissariat* and *Ordnance and Clothing Branches* the excess was due to the deductions on account of probable savings not having been realised, and, in the last case, also to higher departmental grades of officers, partly counterbalanced by less charges for Exchange Compensation Allowance and recoveries of advances made in England. Under *Circle, Field, and Pension Pay Offices* there was a saving, due to lower departmental and army rank of officers, (1,4) to recoveries of advances made in England (2), to less Exchange Compensation Allowance (3), to savings in travelling allowances and contingencies due to ordinary fluctuations, partly counterbalanced by increased capitation allowances to officers in charge of pensioners in the Madras Command (3), and to advance of pay for March 1896 to the Pension Paymaster, Southern Konkan, and his establishment. The saving under *Inspections, Special Duties, and Probationers* was due chiefly to transfers of senior officers to Branches (2.0) and to less Exchange Compensation Allowance (5), due to alterations in the rates of exchange and to the transfers mentioned above.

Regimental Pay.

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
4,322.5	European Army	4,368,4	4,420,0	4,430,4
4,026,3	Native Army	4,236,1	4,238,1	4,267,1
8,348,8	TOTAL .	8,604,5	8,658,1	8,697,5

402. The excess of 93,0, as compared with the Budget Estimate, was due chiefly to the strength of the British Forces having been in excess of the authorised complement, to excess deductions having been made in the Budget on account of probable savings and absence of officers in Europe, to an under-estimate of good-conduct pay, to increase under *Staff Corps*, to variations in army rank of officers, and to an increase of reservists, partly counterbalanced by savings due to less payments of Exchange Compensation Allowance, owing to alterations in the rate of exchange, to savings under grass-cutters' establishment, and to smaller payments of batta and kit-money to recruits owing to fewer enlistments. The

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Regimental Pay—*continued.*

excess of 348,7 over the actauls of the previous year was due chiefly to an increased rate of pay to the Native Army, the adoption of a lower rate of exchange for payment of British troops for the first quarter of 1895-96, to larger strength of troops, and to more Exchange Compensation Allowance.

403. The details of the principal sub-heads of the European Army are given below :—

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
1,086,7	Artillery	1,083,7	1,094,5	1,102,1
444,2	Cavalry	442,6	454,5	461,9
14,0	Engineers	11,9	16,1	11,0
2,701,5	Infantry	2,745,4	2,771,8	2,760,2
6,6	Invalid and Veteran Establishment	6,6	6,3	6,3
34,4	Staff Corps, General List of Officers, Unattached and Unemployed Officers	33,6	34,4	45,8
—1,6	Colonel's Allowances	6,4	3 9	5.2
36,7	Other Charges	38,2	38,5	37,9
4,322,5	TOTAL	4,368.4	4,420,0	4,430,4

404. Under *Artillery* the excess, as compared with the Budget Estimate, was due to the deduction on account of probable savings not having been realised (11,7), to increased rate of pay to Native drivers' establishment (3,8), to excess strength of troops (2,0), and to an under-estimate on account of good-conduct pay (2,0), partly counterbalanced by a saving on account of Exchange Compensation Allowance, due to alterations in rate of exchange. As compared with the actuals of the previous year the excess was due to increased pay of Native drivers' establishment, to larger payments of Exchange Compensation Allowance, and to the adoption of a lower rate of exchange for payment of British troops for the first quarter of the year under report. Under *Cavalry* the excess over the Budget Estimate was due to excess strength of troops (15,5), and to the deductions for probable savings not having been realised (11 5), partly counterbalanced by savings under grass-cutters' establishment, owing to grass having been supplied from grass farms (6,7), and to less Exchange Compensation Allowance due to alterations in rates of excharge (1,0). The increase over the actuals of the previous year was due chiefly to more payments of Exchange Compensation Allowance, to the adoption of lower rates of exchange for payment of British troops for the first quarter of 1895-96, and to larger excess in the strength of troops. Under *Infantry* the excess over the Budget was due to excess strength of troops (4,9), to excessive deduction on account of probable savings (11,8), and to charges for good-conduct pay being more than anticipated (3,8), partly counterbalanced by savings due to less charges for Exchange Compensation Allowance, owing to alterations in the rates of exchange (5,1), and to pay for April 1895 of officers of the 1st Battalion, East Lancashire Regiment, when proceeding to Chitral, having been drawn in March 1895. The excess of the previous years' actuals was due chiefly to larger payments of Exchange Compensation Allowance, and to the adoption of lower rates of exchange for payment to British troops for the first quarter of 1895-96.

405. Under *Staff Corps, General List of Officers, Unattached and Unemployed Officers*, the excess occurred chiefly under *Staff Corps*, and was due to there having been a larger number of unemployed Officers (2,5), to pay of officers in staff employ deputed on field service (2,4) having been taken to this head, to there having been a larger number of candidates for Staff Corps on the Unattached List of the British Army than anticipated (3,6), to pay of officers attached to Native Corps in excess of the authorised complement having been taken to this head (1,0), and to variations in rank of officers and consequent increase in Exchange Compensation Allowance (1,7), partly counterbalanced by a saving of (1,5) owing to there having been fewer unemployed General Officers.

406. The details of the principal sub-heads under the Native Army are as follows :—

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	Accounts.
51,7	Artillery	51,6	54,7	55,1

Regimental Pay—*continued.*

407. Under *Artillery* the excess was due chiefly to increased rate of pay sanctioned for Native soldiers provision for which was made under *Infantry* (3,1), and to an under-estimate for good conduct pay (9) partly counterbalanced by increased payments of Exchange Compensation Allowance. The saving under *Body-Guard* was due to short strength and lower army rank of an officer. Under *Cavalry* the excess was due to excessive deduction on account of probable savings, small number of soldiers and officers on leave (4,3), to higher rank of officers (2,4), to under-estimate of good conduct pay (1,0), and to increased pay of the Madras Native Cavalry provided for under *Infantry* (3,0), partly counterbalanced by less charges for Exchange Compensation Allowance. Under *Sappers and Miners the* excess over the Budget was due to increased rate of pay, provision for which was made under *Infantry* (5,3), to pay of officers in excess of authorised complement (5), to excessive deduction for short strength (3), and to Exchange Compensation Allowance on account of excess in complement of officers, reduced by savings due to alterations in the rates of exchange (2). Under *Infantry* the excess was due to excessive deductions in the Budget on account of probable savings, short strength, and officers on leave (28,8), to under-estimate for good-conduct pay (4,7), to advance of pay (2,7), and to arrear payments of previous year (2,7) partly counterbalanced by savings arising from less payments of Exchange Compensation Allowance (14,1), by increased pay to other arms provided for under this head but charged under the heads concerned (15,2), and by savings owing to advance of pay in 1894 95 to certain regiments when proceeding on field service (3,8). The excess over the actuals of the previous year was due to increased rate of pay to the Native army and to larger payments of Exchange Compensation Allowance. The small excess under *Annual Grant-in-aid of half-mounting* was due to ordinary fluctuations, and the savings under *Kit money for Recruits* to fewer recruits having been enlisted. Under *Reserve Forces* the excess was due to a large accession of numbers, and to the increased rate of pay sanctioned for reservists. Under *Other charges* the saving occurred chiefly under *Batta* (3,4), owing to the men of Madras regiments, serving in Burma, having drawn rice money while on leave in India, the charge for which was taken under *Commissariat Establishments, etc.*

Commissariat Charges.

408. There was a saving under this head of 313.5 as compared with the Budget Estimate, and of 48,6 as compared with the actuals of the previous year. The former was due chiefly to the insufficiency of the deduction made in the Budget for probable savings, to less expenditure for Exchange Compensation allowance owing to alterations in the rates of exchange, to short strength of cattle, to favourable rates for provisions and short strength of troops, to less ordinary movements of troops and stores, due to absence of troops on field service, to the cost of replacing fodder issued from reserve to the Chitral Relief Force having been charged under *Miscellaneous Services*, and to less expenditure on regimental equipments godown furniture, warm clothing, purchase of transport animals, permanent hired transport, gear carts doolies, and uniform clothing for transport attendants; partly counterbalanced by increased expenditure for water-supply to troops, by the payment of compensation to the Zemindars of Mechparah for permission to hunt elephants in the Garo Hills and Goalpara District, and by larger expenditure for malt liquor, owing to larger purchases, and to brewers having been paid at the market rate of exchange, which was lower than the rate adopted in the Budget.

409. The details are classified as follows:—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts
525,0	Establishment	545.2	520,6	525,0
1,505,6	Supplies	1,562,1	1,447,8	1,520,5
818,1	Services	935,3	800,1	773,7
279,3	Transport Branch	350.3	292,1	260,2
3,128,0	TOTAL .	3,392,9	3,060,6	3,079,4

410. The details of the expenditure under *Establishment* are given below:—

44,8	Supervising Staff	51,8	51,7	52,0
251,7	Executive Establishment	258,1	244,1	243,2
45,9	Ambulance Transport	45,6	45,6	44,8
170,6	Subordinate Establishment	179,4	162 7	167,6
8,9	Khedda Establishment	7,5	13,5	14,6
3.1	Other Heads	2,8	3,0	2,8
525,0		545,2	520,6	525,0

411. Under *Supervising Staff* the increase over the actuals of the previous year was due to the appointment of an administrative Commissariat officer for Burma and his office establishment, and to increased charges for Exchange Compensation Allowance and travelling. Under *Executive Establish-*

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Commissariat Charges—*continued.*

ment the saving, as compared with the Budget, was due to the deduction for probable savings having been insufficient (5,6), to less Exchange Compensation Allowance due to alterations in rate of exchange, and to a larger number of officers having been absent on furlough (3,1), and to less charges due to ordinary fluctuations on account of regimental transport (9), contingencies and advertising charges (1,8), and family allowances, travelling, postage, and books (8). As compared with the actuals of the previous year, the saving was due to the absence of a larger number of officers on furlough, and to pay for March and April 1895 of certain officers and others proceeding on field service having been paid in advance in 1894-95. The difference under *Ambulance Transport* was due to the short strength of bearers. Under *Subordinate Establishments* the short expenditure was due to smaller temporary victualling and godown establishments (5,6), to less charges for cattle establishment due to short strength of cattle (12,0), and to an over-estimate (3,0), partly counterbalanced by cost of extra establishment employed on account of animals returned to India on the breaking up of the Chitral Relief Force (1,5), and by larger expenditure for water-supply to troops (5,9). Under *Khedda Establishment* there was an excess of 7,1, due chiefly to the payment of 6,0 as compensation to the zemindars of Mechparah for permission to hunt elephants in the Garo Hills and Goalpara District, to the employment of a larger number of coolies than provided for (8), and to provision for the pay of attendants of elephants having been incorrectly included under Services (6).

412. Under *Supplies* the details are as follows :—

1894-95. Accounts		Budget.	1895-96. Revised.	Accounts.
683,6	Provisions for Europeans	696,2	682,4	682,3
192,2	Provisions for Natives	209,9	171,0	174,7
	Compensation to Natives—			
224,2	(*a*) for dearness of provisions . .	269,0	226,5	257,8
22,7	(*b*) for dearness of forage . . .	37,2	23,8	28,9
20,9	Purchase of Reserve Stock	21,2	26,5	20,0
356,8	Malt Liquor purchased locally	314,2	315,0	349,5
6,4	Rum	12,2	7,1	8,1
7	Dairy Farms	1,8	1,0	1,7
1	Contingent Expenses	4	3	...
...	Deduct Value of Supplies to other Departments .	...	—3,8	—2,5
1,595,6		1,562,1	1,447,8	1,520,5

413. The savings under *Provisions for Europeans* and *Provisions for Natives* were due to short strength of troops and to favourable rates for articles of food, partly counterbalanced in the former by excess due to ordinary fluctuations (1,2), and to an under-estimate (6,4), and in the latter to the cost of ration articles purchased for issue in 1896-97 to troops in distant out-posts in Upper Burma (4,6). As compared with the actuals of the previous year the savings were chiefly due to more favourable rates for articles of food. Under *Compensation to Native for dearness of Provisions* the saving was due to a fall in prices of food in the Madras and Bombay Command, partly counteracted by a rise in the Punjab and Bengal Commands. The increase over the previous year's actuals was chiefly due to the rise referred to above. Under *Compensation to Natives for dearness of Forage* the saving was due to the prices of grain and fodder having been lower than anticipated, they were, however, higher than the prices of 1894-95, hence the excess over the actuals of the previous year. Under *Malt Liquor purchased locally* the excess was due to larger purchases of malt liquor, and to payments having been made at the market rate of exchange, which was lower than that adopted in the Budget. The decrease, as compared with the actuals of the previous year, was due to a smaller consumption, owing to a larger number of British troops having been on field service. Under *Rum* the saving was due to no purchases having been made in Madras, and smaller purchases in Bombay, owing to large stocks in hand, partly counterbalanced by larger purchases in Bengal for the Punjab Command.

414. Under *Services* the following details are supplied :—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
44,7	Hire of Transport	68,8	45,0	42,3
25,6	Sea and Inland Water Charges . . .	32,7	25,4	18,2
373,5	Railway Charges	413,9	374,0	366,3
54,5	Grass Cultivation	58,8	59,2	52,6
204,4	Feed of Horses, Battery Mules, Yaboos, Bullocks, and Elephants	223,2	200,0	217,7
10,7	Regimental Equipment and Camp Contingencies .	13,1	11,0	10,6
30,4	Implements, Godown Furniture, etc. . . .	39,4	21,4	26,5
74,3	Other Heads	85,4	64,1	39,5
818,1		935,3	800,1	773,7

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Commissariat Charges—*concluded.*

415. The savings under *Hire of Transport, Sea and Inland Water charges* and *Railway charges* were chiefly due to less movement of troops and smaller consignments of stores, consequent on the absence of a large number of troops on field service. Under *Grass cultivation* the saving was due chiefly to temporary establishment not having been employed to the extent anticipated (2,4), and to savings under contingencies in the Punjab Command, reduced by increased expenditure in the Bengal Command on account of hired carriage and construction and repair of buildings (3,9). Under *Feed of Horses, Battery Mules, etc.*, the saving was due to favourable rates (8,4), to short strength (3,5), to issues from stock of the previous year (1,0), and to over-estimate (3,9), partly counterbalanced by the higher rates for certain articles in Bengal and Punjab (7,6), and by cost of stock laid in for issue in 1896-97 (4,5). The excess over the actuals of the previous year was due to higher rates in Bengal and Punjab. Under *Regimental Equipment and Camp Contingencies* the saving was due to the absence on field service of a large number of troops (1,0), favourable rates for tinning cooking utensils in Burma (1,0), and to fewer condemnations and consequent replacements (5). Under *Implements, Godown Furniture, etc.*, the saving was due to contingent charges incurred in consequence of field operations having been charged under *Miscellaneous Services*, and less ordinary contingent charges, owing to fewer troops having been quartered at stations in India (7,7) and to less condemnations and consequent replacements (5,0). Of the saving of 45,9 under *Other Heads* 34,1 occurred under *Miscellaneous*, due chiefly to less purchases of warm clothing than was anticipated in the Budget (20,9), and to saving under Incidental charges, due in a great measure to the absence of troops on field service (8,3), partly counterbalanced by more renewals of clothing for mobilisation reserves due to larger condemnations (3), by cost of supplying water to troops at Aden owing to higher rates for coal and increased charges for conveyance of water (5), and by ordinary fluctuations (3). Under *Reserve of Fodder* there was a saving of 6,4 due to the cost of replacing issues to the Chitral Relief Force having been charged under *Miscellaneous Services* and to less purchases for the Quetta District. Under *Purchase of Battery Elephants and Bullocks, etc.*, there was a saving of 1,0 due to no animals having been purchased. Under *Khedda charges* there was a saving of 1,3, due partly to the pay of attendants of elephants having been provided for under *Khedda Establishment* (6), and partly to fewer elephants having been fed and less charges for purchase and repair of materials (7). Under *Cattle Farm, Hissar*, there was a saving of 2,1, due chiefly to less expenditure for reserve stock (1,6), owing to issues from reserve stock not having been replaced in consequence of scarcity of fodder, to less cultivation charges (4), and to fewer purchases of animals (2), counterbalanced to a small extent by more charges for feed of cattle.

416. The details of the charges in the *Transport Branch* are as follows:—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
273,1	Depôt and Regimental	340,9	285,8	255,9
6,2	Ambulance Transport	9,4	6,3	4,3
279,3	TOTAL .	350,3	292,1	260,2

417. Under *Depôts and Regimental*, 32,5 of the saving was due to fewer purchases of animals and the replacement of casualties in the Punjab Command by animals returned from the Chitral Relief Force; 3,7 to feed of animals, owing to fall in prices in Bengal and Burma, 1,5 to issue of grass from Government farms in Punjab, and 14,2 to short strength of animals in Burma, partly counterbalanced by 1,1 owing to increased rates for feed in the Punjab Command, 7,5 due to purchase of straw in Madras for issue in 1896-97 and by the retention of surplus animals returned from the Chitral Relief Force, and the cost of feed of mules specially purchased; 9,7 to the cost of permanent hired transport having been charged to the Chitral Relief Force and to short strength; 24,6 to fewer replacements of gear, carts, and equipment, and to the cost of replacing issues for special services having been charged to those services under *Miscellaneous Services*; 10,0 to less miscellaneous charges owing to less expenditure for clothing due to short strength of cattle attendants; and 5 to no expenditure having been incurred on rent and repair of buildings. The saving would have been larger, but for the fact that special purchases of mules, amounting to 7,7, were made. The saving, as compared with the actuals of the previous year, was due to fewer purchases of animals and to less charges for feed, hired transport, gear, carts, equipment, and clothing for attendants. Under *Ambulance Transport* the saving was due to less charges on doolies, gear, carts, etc., owing to fewer condemnations and repairs (3,2), to less clothing for bearers than anticipated (1,9).

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Remounts and Veterinary.

418. The details are given below :—

1894-95. Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
3,4	Supervising Staff	3,6	3,5	3,6
27,0	Depôt Establishments	27,3	27,0	26,9
9,2	Veterinary Inspection	9,5	9,2	9,1
34,6	Station Veterinary Hospitals	39,0	35,3	37,2
4	Veterinary Schools	6	6	4
2,6	Remount Depôt, Garden Reach	2,8	2,2	2,2
132,5	Purchase of Remounts	146,5	144,9	140,0
27,0	Feed of Cattle and Remounts	31,4	29,2	31,9
38,5	Miscellaneous	38,7	38,8	32,4
275,2		299,4	290,7	283,7

419. The saving under *Station Veterinary Hospitals* was due chiefly to variations in army ranks of officers, and to officers on duty having been below the authorised complement (1,2), to Exchange Compensation Allowance owing to alterations in the rate of exchange and absence of officers (5). Under *Purchase of Remounts* the saving was due to purchase of fewer young stock and at lower rates than anticipated (5,9), to more favourable rates of exchange for payments for Australian horses, and to fewer purchases for Sergeant Instructors of Volunteer Corps (3), to fewer purchases of mules for Mountain Batteries (3), and to less contingent expenses (4), partly counterbalanced by larger purchases of ponies for the Mounted Infantry, Burma (2). Under *Feed of Cattle and Remounts* the excess was due to increased purchases of grain and fodder in Bengal, owing to smaller outturns from cultivation farms (1,9), to purchase of grain in Madras for issue in 1896-97 (5), and to increased rations to young stock (3), partly counterbalanced by favourable rates for grain and fodder in the Madras and Bombay Commands (1,1), and by the receipt of some hay from the Commissariat Department free of charge, and by the reserve ordnance mules having been fed partly on cultivation produce and partly on stock (4). Under *Miscellaneous* the saving was chiefly due to less road expenses, owing to fewer movements to and from depôts (2,6), to less cultivation (4,5), to less expenditure on veterinary medicines and appliances (3), and to less contingent expenditure (1), partly counterbalanced by larger purchases and more extensive repairs of cattle gear and rolling stock (1,3).

Clothing Establishments.

420. The charges fall under the following sub-heads :—

1894-95 Accounts.		1895-96. Budget.	1895-96. Revised.	1895-96. Accounts.
10,0	Superintending Establishments	11,8	10,6	10,7
6,3	Manufacturing and Store Establishments	6,9	6,5	6,4
	Supplies and Services—			
124,6	Factories	191,0	113,8	109,4
33,6	Regimental	34,4	38,3	34,4
31,2	Compensation in lieu of clothing	30,1	32,6	32,2
205,7		274,2	201,8	193,1

421. Under the first two heads the saving occurred in the special provision for additional establishments in the Bengal and Madras Commands. Under *Supplies and Services, Factories*, the saving was due chiefly to the abolition of cloth tunics and trousers and undress jackets for the Artillery, and smaller purchases of boots, cloth, serge, and other articles, owing partly to the introduction of the new clothing scheme, and partly to the inability of contractors to supply articles during the year (37,1), to more favourable rates for certain articles (2,6), to certain materials for clothing for the Royal Artillery not having been received in time (6), to fewer cloaks, great-coats, shoulder cords, etc., for British troops having been made up, and to a smaller demand from Native troops in Madras for similar articles (5), to non-manufacture of summer clothing for British troops in the Madras Factory (1,9) to certain articles, provision for which had been made having been indented for from England (30,9), to non-purchase of cotton drill and other articles (4,5), and to utilization of old packing materials and to less incidental expenses (2,5). The saving, as compared with the previous year, was due to larger demands on England for stores. Under *Regimental* an excess of 5,0, owing to summer clothing for British troops in the Madras and Bombay Commands having been made up regimentally, instead of in the Factory, was

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Clothing Establishments—*continued.*

exactly counterbalanced by savings of 2,1 on account of clothing for reserve forces, owing to less replacements of kits and the transfer of a smaller number of men to the reserve than anticipated, and of 1,7 on account of charges provided for having appeared in the accounts of other years and by other small savings. The excess under *Compensation in lieu of Clothing* was due to more payments having been sanctioned.

Barrack Establishments.

422. The following are the details under this head :—

1894-95. Accounts.		Budget.	1895-96 Revised.	Accounts.
4,2	Executive Establishments	4,4	4,1	4,1
55,3	Subordinate Establishments	61,0	55,0	54,0
16,7	Station Conservancy	12,6	13,7	14,0
9,4	Barrack Furniture	9,9	9,5	10,7
49,9	Barrack Bedding	55,4	50,0	46,5
35,2	Lighting Charges	35,1	32,8	34,5
58,9	Miscellaneous	59,7	59,0	54,4
229 6		241,1	224,4	218,2

423. Under *Subordinate Establishment* the saving was due chiefly to less charges for punkha-pulling establishments (3,3) and tattie-watering establishments (2,3) owing to the absence of regiments on field service, to the employment of smaller establishments and for shorter periods at lower wages, and to the employment of transport attendants as punkha-pullers; to less charges for conservancy establishments (1,4), owing to the allowances authorised for certain out-posts in Burma not having been drawn, and to the employment of a smaller number of men, the excess under *Station Conservancy* was due to expenditure not foreseen when the Budget was framed. Under *Barrack Bedding* and *Lighting charges* the savings were generally due to the absence of troops on field service; but partly also in the case of the former to the issue of part-worn bedding to British troops on first arrival, and to the more favourable rates at which blankets were purchased, and in the latter to more favourable rates for kerosine oil in the Madras and Bombay Commands. Under *Miscellaneous* the saving was due to smaller condemnations, and repairs and replacements of miscellaneous supplies to barracks and hospitals than anticipated.

Administration of Martial Law.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts
	Judge Advocate-General's Department—			
6,4	Head-Quarters	6,3	6,4	6,3
15,2	Circles	17,0	15,0	15,1
19,9	Miscellaneous	19,2	19,5	20,5
41,5		42,5	40,9	41,9

424. The saving of 1,9 under *Circles* was due to variations in army ranks and grades of officers and to absence of officers on furlough, and was nearly covered by the excess of 1,3 under *Miscellaneous*, due chiefly to more charges on account of garrison and station prisons, owing to there having been larger number of prisoners than anticipated.

Medical Establishments.

425. The charges are classified under the following heads :—

1894-95. Accounts.			Budget.		1895-96. Revised.		Accounts.
		Medical Establishment—					
25,0		Head-Quarters and Commands	28 2		29,3		31,0
449,5		Districts	454,4		454,8		451,3
14,0		Nursing Service	14,2		13,7		13,5
26,3		Army Hospital Corps	29,0		27,0		27,1
19,5		Medical Store Depôts	20,2		19,3		19,4
1,5		Followers' Hospitals	2,1		1,5		1 3
16,0		Miscellaneous	15,4		13,4		11.9
	215,9	Medical Supplies	219,7		219,7	216,9	
		Deduct—					
	23,6	Issues to other Departments	22,5		21,5	21,5	
192,3				197,2	198,2		195,4
744,1				700,7	757,2		759,9

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Medical Establishments—*continued.*

426. Under *Medical Establishment, Head Quarters and Commands* there was an excess of 2,8, due chiefly to salaries of certain officers and establishments (2,8) provided for under *Army and Garrison Staff* having been charged to this head, to the old rates of pay having been drawn by the Principal Medical Officer, Bombay Command, for the whole year, and by his Secretary for part of the year, instead of the new rates provided for (9), to the Personal Assistant to the Principal Medical Officer, Madras Command having drawn pay as Secretary for a part of the year (1), and to more payments of Exchange Compensation Allowance, consequent on the above causes (2). These excesses were partly counterbalanced by savings due to officiating arrangements in place of officers on leave (4), and to reductions in establishments (9). Under *Districts* the saving was chiefly due to the abolition of two appointments of Principal Medical Officers of Districts (6,3), to less medical charge allowances (5), and to less charges for postage and contingencies (3), partly counterbalanced by excesses due to the deduction for probable saving not having been realised, partially counteracted by the abolition of the two appointments mentioned above (2,1), and to travelling charges owing to more movements of officers and establishments than anticipated (1,7). The saving under *Nursing Service* was due to the deduction for probable savings having proved to be insufficient (3), and to less Exchange Compensation Allowance due partly to above cause, and partly to alterations in rates of exchange (3). The saving under *Army Hospital Corps* was due to the provision for special concessions to the Army Hospital Corps not having been fully utilised and to short strength (2,0), and to less charges for travelling, postage, and other petty savings, due to ordinary fluctuations (4), partly counterbalanced by increased charges for good-conduct pay (5). Under *Medical Store Depôts* the short expenditure was due chiefly to savings in establishment charges, and exchange compensation, and to savings in postage and contingencies due to ordinary fluctuations. The employment of fewer temporary servants in Burma caused the saving under *Followers' Hospitals*. Under *Miscellaneous* the saving was due to the employment of fewer nursing orderlies in station hospitals than anticipated (4), to less expenditure owing to fewer pupils having been under instruction, and to charges on account of compensation in lieu of quarters to pupils in Madras having been paid by the Military Works Department (1,8), and to the closure of certain Cantonment Hospitals (1,1). Under *Medical Supplies* the saving was due chiefly to less expenditure for medical and surgical stores and hospital equipment supplied to hospitals, owing to less purchases than anticipated, and to the cost of replacement of losses, etc., having fallen to a certain extent on the various field operations in connection with which field hospitals were employed, to short supplies to Medical Depôts, chiefly due to the closure of certain cantonment hospitals in the Madras Command, and to less charges for freight, and miscellaneous items due to ordinary fluctuations. These savings were partly counterbalanced by increased expenditure for medical comforts and dieting sick due to increased sickness among troops and to higher rates than anticipated having been paid for wines. The *Issues to other Departments* fell short of the Budget owing to local bodies in Madras having been required to obtain their supplies independently of the Medical Store Department, partly counterbalanced by issues to new charitable dispensaries in the Bombay Command.

Ordnance.

427. The charges are sub-divided below:—

1895-96, Accounts.		Budget.	1896-97, Revised.	Accounts.
	ESTABLISHMENTS—			
41·7	Supervising Staff	41.9	40,3	40,6
188·9	Arsenals and Depôts	20·.4	189,1	192,7
199·7	Factories	22·.5	207,9	198,6
12·6	Fort Armaments	11,7	11,7	11,6
	STORES—			
136·1	For Arsenals and Depôts	133·9	126,1	147,8
176·5	For Factories	199.7	175,5	187,5
12·7	Freight	13·5	12,3	11,1
69·7	Camp Equipage	62·1	53,5	53,3
26	Line Gear	·3	14,6	14,6
34,9	Other Charges	35·3	32·4	33,1
	Deduct—			
36,2	Supplies to other Departments	36·0	36,	44,0
828,1		946,3	827,5	846,9

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Ordnance—*continued.*

428. The saving under *Supervising Staff* was due to the absence of an officer on leave, to savings in office establishments, to less Exchange Compensation Allowance in consequence of the above and alterations in the rates of exchange, and to a small extent to decreases in travelling, postage, and contingencies owing to ordinary fluctuations. Under *Arsenals and Depôts* the decrease was due to less Exchange Compensation Allowance, owing to alterations in the rates of exchange (1,8), to the employment of fewer extra temporary artificers, owing to less outturn (6,5), and to saving, arising from ordinary fluctuations in travelling, postage, etc., (1,1), partly counterbalanced by the deduction on account of probable savings not having been realised to the extent of 1,2. Under *Factories* the saving was due to fewer artificers having been employed, owing to less outturn than anticipated, to delay in completion of the new gun section building and Shell Factory extension at Cossipore, to increased machine work in the Gun Carriage Factory, Fatehgarh, to the wider application of the piece work system (15,9), to the abolition of the Ordnance Artificer Company, Madras, to reductions in Native establishments in that command, to less Exchange Compensation Allowance, owing to alterations in the rates of exchange. The excess under *Stores for Arsenals and Depôts* was the result of a change in classification, partly counteracted by the discontinuance of the issue at depôts and rest-camps of salitas and kit-bags to unarmed drafts arriving in India, and by less purchase of timber Under *Stores for Factories* the saving was due to smaller supply of stores to factories owing to smaller puchases of timber, to failure of contractors to supply certain stores, and to sufficiency of stock. The excess over the previous year's actuals was due to larger purchases owing to more extensive manufacture and for stock purposes. Under *Freight* the saving arose from smaller consignments of Ordnance Stores from England. Under *Camp Equipage* and *Line Gear* the savings were due to smaller purchases of materials and to a change in classification. The excess under *Supplies to other Departments* was due to issues to Military Works Department in connection with the erection of new workshops in the Foundry and Shell Factory, Cossipore, (3,5), and to the Mombassa Contingent (2 5), to the supply of accoutrements to the 1st Hyderabad Contingent (4), to the fitting up of machinery for the Military Works Department, Bombay Command, (4), to issues of gunpowder and barrels to that Department at Aden (5), and to stores for defence works (4), partly counterbalanced by smaller demands for magazine stores and ammunition boxes by the Police, etc., in Madras.

Other Effective Charges.

429. *Ecclesiastical charges* fell short of the Budget, chiefly owing to the allowances of Roman Catholic priests at certain stations having been discontinued in consequence of reductions of garrisons.

430. *Education charges* fell below the Budget, owing chiefly to less expenditure for Exchange Compensation Allowances, due to alterations in the rate of exchange ; to reorganisation of the Department of Military Education ; to variations in army ranks of officers ; to the absence on furlough of the Principal of the Lawrence Military Asylum at Sanawar ; to savings in establishments of that institution, and to fewer admissions of children in orphanages.

431. *Sea Transport charges.*—The saving was due to more economical arrangements having been sanctioned for conveyance of troops between Bombay and Burma (6,5), to adjustment of recoveries on account of the previous year by deduction from expenditure (1,3), to reduction in the contract rate for deck passages from Calcutta to Rangoon (1,4), and to less expenditure for Madras troops and followers proceeded to Burma (2,3).

432. The figures under *Miscellaneous Services* may be sub-divided as follows :—

1894-95. Accounts.		1895-96. Budget.	Revised.	Accounts
379,7	Expeditions and special charges . . .	377,2	2,041,3	1,966,9
95,9	Other Items	111,9	100,7	74,9
475,6		489,1	2,142,0	2,041,8

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Other Effective Charges.

433. The following are the details of the special expenditure :—

	1895-96. Budget.	Accounts.
Arrear charges on account of—		
Lushai Expedition	2	...
Other Expeditions	...	1
Charges for—		
Wano Garrison	32,5	60,5
Chin Hills Operations, 1895-96	...	6
Kurram Escort	15,0	11,0
Tochi Garrison	...	60,7
Gilgit Agency	68,1	49,2
Kengtung-Garrison	...	14,4
Mekran Escort	1,5	6
Occupation of Chitral and its Communications	...	86,6
Mecong Escort	2,5	3,2
Afghan Baluch Boundary Escort	...	2
Afghan Boundary Demarcation	5,2	1,4
Waziri-Afghan Boundary Demarcation and Waziristan Field Force	102,2	57,2
Chitral Relief Force	150,0	1,610,3
Perso-Baluch Boundary Escort	...	1,9
	377,2	1,966,9

434. Of the excess of 1,589,7 under *Expeditions and Special charges* 163,6 was due to charges on account of the "Tochi Garrison," the "Kengtung Garrison," "occupation of Chitral and its communications," and the "Perso-Baluch Boundary Escort," for which there was no provision in the Budget. 1,409,3 on account of "Chitral Relief Force" and 28,0 for the "Wano Garrison." These excesses were counterbalanced to a small extent by savings in the provision for "Kurram Escort" (4,0), Afghan Boundary Demarcations" (3,8), "Waziri-Afghan Boundary Demarcations and Waziristan Field Force" (45,0), and the "Gilgit Agency" 18,9. Under *Other items* the saving was due chiefly to the amalgamation of the appointment of Military Examiner in Hindustani in the Madras Command with that of Persian and Hindustani Translator to the Government of Madras (2,0), to fewer officers, and men having passed in Native languages and to reduction in reward (4,5), to less travelling allowances (1,1), to less extra staff and command allowances (1,9), to savings on account of purchase and rents of lands and buildings (3,4), to over-estimate under telegrams and contingencies (16,0), and to less charges under camps-of-exercise and instruction, due chiefly to no camps-of-exercise having been held in the Punjab Command in consequence of the employment of troops on field service and to less expenditure in other commands.

435. The saving under *Volunteer Corps* was chiefly due to the appointment of Adjutant of the Administrative Battalion, Presidency Volunteer Rifles, having been vacant for a part of the year (4), to Exchange Compensation Allowance owing to alterations in the rate of exchange and the above cause (4), to less punkha-pulling charges in the Madras Command (3), to lapse of a portion of the grant for Volunteer buildings (1,3), to less capitation grants owing to fewer Volunteers having qualified for it (1,8), to less expenditure for construction of rifle ranges, camps-of-exercise, and allowances for field days (1,8), and to capitation grants having been drawn for fewer reservists than anticipated (6), partly counterbalanced by more travelling charges (9), due to more frequent moves of Sergeant Instructors than anticipated.

Non-effective Charges.

436. Under *Rewards for Military Services* the charges were less than anticipated. *Military Pensions to Europeans* showed a saving of 9,1, due almost entirely to less payments on account of capitalized pensions. Under *Military Pensions to Natives* there was a saving of 13,9, due chiefly to casualties and stipends not having been claimed when they fell due (4,5), to less charges for compensation for dearness of provisions to Madras pensioners owing to the favourable rates for rice (4,8), to fewer gratuities to Native soldiers and followers (1,3), and to less charges for family pensions owing to casualties, and to pensions not having been claimed (4,1), partly counterbalanced by more admissions of the hospital assistant class to the pension establishment (2), and by increased grants of gratuities (3) to men discharged from the Reserves. The small saving under *Widows' Pensions and Compassionate Allowances* was due to casualties, to pensions not having been claimed, and to transfers to England, partly counterbalanced by a fall in the rate of exchange for payment of pensions paid in sterling. Under *Superannuation Pensions and Gratuities* the excess was due to a greater number of admissions to the pension establishment, and to more discharges with gratuity than was anticipated.

Section L.—ARMY SERVICES—EXPENDITURE—*continued.*

Expenditure in England.

437. Under *Home charges of British Forces serving in India* the saving occurred mainly in furlough charges. Under *Furlough allowances to Officers in the Indian Service* the decrease was due to fewer officers than anticipated having been at home on furlough. The saving under *Indian Troops Service* occurred in connection with hired transports. A larger number of officers than was estimated were provided with *Passages otherwise than in Troop-ships*. Under *Stores for India* the saving was due to the order for certain supplies of cordite having been cancelled, to payments to the War Office having fallen short of the estimate. The saving under *Retired Pay, etc., of British Forces on account of service in India* was due partly to adjustment of an excess payment (10,9) of the previous year, and partly to the payments having been less than was estimated. There were decreases in the several classes of *Miscellaneous Pensions*.

Upper Burma Charges.

438. The details of the extra charges for Upper Burma during the year, which amounted to 323,6 against 374,1 in 1894-95, are given below. The Upper Burma charges include 3 on account of cold weather field operations and 30,5 on account of Chin-Lushai:—

Grants	Upper Burma Accounts. 1894-95	1895-96
Army and Garrison Staff	26,0	23,6
Administrative Staff	9,2	9,9
Regimental Pay, Allowances, and Charges	43,3	43,5
Commissariat Establishments, Supplies and Services	235,1	196,1
Remount and Veterinary Establishments, Supplies and Services	2,6	2,5
Clothing Establishments, Supplies and Services	...	...
Barrack Establishments, Supplies and Services	8,3	7,3
Administration of Martial Law	...	...
Medical Establishments, Supplies and Services	27,3	25,6
Ordnance Establishments, Stores and Camp Equipage	—1,4	—1,7
Ecclesiastical	1,1	1,0
Education	1	...
Sea Transport Charges	7,5	3,8
Miscellaneous Services	10,5	8,9
Volunteer Corps	3,1	2,8
Rewards for Military Services	6	...
Military Pensions	9	8
Total	374,1	323,6

Section LL.—SPECIAL DEFENCE WORKS—EXPENDITURE.

47.—Special Defence Works.

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
217,9	EXPENDITURE . .	154,7	110,5	101,3

439. Owing to the completion of some works and the approaching completion of others the expenditure in 1895-96 fell short of that of the previous year by 116,6. The Budget Estimate of expenditure in India was over-estimated.

440. The distribution of expenditure is noted below :—

1894-95. Accounts.		Budget.	1895-96. Revised.	Accounts.
67,3	India	70,0	21,7	21,7

441. The figures shown under this head represent the surplus or deficit of each Provincial Government in respect of the revenues and charges assigned to it, including Incorporated Local Funds. The differences between the Estimates and Accounts under the various Revenue and Expenditure heads have been explained in detail in the foregoing pages, and the share of these pertaining to the Provincial and Local sections of the accounts for the several groups is given below separately for each province. The total Provincial and Local shares of the Revenues were, on the whole, better than the Budget by 569,8 and 118,2 respectively. The expenditure was in both cases less by 266,2 and 48,2 respectively, consequently the Provincial and Local balances were better than expected by 569,8 + 266,2 = 836,0 and 118,2 + 48,2 = 166,4 respectively. The Budget anticipated deficits in the Provincial and Local accounts to the extent of 411,7 and 211,6 respectively, and as there were improvements of 836,0 and 166,4 over the Budget as just shown, the Provincial balance was increased during the year by (836,0 −411,7) 424,3, and the Local balance was diminished by

(211,6 —166,4) 45,2, or, taken together, the actual increase in the balances in the course of the year amounted to 424,3 —45,2 =379,1 as shown above. The improvement was contributed by all the Provinces except the North-Western Provinces, which showed a deficiency in receipts, chiefly under Irrigation, partly counterbalanced by decrease of expenditure under Irrigations and Buildings and Roads. The largest improvement occurred in Burma, chiefly in the Principal Heads of Revenue, Railways, and in the charges under Civil Departments and Buildings and Roads. Bengal, Madras, and Bombay also showed large improvements under the Principal Heads of Revenue, both in the Provincial and Local Sections. The improvement in Assam was due to the increase of receipts under the Principal Heads of Revenue and decrease of expenditure under that Direct Demands on the Revenues, Civil Departments and Buildings and Roads. The improvements in the other Provinces do not call for special notice.

442. The excess, as compared with the actuals of the previous year, was due chiefly to the refund of special contribution of 405.0 to Imperial made in 1894-95.

Section N.—EXPENDITURE NOT CHARGED TO REVENUE.

1894-95. Accounts.		1895-96. Budget.	Revised.	Accounts.
4,446 2	EXPENDITURE . .	4,400,0	4,327,2	4,087,2

443. In 1894-95 the Capital Expenditure on Railways and Irrigation Works amounted to 5,003,1, of which 556,9 was met out of the Famine Insurance Grant. In the Budget for 1895-96, that grant having been suspended owing to Financial pressure, the whole of the Capital Expenditure was provided under this head outside the Revenue Account. The total expenditure provided in the Budget Estimate was 4,400,0 made up of 3,700,0 for Railways and 700,0 for Irrigation Works. During the course of the year it was considered expedient to raise the grant, and 4,862,0 was accordingly provided in the Revised Estimate.

444. The following table shows the comparison of the whole of the Capital Expenditure with the Estimates of the year and the actuals of the previous year:—

1894-95. Accounts.		1895-96. Budget.	Revised.	Accounts.
559,9	34.—Construction of Protective Railways	...	534,8	529,9
3,852 1	48.—State Railways	3,700,0	3,622,2	3,387,2
594,1	49.—Irrigation Works	700,0	705,0	700,0
5,003,1		4,400,0	4,862,0	4,617,1

445. The provision made for expenditure in England on stores could not be fully utilized, and endeavours were made to counterbalance this lapse by the more vigorous prosecution of work in India, but these efforts were only partially successful owing to the late date at which the probability of a lapse in England was known, and the total actual expenditure amounted only to 4,617,1, out of which 529,9 was charged to Revenue under Protective Railways on the partial restoration of the Famine Insurance Grant.

446. As regards the *Lines under Construction*, the lapse on the Godhra-Rutlam Railway was due to the clearance of the suspense accounts on the completion of the line which it was anticipated would be effected in 1894-95 not having taken place till 1895-96, in which year's accounts the credit appears. The excess on the Mari-Attock Railway was due to vigorous prosecution of works, with a view to the early completion of the line. The lapse on the Mushkaf-Bolan Railway was due to provision having been made for English stores for doubling the line, but this was eventually altered to provision for a single track, and also to heavier sales of materials to other lines than were anticipated. The grant for the East Coast Railway was exceeded in consequence of insufficient provision having been made for Formation, Ballast, Bridge-work and Ferries to meet the requirements of traffic The lapse on the Assam-Bengal Railway, Part I, is due to the estimates of their expenditure by land acquisition officers having been considerably in excess of what was actually spent, and partly to a write-back from Part I to Part II for buildings and land taken up for manufacturing operations. In accordance with the agreement with the Assam Bengal Railway Company, the Secretary of State provides funds for Part II—Construction—when the Company's paid up Capital is exhausted; the expenditure on this account in excess of the Company's paid up capital was 320.4. The lapse on the Rutlam-Nagda Railway was due to provision having been made in the Budget for expenditure on the entire length from Rutlam to Ujjain, but it was subsequently decided that the Nagda-Ujjain Section should be constructed out of funds provided by the Gwalior Durbar The grant of the Kotri-Rohri Railway was exceeded owing to the works having been vigorously pushed forward, and to expenditure having been incurred in connection with the Indus bridge at Kotri. The grant of the Wazirabad-Lyallpur Railway was exceeded owing to erection of rolling-stock for which no provision was made. The lapse on the Cawnpore-Lucknow-Gogra Railway was due to the fact that the Budget was based on the preliminary estimate for the project which was subsequently very considerably modified and large savings effected on several items in the final estimate, more particularly under Permanent way, the actual rates for both new and second-hand materials being below estimate rates.

447. No separate provision was made in the Budget Estimate for the construction of the Rae Bareli-Benares, Mandalay-Kunlon, Bezwada-Madras (Ennore-Bezwada Section) railway lines which were commenced during the course of the year, the funds required being met from the reserve and from savings on the grants of other lines.

448. As regards the *Open Lines* there was a lapse on the East Indian Railway which was due to the fact that in the Budget Estimate provision was made from the head "48" to the extent of 310,0, the balance of expected outlay being provided from funds raised by the Company by the issue of debentures. The Secretary of State has directed that the funds raised by the Company should first be applied to meet capital outlay, and when exhausted the Imperial funds should be drawn against. The sum thus expended out of Imperial funds amounts to 249,4. The grant of the Rajputana-Malwa Railway system was exceeded owing to the works at Ujjain having remained at debit of miscellaneous advances at close of the year, to increased purchases of coal, and to smaller issues of stores to Revenue than was anticipated. The grant of the Eastern Bengal Railway was exceeded owing to work having begun on the doubling of the line from Ranaghat to Poradah and to the purchase of sleepers. The lapse on the Tirhoot Railway was due to short outlay under Bridgework, changing of girders over Boor Gunduck, Kosi and Bagmatti and other bridges on the Eastern Branch, and under rolling-stock, and to larger credits realized from Revenue than anticipated. The lapse on the Oudh and Rohilkhand Railway was due to certain proposed works, the principal of which being interlocking at stations, travelling cranes and new press building having been deferred or abandoned; to savings in ballasting, repairs to breaches at the Gurrah river and transfer of an engine to the North Western Railway, and to sales of surplus plant and stores which could not be foreseen. The grant of the North Western Railway was exceeded owing to the doubling of the line between Karachi and Kotri and to the transfer of an engine from the Oudh and Rohilkhand Railway. The excess on the Gradient Improvement works was due to more work having been done on earthwork on the Bakrala and Sehala projects, and on bridges over the Rivers Ling,

Section N.—EXPENDITURE NOT CHARGED TO REVENUE—*concluded.*

48.—State Railways—*concluded.*

Kurring, and Sohan. The lapse on the South Indian Railway was due to the postponement of several large works, and to a lapse in the amount provided for outlay in England.

449. On *other Railways* the principal lapses occurred on the Warora Colliery, due to the abandonment of work in connection with the proposed new pits Nos. 7 and 8; and on the Dhond and Manmad Railway due to a saving on the estimated English cost of girders required for the replacement of 7 spans of Warren girders, and to the arrival of those girders too late to admit of the completion of the work during the year.

450. The decrease in the expenditure in England was due to the demands for stores having been less than estimated.

49.—Irrigation Works.

4,5	England	2,6	3,5	3,6
3,8	Exchange	2,2	2,6	2,8

451. The increase in the expenditure, as compared with that of the previous year, was due to the restriction of expenditure in 1894-95 owing to financial pressure. The expenditure has very closely worked up to the Budget Estimate.

Temporary Loans Discharged	2,000,0	2,000,0	2,000,0

452. Detailed explanation of the various entries under this head has already been given on page 41, where the interest charges were considered.

Section P.—UNFUNDED DEBT.

	1895-96. Budget.	Revised.	Accounts.
Special Loans	..	+9	+7
Treasury Notes and Service Funds, India	+52,4	+67,5	+143,2
Savings Bank Deposits	+469,9	+585,1	+595,1
TOTAL	+522,3	+653,5	+739,0

453. The credit entry under "Special Loans" represents the adjustment of the commutation value of lapsed Wasika pensions revived during the course of the year. The entry in the Accounts under Treasury Notes and Service Funds includes the adjustment of two years' interest on account of the Uncovenanted Service Family Pension Fund, Bengal, as explained in paragraph 122 under 14—Interest on other obligations and the sale-proceeds of the Government Promissory Notes belonging to the Madras Assistant Surgeons' Fund. The details of *Savings Bank Deposits* are as follow :—

	Budget.	Revised.	Accounts.
Presidency Savings Banks	—20,6	—69,0	—153,1
Post Office Savings Banks	+364,0	+535,0	+640,5
State Railway Provident Institutions	+56,5	+66,8	+62,5
Civil Engineers' Provident Fund	+39,1	+22,5	+26,8
Regimental Savings Banks	+5	+21,5	+9,5
Special accounts	+30,4	+8,3	+8,9
TOTAL	+469,9	+585,1	+595,1

454. The large fluctuation under *Presidency* and *Post Office Savings Banks* was due to the transfer of the Presidency Savings Banks to the Post Office. Those under *Regimental Savings Banks* are dependent to a great extent on the transfers of British Regiments between India and England and are not therefore susceptible of an accurate forecast. Under *Special Accounts* the falling-off was due to the fixed deposit of 20,0 in the hands of the Administrator General, Bombay, being refunded to that officer, and to the withdrawal of 1,1 by the Director of the Bengal Christian Family Pension Fund for investment in Government Securities.

TOTAL			— 823,2			— 1,087,2			—1,316,0

455. The net credit under *Provincial Balances* has been explained in paragraph 441. The improvement in the net result under *Excluded Local Funds* occurred mainly in Bombay, and was due to the transfer of certain Funds to Personal Deposits. Under *Railway Funds* the net credit was chiefly on account of the Fire Insurance, the Guarantee and Contractors' security and the Provident Funds of the Bombay, Baroda and Central India Railway, the Fire Insurance Fund of the Great Indian Peninsula Railway, and the Provident Fund of the Madras Railway. The Budget under *Deposits of Sinking Funds* provided for the receipts on account of the Victoria Dock, Bombay, and the Kidderpore Dock in Bengal, but no portion of the amount on account of the latter was recovered during the year. The debit in account represents the balance of the Lahore Water Works Sinking Fund which has been credited to Government towards the repayment of the principal of the loan granted to the Municipality. The character and magnitude of the transactions recorded under *Judicial and Departmental Deposits* render an accurate forecast impossible. The net credit was contributed chiefly by Bengal in Revenue Deposits, Civil Courts Deposits, Criminal Courts Deposits, and Municipal Funds Deposits, by the North Western Provinces in Personal Deposits and Trust Interest Funds, by Punjab in the Revenue Deposits and Personal Deposits, by Madras in the Revenue, Civil Courts and Municipal Funds Deposits, by Bombay in the Revenue, Civil Courts, Personal Deposits, Municipal Funds and Trust Interest Fund. Under Personal Deposits the increase was partly due to the transfers referred to above from "*Excluded Local Funds.*"

456. The net figures entered against the head *Advances* may be divided as follows :—

	Budget.	Revised.	Account.
Coinage Accounts	+ 100,0	— 21,0	+ 21,2
Other Advances	+ 88,4	+ 82,1	+ 87,9
	+188,4	+ 61,1	+ 109,1

457. The Budget under *Coinage Accounts* provided only for a reduction of 100,0 in the Small Coin Depôt balances, but the actuals show a reduction of 52,2 in these balances. There was a debit of 12,6 on account of an increase in the balances of Bullion at the Mints, chiefly due to the coinage of Dollars at the Bombay Mint for the Government of the Straits Settlements. There was a debit of 18,4 under Copper Coinage Account, due to an increase of 22,9 in the stock of coin and copper at the Mints, and the Small Coin Depôts at the close of the year, reduced by a credit of 4,5 on account of profits. The net credit under *Other Advances* is the final outcome of a number of transactions which do not require special notice here. Under *Suspense Accounts* the debit of 182,0 was chiefly on account of Pre-audit cheques, and on account of balances in the hands of Departmental Officers, notably of the Opium Agents at Behar and Benares.

458. The gross credits and debits working up to the net figures under *Exchange on Remittance Accounts* are as follows :—

Budget, 1895-96. Sterling Amount.	Exchange. Cr.	Exchange. Dr.		Accounts, 1895-96. Sterling Amount.	Exchange. Cr.	Exchange. Dr.

T

Section Q.—DEPOSITS AND ADVANCES—*continued.*

459. The following is a statement of the adjustments in the accounts by which the above result was obtained:—

1895-96. Budget. Sterling.	1895-96. Budget. Exchange.		1895-96. Accounts. Sterling.	1895-96. Accounts. Exchange.
17,000,0	14,166,7	Bills drawn by the Secretary of State . .	17,664,5	13,420,9
192,8	160,7	Net remittances of Railway Capital to India .	248,1	188,5
—757,0	—630,8	Miscellaneous remittances	—655,8	—498,2
		Deduct—		
16,589,2	*13,824,3*	Net expenditure in England	*16,063,1*	*12,204,3*
	127,7	Difference, being Exchange brought to account in excess of that involved in the Remittances from India during the year	...	906,9

460. The debit under *Miscellaneous* was chiefly on account of the Exchange on the decrease in the balance of the Secretary of State's bills which remained unpaid at the end of the year.

Section R.—IMPERIAL LOANS AND ADVANCES.

	1895-96. Budget.		1895-96. Accounts.	
Imperial Loans and Advances . . .	114,0	—163,9	137,1	—211,6

461. The following are the details :—

1895-96. Budget. Amount advanced.	1895-96. Budget. Amount repaid.		1895-96. Accounts. Amount advanced.	1895-96. Accounts. Amount repaid.
7,5	6,5	Loans to Native States	41,7	18,1
25,7	54,2	„ Presidency Corporations and Port Trusts . .	58,5	74,1
2,7	6,4	„ Mofussil Municipalities	1,6	4,7
93,5	1,3	„ District and other Local Committees . .	89,2	9,6
...	4	„ Landholders and Notabilities	2	5
34,5	45,2	Advances to Cultivators	20,4	30,1
163,9	114,0	TOTAL AS ABOVE .	211,6	137,1

462. The receipts and payments under *Loans to Native States* were on account of advances to the Sultan of Muscat and to the Cooch Behar State, provision for the latter having been made in the Budget under Section *R. R.—Provincial Loans and Advances.* Under *Loans to Presidency Corporations and Port Trusts* the Budget provided 17,5 for the Victoria Dock Loan in Bombay, but only 12,5 was taken up and 8,2 for the Madras Harbour Port Trust, but subsequently the Government of India sanctioned a further sum of 37,3, both of which were taken up. The repayments were as follow : 1,2 by the Bombay Municipality on account of the Vehar Water-works ; 19,9 being the sale proceeds of land belonging to the Bombay Port Trust, which was applied equally to the reduction of the interest-bearing and the non-interest-bearing portion of the debt ; 43,0 repaid by the Calcutta Port Trust and Calcutta Municipal Corporation, and 10,0 by the Madras Harbour Trust Fund. The Budget under *Loans to Mofussil Municipalities* provided for a loan of 2,7 to the Quetta Municipality, which was not taken up : but 1,6 sanctioned during the previous year for certain Municipalities in Upper Burma, were taken up in the year under review. The repayments in India exceeded the Estimate by 7 and in Burma by 2, but owing to the Estimate having erroneously provided in Burma twice for the same repayment the result is an apparent falling-off. Under *Loans to District and other Local Committees* the receipts and payments were chiefly on account of the Military Department. Owing to improved agricultural prospects the *Advances to Cultivators* in Burma have not been so high as anticipated, while the recoveries have been larger. The actual improvement under this head was 1,7 and not a falling-off of 15,1 as shown above, the latter figure was the result of the erroneous inclusion of the anticipated repayments twice in the Budget.

Section RR.—PROVINCIAL LOANS AND ADVANCES.

	1895-96. Budget.		1895-96. Account.	
Provincial Loans and Advances . . .	345,1	—808,6	369,1	—533,2

463. The following are the details :—

1895-96. Budget. Amount advanced.	1895-96. Budget. Amount repaid.		1895-96. Accounts. Amount advanced.	1895-96. Accounts. Amount repaid.
441,8	53,5	Loans to Mofussil Municipalities	242,3	46,4
...	6,6	„ Port Funds	...	6,5
26,0	9,8	„ District Committees	23,0	12,5
37,5	22,7	„ Landholders, etc.	1,9	47,4
277,7	232,6	Advances to Cultivators	261,7	239,3
25,6	19,9	„ under Special Laws	4,3	17,0
808,6	345,1	TOTAL AS ABOVE .	533,2	369,1

Section RR.—PROVINCIAL LOANS AND ADVANCES—*continued.*

464. Under *Loans to Mofussil Municipalities* the following are the principal advances made during the year:—

Khandwa Municipality		8,8
Howrah	,,	90,0
Benares	,,	20,0
Dehra Dun	,,	9,1
Delhi	,,	8,4
Conjeeveram	,,	8,0
Meerut	,,	65,0
Bandra	,,	7,0
	TOTAL .	216,3

465. There were savings in all the Provinces, due in Bengal to smaller advances to the Howrah and Bhagulpur Municipalities, in the Central Provinces to the amount provided for the Khandwa Municipality not having been fully taken up, in Bombay to the provision for the Dharwar Municipality not having been required, in the North-Western Provinces to those for the Bareilly, Hardwar, and Farukabad Municipalities nothing having been drawn, and in Punjab and Madras the advances fell short of the expected amounts.

466. Under *District Committees* the provision in the Budget for advances to the District Board of Dharwar was only partially utilised, whereas that for the Bijapur Local Board was not required. Under *Loans to Landholders, etc.*, provision was made under this head for the advance of 35,0 to the Maharajah of Cooch Behar, but the adjustment on this account was made under Section R—*Imperial Advance and Loan Account*. The Budget did not include the repayment of 39,0 made by the Deo estate in Gya.

467. Under *Advances to Cultivators* the advances fell short of the estimate in Bengal, Punjab and Madras, in consequence of a more favourable season, while in the Central Provinces the advances exceeded the estimate in the Damoh and Saugor districts owing to scarcity. The repayments were better in most of the provinces, that in the North-Western Provinces being largest.

468. The *Advances under Special Laws* represent chiefly the Drainage and Embankment advances in Bengal, which were over-estimated in the Budget. The recoveries were also chiefly on account of these advances, of advances under the Jhansi Encumbered Estates Acts and the Oudh Talukdars' Relief Act, and of advances by Talukdari, Settlement Officers, and to Kaira Thakoors in Bombay.

	—395,8	—373,3	—364,7	+201,1	+426,4	+497,0	—189,7	+53,1	+132,3
Total .	—196,8	—144,2	—135,1	—422,2	—132,9	—50,8	—619,0	—277,1	—185,9

469. As explained in former reports, these are all net sums The Indian figures represent the difference between the advances taken by the Railway Companies and the credits given to them chiefly on account of stores used on revenue account. The English figures represent the difference between the capital deposited by the companies with the Secretary of State, and the withdrawals for expenditure on stores, establishment charges, etc. These figures are necessarily liable to great fluctuations.

470. In India the receipts from sale of old stores and value of stores issued to Revenue exceeded the estimates by 51,6, due to an improvement of 109.3 and 17.3 under Bombay, Baroda and Central India and Madras Railways respectively, counterbalanced by a falling-off of 75,0 under Great Indian Peninsula Railway. The expenditure in the total showed an increase of 21,0 only, but there were large variation under individual railways. Under Bombay, Baroda and Central India Railway there was an excess outlay of 90,4, while under the Great Indian Peninsula and Madras Railways the actual expenditure fell short of the expectation by 55,6 and 13,8 respectively.

471. Under Subsidized Railways the actual expenditure exceeded the Estimates by 132,8, chiefly in the construction of the Assam-Bengal and Bengal-Nagpur Railways, while no provision was made in the Estimates for 163,8 share capital raised in India for the South Behar Railway (100,0) and the Ahmedabad Parantij Railway (63,8).

472. In England there was a decrease under Receipts and Expenditure owing to renewal of debentures amounting to 2,778,5 of the Indian Midland, Great Indian Peninsula, and the Madras Railways, which in the Budget were expected to be discharged. Under Expenditure there was a saving of 101,4 under Stores, Establishment charges, etc. Under Receipts the account includes 270,7 raised by the Indian Midland Railway Company for the Saugor Katni extension and 10,8 share capital received from the Assam-Bengal Railway in excess of the estimate. The receipts on amount of Transfer fees and Miscellaneous Refunds, which are of a very uncertain nature, exceeded the estimates by 8,6.

TOTAL	—2,5	+683,0	+80,5

473. The figures entered in this group are the net result of very large transactions, but there i nothing special to record in respect of them. The Money Order transactions continued to show a rapi growth as will be seen from the following figures :—

		Issued.	Paid.
1889-90	Money Order transactions	14,418,5	14,393,1
1890-91		16,484,7	16,485,6
1891-92		17,365,8	17,349,3
1892-93		18,117,7	18,098,9
1893-94		19,290,8	19,294,5
1894-95		20,452,8	20,430,8
1895-96		21,757,8	21,739,6

Section U.—SECRETARY OF STATE'S BILLS.

	Budget.	1895-96. Revised.	Accounts.
Drawings	17,000,0	18,300,0	17,664,5
Payments	17,706,8	18,743,7	18,742,2

474. The following are the amounts of bills and transfers drawn during the year by the Secretary of State :—

		£	Rs.	Rate in Pence.
April	1895	1,458,0	2,617,6	13·37
May	,,	1,704,8	3,073,8	13·31
June	,,	1,400,8	2,532,7	13·27
July	,,	1,691,8	3,081,4	13·18
August	,,	1,668,4	3,024,1	13·24
September	,,	1,310,9	2,333,2	13·48
October	,,	1,402,9	2,448,2	13·75
November	,,	1,448,1	2,522,4	13·78
December	,,	1,493,5	2,584,1	13·87
January	1896	1,515,5	2,598,8	13·99
February	,,	1,715,4	2,865,3	14·36
March	,,	854.4	1,403,9	14·61
		17,664,5	31,085,5	13·64

475. The payment account of the year is as follows :—

	£	Rs.
Bills of 1894-95 outstanding on 1st April 1895	1,191,8	2,185,4
Bills drawn in 1895-96 as entered above	17,664,5	31,085,5
TOTAL BILLS FOR PAYMENT	18,856,3	33,270,9
Bills paid in 1895-96	18,742,2	33,080,9
Bills outstanding on 1st April 1896	114,1	190,0

Section V.—CASH BALANCE.

	Budget.	1895-96. Revised.	Accounts.
BALANCE ON 1ST APRIL 1895—			
India	22,679,5	22,529,5	22,529,5
England	2,446,2	2,503,1	2,503,1
TOTAL	25,125,7	25,032,6	25,032,6
BALANCE ON 31ST MARCH 1896—			
India	16,062,7	16,500,5	16,500,5
England	1,676,5	3,794,7	3,393,8
TOTAL	17,739,2	20,295,2	19,894,3
Increase (+) or decrease (—) of balance on 31st March 1896	—7,386,5	—4,737,4	—5,138,3

476. The above difference is distributed between India and England in the following proportions :—

	Budget.	1895-96. Revised.	Accounts.
India	—6,616,8	—6,029,0	—6,029,0
England	—769,7	+1,291,6	+890,7
TOTAL	—7,386,5	—4,737,4	—5,138,3

477. Taking India and England together, the net transactions of the year were better than expected in the Budget by the sum of 2,248,2. The variations which brought about this result are as follows :—

	Better.	Worse.
Improvement in Imperial Surplus	1,487,8	...
Do. in Provincial Surplus	1,002,4	...
Decrease in Capital Expenditure not charged to Revenue	312,8	...
Decrease under Ordinary Debt discharged	303,7	...
Increase in deposits of Savings Banks	125,2	...
Increase under Departmental and Judicial Deposits	146,7	...
Net excess debit balance under Suspense Accounts	...	171,2
Net short payments under Loans and Advances by Provincial Governments	299,4	...
Short withdrawals by Railway Companies	433,1	...
Decrease in the balance of Secretary of State's Bills remaining unpaid at the end of the year	...	678,1
Decrease in Exchange charged as Expenditure in excess of that involved in the Remittances from India	...	1,034,6
Minor variations	21,0	...
	4,132,1	1,883,9
NET BETTER	2,248,2

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY STATISTICS.

RETURNS OF ACCIDENTS ON INDIAN RAILWAYS FOR THE NINE MONTHS ENDING WITH THE 30th SEPTEMBER 1896.

No. 132 R. Stat., dated Calcutta, the 6th March 1897.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Government of India order No. 350 R. Stat., dated the 2nd September 1896.

Read also—

The following note by the Director General of Railways, No. 109 Stat., dated the 25th February 1897, with abstract returns of accidents to trains, etc., on the open lines of railway in India for the nine months ending with the 30th September 1896.

1.—Accidents to trains, rolling stock, permanent-way, etc.

Accidents to trains, rolling stock, permanent-way, etc., during the nine months ending with the 30th September 1896, as shown under abstract No. 4, on pages 14 and 15 of the accompanying returns, caused the death of 35 and injury to 118 persons. The number of persons (both killed and injured) was above the figure reported during the corresponding period of the previous year, and the number of accidents also showed a heavy increase, as will be seen from the following table, which compares the total number of accidents and the casualties resulting therefrom with the corresponding period of the previous year under the heads "Standard gauge", "Metre gauge" and "Special gauges". The increase in the number of persons killed was mainly due to 11 passengers having been burnt in the accident on the East Indian railway on the 27th April and 13 persons killed in the collision at Delhi on the Rajputana-Malwa railway on the 24th July 1896; and in the number injured to 32 passengers having been injured in the accident on the Eastern Bengal (state) railway, standard gauge, on the 8th February 1896, and 22 persons injured in the collision at Delhi mentioned above :—

	Number.			Number of passengers and others.		Number of servants.		Total all classes.	
	Accidents reported to Local Governments under section 83 of the Indian Railways Act (IX of 1890)	Other accidents.	Total.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard gauge.									
Nine months ending with the 30th September 1896	78	1,893	1,971	(a) 16	(b) 51	2	28	18	79
Corresponding period of 1895	75	1,799	1,874	(c) 11	(d) 37	5	16	16	53
Metre gauge.									
Nine months ending with the 30th September 1896	93	1,597	1,690	(e) 15	(e) 29	2	8	17	37
Corresponding period of 1895	54	1,577	1,631	(f) 2	(b) 8	5	7	7	15
Special gauges.									
Nine months ending with the 30th September 1896	14	40	54	...	...	...	2	...	2
Corresponding period of 1895	2	54	56	...	(f) 1	...	3	...	4
Total all gauges for the nine months ending with the 30th September 1896	185	3,530	3,715	(g) 31	(h) 80	4	38	35	118
Corresponding period of 1895	131	3,430	3,561	(a) 13	(i) 40	10	26	23	72

(a) Of these, five were not passengers.
(b) Of these, four were not passengers.
(c) Of these, three were not passengers.
(d) Of these, seven were not passengers.

2. It will be seen from the table below that with an increase of 3·65 per cent. in the mean mileage worked and a decrease of 1·46 per cent. in the train-mileage run during the nine months ending with the 30th September 1896, the number of accidents increased by 154 or 4·32 per cent. as compared with the corresponding period of the previous year:

	INCREASE OR DECREASE, AS COMPARED WITH THE CORRESPONDING PERIOD OF THE PREVIOUS YEAR.					
	ACCIDENTS.		MEAN MILEAGE.		TRAIN-MILEAGE.	
	No.	Per cent.	Miles.	Per cent.	Miles.	Per cent.
Standard	+97	5·18	+394	+3·56	−712,858	−2·05
Metre	+59	+3·62	+301	+3·91	−50,507	−0·33
Special	−2	−3·57	.	...	+24,785	+7·45
TOTAL	+154	+4·32	+695	+3·05	−738,580	−1·46

3. Although the general total showed an increase, there were large variations on the standard and metre gauge railways in the number of accidents of different classes, as compared with the corresponding period of the previous year, as will be seen from the following statement which exhibits them under the different classes:

GAUGE AND CLASSIFICATION.	INCREASE OR DECREASE.			Percentage of increase or decrease.
	Serious.	Minor.	Total.	
Standard gauge.				
Collisions between goods trains or parts of goods trains	−2	−46	−48	−60·57
Goods trains or parts of goods trains, engines, etc., leaving the rails	−12	−41	−53	−38·69
Trains or engines travelling in the wrong direction through points	+2	+49	+51	+127·50
Trains running over cattle on the line	+3	+76	+79	+9·84
Trains running over obstructions on the line	−1	−36	−37	−38·95
The bursting of tubes, etc., of engines	−1	−15	−16	−21·62
The failure of machinery, springs, etc., of engines	+1	+37	+38	+16·89
The flooding of portions of permanent-way	−10	+25	+15	+4·54
Slips in cuttings or embankments	...	+10	+10	+83·33
Fire in trains	−2	+38	+36	+61·02
Under the head "Other accidents"	+3	+22	+25	+24·27
Metre gauge.				
Collisions between goods trains or parts of goods trains	−4	−17	−21	−80·77
Trains or engines travelling in the wrong direction through points	+5	+6	+11	+26·83
Trains running over cattle on the line	+8	+75	+83	+9·65
The failure of machinery, springs, etc., of engines	+1	+21	+22	+19·82
The flooding of portions of permanent-way	+3	−17	−14	−42·42
Fire in trains	−1	−17	−18	−31·03
Under the head "Other accidents"	+1	+10	+11	+10·92

It will be observed from the foregoing, that the principal increases on the standard gauge lines occurred under "Trains or engines travelling in the wrong direction through points", 51 accidents, or 127·50 per cent., partly due to more accurate classification; under "Trains running over cattle on the line", 79 accidents, or 9·84 per cent., partly due, it is stated, to the drought and consequent scarcity of fodder, villagers having in many cases driven their cattle on to the railway line to graze; under "The failure of machinery, springs, etc., of engines", 38 accidents, or 16·89 per cent.; under "Fire in trains", 36 accidents, or 61·02 per cent.; and under the head "Other accidents", 25 accidents, or 24·27 per cent.; and on the metre gauge railways under "Trains running over cattle on the line", 83 accidents, or 9·65 per cent., possibly due to the cause noted above and partly also to the opening of new lines; and under "The failure of machinery, springs, etc, of engines", 22 accidents, or 19·82 per cent.

4. The number of cattle accidents was largest on the Southern Mahratta railway, *viz.*, 276; next to that line comes the South Indian railway with 267, then the North-Western (state) railway with 188, the East Indian railway with 169, the Rajputana-Malwa railway with 131, the Eastern Bengal (state) railway (standard gauge section) with 112, the Madras railway with 107, the Eastern Bengal (state) railway (metre gauge section) with 67, and the Nizam's Guaranteed State railway with 66.

In relation to the train-mileage run, the number was highest on the Dibru-Sadiya railway, which gave an average of 1 accident in 5,835 train-miles run; the Oodeypore-Chitor railway coming next with an average of 1 in 7,153; then the Assam-Bengal, the Nizam's Guaranteed State, the Jodhpore-Bickaneer and the Bengal Dooars railways with averages of 1 in 7,793, 1 in 8,467, 1 in 8,739 and 1 in 9,000, respectively.

The lowest number recorded relatively to the train mileage run was on the Great Indian Peninsula railway, *viz.*, 1 in 173,162 train-miles, the Darjeeling-Himalayan railway coming next with 1 in 136,688, then the Bombay, Baroda and Central India railway with 1 in 74,777, the Gaekwar's Dabhoi railway with 1 in 65,305, the Bengal-Nágpur railway with 1 in 62,676, and the East Indian railway with 1 in 51,720.

5 Under the head "Trains or engines travelling in the wrong direction through points", the largest number, *viz.*, 38, occurred on the Great Indian Peninsula railway, next to it comes the Eastern Bengal (state) railway, standard gauge, with 26 accidents; under "The failure of machinery, springs, etc., of engines", the largest number, *viz.*, 73, occurred on the Bombay, Baroda and Central India railway, next to that line come the Great Indian Peninsula and the North Western (state) railways with 68 and 52 accidents on each, respectively; under "Fire in trains", the largest number occurred on the Great Indian Peninsula railway, *viz.*, 35 accidents, next to that line comes the Madras railway with 27 accidents; and under the head "Other accidents", the largest number, *viz.*, 40, occurred on the Great Indian Peninsula railway, next to that line come the Bombay, Baroda and Central India and the North Western (state) railways with 24 and 23 accidents on each, respectively; under the head "The failure of machinery, springs, etc., of engines", although, as noticed above, the largest number of accidents occurred on the Bombay, Baroda and Central India railway, standard gauge, *viz.*, 73, the increase under this head also occurred on metre gauge lines, the largest number on these railways having occurred on the Southern Mahratta railway, *viz.*, 32.

In relation to the train-mileage run, the total number of accidents was highest on the Jorhát (state) railway, which gave an average of 1 accident in 2,122 train-miles; next to that line comes the Dibru-Sadiya railway, with an average of 1 accident in 2,414 train-miles; then the Cooch Behar, the Assam-Bengal, the Bengal Dooars, and the Rohilkund and Kumaon (including the Lucknow-Bareilly section) railways with averages of 1 in 3,080, 1 in 4,453, 1 in 5,143, and 1 in 5,770, respectively.

The lowest number recorded relatively to the train-mileage run was on the East Indian railway, *viz.*, 1 in 26,894 train-miles, the Bengal-Nágpur railway coming next with 1 in 26,463, then the Oudh and Rohilkhand (state) railway with 1 in 26,256, the Great Indian Peninsula railway with 1 in 22,264, the Indian Midland railway with 1 in 17,225, and the North Western (state) railway with 1 in 16,482.

II.—Accidents from other causes not involving accidents to trains, etc.

6. In addition to those included in Division I; the casualties to passengers, servants in the employ of railways or of contractors, and to others, from causes not involving accidents to trains (which are detailed in abstract No. 2) are compared separately, for each gauge, with the corresponding period of the previous year in the table below :—

Gauges.	Nine months ending with the 30th September 1896.								Corresponding period of the previous year.							
	Passengers.		Servants.		Others.		Total.		Passengers		Servants.		Others.		Total.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard .	32	98	84	149	249	66	365	313	48	91	84	219	241	64	373	374
Metre .	16	35	28	55	113	44	157	134	13	39	31	65	104	40	148	144
Special .	.	...	...	3	...	2	..	5	...	1	...	7	2	1	2	9
Total .	48	133	112	207	362	112	522	452	61	131	115	291	347	105	523	527

Allowing for the opening of new lines, it will be seen from the foregoing table that, except under "Others—killed", the number of persons killed and injured compares favourably with that reported during the corresponding period of the previous year.

III.—Statistical results.

7. The following table gives certain statistical results for the period under review, comparing the number of passengers killed and injured by accidents to trains and from all causes with the number carried and the number of passenger-units carried one mile. Comparative results for the corresponding period of the previous year are also given :—

Particulars.	Nine months ending with the 30th September 1896.				Corresponding period of the previous year.			
	Standard.	Metre.	Special.	Total.	Standard.	Metre.	Special.	Total.
Mean mileage worked . . . Miles.	11,451	7,996	264	19,711	11,057	7,695	264	19,016

Proportion of above to number carried . . . . . ,,	1 in 1,494,727	1 in 1,591,633	...	1 in 1,540,282	1 in 2,176,388	1 in 10,122,454	...	1 in 3,131,124
Number of passengers killed from all causes . . . . ,,	43	28	...	71	56	13	...	69
Proportion of above to number carried . . . . . ,,	1 in 1,633,771	1 in 1,534,789	...	1 in 1,605,364	1 in 1,165,922	1 in 3,114,601	...	1 in 1,543,873
Number of passengers injured from all causes . . . . ,,	145	62	...	207	121	43	1	165
Proportion of above to number carried . . . . . ,,	1 in 484,498	1 in 693,130	...	1 in 550,632	1 in 539,600	1 in 941,623	1 in 676,775	1 in 645,201
Number of passengers killed and injured from all causes . . ,,	188	90	...	278	177	56	1	234
Proportion of above to number carried . . . . . ,,	1 in 373,682	1 in 477,490	...	1 in 410,003	1 in 368,879	1 in 723,032	1 in 676,775	1 in 454,950
Proportion of passengers killed and injured from all causes to number of passenger-units carried one mile . . . . . ,,	1 in 17,247,772	1 in 17,803,235	...	1 in 17,498,247	1 in 16,873,371	1 in 27,766,657	1 in 17,934,738	1 in 19,484,847

It will be seen that the comparison is generally very unfavourable for the reasons explained in paragraph I(1) *ante*.

IV.—Number of persons killed and injured by accidents to trains, rolling stock, etc., during the third quarter of 1896.

8. The following table gives the number of accidents, as classified in abstract No. 4 of the returns, which resulted in loss of, or injury to, life and limb, and shows the railways on which they occurred :—

Railway.	Number of accidents reported during the 3rd quarter of 1896.	Passengers and others.		Servants.		Total.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Standard gauge.							
Bengal-Nágpur	1	...	...	...	1	...	1

Great Indian Peninsula	2	...	...	...	2	...	2
Madras	2	...	4	...	...	...	4
Metre gauge.							
Rajputana-Malwa	2	12	21	1	1	13	22
Southern Mahratta	2	...	...	...	4	...	4
South Indian	1	1	...	...	...	1	...
Special gauge.							
Darjeeling-Himalayan	1	...	...	...	1	...	1
Total	12	13	25	2	9	15	34
Corresponding quarter of 1895	14	2	8	5	10	7	18

The increase in the total number of persons killed and injured during the third quarter of 1896, as compared with the corresponding quarter of the previous year, is due to the collision on the Rajputana-Malwa railway on the 24th July 1896 at Delhi.

9. A brief description of accidents which resulted in loss of, or injury to, life and limb, is given below :

Bengal-Nágpur railway.—On the 29th September 1896, a plate-layer's trolly was run into by a shunting engine at Chakardharpore station. The trolly was smashed and a railway servant injured.

Eastern Bengal (state) railway (standard gauge).—On the 24th July 1896, an engine collided with another near the north crossing of Nos. 7 and 8 lines at Calcutta, owing to the carelessness of the driver of the former engine. A railway servant was fatally injured and both the engines were damaged.

Great Indian Peninsula railway.—On the 21st August 1896, a down mixed train was derailed at mile 360, between Dábki and Akola, owing to the breakage of an axle of a wagon attached to the train due to a flaw in the metal. A railway servant was injured.

On the 9th September 1896, a down goods train collided with an up transhipment train at Samvatsar station, owing to the driver of the train having run past the signal at danger at a high speed. A railway servant was slightly injured.

Madras railway.—On the 19th July 1896, the engine, tender, and the seven leading wagons of a mixed train while entering Lakkiti station were derailed, owing to the left flange of the leading wheel of the engine mounting the switch, the wheel flange being very sharp and the inner table flange of the stock rail being worn immediately in front of the switch. A passenger was slightly injured.

On the 23rd July 1896, while a mixed train was descending Kuppam Ghat near mile 144½ on the Bangalore branch it parted owing to a defective rail, and the front portion ran down to Patchur station and the rear portion was derailed upon a 12-feet girder bridge. Considerable damage was done to rolling stock and permanent-way and three passengers were slightly injured.

Rajputana-Malwa railway.—On the 24th July 1896, a collision took place at Delhi, between the down mail train and a shunting engine, owing to the mail train taking the goods yard line instead of the passenger yard line, due to the points of cross-over road not having been altered for the passenger yard line after the passing of the shunting engine. Twelve passengers and a railway servant were killed and twenty-one passengers injured. Rolling stock was also seriously damaged.

On the 14th September 1896, during shunting operations, while the engine was backing some wagons at Auwa station, it collided with a wagon of a down goods train which was fouling the crossing. A railway servant was injured.

Southern Mahratta railway.—On the 14th July 1896, a collision occurred between a down mixed train and a shuntingengine at Belgaum station, due to the driver of the mixed train running past the distant signal set against him at a high speed. Three railway servants were injured.

On the 15th September 1896, some wagons attached to an up mixed train were derailed and four of them capsized at mile 4½, between Alnávar and Kambárganvi, owing to the breakage of the spring of one of the wagons due to a flaw in the metal. A railway servant was injured.

South Indian railway.—On the 24th August 1896, a light engine running between Búdalúr and Tiruverumbúr stations struck the rear end of a bullock cart standing on the level crossing at mile $\frac{238}{8}$. A woman seated in the cart was fatally injured.

Darjeeling-Himalayan railway.—On the 2nd July 1896, the Consulting Medical Officer's trolly attached to an up goods train was derailed at the 33rd mile, and the officer was slightly injured.

ORDER.—Ordered, that the above note, with the abstract returns and appendices thereto, be communicated, for information, to the Local Governments and Administrations and to the officers noted in the margin.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Burma, Assam and Coorg.
The Resident at Hyderabad.
The Resident in Mysore.
The Agents to the Governor General for Rajputana, Central India and Baluchistan.
The Director General of Railways.
The Consulting Engineers to the Government of India for Railways, Calcutta, Lucknow and Assam.

Ordered, also, that copies be forwarded for the information of Her Majesty's Government.

Ordered, further, that the above note, with the abstract returns, be published in the Supplement to the *Gazette of India*.

G. A. ANDERSON,
Under Secretary.

Documents accompanying.

Abstract returns of accidents for the nine months ending with the 30th September 1896.

Enclosure to Government of India Order No. 132 R. Stat., dated the 6th March 1897.

ABSTRACT No. 1.

General Total.

Number of persons reported, during the nine months ending with the 30th September 1896, as killed or injured on all railways open for traffic in India, distinguishing between passengers, railway servants, and other persons; and distinguishing also, in the case of the two former classes, between accidents caused by accidents to trains, rolling stock, permanent-way, etc., and accidents happening otherwise.

	Standard gauge lines.		Metre gauge lines.		Special gauge lines.		Total all gauges.	
	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Passengers:—

J. E. O'CONOR,
Director-General of Statistics.

T. W. HOLDERNESS,
Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

(FAMINE.)

Return of the number of persons in receipt of relief in districts affected by scarcity.

NOTE.—The figures are compiled from the Local Gazettes, and give the District details of the Provincial totals published weekly in the Crop and ather Summary in the *Gazette of India*.
Non-labouring children and other dependants of relief workers are classed as on relief works when distinguished in the local returns from sons gratuitously relieved in poor-houses or at their homes.

Name of Province and District.	For the week ending the 13th February 1897.			For the week ending the 20th February 1897.			For the week ending the 27th February 1897.			For the week ending the 6th March 1897.

(*a*) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of this line has been taken in hand by the company from the 1st January 1897.

(*b*) Includes the Bhopal-Itarsi railway.

(*c*) Total earnings from 22nd to 29th February 1896.

(*d*) Includes the Godhra-Ratlam-Nagda railway.

(*e*) Includes the Guntakal-Mysore frontier section.

(*f*) Includes the Tirhoot state railway. Although for convenience

(*g*) Includes the Jammu and Kashmir and the Hyderabad-Shadipalli railways.

(*h*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made for the line to be formally taken over, it will be worked by the state on behalf of the company.

(*i*) Includes the Wardha Coal, the Dhond-Manmad, the Khamgaon, and the Amraoti railways.

No. XLV of 1896-97.

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in column *Total Earnings from 1st April 1896*, audited figures have been used as far as possible.

Railway.	Average earnings per mile per week in 1895-96.	Week ending 29th February 1896 — Mean mileage worked.	Week ending 29th February 1896 — Earnings. Total.	Week ending 29th February 1896 — Earnings. Per mile open per week.	Week ending 27th February 1897 — Mean mileage worked.	Week ending 27th February 1897 — Earnings. Total.	Week ending 27th February 1897 — Earnings. Per mile open per week.	Earnings from 1st April 1895 to 29th February 1896.	Earnings from 1st April 1896 to 27th February 1897.	Increase.	Decrease

(*a*) Although for convenience classed amongst state railways, this line is the property of the Bengal Central Railway Company. The working of the line has been taken in hand by the company from the 1st January 1897.
(*b*) Includes the Bhopal-Itarsi railway.
(*c*) Total earnings from 22nd to 29th February 1896.
(*d*) Includes the Godhra-Rutlam-Nagda railway.
(*e*) Includes the Guntakal-Mysore frontier section.
(*f*) Includes the Tirhoot state railway. Although for convenience classed amongst state railways, the company's section of this line is the property of the Bengal and North-Western Railway Company.
(*g*) Total earnings from 1st July 1895 to 29th February 1896.
(*h*) Includes the Jammu and Kashmir and the Hyderabad-Shadipalli
(*i*) This line has been transferred to a company from the 1st September 1896, but until arrangements are made for the line to be formally taken over, it will be worked by the state on behalf of the company.
(*j*) Includes the Wardha Coal, the Dhond-Manmad, the Khamgaon, and the Amraoti railways.
(*k*) Total earnings from 1st May 1895 to 29th February 1896.
(*l*) Total earnings from 11th November 1895 to 29th February 1896.
(*m*) Total earnings from 15th July 1896 to 27th February 1897.
(*n*) Includes the Mysore-Nanjangud and the Yeswantpur-Mysore frontier sections.
(*o*) This line is being worked by the Bombay, Baroda and Central India Railway Company as a temporary measure.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weather Review of India for the week ending at 8 a.m. on Saturday, February 27th, 1897.

The most important feature of the meteorology of the week under review was the cold weather storm which appeared in Upper Sind on the 23rd. It advanced rather rapidly north-eastwards and passed into the West Punjab on the 24th where it filled up quickly during the day. It was an unusually deep depression, the barometer at the centre being about four-tenths of an inch below the normal. Notwithstanding the great intensity, its influence on the weather was slight and was confined almost solely to the North Punjab and the Kashmir and Punjab Himalayas. Weather was very feebly unsettled with a few thundershowers in the southern half of the Peninsula during the first three days of the week, but over the remainder of India the conditions were very quiet and settled throughout the period.

As usually happens during the cold weather, the storm was preceded by a well-defined warm wave and followed by a very intense cold wave. The reduction of temperature due to the cold wave was most rapid in Baluchistan where at Quetta the mean temperature fell from 57°·6 on the 23rd to 28°·2 on the 25th.

The advance of the cool wave and of the westerly winds across Northern and Central India was accompanied by a very large decrease in the amount of relative humidity and some remarkably low humidities were recorded in these areas at 8 A.M. of the 26th. The most noteworthy were 7 per cent. at Chanda, 10 per cent. at Neemuch and 11 per cent. at Simla.

Daily Summary.—*Sunday, 21st February.*—Pressure had increased slightly to briskly throughout the Indian area, and was practically normal in Western and Central India and Burma, and more or less below the average elsewhere. The deficiency was greatest in Sind where it slightly exceeded a twentieth of an inch in amount. Feeble depressions existed over the Madras Deccan and Sind. Fresh northerly winds prevailed in the coast districts of Bombay, southerly to south-easterly winds on the Coromandel Coast and moderate westerly winds down the Gangetic Plain. Elsewhere the directions were very variable. Skies were more or less clouded in Madras and a few thundershowers had occurred in that area. Temperature was normal in Burma, the Central Provinces and Central India, and exceeded the normal in the remainder of the country.

Monday, 22nd February.—Pressure had increased over nearly the whole area. The changes were generally small in amount and the general distribution remained unchanged except in Bengal where a slight depression had formed. Winds were irregularly cyclonic around the Bengal depression and very variable in the remainder of India. Calms were numerous in the Punjab. A fresh southerly wind was blowing at Chaman. Skies were more or less clouded in Kashmir, the extreme south of the Peninsula and Baluchistan and clear elsewhere. Practically no rain had fallen anywhere. Temperature had increased in Upper and Central India and was above the average in all districts by amounts ranging from ½° in Bengal and Burma to 5° in the Punjab and Madras and 10° in Baluchistan.

Tuesday, 23rd February.—The barometric changes of the previous 24 hours were large and important. Pressure had given way throughout the Indian area. The fall was brisk to rapid over a large part of the country and very rapid in the West Punjab, Upper Sind and Baluchistan where it ranged from a fifth to a fourth of an inch in amount and was due to the appearance of a cold weather

storm of considerable intensity. Pressure was below the average everywhere, the deficiency being most marked in Upper Sind and the South-West Punjab where it equalled ·27". Winds were cyclonic in direction over the whole of North-Western India and were blowing freshly in Rajputana, Baluchistan and the Punjab Himalayas. Winds were unchanged elsewhere. Humidity had risen fast in West Rajputana. Skies were heavily clouded in Kashmir and the North-West Punjab. Snow was falling in Kashmir. Temperature was normal in Burma and North-Eastern India and more or less largely above the average in the remainder of India and Baluchistan. The district variations ranged from 2½° in Bombay to 7° in the Punjab and 12° in Baluchistan.

Wednesday, 24th February.—The storm had advanced north-eastwards during the previous 24 hours and was at 8 A.M., central near Khushab. Pressure had decreased very rapidly in Kashmir and briskly to rapidly in the Punjab and was in unusually large defect in these areas. The deficiency was greatest in the North-West Punjab where at Peshawar it equalled ·38." Pressure had increased briskly to rapidly in the rear of the storm in Sind and Baluchistan and the deficiency in these areas was hence less marked than on the previous day. The barometer had risen slightly to briskly in North-Eastern India and the shallow low pressure area over that region had hence filled up to some extent. Over the remainder of India the barometric changes were of no significance. A vigorous cyclonic circulation prevailed over the whole of North-Western India and a feeble cyclonic circulation in Bengal. Elsewhere the air movement had not changed much. Skies were densely clouded in the North-West Himalayas and the greater part of the Punjab and light snow had fallen in Kashmir and a few showers of rain in the extreme north-west of the Punjab. A cold wave was affecting Baluchistan where temperature had fallen with unusual rapidity. Temperature had, on the other hand, increased rapidly in the Punjab, North-Western Provinces and the Central Provinces and was, as on the previous day, above the average over the whole of India. The excess ranged from 2° in Bengal, Assam and Bombay to 9½° in the Punjab. Temperature was practically normal in Burma.

Thursday, 25th February.—Pressure had increased with unusual rapidity in North-Western India and Kashmir, and the deep depression in the Punjab on the previous day had filled up completely. The rise exceeded four-tenths of an inch over the whole of the West and North-West Punjab, and was absolutely greatest at Peshawar, where it was slightly more than half an inch. Pressure was practically unchanged over the remainder of India and in Burma. Pressure was now normal in the Peninsula, in slight to moderate defect in Burma and North-Eastern India, and slightly to considerably above the average in North-Western and Central India. Well marked high pressure conditions were re-established in North-Western India. The shallow low pressure area over Bengal was still in existence, but the general distribution of pressure was less abnormal than during the preceding three days. Winds were anti-cyclonic in North-Western and Central India, feebly cyclonic around the low pressure area in Bengal and variable elsewhere. Rain and snow had fallen in the North-West Himalayas and a few drops of rain in the Submontane Punjab. Temperature had diminished rapidly in North-Western India and Baluchistan, the decrease at several stations ranging from 12° to 18°. The mean temperature of the previous twenty-four hours was 18° below the average in Baluchistan (Quetta), 13° below in Kathiawar, 12° below in Sind, 4° below in Rajputana and 1° below in the Punjab. Temperature was on the other hand, 3° above the average in Bengal Assam and Madras, 6° above in the Central Provinces and 7½° above in the North-Western Provinces.

Friday, 26th February.—With a few unimportant exceptions pressure had decreased everywhere. The fall was slight in the Peninsula, Sind and West Rajputana and brisk to rapid elsewhere. The general distribution had not altered to any important extent, pressure remaining highest in the north-west and lowest in the north-east. The westerly winds down the Gangetic Valley had extended into West Bengal, while easterly winds had set in over the Central Provinces. Elsewhere the winds blow from about the same directions as on the previous day. Humidity had decreased very rapidly in Baluchistan and the greater part of Northern and Central India, and remarkably low humidities

were recorded at several stations in these areas. The most noteworthy were 7 per cent. at Chanda, 10 per cent. at Neemuch and 11 per cent. at Simla. The only rainfall during the previous twenty-four hours was light showers at Silchar and Sibsagar. Temperature had increased rapidly in Baluchistan and was now only in considerable defect in that area. Temperature had on the other hand fallen very rapidly in North-Western and Central India and was in considerable to large defect in these areas.

Saturday, 27th February.—Pressure was steady in Burma and the Konkan and had increased slightly to briskly in Bengal and Assam. Over the remainder of the country, the barometer had continued to fall, briskly to rapidly in North-Western and Central India. Pressure was in defect of the normal almost everywhere, the deficiency being greatest in the West Punjab where it slightly exceeded a seventh of an inch. Several low pressure areas were shown, but they were exercising no influence on the weather, and were hence of no significance. Winds were exceedingly variable. Skies were clear at the great majority of stations and no rain whatever had fallen during the previous twenty-four hours. Temperature had decreased very rapidly in Bengal and Assam and was now in moderate to large defect over the whole of Northern and Central India. Temperature was on the other hand more or less above the average in the Peninsula and Burma.

Temperature.—There were large and rapid changes of temperature during the week over Northern and Central India and Baluchistan due to the passage eastwards across these areas of two waves of opposite character. Temperature was on the whole in moderate to large excess over the whole of India during the first four days of the week. An unusually large reduction of temperature occurred in Baluchistan on the 24th and a cold wave of great severity crossed the frontier during the next twenty-four hours and extended rapidly to the whole of Northern and Central India on the 26th and 27th. The mean temperature was hence more or less largely in defect in these areas on these two days. The mean temperature of the whole week was normal in Sind, Rajputana, and Burma, in moderate defect in Central India and Gujarat and in slight to considerable excess in the remainder of India.

The following data are given in illustration :—

Rain.—A cold weather storm of great intensity appeared in Upper Sind on the 23rd and drifting north-eastwards passed into the West Punjab on the 24th where it broke up rapidly during the day. Although a fairly deep depression it gave only light thundershowers to the North Punjab, the Punjab Hills and the Kumaon and Garhwal Himalayas and moderate rain and snow to Kashmir on the 24th and 25th. Conditions were feebly disturbed in the southern half of the Peninsula during the first three days of the week, and some local showers were received in Mysore, Ganjam, South Madras and Malabar, but over the remainder of the country the weather was fine and settled throughout the week.

The rainfall of the week was hence small in amount and was limited to a very small area. A reference to the accompanying rainfall statement will show that more or less rain fell in seventeen of the rainfall divisions. Of these only five obtained an actual average fall exceeding a tenth of an inch in amount. These divisions which received effective rain were the Punjab Hills, the North Punjab, Malabar, East Coast, North and South Madras. In three out of these five divisions the total fall of the week was in excess of the normal, but the amount of excess was very insignificant.

With the present return ends the period of the cold weather rains. The chief features of the rainfall distribution of the period may be summed up as follows:—

(1) The rainfall of the period was in moderate to large defect in Lower Burma, over the whole of Bengal, North Bihar, Assam, the western districts of the North-Western Provinces, the South and South-East Punjab, Rajputana and parts of the Bombay Presidency.

(2) It was in moderate to large excess in Arakan, Chota Nagpur, the central districts of the North-Western Provinces, the North Punjab, Malabar, Mysore, the Central Provinces and Madras (excepting the Circars).

Over the remainder of the country the rainfall of the period was practically normal.

HEM RAJ,
Offg. Asst Meteorological Reporter to the Government of India.

SIMLA, *the 3rd March 1897.*

DENZIL IBBETSON,

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Weekly Report on the state of the Season and Prospects of the Crops.

Madras.—*For week ending 6th March.*—There was no rain during the week. The water-supplies are decreasing and difficulties as to supply for people and cattle are felt in parts of the Circars and Deccan, elsewhere the supply is normal to season. The tilling of land for the next season has commenced on the West Coast and to some extent under wells and irrigation works in other parts. The standing crop is in fair condition in the Southern, Central and Carnatic districts, elsewhere it is poor, bad or lost. The harvest is proceeding in the first-named districts with a fair to middling outturn. Harvest of second crop on West Coast is average. Pasture is disappearing rapidly and none remains in parts of the Deccan; it has been improved in parts of the Circars by the late rainfall. Fodder is scarce and dear in parts of the Deccan and Circars, elsewhere it is sufficient. Cattle are generally in good condition but in parts of the Deccan they are suffering severely for want of food and water. Prices are easier in Ganjam and in parts of the Deccan, elsewhere they are almost stationary though rather dearer in the Carnatic and parts of the Central districts. The numbers on relief are:—Workers:—14,092 men, 29,892 women, 12,580 children, besides weavers:—1,417 men and 3,605 women. Dependants:—86 men, 218 women and 3,301 children relieved gratuitously at kitchens. There were also 35 men, 56 women and 53 children fed at poor houses. On one test work in Ganjam the numbers were:—Workers:—390 men, 930 women and 381 children: no dependants: others:—27 men, 59 women and 256 children relieved at kitchens, and 4 men, 6 women and 11 children otherwise relieved. Total number relieved 70,409.

Bombay.—*For week ending 9th March.*—The standing crops have been slightly damaged by drought in four, by locusts in two talukas of Karachi, by frost in Shikarpur, and one taluka of Karachi, four of Hyderabad, and two of Upper Sind frontier, and by blight in one of Karachi and two of Ahmednagar. Otherwise they are thriving in Sind and Gujarat, but indifferent elsewhere. Crops recently sown have withered in Poona, Ahmednagar, Sholapur, Belgaum, and Dharwar. The autumn harvesting is completed, except in Karachi and Khandesh, and reaping of late crops is in progress in parts of Guzerat, Deccan, Karnatak, Thana, Ratnagiri, Kanara, Kathiawar and Baroda. Fodder is sufficient except in the Deccan, Belgaum, and parts of Karachi and Baroda. Grain supply is generally sufficient in affected districts. Cotton picking continues in Ahmedabad, Broach, Surat and Dharwar. The condition of agricultural stock is deteriorating in Poona, Ahmednagar, Sholapur and Bijapur; healthy elsewhere, except in parts of Sind, Surat, Khandesh, Nasik, Ratnagiri and Kanara. Prices are rising in parts of Ratnagiri, Poona and Sholapur, falling in parts of Surat, Ratnagiri and Sholapur, stationary in Panch Mahals and parts of Surat and Poona. Prices in affected districts are:—Dharwar 12¼, Belgaum 11, Bijapur 10⅞, Sholapur 10¼, Ahmednagar and Nasik 9⅞, Satara 9½, Khandesh 9, and Kolaba 7⅞ seers per rupee. The average daily numbers on relief works including dependants are:—Bijapur 70,400, Sholapur 107,199, Ahmednagar 91,889, Poona 19,190, Nasik 35,512, Satara 20,394, Khandesh 29,754, and Belgaum 4,116. Total 306,014, of which 279,855 are relief workers and 116,759 dependants. Of relief workers 88,973 are men, 122,426 women and 68,456 children. The numbers on gratuitous relief are:—Bijapur 8,875 including 56 persons in one poor house, Sholapur 5,641, Ahmednagar 1,558 including 36 persons in two poor houses, Poona 3,867, Nasik 141, Satara 10, Belgaum 495 and Dharwar 263. Total 20,856, of which, excluding Ahmednagar, details for which are not reported, 10,464 are men, 5,268 women and 3,602 children. Total number relieved, 417,470.

Bengal.—*For week ending 8th March.*—There was rain in parts of Northern and Eastern Bengal during the week. More and general rain is required for the cultivation of autumn rice and jute in Bengal Proper. In Orissa the ploughing of lands is in progress. Spring rice is doing well. The harvesting of the spring crops is in progress, and the collection of opium is going on. The *mahua* (*Bassia latifolia*) crop in Chota Nagpur is promising, but in Palamau it is said to be very backward. Sugarcane-pressing continues. Prices show but little change during the week. In the distressed districts the prices of the staple grains on which the famine wage is based are—Nadia (common rice) 9 seers, Khulna (common rice) 10 seers, Rajshahi (common rice) 9½ to 10 seers, Shahabad (common rice) 9⅝ seers, Saran (Indian corn) 10 seers 9 chittacks, Champaran (Indian corn) 10¼ seers, Muzaffarpur (Indian corn) 10½ seers, Darbhanga (Indian corn) 9¾ seers, Bhagalpur (common rice) 9½ seers per rupee. These figures show a slight fall in Saran and Champaran, and a slight rise in Darbhanga and Bhagalpur: elsewhere prices remained unchanged. The numbers on relief on Saturday, 6th March, were—Nadia 10,329, Murshidabad 375, Khulna 2,502, Rajshahi 435, Pabna 107, Patna 599, Shahabad 12,910, Saran 32,976, Champaran 175,569, Muzaffarpur 41,255, Darbhanga 147,469, Bhagalpur 14,327, Hazaribagh 1,200, Palamau 4,471, Manbhum 7,851; Puri 1,090; total 454,365 against 410,002 in the previous week. This total is distributed as follows:—

	Men.	Women.	Children.	Total.
Relief workers . . .	125,119	99,583	51,403	274,405
Dependants . . .	721	1,413	11,144	13,328 (+ 328 in Manbhum) = 13,656.
Relieved in poor-houses .	458	225	280	963 (+ 107 in Bettiah sub-division) = 1,070.
Otherwise relieved . .	31,775	77,311	45,052	155,138 (+ 4,500 in Manbhum) = 159,638.
Test-workers . . .	2,749	1,279	377	4,405 (+ 1,200 in Hazaribagh) = 5,590
Private relief—				
Relief-works—				
Darbhanga Raj . . .	15,000	4,998	1,792	21,790
Hatwa	2,107	1,889	1,585	5,583
Gratuitous relief—				
Darbhanga Raj . . .	1,983	4,709	3,860	10,552
Hatwa	190	261	207	658
Manjha	28	20	33	81

North-Western Provinces and Oudh.—*For week ending 10th March.*—Save for a very light shower in Almora there was no rain during the week. The crops are reported to be in a good condition except in unirrigated tracts of some districts, where they have been damaged by high west winds. Harvesting is in progress in several districts. Poppy is doing well and opium is being collected in a few districts. Cane is being sown and irrigation is being carried on in places. The numbers in receipt of relief on Saturday, the 6th March, in 19 districts officially recognised as distressed were as follows:—Agra 35,101; Etawah 18,924; Cawnpore 106,767; Fatehpur 37,900; Banda 210,127; Hamirpur 59,699; Allahabad 191,512; Jhansi 81,254; Jalaun 94,442; Mirzapur 61,866; Jaunpur 54,067; Gorakhpur 38,481; Azamgarh 12,328; Lucknow 101,022; Unao 49,968, Rae Bareli 85,780; Sitapur 57,934; Hardoi 12-,988; Bara Banki 12,891; total 1,434,111. This total is distributed as follows among the various methods of relief prescribed by the Famine Code which are in operation:—Employed on relief works 931,318; relieved as dependants 225,168; relieved in poor-houses 34,556; relieved under other provisions of the Code 243,069. The numbers relieved in eighteen districts which are under observation, but not yet officially recognised as distressed, were on the same date as follows:—Relieved on test-works 64,690; relieved in poor-houses 10,492; relieved under other provisions of the Famine Code 41,929; total 117,111. The grand total in receipt of relief on the last day of the week was 1,551,222. The decrease in numbers on relief which is common to all except the Bundelkhand districts is due to the commencement of the harvest which gives congenial field employment. Supplies are generally sufficient. Fodder is some-

what scarce in places. Prices are fluctuating but tending to fall. The price of the staple grain on which the famine wage is based varied from 9¼ to 12 seers per rupee in the districts officially recognised as distressed.

Punjab.—*For week ending 9th March.*—Rain averaging about ⅖ of an inch has fallen in Hissar, ¼ in Peshawar, and ⅛ in Ferozepore, Sialkot, and Gujrat. There has been a slight drizzle in parts of Rohtak and Dera Ismail Khan. Sowings of the extra spring crops are still going on. The rapeseed crop is already being cut in Gurgaon. Ploughing for the autumn crops is in progress. Sugarcane is being sown on canal land in Gurgaon. Canal and well crops are generally in fair condition. Crops on inundated and dry land are suffering from want of rain and the high parching winds which recently prevailed. Crops sown on brackish wells in Rohtak and those sown late on canal-irrigated areas are not good. Recent rain has improved the condition of the standing crops in Peshawar. More rain is still wanted in all districts for the unirrigated crops. High westerly winds have also damaged the crop slightly in some districts and they are still blowing. Stocks of food-grains are insufficient with the cultivators of Gujranwala and Lahore, and have been exhausted in Hissar and parts of Gurgaon, where imports are meeting requirements. Slight hail fell in parts of Gujranwala, but no damage is reported. Cattle are generally in poor condition for insufficiency of fodder; they are dying of starvation in Hissar and Rohtak; their condition is reported good in Umballa, Jullundur, Amritsar, and Peshawar; fair in Ferozepore and average in Sialkot. Fodder is generally scarce; it is reported sufficient in Peshawar only, the standing crop is being largely cut for fodder. The average number of relief workers and dependants are as follows: relief workers:—31,450 men; 30,694 women; 15,456 children; dependants:—806 men; 1,244 women; 24,327 children: relieved in poor-houses:—717 men; 688 women; 378 children; otherwise relieved:—2,601 men; 3,325 women; 1,758 children: test-workers:—223 men; 129 women; 106 children. The total number of workers, dependants, etc., in the Punjab was 118,809 against 125,738 last week for all other districts. There has been a decrease of about nine thousand in Gujrat and an increase in nearly all other affected districts. The numbers on test-works have generally fallen, and works have been closed in Gujranwala and Sialkot. Prices are generally high, and they are still rising in Karnal, Umballa, Lahore, Amritsar, Sialkot, Rawalpindi and Dera Ismail Khan; generally stationary in other districts. Wheat is selling from 8 to 10 seers, gram 9 to 11, bulrush millet 9 to 11 11/16, great millet 9¾ to 11, and maize 9 9/16 to 11½, seers per rupee. Imports from Sindh and Trans-border Territory are still continuing. Price of staple food-grains on which the famine wage is reckoned are:—Rohtak gram 10 barley 11; Delhi bulrush millet 8½; Karnal maize 10 and gram 9; Umballa maize 10; Ferozepore great millet and gram 10½; Gujrat maize flour 9 seers per rupee.

Central Provinces.—*For week ending 6th March.*—The weather is hot and occasionally cloudy. Harvesting of the spring crops is approaching completion. The following estimates of outturn are reported:—Jubbulpore wheat and gram 12, linseed and pulse 9; Mandla wheat and gram 16, pulse 14; Betul wheat and gram 10; Bhandara wheat and gram 9, juari (*Sorghum vulgare*) 14; Raipur wheat 10 annas. Sugarcane pressing and planting are in progress. The Mohwa (*Bassia latifolia*) crop is reported to be good in Saugor, and up to the average in Damoh, Chhindwara, and Bhandara. No reports received from other districts. Fodder is insufficient in parts of Seoni, Hoshangabad and Sambalpur. Prices are generally steady with a slight rise in Saugor and falls in Damoh and Narsinghpur. The numbers on relief works are fairly stationary with fluctuation; resulting in a net decrease for the province of 14,000. The numbers on relief works are:—Saugor 22,329; Damoh 12,445; Jubbulpore 54,503; Mandla 20,300; Seoni 6,772; Narsinghpur 15,258; Hoshangabad 23,243; Nimar 52; Betul 14,767; Chhindwara 6,520; Nagpur 1,510; Chanda 2,317; Bhandara 11,177; Balaghât 16,818; Raipur 23,011; Bilaspur 13,581. Total 244,633. The numbers receiving gratuitous relief are:—Saugor 14,173; Damoh 4,050; Jubbulpore 24,633; Mandla 6,004; Seoni 2,098; Narsinghpur 4,550; Hoshangabad 6,721; Nimar 262; Betul 2,757; Chhindwara 1,679; Nagpur 1,239; Chanda 777; Bhandara 3,974; Balaghât 5,932; Raipur 5,911; Bilaspur 6,376. Total 91,336. Total number in receipt of relief 335,969. There were also 8,618 persons on railway and private works in Saugor, Jubbulpore, Chhindwara, Bhandara, Balaghât, Raipur, and Bilaspur. Details of sexes are still incomplete, but for 13

out of the 16 distressed districts there are on relief works—67,800 men, 81,600 women and 4,800 children ; dependants, 700 men, 900 women, and 19,100 children ; poor houses—3,000 men, 5,000 women, and 6,700 children ; otherwise relieved—4,200 men, 6,000 women, and 6,200 children. The prices of the staple food-grains on which the famine wages are based are :—Saugor, Betul, and Bhandara 9½ ; Damoh, Narsinghpur, Nimar, Chanda, and Bilaspur 10 ; Jubbulpore 10¾ ; Mandla 8½ ; Seoni 9¾ ; Hoshangabad 10½ ; Chhindwara and Raipur 10¼ ; Balaghât 8 seers per rupee

Burma.—*For week ending 6th March.*—In Lower Burma the harvesting of the wet weather paddy is completed In Upper Burma reaping of miscellaneous crops continues. Cultivation of the dry weather paddy is progressing in most districts. Ploughing and sowing of the early wet weather paddy has commenced in Mandalay and Kyaukse. In Thayetmyo the cotton crop has partly failed and rain is wanted for the dry weather paddy in Bhamo, otherwise standing crops are reported to be generally good. The price of paddy has risen slightly in Pegu and Henzada and fallen slightly in Akyab, Tharrawaddy, Prome and Mandalay, elsewhere they are stationary. The numbers on relief works are : Meiktila 12,674 ; Myingyan 7,230 and on gratuitous relief—Meiktila 1,821 , Myingyan 1,710 ; Yamethin 346. The total numbers on relief are 23,796. The price of rice was :—Meiktila 8 seers 12 chittacks ; Myingyan 10 seers 4 chittacks per rupee.

Assam.—*For week ending 9th March.*—Rain has fallen in almost all districts specially benefitting low land rice in Sylhet. Rain is badly needed in Goalpara and also in Kamrup, Darrang, Nowgong and the Naga Hills Ploughing for early rice, pressing of sugarcane and pruning of tea continue. Gathering of mustard is nearly finished. Prices :—common rice, Silchar 9, Sylhet 9 seers 5 chittacks, Gauhati, Tezpur and Sibsagar 10 seers per rupee. Fodder is insufficient in Cachar, Goalpara, Nowgong, Sibsagar, Naga Hills Khasi Hills and parts of the Kamrup district. Water is scanty in Goalpara, Nowgong and Sibsagar.

Mysore and Coorg.—*For week ending 10th March.*—MYSORE :—The standing crops are in fair condition. Prices have risen slightly in Tumkur, Hussan and Chitaldroog ; fallen in Mysore, Kolar and Kadur.

COORG :—Rain is required to open remaining coffee blossoms. No crops are standing. Prices are normal. Water and fodder for cattle are sufficient

Berar and Hyderabad.—*For week ending 9th March.*—BERAR :—The weather is warm with midday winds indicating the approach of summer. Harvesting and threshing of the winter crops are in progress. Breaking up of land for the next monsoon crop continues Scarcity of fodder and water prevails in all districts. No material change in high prices for food grains reported last week. 12,818 persons were employed on relief works exclusive of numbers employed in Amraoti and Buldana districts, which have not been reported. Prices :—Jowar (*Sorghum vulgare*), Akola 10½ ; Basim 9¾ ; and Melghat 9 seers per rupee.

HYDERABAD :—Rainfall during week ended 6th March was ·49 cents. Harvesting of spring crops continues. Scarcity of fodder and pasture and of water supply prevails. The aggregate number of persons employed on relief works in the Bir, Gulburga and Lingsagar was 4,383. Prices—wheat 6, coarse rice 7 and juari 12 seers per rupee.

Central India.—*For week ending 9th March* :—No rain fell in Central India during the week. Agricultural operations are completed in Bundelkhand and are in progress in other Agencies. The spring crops are in good condition in Baghelkhand, Malwa one district of Gwalior, and some districts in Bundelkhand ; fair in Bhopal, Bhopawar, five districts of Gwalior, and six districts of Bundelkhand ; indifferent in remaining districts of Gwalior and Bundelkhand. Agricultural stock is in good condition in Bundelkhand, Baghelkhand, Malwa, Bhopawar, and five districts of Gwalior ; fair in Bhopal ; bad in three districts of Gwalior ; and indifferent in remaining districts. Pasturage is fair in Bhopal and Malwa ; good in Baghelkhand, Bhopawar, and two districts of Gwalior ; bad in four districts of Gwalior ; and indifferent in Bundelkhand and remaining districts of Gwalior.

Prices are above normal in Bundelkhand, Baghelkhand and Malwa; they are rising in Bhopawar; and are steady elsewhere. Opium crops are fair in Bhopal, Bhopawar, and one district of Gwalior; good in Malwa and two districts of Gwalior; indifferent in remaining districts. The number of persons employed on famine relief works were Gwalior 29,856; Bundelkhand 10,408; and Baghelkhand 65,295. On gratuitous relief 7,440 in Gwalior; 2,918 in Bundelkhand; and 3,744 in Baghelkhand. Total number relieved 119,661. Prices 10 to 10½ in Gwalior, 11 seers per rupee in Baghelkhand.

Rajputana.—*For week ending 10th March.*—No rainfall throughout Rajputana. Agricultural operations are fair in Kherwara; poor in Dholepore; and satisfactory elsewhere. Standing crops are fair in one State; thriving in four; poor in one; and good elsewhere; but are drying in two tehsils of Ulwar. The harvest is very good in Kherwara; good in Bhurtpur and Jhallawar; favourable in Jeypore; average in Ajmere-Merwara; and below average in Haraoti. Gram and wheat have been damaged by blight in Jaisulmere. Cattle are lean in Bhurtpore; in fair condition in four States; good elsewhere. Pasturage or fodder is fair in Haraoti; failing in Dholepore and Bhurtpore; scarce in some tehsils of Jeypore and sufficient elsewhere. Prices are high in one State; falling in three; and rising in three; and steady elsewhere. The number of persons on relief works was:—Marwar 4,942, Kotah 919; Tonk 50; Dholepore 4,925; Bikanir 11,418; Jaisulmere 983; and gratuitous relief:—Marwar 1,062; Tonk 1,302, Bhurtpore 517; Bikanir 2,973; Jaisulmere 63. Total number in receipt of relief 29,184. The prices of the staple food-grains on which famine wages are based are:—Marwar 9; Kotah 14½; Tonk 11½; Dholepore 11 seers 4 chittacks; Bhurtpore 9 seers 5 chittacks; Bikaneer 9 seers 2 chittacks to 8 seers 6 chittacks; Jaisulmere 8 seers 9 chittacks per rupee.

Kashmir.—*For week ending 9th March.*—Rain is falling. Prices continue little below normal. Price 24 seers per rupee.

Nepal.—*For week ending 6th March.*—The weather has been changeable but no rain has fallen. Land is still being broken up for early rice and Indian corn. Prospects continue good. Prices 7½ seers per rupee.

The total numbers in receipt of relief during the preceding and present weeks are as follows:—

Name of Province.	Preceding week.			Present week.			Increase or decrease.
	Relief works.	Gratuitous relief.	Total.	Relief works.	Gratuitous relief.	Total.

T. W. HOLDERNESS,
Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

CONVEYS THE ORDERS OF THE GOVERNMENT OF INDIA ON THE MEMORIALS OF OFFICERS OF THE JUNIOR DIVISION OF THE SURVEY OF INDIA DEPARTMENT.

No. $\frac{3}{127-4}$.

Extract from the Proceedings of the Government of India, in the Department of Revenue and Agriculture, No. $\frac{3}{127-4}$ *(Land-Surveys), dated Calcutta, the 6th March 1897.*

LAND SURVEYS.

READ AGAIN—

(1) Resolution No. 6—64-1, dated 27th March 1895.

READ ALSO—

(2) Letter from the Surveyor-General of India, No. 2128 S., dated 2nd August 1895.

(3) Letter from the Surveyor-General of India, No 3391 S., dated 21st November 1895, and ten Memorials.

(4) Despatch to the Secretary of State, No. 253, dated 8th September 1896.

(5) Despatch from the Secretary of State, No. 139 (Revenue), dated 29th October 1896.

RESOLUTION.

WITH his letter No. 3391S., dated the 21st November 1895, and referred to above, the Surveyor-General forwarded memorials from officers of the Provincial Service of the Survey of India Department in which they bring to the notice of Government certain points which they regard as Departmental grievances. The sanction of the Secretary of State having been received to the proposals made to him in connection with these memorials, the Government of India are now in a position to pass orders upon the prayers of the memorialists.

2. These prayers are summarised as follows by the Surveyor-General :—

"(*a*) That the old *régime* by which deserving officers were promoted from the Junior "to the Senior Division should still be allowed from the Provincial to the "Imperial Service; or if that cannot be granted, that an increased number of "appointments be transferred into the Provincial list.

"(*b*) That the three posts already transferred into the 4th grade of Extra-Assistant "Superintendents be placed at the top of the list.

"(*c*) That the post of Superintendent, 2nd grade, instead of being abolished, be "transferred to the Provincial list.

"(*d*) That intergradal officiating appointments be allowed in the Provincial Service "as is the case in the Imperial Service.

"(*e*) That the prefix of Extra in the upper grades for the Provincial Service be "abolished.

"(*f*) That a higher rate of travelling allowance by rail, road, or steamer be allowed.

"(*g*) That all salaries be increased generally on account of the depreciation of the "rupee.

"(*h*) That gazetted rank be given to all Provincial officers, and not merely to those "drawing R300 a month and upwards.

"(*i*) That higher rank for military precedence be given to Provincial officers when "serving with the army in the field."

3. It will be convenient to deal first with the minor points thus raised.

The claim to intergradal promotion has already been made on more than one occasion, and has been refused for the reasons given in letter No. 256,

dated the 10th June 1879, and repeated in paragraph 5 of letter No. 318—46-8, dated the 16th July 1884, to the address of the Surveyor-General. The reasons against granting such a privilege are now even stronger than they then were; and the Government of India adhere to their decision that a system under which temporary additions are made to an officer's salary on the departure of a senior upon leave or duty, although his duties are not changed nor his responsibility increased, and which therefore involves a breach in the correlation which should exist between remuneration and duty, cannot now be extended to any Department; though where previous custom of long standing has already sanctioned it, it may be inexpedient to abolish it.

4. The request for the abolition of the prefix "Extra" in the upper grades of the Provincial Service is based upon grounds of sentiment. The title is used in the Forest Service througout India, and also in the Punjab and other non-regulation Provinces to distinguish the Provincial from the Imperial branches of the local Commissions. It would be inconvenient to have no distinction between the titles of the two services; there have already been many alterations in the nomenclature of the Department; and the Government of India are unable to sanction any further change.

5. The petition for higher rates of travelling allowance is supported by the Surveyor-General on the ground that transfers are frequent and journeys long and expensive, and he therefore recommends that all gazetted officers in the Provincial Service should rank as officers of the first class under the travelling allowance rules. His argument does not show, however, that the present rates are not sufficient to cover the actual expenses of the journeys, and cannot override the general rule regarding the rate of travelling allowance laid down in the Civil Service Regulations. Gazetted rank was conferred upon Extra-Assistant Superintendents on special grounds, and cannot be made the basis of a claim for increased emoluments. There are, moreover, many gazetted officers in other Departments who are only entitled to second class rates of travelling allowance. The Survey Department already enjoys substantial privileges in the matter of travelling allowance, and the Government of India are unable to add to them by permitting all Provincial officers who are of gazetted rank to draw first class rates.

6. The Government of India cannot entertain the request for a general increase of pay on account of the depreciation of the rupee. Exchange compensation allowance has already been granted to meet this grievance.

7. As regards the petition that gazetted rank may be given to all Provincial officers, it is to be observed that the line of demarcation between gazetted and non-gazetted officers is in most Departments that which separates the Provincial from the Subordinate service. In the Survey Department, however, that line has been drawn lower down the scale than in any other Department, Sub-Assistant Superintendents being included in the Provincial service for special reasons; and the Government of India are unable to grant them gazetted rank. They agree also with the Surveyor-General that it would not be to the pecuniary interests of the officers concerned to make the concession.

8. The request that higher military precedence may be given to Provincial Service officers when serving with an army in the field has been carefully considered in consultation with the Military authorities; and the Government of India are pleased to decide that Extra Deputy Superintendents of the 1st and 2nd grades, and Extra-Assistant Superintendents of the 1st grade, should take rank according to the Staff Corps scale, calculated by length of service after appointment by selection to the lowest of these grades. An amended Army Circular will be issued accordingly.

9. There remains for consideration what is really the principal grievance of the petitioners, namely, the alleged injury done to the prospects of existing officers of the Junior Division by the reorganization scheme of 27th March 1895. The Government of India consider that this grievance is to some extent a real one, and that some remedial measures are necessary; and their proposals in this matter, which are explained below, have been sanctioned by Her Majesty's Secretary of State for India.

10. The Resolution of the 27th March 1895, following the lines laid down by the Public Service Commission, provided for the complete separation of

the Survey Department, then comprising a Senior and Junior Division, into an Imperial and a Provincial Service, and for the gradual transfer on reduced pay of ten appointments from the former to the latter. So far as regards the ultimate constitution of the Department, there is no reason to modify the scheme. There were, however, certain special conditions obtaining in the Department previously to the reorganisation which distinguished it from others similarly treated; and the effect of these special conditions as affecting officers already in the Department was not fully realised or allowed for in the scheme for reorganisation. In most other departments in which a separate Provincial Service has been constituted, promotions from the lower to the higher branches of the service were rare exceptions, and when made, were ordinarily subject, in the case of natives of India (a term which, in the statutory sense in which it is here employed, includes most of the officers in the Junior Division of the Survey Department), to a reduction of one third in the scale of pay. In the Survey Department, however, before the reorganization, selected officers of the Junior Division were eligible for promotion to the Senior Division on the same scale of pay as officers directly appointed to that division. These promotions were entirely dependent on fitness, and were made on the recommendation of the Surveyor-General; and though neither their number nor the conditions on which they were made were defined by rule, yet it was understood that a certain number of appointments, which has in practice approximated to one out of every four vacancies, would be filled by promotion of deserving men from the Junior Division. Thus, although the reorganisation may be said to have benefited the Junior Division by securing to it a fixed, in place of an uncertain, number of higher appointments, yet the reduction of the pay of the transferred appointments was, to those officers of the Division who already enjoyed what was practically a certainty of promotion to the higher branch, a disadvantage without any advantage to counterbalance it.

11. The transfers which are to be made and their effect on the constitution of the Junior Division will be apparent from the following figures:—

Appointments reduced in Senior Division		Appointments added to Junior Division		Former grading of Junior Division.	
No.	Monthly pay. ₹	No.	Monthly pay. ₹	No.	Monthly pay. ₹
1	1,300	2	800	3	550
2	1,000	3	650	5	500
2	850	1	500	7	150
3	600	1	150	10	400
2	500	3	100	15	350
				20	300
Monthly cost	7,800		5,700	22	200—10—250
				24	100—8—200
				26	1 0—8—160

Officers of the Junior Division promoted to the Senior Division under the old system have hitherto officiated almost immediately as Assistant Superintendents, 1st grade, on a pay of ₹600, and might fairly look forward to attaining before retirement to the position of Deputy Superintendent, 1st grade, on a pay of ₹1,000. Thus the reorganisation has practically had the effect of substituting ten appointments on pay ranging from ₹400 to ₹800, for an equal number on salaries rising from ₹600 to ₹1,000 a month. Moreover, pending the reorganisation, promotions to the Senior Division were discontinued; the last promotion made was in November 1892; and the Surveyor-General calculates that had the old organisation continued, two more promotions would have fallen to the Junior Division up to the present time. There has, therefore, been an immediate loss of two steps to the most deserving officers of the division, in addition to a reduction in the salary of the higher appointments to which they might expect to attain. It is true that three appointments have recently been transferred from the Senior to the Junior Division, but as these were all on a pay of ₹400 a month, they have benefited only the lower grades.

12. Under the circumstances explained above, the Government of India agree that the reorganisation has had an unforeseen and injurious effect on the prospects of those officers who entered the Junior Division before the year 1888, on

the old understanding that promotion to the higher branch of the service was open to them, and that the matter requires some remedy. The same claim does not arise in the case of those who entered the Department after the publication of the Public Service Commission Report at the end of 1887, since when it has been known that the separation of a Provincial Service and the transfer to it of appointments from the Imperial Service, but with reduced emoluments, was only a matter of time.

13. Some of the memorialists ask that the former organisation should be restored, or that an increased number of appointments should be transferred to the Provincial list, or that the transfers should be made at once in the higher grades. The Government of India are unable to accept any one of these suggestions. The separation of a Provincial Service is a measure of administrative reform which must be maintained, though it is recognised that it should be carried out with the least possible detriment to the reasonable expectations of existing incumbents. In regard to the number of appointments transferred, the memorialists have no ground of complaint. As already explained, they have never been guaranteed any fixed number of appointments in the Senior Division; and as a matter of fact the number of appointments allotted for transfer is slightly in excess of the number actually held in the Senior Division by Junior Division officers when the Provincial Service was created, or that had been so held for many years past. To make the transfers from any but the lowest grade would be unfair to the officers of the Imperial Service, while it would not prove an effective remedy for the grievance complained of.

14. In his letter of the 2nd August 1895, the Surveyor-General suggested the creation of two supernumerary appointments in the 2nd grade of Extra Deputy Superintendents; but further personal discussion with him has shown that this measure would be insufficient, while it is open to objection on other grounds also. Any compensation granted should, as far as practicable, be so adjusted as to benefit only those officers who under the former practice would have been selected for promotion to the Senior Division; it should not exceed what is necessary to make up the difference between the old and new scale of salaries; and while restoring the old range of pay, it should not accelerate promotion. These conditions, if secured, will practically equalise the prospects under the old and new schemes of those officers in the Provincial Service who have suffered by the reorganisation, without giving them any advantage over contemporaries already promoted to the Senior Division. And they may best be secured by a system of personal allowances combined with promotion by selection.

15. The measures proposed by the Government of India and sanctioned by the Secretary of State are:—

(1) that all men recruited prior to 1888 shall, while filling the appointments shown below, be granted a personal allowance not exceeding the following scale:—

		Provincial pay	Personal allowance.	Total
2	Extra Deputy Superintendents, 1st grade	800	200	1,000
3	Do. do. 2nd „	650	200	850
3	Assistant do. 1st „	550	50	600

(2) that two supernumerary appointments shall be temporarily created in the first grade of Extra Assistant Superintendents, with a personal allowance of R50 each in addition to grade pay;

(3) that the ten appointments to which personal allowances will thus be attached shall be filled strictly by selection.

The maximum cost of the ten personal allowances will be R1,250 per mensem. They will stand as shown above when the Provincial Service is fully constituted by the transfer of ten appointments from the Imperial to the Provincial Service. Till then they will be given, only as the gradual transfer of appointments on reduced pay makes savings available for the purpose, and the Surveyor-General should grant them, only when the salary of the officer concerned falls below what it would have been under the old *régime*. He will, for this purpose, have discretion to vary from time to time, within the limits

of the prescribed scale, the allowance to be drawn by each officer; on the condition, however, that the allowance granted must at no time exceed ten in number, or the available savings in amount. No personal allowance will be granted under the present scheme so as to cause any officer to enjoy higher emoluments than he would have done if he had been promoted under the old system.

16. The two supernumerary appointments which are sanctioned may be filled immediately: they are intended to compensate the higher grades of the Junior Division for the loss of two appointments in the Senior Division during the past few years, and for the consequent delay in promotion. They will be absorbed as soon as the cadre of the Provincial Service is complete. Meantime their cost will be met, partly by keeping two Extra Assistant Superintendentships of the 4th grade (pay ₹400) vacant, and partly from the saving of ₹300 a month already effected by the transfer on a reduced pay of ₹400 to the Provincial Service of three Imperial appointments of ₹500 a month. These latter savings, being thus absorbed, will not be considered available for the grant of personal allowances. As the officers below the grade of ₹400 have already benefited by these transfers, promotion in consequence of the creation of the two supernumerary appointments will not be given below that grade.

17. The effect of these proposals is to temporarily postpone a portion of the savings which will ultimately result from the separation of the Provincial Service, in favour of officers who entered the Junior Division before the reorganisation was contemplated, and whose prospects it has materially injured, and they will meet the legitimate grievances of picked men from among a deserving body of officers. Their promotion has already been suspended for some years, and the introduction of the proposals is therefore sanctioned with effect from 1st April 1896.

18. The Government of India believe that these concessions will remove all the legitimate grievances of the Provincial Service of the Survey Department; and in granting them they desire to endorse the opinion of the Surveyor-General as to the excellent work done by these officers in positions of considerable responsibility, and often under circumstances of difficulty.

ORDER:—Ordered that a copy of the foregoing Resolution be forwarded to the Surveyor-General of India for information and communication to the officers concerned, and to the Military and Finance Departments for information, and the issue of further necessary orders; and that it be published in the *Gazette of India*.

By order,

DENZIL IBBETSON,

Secretary to the Government of India.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Government House on Thursday, the 11th March, 1897.

PRESENT:

His Excellency the Earl of Elgin, Viceroy and Governor General of India, P.C., G.M.S.I., G.M.I.E., LL.D., *presiding*.
His Honour Sir Alexander Mackenzie, K.C.S.I., Lieutenant-Governor of Bengal.
His Excellency Sir G. S. White, G.C.I.E., K.C.B., V.C., Commander-in-Chief in India.
The Hon'ble Sir J. Westland, K.C.S.I.
The Hon'ble Sir J. Woodburn, K.C.S.I.
The Hon'ble M. D. Chalmers.
The Hon'ble Major-General Sir E. H. H. Collen, K.C.I.E.
The Hon'ble A. C. Trevor, C.S.I.
The Hon'ble M. R. Ry. P. Ananda Charlu, Rai Bahadur.
The Hon'ble Sir G. H. P. Evans, K.C.I.E.
The Hon'ble Alan Cadell, C.S.I.
The Hon'ble J. D. Rees, C.I.E.
The Hon'ble G. P. Glendinning.
The Hon'ble Nawab Amir-ud-Din Ahmad Khan, C.I.E., Bahadur, Fakhar-uddoulah, Chief of Loharu.
The Hon'ble Rao Sahib Balwant Rao Bhuskute.
The Hon'ble P. Playfair, C.I.E.
The Hon'ble Rahimtula Muhammad Sayani, M.A., LL.B.
The Hon'ble Pandit Bishambar Nath.
The Hon'ble Joy Gobind Law.
The Hon'ble C. C. Stevens, C.S.I.
The Hon'ble Sir H. T. Prinsep Kt.
The Hon'ble H. E. M. James.

QUESTIONS AND ANSWERS.

The Hon'ble RAO SAHIB BALWANT RAO BHUSKUTE asked:—

"(1) Is it true that a circular has been issued by the Comptroller General of India to his nine subordinate provincial Comptrollers regarding

the recruitment of European and Eurasian young men in the Account Offices?

"(2) If true, has it been issued with the sanction of the Government of India? Will they be pleased to reconsider it, as it tends to give rise to racial distinctions and not to efficiency?"

The Hon'ble SIR JAMES WESTLAND replied:—

"The Comptroller General has recently addressed his account officers on the subject mentioned by the Hon'ble Member. The Comptroller General does not require the sanction of the Government in issuing instructions on such matters when they are in conformity with the orders of Government.

"The Hon'ble Member will find all information about the Subordinate Account Service and the manner of its recruitment in the papers relating to the Public Service Commission. The orders of the Government for the recruitment, for that service, of the better educated classes of Natives of India, both of Asiatic and of European race, had been somewhat overlooked, and I considered it necessary to draw the attention of the Comptroller General to the fact that, if the account officers did not exercise their power of bringing young men into the office on higher salaries than those intended for the less educated classes, they would not obtain efficient men for their higher posts. The Comptroller General's instructions contained in this letter to his account officers deal with only a part of the matter, namely, that relating to young men of European or of mixed race; but it was distinctly the intention of the Government of India, in recruiting for the service in question, to provide for the appointment to it of domiciled Europeans and Eurasians and Muhammadans, as well as of Bengalis; and it seems to the Government that the correction of a system of recruitment which was not authorized by Government, and which has the practical effect of confining appointments in Calcutta to one class only, is the abolition and not the institution of a racial distinction."

REFORMATORY SCHOOLS BILL.

The Hon'ble SIR JOHN WOODBURN moved that the Report of the Select Committee on the Bill to amend the law relating to Reformatory Schools and to make further provision for dealing with youthful offenders be taken into consideration. He said:—"It is unnecessary that I should detain the Council at any length in explaining the proposals of the Select Committee. The Committee designedly framed their Report in some detail so that Hon'ble Members might have an opportunity, if they were interested in the matter, during the three weeks that it has been before them, to examine and consider the recommendations. They are not numerous and for the most part are minor. The minor proposals have, I trust, been sufficiently explained in the Report, and there are only two or three of them to which I desire to direct at present the attention of the Council. The first of these is the alteration of the definition of 'youthful offender.' The age at which a lad is to be sent to a Reformatory School has been reduced from 16 to 15, and this gives the opportunity which has been urged by several Local Governments of extending the minimum period of detention in a Reformatory School from two to three years. If you want to reform a lad, it is certainly advisable to catch him early, and all our experience has shown that a detention of only two years is generally insufficient to carry out the purpose intended. The object of reforming the character of the lads under our care will be better fulfilled by the arrangements made under this present amendment than under the expiring Act. In clause 12 we have, on the suggestion of the North-Western Provinces and the Oudh Government, recast the proviso to this clause so as to make it impossible to keep a boy who has been sent to jail to wait there until he can be removed to a reformatory for a longer term in the jail than that of his substantive sentence. In clause 16 we have, in accordance with the criticisms offered to us, amended it so as to leave the jurisdiction of the superior Courts under the Code of Criminal Procedure, that is to say, their ordinary jurisdiction, altogether unrestricted, except in respect of two matters—the age of the youthful offender and the propriety of sending him to a Reformatory School instead of sending

him to jail. On these two matters we think the local decisions ought to be maintained as final. In clauses 18 and 22 we have made what I consider a useful amendment, in requiring the sanction of the Committee which governs the affairs of Reformatory Schools to any arrangements made by the Superintendent of the School for the employment of the lads who finish their term there.

"These are the most important of the minor changes. The major changes are two: the first of these has been made at the instance of the High Court of Bengal. They represented to us strongly, and I think reasonably, that there ought to be in the Bill some provision by which the Courts should be guided as to the class of boys who ought to be sent to a Reformatory School and the character of the offences for which they should be committed to it. The old Act contained no such provision. The Bill which the Select Committee had before it had no such provision, but we thought that it was best to leave the definition of the offences for which boys should be sent to a Reformatory School to rules made by the respective Local Governments rather than by a definite differentiation of those classes of offences in the Criminal Procedure Code which might seem generally the most fit for purposes of the kind. Obviously cases of theft and burglary are the sort of cases in which a convicted boy would most ordinarily be sent to a Reformatory School, but there are in some Provinces other kinds of offences such as fire raising and others which will occur to the Members of this Council in which the prevalence of that kind of crime may make it expedient that they should be included in the list of offences for which Magistrates should be advised to send lads to a Reformatory School. The Government of the North-Western Provinces in consultation with the Provincial High Court have drawn up excellent rules, practical and sensible, which guide the Magistrates of those Provinces, and I think that there can be very little doubt that the Governments of other Provinces, in concert with their own High Courts, may draw up similar rules suitable to their own territory. Accordingly in the section we have merely said that the Magistrate before whom a case of the kind occurs will be guided by the executive rules which will be issued from time to time by the Government to which he is subordinate. The other major matter is a provision by which the Magistrates of Districts or the Magistrates having jurisdiction are authorised, instead of passing a sentence of imprisonment or instead of sending a boy to a Reformatory School, to dismiss him either with an admonition or under a suitable guarantee that he will be properly looked after by his relatives. This is a suggestion that was made by my friend the Hon'ble Mr. Chalmers on the experience that he has gained in England, and I think that this is a very important innovation in our Indian legal practice. The power of dismissing a juvenile offender with a mere admonition is new to our Indian Legislation and is new to magisterial practice, and the Select Committee, in accordance with the opinions of many of the Local Governments, have thought that this power should be exercised only by Magistrates specially selected for the purpose by the Local Governments; but, if a lad comes before a Magistrate who has not got these powers, it is open to him to send up the case with his recommendations to the Magistrate of the District, who in all such cases will have all those powers.

"There remains only one other matter to which I should draw the attention of the Council. It was very strongly pressed upon us by the Government of Madras that Reformatory Schools for girls should be opened as well as Reformatory Schools for boys. On this suggestion we have consulted all the other Local Governments, and they are unanimous that a plan of Reformatory Schools for girls is inexpedient in the present state of Indian society. The radical objection to the proposal is this: that a girl in a Reformatory School would ordinarily be confined between the ages of 12 and 18, in the very period in which, according to the custom of her race, the marriage arrangements for her future will be made. Those marriage arrangements would be impossible in a Reformatory School, and there is therefore imminent risk that the girl might remain altogether unmarried, that she would return to her parents or guardians at a stage in life in which they would find it very difficult if not impossible to make marriage arrangements for her and that it might end in leading the girl to a condition of prostitution. This is a fatal objection, I think, and on this point I agree with all the rest of the members of the Committee. But it may be otherwise in Madras where there

are large Christian communities I should be extremely sorry to think that Christian communities should contribute in any considerable numbers to the criminal classes, but, if the Madras Government is satisfied that among these Christian communities a system of this kind of girl reformatories is necessary, is expedient, and is consistent with the customs of the community, it will be open for the Madras Government to pass a local law for themselves. Then there is a further point: that according to the information before us in other parts of India, exclusive of Madras, there is certainly no occasion for an arrangement of the kind and there would be extreme difficulty in carrying it out. The Lieutenant-Governor of the North-Western Provinces made a census on a particular day as to the number of female juvenile criminals in jail in those Provinces. On that date there were only ten girls in jail who could be classed as juvenile criminals. Of these two were under sentences for less than a month, and of the remainder there were four who were very doubtful subjects indeed for a Reformatory School. There were thus only six girls in the whole of the North-Western Provinces who could be sent to a Reformatory School, and arrangements for properly educating, teaching and training a class of only six girls would be obviously extremely difficult and very expensive to carry out. In the same way we were advised that in the whole of the Bombay Presidency convictions of female juvenile criminals did not exceed 30 in the year and in Burma only 13. These are reasons in addition to the radical one which I have mentioned which render the extension of the Reformatory Act to girls for the present unnecessary as well as inexpedient. We have, however, made a provision which goes some distance towards meeting the proposals of the Madras Government, and that is that we have included girls with boys in the section which allows a Magistrate to dismiss a juvenile criminal on conviction with only an admonition, or on the security of parents and guardians that she will be properly looked after.

"I think that these are all the observations that I have to make on the subject of this Bill. We are greatly indebted to the Judges of the High Court of Bengal for the practical and useful suggestions that they have made to us, and we are also indebted to Sir Henry Prinsep, who assisted us on the Committee with his counsel. I think the Bill will still further commend itself to my hon'ble friend opposite (Sir Henry Prinsep) inasmuch as it is altogether a new Bill and not an amending Act."

The Hon'ble RAO SAHIB BALWANT RAO BHUSKUTE said:—"My Lord,—Being on the Select Committee to which the present Bill was referred, I would certainly have contented myself with giving a silent vote for it, had it not been for the fact that it is one of the few important Bills of this session which had, to some extent, exercised the public mind. The important nature of the Bill was, no doubt, recognized by the hon'ble mover, Sir John Woodburn, when he introduced it last year in March, and allowed it to be taken up after such a long time, by which he was able to feel the pulse of the public with reference to it.

"The Bill had a twofold opposition, namely, that a youthful offender is intended to be detained in a sort of custody even after the expiration of the time the law determines to be sufficient for his correction, and that he is to be detained there even after an appellate Court commutes his sentence to a nominal imprisonment. The Bill thus deprives the youthful offender of a good deal of his liberty.

"In connection with these objections the proviso in section 8, clause 3, requires a special note. The period for which a youthful offender is to be sent to a reformatory, as well as the general desire for a classification of offences directing offenders to be sent there, have been, like most of the measures of Your Excellency's Government, left to the discretion of Local Governments. This is a very desirable proviso. It at once curtails the far too wide discretionary power given to the Magistrate in the original Bill without defeating any of its objects. I would fain countenance any legislation which could confer powers upon the executive officers to prevent disturbance tending to molest society. But such powers should in no case be more than are absolutely necessary. They must, moreover, be not purely discretionary, but should be so circumscribed as to be beyond the suspicion of being abused. The discretionary power in the original Bill given to a Magistrate, competent to do it, of directing offenders to be sent to reformatories, was regarded with distrust and

diffidence. The proviso will thus be looked upon as a material safeguard against all vexation. It softens the seeming objections to section 16.

"The whole of Chapter III, and sections 5, 6 and 7 clearly show that not only does the Bill aim at correcting a juvenile offender, but it aims at taking exquisite care of a fallen human being and a depraved nature prone to perpetrate grosser offences. The industrial training, the grant of licenses, the guardianship superintendents of reformatories are all matters conducing to the material interests of an offender, and will certainly tend to do him immense good.

"There is no doubt a considerable force in the desire expressed by several persons that juvenile female offenders should be exempted from the operation of the provisions of this Bill. But do what I can, I could not persuade myself to countenance such an exemption. If the provisions embodied in the present Bill are calculated to exercise a salutary influence on boys, I cannot see any reason why they should not do the same on girls. No great hardship can be imposed on them. Nor can they be deprived of a chance of being settled in marriage. A sort of practical training to be imparted in reformatories will improve their condition and will far more than make up for the grievances alleged Besides such cases are very rare."

The Hon'ble MR. REES said:—"My Lord, all Local Governments, I understand, were agreed in thinking that no Reformatory Schools need be provided for female juvenile offenders at present, but the Madras Government thinks that the opportunity should not be lost of providing for possible future requirements, and the North-Western Provinces Government concurs with Madras in holding that such provision could be made without exciting distrust and suspicion.

"The Hon'ble Member, in moving that the report be taken into consideration, has suggested that the difference of opinion expressed as regards the attitude of the people towards female reformatories may be due to the existence of a large Christian community in the Southern Presidency. I have no figures at hand, but, if I am right in thinking that Christians are about 2½ per cent. of the population, it is possible that this does not explain the matter. I should be tempted to find an explanation in the fact that Madras has not come so much under Muhammadan influence, were it not that the Government of the North-Western Provinces, which is emphatically the province of Hindustan, and the only one in India which has only one language, and that language Hindustani, has expressed the same opinion Probably the fact that Madras is an old settled province and that the people thereof, much to their credit, are generally inclined to think that Government means well by them, has something to say to the question.

"The Select Committee has, however, introduced a most important change in the desired direction, into the Bill, by amending section 31 so as to make its provisions applicable to female offenders who, if under the age of 15 years, may in future be discharged by Courts empowered with a reprimand, or delivered to their parents or guardians upon their becoming responsible for a limited period for their good behaviour.

"The Government of the North-Western Provinces and the Howard Association agreed in thinking that the case of juvenile female offenders could best be met by provisions similar to those of the Conditional Release of First Offenders Statute, from which this humane provision is taken.

"The change that has been made will also, I think, be very acceptable to Hindu opinion in Southern India, in proof of which I would venture to quote a short passage from the writings of an admittedly eminent exponent thereof, the late Professor Runganatham :—

"'Imprisonment in the case of a woman does a great deal more harm than in the case of a man. A woman may come out of jail as pure as when she went into it; but such is the general feeling against the demoralizing influences of jail life that her relations and friends will, if they do not disown and repudiate her, show an evident dislike to her society. Left to herself, shunned by those nearest and dearest to her, looked down upon by those who were wont to show her respect and destitute perhaps of the means of livelihood, she will be sorely tempted to fall.'

"Now, all that can be said against the imprisonment of adult women, which is unfortunately often unavoidable, applies with additional force in the case of female juvenile offenders. But if, as may be hoped and expected, Magistrates are freely empowered to act under the amended section 31, it will rarely happen in future that female juveniles will be thrown into jail in the company of adult female convicts of bad character."

The Hon'ble RAI BAHADUR P. ANANDA CHARLU said:—"On a point which the hon'ble mover (Sir John Woodburn) referred to as a minor one, but which I consider is a great deal more than a minor point, I wish to make a few remarks. It is with reference to section 16 of the Act. My objection is particularly to the saving clause of it. Nothing contained in the Code of Criminal Procedure, 1882, shall be construed to authorise any Court or Magistrate to alter or reverse in appeal or revision any order passed with respect to the age of a youthful offender or the substitution of an order for detention in a Reformatory School for transportation or imprisonment. Here I find a complete ousting of the jurisdiction of the superior Courts, and the explanation that I find is in paragraph 12 of the Report of the Select Committee. There they say, 'we agree generally with the criticisms which have been passed on this clause and they accordingly amended it so as to leave the jurisdiction of the superior Courts under the Code of Criminal Procedure unrestricted.' If it stopped there I should be perfectly content. There are the further words, 'Save in so far as it relates to orders passed with reference to the age of youthful offenders or the substitution of an order for detention in a reformatory for transportation or imprisonment.' As the section stood originally, it provided for this order falling to the ground as soon as that sentence was reversed or set aside, but, unless I am seriously mistaken, this section takes away even that exception. It seems to make the power of the Magistrate absolute and to make the power of the superior Courts to have no force whatsoever. My Lord, on this point I have only to call attention to the fact that so far as the Madras Government is concerned, that Government was strongly opposed to the interference with the powers of the Appellate and Original Courts. I believe the grounds for that are set forth in a paper submitted by Mr. Dumergne and the paragraph 8 contains, I believe, the arguments very strongly. Paragraph 8 is as follows: 'This clause is in my opinion open to serious objection. In some cases an Appellate or Revisional Court may alter a conviction and reduce the sentence of imprisonment, but will nevertheless be powerless to alter the order for detention in a reformatory for a period calculated probably with reference to the original conviction and sentence. Judges and Magistrates are liable to err. No distinction is drawn in clause 8 under the Code of Criminal Procedure and the power given to Magistrates, some of whom on being first appointed to the charge of a sub-division, are comparatively inexperienced' and he goes on further: 'I make this remark which I consider very cogent and sound.' Youths require the ordinary protection of the law against error and indiscretion even more than adults, and I am strongly of opinion that orders affecting the liberty of youths should be subject to appeal and revision quite as much as orders affecting the liberty of adults.' I do not think it is necessary to make this self-evident statement, that the superior Courts are generally ordinarily superior to the Courts to which they are superior. To say that the superior Courts shall not have the power to modify an order made by an inferior Court is to say something that amounts to this, that Magistrates will do something which the superior Courts might set their faces against, and therefore the superior Courts ought not to be given the power to do so. In the interests of liberty and for the reasons that have been mentioned by Mr. Dumergne in very clear terms, reasons in which the Madras Government has fully concurred, I think it is a matter of regret that the Select Committee have not thought fit to remove that objectionable portion. If in the Select Committee's Report there were any grounds stated, particularly pointing to the necessity for ousting the jurisdiction of the superior Courts and accumulating power in the hands of Magistracy only in that respect, I should probably not have troubled my learned colleagues, but I do not find the explanation in section 12 sufficient, and under these circumstances I have thought fit to make these remarks in the hope that in case the majority of you agreed with me, that difficulty would be got over. It struck me at one time that I might send in an amendment, but at the same time it struck me that, if many of you are against me, I shall be in no worse position by not sending in the amendment. If you are

with me, I do not think I shall have failed to gain my object in merely making the suggestion at the present moment."

The Hon'ble SIR JOHN WOODBURN said :—"I confess I was somewhat surprised at finding the Hon'ble Mr. Bhuskute taking up the position that sending girls to a Reformatory School would not be taken amiss by the people of the Hindu and Muhammadan communities. He was a member of the Select Committee, and I understood that he joined with the rest of the Committee in coming to the conclusion which is expressed in the Report. As to the remarks made by the Hon'ble Mr. Rees, it is true that Sir Antony Macdonnell expressed himself of the opinion that the establishment of a female juvenile reformatory in India was not likely to be regarded with distrust or suspicion, but the other Local Governments were definitely of opinion that it would be, and his own conclusion in the matter was this, that, as far as his Provinces were concerned, the small list of female juvenile offenders in jail showed the matter to be of little importance, and that he himself would certainly not incur the expense of establishing a Reformatory School for this class, were the proposed modification made in the law. The remarks of Mr. Charlu were, I think, answered by what I said in my opening speech. I said that the Select Committee had decided in section 16 to leave the jurisdiction of the superior Courts untrammelled except in two matters, and that it excluded the jurisdiction of the superior and lower Courts in these two matters because they were of opinion that the local officers who tried these juvenile criminals were in a better position to decide than an appellate Court could be, before whom the criminal was not brought, the question whether the character of the offender and the character of his relations led justly and properly to the opinion that boys should be sent to the Reformatory School, was a question which was in our judgment better decided on the spot than it could be in an appellate Court. The powers of the appellate Court are left otherwise entirely unaltered. If they are of opinion that the offence was not committed, they can acquit the prisoner ; if they are of opinion that the offence could be best met by a sentence of admonition, it is open to them to substitute the sentence of admonition for the sentence to send to a Reformatory School; but where it is simply a question whether a boy should be sent for a long period to jail or perhaps for a still longer period with the hope of reform to a reformatory, the Committee was of opinion that the decision of the local officers ought to be left untouched. The Hon'ble Mr. Charlu spoke of the absence of all differentiation in the Bill between petty and grievous offences. I have already explained that under rules which the Local Governments will be asked to pass in concert with the High Courts, guides will be given to the Magistrates as to the class of offences and the class of offenders in which the order of detention in a reformatory ought most properly to be passed. My hon'ble friend Sir Henry Prinsep drew my attention to an omission in my opening remarks. There is a new section in the Bill, which is section 32. The Judges of the High Court drew our attention to a case of this kind. A boy of 12 years of age on being sent to a Reformatory School for six years causes soon after admission grievous hurt to another boy, for which offence he is sentenced to two years' imprisonment. This sentence, under the law as it at present stands, is kept hanging over him all the time he is in school, and must exercise a very depressing effect throughout the reforming process. It might possibly prevent his being reformed at all. But suppose this boy is discharged from the school with an excellent character. It would seem to be barbarous, if he is only to be discharged from school to be sent to jail for an offence committed six years before. In these remarks the whole Committee concurred with the Bengal High Court. It would be cruelty to send a boy to jail at the expiry of his term of detention in the reformatory in a case such as that suggested by the High Court, and in order to give effect to the suggestion of the Judges we added section 32 to the Bill. I hope that the cases will be very few in which a boy in a Reformatory School will be sent to a Magistrate and convicted and sentenced in Court. There are almost no conceivable cases short of the gravest crime, such as murder or incendiarism, in which a boy cannot be adequately punished under the ordinary rules, but should such a case arise in which the disciplinary rules are not

adequate and the Superintendent and his committee consider it essential that the boy should be sent for formal trial before a Magistrate, then it was the opinion of the Committee that the sentence of the Magistrate should take immediate effect and that the boy should be sent at once to the prison of the District, there to receive at once the punishment judged necessary by the Magistrate. If the term of imprisonment in the jail expires before the period for which he was to be detained in the reformatory, the boy after having finished his term of imprisonment will return to the reformatory to complete his term of imprisonment, but under no circumstances will a sentence of imprisonment be kept hanging over him until he is discharged from the reformatory."

The motion was put and agreed to.

The Hon'ble SIR JOHN WOODBURN moved that the Bill as amended be passed.

The motion was put and agreed to.

PROVIDENT FUNDS BILL.

The Hon'ble Mr. CHALMERS moved that the Report of the Select Committee on the Bill to amend the law relating to Government and other Provident Funds be taken into consideration. He said :—' The Report of the Committee has been in the hands of Hon'ble Members and it explains, I think, pretty fully every amendment and every change that has been made in the Bill. These amendments are for the most part of a formal character, and it is unnecessary for me to say more now. If any Hon'ble Member desires any further explanation, I shall be glad to give it on behalf of the Committee."

The Hon'ble RAO SAHIB BALWANT RAO BHUSKUTE said :—" My Lord,—Cases do not unfrequently occur in which respectable public servants with decent incomes often die through some untoward accident or another leaving behind them a large family which is only a slur on their memory. This is an indeed painful thing, but in so far as it is painful it is unavoidable. The circumstances of their penury are not associated with any improvidence on their part. They are merely accidental and therefore wholly beyond anyone's control. Nothing therefore can afford a more convincing proof of the humanity of Your Excellency's Government than the measure now placed before the Legislature. That it was expedient and necessary is beyond any doubt. Again the line of demarcation where attachment is to begin and its operation to cease has been very considerately laid down. The sum of Rs. 2,000 is a barely sufficient amount for starting business with, or for following a tolerably productive employment. Only this the Bill contemplates protecting from attachment.

" I would, however, wish that the present application of a ' Provident Fund constituted by the authority of the Government of India for the benefit of any class or classes of its employers' be extended to a far wider extent.

" My friend the Hon'ble Rai Bahadur Ananda Charlu and myself were requested by the Honorary Secretary, ' Sind Mutual Family Relief Fund' and several other similar officers of similar organisations to move for the extension of the proposed Act to their institutions. Neither my friend nor I was on the Select Committee to which the Bill was referred. Yet some of the members constituting it were consulted. They told us of the cogent difficulties in the way of legislation, such funds being more or less uncertain in their nature and dependent on the voluntary contributions of their organisers and subsequent members. Satisfying myself that sufficient attention was given to their request, I did not think of moving any amendment to the Bill as recommended by the Select Committee."

The Hon'ble SIR JAMES WESTLAND said :—" My hon'ble friend Mr. Bhuskute has referred to a number of funds the case of which was under the

consideration of the Select Committee upon representations made by their Secretaries. Latterly there have sprung up all over India a number of small societies of persons who combine together under some provision of this kind. They enrol themselves in a society, very often under the Limited Liability Act, and they make a promise mutually that when any one of them dies the other subscribers to the fund shall pay a certain amount, to be handed over to the representatives of the deceased or to the persons who have suffered loss by the death of the deceased. Now, these funds, so far as they go, are very laudable institutions, but the difficulty which we meet in striving to apply the rules of the proposed Act to these funds is this, that it is obviously impossible for us to lay down rules which would have the effect of enabling any person to defraud his creditors by the mere act of using part of his money for a voluntary insurance on his life. If we were to meet the request of all these petty funds to prevent their mutual subscriptions from being attached by the Courts, we do not know where a principle of that sort would stop. The result would be that we will have to apply the same measures to the voluntary insurance in big insurance companies, and we would thus enable persons who may be in debt to remove the money they possess from the control of creditors by the simple operation of insuring their lives or passing the money into some insurance company's possession. It was for this reason that we drew the sharp distinction between compulsory deposits, which are taken from a man as part of the considerations of his service of employment, and the merely voluntary deposits which a man may pay into a fund whether he pleases or not.

"It seems to us that a great distinction can be drawn in respect to the protection which we are to give to monies subscribed under these two circumstances. A man who subscribes compulsorily to a Provident Fund as part of the condition of his receiving his income, may reasonably obtain protection in respect of the monies he subscribes; but a man who has got into debt, and who voluntarily taking his money from any possible control of his creditors passes it into one of these Provident Funds, should not and does not thereby get any protection.

"It is part of that same distinction between compulsory depositors and voluntary depositors that we think applies also to the case of these petty funds in respect to which Mr. Bhuskute has made his representation, and this prevents us applying the principle of the present Bill to those societies to which he alludes."

The Hon'ble MR. CHALMERS said.—"I would only add one word to what the Hon'ble Sir James Westland has said. Before the Bill was originally drafted, as well as in Select Committee, we did carefully consider whether we could extend the benefits of this measure to other societies, and after careful and anxious consideration, we came to the same conclusion that the Hon'ble Mr. Bhuskute has himself come to, namely, not to extend it to purely voluntary societies. The essence of this Bill is that special provisions are applied to payments taken under special terms from men who joined the service and under the terms of their service subscribed to those funds. If we were to attempt to apply them to voluntary societies, we must also regulate these societies, and we could only do that by introducing the whole of the elaborate machinery of what are commonly known in England as the Friendly Societies Acts. Whether these Acts are applicable to the circumstances of India I do not know. At any rate we could not introduce them with all their elaborate machinery into a Bill of this kind. That would be a matter for separate and very serious consideration."

The motion was put and agreed to.

The Hon'ble MR. CHALMERS moved that the Bill as amended be passed.

The motion was put and agreed to.

GENERAL CLAUSES BILL.

The Hon'ble MR. CHALMERS moved that the Report of the Select Committee on the Bill to consolidate and amend the General Clauses Acts, 1868 and 1887, be taken into consideration. He said:—"May I say again in moving that this Report be taken into consideration, as I think I said in presenting the Report, that this is not a Bill for altering the law but simply a Bill which deals with questions of language. It leaves the Legislature with a perfectly free hand for any provision it may hereafter choose to enact. The only object of the Bill is to define the meaning of the expressions used where the Act itself does not put a different interpretation upon them. I think I may again describe the Bill as I ventured to describe it originally, namely, as a measure to prevent slips and accidents in the Legislative Department."

The Hon'ble MR. JAMES said:—"My Lord, I made some criticisms at our last meeting on one definition and one omission in this Bill, but following the laudable and prudent examples of the Hon'ble Rao Sahibs Bhuskute and Ananda Charlu, I do not propose to move an amendment on the definition of good faith. Personally I still prefer the old definition, yet as an authority like the Hon'ble Sir Henry Prinsep sees his way to accept the new one, and the Hon'ble Sir Griffith Evans thinks that the point raised by me is not of very great importance, the Council will feel inclined, as no doubt it is right to do when there is a difference of opinion, to follow the responsible person, the Hon'ble Legal Member, in the matter. I should like to say, however, that there seems a difficulty in accepting the Hon'ble Mr. Chalmers' view, that because concrete terms such as bills of exchange, moveable and immoveable property, can be defined differently for the purpose of different Acts, therefore the definition of the cardinal virtues may vary. Good faith, honesty, truth,—surely the Government of India should never change its conception of these. I only hope that when the consolidated Penal Code sees the light of day, we shall find that the words 'due care and attention' qualify all those sections where 'good faith' is used. Nor, my Lord, shall I waste time in asking the Council for an opinion on the omission to recite in the General Clauses Act the artificial interpretation of the word 'may,' though I may, that is I must, thank the Hon'ble Legal Member for his courtesy in explaining its origin. It is to be regretted, I think, that our draftsmen here did not keep it out of Indian Law. But we have got it now, and apparently the labour of eliminating it is not considered worth the trouble. So let it remain, but only as a signpost of what to avoid in future legislation. My Lord, I should like to add one word more about the Bill as a whole, considering it as a specimen or instalment of our Legislative work. The making of careful and absolutely accurate definitions is, we all know, a most difficult and laborious task, and clear and comprehensive as is this bill, all those who have to interpret or administer the law will owe a debt of gratitude to the Hon'ble Legal Member for the pains which he has bestowed upon it. At the same time I would venture to point out that in itself, a mere interpreting Act is a small, I might even say a trivial, thing compared with the reforms in our substantive law that are needed. I am acquainted with some of the difficulties which hamper the Government of India in dealing with the subject I referred to last week: the arduous fight they are waging against plague, pestilence and famine would alone tax all their energies and occupy all their time just now. And of course one recognises that, whether great questions are hanging in the air or not, ordinary legislative reform must go on as usual. All I say is that, except to those who can get a peep behind the scenes, the spectacle of the Government of India passing a General Clauses Act or even an Act for reforming young gentlemen who misbehave, while the indebtedness question is not touched, presents something of the appearance of Nero fiddling while Rome is burning, and it would be well to bear this in mind. I will say nothing more except that I rejoice that the Hon'ble Legal Member is going to cease trying to dragoon the agriculturists of India into common sense by legislation, from the vain endeavour to turn by law the zemindars and raiyats into a nation of canny Scotch elders. That perilous policy has been tried long enough and has failed utterly. My Lord, only yesterday, opposite your lordship's own gate,

attached to the walls of the Home Office, I saw a somewhat suggestive notice—'Rubbish for the filling of tanks can be obtained here *gratis*.' If only the Hon'ble Legal Member would tear a few pages or a few sections out of the Civil Procedure Code, and add them to the pile!"

The Hon'ble SIR GRIFFITH EVANS said:—"I had on the last occasion assured the Hon'ble Member that the objections that he had to this particular definition of good faith would receive attention at the discussion of the measure. I have since looked still further into it and I find that my former ideas are confirmed. First of all, it must be remembered, as has been observed by the Hon'ble Mr. Chalmers, that this is merely a drafting Act. It is an Act for making definitions to avoid all discussion as to what particular words are to mean when they are employed in future Acts. It is not retrospective. It is only intended to stop all discussion and make clear what is the meaning of particular words in all new Acts made from this time except when the context or something in the Act provides differently or renders it necessary to put another meaning upon it. Under those circumstances the question really is whether there is any need at all for the definition of the words 'good faith' and whether this is a proper definition. First of all as regards the propriety of that definition. That can be disposed of very shortly. It is the definition which accords with the ordinary meaning of the English language, and it accords, as I understand, with the meaning which would be placed upon it from the point of view of the cardinal virtues spoken of by the Hon'ble Member, because a man is certainly not in ordinary life to be considered to have done a thing in bad faith because he has done it negligently. We know very well from the records of the Post Office that a certain number of letters are sent without any address. That is considerable negligence no doubt, but one would certainly not say that it was bad faith or anything of that kind. Good faith in plain English and according to the moralists and according to the ordinary understanding of men is opposed to bad faith—*bonâ fides* to *mala fides*—and the question of negligence does not come in at all in the proper definition of the words, except in so far as very gross negligence might be considered to be some evidence of *mala fides*. Very gross negligence may bring you to what one Judge called the border line between the grossest negligence and criminal intention. But when you come to deal with the expression good faith, which there is no difficulty in dealing with in the ordinary English language, and which bears a clear meaning, you find that in various Acts and for various purposes it was necessary to tack on some other meaning to the original meaning and to add some other matter which gave it a different kind of complexion. Now the question that we have before us is this: We find that the latest House of Lords decisions have practically recalled these words to their proper use. They have said that good faith means good faith as opposed to bad faith, and that it is consistent with honest negligence that what good faith means is honesty of intention and what bad faith means is dishonesty of intention. Now under those circumstances the only question we have to consider is how has this word been used in our past legislation, and is there any reason for making the definition at all in the General Clauses Act. In order to consider this I have been at the pains of considering the various Acts in which it has been used. One of the first instances in which we come across it is in the reported cases on the Act for the Protection of Judicial Officers in 1850. There they were protected for acts done in 'good faith' in their judicial capacity, but it was laid down in the judicial decisions that these words did not protect them unless they had acted with due care and attention, or, as some of the cases put it, that if there was very gross negligence shown, that would deprive them of the protection. There were a good many cases. Some of them went into very curious questions. They went into the question of how much learning or how much care and attention could be expected from an ordinary average judicial officer, and how much carelessness he might be allowed to exercise in the interpretation of the Act, supposing his interpretation was opposed to the plain meaning of an Act, the question being whether he was to be protected where he had acted without jurisdiction. Well, this proviso to the words 'good faith' became established by a series of decisions, and accordingly in the Penal Code there is a provision that nothing shall be considered to be done in good faith which is not done with due care and attention, practically embodying in the

Penal Code the result of those decisions which had been come to on the Act of 1850. Then there was another class of Acts altogether dealing with transfer of property, and there the words 'transferee in good faith and for value' was constantly to be found. There again the question of good faith was a different one. There it really came to be held that good faith really meant very much the same as in good faith and without notice. Notice, as the Council are probably aware, in law covers a number of things. It covers not merely actual knowledge of a fact, but the existence of facts which ought to have put a person who is going to buy property on enquiry, which enquiry would have led to the knowledge of the facts and many other refinements of equity. So the result is that where the words 'good faith' have been used in cases of transfer of property in connection with those words 'in good faith and for value', there have been numerous cases decided upon it turning mainly on the question of what would constitute notice, what would put a man on enquiry, and so on; but in this case, of course, good faith has a somewhat different meaning from what it has in the Penal Code and other Acts. Then again we find that the words have been used in various Acts in conjunction with other words, and I will give the Council some instances. First of all we find that it was used in the Indian Limitation Act—a transferee in good faith and for value. It was found so difficult to find out what a transferee in good faith was that they struck it out in the last Act and only kept the words 'transferee for value'; but the words still survive in several of the other Acts. In the Transfer of Property Act you find that a man who makes improvements on property which is not his own is entitled to the value of those improvements when he is turned out, if he made them believing in 'good faith' that he was the owner. In another section you will find with regard to fraudulent transfers, that nothing in this section shall affect a transferee in 'good faith' and for consideration. Then we come to another Act, the Specific Relief Act. There you find the words 'a transferee who has paid his money in good faith and without notice.' There the draftsman thought it necessary to bring in the words 'in good faith and without notice,' but it makes a great deal of confusion, because in the Transfer of Property Act there can be no doubt that the words 'any transferee in good faith and for consideration' will be held to mean a transferee in good faith and without notice, but in the other Act you find the words 'and without notice' added to the words good faith. Therefore the words 'good faith' must be differently construed in the one Act and in the other. Then we come to the Negotiable Instruments Act. There you have that a payment in due course is a payment in good faith and without negligence. There good faith must mean one thing and negligence another. They are two separate things, and yet in the decisions on the Act of 1850, 'good faith' is treated as importing absence of negligence or the presence of due care and attention. Under these circumstances I think the Hon'ble Member will see that it is desirable that in future we should have a clear meaning for 'good faith,' and that it is desirable that it should be in harmony with our views of the 'cardinal virtues' and that it is desirable that it should be a clear and distinct definition, and that when we wish to add something to that definition it should be done by additional words or by a special definition for a special Act. In our present Acts I am sorry to say there is a good deal of room for discussion as regards the meaning of the words. I have ventured to take up the time of the Council because the Hon'ble Member having gone into this matter, I thought that it was not only due to him to show that the matter had been fully considered, but that it was necessary that the Council also should be aware that we had not done this without full consideration."

The Hon'ble SIR JOHN WOODBURN said:—"My hon'ble friend Mr. James introduced much liveliness into the debates on this Bill and has now dragged myself into the lists. He has called attention to a question of very great importance which deeply interests him. The question of the indebtedness of the agriculturists in India is a matter which has had the very earnest attention of Your Excellency and myself. It is not the fault of the Government of India

that this matter has not been brought forward more prominently in the course of the present Session. It was my particular hope that before this Session closed, I should be able to place before the Council some of the conclusions at which the Government of India had, in this matter arrived, but, as the Hon'ble Mr. James has himself suggested, the enormous task of battling with plague and famine has completely engrossed the energies of the Local Governments, and it has been impossible to obtain from them in time for the purpose of the present Session their final conclusions on the great issues, which have been committed to their opinion."

The Hon'ble MR. CHALMERS said :—"I am much obliged to my hon'ble friend Sir Griffith Evans for the interesting historical sketch he has given us of this term 'good faith,' and I can only say that I heartily agree with all that he has said. I was not aware myself of the history of the definition in the Indian Penal Code; but it seems to be this, that the Indian Courts have worked out by a series of decisions a somewhat artificial definition differing from the ordinary meaning of the term in the English language, and differing from the line of decision in the English Courts and that the catena of Indian decisions has been followed in the Indian Penal Code. I think most Hon'ble Members will agree with me that it is well to get away as far as we can from an artificial and unnatural definition of terms. We have to use sometimes terms relating to what the Hon'ble Mr. James calls 'the cardinal virtues.' In ordinary language we all understand what is meant by the term good faith. We mean to say that a man has acted honestly, and we mean to say that he has not acted dishonestly. The term is used in all kinds of acts and is continually cropping up. I think it is far better for the future that when we use that term its ordinary natural English meaning should be restored to it. There are many cases where a man ought to be made liable for negligence, but when you are going to make a man so liable, I think you ought to say so in terms and not cast on him the slur of bad faith because he acted negligently. There are certain forms of conduct where it is wholly a question of inference whether a man acted in good faith or negligently, that is always a question of fact, but where a question of fact is to be determined, I think it would be a monstrous thing to brand him as having acted in bad faith because he has not come up to a high standard of diligence. Of course there are cases where a man properly is held liable for negligence, and in these cases for the future we shall express the law in these terms, namely, that a man is not protected unless he has acted in good faith and with due care and caution.

"My hon'ble friend Mr. James has travelled somewhat beyond the immediate scope of this Bill. He points out—and of course I agree with him—that this is a measure which only deals with questions of form—it is a mere draftsman's measure—and he calls our attention to what we cannot but all feel that we are now in times of great stress and danger. I do not think, however, that because we happen now to be in times of peril and danger and stress, that that is any reason for neglecting the ordinary work of the day. We must go on with our ordinary work, doing it as best we can. We shall not diminish the dangers which beset us by neglecting our ordinary daily tasks and sitting looking at others with open mouths and eyes. What can we do in the Legislative Council? I think we have done all we can. We have invested the Governments who have to carry out administrative measures with full powers and by legislation we can do nothing more. The stress of the work must fall upon the administrative officers and no legislation can help them in that.

"As regards the other subject which, like King Charles' head cropped up in my friend's speech—the question of debtor and creditor—that is a subject which we have often considered long and anxiously. We may be able to do something: I do not know; I am not very sanguine myself. I have seen various experiments tried, and, sitting as a Judge at home, I have tried various plans, and I am sorry to say that the result of the various arbitrary measures which I have endeavoured to adopt to help debtors has simply been to encourage them to run more deeply into debt. I remember when first I sat as a County Court Judge, I was very much horrified to find that working men ordinarily borrowed money at a rate of interest of 250 per cent. That was the ordinary rate at which working men got small loans. Having the

matter in my own hands, and the case not being appealable, I thought that monstrous, and that I would not allow such interest, and I either stayed execution of the judgment, or I said I would only give judgment if the creditor would consent to a reduction to a fair amount of interest. What was the result? That as soon as this decision became known, there was a rush of men seeking to borrow at any price, and day after day in Court debtors used to come up cheerfully before me and say, 'You made such and such an order in the case of so and so, please make a similar order in my case.' I tried various other plans, and so have other Judges, and I think nearly all of us came to the conclusion that all we could do was to enforce the law; but it was no use trying to make a special law to protect the people against themselves. However, one is always willing to learn and if any feasible plan—any plan which will hold water—is brought forward, I for one will give it the most anxious and careful consideration."

The motion was put and agreed to.

The Hon'ble MR. CHALMERS moved that the Bill as amended be passed.

The motion was put and agreed to.

LOCAL AUTHORITIES (EMERGENCY) LOANS BILL.

The Hon'ble SIR JAMES WESTLAND moved that the Bill to enable local authorities to borrow money for temporary emergencies be taken into consideration.

The motion was put and agreed to.

The Hon'ble JOY GOBIND LAW said:—"I wish to say a few words in respect to the amendment of which I have given notice. So far as I have been able to learn this Bill had its origin in an application from the Karachi Municipality for a loan to be granted to them by the Government in order to meet the expenditure in connection with the plague. I confess, my Lord, that sub-clause 1 of clause 2 came to me as somewhat of a surprise. Hon'ble Members are aware that after the famine in 1856, Lord Lawrence boldly declared that the Government of India is to be responsible for famine relief, and this authority ought to be held sacred. Since then, my Lord, that has been the settled policy of the Government of India, confirmed by the Secretary of State, and more than one Viceroy and more than one Secretary of State have carried that policy into practice. Therefore it appeared to me that the clause I have referred to seemed to me to be a new departure from the settled practice and settled policy in such cases. Is the Government of India going to share its grave responsibilities with municipalities and District Boards? I happen to have some knowledge of these municipalities and a few of the District Boards. I know, my Lord, that they are not able fully to carry out the purposes for which those bodies were brought into existence; that they had the greatest difficulty in making both ends meet; that they were not able to put their roads in proper repair, to make new roads when necessary, to provide tolerably good drinking water, to provide drainage and sanitary improvements in regard to which we know that the Government of India and the Secretary of State are taking every opportunity of pressing upon their attention. Such, my Lord, being the condition of these bodies, it appears to me to be utterly infructuous to attempt to throw such a heavy burden as the Bill contemplates upon them when, as we know, they are not able to perform the primary duties which local enactments have cast upon them. These are the reasons, my Lord, for my submitting this amendment to this Council. If the Hon'ble Sir James Westland would refer the matter to a Select Committee, I should be quite satisfied, but in the meantime I would move that sub clause 1 of clause 2 of this Bill be omitted and that the numbering of the following clauses be altered accordingly."

The Hon'ble PUNDIT BISHAMBAR NATH said:—"The omission of sub-clause 1 of section 2 from the Bill is, I submit, desirable, and it is not expedient, for the reasons given by the Hon'ble Member on my right (Hon'ble Joy Gobind Law),

that more elasticity should be given to the borrowing powers of public bodies, such as municipalities and District Boards. It is a pity, indeed, and it is deplorable that famine and pestilence are stalking in the land hand in hand; and I know that we must have the sinews of war at hand to cope with the enemy. Your Excellency's Government, I am aware, has left no stone unturned to meet the calamity. I know also that the emergency is a temporary one; and it is a consummation devoutly to be wished for, that the emergency were soon over. My Lord, I understand that the Famine Code already provides that whenever any such expenditure, such as we now have to meet, has to be incurred, that it is the duty of the Municipal bodies and the District Boards to provide for any extraordinary expenditure that might be entailed thereby, but I also understand that their liability to such expenditure is limited to their present and existing resources. It would not, therefore, be advisable to enable them by legislation to borrow money for the purposes of meeting the relief in the event of a dreadful famine. Their means for ordinary purposes are already hampered; and for these reasons, I submit, that the clause which has just been referred to be omitted from the Bill."

His Excellency THE PRESIDENT said:—"I did not wish to interrupt the Hon'ble Member while he was speaking, but the Rules of Business provide that, when an amendment is moved, the member in charge of the Bill is entitled to speak next after the mover of the amendment."

The Hon'ble SIR JAMES WESTLAND said:—"I think that the motion which has been made to omit the first clause of section 2 is to a certain extent based upon a misunderstanding, and I have to acknowledge, therefore, the tone in which the mover of the amendment spoke, in saying that he was not particularly committed to the precise terms of his amendment, and would, under certain circumstances, not press it. I do not wish to enter with him into any discussion as to what local bodies may be expected to do or not to do within their ordinary municipal functions; but I am afraid that I am obliged to challenge altogether his views on the question as to whether the affording of famine relief comes within the purposes of municipal and local bodies. I quite admit that the law in India is not uniform on this subject, but I shall presently state what the various sections in the various laws on this matter prescribe, and I think if I can show that Municipal Boards and District Boards have authority to spend money on famine relief, there can be no harm in giving them power, if they find their balances are not sufficient to meet their objects, to go into the market or to borrow temporarily. I wish to draw special attention to the wording of the sub-section. I can quite understand the strong objection to a law prescribing that the local authority, as defined in the Act, must, under the directions of the Governor General in Council, borrow money on the security of its funds and apply it to any purpose. That is not the object of the present law. It is not to saddle Municipal or District Boards with any expenditure which they are not competent at present to incur. It is meant purely to apply to the cases in which they are competent to incur the expenditure, or in which they are under an obligation to incur the expenditure, and its object is merely to enable them to borrow money for carrying out purposes for which they may find their existing means are not altogether adequate. Now, on a question of principle, might I be permitted to refer for a moment to what has been laid down on this matter in the Famine Commission Report. The mover of the amendment referred to certain instructions and undertakings which had been given by the Government of India and the Secretary of State. He went back as far as 1866. What he said is perfectly true. The Government of India have undertaken a certain responsibility in respect of famine relief, and that responsibility, I am sure, the two Hon'ble Members who have just spoken will admit the Government are doing their best to meet. But the Government is entitled, and ought to be entitled, to call to its aid Municipal and District Boards, and, as a matter of fact, it does so. The section of the Famine Commission's Report, which refers to this matter, is this:—

"'It was observed by the Secretary of State, and we think with perfect justice, that "however plain may be the primary obligation of the State to do all that is possible toward

preserving the lives of the people, it would be most unwise to overlook the great danger of tacitly accepting, if not the doctrine, at least the practice of making the general revenues bear the whole burden of meeting all local difficulties, or of relieving all local distress, and of supplying the needful funds by borrowing in a shape that establishes a permanent charge for all future time. . . . The question which is thus raised of how to make local resources aid in meeting local wants is no doubt one of great difficulty and complexity especially in a country like India . . . The duty of the State does not extend further than to see that the needful means are supplied for giving effect to this principle and for distributing the local burdens arising from its practical application in the manner in which shall be most equitable and least onerous to those who have to bear them.'"

"So far this is a quotation from the Secretary of State. After this the Commission go on to say on their own part.—'This sense of responsibility would, of course, be most effectually quickened by meeting famine expenditure out of the proceeds of local taxation, and by administering the relief through representative members of the tax-paying body, themselves responsible for providing all needful funds. There are, however, insurmountable difficulties in the way of any but a very partial development of such a system in India at the present time.'

"Then they go on to discuss other matters; but that is the principle laid down and accepted by the Government of India. It is a principle also which has been accepted by the Legislature both of the Government of India and by the local Legislatures. In all cases there are distinct directions to the local authorities. The directions are not altogether uniform, but still I shall be able to show that in every province where there is famine at present there is a distinct direction that the local bodies must bear their share in meeting the expenditure that arises out of it. Bombay, for example, is the most hardly stricken province in India. The Bombay District Municipalities Act, VI of 1873, puts this principle in a much stronger form than any Municipal Act in the rest of India. Section 24 says:—'It shall be the duty of every municipality to make adequate provision, out of the municipal property and funds, for the following matters within the Municipal District under its authority.' Then follow a number of duties among which is 'the establishment and maintenance of relief and relief works in time of famine or scarcity.'

"In three other Provinces also which are at present severely stricken by famine—the Central Provinces, the Punjab and Burma—it is laid down in Act XVIII of 1889 for the Central Provinces, section 37, in Act XX of 1891 for the Punjab, section 72, and in Act XVII of 1884 for Burma, section 61—that is, Lower Burma—that municipal funds are applicable to purposes of famine relief. Then we go on to the case of the District Boards. I find in the Bengal Act III of 1885, section 99, that, 'It shall be lawful for a District Board, subject to such limit of expenditure as may be prescribed by the Commissioner, to take such measures as it thinks fit for the relief of the famine within its district and for that purpose to—..... open and maintain such relief works as may be necessary.'

"Then I take up the Act relating to District Boards in the Punjab (XX of 1883) and I find (section 20) that the 'Local Government may direct that any of the following matters shall, subject to such exceptions and condition as it may make and impose, be under the control and administration of a District Board within the area subject to its authority.' Then follow certain matters among which are 'the construction, repair and maintenance of famine preventive works and the establishment and maintenance of such relief works, relief houses and other measures in time of famine or scarcity as may be entrusted to the charge of the Board by the Local Government.'

"I take up the Local Boards Act of the North-Western Provinces and Oudh (XIV of 1883) where (section 24) it is stated that 'every District Board shall, so far as the funds at its disposal will permit, but subject to such exceptions and conditions as the Local Government may, from time to time, make and impose, provide for the control and administration of the following matters within the area, subject to its authority' and among these matters are the 'the establishment and maintenance of such relief works in time of famine or scarcity as may be entrusted to the charge of the Board by the Local Government.'

"I need not quote the Famine Codes of the various Provinces, because all these Famine Codes are based on the law current in the several Provinces, and all lay down that for certain purposes the district officers are to call in the aid of Municipal and District Boards in the administration of their famine duties. I am glad also to be able to say that this obligation has been so far recognised that expenditure has been already incurred to no inconsiderable extent by the District Boards in various parts of India in meeting the existing famine. Now I do not wish to enter into any question as to how far Municipal and District Boards may be expected to undertake these duties. The principle upon which we go in that respect is that, although the first duty in time of scarcity falls upon those local Boards, still it is not intended that they should exhaust their means, and the Government at present undertakes the main duty of famine relief. The Municipal Committee or District Board aids in all these matters when it is within its legal power to do so, and may reasonably be expected to do so. I admit that in the case of municipalities in Bengal there is no such provision, but I say that provision exists even in Bengal in the case of the district authorities.

"I have shown, therefore, that the principle adopted by the law is that the local authorities have a responsibility in the matter of meeting famine relief. I admit that the ultimate responsibility rests with the Government, and that the Government having more ample funds at its disposal, having long been prepared for these calamities, may reasonably be expected to come forward and bear by far the larger burden of famine relief. But the District Boards do bear part of the charge, and where they do bear part of the charge and where the law imposes upon them an obligation to bear part of it, it is quite consistent with the existing law to provide that, if they desire to borrow money on the security of their funds for meeting their obligation, they should have legal power to do so, and that is all the present law which is now proposed to the Council proposes to do. It imposes upon them no obligation. It is not intended to give the Government the power of saying that they must run into debt in order to discharge their duties. Their duties are defined quite irrespective of this particular Act, but I think it is perfectly legitimate to say to local Boards and Municipalities that the mere fact of their having overspent their balances, or having found themselves as one or two municipalities at present do find themselves, devoid of the actual cash balances necessary to meet their obligations, they shall not for that reason be excused altogether from fulfilling them. I do not think that on the other side of India the Municipal Boards are unwilling to bear a share in the burden of famine relief; they are at the present moment doing so. But this Bill is not meant to confer upon them powers which they do not possess; nor to impose upon them any new expenditure which at present they may not be called upon to discharge."

The Hon'ble MR. SAYANI said:—"What I intended to say after my friend the Hon'ble Pundit Bishambar Nath had made his statement, is now explained by the Hon'ble the Financial Member. As I have understood the Bill from the first it was not brought forward before this Council for the purpose of deciding as to whether this expenditure is to be met from the general reverues of the country or from the moneys assigned to the Provincial Governments, or out of local funds, or to throw any burden on the Local Governments or on the municipalities, or on the District Boards, but that it was simply intended as a temporary measure to enable Local Governments, Municipalities and District Boards to tide over the difficulty for the present, because the Bill states 'that whereas it is expedient to enable local authorities to borrow money for temporary emergencies,' and it goes on to give a list of the temporary emergencies which are at present requiring additional funds,—the giving of relief and establishment and maintenance of relief works in time of famine or scarcity, being the first in such list; and what I understood from this was an intention to enable Local Governments at their discretion to do everything in their power to relieve the distress. For instance, they might advance moneys to certain classes of people in order to enable them to go to work, spin yarn, weave cloth and so on, so as not to allow them to fall into distress. The big question as to who is finally to bear the expenditure or the loss or both as the case may be, must yet be an open question, as, notwithstanding what the Hon'ble Financial Member has

said, I do not think the Government can have already decided it, because before Government decides that question, the representations of the Local Governments and the representations of the municipalities and District Boards through the Local Governments, will have to be very carefully considered, and then and then only a final decision come to, and that as this is only a temporary measure in order to enable the local authorities to tide over temporary difficulties which are very exceptional, it is desirable to give the power which is intended to be given by this Bill leaving the question of responsibility to be determined hereafter, when a full and proper consideration can be given to it."

The Hon'ble MR. PLAYFAIR said :—" My Lord, I think it is very probable that in establishing urban relief works, one difficulty will be to prevent calls being made upon the municipality by those inhabiting the agricultural area outside of its limits. Artisans or operatives following a special trade are, generally speaking, drawn from the country to the town. These do not as a rule sever their connection with their native villages and not unfrequently keep this up by leaving their families there to follow agricultural pursuits. If income failed them in the towns they would most probably return home to assist in doing what could be done in the preparation of land for future crops. On the other hand those who do not follow a special trade and are of the landless class will be obliged to accept such other employment in the town or elsewhere as may be obtainable, and in this way they will in all probability eke out a living. If not, they would have to seek charitable relief either from private individuals or from the State, but it does not seem clear why the owners of property in a municipal area, who in their own interests may in times of scarcity do much for the preservation of their tenants or operatives, should be called upon by special taxation to provide also for the other members of the urban community. This leads to the question, my Lord, whether municipalities have not fair grounds for a claim upon the Famine Insurance Fund on behalf of citizens as well as the District Magistrate who, as a matter of course, prefers a claim upon the Government on behalf of the rural population. The Famine Insurance Fund was started for the preservation of life against a failure of crops, and direct calls are only made upon it under emergency.

" I would proceed a step further, my Lord, and ask whether communities suffering from or jeopardised by the outbreak of such a dangerous epidemic disease as the plague should not also be considered as worthy of relief under this Insurance Fund. It is very evident that municipalities and other corporations have not thought it necessary in the past to contemplate a heavy expenditure on account of the probable appearance of such a dangerous disease as the plague, just as they have not considered it necessary to lay up a reserve fund for the damage that may follow upon a cyclone, and it would appear that much may be said in favour of expenditure for the stamping out of plague being met by the Provincial if not by the Imperial revenues. Omitting reference to Calcutta, which has special powers under its Municipal Act, and looking to the financial position of the municipalities throughout Bengal, it is very evident that the assessment has reached what has been considered by the general public to be the limit of taxation. So much is this the case that it is not apparent what security in the nature of increased taxation would be forthcoming for large borrowings.

" The present Bill will evidently not become applicable to these municipalities, for in addition to their having reached the maximum of taxation, the Bengal Municipal Act does not seem to provide for any new form of taxation, although Acts of other provinces do allow for ' the levying of any other taxation ' with the sanction of Government. The position seems to be that the Bengal municipalities can only offer indifferent security for payment of interest demands and instalments of sinking funds on capital borrowed for the purposes of the Bill before the Council, and it is very certain that whatever risk the Government might take in giving loans to municipalities, the general public would not be very ready to provide capital without security. It seems to me therefore that the outlay contemplated by the Bill on the occurrence of famine and plague in the municipalities of Bengal at least will fall upon the shoulders of the Government, and to this I do not object."

The Hon'ble MR. CADELL said:—"My Lord, I did not intend to take up the time of the Council with respect to this Bill, but as so many Members have spoken against the clause under discussion, I am anxious to state the conviction derived from considerable experience of local authorities in the North-Western Provinces, that there are many such local authorities which will not thank the hon'ble mover of the amendment for wishing to deprive them of the safe, and in my opinion, suitable discretion allowed to them by the Bill. Surely if there is any reality in self-government, these authorities should be permitted to decide for themselves whether they shall raise money for the help of their fellow-citizens in times of scarcity and famine. In some parts of the country there are old decayed towns the impoverished inhabitants of which are the first to feel the effect of high prices, and which may need relief long before relief works are undertaken by Government, and even where such relief works are never likely to be undertaken, and in all cases it seems to me right and proper that local authorities (and here I am thinking chiefly of municipalities) should do what they can to alleviate distress in their neighbourhood. As to the practice hitherto, there can, I think, be no doubt; in times of scarcity, if a municipality has funds, it devotes them to works which are useful to the town and the construction of which will be helpful to its population. It would, I think, be very undesirable that, while one Board was doing its duty readily and effectively, having funds to do so, another Board having temporarily exhausted its funds, should sit idly by and do nothing for its distressed inhabitants.

"I am glad to notice that there is no suggestion that there is any danger that local authorities will be harshly treated by Government, and we may, I think, rest assured that, even if local authorities wished to ruin themselves, 'the previous sanction of the Governor General in Council' will not be given to loans which are likely to injure or permanently cramp the local authorities applying for such loans."

The Hon'ble SIR GRIFFITH EVANS said:—"As far as I have been able to follow the Hon'ble Sir James Westland, it appeared that the bodies which this Bill will affect are divisible into two classes—one a class who are at present empowered to spend money on the establishment of relief works, and the other a class who are not so empowered, and I understood him to say that the Bengal Municipalities are not empowered to do anything of the kind under the present state of the law."

SIR JAMES WESTLAND:—"I believe that is the case."

SIR GRIFFITH EVANS:—"If so, we see at once that the position of the Hon'ble Joy Gobind Law who has moved the amendment is a perfectly different one from the position of the Members who represent the North-Western Provinces. They might fairly say we hail an Act which enables us, in cases where it is hard to discharge obligations which we are ordinarily called upon to discharge, to borrow money for the purpose, but it is quite a different thing here in Bengal, and I gather in Madras, too, where this duty has never been placed upon the municipalities and is not cast upon them now. The position of these municipalities is, I entirely agree with the Hon'ble Joy Gobind Law, in many respects rather deplorable. They are short of funds. They are constituted primarily to see to the roads, to the water-supply, and to the conservancy. These are their necessary duties. Those duties they find it difficult to discharge, and I am sorry to see there is a tendency to throw on them other duties that they cannot perform.

"They have been charged to some extent with education. If they have not got money enough for roads, water and their conservancy, what is the use of talking about education? There is I believe a further proposal that they should pay for a Veterinary Department and for improving the breed of mules, horses and asses. Now on the top of all this they find that they are by a side wind apparently let in in many cases for loans for famine relief, although that is no part of their substantial Act. They are driven, as in some cases they complain, to undertake expenses with regard to education and with regard to other things which they have no sufficient funds for. How far those complaints are well founded or not is not for me to say, but it is probable that when the Bengal

Council comes to deal with the matter a good deal will be heard of these complaints, and now this Bill apparently gives the Bengal Municipalities the power of raising these loans; if they have no power to spend money on famine works, why give them the power to borrow money for this purpose? The Act, at any rate, should be restricted to those parts of India in which the municipalities are charged with these duties, and, if it is wise to allow them to mortgage, give them a discretionary power to raise loans for these purposes, but to give other municipalities power for purposes which are not within the Acts which constitute them at all is a strange kind of legislation."

The Hon'ble RAI BAHADUR P. ANANDA CHARLU said :—"This Act has been described as merely permissive and not one that throws any additional burden upon the municipalities and other bodies. I know that in terms it does not, but once an Act makes it the duty, that duty is easily forced upon them. We have, in our Presidency at least, a section of the Municipal Act which has received the historic name of the 'bludgeon section' by means of which where a municipality would not carry out any duties imposed upon them by the Act, by means of that section, the authority took it into its own hands to have it done by appointing an officer for the purpose of carrying that purpose out. Therefore, the permissiveness is only the first step towards making the ground prepared for the application of a stringent section, and I may also say that the duty of making a fund against famine is not cast upon, I think at present, the municipalities of Madras. All that has been said against the application of this Act to Bengal must be said with equal force, if not with greater force, in regard to the Madras Presidency. If anything, Bengal is much more rich than Madras, and if rich Bengal complains to have this task thrown upon it, I am sure the poor and benighted Madras ought to. My Lord, the various duties cast upon the municipalities have been referred to by the mover of this amendment. There are certain duties which on the face of them do not belong to a municipality, but have been cast upon it in Madras, and that is, perhaps, one of the grounds why further care ought to be taken that municipalties ought to be exempted from further obligations of this kind. For instance, the municipality in Madras has to contribute a pretty good sum towards the maintenance of the Police in the management of which they have not the slightest power. They have to give away a large sum of money towards hospitals—not hospitals that they maintain—but towards medical education itself to the management of which they have no right whatsoever. They have also to give away large sums of money for purposes of education, in the management of which they have no hand. It is well known that the water system in Madras, though good I think to-day, requires a good deal to be modified, and the drainage is one the very thought of which makes people frightened as to the amount it would cost. Under these circumstances it seems to me that, although the Act as it at present exists does not lay this duty upon the municipalities of Madras and such municipalities, it strikes me that the passing of this Act would cast upon them, if not the duty of spending its current income for the purposes of famine, but possibly the duty of borrowing money for the purpose of helping in the alleviation of famine. The Famine Commission Report has been referred to, but the Famine Commission Report is not law, and when I read the Bengal Municipal Act and the Bengal Famine Code sometime back I was not a little surprised that the Famine Code throws the duty of relieving people in the earlier stages of distress upon the municipalities and the District Boards, though there was no foundation in law for that duty to be cast upon them. But, my Lord, I go further and say that not only is the law objectionable in so far as where those municipalities are concerned upon whom the duty is not laid at present, but I go further and say it is a law which ought not to be passed even in regard to bodies upon which at present the duty lies. The duty that lies under the Act is the duty of employing the current income of the municipality for the purpose of relieving distress, but the power that this will give is to convert that duty, not only to a duty of supplying the current income, but also to pledge the future income for the purposes of the present generation. In that view I think that even in regard to those municipalities upon which the duty is cast at present to render relief it is a duty which is limited to the current income and not to pledge future income by borrowing loans for the purpose."

The Hon'ble MR. CHALMERS said :—"I merely wished to point out that Hon'ble Members seem to labour under some misapprehension as to this measure. This is not a Bill for compelling municipalities or local authorities to run into debt, but to enable them in certain cases, where they desire it, to obtain money on the security of their rates which they could not otherwise obtain. Of course, a Municipality or Local Board by the terms of the Local Loans Act is prevented from borrowing money except for certain definite purposes, and all that this clause does is to give an optional power to local authorities to borrow money in certain cases outside the general purposes for which they are empowered to borrow. Perhaps it is an administrative question, but there are surely many cases in which a local authority might properly wish to borrow money for the purposes mentioned here. Some of the authorities, as Sir Griffith Evans has pointed out, are under the duty of providing for their inhabitants in times of scarcity. It is clearly advisable that they should have power, if necessary, to borrow money to carry out that duty Other municipalities are under no such duty at all. That being so, I do not suppose they would borrow the money, but it is very easy to imagine cases where a municipality, which is under no direct duty, might nevertheless wish, for the sake of preserving a particular trade, to incur expenditure which might not be authorised by its ordinary borrowing powers. One instance occurs to me. Take the case of the lace-workers of Delhi. I believe at present there is great distress among them. It is an important trade to the city of Delhi. It is important that the trade should not be allowed to die out. It is quite possible that Delhi might wish to borrow money to help the lace-workers who are now in great distress, and it is quite clear that the ordinary famine rules could not be applied to trade of that kind. Where you have skilled workers whose work depends upon the delicacy of touch of their fingers, you could not apply the ordinary famine relief tests to them. You have to make special provision for cases of that kind. It might very well be that ordinary famine funds would not be available under the famine rules requiring test works in a case like the Delhi lace-workers, but yet the city wishing to help these people might desire to borrow money to help them through this period of scarcity. As regards epidemic diseases I do not understand that any question has been raised. Of course, similar considerations apply there."

The Hon'ble SIR JOHN WOODBURN said :—It might, perhaps, reassure the Hon'ble Mr. Joy Gobind Law if I interpose with a single word of explanation. As Sir James Westland and the Hon'ble Mr. Chalmers have pointed out, the Bill is a purely permissive Bill, and applies entirely to voluntary applications for loans from municipalities or other local authorities, and the case originated out of two voluntary applications which were actually made. One was made by the Kurrachee Municipality for a loan from Government of 1½ lakhs of rupees to assist them in the extirpation of plague from among its community. The other application—I have not the papers to refer to at this moment, and I am not absolutely clear about the facts—was from the Bombay Government on behalf of the Sholapur Municipality. In that Municipality there is a large body of weavers whose occupation has come to a standstill for the time being. In addition to the difficulties of the time, and the hardships from high prices, the Pundits of that region have declared that this is an unlucky year for marriages, and there is, therefore an exceptionally small demand for their commodities, but the relief which the Government was prepared to give these weavers was a relief upon relief works upon which they must toil with their hands and in a manner to which they were not accustomed. The Sholapur Municipality, if it could get money from Government, would willingly employ these weavers themselves, take their goods when they are woven and sell them at a more convenient season and pay the weavers in the meantime the prices of their products. On both these occasions we were advised that the municipalities under the present Act had no valid powers of raising loans from Government but these were two genuine cases in which municipalities of their own accord had asked for money to expend in a manner which they thought proper and convenient, and it was to enable such applications where they were voluntarily made that this proposal has been brought before the Council."

VII

The Hon'ble SIR GRIFFITH EVANS said :—"*Might I ask Your Excellency's* permission to make a remark. My objection does not seem to have been quite understood. As I understand these Bengal Municipalities have no power to spend money for famine relief works and therefore to spend the money they are enabled to borrow would be *ultra vires* except so far as they get implied power under this Act. This is an Act which has the effect incidentally of giving them permissive power in borrowing for purposes beyond the scope of the Act by which they are constituted and that is a fatal objection to the measure as it stands. As regards what the Hon'ble Sir John Woodburn has just said, no doubt the Sholapur case is one in point, but it could be dealt with by a special Act, but it is no excuse for giving Bengal Municipalities permissive power to borrow money to do acts *ultra vires* of the Act under which they are constituted."

SIR JOHN WOODBURN :—"I think it was explained by the Hon'ble Sir James Westland that this Act imposes upon no local authorities any new duty."

SIR GRIFFITH EVANS :—"It gives them the right to borrow in order to do something which they have no power to do and that is I think very curious legislation—the more so as the framers of the Bill seem to disclaim all intention of producing this result."

His Honour THE LIEUTENANT-GOVERNOR said :—"The Hon'ble Sir Griffith Evans has anticipated to a great extent the remarks I was about to make with reference to this Bill. When it was first brought in, I ventured to suggest to the Hon'ble Mover that it should be published in the local Gazettes in the local languages, in order that it might be carefully considered. I have been away on tour myself, and it has not come before me officially. All the consideration I have been able to give to it has been in the course of this debate. So far as the Bill empowers local authorities who are under their existing Acts able to spend money upon these objects, it appears superfluous. As the Statement of Objects and Reasons explains, the Local Authorities Loans Act enables a local authority to raise a loan for the carrying out of any works which it is legally authorised to carry out; and it is only where a doubt arises as to whether a particular work falls within the legal powers of this local authority that any question of the necessity for this Act can arise. In the case of the Bengal Municipalities it has already been stated that they have no power at present to spend money upon famine relief. They do, as a matter of fact, spend certain sums upon that object, because it is possible under the executive orders of Government to direct ordinary municipal operations in such a way as to practically afford relief for famine. Strictly speaking, they have no power to spend their funds on relief works, and the logical form of the section would be to insert in section 2 after the words 'borrow money on the security of its funds' the words—'and may, with the previous sanction of the Governor General in Council and with the approval of the Local Governments, expend its funds for any of the following purposes.' I should have been glad if we had more time—I see it is proposed to pass the Act to-day—to consider whether we should not make some proposal of that kind and take power to expand our general Municipal Law in Bengal on those lines. I do not myself hold that famine relief is an object on which a municipality should not be enabled to spend funds, and as I say indirectly in Bengal we do spend funds in that way. The municipalities have not, however, at present much surplus income. As regards District Boards in Bengal, there is no doubt whatever that they have full power to spend money upon famine relief. Necessarily so, because we make over to them the road cess, and it is a perfectly legitimate and proper thing to spend that money on works for the relief of distress. It is true that the Act is a permissive Act, but as it stands will be perfectly infructuous in Bengal. If the necessities of other parts of India require it, I shall throw no obstacle in the way, but it must be clearly recognised that with regard to Bengal municipalities it does not meet their case."

The Hon'ble BABU JOY GOBIND LAW said :—"I desire to make a remark with reference to what was said as regards this being an enabling Act. We

know what an enabling Act is. As soon as local authorities get powers to raise loans, I am quite sure pressure will be brought upon them to exercise that power. They will have no option in the matter. How can they be opposed to authorities to whom they owe their very existence. So far as regards that clause which I do not think of much importance. But questions have cropped up in the course of this discussion to which it is necessary that more attention and consideration should be given than can be given at the present moment. I would, therefore, take this opportunity of suggesting to the Hon'ble Member in charge of the Bill whether it would not be the best thing under all the circumstances to refer the Bill to a Select Committee before it is finally passed. If the Hon'ble Member in charge of the Bill is willing so to refer it, I shall withdraw the amendment that I made, but if he is not willing, of course the amendment must stand.

The Hon'ble Sir JAMES WESTLAND said :—"I understand that the objections which have been taken to the Bill are that the Bill enables the Government to do certain things which, as I have explained, it has no intention of doing, and to exercise certain powers over Municipal and Local Boards which it is expressly declared it has no intention of exercising. The Bill is intended purely to enable local bodies to borrow funds for the purpose for which they already have legal power to apply their funds, and to fulfil obligations which for want of actual cash balances they are unable to fulfil. If there is any doubt as to the meaning of the words of the Bill, it will be better that the Bill be referred to a Select Committee in order that its language may be made perfectly clear. I would, therefore, propose, if the Hon'ble Mover of this amendment will accept of my motion, that the Bill be referred to a Select Committee composed of the Hon'ble Sir John Woodburn, the Hon'ble Mr. Chalmers, the Hon'ble Rai Bahadur Ananda Charlu, the Hon'ble Mr. Playfair, the Hon'ble Babu Joy Gobind Law and myself, with instructions to report at the next meeting of the Council."

The Hon'ble BABU JOY GOBIND LAW withdrew his amendment.

The motion was put and agreed to.

INDIAN STAMP ACT, 1879, AMENDMENT BILL.

The Hon'ble SIR JAMES WESTLAND moved that the Bill to amend the Indian Stamp Act, 1879, be referred to a Select Committee consisting of the Hon'ble Mr Chalmers, the Hon'ble Rai Bahadur Ananda Charlu, the Hon'ble Mr. Sayani, the Hon'ble Mr. Jones and the mover, with instructions to report at the next meeting of the Council. He said :—"It is desirable if the Select Committee approve of the Bill that it should be passed this Session. I may mention what I did not mention when asking for leave to introduce the Bill that the questions involved in this Bill have been under discussion with Local Governments for a long time. They have been approved of by the Local Governments, and there is, therefore, no necessity to refer the Bill separately to the Local Governments and to get their opinion on it as it stands, because I shall be able to lay before the Select Committee sufficient evidence of the opinions of Local Governments on the matter generally."

The Hon'ble BABU JOY GOBIND LAW said :—"It strikes me that there will be some injustice done by this Bill. It is in regard to the transfer of a lease. Why should the transfer of a lease cost more money in stamps than a lease land? That is the objection which occurs to me. Why should it be charged with a conveyance stamp? There are some leases which are charged as conveyances, but there are others which are charged with a five-rupee stamp. That is the only objection I have to make."

The Hon'ble SIR GRIFFITH EVANS said :—"As a matter of fact, in this country a lease does not always bear the same meaning in India as it does in England. In the Transfer of Property Act a perpetual lease, as they call it, that is a right to hold land for ever subject to an invariable rent, such as putnee, is

called a lease. In England that would be called a conveyance of real property. It would not be considered a lease at all, and it would be charged with a duty on the perpetual rent. These things are now dealt with as leases because they are called leases in this country, and it is, therefore, necessary to take some steps for the protection of the revenue in regard to this class of property. I understand the matter is going into Select Committee and will be considered there."

The Hon'ble SIR JAMES WESTLAND said:—"The Hon'ble Sir Griffith Evans has correctly expressed the intention of the law which we propose. It is really to make what in any other country is called a conveyance of real property subject to the duty with which a conveyance is properly chargeable. In this country leases have a different meaning to what they have in other countries. A large quantity of property is held under leases given by Government and there are other leasehold properties such as putnees and the like in Bengal. These properties are very valuable. The value is not in any way represented by the annual payment made, and the transfer of these properties, when made, is often made for a very valuable consideration. The point which has been brought before the Council by the Hon'ble Joy Gobind Law will, no doubt, be considered by the Select Committee."

The motion was put and agreed to.

The Council adjourned to Friday the 19th March, 1897.

J. M. MACPHERSON,
Secretary to the Government of India,
Legislative Department.

CALCUTTA;
The 12th March, 1897.

Summary of Financial Statement, 1897-98.

The accounts of 1895-96 closed with a surplus of Rx. 1,534,000, being Rx. 583,000 better than estimated last year. Of this improvement, Rx. 163,000 is in Railway Revenue and Rx. 213,000 in Army Expenditure.

The main feature of the Revised Estimate for 1896-97 is the loss of Revenue and the Expenditure due to famine. Expenditure on Famine Relief is estimated at Rx. 1,891,000, in addition to Rx. 75,000 provided in Budget on account of Bundelkhand famine in the earlier part of the year. Loss of Revenue is estimated as follows: Land Revenue, Rx. 2,304,000; Salt, Rx. 262,000; Other Principal Heads, Rx. 374,000; Railway Net Earnings, Rx. 1,234,000; total, Rx. 4,264,000. Army Expenditure is increased, Rx. 196,000, by high prices due to scarcity. There is gain in Irrigation of Rx. 270,000. Total of figures directly attributable to famine and scarcity, Rx 6,081,000, of which Rx. 574,000 is charged on Provincial Balances and Rx. 5,507,000 falls on Imperial Account. The Revised Estimate accordingly closes with deficit Rx. 1,987,000, being Rx. 2,450,000 worse than Budget, being the Rx. 5,507,000 just mentioned and Rx. 419,000 loss on Opium account *less* Rx. 1,329,000 improvement on Exchange due to better rates, Rx. 474,000 Protective Railways transferred to Capital Account, Rx. 608,000 Savings on Army Estimates (excluding the Rx. 196,000 excess expenditure already mentioned), and Rx. 1,065,000 improvements under other numerous heads.

The exchange realised during the year has been 14·46*d.* against 13·75*d.* taken in last year's Estimates and in framing the Budget Estimates of 1897-98 the same rate of 14·46*d.* has been taken without alteration.

The Budget Estimates, 1897-98, work out to a deficit of Rx. 2,464,000. Compared with Budget, 1896-97, Exchange is better by Rx. 1,360,000; Land Revenue worse, Rx. 447,000, and Railway Earnings worse, Rx. 917,000,– both due to Famine; Opium worse, Rx. 1,139,000, owing to low prices; Army Expenditure in India less by Rx. 511,000, as last year included a special mobilisation expenditure.

The Famine Relief Expenditure provided for in Budget is Rx. 3,641,000. Total Famine Relief Expenditure, both years, Rx. 5,607,000, but much depends on future prospects as to weather and crops. This is independent of about Rx. 800,000 advances to ryots.

The Statement announces continuation of programme of Railway Expenditure in accordance with policy explained last March. Rx. 8,758,000 have been spent in 1896-97, and Rx. 10,130,000 will be spent in 1897-98, besides Rx. 2,470,000 and Rx. 3,284,000 spent by Branch Line and other Companies not under direct guarantee.

This necessitates Government loans of four crores in India and three-and-a-half millions sterling in England, besides one million sterling Temporary Debt.

The Secretary of State's drawings on India will amount to £13,000,000.

The Statement contains a full review of Provincial Finance and of the new quinquennial Settlements with Local Governments. In conclusion, it refers to the cost of famine being so much greater than the declared deficits, and bases upon this the hope that when famine and plague have passed away financial progress will be resumed.

APPENDIX.

ACCOUNTS AND ESTIMATES.

General Statement of the Accounts and Estimates of the Revenue and Expenditure and Receipts and Disbursements of the Government of India in India and in England — Pages 66 and 67

A.—Statement of the Revenue of India in India and in England — 68 and 69

B.—Statement of the Expenditure chargeable on the Revenues of India in India and in England — 70—73

C.—Statement of Receipts and Disbursements of the Government of India in India and in England — 74—77

D.—Account of Provincial and Local Savings charged to Revenue and held at the disposal of Provincial Governments under their Provincial Settlements — 78

E.—Statement of Net Revenue and Expenditure—India and England — 79

FINANCIAL STATEMENT FOR 1897-98.

PART I.

GENERAL REVIEW.

1. I have the honour to present to the Council the Financial Statement for the year 1897-98; including in it, as usual, the closed Accounts for 1895-96, the Revised Estimates for 1896-97, and the Budget Estimates for 1897-98.

Accounts of 1895-96.

2. The Revised Estimates for 1895-96 closed last year with a surplus of Rx. 951,400. In the accounts this result has been improved by Rx. 582,598, the actual surplus of the year being Rx. 1,533,998.

The main differences were (1) that the principal heads of Revenue produced Rx. 240,641 more, (2) Railways produced a better net result by Rx. 163,432, (3) the Army net Expenditure was Rx. 213,054 less. The other differences are too small to require separate mention.

3. It has not been customary in the Financial Statements to give any detailed explanations with regard to the closed accounts of the previous year, for the simple reason that they are usually published in the fullest detail in the Annual Volume of Finance and Revenue Accounts long before the date of the Statement. In the present year they were published earlier than usual, namely, on January 9th, and it is sufficient to lay a copy on the table, and to refer Honourable Members to the analysis of them published in the *Gazette of India* last Saturday, as the Comptroller General's Appropriation Report.

Famine Charges.

4. Passing to the Revised Estimates for 1896-97 and the Budget Estimates for 1897-98, I call to remembrance what Sir E. Baring said in his Financial Statement for 1882-83, paragraph 92, when he referred to the Famine Insurance Policy: "We do not profess to finance for a surplus in a year of famine. When a serious famine occurs, it is inevitable that the Expenditure of the year should be greater than the Revenue." In commencing my Financial Statement of last year, I summed up the actual figures, up to date, of the Famine Insurance Account, but I little thought then that we were on the brink of the disaster for which, during so many years, we had been financially preparing, and that I would so soon have to announce the actual occurrence of the deficits, against which that account is the financial set-off.

5. I may repeat here the figures of 15 years' Famine Insurance, substituting the actual figures of 1895-96 for those which were shewn in last year's Statement:—

	Rx.
1. Spent upon actual Famine Relief	320,664
2. Spent upon construction of Protective Irrigation Works	1,813,841
3 Spent upon construction of Protective Railways	6,550,931
4. Spent in meeting interest upon the Indian Midland and Bengal-Nagpur Railways	3,631,450
5. Charged as reduction and avoidance of debt, that is, as famine surplus	5,327,299
	17,644,185

6. The effect of the Expenditure under headings 2, 3 and 4 is that for the present and all future famines we are so much better equipped with the means of meeting the demands arising out of scarcity, that we may reasonably hope to pass through the period of distress with far less expenditure than otherwise would have fallen upon us. In the two years 1876-77 and 1877-78 of the last great famine the Government of India spent under the head of Famine Relief Rx. 7,493,151; it will be seen that our present estimate for two years of a calamity, which is at any rate much more widely spread, is Rx. 5,606,900: and this difference is due to our far more adequate organization, of which no small part is the better equipment in the form of Railways and Canals, with which, as the Honourable Sir J. Woodburn pointed out in his speech in Council on October 15 last, we start The figures I give of course very far from exhaust, in either case, the cost of the famine to the State; for the loss of Revenue—both ordinary Revenue and Railway Revenue—is very large indeed, and in a hundred different and smaller ways do famine and scarcity cause increases of State expenditure in all Departments.

7. The amount under head (5), Rx. 5,327,299, though charged in our past accounts as expenditure, has really been utilized either in purchase of our own debt, or in reduction of new loans and in the construction of Productive Works. If State Book-keeping as affecting our Revenue Account, were a continuous operation like the carrying forward of a Profit and Loss Account, instead of one meant to shew the results of each twelve months' operations taken by themselves, we would have to write off the cost of the present famine against this past charge of Rx. 5,327,299 before taking any part of it as a charge against the Revenues of the current year. It is necessary to bear this in mind, because one consequence of this method of stating our accounts is that in any total of surpluses and deficits, taken over a series of years which include a famine year, the total surplus so stated is less than the actual facts by the amount of the charge for reduction and avoidance of debt.

8. I shall have to deal separately with the effect of the famine and scarcity upon our ordinary Revenues and Expenditure; I state here only the totals of the estimated Expenditure upon direct famine relief. They amount to Rx. 1,965,700 in 1896-97 and Rx. 3,641,200 in 1897-98, total Rx. 5,606,900. The first of these figures is largely based on consideration of known actuals for part of the year, but in neither case can I put forward the figures as estimates in the sense in which we ordinarily use that term. Famine relief is administered upon certain definite principles, and on a system of test carefully laid down, and all I can say about the estimates of famine expenditure in the future, is that the figures are a summary of the best opinions which the Local Governments can give, as to the chances of the approaching spring crop, and of the crop due next autumn, and of the manner in which these crops, deficient, normal or abundant, will affect the multitudes, reckoned now by millions, who are at present compelled to seek relief at the hands of the State. In some parts of the distressed tracts the favourable prospects of the spring crop give ground for hope, that the necessities for famine relief will in a short while shew a marked diminution. In others, there is no hope of diminution till the autumn crop is harvested, and there may be any amount of increase. No past experience can serve as a guide in the solution of these difficulties of estimating. The figures must be taken for what they are worth; in some possible circumstances they may be found to be largely in excess of the actual expenditure; in other possible circumstances they may be found far short of it.

9. Up to the end of January the actual expenditure was 66 lakhs, of which about 13 were spent upon the Bandelkhand famine in the earlier part of the year, a famine of very great intensity for its small area, and so quietly and

effectively managed by the Local Government that hardly anything was heard of it outside official circles. It is forgotten now in the presence of the greater calamity with which that same Government, as well as others, have to deal.

10. The amounts charged as famine relief are independent of very large advances under the Land Improvement and Agricultural Loans Acts. But they include advances of another kind which have also been largely made by Government, namely, advances to Landholders for works to be conducted by them on Famine Relief principles for the employment of their famine-stricken tenants, in respect of which they undertake to reimburse something approaching to the actual value of the work.

The measure of the Land Improvement and Agricultural advances due to the famine may be judged from the following figures :—

	Land Improvement and Agricultural advances.			
	1894-95.	1895-96.	1896-97, Revised.	1897-98, Budget.
	Rx.	Rx.	Rx.	Rx.
Central Provinces . .	81,100	36,800	103,000	110,000
Bengal	9,300	9,700	55,000	50,000
North-Western Provinces .	65,000	57,600	420,000	140,400
Punjab	18,700	28,400	89,000	50,000
Madras	28,000	20,400	50,000	25,000
Bombay	88,700	99,300	351,800	117,700
TOTAL .	290,800	252,200	1,068,800	493,100

11. The operations of the Opium Department, that is to say, its usual advances for wells and for cultivation, helped very largely towards the relief of the peasantry in the distressed tracts of the North-Western Provinces and of Bengal.

12. While speaking of the finances of famine, it is necessary to note an arrangement in which the Government of India takes part for enabling the Native Bandelkhand States to undertake the necessary expenditure for famine relief of their subjects They have been hard hit by not one but two or three successive bad seasons, and find themselves in some cases without adequate funds to meet the expenditure. The arrangement made in these cases is that His Highness the Maharaja Sindia has agreed to lend funds to the Native States in question, the Government of India becoming guarantee for the loan and taking measures to ensure its ultimate repayment.

Revised Estimate of 1896-97.

13. The Budget Estimates of 1896-97 worked out to a surplus of Rx. 463,100. The Revised Estimates work out to a deficit of Rx. 1,986,900, but between these two figures there are so many differences of detail that it is better to set them out in a tabular form.

Estimates of 1896-97.

	Budget.	Revised.	Revised Better.	Revised Worse.
STERLING IN ENGLAND—				
Revenue . . . . . £	174,100	319,400	145,300	...

	79,274,000	76,657,400	...	382,500
PROVINCIAL ADJUSTMENT—				
Deduction made for charges taken to Provincial and Local Balances	—1,227,400	—1,228,500	342,100	...
Surplus (+) Deficit (—) .	+403,100	—1,986,900	...	2,450,000

14. Of the better receipts in the English account, £68,000 represent premium obtained on issue of India 2½ per cent stock, and £27,500, interest on investment of cash balance. In the account of expenditure in England there are no differences of sufficient importance to require special mention.

15. The large difference under Exchange is due to the fact that the Budget Estimates were taken at 13·75*d.*, whereas the rate realized has been about 14·46*d.*

16. Under Land Revenue there is a very great falling-off, due to the fact that in the districts where the crops failed it was necessary to give large suspensions of revenue. The following figures shew in what provinces the falling-off has occurred, and in the first column of the statement I have shewn the figure which, upon the examination made for the purpose of the Provincial settlements, was established, in our opinion, as the existing standard of Land Revenue receipts, apart from circumstances of famine and distress:—

	Standard.* Rx.	Budget. Rx.	Revised. Rx.	Difference Rx.
India	150,000	150,000	151,800	+1,800
Central Provinces . .	844,800	864,600	660,000	—204,600
Burma—Upper . .	812,000	797,000	635,000	—162,000
,, Lower . .	1,759,300	1,760,000	1,780,000	+20,000
Assam	614,200	614,200	609,000	— 5,200
Bengal	3,902,100	3,894,700	3,920,000	+25,300
North-Western Provinces	6,110,900	6,113,900	4,914,200	—1,199,700
Punjab . . .	2,464,000	2,457,100	2,362,200	—94 900
Madras . . .	5,380 000	5,601,700	5,207,700	—394,000
Bombay . . .	4,801,400	4,770,000	4,351,200	—418,800
	26,838,700	27,023,200	24,591,100	—2,432,100
Deduct—Portion of Land Revenue due to Irrigation .	...	929,900	891,900	—38,000
	...	26,093,300	23,699,200	—2,394,100

* These standard figures exclude "Local"; of which the only important figures are Rx 220,000 in Madras and Rx. 15,000 in Bombay.

The losses, it will be seen, occur in the Central Provinces, in Upper Burma, very largely in North-Western Provinces, to a small extent in Punjab, and a considerable amount in Madras and Bombay. The whole loss of Rx. 2,394,100 may be put down as caused by the scarcity.

17. Opium shews in the above statement a falling-off of Rx. 508,600, both the Bengal prices and the export from Bombay being unfavourably affected by low prices in China. There is a slight saving on the Expenditure side in Opium, as the Budget Estimates provided for a better crop than was actually housed.

18. The loss on Salt, Rx. 261,800, may for the most part be put down as one of the consequences of scarcity. It is chiefly during the second-half of the year that the falling-off has taken place; the receipts of the twelve months ending September 30th, 1896, were equal to the full Budget Estimate of Rx. 8,700,000.

19. Under other Revenue heads we almost always have to report a considerable advance in the Revised Estimates over the Budget figure. They would have shewn the same progress this year were it not for the falling-off in the North-Western Provinces and in Bombay, where the following losses are recorded:—

	North-Western Provinces.	Bombay.
Stamps	22,000	34,000
Excise	125,000	60,000
Provincial Rates	104,000	33,200
Forests	16,700	34,700
TOTAL	267,700	161,900
	Rx. 429,600	

These losses again are due to the effects of famine, and in the case of the Stamp Revenue of Bombay, still more to the stoppage of trade in consequence of the plague. The Customs Revenue is on the whole slightly better than Budget.

20. Of the improvement under Departmental Receipts, Rx. 124,700 represents the premium received on the last loan (against which, under the same head of "Interest," there was a loss of Rx. 40,000 due by the Calcutta Port Commissioners and remitted), and Rx. 102,000 represents the increased gain on copper coinage, due to the very large issues of that coin in connection with Famine Relief Works. The gain on this coin is brought to credit as the coin passes into circulation.

21. The next great difference requiring explanation is in the Railway Receipts. Confining ourselves to consideration of the earnings of Railways only, we have the following figures:—

	Earnings.	Working Expenses.	Net.
	Rx.	Rx.	Rx.
State Railways—			
Accounts, 1895-96	18,558,294	9,040,836	9,517,458
Budget, 1896-97	18,321,700	9,010,800	9,310,900
Revised, 1896-97	17,524,700	8,825,000	8,699,700
Guaranteed Railways—			
Accounts, 1895-96	6,255,131	2,979,893	3,275,238
Budget, 1896-97	6,330,000	3,097,000	3,233,000
Revised, 1896-97	5,670,000	3,060,000	2,610,000

These figures give a falling-off of Rx. 611,200 on State Railways and Rx. 623,000 on Guaranteed, total Rx. 1,234,200, an amount which accounts for the differences shewn in the above statements of Rx. 1,423,200 worse on the Revenue side, and Rx. 424,100 better on the Expenditure side ; net Rx. 999,100. The lower receipts have saved us Rx. 142,000 in the payment of surplus profits, and the other Railway charges have also been less than the Budget Estimate. The principal contributors to the above losses are —

	Rx.
North-Western	140,000
Oudh and Rohilkhand	117,500
Rajputana-Malwa	252,500
Bombay, Baroda and Central India	260,000
Great Indian Peninsula	310,000

22. The Eastern Bengal Railway, on the other hand, has gross receipts Rx. 180,000 better than Budget, owing largely to a favourable jute season.

23. Irrigation is the only head which in a year of drought shews an improvement. The net receipts are better than Budget by Rx. 269,500, the improvement being shared between the North-Western Provinces and the Punjab.

24. Passing to the figures on the Expenditure side, the heads Direct Demands on Revenues (other than Opium) and Civil Departments represent mostly charges regulated by sanctioned scale, and they shew the usual savings as compared with Budget. The excess expenditure under Interest is mostly a question of the distribution of this charge between ordinary debt and Railway debt. The heavy excess expenditure on Famine Relief requires no further explanation beyond what is given above. The saving on Protective Works is not a real one,—it merely means that the East Coast, including the Bezwada-Madras Railway, which is both a productive and a protective line, and which is charged to the Famine Grant when that grant is not otherwise appropriated, has this year to be transferred to the Capital Account of Railway Construction.

25. There is a considerable saving of Rx. 274,400 under Army Expenditure. The principal items included in this are—

	Rx.
Unspent out of the special grant of Rx. 494,900 for mobilization purposes, included in Budget	120,000
Savings in Exchange Compensation Allowances in consequence of better exchange	80,800
Savings in ordnance manufactures	75,000
Other very numerous savings on the grants (net)	240,600
TOTAL	516,400

Against this the rise in prices which set in in September has caused extra expenditure of Rx. 196,000, and excesses over established or estimated strength have caused excess charges of Rx. 46,000.

26. The "Provincial adjustment" is better by Rx. 342,100 ; translated into non-technical language, this means that the Provincial balances bear a share of the loss of Revenue and of the Expenditure (chiefly Famine Expenditure) included in the General Account, which is larger by Rx. 342,100 than they estimated, a year ago, they would have to bear. The total Provincial and Local Balances of 31st March 1897 stand as follows :—

	Budget, 1896-97. Rx.	Revised, 1896-97. Rx.
Provincial Balance	1,437,022	1,222,549
Local Balance	1,276,221	1,144,703
TOTAL	2,713,243	2,367,252

27. It may be well here to collect together the various items in these explanations which we have attributed to the effects of famine and scarcity—

	Rx.
Direct cost of Famine Relief	1,876,200*
Rise in prices in Army Expenditure	196,000
Loss of Revenue—	
Land Revenue	2,394,100
Salt Revenue	261,800
Other Revenues in North-Western Provinces and Bombay (excluding Stamp Revenue)	372,600
Loss of Railway Revenue (net)	1,234,200
TOTAL	6,335,900
Gain under Irrigation Revenue	269,500
NET RESULT	6,066,400

* Be ides Rx. 14,500 for English Expenditure and Exchange thereon.

Of the above amount, Rx. 574,700 falls upon Provincial and Local Balances, leaving Rx. 5,491,700 to be borne by Imperial.

Loan Operations in 1896-97.

28. As announced in the last Financial Statement, a 3 per cent loan of four crores of rupees was offered for public tender upon June 22, and the tenders were received upon July 22. Money throughout the earlier part of the financial year was extremely cheap, the Bank rate in England being 2 per cent and in Calcutta 4 per cent from May 28 and 3 per cent from July 2. The price of paper ruled high, our 3½ per cent guaranteed loans being in April about R108-7, in May about R110-4, and June about R110-2. The loan was very largely tendered for and was placed at an average of R103-1-10½, the lowest accepted tender being R102-7, and the allotments were practically all paid up by the end of August.

29. It will be remembered that in our conversions of 1894 we offered to those holders of paper who accepted conversion, an equivalent amount of promissory notes on which 3½ per cent interest was guaranteed up till August 1904. Those who did not accept were afterwards offered, and most of them accepted, ordinary 3½ per cent paper without any guarantee. We considered ourselves therefore in a manner bound, if favourable opportunity offered, to convert the unguaranteed 3½ per cent paper, as otherwise it would necessarily be quite as good as the guaranteed. The amount of this ordinary 3½ per cent paper was—

(1) Outstanding of 1853-54	46,760
(2) ,, 1893-94	3,500,000
(3) Accepted in conversions of 1894-95	2,138,190
TOTAL	5,684,950

30. Accordingly, after ascertaining that the operation of converting the outstanding unguaranteed 3½ per cent paper into the new loan would not be regarded by the holders of the new paper as in any way interfering with them, but would indeed rather help them by increasing the amount and the marketableness of the new loan, we notified this conversion upon September 4. The success of the new loan had established for the time a high price for securities of the Government of India, and the prospects of the conversion were favourable.

C

31. Rates held up, both in England and India, just long enough to enable the operation to be successfully closed. The Bank of England rate, which had stood at 2 per cent, from February 1894 was increased to 2½ per cent on September 10, 1896, and to 3 per cent upon September 24, and the rise was the signal for a depression in the value of our securities. When the final day came of tendering for conversion the amount that had been tendered came to Rx. 4,887,160, and Rx. 797,790 was left outstanding for discharge. Of this amount, Rx 296,600 has been presented for payment up to the beginning of March.

32. Since money hardened in Calcutta in November, the price of the new 3 per cent paper has ruled below par, but this is partly due to the comparative absence of a market, as compared with the larger bulk of the 3½ per cent paper. Our present intention at least is to persevere with the 3 per cent rate, and by our future loans to increase its amount. We have now practically only two kinds of paper on the market, *viz.*, the 3½ per cent guaranteed till August 1, 1904, and the 3 per cent guaranteed until December 31, 1916. The amounts of these two kinds of debt are at present as follow: 3½ per cent Rx. 82,754,840, besides Rx. 8,159,500 held in the Currency Reserve; 3 per cent Rx. 8,887,160, besides Rx. 2,048,050 created during the year for issue to Currency as mentioned in the next section.

Rate of Exchange.

33. Last year closed with a re-action from a somewhat sudden rise in the rate of exchange to 14$\frac{7}{16}$*d.* During April and May the rate fell from 14$\frac{3}{8}$*d.* to 13$\frac{15}{16}$*d.* In June it recovered to 14$\frac{3}{32}$*d.*, and from then till the middle of October the rate was very steady at about 14$\frac{1}{8}$*d.* and 14$\frac{3}{16}$*d.*, the Secretary of State being very successful in selling his Bills. By the middle of October we had realized that a famine was upon us, and that it would be necessary, as a first step in meeting it, to make large suspensions of revenue and large agricultural advances. We were obliged, therefore, at very short notice to ask the Secretary of State to greatly reduce his drawings. And the result was that the rate of exchange and the Bank rate of interest both very sharply rose. The second week's drawing of October was at 14$\frac{7}{32}$*d.*; the second week's drawing of November was at 15$\frac{27}{32}$*d.*

34. This action on our part caused, I am afraid, grave inconvenience to mercantile circles in India; but it was not avoidable. It was only when the first ten days of October passed without bringing the desired rain, that famine was converted from a mere possibility into an almost certainty, and the area affected was so widespread that the case demanded the reservation of all our financial means. These we took the opportunity of strengthening by carrying out on December 17 a measure which had been under public discussion for over a year, *viz.*, the addition of two crores to our cash balances by the investment of part of the Currency Reserve. The exact figures of this operation were the issue of R2,04,86,500 stock of the 3 per cent Loan of 1896-97, at the rate of the day, R97-10 per cent, being R54-6 less than the full two crores. With this transaction the tenseness of the situation passed away; but the rate of exchange on the drawings never fell below 15 pence, as the Famine expenditure and prospects compelled the Secretary of State to reduce his drawings, and there came a heavy demand for remittance in connection with the Burma rice crop.

Budget Estimates, 1897-98.

35. Following my previous practice of abstaining from any speculation in exchange, I have taken the rate for the Budget Estimate at the same figure which has been realized in the year 1896-97, namely, 14·46 pence. It is impossible to say how trade and exchange may be affected by the very peculiar circumstances of the coming year. Made up upon this basis, the estimates of Revenue and Expenditure work out to a deficit of Rx. 2,464,000. It will be most convenient

in explaining the details to compare them with the Budget figures of 1896-97, rather than with the altogether peculiar figures of the Revised Estimates.

36. This comparison, made in the same form as adopted in paragraph 13 above, is as follows :—

Budget Estimates of 1897-98 compared with those of 1896-97.

	Budget, 1896-97.	Budget, 1897-98.	1897-98 Better.	1897-98 Worse.
STERLING IN ENGLAND—				
Revenue . . . . . £	174,100	173,000	...	1,100
Expenditure . . . . . £	15,909,400	16,088,500	...	179,100

Army	17,480,100	16,968,900	511,200	...
	70,274,900	72,623,900	..	2,349,000
PROVINCIAL ADJUSTMENT	—886,400	—1,190,000	303,600	...
Surplus (+) Deficit (—) .	+463,100	—2,404,000	...	2,927,100

37. The main increases of Expenditure in the English Account are—

(1) Increasing Interest payments which account for differences of £61,400 under Interest, and £99,100 under Railways.

(2) Increase of £37,700 under Superannuation Charges.

(3) There is an increase of £65,600 under Army Non-Effective Charges, but it is more than counterbalanced by a saving of £120,700 under Army Effective Charges, chiefly on account of Military Stores for India.

38. The deficiency under Land Revenue is heavy, namely, Rx. 447,100, and may be explained by saying that in Upper Burma, in the Central and the North-West Provinces, and in the Punjab, we do not at present expect to receive, during the coming year, nearly the full measure of Land Revenue. The deficiency comes in the beginning of the year, and is due entirely to the failure of crops. If a prosperous harvest should ensue next October and November, we may reasonably hope for much better results than those shewn in our Estimates.

39. Under Opium we are now suffering from the re-action which two years ago I pointed out to be inevitable. Scanty crops, and the high prices that follow

them for a time, give favourable financial results while they last, but the high prices kill the demand, and both the exports of Malwa opium fall off and smaller prices are realized upon the Bengal drug. The prospects of the coming season, looked at from the point of view of the Opium Department, are extremely favourable, but to our Budget Estimates they mean low prices realized upon the still scanty sales, and heavy outgoings in payment for the raw produce. The result is a falling-off which may be thus distributed:—

	Rx.
By lower prices realized on the Bengal sales . . .	877,500
By smaller export and lower duty in Bombay . . .	190,000

and on the Expenditure side—

By heavier payment to cultivators	60,100

40. Under other Revenue heads there are on the whole better results, though the influence of the famine is still shewn in a falling-off, under Excise, of Rx. 65,600, and under Provincial Rates, of Rx. 48,100.

41. The Departmental Receipts are expected to be somewhat better on the whole than in the Estimates of 1896-97. Post Office shews an advance of Rx. 56,600, more than covered, however, by an increased expenditure, and Telegraph shews worse results on both sides, partly because the advance in revenue has been less than expected, and partly because the rents charged to Railways for the use of wires and instruments have been reduced and it is intended to introduce certain improvements in respect of delivery of deferred messages.

42. Railways shew a great falling-off, as the traffic on them will be greatly affected as long as the effects of the present scarcity last. The following figures may be taken as a continuation of those stated in paragraph 21 above (Indian Accounts only):—

Budget, 1897-98.	Earnings.	Working Expenses.	Net.
	Rx.	Rx.	Rx.
State Railways . . .	18,023,400	9,027,300	8,996,100
Guaranteed Railways . .	5,740,000	3,110,000	2,630,000

43. On the Expenditure side the figures which require special explanation, in addition to the above remarks, are the following:—

Direct Demands on the Revenues.—Increase Rx. 49,700. The principal item is Rx. 36,000 under Forests, which is of the nature of commercial outlay intended to bring in a good return. The Forest Department are carrying out a scheme, long planned and elaborated, which involves considerable additions to the subordinate establishments engaged in conserving and working the Forests.

44. Civil Departments.—Increase Rx. 212,700. Of this, the principal items are Post Office Rx. 78,400 and Telegraph Rx. 44,700, due to normal expansion of the Departments; Jails Rx. 68,400, being the estimates which the Provincial Governments make of the consequence of increase of prices of food, and of the probable temporary increase of jail population in the distressed tracts; Police Rx. 70,500, due to continued pursuance of the plans for the reform of this Department, but also in some places the result of scarcity and distress; Superannuations, Rx. 28,200, an inevitable annual increase.

45. The heads of Famine and Railways have already been dealt with, and as explained in dealing with the Revised Estimates, the entry of Rx. 498,500, less expenditure on protective works, merely means that we shall not, in 1897-98, obtain from the Famine Grant the aid it usually gives towards expenditure on Capital Account. In view of the amounts provided for Famine Relief, it has not been considered necessary to make special provision for any expenditure which may be entailed on the Imperial Account by the plague.

46. Civil Works.—The less expenditure Rx. 359,600 is due to the restriction of programme by the various Local Governments enforced by the great reductions that Famine expenditure has made in their available balances.

47. Under Army, there is on the whole a less expenditure in India by Rx. 511,200. A fuller statement of the comparison between the Estimates of 1896-97 and 1897-98 would be the following :—

		1896-97.	1897-98.	1897-98 Better.
Mobilization Grant—				
England	£	51,200	*Nil.*	51,200
India	Rx.	494,900	100,900	394,000
Ordinary Grant—				
England	£	4,357,300	4,353,400	3,900
India	Rx.	16,985,200	16,868,000	117,200

The Mobilization Grant was a special one for 1896-97, and a comparatively small amount of expenditure under this head is admitted into the Estimates of 1897-98.

The principal features in the differences in the ordinary portion of the Estimates are : (1) the higher prices of food necessitate an increase of Rx. 399,300 in the Estimates of 1897-98 ; and (2) there will be a saving of Rx. 326,000 in consequence of the application of more favourable rates of exchange to the calculation of the allowances of officers and of British soldiers. There are further numerous savings and a few increases of charge for which I refer to Part II of the Statement.

Quinquennial Settlements of Provincial Finance.

48. The usual quinquennial investigations and settlements of Provincial finance were made in the course of the year. Our proposals on the subject were made to the Provincial Governments at the beginning of October, before the appearance of famine ; and afterwards, when famine supervened, we considered that, as the arrangements depend, not upon the figures of any one year, but upon the general standard of Revenue and Expenditure, it would be sufficient to reserve the final settlement so far as it regarded Land Revenue and Excise and one or two other heads, in the Provinces severely affected by famine, but it was better to settle all other matters than to leave them in a condition of suspense. The settlement of these standards of existing Revenue and Expenditure is the necessary condition for the exercise by Local Governments of the financial authority entrusted to them, in the same sense as the settlement of the Budget Estimates determines the plan upon which our own financial administration is to be pursued for the next twelve months.

49. The first process in these settlements is the enquiry what is to be accepted as the proper amount of expenditure for which an assignment of Revenue is to be made. The expenditure may be stated in general language as that incurred in each province upon Civil Administration ; the revenue and expenditure on account of Irrigation are also provincialized in Bengal, North-Western Provinces, and Madras, but this part of the arrangements need not be more specially referred to at present.

50. In two tabular Statements A and B appended to this part of the Financial Statement, I set forth in detail the estimates accepted for the expenditure in 1897, and compare them with the estimates of the same kind upon which the similar settlement was made in 1892. I may mention that we have not, or we practically have not, rejected any of the existing expenditure of the Provincial

Governments as requiring to be disallowed, as we find that the increases of scale of expenditure are sufficiently moderate. The details of the comparison are as follow:—

	Net Expenditure. 1892.	1897.	Increase per cent.
	Rx.	Rx.	
Central Provinces . .	653,300	710,700	8·8
Lower Burma . . .	1,064,600	1,206,100	13·3
Assam	467,600	564,900	20·8
Bengal	2,816 700	3,125,500	10·9
North-Western Provinces .	2,215,400	2,428,700	9·6
Punjab	1,384,600	1,537,300	11·0
Madras	2,054,800	2,238,600	8·9
Bombay	2,409,500	2,544,100	5·6
TOTAL .	13,066,500	14,355,900	9·9

It is fair to the Local Governments to notice that part of the above increase of expenditure was that which was entailed upon them by the allowances given in compensation for fall of exchange.

51. An examination of the Revenue side of the account shewed the following results:

The Central Provinces have been hard hit by two or three bad seasons, and they have been disappointed in the increase of revenue which they might reasonably have expected. We found it necessary to assign them a slightly higher amount than they would have got had the 1892 settlement continued in force. Their balance has been absorbed by their necessary expenditure somewhat exceeding their revenue, and their misfortunes of the current year have quite apart from famine, entirely swept away their available resources. We reckon that we enhance their assignment by Rx. 20,200 a year; and we have also to make up a small deficit in their balance.

52. Assam shows a fairly progressive revenue, but it is, as Sir E. Baring said in 1882, "a poor province with many wants." We find that we might, upon the present revision, reduce its assignment of Revenue by a small amount, say Rx. 11,400. But we have adjudged it better to leave the Province this amount of surplus.

53. Burma (that is, in the present connection, Lower Burma only) is a young and rapidly progressive province. Its revenue (mainly its Land Revenue) increased during the past quinquennium by 13·9 per cent., and its expenditure has increased as above shown by 13·3 per cent. The above figures are independent of its Railway revenue, the Burma Railways having been, with a slight reservation, Provincial up till now. The Railway part of the 1892 settlement has been very profitable to the Local Government, which has maintained very high, though decreasing, balances throughout the five years. It finishes the present contract with a balance of Rx. 294,300. We have thought it desirable for the present to deprovincialize the Railways as they have now been made over to a Company, and some questions remain to be settled regarding their future administration; but otherwise Burma is only a little worse off (say Rx. 9,000 a year) than if the 1892 settlement had continued in force.

54. The Chief Commissioner—or in future, Lieutenant-Governor—takes over now provincial responsibility for Upper Burma in the same way as for Lower. The Estimate of Expenditure is shewn in the penultimate column of Table B, and sufficient Revenue has been assigned to meet it. I am afraid that the first effect

of this will be to use up part of the high balance with which the Chief Commissioner starts under his new settlement, in paying for famine relief in his new province, and also possibly in meeting some temporary loss of Revenue in it.

55. The Punjab is a politically important province, and it has shown during the last quinquennium only a moderate expansion of Revenue. The consequence is that its resources under the 1892 settlement have been found rather too narrow for the demands of its expenditure, and it has been obliged to reduce its Public Works grants somewhat below the needs of the province. Further, the failure of Revenue in the current year has reduced its balance below the authorized minimum. We find that we place it in a fair financial position if we concede to it, in addition to the Revenue assigned in 1892, an allowance about equal to the expenditure imposed on it by exchange compensation; and, when the famine account is closed, we shall have to make to it also, as to the Central Provinces, a grant in recoupment of its exhausted balances.

56. In the provinces with which I have as yet been dealing, we did not expect and we did not wish, to make a profit to the general account by reducing the amount of Revenue assigned to the Local Governments. Our examination satisfied us that their expenditure was already on a sufficiently limited scale, and that the whole, or nearly the whole, of the revenues assigned to them could be properly left at their disposal.

57. But we have also in the case of these provinces made another arrangement to their advantage. The revenues assigned for Provincial use are, as is well known, certain shares of the various heads of Revenue. These shares in the larger Provinces of Bengal, North-Western Provinces and Madras are about equal, on the whole, to their net expenditure; but in the smaller ones, where the expenditure naturally bears a larger proportion to the revenue, they require to be supplemented by a grant which under present arrangements is a fixed amount. While the revenues increase, this fixed amount does not, and it thus results that, whereas in the big provinces, if the revenue increases by five per cent, the Local Governments have the power (temporarily or permanently, as the case may be) of increasing their expenditure by five per cent, yet in the smaller provinces an increase of revenue by five per cent only permits an increase of expenditure by, say, three per cent. This is the reverse of what ought to be, for the irresistible demands in the new provinces are proportionally greater than in the old ones. We have therefore in the newer provinces enhanced the shares of some of the assigned revenues, by reducing *per contra* the fixed amounts granted in addition to the variable shares. In this way we have given the Punjab ·4 and the Central Provinces ·5, of its Land Revenue, instead of ·25 only. In Burma, which, with Upper Burma now added, has a very large expenditure as compared with its revenue, and also probably considerable demands, and from which we have for the present withdrawn the Railway Revenue, we have found it necessary, in pursuance of this purpose, to raise the share of Land Revenue as high as two-thirds, and we have given it also half its Excise instead of one-quarter only.

58. The state of Provincial finance in the North-Western Provinces had begun to give us anxiety, even before the outbreak of famine. Sir E. Baring in 1882 pronounced (Financial Statement of 1882, paragraph 58), as the result of an enquiry made under his orders, that nowhere in India is a reduction of taxation more required than in the North-Western Provinces and Oudh; and he took certain measures for that reduction which, for reasons fully explained in this Council at the time, were partly reversed in 1889. It is therefore perhaps not unnatural that the Revenue of these Provinces has shewn very little expansiveness. There is a certain advance in its Land Revenue as districts come under

resettlement, but it is rather backward, or at any rate non-progressive, in respect of Excise and other Revenue. At all events its revenue from 1892 to 1897 has advanced only about 2 per cent,—much less than that of any other Province.

59. Now, the settlement of 1892 left the North-Western Provinces with less of revenue than was necessary for its standard of expenditure. The reasons for this I need not mention, but it was intended that five lakhs of its admitted expenditure should be met by reduction of balance.

60. There is also one feature peculiar to the North-Western Provinces Provincial account. It is dependent to the extent of 30 or 35 lakhs of rupees a year upon the net revenue of irrigation canals. Now, one year, very recently, there were unusually good cold weather rains, and the people did not want water from the canals; the result was that the Government of the North-Western Provinces lost 20 lakhs upon its Irrigation account, and I need not say that no Provincial account can stand a loss of that magnitude. True, in this last year of drought, the 20 lakhs have come back to it in the Irrigation account, but the losses under Land Revenue and other heads are so enormous as to swamp this particular gain, and the North-Western Provinces account finishes this year, without reckoning any famine charges, with a debtor balance of Rx. 200,800 which of course we have to make up by a grant out of Imperial. Grants like this, I may remark, are not shown on the face of our accounts: they are made by redistributing the Land Revenue between the Imperial and Provincial columns.

61. We have carefully reviewed the requirements of the Province in the way of expenditure, and we have come to the conclusion that we must enhance its assignment by nearly as much again as the five lakhs by which the assignment of 1892 fell short of the admitted standard of expenditure.

62. We have, in addition to this, made it a grant of four lakhs for the year 1897-98 to enable the Lieutenant-Governor to establish his District Funds on a financially independent basis; this step, which has been long ago accomplished in every other Province in India, not having yet been carried out in the North-Western Provinces.

63. We come now to the important and wealthy maritime Provinces of Bengal, Madras and Bombay, towards which the commercial wealth and the industrial progress of India tend to accumulate. To them we naturally look for obtaining the means for that redistribution of resources which, to again quote Sir E. Baring's Financial Statement of 1882, is one of the objects of the quinquennial revisions, "It is indeed obvious," he said, "that in view of the manifold demands on the Imperial treasury, and the necessity for affording relief to provinces whose means are straitened, the Government of India cannot forego all its claims on the increments of revenue which arise from the growing wealth and prosperity of the country." The mention of the balances of the Provincial Account in these three great provinces, from 31st March 1892 onwards, will show that they may reasonably expect, with a slightly smaller assignment of revenue than at present, to continue their past career of financial prosperity. The Balances in Bengal were, in lakhs of rupees, 23½, 22½, 26, 43, 58, in Madras 42, 26, 29, 38½, 43; in Bombay 41, 38, 40, 30, 40; and since in each case the Local Government was at liberty to estimate for the expenditure of all excess over 20 lakhs, it may be taken that their present scale of expenditure is not the result of any specially enforced economy.

64. We have carefully examined both the revenue and the expenditure of each of these Provinces, and we propose to allow in the present assignment for

the actually existing scale of expenditure. The following figures compare the rate of growth of revenue with that of growth of expenditure:—

	Increase of Revenue from 1892 to 1897.	Increase of Expenditure now allowed.
Bengal	9·6 per cent	10·9 per cent
Madras	14·9 per cent	8·9 per cent
Bombay	10·0 per cent	5·6 per cent

In stating the increase of Revenue for Bengal, the Railway Revenue, alluded to below, is left out of account; and the figures for Madras and Bombay are based on the estimates made by the Government of India before the diminution caused by famine and plague.

65. To a small extent in Madras, namely, in respect of its Land Revenue, the assignment of revenue is provisional and will be settled next cold weather. In the case of Bombay, we have had to postpone the final settlement also of Excise, Stamps, and Forests. But even with these heads remaining open for final determination next year, the settlement is sufficiently complete to be the basis of the exercise by the Local Governments of Provincial financial powers.

66. As regards the effect on the Provincial accounts as compared with that of a continuation of the present assignments, the facts are—

(1) In Bengal we resume a special grant which fluctuated with the earnings of the Eastern Bengal Railway (which is not under Provincial Administration), and we give Rx. 269,400 in lieu of it. The Railway grant was given in 1892 as the equivalent of Rx. 320,000, though, if renewed now on the same terms, it would be worth to the Lieutenant-Governor very much more.

(2) In Madras the assignment is less than that of the 1892 settlement by Rx. 98,200 or Rx. 138,200, according as the Local Government's estimate of Land Revenue or that of the Government of India is ultimately adopted.

(3) In Bombay it is quite impossible to say what the difference is. If the Revenue in the future is to be as seriously reduced as the Government of Bombay estimates, the new settlement is practically a continuation of the old one. But we hope, when present troubles are over, to find the standard of Revenue much higher than the Government of Bombay puts it.

67. It is necessary to add a few words as to the manner in which the Provincial accounts are affected by the famine expenditure. The established policy in such cases is that Local Funds must first be called upon to bear all the expenditure they reasonably can bear, and to "direct their whole resources, subject only to the maintenance of absolutely necessary works in non-affected tracts, to afford relief;" thereafter the Local Governments must meet the demands upon them out of their Provincial balances. At the point where these are reduced below the standard required as working balances for the Provincial financial administrations, the Imperial Government has to step in, and bear the rest of the burden which, in the case of a great famine, is necessarily by far the largest share of it.

68. In the Central and North-Western Provinces the Provincial balances, as already explained, are more than exhausted by reason of failure of revenue. In these cases not only will Imperial have to bear all the charges of famine, but it will have to make up, in addition, the deficit in the Provincial balance.

69. Bombay is nearly as bad—its Provincial account has been hard hit by loss of revenue. It can bear, in Provincial and in Local account, only a few lakhs out of its famine expenditure, and all the rest has to be borne by Imperial.

70. Madras is fortunately only slightly affected by famine, and its revenues have suffered very little. Between its Provincial and its Local balances it will be able to bear the whole, or nearly the whole, of its famine expenditure.

71. In Upper Burma the famine expenditure, which is only 6 or 7 lakhs in each year, will be charged to Imperial this year and to Provincial next.

72. In Bengal only a small area is affected, and the general condition of the Province, as reflected in its Revenue Account, is one of prosperity. Its high balance which, if it had no famine expenditure to bear, would, on 31st March 1897, stand at Rx. 505,700, will be largely dispersed during this and next year by heavy famine expenditure. This sounds a little harder upon Bengal than it really is, for, as a matter of fact, this high balance is the produce, not of any Provincial revenues in the ordinary sense, but of the Imperial grant out of Railway Revenues, not under Bengal administration, which three successive good jute seasons have so enhanced as to give the province a profit, in the three last years, of Rx. 353,500. But I am afraid that this consideration will afford little consolation to His Honour the Lieutenant-Governor for the financial misfortune which has overtaken both his finance and mine.

73. As the Estimates stand, after all the charges for famine are thus distributed, the Provincial balances are shewn upon 31st March 1898 as follows :—

	Rx. *Viz.*		Rx. *Viz.*
Central Provinces . .	*Nil.*	North-Western Provinces	*Nil.*
Burma . .	140,000	Punjab . . .	36,100
Assam	65,800	Madras . . .	100,000
Bengal . . .	100,000	Bombay . . .	49,500

These will require some adjustment to the necessities of the several provinces, when we come to the end of the year, for the provinces cannot be left without a safe working balance at the very least. What this adjustment will be it is unnecessary now to discuss, for, as already explained, the estimates of famine outlay though the best we can make, are very far from trustworthy, and the actual expenditure is determined by circumstances quite outside any control of ours. We therefore must wait until we can approximately close the account of the famine, and of the immediate disasters to Revenue which it brings in its train.

Railway Construction.

74. In the last Financial Statement I mentioned that the question of Railway Extension was under the general consideration of the Government. A programme involving considerable outlay was explained to the Council by His Excellency the Viceroy on the Budget discussion on March 26th; and the question had been carefully considered in correspondence with the Secretary of State, how to raise the necessary money for the outlay, as the amount required went beyond the capacity of the Indian Money Market.

75. At the beginning of the year the Secretary of State gave formal approval to a programme of Railway Construction, either direct by Government or by Companies acting under guarantee of the Government, which covered about Rx. 28,000,000 of Railway expenditure to be spread over three years, of which 1896-97 was the first. For this 28 crores of expenditure we were to raise in India as much money as we thought we could conveniently borrow, and the rest was to be raised in England, either directly by the Secretary of State or by Companies acting under agreements with him. But the amount of 28 crores thus arranged for does not include the transactions of certain Companies whose relations with Government do not involve a direct guarantee by the latter, and which work under special terms (like the Bengal and North-Western Railway) or under what are

known as Branch Line terms. Nor does it include certain small transactions on Provincial account which are charged to Revenue.

76. The operations thus fall into three categories, namely,—

I.—State Railway Construction, for which money is found by Government aided by capital or debentures raised by two Companies,—the East Indian Railway Company and the Assam-Bengal Railway Company.

II.—Construction by Companies, under contract with Government, out of funds raised by the Companies, but supplemented in two cases by funds advanced at interest by the Government.

III.—Construction by Companies out of their own funds and outside the Government Accounts, and also construction by Branch Line Companies.

There is a fourth category, *viz.*, the old Guaranteed Companies, and though some negotiations are pending in respect of new capital construction by them, they are not further alluded to in these figures.

77. These three categories account respectively for the following expenditure:—

	Revised, 1896-97	Budget, 1897-98.
	Rx.	Rx.
First Category . . .	5,767,700	6,700,000
Second Category	2,990,600	3,430,000
Total on Government Account .	8,758,300	10,130,000
Third Category . . .	2,470,200	3,283,800
TOTAL .	11,228,500	13,413,800

These figures, it should be remembered, include expenditure in England as well as expenditure in India.

(a) First Category.

78. The estimated expenditure of the two years, falling under the first category, is as follows:—

	Revised, 1896-97	Budget 1897-98.
Money available by—	Rx.	Rx.
Grant under 48.—State Railway Construction .	3,819,900	5,838,600
East Indian Railway Company's Debentures .	1,437,000	662,100
Assam-Bengal Company's Capital and Debentures	510,800	199,300
TOTAL .	5,767,700	6,700,000

The East Indian and Assam-Bengal are State Railways in the hands of Companies who have power to raise debentures, and in the case of the Assam-Bengal Company share capital also, in sterling, for construction purposes. The capital and debentures raised by these Companies are of course appropriated to their particular lines, but to the extent to which the raising of the money is in advance of its expenditure, the capital so raised diminishes for the time the total amount of construction for which money has to be charged direct on the Government Account of Capital Construction.

79. The above money has been appropriated to the following construction, in which I have omitted separate specification of the smaller items :—

	Rx.	Rx.
State Agency—Open Lines—		
North-Western	435,000	37,700
Eastern Bengal	448,900	322,500
Other Lines	76,000	73,200
State Agency—Construction—		
Burma	166,000	...
East Coast	292,800	65,000
Godaveri Bridge	...	185,000
Rae Bareli-Benares	257,100	432,500
Mari-Attock	373,700	300,000
Mushkaf-Bolan	210,200	...
Kotri-Rohri	420,100	211,000
Bezwada-Madras	841,800	800,000
Southern Punjab	...	222,300
Other Lines	92,500	220,100
Companies' Agency—Open Lines—		
East Indian	680,000	1,200,000
Tirhoot	24,100	110,000
Other Lines	59,400	135,500
Companies' Agency—Construction—		
Assam-Bengal	1,170,600	1,330,000
Tirhoot Extensions	220,000	600,000
Other Lines	—500	...
Unappropriated	...	455,200
TOTAL	5,707,700	6,700,000

80. The following is a statement of the principal items of expenditure included in this list —

Eastern Bengal.—1896-97; Doubling of the line north of Ranaghat 1897-98, Additional rolling-stock.

Burma.—This line was transferred to a Company, that is, to the second category, from September 1, 1896, and the further expenditure after that date is shewn there.

East Coast.—Is open for traffic from Bezwada to Cuttack, except the Godaveri Bridge.

Godaveri Bridge.—A commencement is being made of this work, which is to cost about 55 lakhs and will take two years to construct.

Rae Bareli-Benares.—The expenditure shewn will complete the line and open it for traffic.

Mari-Attock.—Will be approaching completion at end of 1897-98.

Mushkaf-Bolan.—Finished, including double line on the 1 in 25 gradients.

Kotri-Rohri. 1896-97; Open for traffic, excluding the Indus Bridge at Kotri. 1897-98; The Bridge will be completed.

Bezwada-Madras.—Will be approaching completion at the end of 1897-98.

Southern Punjab.—The expenditure is for the provision of rolling-stock, which falls upon the Government.

East Indian.—The expenditure is upon the Mogul-Sarai to Gya Branch, and for additional rolling-stock.

Assam-Bengal.—Open from Chittagong to Badarpore, and for 75 miles from Gauhati. The expenditure is chiefly on the hill section and on the northern section.

(b) Second Category.

81. The expenditure by Companies under contract with Government, other than the two above specified, are—

Companies' expenditure on the Government Accounts—	Revised, 1896-97.	Budget, 1897-98.
	Rx.	Rx.
Burma	535,400	771,000
Bengal-Nagpur	715,200	1,190,400
Ditto (*a*)	842,500	938,000
Indian Midland	438,500	21,600
Ditto (*a*)	239,900	236,500
Bengal Central, Lucknow-Bareilly, Mysore, Southern Mahratta	219,100	272,500
TOTAL	2,990,600	3,430,000

(*a*) These are advances by the Government; the present arrangement in respect of the extensions of these two Railways being that the funds for expenditure in India are advanced by the Government.

82. The following is a statement of the principal items —

Burma.—The Mandalay-Kunlón extension, of which 80 miles will be nearly ready at end of 1897-98. also additional rolling-stock.

Bengal-Nagpur.—Construction is proceeding on the three branches, Sini to Midnapur, Midnapur to Cuttack, and Midnapur to Howrah. The bridging is very heavy.

Indian Midland.—The Sagar-Katni branch, to be opened by end of 1897-98.

(c) Third Category.

83. The expenditure under the third category is as follows :—

Companies' expenditure outside the Government Accounts and Branch Line Companies—	Revised, 1896-97	Budget, 1897-98.
	Rx.	Rx.
Bengal and North-Western	612,700	806,000
South Behar	110,000	326,500
Southern Punjab	1,295,200	724,600
Tapti Valley	94,000	850,000
Smaller Branch Lines	358,300	576,700
TOTAL	2,470,200	3,283,800

84. The following are the principal items of expenditure :—

Bengal and North-Western.—The Ganges-Gogra Doab branch lines, and other minor extensions, of which 250 miles will be opened by end of 1897-98. The Gogra Bridge at Bahramghát, also to be opened by end of 1897-98. The Gogra Bridge at Tartipur only commenced.

South Behar.—Approaching completion by end of 1897-98

Southern Punjab.—Expected to be opened about October or November 1897.

Tapti Valley.—Commenced.

Remittance and Debt.

85. The following account shews in a shortened form the requirements of the Secretary of State; the figures are drawn up so as to shew separately the transactions on account of Government, and the transactions arising out of the operations of Railway Companies:—

	Revised, 1896-97.	Budget, 1897-98.
Requirements on Government Account—	£	£
Excess of expenditure on Revenue Account	15,561,200	15,915,500
Expenditure not charged to Revenue	1,095,500	1,083,100
Net payments on Remittance Accounts, etc.	44,100	226,000
Total Requirements	16,700,800	17,225,200
Transactions of Railway Companies—		
Net receipts on account of Capital	3,877,200	2,155,500
Payments for Stores, etc.	2,136,700	3,273,700
Net Receipts	1,740,500	...
Net Outgoings	...	818,200
Net Funds required	14,960,300	18,043,400

86. The following figures shew the manner in which the above requirements have been or are to be financed:—

	Revised, 1896-97	Budget, 1897-98
	£	£
By Council Bills	15,300,000	13,000,000
By addition to Permanent Debt	81,200	3,500,000
Temporary Debt—		
Reduction	—1,000,000	...
Addition	...	1,000,000
By reduction of Cash Balance	579,100	543,400
	14,960,300	18,043,400

87. It will be seen that Railway Companies took advantage of cheap money to raise a large amount of capital during 1896-97, and the amount provided for in the Budget was enhanced by a new arrangement made in the course of the year for the transfer of the Burma Railways to a Company: these receipts on Capital Account enabled the Secretary of State not only to meet with ease the reduction imposed on his drawings and alluded to in paragraph 33 above, but also to pay off a million of temporary debt without renewing it.

The transaction in permanent debt in 1896-97 was the raising of a new loan, India 2½ per cent stock £2,400,000, which was used to pay off debentures nearly equal in amount.

88. For next year the requirements of the Secretary of State are considerably enhanced, as he has now to meet [illegible] charges of the Railway Companies

against the capital accumulated in 1896-97. On the other hand, our means of meeting his drawings in India are greatly limited, both by reason of the adverse circumstances of the year in respect of famine expenditure and by reason of the heavy Railway programme of expenditure. This last, as already fully explained, includes not only an unusually large amount of Railway construction on Government account, but also heavy outlay of Railway Companies, partly against these same receipts of Capital in last year's account.

89. We intend to supplement our resources in India by borrowing four crores of rupees; but as will be seen from the Ways and Means Account in India in Part II of this Statement, we estimate that we will not be able, even with this, to meet more than £13,000,000 of drawings during the year.

90. The Secretary of State is therefore obliged to have recourse to borrowing, and his present intention is to raise £3,500,000 of permanent debt, besides restoring the £1,000,000 by which in the current year he has diminished the temporary debt.

91. These announcements of the amounts of Council Bill drawings and of debt to be raised are made with the usual reservation of entire liberty to the Secretary of State to vary the amounts as he may find occasion.

92. Before passing from this subject I note that the year 1896-97 is remarkable as being the first in which the Government of India have secured for themselves the full benefit of the general reduction in the rate of interest. For the first time India sterling stock has been raised in England at 2½ per cent, and Indian rupee debt has been raised at 3 per cent, a premium having been obtained in each case. Moreover, we have also, in the contract for the transfer of the Burma Railways to a Company, been able for the first time to make the arrangements on the basis of a 2½ per cent guarantee.

Conclusion.

93. I concluded my statement last year with expressing the view that our financial prospects were "now very much more hopeful;" although I "refrained from any prophecies as to the future." Our prospects are for the present marred by the occurrence of widespread famine, and of pestilence which is as yet confined within a narrow area. I can only now express the hope that a year hence these disasters will have passed away, and that as the deficits I am now obliged to declare are certainly much smaller than the losses due to famine and scarcity, we shall, when relieved from these misfortunes, resume that financial progress which they have interrupted.

PART II

DETAILS OF THE ACCOUNTS AND ESTIMATES.

Section I.—The Accounts of 1895-96.

94. The Revised Estimates of 1895-96 anticipated a surplus of Rx. 951,400: the actual surplus of the year in the closed Accounts is considerably higher, being Rx. 1,533,998. *Accounts of 1895-96.*

Explanations of the variations under the several heads of the Account figures from those of the Budget and Revised Estimates will be found in the Appropriation Report published in the *Gazette of India* of the 13th instant. The following is a general comparison of the Revised Estimates with the Accounts of the year:—

		Revised Estimate.	Accounts.	Accounts, better.	Accounts, worse.
REVENUE.					
India	Rx.	97,509,000	97,977,005	468,005	...
England	£	210,300	223,417	13,117	...
Exchange	Rx.	158,600	169,745	11,145	...
TOTAL	Rx.	97,877,900	98,370,167	492,267	...
EXPENDITURE.					
India—					
Imperial, Provincial, and Local	Rx.	69,003,900	68,998,722	5,178	...
Adjustment of Provincial and Local Surplus or Deficit	Rx.	+383,000	+379,109	3,891	...
NET	Rx.	69,386,900	69,377,831	9,069	...
England	£	15,701,000	15,603,370	97,630	...
Exchange	Rx.	11,838,600	11,854,968	...	16,368
TOTAL	Rx.	96,926,500	96,836,169	90,331	...
SURPLUS	Rx.	951,400	1,533,998	582,598	...

95. The Expenditure in India fell short of the amount taken in the Revised Estimate by Rx. 5,178, and the Revenue in India exceeded that taken in the Revised Estimate by Rx. 468,005. The division of these two improvements between Imperial and Provincial was— *1895-96. General Results.*

	Imperial.	Provincial and Local.
	Rx.	Rx.
Increase in Revenue	422,307	45,698
Saving in Expenditure	54,767	...
Excess in Expenditure	...	49,589

the improvement in the Imperial section being Rx. 477,074. The average rate of exchange for the year, 13·638*d.* the rupee, was slightly lower than that taken in the Revised Estimates, 13·68*d.* the rupee, the sales of Council Bills in the latter part of March—when the selling rates were above the average of the year—having been less than expected. The Revenue in England, including Exchange, exceeded the Revised Estimate by Rx. 24,262, while there was a saving in Expenditure in England, including Exchange, of Rx. 81,262. The two last-

mentioned amounts, being both on the Imperial section of the Account, added to the improvement in India, Rx. 477,074, make up the total improvement of Rx. 582,598 in the Accounts as compared with the Revised Estimate.

1895-96. Revenue in India.

96. The most important items of the increase in Revenue in India were—

	Rx.
State Railways	183,594

The Railway traffic was heavy in March last.

	Rx.
Customs	127,078

The exports of rice and the imports of silver and cotton goods were large in March.

	Rx.
Salt	66,845

This occurred chiefly in Madras, the preference for payment of the duty in cash instead of taking credit on security having continued throughout March.

	Rx.
Opium	66,822

There was a slight revival in the Malwa Opium export trade in March last.

'95-96. Expenditure in India.

97. The variations in the Expenditure in India are unimportant, except increases of Rx. 113,264 under 14.—Interest (due to two years' interest instead of one year's only on one of the Service Funds having been charged in 1895-96: there will consequently be no charge in 1896-97) and of Rx. 54,778 under Military Works, and an overestimate of Rx. 88,088 under Army. Under other heads the Expenditure was, as a rule, less than in the Revised Estimate.

'5-96. Revenue and Expenditure in England.

98. The Revenue in England exceeded the Revised Estimate by £13,117, the increase being in Army Receipts. The Expenditure in England fell short of the Revised Estimate by £97,630, the decrease occurring mainly in the purchase of stores.

'-96. Expenditure not charged to Revenue.

99. The Expenditure not charged to Revenue amounted to Rx. 4,087,194, as compared with Rx. 4,327,200 entered in the Revised Estimate: the progress of expenditure in March last was not so great as was expected.

Section II.—The Revised Estimates of 1896-97.

-97. Statement of the figures.

100. The following is a general comparison of the Budget Estimates with the Revised Estimates of 1896-97:—

		Budget.	Revised.	Revised, better.	Revised, worse.
REVENUE.					
India	Rx.	97,316,800	93,273,600	...	4,043,200
England	£	174,100	319,400	145,300	...
Exchange	Rx.	129,800	210,800	81,000	...
TOTAL	Rx	97,620,700	93,803,800	...	3,816,900
EXPENDITURE.					
India—					
Imperial, Provincial, and Local	Rx.	70,274,900	70,657,400	...	382,500
Adjustment of Provincial and Local Surplus or Deficit	Rx.	—886,400	—1,228,500	342,100	...
NET	Rx.	69,388,500	69,428,900	...	40,400
England	£	15,900,400	15,880,600	28,800	...
Exchange	Rx.	11,859,700	10,481,200	1,378,500	...
TOTAL	Rx.	97,157,600	95,790,700	1,366,900	...
SURPLUS + DEFICIT —	Rx.	+463,100	—1,986,900	...	2,450,000

1896-97. Main features.

101. Famine in nearly all Provinces and plague in one Province are the governing factors of the year. The south-west monsoon rains ceased much earlier than usual, and a widespread failure of crops resulted. Though the winter rains have since been generally favourable, the distress is such that expenditure on Famine Relief has been necessary on a very heavy scale in the North-Western Provinces and Oudh, the Central Provinces, Bombay, and Bengal, and to a smaller extent in the Punjab, Madras, and Upper Burma; and in all the Provinces named, except Bengal (in which the Land Revenue, being permanently settled and levied at a lower rate than in other Provinces, is hardly affected by scarcity), large remissions or suspensions of Land Revenue and Provincial Rates have been made. The Railway Revenue has also been much reduced, a result largely due to the failure of crops; and Salt and other heads of Revenue have also been affected by the scarcity. In Bombay the plague has been added to the famine, and has seriously damaged both the trade and the Government Revenues. Fortunately it has not yet spread to other Provinces. There has, moreover, been a heavy loss of Revenue under Opium. On the other hand, the rate of exchange has risen during the year, the average rate being expected to be nearly 14·46*d.* the rupee, as compared with the rate of 13¾*d.* taken in the Budget Estimate: this has somewhat mitigated the effect, on the finances of the Government, of the calamities of the year. The final result is a deficit of about two crores.

1896-97. General Result

102. The total Revenue in India is expected to fall short of the Budget Estimate by no less than Rx. 4,043,200 and the total Expenditure in India to exceed the Budget Estimate by Rx. 382,500. In England the Expenditure is slightly less than the Budget Estimate, and the Receipts are higher, but the important feature in connection with the sterling figures is again, as it was last year, the large saving secured by the rise in the rate of exchange.

1896-97. Decreases of Revenue in Ind Land Revenue.

103. The falling-off in Land Revenue, including that due to Irrigation, is Rx. 2,432,100, and in Provincial Rates Rx. 131,800. The losses in the Provinces affected by famine are—

	Land Revenue.	Provincial Rates.
	Rx	Rx.
North-Western Provinces and Oudh . .	1,109,700	104,000
Bombay	418,800	33,200
Madras	394,000	...
Central Provinces	204,600	5,000
Upper Burma	162,000	...
Punjab	94,900	16,300

In Assam also, the Revenue under these heads is expected to be slightly less than the Budget Estimate, but that reduction is not in any way connected with famine. In Bengal and Lower Burma the Budget Estimates will be more than realised.

Railway Reven

104. The loss in Railway Revenue is—

	Rx.
State Railways, Gross Receipts	797,000
Guaranteed Railways, Net Receipts	623,000

It is probably not incorrect to attribute the whole of this loss also to the plague in Bombay and Karachi, which has paralysed business in those cities, and to the scarcity, which being very widespread does not lead to traffic from one part of India to another as scarcity in one Province combined with plenty in another does. Indeed the loss due to these causes is probably greater, as the traffic receipts would probably, had these calamities not come upon the country, have exceeded the Budget Estimates, which were cautiously framed, the improvement in Railway earnings in 1895-96 having been specially great.

The following list of the principal diminutions in gross receipts will show that the loss in Railway Revenue has been nearly as widespread as that in Land Revenue :—

	Rx.
North-Western Railway	310,000
Rajputana-Malwa Railway	380,000
Oudh and Rohilkhand Railway	170,000
Bengal-Nagpur Railway	80,000
East Indian Railway	20,100
South Indian Railway	15,000
Southern Mahratta Railway	10,000
Great Indian Peninsula Railway	350,000
Bombay, Baroda and Central India Railway	260,000
Madras Railway	50,000

As an exception to the general rule of the year, there have been increases on some Railways, the only ones of importance being—

	Rx.
Eastern Bengal Railway	180,000
Burma Railway	65,000

These are due to specially good crops, in the first case, of jute, and in the second, of rice.

n Revenue.

105. The loss in Opium Revenue amounts to Rx. 508,600.

The quantity of Bengal Opium sold is the same as was taken in the Budget Estimate. But the average price realised has been only R1,243-10-10 instead of R1,300 a chest. This has reduced the receipts in Bengal by Rx. 216,300.

The quantity of Malwa Opium exported has declined very seriously, with the result that the receipts in Bombay have fallen by Rx. 282,800.

venue.

106. The reduction in Salt Revenue amounts to Rx. 261,800 : it is distributed over all the Provinces in which Salt Revenue is realised, except Bengal. In Burma the loss is Rx. 24,200 : the Salt administration in that Province is not yet satisfactory. The diminution in Madras of Rx. 110,100 is believed to represent mainly a postponement of payment of the duty from this year to next, the low price of Government paper having induced the dealers to avail themselves of the six months' credit which is allowed if security is pledged, but may also be partly due to the scarcity. In Bombay the loss of Rx. 105,000 is attributed to the scarcity and the paralysis of business caused by the plague. The smaller reduction of Rx. 30,000 in the Northern India Salt Department is probably also due in large part to the scarcity.

Revenue.

107. The Excise Revenue will fall short of the Budget Estimate by Rx. 131,500. This loss also is attributable to the famine. The loss in the North-Western Provinces and Oudh is Rx. 125,000, in Bombay Rx. 60,000, in the Central Provinces Rx. 40,000, and in the Punjab Rx. 1,700. On the other hand, there are increases of Rx. 35,000 in Madras, Rx. 32,300 in Burma, and Rx. 25,000 in Bengal.

108. In partial reduction of the heavy losses above set forth there have been increases under a few heads.

of in India.

n

109. The most important of these is an increase of Rx. 352,500 in the direct receipts of Major Irrigation Works : of this, Rx. 190,300 occur in the Punjab and Rx. 145,500 in the North-Western Provinces and Oudh. This small set-off against the effects of the famine on other Revenues is due to the same cause as the famine : the failure of rain has induced the cultivators to make greater use of irrigation. In paragraph 118 of the Financial Statement for 1896-97 it was explained that the Budget Estimate under this head was abnormally high, and had been subjected to careful scrutiny before being accepted. The further failure of the rains which was not anticipated in the Budget Estimate has raised the receipts still higher. In Bengal also the receipts from the water-rate on the Orissa and Sone Canals and from the navigation dues on the Orissa and Hidgellee

Tidal Canals have increased, and the Revised Estimate in Bengal exceeds the Budget Estimate by Rx. 19,000.

Mint Receipts.

110. The receipts under Mint exceed the Budget Estimate by Rx. 103,800. This is indirectly connected with the scarcity: the famine relief works lead to a very large absorption of copper coin: there is a gain on all copper coins issued, the nominal value of the pieces being greater than the cost of the copper and of manufacture. This gain is expected this year to reach the unprecedented amount of Rx. 122,000. The Calcutta Mint has been unusually busy in supplying the demand for copper, and both Mints are manufacturing in addition a specially large quantity of small silver coins, which are also required at the relief works.

Customs Revenue.

111. The Customs Revenue is expected to exceed the Budget Estimate by Rx. 34,800. There is an increase of Rx. 100,200 in the duty on silver, the imports of which have been higher than it was thought safe to take in the Estimate. On the other hand, the export duty on rice is expected to yield less than the Budget Estimate by Rx. 80,700, as much of the rice which would have been exported has been sent to the famine-stricken districts. On other articles there is no difference of importance between the Budget and Revised Estimates.

Interest Receipts.

112. In the Interest Receipts there was a solid gain of Rx. 124,700 from the premium at which the 3 per cent loan of four crores was issued. The increase under the head is, however, reduced to Rx. 79,300, mainly by the remission of Rx. 40,000 of interest due by the Calcutta Port Trust.

XXIV.—Exchange.

113. There is an increase of Rx. 61,400 under the head XXIV.—Exchange. The difficulties in the way of making accurate estimates under this head have been explained in previous Financial Statements.

1896-97.

Increases of Expenditure in India.

Famine Relief.

114. The Expenditure in India like the Revenue has been overshadowed by the famine. When the Financial Statement issued, there was fear of scarcity only in the North-Western Provinces and Oudh, to meet which a provision of Rx. 70,000 was expected to be sufficient. The failure of the monsoon has, however, necessitated expenditure in every Province, except Lower Burma and Assam. The amounts required for this expenditure up to the end of this month according to the estimates of the Local Governments are—

	Rx.
North-Western Provinces and Oudh	1,100,000
Bengal	359,200
Central Provinces	335,000
Bombay	348,000
Punjab	115,900
Madras	80,700
Upper Burma	58,100
TOTAL	2,396,900

The Government of India have given the Local Governments full liberty to spend up to those amounts, or even beyond them, if necessary, for the relief of distress. But there is no doubt that the Local Governments (except those of the North-Western Provinces and Burma) have overestimated the probable expenditure. We know the total expenditure and the number of persons relieved up to the end of January, and also the number of persons relieved in February. On consideration of these data we believe that the total expenditure this year will not exceed Rx. 1,950,000, and we have therefore entered that amount in the Revised Estimate, distributing it as follows:—

	Rx.
North-Western Provinces and Oudh	1,100,000
Bengal	230,000
Central Provinces	215,000
Bombay	251,000
Punjab	55,900
Madras	40,000
Upper Burma	58,100
TOTAL	1,950,000

Of course, this reduction of the figures entered in the Revised Estimate will have no effect on the actual expenditure. In addition to the amounts above stated for the several Provinces, there is a small expenditure of Rx. 1,200 on the salaries of officers supervising relief operations in Native States, and of £8,700 in England on the purchase of seeds.

tribution of mine Relief penditure in 6-97.
